Title: Statement in Support of Claimed Mental Health Disorder(s) Due to an In-Service Traumatic Event(s) (VA Form 21-0781).

OMB Control Number: 2900-0659.

Type of Review: Revision of a currently approved collection.

Abstract: VA Form 21-0781 is primarily used to gather certain information about in-service stressors, so VA may assist claimants in establishing the occurrence of the claimed stressor(s). To establish a grant of service-connected compensation, there must be evidence to support the in-service stressor(s) reported by the veteran. This form is voluntary, however, without this information, VA cannot thoroughly assist certain claimants with the research of military records and other sources of information for supporting evidence about the in-service stressor(s). The form requests information that is necessary to conduct meaningful research of evidence to help substantiate the claim.

This revision combines the two previously approved forms under this collection number into *one* form: resulting in the discontinuance of the previously approved VA Form 21-0781a, a new title, and a total reduction overall of burden on the claimant.

Affected Public: Individuals or Households.

Estimated Annual Burden: 87,436.

Estimated Average Burden per Respondent: 45 minutes.

Frequency of Response: One time.

Estimated Number of Respondents: 116,581.

By direction of the Secretary.

Maribel Aponte,

VA PRA Clearance Officer, Office of Enterprise and Integration/Data Governance Analytics, Department of Veterans Affairs.
