Abstract: Capital punishment information is collected by the Bureau of Justice Statistics (BJS) annually as part of the National Prisoner Statistics data series (NPS–8). These establishment surveys provide BJS with the capacity to report annually on changes in the size and composition of persons under State or Federal sentence of death and changes to the laws regulating the imposition and implementation of death sentences in the United States. The NPS–8 covers all persons held in a State or Federal

correctional facility under sentence of death at any time during the calendar year. The coverage includes capital prisoners transferred from death row to non-correctional institutions, such as mental hospitals, and prisoners who may have escaped custody. Excluded are capital prisoners who for any reason remain in local correctional institutions outside the jurisdiction of State or Federal correctional authorities from whom data are collected for this series. NPS–8 also excludes persons who were convicted and sentenced to death under the Uniform Code of Military Justice. Information such as statutory, demographic, and criminal history data collected through NPS–8 is not attainable from any other single data source.

Overview of This Information Collection

1. *Type of Information Collection:* Reinstatement of a previously approved collection.

2. *The Title of the Form/Collection:* Capital Punishment Report of Inmates Under Sentence of Death.

3. *The agency form number, if any, and the applicable component of the Department sponsoring the collection:* The Capital Punishment Report of Inmates Under Sentence of Death (NPS–8) contains four forms: NPS–8 (Report of Inmates Under Sentence of Death; NPS–8A (Update Report of Inmates Under Sentence of Death); NPS–8B (Status of Death Penalty Statutes—No Statute in Force); and NPS–8C (Status of Death Penalty Statutes—Statute in Force). The applicable component within the

For each data collection cycle, we estimate an average burden of 30 minutes for the NPA–8, 30 minutes for the NPS–8A, 15 minutes for the NPS–8B, and 15 minutes to complete the NPS–8C. We estimate that data quality follow-up is needed for 50% of NPS–8 forms (10) and 5% of NPS–8A forms (124) and will run an average of 15 minutes for each response. We estimate a 10-minute follow-up for 10% (5) of NPS–8B and NPS–8C respondents.

6. *An estimate of the total annual burden (in hours) associated with the collection:* There are approximately 1,292 total annual burden hours for this collection.

7. *An estimate of the total annual cost burden associated with the collection, if applicable:* \$41,596.
