

additional non-infringement bases for claims 9, 12, or 13 of the '322 patent.

On December 5, 2023, the parties filed their respective responses to the petitions for review.

On December 27, 2023, MRI filed a statement on the public interest pursuant to Commission Rule 210.50(a)(4), 19 CFR. 210.50(a)(4). Respondents did not file a submission pursuant to Commission Rule 210.50(a)(4). No responses were received in response to the Commission's post-RD notice seeking public interest submissions. 88 FR 84360–61 (Dec. 5, 2023).

The Commission has determined not to review the subject FID. The Commission notes, however, that the FID, in analyzing whether claim 4 of the '322 patent is rendered obvious by the combination of certain prior art references, states several times that "MRI has shown by clear and convincing evidence" that each of the eight elements of claim 4 is disclosed by the prior art. *See* FID, at 213, 214, 215 and 216. The FID clearly meant that for each element, "Respondents have shown by clear and convincing evidence. . . ." This aspect of the FID is accordingly clarified.

The investigation is terminated with a finding of no violation of section 337.

The Commission vote for this determination took place on February 28, 2024.

The authority for the Commission's determination is contained in section 337 of the Tariff Act of 1930, as amended (19 U.S.C. 1337), and in part 210 of the Commission's Rules of Practice and Procedure (19 CFR part 210).

By order of the Commission.

Issued: February 28, 2024.

Lisa Barton,

Secretary to the Commission.
