

protecting the privacy of the employee to allow the successor nonprofit agency to conduct interviews with those identified employees. If selected employees agree, the deauthorized nonprofit agency shall release them at a mutually agreeable date and negotiate transfer of their earned fringe benefits and other relevant employment and Program eligibility information to the successor nonprofit agency. The requirement for a successor nonprofit agency to offer the right of first refusal also applies to an authorized nonprofit agency that is no longer serving as the mandatory source because of a competitive distribution under § 51–3.4(d) of this chapter.

BILLING CODE P

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 73

[DA 24–241; FR ID 209156]

Radio Broadcasting Services; Various Locations

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: This document amends the Table of FM Allotments, of the Federal Communications Commission’s (Commission) rules, by reinstating certain channels as a vacant FM allotment in various communities. The FM allotments were previously removed from the FM Table because a construction permit and/or license was granted. These FM allotments are now considered vacant because of the cancellation of the associated FM authorizations or the dismissal of long-form auction FM applications. A staff engineering analysis confirms that all of the vacant FM allotments complies with the Commission’s regulations. The window period for filing applications for these vacant FM allotments will not be opened at this time. Instead, the issue of opening these allotments for filing will be addressed by the Commission in subsequent order.

DATES: Effective March 22, 2024.

FOR FURTHER INFORMATION CONTACT: Rolanda F. Smith, Media Bureau, (202) 418–2700.

SUPPLEMENTARY INFORMATION: This is a synopsis of the Commission’s *Order*, adopted March 12, 2024, and released March 12, 2024. The full text of this Commission decision is available online at <https://apps.fcc.gov/ecfs/>. The full

text of this document can also be downloaded in Word or Portable Document Format (PDF) at <https://www.fcc.gov/edocs>. This document does not contain information collection requirements subject to the Paperwork Reduction Act of 1995, Public Law 104–13. The Commission will not send a copy of the *Order* in a report to be sent to Congress and the Government Accountability Office pursuant to the Congressional Review Act, *see* 5 U.S.C. 801(a)(1)(A), because these allotments were previously reported.

List of Subjects in 47 CFR Part 73

Radio, Radio broadcasting.
Federal Communications Commission.
Nazifa Sawez,
Assistant Chief, Audio Division, Media Bureau.

Final Rules

For the reasons discussed in the preamble, the Federal Communications Commission amends 47 CFR part 73 as follows:

PART 73—RADIO BROADCAST SERVICES

■ 1. The authority citation for part 73 continues to read as follows:

Authority: 47 U.S.C. 154, 155, 301, 303, 307, 309, 310, 334, 336, 339.

■ 2. In § 73.202(b), amend the Table of FM Allotments by:

- a. Adding the entry for “North English” in alphabetical order under Iowa;
- b. Adding the entry for “Colfax” in alphabetical order under Louisiana;
- c. Adding the entry for “Calhoun City” in alphabetical order under Mississippi;
- d. Adding the entry for “Battle Mountain” in alphabetical order under Nevada;
- e. Under Oregon:
 - i. Revising the entry for “Huntington”; and
 - ii. Adding entries for “Independence” and “Monument” in alphabetical order;
- f. Adding the entry for “Murdo” in alphabetical order under South Dakota;
- g. Adding the entry for “Selmer” in alphabetical order under Tennessee; and
- h. Adding the entries for “Camp Wood,” “Cotulla,” “Los Ybanez,” “Ozona,” and “Stamford” in alphabetical order under Texas.

The additions and revision read as follows:

§ 73.202 Table of Allotments.

BILLING CODE 6712-01-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 648

[Docket No.: 240314-0080]

RIN 0648-BM78

Fisheries of the Northeastern United States; Framework Adjustment 38 to the Atlantic Sea Scallop Fishery Management Plan

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Final rule.

SUMMARY: NMFS approves and implements the measures included in Framework Adjustment 38 to the Atlantic Sea Scallop Fishery Management Plan as adopted and submitted by the New England Fishery Management Council. Framework 38 establishes scallop specifications and other measures for fishing years 2024 and 2025. Framework 35 implements measures to protect small scallops which would thereby support rotational access area trips to the fleet in future years. To promote uniformity in the fishery, this final rule also corrects and clarifies regulatory text that is unnecessary, outdated, or unclear. This action is necessary to prevent overfishing and improve both yield-per-recruit and the overall management of the Atlantic sea scallop resource.

DATES: Effective on April 1, 2024, except for the amendment to § 648.10(c)(1)(ii), which is effective April 22, 2024.

ADDRESSES: The New England Fishery Management Council (Council) has prepared an environmental assessment (EA) for this action that describes the

measures in Framework 38 and other considered alternatives and analyzes the impacts of the measures and alternatives. The Council submitted Framework 38 to NMFS that includes the draft EA, a description of the Council’s preferred alternatives, the Council’s rationale for selecting each alternative, and an Initial Regulatory Flexibility Analysis (IRFA). Copies of the draft of Framework 38, the draft EA, the IRFA, and information on the economic impacts of this rulemaking are available upon request from Dr. Cate O’Keefe, Executive Director, New England Fishery Management Council, 50 Water Street, Newburyport, MA 01950 and accessible via the internet in documents available at: <https://www.nefmc.org/library/scallop-framework-38>.

FOR FURTHER INFORMATION CONTACT: Travis Ford, Fishery Policy Analyst, 978-281-9233, travis.ford@noaa.gov.

SUPPLEMENTARY INFORMATION: The New England Fishery Management Council adopted Framework Adjustment 38 to the Atlantic Sea Scallop FMP on December 6, 2023. The Council submitted Framework 38, including a draft EA, for NMFS review and approval on February 26, 2024. NMFS published a proposed rule for Framework 38 on February 12, 2024 (89 FR 9819). To help ensure that the final rule would be implemented before the start of the fishing year on April 1, 2024, the proposed rule included a 15-day public comment period that closed on February 27, 2024. Except as explained below with respect to section 305(d), NMFS is issuing this rule pursuant to 304(b)(1)(A) rulemaking authority. NMFS has approved all of the measures in Framework 38 recommended by the Council. This final rule implements Framework 38, which sets scallop specifications and other measures for fishing years 2024 and 2025, including changes to the catch, effort, and quota allocations and adjustments to the rotational area management program for

fishing year 2024, and default specifications for fishing year 2025. The Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act) allows NMFS to approve, partially approve, or disapprove measures proposed by the Council based on whether the measures are consistent with the FMP, the Magnuson-Stevens Act and its National Standards, and other applicable law. Details concerning the development of these measures were contained in the preamble of the proposed rule and are not repeated here. This final rule also addresses regulatory text that is unnecessary, outdated, or unclear pursuant to section 305(d) of the Magnuson-Stevens Act.

Specification of Scallop Overfishing Limit (OFL), Acceptable Biological Catch (ABC), Annual Catch Limits (ACL), Annual Catch Targets (ACT), Annual Projected Landings (APL) and Set-Asides for the 2024 Fishing Year, and Default Specifications for Fishing Year 2025

The Council set the OFL based on a fishing mortality rate (F) of 0.61, equivalent to the F threshold updated through the Northeast Fisheries Science Center’s most recent scallop benchmark stock assessment that was completed in September 2020. The ABC and the equivalent total ACL for each fishing year are based on an F of 0.45, which is the F associated with a 25-percent probability of exceeding the OFL. The Council’s Scientific and Statistical Committee (SSC) recommended scallop fishery ABCs of 47.4 million pounds (lb; 21,497 metric tons (mt)) for 2024 and 49.8 million lb (22,586 mt) for the 2025 fishing year, after accounting for discards and incidental mortality. The SSC will reevaluate and potentially adjust the ABC for 2025 when the Council develops the next framework adjustment.

Table 1 outlines the scallop fishery catch limits.

TABLE 1—SCALLOP CATCH LIMITS (mt) FOR FISHING YEARS 2024 AND 2025 FOR THE LIMITED ACCESS AND LIMITED ACCESS GENERAL CATEGORY (LAGC) INDIVIDUAL FISHING QUOTA (IFQ) FLEETS

Catch limits	2024 (mt)	2025 (mt) ^a
OFL	33,406	35,241
ABC/ACL (discards removed)	21,497	22,586
Incidental Landings	23	23
Research Set-Aside (RSA)	578	578
Observer Set-Aside	215	226
Northern Gulf of Maine (NGOM) Set-Aside	191	143
ACL for fishery	20,490	21,616
Limited Access ACL	19,363	20,427
LAGC Total ACL	1,127	1,189
LAGC IFQ ACL (5 percent of ACL)	1,024	1,081
