a complete description of the events that occurred subsequent to the *Preliminary Results*, see the Issues and Decision Memorandum.² On December 18, 2023, in accordance with section 751(a)(3)(A) of the Tariff Act of 1930, as amended (the Act), Commerce extended the deadline for issuing the final results until February 6, 2024.³

Scope of the Order⁴

The merchandise subject to the *Order* are metal lockers from China. A full description of the scope of the *Order* is contained in the Issues and Decision Memorandum.

Analysis of Comments Received

All issues raised by interested parties in case and rebuttal briefs are addressed in the Issues and Decision Memorandum. A list of the issues addressed in the Issues and Decision Memorandum is provided in the appendix to this notice. The Issues and Decision Memorandum is a public document and is on file electronically via Enforcement and Compliance’s Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS). ACCESS is available to registered users at <https://access.trade.gov>. In addition, a complete version of the Issues and Decision Memorandum can be accessed directly at <https://access.trade.gov/public/FRNoticesListLayout.aspx>.

Changes Since the Preliminary Results

Based on our review of the record and comments received from interested parties regarding our *Preliminary Results*, we made certain changes to the countervailable subsidy rate calculations for mandatory respondents Xingyi Metalworking (Zhejiang) Co., Ltd. (Xingyi Metalworking) and

Zhejiang Xingyi Metal Products Co., Ltd. (Zhejiang Xingyi). As a result of these changes, the final rates for the two companies under review which were not selected for individual examination also changed.⁵ These changes are explained in the Issues and Decision Memorandum.

Methodology

Commerce is conducting this review in accordance with section 751(a)(1)(A) of the Act. For each of the subsidy programs found countervailable, we find that there is a subsidy, *i.e.*, a government-provided financial contribution that gives rise to a benefit to the recipient, and that the subsidy is specific.⁶ The Issues and Decision Memorandum contains a full description of the methodology underlying Commerce’s conclusions, including any determination that relied upon the use of adverse facts available pursuant to sections 776(a) and (b) of the Act.

Companies Not Selected for Individual Examination

The statute and Commerce’s regulations do not address the establishment of a rate to be applied to companies not selected for individual examination when Commerce limits its examination in an administrative review pursuant to section 777A(e)(2) of the Act. Generally, Commerce looks to section 705(c)(5) of the Act, which provides instructions for determining the all-others rate in an investigation, for guidance when calculating the rate for companies which were not selected for individual examination in an administrative review. Under section 705(c)(5)(A) of the Act, the all-others rate is normally an amount equal to the weighted average of the countervailable

subsidy rates established for exporters and producers individually investigated, excluding any zero or *de minimis* countervailable subsidy rates, and any rates determined entirely on the basis of facts available.

As stated above, there are two companies for which a review was requested and not rescinded, and which were not selected as mandatory respondents or found to be cross-owned with the mandatory respondents. Because the rate calculated for the mandatory respondents in this review, Xingyi Metalworking and Zhejiang Xingyi, is above *de minimis* and not based entirely on facts available, we are applying Xingyi Metalworking and Zhejiang Xingyi’s subsidy rate to these non-selected companies. This methodology used to establish the rate for the non-selected companies is consistent with our practice regarding the calculation of the all-others rate, pursuant to section 705(c)(5)(A)(i) of the Act.

This is the same methodology Commerce applied in the *Preliminary Results* for determining a rate for companies not selected for individual examination. However, due to changes in the calculations for Xingyi Metalworking and Zhejiang Xingyi, we revised the non-selected rate accordingly. Consequently, for the two companies not selected for individual examination and for which the review was not rescinded, we are applying an *ad valorem* subsidy rate of 16.61 percent for 2020 and 22.72 percent for 2021.

Final Results of Review

We determine the following net countervailable subsidy rates exist for the period December 14, 2020, through December 31, 2021:

Producer/exporter	2020 subsidy rate (percent)	2021 subsidy rate (percent)
Xingyi Metalworking Technology (Zhejiang) Co., Ltd.; Zhejiang Xingyi Metal Products Co., Ltd	16.61	22.72
Hangzhou Evernew Machinery & Equipment Company Limited	16.61	22.72
Hangzhou Xline Machinery & Equipment Co. Ltd	16.61	22.72
