Form Number: N/A.

Current Actions: CBP proposes to extend the expiration date of this information collection with a change in burden hours.

Abstract: Executive Order 12862, Setting Customer Service Standards, directs Federal agencies to provide service to the public that matches or exceeds the best service available in the private sector. Executive Order 14058, Transforming Federal Customer Experience and Service Delivery to Rebuild Trust in Government, reiterates that Federal agencies should continually improve their understanding of their customers and their customer experience challenges. In order to work continuously to ensure that our programs are effective and meet our customers' needs, CBP seeks to obtain OMB approval of a generic clearance to collect qualitative feedback on our service delivery. By qualitative feedback we mean information that provides useful insights on perceptions and opinions but are not statistical surveys that yield quantitative results that can be generalized to the population of study.

This collection of information is necessary to enable CBP to garner customer and stakeholder feedback in an efficient, timely manner, in accordance with our commitment to improving service delivery. The information collected from our customers and stakeholders will help ensure that users have an effective, efficient, and satisfying experience with CBP's programs. This feedback will provide insights into customer or stakeholder perceptions, experiences, and expectations, provide an early warning of issues with service, or focus attention on areas where communication, training or changes in operations might improve delivery of products or services. These collections will allow for ongoing, collaborative, and actionable communications between CBP and its customers and stakeholders. It will also allow feedback to contribute directly to the improvement of program management.

Estimated Number of Annual Responses per Respondent: 1.

Estimated Number of Total Annual Responses: 620,000.
