

technologies, new stand-alone CMRS providers are permitted to exclude up to 15 percent of the counties or PSAP areas they serve due to heavy forestation that limits handset-based technology accuracy in those counties or areas but are required to file an initial list of the specific counties or portions of counties where they are utilizing their respective exclusions.

A. Updated Exclusion Reports. Under this information collection and pursuant to current rule section 9.10(h) new stand-alone CMRS providers and existing CMRS providers that have filed initial exclusion reports are required to file reports informing the Commission of any changes to their exclusion lists within thirty days of discovering such changes. The permitted exclusions properly but narrowly account for the known technical limitations of either the handset-based or network-based location accuracy technologies chosen by a CMRS provider, while ensuring that the public safety community and the public at large are sufficiently informed of these limitations.

B. Confidence and Uncertainty Data. Under this information collection and pursuant to current rule section 9.10(h), all CMRS providers and other entities responsible for transporting confidence and uncertainty data between the wireless carriers and PSAPs, including LECs, CLECs, owners of E911 networks, and emergency service providers (collectively, System Service Providers (SSPs)) must continue to provide confidence and uncertainty data of wireless 911 calls to Public Safety Answering Points (PSAP) on a per call basis upon a PSAP's request. New stand-alone wireless carriers also incur this obligation. The transport of the confidence and uncertainty data is needed to ensure the delivery of accurate location information with E911 service.

BILLING CODE 6712-01-P

FEDERAL COMMUNICATIONS COMMISSION

[OMB 3060-1113; FR ID 212430]

Information Collection Being Reviewed by the Federal Communications Commission

AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act (PRA) of 1995, the Federal Communications Commission (FCC or the Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collection. Comments are requested concerning: whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees.

DATES: Written PRA comments should be submitted on or before June 10, 2024. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all PRA comments to Nicole Ongele, FCC, via email PRA@fcc.gov and to nicole.ongele@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information about the information collection, contact Nicole Ongele, (202) 418-2991.

SUPPLEMENTARY INFORMATION: The FCC may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid Office of Management and Budget (OMB) control number.

OMB Control Number: 3060-1113.

Title: Election Whether to Participate in the Wireless Emergency Alerts.

Form Number: N/A.

Type of Review: Revision of a currently approved collection.

Respondents: Business or other for-profit; Not-for-profit institutions; State, Local or Tribal Government.

Number of Respondents and Responses: 1,253 respondents; 5,176 responses.

Estimated Time per Response: 0.50-12 hours.

Frequency of Response: On occasion and semi-annual reporting requirements.

Obligation to Respond: Required to obtain or retain benefits. Statutory authority for this collection is contained in 47 U.S.C. 151, 152, 154, 301, 303, 307, 309, 403, and 606, of the Communications Act of 1934, as amended, and 1201, 1203, 1204, and 1206 of the Warning Alert and Response Network Acts.

Total Annual Burden: 106,943 hours.

Total Annual Cost: \$ 7,050,800.

Needs and Uses: This modification to an existing collection will require all CMS providers to file their election regarding participation in the WEA system by submitting the information to an FCC-created and maintained WEA database that will be accessible to the FCC, FEMA, alerting authorities and the public. This will refresh CMS provider WEA-elections that were last required over a decade ago and provide a single source of information on WEA availability. The modifications proposed herein will also provide WEA messages to be made available by Participating CMS providers in English and the 13 most commonly spoken languages in the U.S., as well as American Sign Language. This will make these alerts available for the first time to the millions of Americans who are not native English speakers and to our hearing impaired population.

BILLING CODE 6712-01-P

FEDERAL COMMUNICATIONS COMMISSION

[ET Docket No. 19-138; FR ID 212490]

Use of the 5.850-5.925 Band

AGENCY: Federal Communications Commission.

ACTION: Notice.

SUMMARY: In this document, the Federal Communications Commission (Commission) rejects a Petition for Reconsideration and a Petition for Partial Reconsideration of the *First Report and Order* filed by the Alliance for Automotive Innovation (Auto Innovators) and the 5G Automotive Association (5GAA), respectively. In the *First Report and Order*, the Commission repurposed the 5.850-5.895 GHz portion of the 5.850-5.925 GHz (5.9 GHz) band (lower 45 megahertz) from intelligent transportation system (ITS)
