We invite the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. Public comments were previously requested via the **Federal Register** on December 8, 2023, during a 60-day comment period. This notice allows for an additional 30 days for public comments.

Agency: U.S. Census Bureau, Department of Commerce.

Title: Current Population Survey, Fertility Supplement.

Form Number(s): None.

Type of Request: Regular submission, Request for a reinstatement without change of a previously approved collection.

Number of Respondents: 30,000.

Average Hours per Response: 1 minute.

Burden Hours: 500.

Needs and Uses: The Fertility Supplement is conducted in conjunction with the Current Population Survey (CPS). The Census Bureau sponsors the supplement questions, which were previously collected in June 2022, and have been asked periodically since 1971. This

survey provides information used mainly by government and private analysts to project future population growth and to aid policymakers and private analysts in their decisions affected by changes in family size and composition. Past studies have discovered noticeable changes in the patterns of fertility rates and the timing of the first birth. Potential needs for government assistance, such as aid to families with dependent children, child care, and maternal health care for single parent households, can be estimated using CPS characteristics matched with fertility data.

Affected Public: Individuals or households.
