

submitting annual report data to PHMSA via form PHMSA F7000–1.1, the Annual Report for Hazardous Liquid and Carbon Dioxide Pipeline Systems. PHMSA is proposing to revise form PHMSA F7000–1.1. to collect data on how many miles of pipeline segments have RMVs or alternative equivalent technology to mitigate the consequences of a potential rupture. PHMSA believes that operators currently have this information available within their integrity management plans but acknowledges it may take operators some time to compile the data needed to comply with this information collection request.

As such, PHMSA proposes to add one hour to the approved burden for form PHMSA F7000–1.1 to account for the proposed changes. This will bring the total burden for completing the annual report to 27 hours per operator for an overall burden of 12,825 hours across all hazardous liquid and carbon dioxide pipeline operators.

Affected Public: Owners and operators of hazardous liquid and carbon dioxide pipelines.

Annual Reporting and Recordkeeping Burden:

Total Annual Responses: 950.

Total Annual Burden Hours: 12,825.

Frequency of Collection: Annual.

6. *Title:* National Pipeline Mapping Program.

OMB Control Number: 2137–0596.

Current Expiration Date: 03/31/2026.

Type of Request: Revision of an information collection.

Abstract: The Pipeline Safety Improvement Act of 2002 (Pub. L. 107–355), 49 U.S.C. 60132, “National Pipeline Mapping System,” requires operators to submit geospatial data appropriate for use in the National Pipeline Mapping System or data in a format that can be readily converted to geospatial data; the name and address of the person with primary operational control (to be known as its operator); and a means for a member of the public to contact the operator for additional information about the pipeline facilities

it operates. PHMSA proposes to amend the NPMS to include gas transmission commodity selections for natural gas and hydrogen gas blends. PHMSA estimates that no additional burden will be incurred by operators as a result of this change.

Affected Public: Owners and operators of gas transmission pipelines and hazardous liquid and carbon dioxide pipelines.

Annual Reporting and Recordkeeping Burden:

Total Annual Responses: 1,346.

Total Annual Burden Hours: 162,208.

Frequency of Collection: Annual.

Comments are invited on:

(a) The need for this information collection for the proper performance of the functions of the Agency, including whether the information will have practical utility.

(b) The accuracy of the Agency’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used.

(c) Ways to enhance the quality, utility, and clarity of the information to be collected.

(d) Ways to minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques.

(e) Additional information that would be appropriate to collect to inform the reduction of risk to people, property, and the environment due to excavation damages.

Authority: The Paperwork Reduction Act of 1995; 44 U.S.C. Chapter 35, as amended; and 49 CFR 1.48.

Issued in Washington, DC, on March 19, 2024, under authority delegated in 49 CFR 1.97.

Alan K. Mayberry,

Associate Administrator for Pipeline Safety.
