

SUPPLEMENTARY INFORMATION: This notice is simply an announcement of a finding that we have already made. EPA Region 5 sent a letter to the Michigan Department of Environment, Great Lakes, and Energy on January 17, 2024, stating that the VOC and NO_x budgets for Allegan, Berrien, and Muskegon Counties submitted in the 2015 RFP plan for the 2023 milestone year are adequate. The finding is available at EPA's conformity website: <http://www.epa.gov/otaq/stateresources/transconf/adequacy.htm>.

The budgets are as follows:

**2023 VOC AND NO_x RFP BUDGETS
FOR THE ALLEGAN, BERRIEN, AND
MUSKEGON COUNTIES OZONE
AREAS**

[Listed in tons per day (tpd)]

Area	NO _x (tpd)	VOC (tpd)
Allegan County	1.15	0.70
Berrien County	2.98	1.85
Muskegon County	1.73	1.74

Transportation conformity is required by Clean Air Act section 176(c). EPA's conformity rule requires that transportation plans, transportation improvement programs, and projects conform to air quality state implementation plans (SIPs) and establishes the criteria and procedures for determining whether or not they do. Conformity to a SIP means that transportation activities will not produce new air quality violations, worsen existing violations, or delay timely attainment of the national ambient air quality standards.

The criteria by which we determine whether a SIP's motor vehicle emission budgets are adequate for conformity purposes are outlined in 40 CFR 93.118(e)(4). We've described our process for determining the adequacy of submitted SIP budgets in our July 1, 2004, preamble starting at 69 FR 40038 and we used the information in these resources in making our adequacy determination. Please note that an adequacy review is separate from EPA's completeness review and should not be used to prejudge EPA's ultimate approval action for the SIP. Even if we find a budget adequate, the SIP could later be disapproved.

The finding is available at EPA's conformity website: <https://www.epa.gov/otaq/stateresources/transconf/adequacy.htm>.

Authority: 42 U.S.C. 7401–7671q.

Dated: February 22, 2024.

Debra Shore,

Regional Administrator, Region 5.

AGENCY**

40 CFR Part 55

[EPA–R04–OAR–2023–0535; FRL–11589–02–R4]

**Outer Continental Shelf Air
Regulations; Consistency Update for
North Carolina**

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: The Environmental Protection Agency (EPA) is updating a portion of the Outer Continental Shelf (OCS) Air Regulations. Requirements applying to OCS sources located within 25 miles of States' seaward boundaries must be updated periodically to remain consistent with the requirements of the corresponding onshore area (COA), as mandated by the Clean Air Act (CAA). The portion of the OCS air regulations that is being updated pertains to the requirements for OCS sources for which North Carolina is the designated COA. North Carolina's requirements discussed in this document will be incorporated by reference into the Code of Federal Regulations (CFR) and listed in the appendix to the Federal OCS air regulations.

DATES: This final rule is effective on April 29, 2024. The incorporation by reference of certain publications listed in this rule is approved by the Director of the Federal Register as of April 29, 2024.

ADDRESSES: EPA has established a docket for this action under Docket ID Number EPA–R04–OAR–2023–0535. All documents in the docket are listed on the www.regulations.gov website. Although listed in the index, some information may not be publicly available, e.g., Confidential Business Information or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the internet and will be publicly available only in hard copy form. Publicly available docket materials are available through www.regulations.gov, or in hard copy at the Air Permits Section, Air Planning and Implementation Branch, Air and Radiation Division, U.S. Environmental

Protection Agency, Region 4 Regional, 61 Forsyth St. SW, Atlanta, Georgia 30303–8960. EPA requests that, if at all possible, you contact the person listed in the **FOR FURTHER INFORMATION CONTACT** section to schedule your inspection. The Regional Office's official hours of business are Monday through Friday 8:30 a.m. to 4:30 p.m., excluding Federal holidays.

FOR FURTHER INFORMATION CONTACT: Kathleen Weil, Air Permits Section, Air Planning and Implementation Branch, Air and Radiation Division, U.S. Environmental Protection Agency, Region 4, 61 Forsyth Street SW, Atlanta, Georgia 30303–8960. The telephone number is (404) 562–9170. Ms. Weil can also be reached via electronic mail at weil.kathleen@epa.gov.

SUPPLEMENTARY INFORMATION:

I. Background and Purpose

On September 4, 1992, EPA promulgated 40 CFR part 55,¹ which established requirements to control air pollution from OCS sources in order to attain and maintain Federal and State ambient air quality standards and to comply with the provisions of part C of title I of the CAA. The regulations at 40 CFR part 55 apply to all OCS sources offshore of the States except those located in the Gulf of Mexico west of 87.5 degrees longitude. Section 328 of the CAA requires that for such sources located within 25 miles of a State's seaward boundary, the requirements shall be the same as would be applicable if the sources were located in the COA. Because the OCS requirements are based on onshore requirements, and onshore requirements may change, section 328(a)(1) requires that EPA update the OCS requirements as necessary to maintain consistency with onshore requirements.

On December 12, 2023 (88 FR 86094), EPA published a notice of proposed rulemaking (NPRM) proposing to incorporate various North Carolina air pollution control requirements into 40 CFR part 55. Pursuant to 40 CFR 55.12, consistency reviews will occur: (1) At least annually where an OCS activity is occurring within 25 miles of a State seaward boundary; (2) upon receipt of a Notice of Intent (NOI) under 40 CFR 55.4; or (3) when a State or local agency submits a rule to EPA to be considered for incorporation by reference in 40 CFR part 55. EPA's NPRM was initiated in

¹ The reader may refer to the notice of proposed rulemaking, December 5, 1991 (56 FR 63774), and the preamble to the final rule promulgated September 4, 1992 (57 FR 40792), for further background and information on the OCS regulations.

response to the submittal of an NOI for a potential upcoming OCS project.

EPA reviewed the North Carolina Department of Environmental Quality (NCDEQ) rules for inclusion in 40 CFR part 55 in this action to ensure that they are rationally related to the attainment or maintenance of Federal or State ambient air quality standards and compliance with part C of title I of the CAA, that they are not designed expressly to prevent exploration and development of the OCS, and that they are potentially applicable to OCS sources. See 40 CFR 55.1. EPA has also evaluated the rules to ensure they are not arbitrary or capricious. See 40 CFR 55.12(e). In addition, EPA has excluded administrative or procedural rules² and requirements that regulate toxics which are not related to the attainment and maintenance of Federal and State ambient air quality standards.

Section 328(a) of the CAA requires that EPA establish requirements to control air pollution from OCS sources located within 25 miles of States' seaward boundaries that are the same as onshore requirements. To comply with this statutory mandate, EPA must incorporate applicable onshore rules into 40 CFR part 55 as they exist onshore. This limits EPA's flexibility in deciding which requirements will be incorporated into 40 CFR part 55 and prevents EPA from making substantive changes to the requirements it incorporates. As a result, EPA may be incorporating rules into 40 CFR part 55 that do not conform to all of EPA's State implementation plan (SIP) guidance or certain requirements of the CAA. Consistency updates may result in the inclusion of State or local rules or regulations into 40 CFR part 55, even though the same rules may ultimately be disapproved for inclusion as part of the SIP. Inclusion in the OCS rule does not imply that a rule meets the requirements of the CAA for SIP approval, nor does it imply that the rule will be approved by EPA for inclusion in the SIP.

II. Public Comments and EPA Responses

EPA did not receive any comments on the December 12, 2023, NPRM.

III. Final Action

EPA is taking final action to incorporate applicable provisions of the

North Carolina Administrative Code (NCAC) into EPA's OCS regulations at 40 CFR part 55. The North Carolina rules that EPA is taking final action to incorporate are applicable provisions of 15A NCAC Subchapter 02D—Air Pollution Control Requirements and Subchapter 02Q—Air Quality Permits Procedures, as amended through November 8, 2023. The rules that EPA is incorporating are set out more fully below.

IV. Incorporation by Reference

In this rule, EPA is finalizing regulatory text that includes incorporation by reference. In accordance with the requirements of 1 CFR 51.5, and as discussed in Sections I and III of this preamble, EPA is finalizing the incorporation by reference of "State of North Carolina Air Pollution Control Requirements Applicable to OCS Sources," dated November 8, 2023, which provides the text of the NCDEQ air rules in effect as of November 8, 2023, that would apply to OCS sources. EPA has made, and will continue to make, these materials available through www.regulations.gov and at the EPA Region 4 Office (please contact the person identified in the **FOR FURTHER INFORMATION CONTACT** section of this preamble for more information).

V. Statutory and Executive Order Reviews

Under the Clean Air Act, the Administrator is required to establish requirements to control air pollution from OCS sources located within 25 miles of States' seaward boundaries that are the same as onshore air pollution control requirements. To comply with this statutory mandate, EPA must incorporate applicable onshore rules into 40 CFR part 55 as they exist onshore. See 42 U.S.C. 7627(a)(1); 40 CFR 55.12. Thus, in promulgating OCS consistency updates, EPA's role is to maintain consistency between OCS regulations and the regulations of onshore areas, provided that they meet the criteria of the CAA. Accordingly, this action simply updates the existing OCS requirements to make them consistent with requirements onshore, without the exercise of any policy direction by EPA. For that reason, this action:

- Is not a significant regulatory action subject to review by the Office of Management and Budget under Executive Orders 12866 (58 FR 51735, October 4, 1993) and 14094 (88 FR 21879, April 11, 2023);
- Is certified as not having a significant economic impact on a substantial number of small entities

under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);

- Does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104-4);

- Does not have Federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);

- Is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);

- Is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001); and

- Is not subject to requirements of section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the CAA.

Additionally, Executive Order 12898 (59 FR 7629, February 16, 1994) directs Federal agencies, to the greatest extent practicable and permitted by law, to make environmental justice part of their mission by identifying and addressing, as appropriate, disproportionately high and adverse human health or environmental effects of their programs, policies, and activities on minority populations (people of color and/or Indigenous peoples) and low-income populations.

EPA believes that this specific action does not concern human health or environmental conditions and therefore cannot be evaluated with respect to potentially disproportionate and adverse effects on people of color, low-income populations and/or Indigenous peoples. This action simply fulfills EPA's statutory mandate to ensure regulatory consistency between the COA and inner OCS consistent with the Stated objectives of CAA section 328(a)(1). Specifically, section 328(a)(1) requires EPA to establish requirements to control air pollution from OCS sources "to attain and maintain Federal and State ambient air quality standards and to comply with the provisions of part C of [title I of the CAA]" and, for inner OCS sources (located within 25 miles of the seaward boundary of such States), to establish requirements that are "the same as would be applicable if the source were located in the COA." This section of the Act also States that "the Administrator shall update such requirements as necessary to maintain consistency with onshore regulations and this chapter." As noted in the preamble, compliance with this requirement limits EPA's discretion in

² Each COA which has been delegated the authority to implement and enforce part 55 will use its administrative and procedural rules as onshore. However, in those instances where EPA has not delegated authority to implement and enforce 40 CFR part 55, EPA will use its own administrative and procedural requirements to implement the substantive requirements. See 40 CFR 55.14(c)(4).

deciding what will be incorporated into 40 CFR part 55.

The State regulations relevant to the OCS that are incorporated into the CFR went through North Carolina's public rulemaking process, including public notice and comment. This action incorporates into the CFR those State regulations, which are already effective onshore, to ensure regulatory consistency with the COA as mandated by CAA section 328(a)(1). This is a routine and ministerial consistency update that does not directly affect any human health or environmental conditions. In addition, EPA provided meaningful public involvement on this rule through the notice and comment process.

This rule to incorporate by reference sections of the NCAC into the CFR does not apply on any Indian reservation land as defined in 18 U.S.C. 1151 or in any other area where EPA or an Indian tribe has demonstrated that a tribe has jurisdiction. In those areas of Indian country, this rule incorporating by reference sections of the NCAC does not have Tribal implications and will not impose substantial direct costs on Tribal governments or preempt Tribal law as specified by Executive Order 13175 (65 FR 67249, November 9, 2000).

This action is subject to the Congressional Review Act, and EPA will submit a rule report to each House of the Congress and to the Comptroller General of the United States. This action is not a "major rule" as defined by 5 U.S.C. 804(2).

Under section 307(b)(1) of the Clean Air Act, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by May 28, 2024. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this action for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed and shall not postpone the effectiveness of such rule or action. This action may not be challenged later in proceedings to enforce its requirements. (See section 307(b)(2).)

This action does not impose any new information collection burden under the Paperwork Reduction Act (PRA). See 44 U.S.C. 3501. The Office of Management and Budget (OMB) has previously approved the information collection activities contained in the existing regulations at 40 CFR part 55 and, by extension, this update to part 55, and has assigned OMB control number

2060–0249.³ This action does not impose a new information burden under PRA because this action only updates the State rules that are incorporated by reference into 40 CFR part 55, Appendix A.

List of Subjects in 40 CFR Part 55

Environmental protection, Administrative practice and procedure, Air pollution control, Carbon monoxide, Incorporation by reference, Intergovernmental relations, Lead, Nitrogen dioxide, Outer continental shelf, Ozone, Particulate matter, Permits, Reporting and recordkeeping requirements, Sulfur oxides, Volatile organic compounds.

Dated: March 25, 2024.

Jeananne Gettle,

Acting Regional Administrator, Region 4.

Part 55 of Chapter I, title 40 of the Code of Federal Regulations is amended as follows:

PART 55—OUTER CONTINENTAL SHELF AIR REGULATIONS

■ 1. The authority citation for part 55 continues to read as follows:

Authority: Section 328 of the Clean Air Act (42 U.S.C. 7401, *et seq.*) as amended by Public Law 101–549.

■ 2. Section 55.14 is amended by revising paragraph (e)(17)(i)(A) to read as follows:

§ 55.14 Requirements that apply to OCS sources located within 25 miles of States' seaward boundaries, by State.

* * * * *

(e) * * *

(17) * * *

(i) * * *

(A) State of North Carolina Air Pollution Control Requirements Applicable to OCS Sources, November 8, 2023.

* * * * *

■ 3. Appendix A to part 55 is amended by revising paragraph (a)(1) under the heading "North Carolina" to read as follows:

Appendix A to Part 55—Listing of State and Local Requirements Incorporated by Reference Into Part 55, by State

* * * * *

North Carolina

(a) * * *

(1) The following State of North Carolina rules are applicable to OCS sources, as contained in *State of North Carolina Air Pollution Control Requirements Applicable to OCS Sources*, dated November 8, 2023:

³ OMB's approval of the information collection requirement (ICR) can be viewed at www.reginfo.gov.

[FR Doc. 2024–06607 Filed 3–28–24; 8:45 am]

BILLING CODE 6560–50–P

DEPARTMENT OF COMMERCE**National Oceanic and Atmospheric Administration****50 CFR Part 679**

[Docket No. 240227–0061; RTID 0648–XD691]

Fisheries of the Exclusive Economic Zone Off Alaska; Pacific Cod by Catcher Vessels Less Than 50 Feet Length Overall Using Hook-and-Line Gear in the Central Regulatory Area of the Gulf of Alaska

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule; closure.

SUMMARY: NMFS is prohibiting directed fishing for Pacific cod by catcher vessels less than 50 feet (15.2 meters (m)) length overall using hook-and-line (HAL) gear in the Central Regulatory Area of the Gulf of Alaska (GOA). This action is necessary to prevent exceeding the A season allowance of the 2024 total allowable catch (TAC) apportioned to catcher vessels less than 50 feet (15.2 m) length overall using HAL gear in the Central Regulatory Area of the GOA.

DATES: Effective 1200 hours, Alaska local time (A.l.t.), March 26, 2024, through 1200 hours, A.l.t., June 10, 2024.

FOR FURTHER INFORMATION CONTACT: Abby Jahn, 907–586–7416.

SUPPLEMENTARY INFORMATION: NMFS manages the groundfish fishery in the GOA exclusive economic zone according to the Fishery Management Plan for Groundfish of the Gulf of Alaska (FMP) prepared by the North Pacific Fishery Management Council under authority of the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act). Regulations governing fishing by U.S. vessels in accordance with the FMP appear at subpart H of 50 CFR part 600 and 50 CFR part 679.

The A season allowance of the 2024 Pacific cod TAC apportioned to catcher vessels less than 50 feet (15.2 m) length overall using HAL gear in the Central Regulatory Area of the GOA is 1,410
