Coast Guard

33 CFR Part 165

[Docket Number USCG–2024–0136]

RIN 1625–AA00

Safety Zone, Installation Area for Offshore Wind Power Transmission Export Cables, Atlantic Ocean, Virginia Beach, Virginia

AGENCY: Coast Guard, Department of Homeland Security (DHS).

ACTION: Temporary final rule.

SUMMARY: The Coast Guard is establishing a temporary safety zone for navigable waters within 550-yards of a near shore construction site near the State Military Reservation, in Virginia Beach, Virginia. The safety zone will protect personnel, vessels, and the marine environment from potential hazards created by subsurface construction. Operations are planned to bore tunnels to carry electric transmission lines below the Atlantic Ocean. When the M/V RAM XII or the M/V RAM XV are present, entry of vessels or persons into this zone is prohibited unless specifically authorized by the Captain of the Port, Sector Virginia or a designated representative.

DATES: This rule is effective from March 1, 2024 through December 31, 2024.

ADDRESSES: To view documents mentioned in this preamble as being available in the docket, go to <https://www.regulations.gov>, type USCG–2024–0136 in the search box and click “Search.” Next, in the Document Type column, select “Supporting & Related Material.”

FOR FURTHER INFORMATION CONTACT: If you have questions about this rule, call or email LCDR Ashley Holm, Chief, Waterways Management Division U.S. Coast Guard; 757–617–7986, Ashley.E.Holm@uscg.mil.

SUPPLEMENTARY INFORMATION:

I. Table of Abbreviations

COTP Captain of the Port, Sector Virginia
CFR Code of Federal Regulations
DHS Department of Homeland Security
FR Federal Register
NPRM Notice of proposed rulemaking
§ Section
U.S.C. United States Code

II. Background Information and Regulatory History

On February 6, 2024, the Virginia Electric and Power Company, doing business as Dominion Energy, notified the Coast Guard that they plan to begin tunneling work east of the State Military Reservation in Virginia Beach, Virginia in the first week of March 2024, specifically in waters within one half mile of the shoreline. The work involves the use of dynamic positioning for tunnel placement, excavation equipment, divers in shallow water, and the coordination of approximately seven vessels.

The Coast Guard is issuing this temporary rule under authority in 5 U.S.C. 553(b)(B). This statutory provision authorizes an agency to issue a rule without prior notice and

opportunity to comment when the agency for good cause finds that those procedures are impracticable. The Coast Guard finds that good cause exists for not publishing a notice of proposed rulemaking (NPRM) with respect to this rule because publishing notice, and receiving, considering and responding to comments between now and March 1, 2024, when the safety zone must be in effect, is impracticable.

Also, under 5 U.S.C. 553(d)(3), the Coast Guard finds that good cause exists for making this rule effective less than 30 days after publication in the **Federal Register**. Delaying the effective date of this rule would be impracticable because there are less than 30 days remaining before March 1, when the safety zone must be in place to serve its purpose.

III. Legal Authority and Need for Rule

The Captain of the Port, Sector Virginia (COTP) has determined that potential hazards associated with the construction of subsurface tunnels will create a safety concern that necessitates prohibiting vessels approaching the subsea tunneling site. This rule is needed to protect personnel, vessels, and the marine environment in the navigable waters within the safety zone while the tunneling operations are conducted. The Coast Guard is issuing this rule under authority in 46 U.S.C. 70034.

IV. Discussion of the Rule

This rule establishes a safety zone from March 1, 2024, until December 31, 2024, during which Dominion Energy will be tunneling to lay electric transmission lines below the Atlantic Ocean. The safety zone will cover all navigable waters within 550 yards of the position 36°48'57.6" N 75°57'43.2" W, a distance selected to encompass all vessels and machinery being used by personnel to conduct tunneling operations. Consistent with its purpose of protecting personnel, vessels, and the marine environment in these navigable waters while the tunneling operations are conducted, the zone will only be subject to enforcement when such vessels are present. During subsurface construction operations, no vessel or person will be permitted to enter the safety zone without obtaining permission from the COTP or a designated representative.

V. Regulatory Analyses

We developed this rule after considering numerous statutes and Executive orders related to rulemaking. Below we summarize our analyses based on a number of these statutes and
