Proposed Information Collection Request; Comment Request; Data Reporting Requirements for State and Local Vehicle Emission Inspection and Maintenance (I/M) Programs

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA) is planning to submit an information collection request (ICR), “Data Reporting Requirements for State and Local Vehicle Emission Inspection and Maintenance (I/M) Programs” (EPA ICR No.1613.08, OMB Control No. 2060–0252) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act. Before doing so, EPA is soliciting public comments on specific aspects of the proposed information collection as described below. This is a proposed extension of the ICR, which is currently approved through October 31, 2024. An Agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

DATES: Comments must be submitted on or before May 17, 2024.

ADDRESSES: Submit your comments, referencing Docket ID No. EPA–HQ–OAR–2008–0707 online using [https://](https://www.regulations.gov)

www.regulations.gov (our preferred method) or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW, Washington, DC 20460. EPA’s policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

FOR FURTHER INFORMATION CONTACT: Joe Winkelmann, Office of Transportation and Air Quality, U.S. Environmental Protection Agency, 2000 Traverwood, Ann Arbor, Michigan 48105; telephone number: 734–214–4255; email address: winkelmann.joseph@epa.gov.

SUPPLEMENTARY INFORMATION:

Supporting documents which explain in detail the information that the EPA will be collecting are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW, Washington, DC. Pursuant to section 3506(c)(2)(A) of the Paperwork Reduction Act (PRA), EPA is soliciting comments and information to enable it to: (i) evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility; (ii) evaluate the accuracy of the Agency’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (iii) enhance the quality, utility, and clarity of the information to be collected; and (iv) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses. EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval. At that time, EPA will issue another **Federal Register** notice to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB.

Abstract: Clean Air Act section 182 and EPA’s regulations (40 CFR part 51, subpart S) establish the requirements for state and local inspection and maintenance (I/M) programs that are included in state implementation plans (SIPs). To provide general oversight and support to these programs, EPA requires that state agencies with Basic and Enhanced I/M programs collect two varieties of reports for submission to the Agency:

- An annual report providing general program operating data and summary statistics, addressing the program’s current design and coverage, a summary of testing data, enforcement program efforts, quality assurance and quality control efforts, and other miscellaneous information allowing for an assessment of the program’s relative effectiveness; and

- A biennial report on any changes to the program over the two-year period and the impact of such changes, including any deficiencies discovered and corrections made or planned.

General program effectiveness is determined by the degree to which a program misses, meets, or exceeds the emission reductions committed to in the state’s approved SIP, which, in turn, must meet or exceed the minimum emission reductions expected from the relevant performance standard, as promulgated under 40 CFR part 51, subpart S, in response to requirements established in section 182 of the Clean Air Act. This information is used by EPA to determine a program’s progress toward meeting requirements under 40 CFR part 51, subpart S, and to provide background information in support of program evaluations. Additional information regarding the current renewal of this ICR as well as previous renewals can be found in Docket ID No. EPA–HQ–OAR–2008–0707.

The following statistics and responses apply to the ICR proposed for renewal.

Form Numbers: None.

Respondents/affected entities: State I/M program managers.

Respondent’s obligation to respond: Mandatory (40 CFR 51.366).

Estimated number of respondents: 26 (total).

Frequency of response: Annual and biennial.

Total estimated burden: 2,236 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$165,776 (per year), includes \$0 annualized capital or operation and maintenance costs.

Changes in Estimates: There is no change in the total estimated respondent

burden compared with the ICR currently approved by OMB.

Karl Simon,

Director, Transportation and Climate Division, Office of Transportation and Air Quality.
