SUPPLEMENTARY INFORMATION:

I. Abstract

This is a request for the extension of an existing information collection.

The objectives of the National Sea Grant College Program, as stated in the Sea Grant legislation (33 U.S.C. 1121 *et seq.*) are to increase the understanding, assessments, development, utilization, and conservation of the Nation's ocean, coastal, and Great Lakes resources. It accomplishes these objectives by conducting research, education, and outreach programs. Grant monies are available for funding activities that help obtain the objectives of the Sea Grant Program. Both single and multi-project grants are awarded, with the latter representing approximately 80 percent of the total grant program. In addition to other standard grant application requirements, three forms are required with the grants. The Sea Grant Control Form (NOAA Form 90–1) is used to identify the organizations and personnel who would be involved in the grant and briefly summarize the proposed activities under the grant. The Project Record Form (NOAA Form 90–2), which collects summary data on projects, helps the National Sea Grant Office (NSGO) evaluate the proposals during its funding decisions. The Sea Grant Budget Form (NOAA Form 90–4) provides information similar to, but more detailed than, standardized budget forms SF–424A or SF–424C, and allows the NSGO to determine whether or not the breakdown cost of multi-project grant awards is reasonable. Collectively, the data supplied in these documents form the basis for many of NSGO's responses to the Administration, the Congress, other agencies, and to the public about the scope of Sea Grant activities.

The National Sea Grant College Program Act (33 U.S.C. 1126) also provides for the designation of a public or private institution of higher education, institute, laboratory, or State or local agency as a Sea Grant college or Sea Grant institute. Applications are required for designation of Sea Grant Colleges and Sea Grant Institutes, although no forms are required. The data the collection provides helps the National Sea Grant Office determine the suitability of the applicant for meeting the standards and conditions for being a Sea Grant College as set forth in 33 U.S.C 1126 and 15 CFR 918.5.

II. Method of Collection

Responses are made in a variety of formats, including forms and narrative submissions, via mail or email. The Sea Grant Project Record Form (NOAA Form 90–2) must be submitted directly to the 90–2 Webform. The Sea Grant Budget Form (NOAA Form 90–4) must be submitted in electronic format through grants.gov if the grant applicant has the means to do so. Most of the responses are received electronically.

III. Data

OMB Control Number: 0648–0362.

Form Number(s): NOAA Forms 90–1, 90–2, and 90–4.
