

Oversight, and recommendations for Probation, Suspension, or Termination. The most significant actions—Probation, Suspension, or Termination—require Commission approval.

In 2022, the MRB Chair recommended, and the Commission agreed, to place Mississippi on Probation, due to a significant decline in Program performance (87 FR 60212). The MRB Chair directed staff to conduct a follow-up IMPEP review in approximately 1 year from the 2022 IMPEP review.

During the 2023 IMPEP review, the team found that the changes made by Mississippi in response to the 2022 IMPEP review resulted in significant performance improvements across the Program and improved its performance findings relative to five indicators. The team found Mississippi's performance to be satisfactory for the following four performance indicators: Status of Materials Inspection Program; Technical Quality of Inspections; Technical Quality of Incident and Allegation Activities; and Legislation, Regulations, and Other Program Elements. The team found Mississippi's performance to be satisfactory but needs improvement for the following two performance indicators: Technical Staffing and Training and Technical Quality of Licensing Actions. The performance finding for the indicator Technical Staffing and Training remained the same, as satisfactory but needs improvement.

On June 29, 2023, the MRB met to discuss the results of the 2023 IMPEP review. Based on the results of the 2023 IMPEP review, the MRB Chair closed the 2017 IMPEP review recommendation, closed 9 of the 10 recommendations made during the 2022 IMPEP, and opened one new recommendation. The MRB Chair also found Mississippi's performance adequate to protect public health and safety but needs improvement and compatible with the NRC's program. The MRB Chair directed staff to conduct a periodic meeting take place in approximately 1 year with the next IMPEP review taking place in approximately 2 years. On July 27, 2023, the staff issued the final IMPEP report documenting the bases for these findings (ADAMS Accession No. ML23188A186).

As a result of improved performance seen during Mississippi's 2023 IMPEP review and the significant progress made on completing the actions in the Program Improvement Plan, the MRB Chair requested that the Commission discontinue Mississippi's Probationary period and be placed on a period of

Heightened Oversight. The Commission agreed with the recommendations to discontinue Mississippi's Probationary Period and the Governor of Mississippi has been notified of this decision.

Dated: December 7, 2023.

For the Nuclear Regulatory Commission.

Kenneth T. Erwin,

Acting Director, Division of Materials Safety, Security, State, and Tribal Programs, Office of Material Safety and Safeguards.
