Agency Forms Undergoing Paperwork Reduction Act Review

In accordance with the Paperwork Reduction Act of 1995, the Centers for Disease Control and Prevention (CDC) has submitted the information collection request titled “Airline and Traveler Information Collection: Domestic Manifests and the Passenger Locator Form” to the Office of Management and Budget (OMB) for review and approval. Airline and Traveler Information Collection: Domestic Manifests and the Passenger Locator Form (OMB Control No. 0920-1181, Exp. 3/31/2024)—Revision—National Center for Emerging and Zoonotic Infectious Diseases (NCEZID), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

The rapid speed and tremendous volume of domestic, international, and transcontinental travel, commerce, and human migration enable infectious disease threats to disperse worldwide in 24 hours—less time than the incubation period of most communicable diseases. These and other forces intrinsic to modern technology and ways of life favor the emergence of new communicable diseases and the reemergence or increased severity of known communicable diseases.

Stopping a communicable disease outbreak—whether it is naturally occurring or intentionally caused—requires the use of the most rapid and effective public health tools available. Basic public health practices, such as collaborating with airlines in the identification and notification of potentially exposed contacts, are critical tools in the fight against the introduction, transmission, and spread of communicable diseases in the United States.

The collection of timely, accurate, and complete conveyance and traveler information enables CDC to notify State,
