OMB Control #: 2125–0675.

Background: Through the Safe Streets and Roads for All discretionary grant program, the Office of the Secretary of Transportation (OST), in close collaboration with the Federal Highway Administration (FHWA), provides financial support for local initiatives to prevent traffic related fatalities and serious injuries on the nation’s roads. Section 24112(g)(1) of the Bipartisan Infrastructure Law specifically requires grant recipients to submit certain data, information, and analysis to the Secretary on a regular basis. In addition, grant recipients will submit requests for financial reimbursement for funds

expended on eligible projects. The reporting requirements submitted by grant recipients will be completed during the application, grant agreement, project management, and project evaluation phases.

Respondents: MPOs, political subdivisions of a State, federally-recognized Tribal governments, and multijurisdictional groups comprised of these entities.

Estimated Average Burden per Response: Collectively, the respondents electronically submit an estimated total of 18,650 reporting documents under all four phases (application, grant agreement, project management, and project evaluation) per year. Each respondent will spend an estimated average of 157.75 hours to complete all the phases of a grant annually.

Estimated Total Annual Burden Hours: Total estimated average annual burden is 61,400 hours.

Public Comments Invited: You are asked to comment on any aspect of this information collection, including: (1) Whether the proposed collection is necessary for the FHWA’s performance; (2) the accuracy of the estimated burdens; (3) ways for the FHWA to enhance the quality, usefulness, and clarity of the collected information; and (4) ways that the burden could be minimized, including the use of electronic technology, without reducing the quality of the collected information. The agency will summarize and/or include your comments in the request for OMB’s clearance of this information collection.
