Membership Criteria

Prospective members of AMWG need to have a strong capacity for advising individuals in leadership positions, teamwork, project management, tracking relevant Federal government programs and policy making procedures, and networking with and representing their stakeholder group. Membership from a wide range of disciplines and professional sectors is encouraged.

Members of the AMWG are appointed by the Secretary and are comprised of:

- a. The Secretary's Designee, who serves as Chairperson for the AMWG.
- b. One representative each from the following entities: The Secretary of Energy (Western Area Power Administration), Arizona Game and Fish Department, Hopi Tribe, Hualapai Tribe, Navajo Nation, San Juan Southern Paiute Tribe, Southern Paiute Consortium, and the Pueblo of Zuni.
- c. One representative each from the Governors from the seven basin States: Arizona, California, Colorado, Nevada, New Mexico, Utah, and Wyoming.
- d. Representatives from the general public as follows: two from environmental organizations, two from the recreation industry, and two from contractors who purchase Federal power from Glen Canyon Powerplant.

e. One representative from each of the following Interior agencies as ex-officio non-voting members: Bureau of Reclamation, Bureau of Indian Affairs, U.S. Fish and Wildlife Service, and National Park Service.

At this time, we are particularly interested in applications from representatives of the Hualapai Native American Tribe due to a vacancy from this Tribal community on the AMWG.

After consultation, the Secretary will appoint one new member to the AMWG. The member will be selected based on the individual's qualifications, as well as the overall need to achieve a balanced representation of viewpoints, subject matter expertise, regional knowledge, and representation of communities of interest. AMWG member terms are limited to 3 years from their date of appointment. Following completion of the individual's first term, the AMWG member may request consideration for reappointment to an additional term. Reappointment is not guaranteed.

Typically, AMWG will hold two in-person meetings and one webinar meeting per fiscal year. Between meetings, AMWG members are expected to participate in committee work via conference calls and email exchanges. Members of the AMWG and its subcommittees serve without pay. However, while away from their homes or regular places of business in the performance of services of the AMWG, members may be reimbursed for travel expenses, including per diem in lieu of subsistence, in the same manner as persons employed intermittently in the government service, as authorized by 5 U.S.C. 5703.

Nominations should include a resume that provides an adequate description of the nominee's qualifications, particularly information that will enable Interior to evaluate the nominee's potential to meet the membership requirements of the AMWG and permit Interior to contact a potential member. Please refer to the membership criteria stated in this notice.

Any interested person or entity may nominate one or more qualified individuals for membership on the AMWG. Nominations from the seven basin states, as identified in this notice, need to be submitted by the respective Governors of those states, or by a state representative formally designated by the Governor. Persons or entities submitting nomination packages on the behalf of others must confirm that the individual(s) is/are aware of their nomination. SUPPLEMENTARY INFORMATION:

I. Background

Reclamation maintains the INTERIOR/WBR–7, Concessions, system of records. The purpose of this system is to manage concession operation records at Reclamation facilities from the inception of requests for proposals, during execution of a contract, and through the conclusion of the contract terms. The records are used by Reclamation to identify the person or business entities applying for concession opportunities, determine their ability to manage a concession operation, and aid in ensuring compliance with the terms of the concession agreement, contract, lease, or rental agreement.

DOI is publishing this revised notice to change the system bureau designation to reflect Reclamation’s title; update the system manager and system location sections; expand on categories of individuals covered by the system, the categories of records and records source categories sections; update authorities for maintenance of the system; update the storage, safeguards, and records retention schedule; update the notification, records access, and contesting procedures; reorganize the sections and provide general updates in accordance with the Privacy Act of 1974 and Office of Management and Budget (OMB) Circular A–108, *Federal Agency Responsibilities for Review, Reporting, and Publication under the Privacy Act*.

Additionally, Reclamation is changing the routine uses from a numeric to alphabetic list and is proposing to modify existing routine uses to provide clarity and transparency and reflect updates consistent with standard DOI routine uses. Routine use A was modified to further clarify disclosures to the Department of Justice or other Federal agencies when necessary, in relation to litigation or judicial proceedings. Routine use B has been modified to clarify disclosures to a

congressional office to respond to or resolve an individual’s request made to that office. Routine use D has been modified to allow Reclamation to refer matters to the appropriate Federal, State, local, or foreign agencies, or other public authority agencies responsible for investigating or prosecuting violations of, or for enforcing, or implementing, a statute, rule, regulation, order, or license. Routine use J was slightly modified to allow Reclamation to share information with appropriate Federal agencies or entities when reasonably necessary to prevent, minimize, or remedy the risk of harm to individuals or the Federal Government resulting from a breach in accordance with OMB Memorandum M–17–12, *Preparing for and Responding to a Breach of Personally Identifiable Information*.

Reclamation is proposing to add new routine uses C, E, F, G, H, I, L, M, and N to facilitate sharing of information with agencies and organizations to ensure the efficient management of all land, facilities, and waterbodies under Reclamation’s jurisdiction, promote the integrity of the records in the system, or carry out a statutory responsibility of Reclamation or the Federal Government. Proposed routine use C facilitates sharing of information with the Executive Office of the President to respond to an inquiry by the individual to whom that record pertains. Proposed routine use E allows Reclamation to share information with an official of another Federal agency to assist in the performance of their official duties related to reconciling or reconstructing an individual’s record. Proposed routine use F facilitates sharing of information related to hiring, issuance of a security clearance, or a license, contract, grant or benefit. Proposed routine use G allows Reclamation to share information with the National Archives and Records Administration to conduct records management inspections. Proposed routine use H allows Reclamation to share information with external entities, such as State, territorial and local governments and Tribal organizations needed in response to court orders and/or for discovery purposes related to litigation. Proposed routine use I allows Reclamation to share information with an expert, consultant, grantee, shared service provider, or contractor (including employees of the contractor) of DOI that performs services requiring access to these records on DOI’s behalf to carry out the purposes of the system. Proposed routine use L allows Reclamation to share information with OMB during the coordination and

clearance process in connection with legislative affairs. Proposed routine use M allows Reclamation to share information with the Department of the Treasury to recover debts owed to the United States. Routine use N allows Reclamation to share information with the news media and the public, with approval by the Public Affairs Officer and Senior Agency Official for Privacy in consultation with counsel if there is a legitimate public interest in the disclosure of the information.

Pursuant to the Privacy Act, 5 U.S.C. 552a(b)(12), DOI may disclose information from this system to consumer reporting agencies as defined in the Fair Credit Reporting Act (15 U.S.C. 1681a(f)) or the Federal Claims Collection Act of 1966 (31 U.S.C. 3701(a)(3)) to aid in the collection of outstanding debts owed to the Federal Government.

II. Privacy Act

The Privacy Act of 1974, as amended, embodies fair information practice principles in a statutory framework governing the means by which Federal agencies collect, maintain, use, and disseminate individuals’ records. The Privacy Act applies to records about individuals that are maintained in a “system of records.” A “system of records” is a group of any records under the control of an agency from which information is retrieved by the name of an individual or by some identifying number, symbol, or other identifying particular assigned to the individual. The Privacy Act defines an individual as a United States citizen or lawful permanent resident. Individuals may request access to their own records that are maintained in a system of records in the possession or under the control of DOI by complying with DOI Privacy Act regulations at 43 CFR part 2, subpart K, and following the procedures outlined in the Records Access, Contesting Record, and Notification Procedures sections of this notice.

The Privacy Act requires each agency to publish in the **Federal Register** a description denoting the existence and character of each system of records that the agency maintains and the routine uses of each system. The INTERIOR/Reclamation-7, Concessions, system of records notice is published in its entirety below. In accordance with 5 U.S.C. 552a(r), DOI has provided a report of this system of records to OMB and to Congress.

You should be aware your entire comment including your personally identifiable information, such as your

address, phone number, email address, or any other personal information in your comment, may be made publicly available at any time. While you may request to withhold your personally identifiable information from public review, we cannot guarantee we will be able to do so.

F. To Federal, State, territorial, local, Tribal, or foreign agencies that have requested information relevant or necessary to the hiring, firing or retention of an employee or contractor, or the issuance of a security clearance, license, contract, grant or other benefit, when the disclosure is compatible with the purpose for which the records were compiled.

POLICIES AND PRACTICES FOR STORAGE OF RECORDS:

Concession records are managed securely at Reclamation offices. Paper records are contained in file folders stored in locked file cabinets at secured Reclamation facilities. Electronic records are contained in removable drives, computers, email, and electronic databases.

POLICIES AND PRACTICES FOR RETRIEVAL OF RECORDS:

Records are retrieved by an individual's name, management entity name, concession operation name, and contract number or agreement number.

POLICIES AND PRACTICES FOR RETENTION AND DISPOSAL OF RECORDS:

Records in this system are currently maintained in accordance with the following approved NARA Reclamation Records Retention Schedule, LND-8.00 Recreation Areas, Facilities, and Services—Permanent (N1-115-94-6).

A new Department Records Schedule (DRS) has been submitted to NARA and is pending approval. Once NARA approves the Mission DRS, the records related to this system will be maintained in accordance with DRS 2.2.3.19, Sustainably Manage Land Use, Recreation and Planning—Management Plans and Reports PERM. This record schedule covers recommendations for the development of recreational areas, recreational contracts and leases, and concession contracts that includes real property. These records are permanent and are cutoff when activity is completed, closed no later than the end of the fiscal year in which completed. The files are then transferred to the Federal Record Center at 10 years or

Computers and servers on which electronic records are stored are in secured DOI and/or contractor facilities with physical, technical, and administrative levels of security such as access codes, security codes, and security guards, to prevent unauthorized access to the DOI network and information assets. Access to DOI networks and data requires a valid username and password and is limited to DOI personnel and/or contractors who have a need to know of the information for the performance of their official duties. Access to contractor's networks and data requires restricted access limited to authorized personnel.
