SUPPLEMENTARY INFORMATION: In compliance with the Paperwork Reduction Act (44 U.S.C. 3506), the Administration for Community Living (ACL) has submitted the following proposed collection of information to

OMB for review and clearance. The Independent Living Services (ILS) program provides financial assistance, through formula grants, to all fifty states, the District of Columbia, Puerto Rico, American Samoa, the Commonwealth of the Northern Mariana Islands, Guam, and US Virgin Islands for expanding, and improving the provision of, IL services. The Designated State Entity (DSE) is the agency that, on behalf of the state, receives, accounts for, and disburses funds received under Part B of the Rehabilitation Act of 1973, as amended (the Act). Funds are also made available for the provision of training and technical assistance to Statewide Independent Living Councils (SILCs). The Rehabilitation Act of 1973, as amended, requires three IL program reports: (1) State Plan for Independent Living (SPIL), (2) ILS Program Performance Report, and (3) Center for Independent Living (CIL) PPR. The ILS PPR is submitted annually by the SILC and DSE in every state, territory, and outlying area that receives Part B funds and in the District of Columbia. The ILS PPRs are used by ACL to assess grantees' compliance with title VII of the Act, with 45 CFR part 1329 of the Code of Federal Regulations, and with applicable provisions of the HHS Regulations at 45 CFR part 75. The ILS PPR serves as the primary basis for ACL's monitoring activities in fulfillment of its responsibilities under sections 706 and 722 of the Act. The PPR is also used by ACL to design CIL and SILC training and technical assistance programs authorized by section 721 of the Act.

ACL will adhere to best practices for collection of all demographic information in accordance with OMB guidance—including, but not limited to guidance specific to the collection of sexual orientation and gender identity (SOGI) items that support alignment with Executive Order 13985 on Advancing Racial Equity and Support for Underserved Communities through the federal government, Executive Order 14075 on Advancing Equality for Lesbian, Gay, Bisexual, Transgender, Queer, and Intersex Individuals, and Executive Order 13988 on Preventing and Combating Discrimination on the Basis of Gender Identity and Sexual Orientation. Understanding these disparities can and should lead to improved service delivery for ACL's programs and populations served.

SUPPLEMENTARY INFORMATION:

In compliance with the Paperwork Reduction Act (44 U.S.C. 3506), the Administration for Community Living (ACL) has submitted the following proposed collection of information to OMB for review and clearance. In 1965, the Older Americans Act (OAA) was passed in response to concerns by policymakers about a lack of community social services for older adults. The OAA established authority for grants for community planning and social services, research and development projects, and personnel training in the field of aging. The Elder Justice Act (EJA), passed in 2010, is the first comprehensive legislation to address the abuse, neglect, and exploitation of older adults at the Federal level. OAA and EJA programs help advance ACL's mission of supporting the independence, well-being, and health of older adults, older adults with disabilities, and their families and caregivers. This proposed information collection will gather program performance data for ACL formula and competitive grant programs authorized by the Older Americans Act (OAA) and the Elder Justice Act (EJA), as required by and in accordance with Public Law 116-131 and 42 U.S.C. chapter 7, subchapter XX, division B (authorizing legislation); 45 CFR 75.342 (monitoring and reporting program performance); 45 CFR 75.301 (performance measurement); and the GPRA Modernization Act of 2010 (Pub. L. 111-352, sec. 12). The collection of program performance data is required for all ACL

grantees, including grants authorized by the OAA and EJA, to: (1) monitor achievement of program performance objectives; (2) identify areas of performance that may benefit from technical assistance and/or corrective action; (3) establish program policy and direction; and (4) prepare responses and reports for Congress, the Office of Management and Budget (OMB), other federal departments, and public and private agencies, including legislatively required reports.

ACL consistently looks for ways to streamline the collection of required program performance data. The proposed *ACL Program Performance Report Generic Information Collection* would provide an efficient mechanism for the collection of a core set of program performance data elements across OAA and EJA authorized programs necessary to ensure each programs indicators, demographics, priorities, and objectives are being achieved. The collection of this core set of performance elements will enable ACL to analyze program performance broadly across its grantee portfolio, while minimizing grantee reporting burden. Program offices will be given the opportunity to submit, for review and approval under this generic clearance, PPRs for their programs that address the core program performance elements.
