Fisheries of the Gulf of Mexico and South Atlantic; Southeast Data, Assessment, and Review (SEDAR); Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of SEDAR 79 Assessment Webinar II for Gulf of Mexico and South Atlantic Mutton Snapper.

SUMMARY: The SEDAR 79 assessment process of Gulf of Mexico and South Atlantic mutton snapper will consist of a Data Workshop, and a series of assessment webinars, and a Review Workshop. See **SUPPLEMENTARY INFORMATION**.

DATES: The SEDAR 79 Assessment Webinar II will be held April 4, 2024, from 9 a.m. to 12 p.m., Eastern Time. The established times may be adjusted as necessary to accommodate the timely completion of discussion relevant to the assessment process. Such adjustments may result in the meeting being extended from or completed prior to the time established by this notice.

ADDRESSES:

Meeting address: The meeting will be held via webinar. The webinar is open to members of the public. Those interested in participating should contact Julie A. Neer at SEDAR (see **FOR**

FURTHER INFORMATION CONTACT below) to request an invitation providing webinar access information. Please request webinar invitations at least 24 hours in advance of each webinar.

SEDAR address: 4055 Faber Place Drive, Suite 201, North Charleston, SC 29405.

FOR FURTHER INFORMATION CONTACT: Julie A. Neer, SEDAR Coordinator; (843) 571-4366; email: Julie.neer@safmc.net.

SUPPLEMENTARY INFORMATION: The Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils, in conjunction with NOAA Fisheries and the Atlantic and Gulf States Marine Fisheries Commissions have implemented the Southeast Data, Assessment and Review (SEDAR) process, a multi-step method for determining the status of fish stocks in the Southeast Region. SEDAR is a multi-step process including: (1) Data Workshop, (2) a series of assessment webinars, and (3) A Review Workshop. The product of the Data Workshop is a report that compiles and evaluates potential datasets and recommends which datasets are appropriate for assessment analyses. The assessment webinars produce a report that describes the fisheries, evaluates the status of the stock, estimates biological benchmarks, projects future population conditions, and recommends research and monitoring needs. The product of the Review Workshop is an Assessment Summary documenting panel opinions regarding the strengths and weaknesses of the stock assessment and input data. Participants for SEDAR Workshops are appointed by the Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils and NOAA Fisheries Southeast Regional Office, HMS Management Division, and Southeast Fisheries Science Center. Participants include data collectors and database managers; stock assessment scientists, biologists, and researchers; constituency representatives including fishermen, environmentalists, and NGO's; International experts; and staff of Councils, Commissions, and state and federal agencies.

The items of discussion during the webinar are as follows:

Panelists will review and discuss initial assessment modeling to date.

Although non-emergency issues not contained in this agenda may come before this group for discussion, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically identified in this notice and any issues arising after publication of this notice that require emergency action under

section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the intent to take final action to address the emergency.

Special Accommodations

The meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to the Council office (see **ADDRESSES**) at least 5 business days prior to each workshop.

[Docket No. PTO-P-2023-0045]

Resources for Examining Means-Plus-Function and Step-Plus-Function Claim Limitations

AGENCY: United States Patent and Trademark Office, Department of Commerce.

ACTION: Notice.

SUMMARY: The United States Patent and Trademark Office (USPTO) issued a memorandum to the patent examining corps to assist patent examiners in addressing means-plus-function and step-plus-function claim limitations, and to create a clearer record for the applicant, the public, and the courts. The issued memorandum will help ensure consistent analysis by USPTO employees in addressing means-plus-function and step-plus-function limitations and will result in clearer communications to applicants from the USPTO as to the interpretation of means-plus-function and step-plus-function limitations and any related deficiencies. Clearer USPTO communications provide both the applicant and the public with notice as to the claim interpretation used by the patent examiner during prosecution, and if the applicant intends a different claim interpretation, the issue can be clarified early in prosecution.

DATES: Comment Deadline: Written comments must be received on or before June 18, 2024, to ensure consideration.

ADDRESSES: Comments must be submitted through the Federal

eRulemaking Portal at www.regulations.gov. To submit comments via the portal, enter docket number PTO-P-2023-0045 on the homepage and select "Search." The site will provide a search results page listing all documents associated with this docket. Find a reference to this document and select the "Comment" icon, complete the required fields, and enter or attach your comments. Attachments to electronic comments will be accepted in Adobe® portable document format (PDF) or Microsoft Word® format. Because comments will be made available for public inspection, information that the submitter does not desire to make public, such as an address or phone number, should not be included in the comments.

Visit the Federal eRulemaking Portal for additional instructions on providing comments via the portal. If electronic submission of comments is not feasible due to a lack of access to a computer and/or the internet, please contact the USPTO using the contact information below for special instructions.

SUPPLEMENTARY INFORMATION: On March 18, 2024, the USPTO issued a memorandum to the patent examining corps titled "Resources for Examining Means-Plus-Function and Step-Plus-Function Claim Limitations (35 U.S.C. 112(f))" (memorandum). The memorandum is available at www.uspto.gov/patents/laws/examination-policy/memoranda-examining-corps.

As background, means-plus-function limitations appear in many claims across a wide variety of technologies, while step-plus-function limitations appear less frequently. It is critical to proper examination that patent examiners appreciate the unique statutory construction of means-plus-function and step-plus-function limitations and make the record clear as to the same. It is also incumbent upon patent examiners to make the prosecution history record clear for applicants, the public, and the courts (and for the USPTO for any post-grant determinations) when claims are examined under a means-plus-function
