There is no legal significance to the omission of an item from this listing. Also, the dates shown for the steps of each action are estimated and are not commitments to act on or by the dates shown.

Published proposed rules may be reviewed in their entirety at the Government’s rulemaking website at <https://www.regulations.gov>.

506. Federal Acquisition Regulation (FAR); FAR Case 2017-005, Whistleblower Protection for Contractor Employees [9000-AN32]

Legal Authority: 40 U.S.C. 121(c); 10 U.S.C. ch. 4; 10 U.S.C. ch. 137 legacy provisions; 10 U.S.C. 3016; 51 U.S.C. 20113

Abstract: This rule will make permanent contractor and subcontractor employee protections for disclosing certain information to the Government. The protections prohibit contractors and subcontractors from discharging, demoting, or otherwise discriminating against an employee as a reprisal for disclosing to Government entities, such as agency Inspector Generals and Congress, information that the employee reasonably believes is (1) evidence of gross mismanagement of a Federal

contract; (2) a gross waste of Federal funds; (3) an abuse of authority relating to a Federal contract; (4) a substantial and specific danger to public health or safety; or (5) a violation of law, rule, or regulation related to a Federal contract (including the competition for or negotiation of a contract). This rule also ensures that the prohibition on reimbursement for legal fees accrued in defense against reprisal claims applies to both contractors and subcontractors. This rule makes permanent the pilot program in accordance with the “Enhancement of Contractor Protection From Reprisal for Disclosure of Certain Information” law. The pilot was enacted on January 2, 2013, by section 828 of the National Defense Authorization Act for Fiscal Year 2013. DoD, GSA, and NASA received public comments in response to the proposed rule published in December of 2018, which are being considered in the development of the final rule.

507. Federal Acquisition Regulation (FAR); FAR Case 2017-014, Use of Acquisition 360 To Encourage Vendor Feedback [9000-AN43]

Legal Authority: 40 U.S.C. 121(c); 10 U.S.C. ch. 4; 10 U.S.C. ch. 137 legacy provisions; 10 U.S.C. 3016; 51 U.S.C. 20113

Abstract: DoD, GSA, and NASA are issuing a final rule to amend the Federal Acquisition Regulation (FAR) to address the solicitation of contractor feedback on both contract formation and contract administration activities. Agencies would consider this feedback, as appropriate, to improve the efficiency and effectiveness of their acquisition activities. The rule will create FAR policy to encourage regular feedback in accordance with agency practice (both for contract formation and administration activities) and a standard FAR solicitation provision to support a sustainable model for broadened use of the Acquisition 360 survey to elicit feedback on the pre-award and debriefing processes in a consistent and standardized manner. Agencies will be able to use the solicitation provision to

notify interested sources that a procurement is part of the Acquisition 360 survey and encourage stakeholders to voluntarily provide feedback on their experiences of the pre-award process.
