

Estimated Number of Total Annual Responses: 210.

Estimated Number of Responses per Respondent: 1.

Estimated Total Annual Burden on Respondents: 52.5 hours.

Comments are invited on: (1) Whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility; (2) the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Erin Morris,

Associate Administrator, Agricultural Marketing Service.

BILLING CODE 3410-02-P

DEPARTMENT OF AGRICULTURE

Submission for OMB Review; Comment Request

The Department of Agriculture has submitted the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104-13. Comments are required regarding; whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; ways to enhance the quality, utility and clarity of the information to be collected; and ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Comments regarding this information collection received by January 8, 2024 will be considered. Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the

following website www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

Farm Service Agency

Title: Transfer of Farm Records Between Counties.

OMB Control Number: 0560-0253.

Summary of Collection: The Farm Service Agency (FSA) programs are administered on the basis of "farm". For program purposes, a farm is a collection of tracts of land that have the same owner and the same operator. Land with different owners may be considered to be a farm if all the land is operated by one person and additional criteria are met. A farm is typically administered in the FSA county office where the farm is physically located. A farm can be transferred from the physical location county office if the principal dwelling of the farm operator has changed, a change has occurred in the operation of the land, or there has been a change that would cause the receiving administrative county office to be more accessible. FSA-179, "Transfer of Farm Record between Counties," is used as the request for a farm transfer from one county to another initiated by the producer.

Need and Use of the Information: The information collected on the FSA-179 is collected only if a farm transfer is being requested and is collected in a face-to-face setting with county office personnel. The information is used by county office employees to document which farm is being transferred, what county it is being transferred to, and why it is being transferred. The FSA-179 assists county committees in determining why the farm transfer is being requested and that it is not being requested for the purpose of increased program benefits, avoiding payment reductions, establishing eligibility to transfer base acres, or for circumventing any other programs provision. Without the information county offices will be unable to determine whether the producer desires to transfer a farm.

Description of Respondents: Farms.
Number of Respondents: 7,539.

Frequency of Responses: Reporting: On occasion.

Total Burden Hours: 1,256.

Ruth Brown,

Departmental Information Collection Clearance Officer.

DEPARTMENT OF AGRICULTURE

Food and Nutrition Service

Agency Information Collection Activities: Supplemental Nutrition Assistance Program Education (SNAP-Ed) Connection Resource Sharing Form

AGENCY: Food and Nutrition Service (FNS), United States Department of Agriculture (USDA).

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, this notice invites the general public and other public agencies to comment on this proposed revision to the currently approved information collection for the Supplemental Nutrition Assistance Program (SNAP) form FNS-889, "SNAP Education (SNAP-Ed) Connection Resource Sharing Form." This revision to the information collection will improve the submission process by clarifying the information requested for certain fields, thus providing data that is accurate and beneficial to stakeholders using the resource. These updates will also align with the new SNAP-Ed National Program Evaluation and Reporting System (N-PEARS) (OMB Control #0584-0683, expiration 4/30/2026), to ensure consistency with SNAP-Ed specific terms. With this update to form FNS-889, FNS has determined that nutrition and physical activity interventions (*i.e.*, educational materials, curricula, etc.), will no longer be accepted through this information collection.

DATES: Comments on this notice must be received on or before February 6, 2024 to be assured of consideration.

ADDRESSES: Comments may be sent to Aurora Calvillo Buffington, Food and Nutrition Service, Supplemental Nutrition Assistance Program, Program Administration and Nutrition Division, 1320 Braddock Place, 5th Floor, Alexandria, VA 22314. Comments may also be submitted via email to snap-edconnection@usda.gov or through the Federal eRulemaking Portal. Go to <http://www.regulations.gov>, and follow

the online instructions for submitting comments electronically.

All responses to this notice will be summarized and included in the request for Office of Management and Budget approval. All comments will become a matter of public record.

FOR FURTHER INFORMATION CONTACT:

Requests for additional information or copies of this information collection should be directed to Brittany Souvenir at 703-305-2808 or Brittany.Souvenir@usda.gov.

SUPPLEMENTARY INFORMATION: Comments are invited on: (a) whether the proposed collection of information is necessary for the proper performance of agency functions, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and the assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on those who respond, including the use of appropriate automated, electronic, mechanical, or other technology.

Title: SNAP-Ed Connection Resource Sharing Form.

Form Number: FNS-889.

OMB Control Number: 0584-0625.

Expiration Date: 06/30/2024.

Type of Request: Revision of currently approved data collection.

Abstract: In 2001, the United States Department of Agriculture's (USDA) Food and Nutrition Service (FNS) established the Food Stamp Nutrition Connection to improve access to Food Stamp Program Education resources. In 2008, FNS renamed the website the SNAP-Ed Connection. The website is developed and maintained at FNS. The SNAP-Ed Connection is a resource website for SNAP-Ed administrators and educators. SNAP-Ed personnel use the SNAP-Ed Connection website to locate curricula, participant materials, nutrition research, administrative documents, and information regarding SNAP-Ed program development, implementation, and evaluation. This resource website helps SNAP-Ed personnel find tools and information needed to implement high-quality evidence-based obesity prevention programs.

Within SNAP-Ed Connection is the SNAP-Ed Library, an online database of SNAP-Ed-related materials. SNAP-Ed personnel and other nutrition and public health agencies use the SNAP-Ed Connection Resource Sharing Form FNS-889, to voluntarily share

information about resources that can be used to administer, develop, implement, or showcase SNAP-Ed programs.

Information collected via this form enables FNS to review these resources for possible inclusion in the SNAP-Ed Library. SNAP-Ed personnel and other interested parties then search this database via the SNAP-Ed Connection website <https://snaped.fns.usda.gov> to locate materials of interest. By using this database, SNAP-Ed-funded programs can share resources, reduce duplication of efforts, and improve program quality and integrity. SNAP-Ed-funded programs can also learn about useful nutrition education materials created by other organizations.

Prior to this proposed update, the FNS-889 was used to submit the following materials to the SNAP-Ed Library: nutrition and physical activity interventions (*i.e.*, educational materials, curricula, etc.) appropriate for SNAP-eligible persons; materials related to the development, implementation, and administration of SNAP-Ed programs (*e.g.*, staff training materials); and reports or other materials that demonstrate the effectiveness of SNAP-Ed funded programs.

Moving forward, FNS will no longer accept the submission of nutrition and physical activity interventions for the SNAP-Ed library through the SNAP-Ed Connection Resource Sharing Form. FNS will review and accept nutrition and physical activity interventions during the biennial SNAP-Ed Toolkit intervention submission process (OMB Control #0584-0639, expiration 9/30/2024). This change ensures FNS uses the same submission criteria for interventions submitted to the SNAP-Ed Library and the SNAP-Ed Toolkit. FNS will conduct a notice and comment period for an updated SNAP-Ed Toolkit intervention submission process in Fiscal Year 2024. The FNS-889 will continue to be used for all other currently accepted materials such as staff training materials and SNAP-Ed reports. Respondents will provide contact information, ordering information (if applicable), and information about the resource they are submitting.

Additionally, respondents will submit the form information through an online survey and email relevant attachments to the SNAP Program. This change will allow uninterrupted access to the form as the SNAP-Ed Connection website undergoes extensive changes and updates, including enhanced security measures for attachments. Revisions to this form may add an estimated 5 minutes of burden for respondents.

Revisions to the FNS-889 include updated data elements to clarify the requested information such as renaming the *Format* section to "Resource Type" and adding "school/community" to the "Garden" field. The updates also align with N-PEARS for consistent use of terms. For instance, the form includes the updated field names "Faith-based Centers" and "Tribes and Tribal Organizations," which align with N-PEARS (OMB Control # 0584-0683, expiration 4/30/2026) and are widely understood by SNAP-Ed providers.

The following updates to FNS-889 are projected:

Removal of the "Add another item," box used to submit attachments and replace with instructions to email attachments to the SNAP-Ed Connection email address.

Removal of the *Evidence* section.

Removal of seven fields from the *Format* section: "Curriculum," "Evaluation Tools," "FNS Materials," "Guidance," "PSE Change," "SNAP-Ed Toolkit Interventions," and "Social Marketing."

Addition of Data element: Addition of a field "Webinar," to the *Format* section.

Revision of Section title: Retitle *Format* section to "Resource Type."

Revision of Data element: Revision of field name "Faith Centers," in *Setting* section to "Faith-based Centers."

Revision of Data element: Revision of field name "Indian Reservations," in *Setting* section to "Tribal Reservations."

Addition of Data element: Addition of language "school/community," to the field "Gardens," in the *Setting* section.

Addition of Data element: Addition of four fields "Tribes and Tribal Organizations," "Individuals with Disabilities," "People Experiencing Homelessness," and "Food Pantry Clients," to the *Audience* section.

Reporting

Affected Public: 19 State, Local and Tribal Agencies and 5 Businesses (for profit and non-profit). Respondents may include SNAP-Ed State, Local and Tribal Agencies, and others who implement SNAP-Ed or develop nutrition and public health training materials.

Estimated Number of Respondents: This revised collection is estimated to receive 24 responses per year. The estimated number of State, Local and Tribal Agency responses is 19, which is an increase from the current estimated number of 14. The estimated number of Businesses is 5, which is a decrease from the current estimated number of 10. The changes for these estimates are due to assumptions that more State,

Local and Tribal Agencies will submit reports and staff training materials, and less Businesses will respond as interventions are no longer being accepted through this form.

Estimated Number of Responses per Respondent: This revised collection is estimated to receive 1.79 responses per respondent which is a reduction to the current estimated number of 4.44. The estimated decrease is due to interventions no longer being accepted through this form.

Estimated Total Annual Responses: This revised collection is estimated to

receive 43 responses, which is a reduction to the current estimated total annual responses of 111. The estimated decrease in responses is due to interventions no longer being accepted through this form.

Estimated Time per Response: The estimated time per response for this voluntary collection is 0.25 hours (15 minutes), which is an increase from the current estimated time per response of 0.167 hours (10 minutes). The estimated increase in time per response is due to the change of submitting relevant

attachments by email instead of through the database.

Estimated Total Annual Burden on Respondents: The estimated total annual burden on respondents for this voluntary collection is 10.75 hours, which is a reduction from the current estimated total annual burden hours of 18.54. The estimated decrease in total annual burden hours is due to interventions no longer being accepted through this form.

See burden estimate table below for details.

BURDEN ESTIMATE TABLE

Respondent category	Instruments	Number of respondents	Frequency of response	Total annual responses	Hours per response	Annual burden (hours)
State, Local or Tribal Agencies	SNAP-Ed Connection Resource Sharing Form.	19	2	38	0.25	9.50
Business-for-not-for-profit	SNAP-Ed Connection Resource Sharing Form.	5	1	5	0.25	1.25
Total	24	1.79	43	0.25	10.75

Tameka Owens,
Assistant Administrator, Food and Nutrition Service.

DEPARTMENT OF AGRICULTURE

Forest Service

Final Record of Decision for the Tonto National Forest

AGENCY: Forest Service, Agriculture (USDA).

ACTION: Notice of approval of the revised Land Management Plan for the Tonto National Forest.

SUMMARY: Neil Bosworth, the Forest Supervisor for the Tonto National Forest, Southwestern Region, signed the Final Record of Decision (ROD) for the revised Land Management Plan (LMP) for the Tonto National Forest. The ROD documents the rationale for approving the revised LMP and is consistent with the Reviewing Officer's responses to objections and instructions.

DATES: The revised LMP for the Tonto National Forest will become effective 30 days after the publication of this notice of approval in the **Federal Register** (36 CFR 219.17(a)(1)).

ADDRESSES: To view the final ROD, Final Environmental Impact Statement (FEIS), revised LMP, and other related documents, please visit the Tonto National Forest website at: [https://](https://www.fs.usda.gov/main/tonto/landmanagement/planning)

www.fs.usda.gov/main/tonto/landmanagement/planning. A legal notice of approval is also being published in the newspaper of record, the Arizona Capitol Times. A copy of this legal notice will be posted on the Tonto National Forest's website as listed above.

FOR FURTHER INFORMATION CONTACT:

Tyna Yost, Acting Forest Planner, Tonto National Forest, by telephone 602-225-5200 or via email at SM.FS.tontoplan@usda.gov.

Individuals who use telecommunication devices for the deaf and hard of hearing (TDD) may call the Federal Relay Service at 800-877-8339, 24 hours a day, every day of the year, including holidays. Written requests for information may be sent to Tonto National Forest, Attn: Tonto National Forest Plan Revision, 2324 E McDowell Rd., Phoenix, AZ 85006.

SUPPLEMENTARY INFORMATION: The Tonto National Forest covers six ranger districts across nearly 2.9 million acres of National Forest System land in central Arizona overlapping the counties of Coconino, Gila, Maricopa, Pinal, and Yavapai. The LMP was developed pursuant to the 2012 Forest Service Planning Rule (36 CFR 219) and will replace the 1985 LMP. The revised LMP describes desired conditions, objectives, standards, guidelines, and land suitability for project and activity decision-making and will guide all resource management activities on the Forest.

The Tonto National Forest plays an important role supporting and partnering with communities in central Arizona and throughout the southwestern United States by providing economic benefits including fuelwood gathering, livestock grazing, mining, and abundant recreational opportunities. The development of the revised LMP was shaped by the best available scientific information, current laws, and public input.

The Tonto National Forest lies adjacent to the Phoenix metropolitan area, making it one of the most heavily visited National Forests. It spans a range of ecosystems from the Sonoran Desert through a variety of chaparral and pinyon pine/juniper up to the ponderosa pine and mixed conifer of the Mogollon Rim. The Tonto's rivers and lakes maintain riparian habitat and habitat connectivity for wildlife, including most of the Forest's Endangered Species Act listed species, and provide diverse opportunities for water-based recreation. Additionally, over half of the water supply for the city of Phoenix comes from these reservoirs.

The Tonto National Forest initiated LMP revision in 2014 and engaged the public frequently throughout the process. This engagement effort has included conventional public meetings, information sharing via social media, and collaborative work sessions with cooperating agencies. The Forest invited State, local, and Tribal governments, and other Federal Agencies from around the region to participate in the process
