II. Background

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the NRC is requesting public comment on its intention to request the OMB’s approval for the information collection summarized below.

1. *The title of the information collection:* US NRC Acquisition Regulation.

2. *OMB approval number:* 3150–0169.

3. *Type of submission:* Extension.

4. *The form number, if applicable:* Not applicable.

5. *How often the collection is required or requested:* Monthly, once (at time of award), and on occasion (when changes occur).

6. *Who will be required or asked to respond:* Contractors and bidders.

7. *The estimated number of annual responses:* 6,258 (6,112 reporting responses + 146 recordkeepers).

8. *The estimated number of annual respondents:* 428.

9. *The estimated number of hours needed annually to comply with the information collection requirement or request:* 17,412 (14,834 reporting + 2,578 recordkeeping).

10. *Abstract:* The mandatory requirements of the Nuclear Regulatory Commission Acquisition Regulation (NRCAR) implement and supplement the government-wide Federal Acquisition Regulation (FAR) and ensure that the regulations governing the procurement of goods and services with the NRC satisfy the needs of the agency. This includes reports and recordkeeping requirements for certain contractors or offerors to submit a monthly progress report that summarizes work performed during the previous month, and/or retain records of equipment, payroll, inspection and quality control records, as applicable. Because of differing statutory authorities among Federal agencies, the FAR permits agencies to issue a regulation to implement FAR policies and procedures internally to satisfy the specific need of the agency. The NRCAR includes policies, procedures, solicitation provisions and contract clauses needed to ensure effective and efficient evaluation, negotiation, and administration of agency acquisitions. Certain reports, such as reports of

contractor organizational conflicts of interest or changes in key personnel are collected from contractors on as needed basis as changes occur whether at the time award or throughout the life of the contract. Some reports are required to be submitted monthly such as the Financial Status report and Technical Progress Report. There are also some reports that bidders are required to submit upon request, such as responses to pre-award questions that demonstrate their ability to meet minimum standards set forth in the Federal Acquisition Regulations.

III. Specific Requests for Comments

The NRC is seeking comments that address the following questions:

1. Is the proposed collection of information necessary for the NRC to properly perform its functions? Does the information have practical utility? Please explain your answer.
2. Is the estimate of the burden of the information collection accurate? Please explain your answer.
3. Is there a way to enhance the quality, utility, and clarity of the information to be collected?
4. How can the burden of the information collection on respondents be minimized, including the use of automated collection techniques or other forms of information technology?

Dated: March 28, 2024.
