Description

Human remains representing, at minimum, five individuals were removed from an unknown location in Tillamook County, OR, at an unknown date. PSU faculty members encountered these human remains in the Anthropology Department's archeology holdings at an unknown date between 2003 and 2011. The 21 associated funerary objects are 15 pieces of worked stone, three burnt faunal remains, one bivalve shell, and two ceramic plate fragments.

Human remains representing, at minimum, one individual were removed from the site of Chishucks Village in Tillamook County, OR, in 1971 by Ron Kent, a PSU master's student in the Anthropology Department. These human remains were inadvertently excavated from deposits of faunal remains, and subsequently identified as human in 2021 and 2022 by PSU staff members during a thorough search for Native American human remains and cultural items in the Anthropology Department's archeology holdings. The one associated funerary object is a clay pipe fragment.

Cultural Affiliation

The human remains and associated funerary objects in this notice are connected to one or more identifiable earlier groups, tribes, peoples, or cultures. There is a relationship of shared group identity between the identifiable earlier groups, tribes, peoples, or cultures and one or more Indian Tribes or Native Hawaiian organizations. The following types of information were used to reasonably trace the relationship: anthropological information, archeological information, geographical information, and historical information.

Determinations

Pursuant to NAGPRA and its implementing regulations, and after consultation with the appropriate Indian Tribes and Native Hawaiian organizations, PSU has determined that:

- The human remains described in this notice represent the physical remains of six individuals of Native American ancestry.
- The 22 objects described in this notice are reasonably believed to have been placed with or near individual human remains at the time of death or later as part of the death rite or ceremony.

- There is a relationship of shared group identity that can be reasonably traced between the human remains and associated funerary objects described in this notice and the Confederated Tribes of Siletz Indians of Oregon; Confederated Tribes of the Grand Ronde Community of Oregon; and the Confederated Tribes of the Warm Springs Reservation of Oregon.

Requests for Repatriation

Written requests for repatriation of the human remains and associated funerary objects in this notice must be sent to the Responsible Official identified in **ADDRESSES**. Requests for repatriation may be submitted by:

1. Any one or more of the Indian Tribes or Native Hawaiian organizations identified in this notice, and, if joined to a request from one or more of the Indian Tribes, Chinook Indian Nation, a non-federally recognized Indian group.
2. Any lineal descendant, Indian Tribe, or Native Hawaiian organization not identified in this notice who shows, by a preponderance of the evidence, that the requestor is a lineal descendant or a culturally affiliated Indian Tribe or Native Hawaiian organization.

Repatriation of the human remains and associated funerary objects in this notice to a requestor may occur on or after February 7, 2024. If competing requests for repatriation are received, PSU must determine the most appropriate requestor prior to repatriation. Requests for joint repatriation of the human remains and associated funerary objects are considered a single request and not competing requests. PSU is responsible for sending a copy of this notice to the Indian Tribes and Native Hawaiian organizations identified in this notice.

AGENCY: Nuclear Regulatory Commission.

ACTION: Request for comment; public comment meetings; opportunity to request a hearing and to petition for leave to intervene.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) is issuing for public comment a draft environmental impact statement (DEIS), published as NUREG-1437, Supplement 7a, Second Renewal, “Site-Specific Environmental Impact Statement for License Renewal of Nuclear Plants Regarding Subsequent License Renewal for North Anna Power Station Units 1 and 2, Draft Report for Comment.” This DEIS supersedes NUREG-1437, Supplement 7, Second Renewal, “Generic Environmental Impact Statement for License Renewal of Nuclear Plants, Supplement 7, Second Renewal, Regarding Subsequent License Renewal for North Anna Power Station Units 1 and 2, Draft Report for Comment,” published in August 2021. A new notice of opportunity to request a hearing and petition for leave to intervene—limited to contentions based on new information in the DEIS—is also being issued.

DATES: The NRC will hold a webinar on the DEIS, including a presentation on the preliminary recommendation in the DEIS and a transcribed public comment session. The webinar will be held January 30, 2024, at 1 p.m. eastern time (ET). NRC is also planning an in-person meeting during the DEIS comment period. Comments received after this date will be considered if it is practical to do so, but the NRC is able to ensure consideration only for comments received on or before this date. Requests for a hearing or petitions for leave to intervene must be filed by March 8, 2024.
