I. Funding Opportunity Description

Purpose of Program: The AORC program provides grants to consortia of institutions of higher education (IHEs) in the United States to establish or operate an overseas research center (Center) to promote postgraduate research, exchanges, and area studies. AORC grants may be used for all or a portion of the costs to operate and maintain the overseas Center; organize and manage conferences; develop or acquire teaching and research materials; acquire or preserve library collections; bring scholars and faculty to the Center to teach or conduct research; support the salaries for Center staff and visiting faculty and professional development stipends and fellowships; pay the travel costs for Center staff and project participants; and to publish and disseminate materials for the academic community and the public.

Priorities: Under this competition we are particularly interested in applications that address the following

priorities.

Invitational Priorities: For FY 2024 and any subsequent year in which we make awards from the list of unfunded applications from this competition, these priorities are invitational priorities.

Under 34 CFR 75.105(c)(1), we do not give an application that meets these invitational priorities a competitive or an absolute preference over other applications.

These priorities are: Invitational Priority 1—Professional Development Opportunities for Participants from Community Colleges, Historically Black Colleges and Universities, and Minority Serving Institutions.

Projects that provide professional development opportunities to participants from community colleges, Historically Black Colleges and Universities, and Minority-Serving Institutions. The opportunities may be provided domestically or overseas and may include curriculum development workshops to create new courses or to incorporate global content and competencies into existing courses, language instructional programs for the beginning to advanced levels, or participation in academic conferences relevant to the Center's focus.

For the purpose of this invitational priority-

Community college means "junior or community college" as defined in section 312(f) of the Higher Education Act of 1965, as amended (HEA) (20 U.S.C. 1058(f)); or an "institution of

Historically Black Colleges and Universities means colleges and universities that meet the criteria set out in 34 CFR 608.2.

Minority-Serving Institution means an institution that is eligible to receive assistance under sections 316 through 320 of part A of title III, under part B of title III, or under title V of the HEA.

Note: The institutions currently designated eligible under title III and title V of the HEA may be viewed at the following link: https://www2.ed.gov/about/offices/list/ope/idues/eligibility.html.

Invitational Priority 2—Open Access to Center-related Research, Instructional, and Scholarly Resources.

Projects that provide open access to Center-related research studies, conference proceedings, online libraries, digital archives, instructional materials, scholarly publications, and other resources related to the scholarly and cultural foci of the Center.

Program Authority: 20 U.S.C. 1128a and 1132–1132–7.

Note: Projects will be awarded and must be operated in a manner consistent with the nondiscrimination requirements contained in Federal civil rights laws.

In doing so, we must consider any information about you that is in the integrity and performance system (currently referred to as the Federal Awardee Performance and Integrity Information System (FAPIIS)), accessible through the System for Award Management. You may review and comment on any information about yourself that a Federal agency previously entered and that is currently in FAPIIS.

Additionally, a grantee or subgrantee that is awarded competitive grant funds must have a plan to disseminate these public grant

deliverables. This dissemination plan can be developed and submitted after your application has been reviewed and selected for funding. For additional information on the open licensing requirements please refer to 2 CFR 3474.20.

4. Reporting: (a) If you apply for a grant under this program competition, you must ensure that you have in place the necessary processes and systems to comply with the reporting requirements in 2 CFR part 170 should you receive funding under the competition. This does not apply if you have an exception

under 2 CFR 170.110 (b).

(b) At the end of your project period, you must submit a final performance report, including financial information, as directed by the Secretary. If you receive a multiyear award, you must submit an annual performance report that provides the most current performance and financial expenditure information as directed by the Secretary under 34 CFR 75.118. The Secretary may also require more frequent performance reports under 34 CFR 75.720(c). For specific requirements on reporting, please go to www.ed.gov/ fund/grant/apply/appforms/ appforms.html.

Note: Grantees under this competition will submit their performance reports electronically using the International Resource Information System (IRIS), the web-based reporting system for the International and Foreign Language Education office. Information about the reporting system and the AORC performance report instructions may be viewed at http://iris.ed.gov/iris/pdfs/

AORC.pdf.

5. Performance Measures: IFLE has established the following performance measure for the AORC program for the purpose of Department reporting under 34 CFR 75.110:

The number of individuals conducting postgraduate research utilizing the services of the overseas Centers.

6. Continuation Awards: In making a continuation award under 34 CFR 75.253, the Secretary considers, among other things: whether a grantee has made substantial progress in achieving the goals and objectives of the project; whether the grantee has expended funds in a manner that is consistent with its approved application and budget; and, if the Secretary has established performance measurement requirements, whether the grantee has made substantial progress in achieving the performance targets in the grantee's approved application.

In making a continuation award, the Secretary also considers whether the

grantee is operating in compliance with the assurances in its approved application, including those applicable to Federal civil rights laws that prohibit discrimination in programs or activities receiving Federal financial assistance from the Department (34 CFR 100.4, 104.5, 106.4, 108.8, and 110.23).

DEPARTMENT OF ENERGY

Western Area Power Administration

Falcon and Amistad Projects—Rate Order No. WAPA-216

AGENCY: Western Area Power Administration, DOE.

ACTION: Notice of proposed extension of firm power formula rate for the Falcon and Amistad Projects.

SUMMARY: The Colorado River Storage Project Management Center (CRSP MC) of the Western Area Power Administration (WAPA) proposes to extend the existing firm power formula rate, without any changes, for the Falcon and Amistad Projects (Projects) through June 7, 2029. The existing firm power formula rate expires on June 7, 2024.

DATES: A consultation and comment period will begin January 26, 2024 and end February 26, 2024. The CRSP MC will accept written comments any time during the consultation and comment period.

ADDRESSES: Written comments and requests to be informed of Federal Energy Regulatory Commission (FERC) actions concerning the proposed extension submitted by WAPA to FERC for approval should be sent to: Rodney Bailey, CRSP Manager, Colorado River Storage Project Management Center, Western Area Power Administration, 1800 South Rio Grande Avenue. Montrose, CO 81401, or email: CRSPMC-rateadj@wapa.gov. The CRSP MC will post information about the proposed formula rate extension and written comments received to its website at: www.wapa.gov/about-wapa/ about-wapa/regions/crsp/rates/rateorder-216.

FOR FURTHER INFORMATION CONTACT:

Tamala Gheller, Rates Manager, Colorado River Storage Project Management Center, Western Area Power Administration, 970–240–6545, or email: CRSPMC-rate-adj@wapa.gov.

SUPPLEMENTARY INFORMATION: The Falcon and Amistad Dams are features of international water storage projects located on the Rio Grande River between Texas and Mexico. The portion of the dams located in the United States is operated by the United States International Boundary and Water Commission (USIBWC). Under arrangements with the United States Department of State and USIBWC, WAPA is the Federal agency responsible for marketing and selling the electricity generated at these facilities. WAPA markets the power generated at the Falcon and Amistad Dams as a combined product to only one customer: South Texas Electric Cooperative. The cost of the power is determined by a formula rate. This formula rate was initially approved by the Federal Power Commission (FPC), the predecessor to FERC, in FPC Docket No. E-9566 on August 12, 1977 (59 FPC 1653), for a 5year period effective on the date of initial operation of Amistad Power Plant, June 8, 1983. The formula rate

has been subsequently extended and reapproved without change. The current formula rate was approved in 2009 $^{\rm 2}$ and extended in 2014 and 2019.

Most recently, on June 20, 2019, FERC approved and confirmed Rate Schedule Falcon and Amistad Projects' Firm Power Formula Rate under Rate Order No. WAPA-186 for a 5-year period through June 7, 2024.3 This schedule applies to firm energy sales. In accordance with 10 CFR 903.23(a),4 the CRSP MC is proposing to extend the existing formula rate under Rate Schedule Falcon and Amistad Projects' Firm Power Formula Rate for the period of June 8, 2024, through June 7, 2029. The existing formula rate is viewable on the CRSP MC website at: www.wapa.gov/about-wapa/regions/ crsp/rates/amistad-history. The formula rate calculates the amount WAPA must annually repay to the Department of the Treasury for the United States' investment in the Falcon and Amistad hydroelectric facilities, with interest, as well as associated operation, maintenance, and administrative costs. This annual installment is collected in 12 monthly payments and is independent of the amount of available generation. The existing formula rate provides sufficient revenue to pay all annual costs, including interest expense, and repay investment within the allowable period consistent with the cost recovery criteria set forth in Department of Energy (DOE) Order RA 6120.2.

In accordance with 10 CFR 903.23(a), the CRSP MC has determined it is not necessary to hold public information or public comment forums for this rate action but is initiating a 30-day consultation and comment period to give the public an opportunity to comment on the proposed extension. The CRSP MC will review and consider all timely public comments at the conclusion of the consultation and comment period and adjust the proposal as appropriate.
