

2. “Issues Relating to VOC Regulation Cutpoints, Deficiencies, and Deviations,” EPA, May 25, 1988 (the Bluebook, revised January 11, 1990).

3. “Guidance Document for Correcting Common VOC & Other Rule Deficiencies,” EPA Region IX, August 21, 2001 (the Little Bluebook).

4. “Control Techniques Guidelines for the Oil and Natural Gas Industry,” EPA-453/B-16-001, October 2016.

B. Does the rule meet the evaluation criteria?

This rule meets CAA requirements and is consistent with relevant guidance regarding enforceability and SIP revisions. The TSD has more information on our evaluation.

C. EPA Recommendations To Further Improve the Rule

The TSD includes recommendations for the next time VCAPCD modifies the rule.

D. Public Comment and Proposed Action

As authorized in section 110(k)(3) of the Act, the EPA proposes to fully approve the submitted rule because it fulfills all relevant requirements. We will accept comments from the public on this proposal until January 11, 2024. If we take final action to approve the submitted rule, our final action will incorporate this rule into the federally enforceable SIP.

III. Incorporation by Reference

In this rule, the EPA is proposing to include in a final EPA rule regulatory text that includes incorporation by reference. In accordance with requirements of 1 CFR 51.5, the EPA is proposing to incorporate by reference VCAPCD Rule 71, revised on May 11, 2021, which regulates definitions of terms. The EPA has made, and will continue to make, these materials available through <https://www.regulations.gov> and at the EPA Region IX Office (please contact the person identified in the **FOR FURTHER INFORMATION CONTACT** section of this preamble for more information).

IV. Statutory and Executive Order Reviews

Under the Clean Air Act, the Administrator is required to approve a SIP submission that complies with the provisions of the Act and applicable federal regulations. 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, the EPA’s role is to approve state choices, provided that they meet the criteria of the Clean Air Act. Accordingly, this proposed action merely proposes to approve state law as

meeting Federal requirements and does not impose additional requirements beyond those imposed by state law. For that reason, this proposed action:

- Is not a significant regulatory action subject to review by the Office of Management and Budget under Executive Orders 12866 (58 FR 51735, October 4, 1993) and 14094 (88 FR 21879, April 11, 2023);
- Does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*);
- Is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);
- Does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104-4);
- Does not have federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);
- Is not subject to Executive Order 13045 (62 FR 19885, April 23, 1997) because it proposes to approve a state program;
- Is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001); and
- Is not subject to requirements of Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the Clean Air Act.

In addition, the SIP is not approved to apply on any Indian reservation land or in any other area where the EPA or an Indian tribe has demonstrated that a tribe has jurisdiction. In those areas of Indian country, the rule does not have tribal implications and will not impose substantial direct costs on tribal governments or preempt tribal law as specified by Executive Order 13175 (65 FR 67249, November 9, 2000).

Executive Order 12898 (Federal Actions To Address Environmental Justice in Minority Populations and Low-Income Populations, 59 FR 7629, Feb. 16, 1994) directs Federal agencies to identify and address “disproportionately high and adverse human health or environmental effects” of their actions on minority populations and low-income populations to the greatest extent practicable and permitted by law. The EPA defines environmental justice (EJ) as “the fair treatment and meaningful involvement of all people regardless of race, color, national origin, or income with respect to the development, implementation,

and enforcement of environmental laws, regulations, and policies.” The EPA further defines the term fair treatment to mean that “no group of people should bear a disproportionate burden of environmental harms and risks, including those resulting from the negative environmental consequences of industrial, governmental, and commercial operations or programs and policies.”

The State did not evaluate environmental justice considerations as part of its SIP submittal; the CAA and applicable implementing regulations neither prohibit nor require such an evaluation. The EPA did not perform an EJ analysis and did not consider EJ in this action. Due to the nature of the action being taken here, this action is expected to have a neutral to positive impact on the air quality of the affected area. Consideration of EJ is not required as part of this action, and there is no information in the record inconsistent with the stated goal of E.O. 12898 of achieving environmental justice for people of color, low-income populations, and Indigenous peoples.

List of Subjects in 40 CFR Part 52

Environmental protection, Air pollution control, Incorporation by reference, Intergovernmental relations, Ozone, Particulate matter, Reporting and recordkeeping requirements, Volatile organic compounds.

Dated: December 2, 2023.

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 55

[EPA-R04-OAR-2023-0535; FRL-11589-01-R4]

Outer Continental Shelf Air Regulations; Consistency Update for North Carolina

AGENCY: Environmental Protection Agency.

ACTION: Proposed rule; consistency update.

SUMMARY: The Environmental Protection Agency (EPA) is proposing to update a portion of the Outer Continental Shelf (OCS) Air Regulations. Requirements applying to OCS sources located within 25 miles of States’ seaward boundaries must be updated periodically to remain consistent with the requirements of the corresponding onshore area (COA), as

mandated by section 328(a)(1) of the Clean Air Act (CAA). The portion of the OCS air regulations that is being updated pertains to the requirements for OCS sources for which North Carolina is the designated COA. North Carolina's requirements discussed in this document are proposed to be incorporated by reference into the Code of Federal Regulations and listed in the appendix to the OCS air regulations.

DATES: Written comments must be received on or before January 11, 2024.

ADDRESSES: Submit your comments, identified by Docket ID No. EPA–R04–OAR–2023–0535 at <https://www.regulations.gov>. Follow the online instructions for submitting comments. Once submitted, comments cannot be edited or removed from *Regulations.gov*. EPA may publish any comment received to its public docket. Do not submit electronically any information you consider to be confidential business information (CBI) or other information whose disclosure is restricted by statute. Multimedia submissions (audio, video, etc.) must be accompanied by a written comment. The written comment is considered the official comment and should include discussion of all points you wish to make. EPA will generally not consider comments or comment contents located outside of the primary submission (*i.e.*, on the web, cloud, or other file sharing system). For additional submission methods, the full EPA public comment policy, information about CBI or multimedia submissions, and general guidance on making effective comments, please visit <https://www.epa.gov/dockets/commenting-epa-dockets>.

The telephone number is (404) 562–9170. Ms. Weil can also be reached via electronic mail at weil.kathleen@epa.gov.

SUPPLEMENTARY INFORMATION:

I. Background

On September 4, 1992, EPA promulgated 40 CFR part 55, which established requirements to control air pollution from OCS sources in order to attain and maintain Federal and State ambient air quality standards and to comply with the provisions of part C of title I of the CAA. The regulations at 40 CFR part 55 apply to all OCS sources except those located in the Gulf of Mexico west of 87.5 degrees longitude. See 40 CFR 55.3(a). Section 328 of the

CAA requires that for such sources located within 25 miles of a State's seaward boundary, the requirements shall be the same as would be applicable if the sources were located in the COA. Because the OCS requirements are based on onshore requirements, and onshore requirements may change, section 328(a)(1) requires that EPA update the OCS requirements as necessary to maintain consistency with onshore requirements.

Pursuant to 40 CFR 55.12, consistency reviews will occur: (1) At least annually where an OCS activity is occurring within 25 miles of a State seaward boundary; (2) upon receipt of a Notice of Intent (NOI) under 40 CFR 55.4; or (3) when a State or local agency submits a rule to EPA to be considered for incorporation by reference in 40 CFR part 55. This proposed action is being taken in preparation for a potential upcoming OCS project due to receipt of an NOI. Public comments received in writing within 30 days of publication of this document will be considered by EPA before publishing a final rule.

Section 328(a) of the CAA requires that EPA establish requirements to control air pollution from OCS sources located within 25 miles of States' seaward boundaries that are the same as onshore requirements. To comply with this statutory mandate, EPA must incorporate applicable onshore rules into 40 CFR part 55 as they exist onshore. This limits EPA's flexibility in deciding which requirements will be incorporated into 40 CFR part 55 and prevents EPA from making substantive changes to the requirements it incorporates. As a result, EPA may be incorporating rules into 40 CFR part 55 that do not conform to all of EPA's State Implementation Plan (SIP) guidance or certain requirements of the CAA. Consistency updates may result in the inclusion of State or local rules or regulations into 40 CFR part 55, even though the same rules may ultimately be disapproved for inclusion as part of the SIP. Inclusion in the OCS rule does not imply that a rule meets the requirements of the CAA for SIP approval, nor does it imply that the rule will be approved by EPA for inclusion in the SIP.

II. EPA Analysis

EPA reviewed North Carolina's rules for inclusion in 40 CFR part 55 to ensure that they are rationally related to the attainment or maintenance of Federal or State ambient air quality standards and compliance with part C of title I of the CAA, that they are not designed expressly to prevent exploration and development of the OCS, and that they are potentially

applicable to OCS sources. See 40 CFR 55.1. EPA has also evaluated the rules to ensure they are not arbitrary or capricious. See 40 CFR 55.12(e). In addition, EPA has excluded administrative or procedural rules, and requirements that regulate toxics which are not related to the attainment and maintenance of Federal and State ambient air quality standards.¹

III. Proposed Action

EPA last did a consistency update for North Carolina on March 3, 2009 (74 FR 9166). In that action, EPA incorporated by reference into 40 CFR part 55 all North Carolina regulations that EPA believed were relevant to the OCS requirements. For this proposed action, EPA has reviewed changes that North Carolina has made to its underlying regulatory programs since the last consistency update. This proposed action will have no effect on any provisions that were not subject to changes by North Carolina and were also previously incorporated by reference into Part 55 through EPA's March 3, 2009, rulemaking. The rules that EPA proposes to incorporate are applicable provisions of the North Carolina Administrative Code (NCAC) and are listed in detail at the end of this Notice. The intended effect of proposing approval of the OCS requirements for the North Carolina Department of Environmental Quality (NCDEQ) is to regulate emissions from OCS sources in accordance with the requirements for onshore sources. EPA is soliciting public comments on the issues discussed in this document. These comments will be considered before taking final action.

IV. Incorporation by Reference

In this document, EPA is proposing to include in a final EPA rule regulatory text that includes incorporation by reference. In accordance with the requirements of 1 CFR 51.5, and as discussed in Sections II and III of this preamble, EPA is proposing to incorporate by reference the North Carolina rules set forth below. EPA has made, and will continue to make, these materials available through www.regulations.gov and at the EPA Region 4 Office (please contact the person identified in the **FOR FURTHER**

¹ Each COA which has been delegated the authority to implement and enforce 40 CFR part 55 will use its administrative and procedural rules as onshore. However, in those instances where EPA has not delegated authority to implement and enforce 40 CFR part 55, EPA will use its own administrative and procedural requirements to implement the substantive requirements. See 40 CFR 55.14(c)(4).

INFORMATION CONTACT section of this preamble for more information).

V. Statutory and Executive Order Reviews

Under the Clean Air Act, the Administrator is required to establish requirements to control air pollution from OCS sources located within 25 miles of States' seaward boundaries that are the same as onshore air pollution control requirements. To comply with this statutory mandate, the EPA must incorporate applicable onshore rules into 40 CFR part 55 as they exist onshore. *See* 42 U.S.C. 7627(a)(1); 40 CFR 55.12. Thus, in promulgating OCS consistency updates, EPA's role is to maintain consistency between OCS regulations and the regulations of onshore areas, provided that they meet the criteria of the CAA. Accordingly, this proposed action simply proposes to update the existing OCS requirements that have been revised since the last consistency review to make them consistent with requirements onshore, without the exercise of any policy direction by EPA. For that reason, this proposed action:

- Is not a significant regulatory action subject to review by the Office of Management and Budget under Executive Orders 12866 (58 FR 51735, October 4, 1993) and 14094 (88 FR 21879, April 11, 2023);
- Does not impose an information collection burden under the provisions of the Paperwork Reduction Act (PRA) (44 U.S.C. 3501 *et seq.*);
- Is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);
- Does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104–4);
- Does not have Federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);
- Is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);
- Is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001); and
- Is not subject to requirements of section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the CAA.

Additionally, Executive Order 12898 (59 FR 7629, February 16, 1994) directs

Federal agencies, to the greatest extent practicable and permitted by law, to make environmental justice part of their mission by identifying and addressing, as appropriate, disproportionately high and adverse human health or environmental effects of their programs, policies, and activities on minority populations (people of color and/or Indigenous peoples) and low-income populations.

EPA believes that this specific proposed action does not concern human health or environmental conditions and therefore cannot be evaluated with respect to potentially disproportionate and adverse effects on people of color, low-income populations and/or Indigenous peoples. This proposed action simply fulfills EPA's statutory mandate to ensure regulatory consistency between the COA and inner OCS consistent with the Stated objectives of CAA section 328(a)(1). Specifically, section 328(a)(1) requires EPA to establish requirements to control air pollution from OCS sources "to attain and maintain Federal and State ambient air quality standards and to comply with the provisions of part C of [title I of the CAA]" and, for inner OCS sources (located within 25 miles of the seaward boundary of such States), to establish requirements that are "the same as would be applicable if the source were located in the COA." This section of the Act also States that "the Administrator shall update such requirements as necessary to maintain consistency with onshore regulations and this chapter." As noted in the preamble, compliance with this requirement limits EPA's discretion in deciding what will be incorporated into 40 CFR part 55.

The State regulations relevant to the OCS that are proposed for incorporation into the CFR went through North Carolina's public rulemaking process, including public notice and comment. This proposed action seeks to incorporate into the CFR those State regulations, which are already effective onshore, to ensure regulatory consistency with the COA as mandated by CAA section 328(a)(1). This is a routine and ministerial consistency update that does not directly affect any human health or environmental conditions. In addition, EPA is providing for meaningful public involvement on this rule through the notice and comment process.

This proposed rule to incorporate by reference sections of the NCAC into the CFR does not apply on any Indian reservation land as defined in 18 U.S.C. 1151 or in any other area where EPA or an Indian tribe has demonstrated that a

tribe has jurisdiction. In those areas of Indian country, this rule incorporating by reference sections of the NCAC does not have Tribal implications and will not impose substantial direct costs on Tribal governments or preempt Tribal law as specified by Executive Order 13175 (65 FR 67249, November 9, 2000).

This proposed action does not impose any new information collection burden under the PRA. The Office of Management and Budget (OMB) has previously approved the information collection activities contained in the existing regulations at 40 CFR part 55 and, by extension, this update to Part 55, and has assigned OMB control number 2060–0249. This proposed action does not impose a new information burden under PRA because this proposed action only proposes to update the State rules that are incorporated by reference into 40 CFR part 55, Appendix A.²

List of Subjects in 40 CFR Part 55

Environmental protection, Administrative practice and procedure, Air pollution control, Carbon monoxide, Incorporation by reference, Intergovernmental relations, Lead, Nitrogen dioxide, Outer continental shelf, Ozone, Particulate matter, Permits, Reporting and recordkeeping requirements, Sulfur oxides, Volatile organic compounds.

Dated: December 5, 2023.

Jeaneanne Gettle,

Acting Regional Administrator, Region 4.

Part 55 of Chapter I, title 40 of the Code of Federal Regulations is proposed to be amended as follows:

PART 55—OUTER CONTINENTAL SHELF AIR REGULATIONS

- 1. The authority citation for part 55 continues to read as follows:

Authority: Section 328 of the Clean Air Act (42 U.S.C. 7401 *et seq.*) as amended by Public Law 101–549.

- 2. Amend § 55.14 by revising paragraph (e)(17)(i)(A) to read as follows:

§ 55.14 Requirements that apply to OCS sources located within 25 miles of States' seaward boundaries, by State.

- * * * * *
- (e) * * *
- (17) * * *
- (i) * * *

² OMB's approval of the ICR can be viewed at www.reginfo.gov.

(A) State of North Carolina Air Pollution Control Requirements Applicable to OCS Sources, November 8, 2023

* * * * *

■ 3. Appendix A to part 55 is amended by revising paragraph (a)(1) under the heading “North Carolina” to read as follows:

Appendix A to Part 55—Listing of State and Local Requirements Incorporated by Reference Into Part 55, by State

* * * * *

North Carolina:

(a) * * *

(1) The following State of North Carolina requirements are applicable to OCS sources, November 8, 2023, State of North Carolina—Department of Environmental Quality.

- 02D. 2621 Determination of pollutant emissions using the f-factor (Effective 11/01/2019)

Subchapter 02Q—Air Quality Permits Procedures

Section .0100—General Provisions

- 02Q. 0101 Required air quality permits (Effective 4/1/18)
- 02Q. 0102 Activities exempted from permit requirements (Effective 11/01/2023)
- 02Q. 0103 Definitions (Effective 09/01/2022)
- 02Q. 0104 Where to obtain and file permit applications (Effective 09/01/2023)
- 02Q. 0105 Copies of referenced documents (Effective 09/01/2023)
- 02Q. 0106 Incorporation by reference (Effective 04/01/2018)
- 02Q. 0107 Confidential information (Effective 04/01/2018)
- 02Q. 0108 Delegation of authority (Effective 04/01/2018)
- 02Q. 0109 Compliance schedule for previously exempted activities (Effective 04/01/2018)
- 02Q. 0110 Retention of permit at permitted facility (Effective 04/01/2018)
- 02Q. 0111 Applicability determinations (Effective 04/01/2018)

- 02Q. 0112 Applications requiring professional engineer seal (Effective 04/01/2018)
- 02Q. 0113 Notification in areas without zoning (Effective 04/01/2018)

Section .0200—Permit Fees

- 02Q. 0201 Applicability (Effective 04/01/2018)
- 02Q. 0202 Definitions (Effective 04/01/2018)
- 02Q. 0203 Permit and application fees (Effective 11/18/2021)
- 02Q. 0204 Inflation adjustment (Effective 04/01/2018)
- 02Q. 0205 Other adjustments (Effective 04/01/2018)
- 02Q. 0206 Payment of fees (Effective 09/01/2023)
- 02Q. 0207 Annual emissions reporting (Effective 04/01/2018)

Section .0300—Construction and Operation Permits

- 02Q. 0301 Applicability (Effective 04/01/2018)
- 02Q. 0303 Definitions (Effective 04/01/2018)
- 02Q. 0304 Applications (Effective 09/01/2023)
- 02Q. 0305 Application submittal content (Effective 09/01/2023)
- 02Q. 0306 Permits requiring public participation (Effective 04/01/2018)
- 02Q. 0307 Public participation procedures (Effective 09/01/2023)
- 02Q. 0308 Final action on permit applications (Effective 04/01/2018)
- 02Q. 0309 Termination, modification, and revocation of permits (Effective 04/01/2018)
- 02Q. 0310 Permitting of numerous similar facilities (Effective 04/01/2018)
- 02Q. 0311 Permitting of facilities at multiple temporary sites (Effective 04/01/2018)
- 02Q. 0312 Application processing schedule (Effective 04/01/2018)
- 02Q. 0313 Expedited application processing schedule (Effective 04/01/2018)
- 02Q. 0314 General requirements for all permits (Effective 04/01/2018)
- 02Q. 0315 Synthetic minor facilities (Effective 04/01/2018)
- 02Q. 0316 Administrative permit amendments (Effective 04/01/2018)
- 02Q. 0317 Avoidance conditions (Effective 04/01/2018)
- 02Q. 0318 Changes Not Requiring Permit Revisions (Effective 04/01/2018)

Section .0400—Acid Rain Procedures

- 02Q. 0401 Purpose and applicability (Effective 04/01/2018)
- 02Q. 0402 Acid rain permitting procedures (Effective 04/01/2018)

Section .0500—Title V Procedures

- 02Q. 0501 Purpose of section and requirement for a permit (Effective 04/01/2018)
- 02Q. 0502 Applicability (Effective 04/01/2018)
- 02Q. 0503 Definitions (Effective 9/01/2022)
- 02Q. 0504 Option for obtaining construction and operation permit (Effective 9/01/2022)

- 02Q. 0505 Application submittal content (Effective 09/01/2023)
- 02Q. 0507 Application (Effective 09/01/2023)
- 02Q. 0508 Permit content (Effective 09/01/2023)
- 02Q. 0509 Permitting of numerous similar facilities (Effective 09/01/2022)
- 02Q. 0510 Permitting of facilities at multiple temporary sites (Effective 04/01/2018)
- 02Q. 0512 Permit shield and application shield (Effective 04/01/2018)
- 02Q. 0513 Permit renewal and expiration (Effective 04/01/2018)
- 02Q. 0514 Administrative permit amendments (Effective 09/01/2022)
- 02Q. 0515 Minor permit modifications (Effective 04/01/2018)
- 02Q. 0516 Significant permit modification (Effective 09/01/2022)
- 02Q. 0517 Reopening for cause (Effective 04/01/2018)
- 02Q. 0518 Final action (Effective 09/01/2022)
- 02Q. 0519 Termination, modification, revocation of permits (Effective 04/01/2018)
- 02Q. 0520 Certification by responsible official (Effective 04/01/2018)
- 02Q. 0521 Public participation (Effective 09/01/2022)
- 02Q. 0522 Review by EPA and affected States (Effective 09/01/2022)
- 02Q. 0523 Changes not requiring permit revisions (Effective 04/01/2018)
- 02Q. 0524 Ownership change (Effective 04/01/2018)
- 02Q. 0525 Application processing schedule (Effective 09/01/2022)
- 02Q. 0526 112(j) case-by-case MACT procedures (Effective 08/01/2022)
- 02Q. 0527 Expedited application processing schedule (Effective 04/01/2018)
- 02Q. 0528 112(g) case-by-case MACT procedures (Effective 04/01/2018)

Section .0700—Toxic Air Pollutant Procedures

- 02Q. 0701 Applicability (Effective 07/01/2018)
- 02Q. 0702 Exemptions (Effective 07/01/2018)
- 02Q. 0703 Definitions (Effective 07/01/2018)
- 02Q. 0704 New facilities (Effective 07/01/2018)
- 02Q. 0706 Modifications (Effective 11/01/2023)
- 02Q. 0707 Previously permitted facilities (Effective 07/01/2018)
- 02Q. 0708 Compliance schedule for previously unknown toxic air pollutant emissions (Effective 07/01/2018)
- 02Q. 0709 Demonstrations (Effective 07/01/2018)
- 02Q. 0710 Public notice and opportunity for public hearing (Effective 09/01/2023)
- 02Q. 0711 Emission rates requiring a permit (Effective 07/01/2018)
- 02Q. 0712 Calls by the director (Effective 07/01/2018)

Section .0800—Exclusionary Rules

- 02Q. 0801 Purpose and scope (Effective 04/01/2018)

- 02Q. 0802 Gasoline service stations and dispensing facilities (Effective 04/01/2018)
 02Q. 0803 Coating, solvent cleaning, graphic arts operations (Effective 04/01/2018)
 02Q. 0804 Dry cleaning facilities (Effective 04/01/2018)
 02Q. 0805 Grain elevators (Effective 04/01/2018)
 02Q. 0806 Cotton gins (Effective 04/01/2018)
 02Q. 0807 Emergency generators (Effective 04/01/2018)

[FR Doc. 2023–27091 Filed 12–11–23; 8:45 am]

BILLING CODE 6560–50–P

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 271

[EPA–R09–RCRA–2021–0431; FRL–8828–04–R9]

Arizona: Authorization of State Hazardous Waste Management Program Revisions; Proposed Correction

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule; correction.

SUMMARY: The Environmental Protection Agency (EPA) approved revisions to Arizona's federally authorized hazardous waste program by publishing proposed and direct final rules in the **Federal Register** on September 28, 2021. EPA inadvertently omitted a citation to Checklist 233 in the text of the proposed and direct final rule. With this correction, EPA is clarifying that Arizona has adopted Checklist 233 and is authorized for the Response to Vacatur of Certain Provisions of the Definition of Solid Waste Rule published on May 30, 2018. Additionally, EPA is clarifying that Arizona is not required to adopt Checklist 224: Withdrawal of the Emission Comparable Fuel Exclusion. Arizona did not adopt the exclusion contained in Checklist 221, and thus, does not have the exclusion as part of its authorized state program. We are proposing to correct these and related errors. EPA seeks public comment prior to taking final action.

DATES: Comments on this proposed correction must be received by January 11, 2024.

ADDRESSES: Submit your comments, identified by Docket ID No. EPA–R09–RCRA–2021–0431, at <https://www.regulations.gov>. Follow the online instructions for submitting comments. Once submitted, comments cannot be edited or removed from *Regulations.gov*. EPA may publish any comment received to its public docket. Do not submit electronically any information you consider to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Multimedia submissions (audio, video, etc.) must be accompanied by a written comment. The written comment is considered the official comment and should include discussion of all points you wish to make. EPA will generally not consider comments or comment contents located outside of the primary submission (*i.e.*, on the web, cloud, or other file sharing system). For additional submission methods, the full EPA public comment policy, information about CBI or multimedia submissions, and general guidance on making effective comments, please visit <https://www.epa.gov/dockets/commenting-epa-dockets>.

FOR FURTHER INFORMATION CONTACT:

Sorcha Vaughan, EPA Region 9, 75 Hawthorne St., San Francisco, CA 94105. By phone: (415) 947–4217 or by email at vaughan.sorcha@epa.gov.

SUPPLEMENTARY INFORMATION:

A. Why are corrections to the revised state program authorization necessary?

States that have received final authorization from EPA under Section 3006(b) of the Resource Conservation and Recovery Act (RCRA), 42 U.S.C. 6926(b), must maintain a hazardous waste program that is equivalent to, consistent with, and no less stringent than the federal program. As the federal program changes, states must change their programs to maintain consistency and stringency with the federal rules and must ask EPA to authorize the changes. EPA's **Federal Register** notices regarding proposed authorization of revisions to state hazardous waste management programs provide the public with an opportunity to comment and also offer details with respect to the scope of the revised program authorizations on which both the general public and the regulated community may rely. Where these notices omit critical information or fail to clearly delineate the scope of authorized program revisions,

corrections may be necessary and/or appropriate.

B. What corrections is EPA making to this rule?

EPA authorized changes to Arizona's hazardous waste program with the proposed and direct to final rule on September 28, 2021 (86 FR 53558). EPA is now proposing to correct this updated authorization by: (1) clarifying that Arizona has adopted and is authorized for Response to Vacatur of Certain Provisions of the Definition of Solid Waste Rule 83 FR 24664 (May 5, 2018); and (2) recognizing that because Arizona did not adopt the exclusion contained in Checklist 221 the adoption of Checklist 224 is unnecessary. These proposed corrections to the scope of Arizona's authorized hazardous waste program would become effective if finalized.

C. What happens if EPA receives comments that oppose this proposed action?

EPA will consider all comments received during the comment period and address them in a final rule. You may not have another opportunity to comment. If you want to comment on the corrections proposed here, you must do so at this time.

D. What has Arizona previously been authorized for?

Arizona initially received final authorization to implement its base hazardous waste management program on November 20, 1985. Arizona received authorization for revisions to its program on August 6, 1991 (56 FR 37290 effective October 7, 1991), July 13, 1992 (57 FR 30905 effective September 11, 1992), November 23, 1992 (57 FR 54932 effective January 22, 1993), October 27, 1993 (58 FR 57745 effective December 27, 1993), July 18, 1995 (60 FR 36731 effective June 12, 1995), March 7, 1997 (62 FR 10464 effective May 6, 1997), October 28, 1998 (63 FR 57605–57608 effective December 28, 1998), March 17, 2004 (69 FR 12544 effective March 17, 2004, originally published on October 27, 2000 (65 FR 64369)), December 20, 2017 (82 FR 60550 effective January 20, 2018), and September 28, 2021 (86 FR 53558 effective November 29, 2021).

E. What changes is EPA proposing to authorize with this action?

EPA proposes to correct and clarify the terms of the September 28, 2021, authorization of Arizona's hazardous waste program with respect to the definition of a solid waste. EPA also proposes to acknowledge that Arizona is
