OSHA needs this information to accredit companies to inspect and provide certification for cranes, derricks, and accessory gear used in the longshoring, marine terminal and shipyard industries.

Certain types of vessel cargo gear and shore-based material handling devices used in maritime operations are required to have accredited companies conduct examinations. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid OMB Control Number. See 5 CFR 1320.5(a) and 1320.6.
