As part of our continuing effort to reduce paperwork and respondent burdens, we invite the public and other Federal agencies to comment on new, proposed, revised and continuing collections of information. This helps the BLM assess impacts of its information collection requirements and minimize the public's reporting burden. It also helps the public understand BLM information collection requirements and ensure requested data are provided in the desired format.

The BLM is especially interested in public comment addressing the following:

(1) whether collection of information is necessary for the proper performance of the functions of the agency, including if the information will have practical utility;

(2) determination of the accuracy of the BLM's estimate of the burden for collection of information, including validity of methodology and assumptions used;

(3) methods to enhance the quality, utility, and clarity of information to be collected; and

(4) how the agency can minimize the burden of information collection on those who respond, including use of appropriate automated, electronic, mechanical or other technological collection techniques or other forms of information technology.

Comments submitted in response to this notice are a matter of public record. The BLM will include or summarize each comment in its request to OMB to approve this ICR. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

**Abstract:** The BLM collects the information from respondents to determine if they are qualified by statute to purchase Federal timber resources originating from public lands managed by the BLM. This OMB control number is currently scheduled to expire December 31, 2024. This request is for OMB to renew this OMB control number for an additional three (3) years.

This request to renew OMB Control Number 1004–0058 will also request to discontinue the use of the Form 5460–17, Substitution Determination, which reduces the estimated annual burden hours from 300 to 200 hours. The BLM

determined that the 5460–17 was confusing and had limited applicability without use of sourcing area designations that allow timber export in certain circumstances.

**Title of Collection:** Reporting Provision for Timber Export Determination and Log Scale Disposition (43 CFR parts 5424 and 5462).

**OMB Control Number:** 1004–0058.

**Form Numbers:** 5450–17 and 5460–15.

**Type of Review:** Extension with revision of a currently approved collection.

**Respondents/Affected Public:** Purchasers of Federal timber and their affiliates.

**Total Estimated Number of Annual Respondents:** 200.

**Total Estimated Number of Annual Responses:** 200.

**Estimated Completion Time per Response:** 1 hour.

**Total Estimated Number of Annual Burden Hours:** 200.

**Respondent's Obligation:** Required to obtain or retain a benefit.

**Frequency of Collection:** On occasion.

**Total Estimated Annual Nonhour Burden Cost:** None.

An agency may not conduct or sponsor and, notwithstanding any other provision of law, a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

The authority for this action is the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*).

#### Abstract of Information Available

One cultural item has been requested for repatriation. The one object of cultural patrimony is a basket. The basket was collected from southern California in the early 20th century by Bob Lengacher's aunt. Lengacher donated his collection to Gilcrease Museum in 1995.

The items listed below from Los Angeles, Santa Barbara, and Ventura Counties were collected by Earl Stendahl, who owned a gallery in Los Angeles. In 1950 the item was then sold to Thomas Gilcrease, who transferred his collection to the City of Tulsa in 1955.

A total of 12 cultural items have been requested for repatriation. The 12 lots of unassociated funerary objects/objects of cultural patrimony are pipes and a mortar. These cultural items were removed from Point Dume, Ramirez Canyon, and Solstice Canyon sites in Los Angeles County, CA in the early to mid-20th century.

A total of 41 cultural items have been requested for repatriation. The 41 lots of unassociated funerary objects/objects of cultural patrimony are glass and shell beads, stone beads, inlaid and plain stone vessels, plain and effigy stone pipes, ornaments (including ring, bracelet, and hair decorations), a stone seal effigy, stone hooks, and stone tools. These cultural items were removed from Dos Pueblos, Goleta Slough, and San Miguel Island sites in Santa Barbara County, CA in the early to mid-20th century.

A total of 11 cultural items have been requested for repatriation. The 11 lots of unassociated funerary objects/objects of cultural patrimony are stone and glass beads, a stone effigy bowl, animal

effigies, and inlaid stone miniature canoes. These cultural items were removed from Arroyo Sequit and areas around Malibu in Ventura County, CA.

A total of 535 cultural items have been requested for repatriation. The 535 lots of unassociated funerary objects/objects of cultural patrimony are stone and shell beads, trade beads, plain and effigy stone pipes, plain and inlaid stone effigies, stone tools, ornaments (including for hair and ears), stone bowls, arrow straighteners, pendants, shell gorgets, fish hooks, and a whistle. These were collected from coastal southern California by the above-mentioned Earl Stendahl.

A total of four cultural items have been requested for repatriation. The four lots of unassociated funerary objects/objects of cultural patrimony are stone and glass beads. These were collected from coastal southern California by Frank Engles, and then sold to Thomas Gilcrease through Earl Stendahl in 1950.

A total of 279 cultural items have been requested for repatriation. The 279 lots of unassociated funerary objects/objects of cultural patrimony are shells, marine animal fragments (including coral), fish hooks, shell and stone beads and discs, faunal bone tools, stone tools, shell pendants, faunal remains, petrified wood, and mortars. These were collected from coastal southern California and donated to Gilcrease Museum in 1982 by Gary Busby.

A total of two cultural items have been requested for repatriation. The two lots of unassociated funerary objects/objects of cultural patrimony are stone beads and a stone bowl. These were collected from Los Angeles County, CA and donated to Gilcrease Museum in 1986 by Dr. Norman Westermann.

A total of three cultural items have been requested for repatriation. The three lots of unassociated funerary objects/objects of cultural patrimony are shell masks. These were collected from coastal southern California and purchased from Willis Tilton and by Thomas Gilcrease in the 1950s.

A total of 172 cultural items have been requested for repatriation. The 172 lots of unassociated funerary objects/objects of cultural patrimony are shell and stone animal effigies, shell pendants, trade beads, shell and stone beads, stone pestles and mortars, plain and effigy stone pipes, gorgets, stone tools and flakes, fish hooks, and stone bowls. These were collected from coastal southern California and acquired by Gilcrease Museum likely in the mid-20th century.

#### Determinations

The Gilcrease Museum has determined that:

- The 1,059 unassociated funerary objects described in this notice are reasonably believed to have been placed intentionally with or near human remains, and are connected, either at the time of death or later as part of the death rite or ceremony of a Native American culture according to the Native American traditional knowledge of a lineal descendant, Indian Tribe, or Native Hawaiian organization. The unassociated funerary objects have been identified by a preponderance of the evidence as related to human remains, specific individuals, or families, or removed from a specific burial site or burial area of an individual or individuals with cultural affiliation to an Indian Tribe or Native Hawaiian organization.

- The 1,060 objects of cultural patrimony described in this notice have ongoing historical, traditional, or cultural importance central to the Native American group, including any constituent sub-group (such as a band, clan, lineage, ceremonial society, or other subdivision), according to the Native American traditional knowledge of an Indian Tribe or Native Hawaiian organization.

- There is a reasonable connection between the cultural items described in this notice and the Santa Ynez Band of Chumash Mission Indians of the Santa Ynez Reservation, California.

#### Requests for Repatriation

Additional, written requests for repatriation of the cultural items in this notice must be sent to the authorized representative identified in this notice under **ADDRESSES**. Requests for repatriation may be submitted by any lineal descendant, Indian Tribe, or Native Hawaiian organization not identified in this notice who shows, by a preponderance of the evidence, that the requestor is a lineal descendant or a culturally affiliated Indian Tribe or Native Hawaiian organization.

Repatriation of the cultural items in this notice to a requestor may occur on or after April 25, 2024. If competing requests for repatriation are received, the Gilcrease Museum must determine the most appropriate requestor prior to repatriation. Requests for joint repatriation of the cultural items are considered a single request and not competing requests. The Gilcrease Museum is responsible for sending a copy of this notice to the Indian Tribes and Native Hawaiian organizations identified in this notice and to any other consulting parties.

#### Description

Five lots of unassociated objects were removed from the Cloverdale Ossuary (23BN2) in Buchanan County, Missouri. Reginald Bullock (R. B.) Aker systematically excavated the site in the late 1950s; however, he did not completely excavate the ossuary during that time, returning in 1959 to recover

additional burials vandalized from previously unexcavated graves. Details of the transfer of the burials and cultural items are unknown; however, it is likely that the excavated site materials were sent to William Bass at the University of Kansas and subsequently brought with him when he began working in the UTK Department of Anthropology in 1971. The five lots of unassociated funerary objects are one lot of natural stone, one lot of worked stone, one lot of possible petrified wood, one lot of charred wood, and one lot of charred pignuts.

#### Cultural Affiliation

The cultural items in this notice are connected to one or more identifiable earlier groups, tribes, peoples, or cultures. There is a relationship of shared group identity between the identifiable earlier groups, tribes, peoples, or cultures and one or more Indian Tribes or Native Hawaiian organizations. The following types of information were used to reasonably trace the relationship: geographical information, historical information, and Native American traditional knowledge.

#### Determinations

Pursuant to NAGPRA and its implementing regulations, and after consultation with the appropriate Indian Tribes and Native Hawaiian organizations, UTK has determined that:

- The five cultural items described above are reasonably believed to have been placed with or near individual human remains at the time of death or later as part of the death rite or ceremony and are believed, by a preponderance of the evidence, to have been removed from a specific burial site of a Native American individual.
- There is a relationship of shared group identity that can be reasonably traced between the cultural items and the Pawnee Nation of Oklahoma.

#### Requests for Repatriation

Additional, written requests for repatriation of the cultural items in this notice must be sent to the Responsible Official identified in **ADDRESSES**. Requests for repatriation may be submitted by any lineal descendant, Indian Tribe, or Native Hawaiian organization not identified in this notice who shows, by a preponderance of the evidence, that the requestor is a lineal descendant or a culturally affiliated Indian Tribe or Native Hawaiian organization.

Repatriation of the cultural items in this notice to a requestor may occur on or after April 25, 2024. If competing requests for repatriation are received, UTK must determine the most

appropriate requestor prior to repatriation. Requests for joint repatriation of the cultural items are considered a single request and not competing requests. UTK is responsible for sending a copy of this notice to the Indian Tribes and Native Hawaiian organizations identified in this notice.

This notice was submitted after the effective date of the revised regulations (88 FR 86452, December 13, 2023, effective January 12, 2024) but in the older format. As the notice conforms to the mandatory format of the **Federal Register** and includes the required information, the National Park Service is publishing this notice as submitted.
