SUPPLEMENTARY INFORMATION: This is a proposed extension of the ICR, which is currently approved through January 31, 2024. An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

Public comments were previously requested via the Federal Register on May 31, 2023, during a 60-day comment period (88 FR 34855). This notice allows for an additional 30 days for public comments. Supporting documents that explain in detail the information that the EPA will be collecting are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional information about EPA's public docket, visit http://www.epa.gov/ dockets.

Abstract: EPA created ENERGY STAR as a voluntary program to help businesses and individuals protect the environment through superior energy efficiency. The program focuses on reducing utility-generated emissions by

reducing the demand for energy. In 1991, EPA launched the Green Lights Program to encourage corporations, State and local governments, colleges and universities, and other organizations to adopt energy-efficient lighting as a profitable means of preventing pollution and improving lighting quality. Since then, EPA has rolled Green Lights into ENERGY STAR and expanded ENERGY STAR to encompass organization-wide energy performance improvement, such as building technology upgrades, product purchasing initiatives, and employee training. At the same time, EPA has streamlined the reporting requirements of ENERGY STAR and focused on providing incentives for improvements (e.g., ENERGY STAR awards program). EPA also makes tools and other resources available over the Web to help the public overcome the barriers to evaluating their energy performance and investing in profitable improvements.

To join ENERGY STAR, organizations are asked to complete a Partnership Application that establishes their commitment to energy efficiency. Partners agree to undertake efforts such as measuring, tracking, and benchmarking their organization's energy performance by using tools such as those offered by ENERGY STAR; developing and implementing a plan to improve energy performance in their facilities and operations by adopting a strategy provided by ENERGY STAR; educating staff and the public about their Partnership with ENERGY STAR, and highlighting achievements with the ENERGY STAR, where available.

Partners also may be asked to periodically submit information to EPA as needed to assist in program implementation.

Partnership in ENERGY STAR is voluntary and can be terminated by Partners or EPA at any time. EPA does not expect organizations to join the program unless they expect participation to be cost-effective and otherwise beneficial for them.

In addition, Partners and other interested parties can seek recognition and help EPA promote energy-efficient technologies by evaluating the efficiency of their buildings using EPA's online tools (e.g., Portfolio Manager) and applying for recognition. EPA does not expect any information collected under ENERGY STAR to be Confidential Business Information (CBI).

 $Form \ Numbers: 5900-19, 5900-195, \\ 5900-197, 5900-198, 5900-22, 5900-\\ 262, 5900-263, 5900-264, 5900-265, \\ 5900-382, 5900-383, 5900-387, 5900-\\ 436, 5900-441, 5900-442, 5900-443,$

5900–444, 5900–445, 5900–89, 5900–622, 5900–623.

Respondents/affected entities: Participants in EPA's ENERGY STAR Program in the commercial and industrial sectors.

Respondent's obligation to respond: Voluntary.

Estimated number of respondents: 42,196 (total).

Frequency of response: One-time, annually, or on occasion.

Total estimated burden: 187,199 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$14,810,511 (per year), includes \$5,288,750 annualized capital or operation & maintenance costs.

Changes in the Estimates: There is a net decrease of 23,107 hours in the total estimated respondent burden compared with the ICR currently approved by OMB. This is a result of a 325-hour increase due to program changes and a 23,432-hour decrease due to adjustments.

Program changes reflect revisions to the array of activities EPA carries out under the ENERGY STAR Certification for Buildings. The adjustments are primarily related to the benchmarking process. While more buildings across the country are following Building Performance Standards, the time needed to benchmark each one is diminishing as the proportion of first-time respondents falls and their utilization of time-saving Web Services grows.

Agency Information Collection Activities; Submission to the Office of Management and Budget for Review and Approval; Comment Request; Control of Evaporative Emissions From New and In-Use Portable Gasoline Containers (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA) has submitted an information collection request (ICR), Control of Evaporative Emissions from New and In-Use Portable Gasoline Containers (Renewal), (EPA ICR Number

2213.07, OMB Control Number 2060—0597) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act. This notice is a proposed extension of the ICR, which is currently approved through January 31, 2024. Public comments were previously requested via the **Federal Register** on November 3, 2023, during a 60-day comment period. This notice allows for an additional 30 days for public comments.

DATES: Comments must be submitted on or before February 28, 2024.

ADDRESSES: Submit your comments, referencing the Docket ID No. EPA-HQ-OAR-2013-0118, to the EPA: online using www.regulations.gov (our preferred method), or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW, Washington, DC 20460.

EPA's policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

Submit written comments and recommendations to OMB for the proposed information collection within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function.

SUPPLEMENTARY INFORMATION: This is a proposed extension of the ICR, which is currently approved through January 31, 2024. An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

Public comments were previously requested via the **Federal Register** on November 3, 2023 during a 60-day comment period (88 FR 75589). This notice allows for an additional 30 days for public comments. Supporting documents, which explain in detail the

information that the EPA will be collecting, are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202–566–1744. For additional information about EPA's public docket, visit http://www.epa.gov/dockets.

Abstract: EPA is required under Section 183(e) of the Clean Air Act to regulate Volatile Organic Compound (VOC) emissions from the use of consumer and commercial products. Under regulations promulgated on February 26, 2007 (72 FR 8428) manufacturers of new portable gasoline containers are required to obtain certificates of conformity with the Clean Air Act, effective January 1, 2009. This ICR covers the burdens associated with this certification process. EPA reviews information submitted in a manufacturer's application for certification to determine if the gasoline container design conforms to applicable regulatory requirements and to verify that the required testing has been performed. The certificate holder is required to keep records on the testing and collect and keep warranty and defect information for annual reporting on in-use performance of their products. The respondent must also retain records on the units produced, apply serial numbers to individual containers, and track the serial numbers to their certificates of conformity. Any information submitted for which a claim of confidentiality is made is safeguarded according to EPA regulations at 40 CFR 2.201 et seq.

Form Numbers: None.

Respondents/affected entities: Manufacturers of new portable gasoline containers from 0.25 to 10.0 gallons in capacity.

Respondent's obligation to respond: Mandatory (40 CFR part 59, subpart F). Estimated number of respondents: 9 (total).

Frequency of response: Yearly for warranty reports; at least once every five years for certification and certificate renewals.

Total estimated burden: 165 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$ 29,855.51 (per year), which includes \$ 21,613.67 annualized capital and operation & maintenance costs.

Changes in Estimates: The program is now mature and startup costs have largely already been incurred. One successful warranty violation report has been received on an annual basis, as

reported above, so warranty report applications are expected to be less time-consuming. The number of manufacturers certifying PFC's is nine (9) and we do not anticipate an increase in new entrants. The increase in anticipated costs is due to the adjustment in the expected testing burden. We have increased the anticipated cost of contracting a PFC emission test to reflect the estimated current market rate. There is an overall decrease in burden hours, which is an adjustment to correct the previous ICR which had incorrectly included some of the O&M costs in the hour burden.
