NUCLEAR REGULATORY COMMISSION

[Docket No. 70-0152; NRC-2024-0021]

Purdue University; License Renewal Application

AGENCY: Nuclear Regulatory Commission.

ACTION: Acceptance for docketing; opportunity to request a hearing and to petition for leave to intervene; order imposing procedures.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) has received an application from Purdue University (Purdue or the applicant), to renew Special Nuclear Material (SNM) License Number 142 (SNM-142). The renewed license would authorize the applicant to continue to use SNM in various research operations, calibration, and testing at its campus in West Lafayette, Indiana. If the license renewal application is approved, the license would authorize Purdue to continue to possess and use SNM under NRC regulations for 10 years beyond its current license. Because the license application contains sensitive unclassified non-safeguards information (SUNSI) and safeguards information (SGI), an order imposes procedures to obtain access to SUNSI and SGI for contention preparation.

DATES: A request for a hearing or petition for leave to intervene must be filed by April 9, 2024. Any potential party as defined in section 2.4 of title 10 of the *Code of Federal Regulations* (10 CFR) who believes access to SUNSI or SGI is necessary to respond to this notice must request document access by February 20, 2024.
