FEDERAL DEPOSIT INSURANCE CORPORATION

Notice to All Interested Parties of Intent To Terminate Receiverships

Notice is hereby given that the Federal Deposit Insurance Corporation (FDIC or Receiver), as Receiver for the institutions listed below, intends to terminate its receivership for said institutions.

Fund	Receivership name	City	State	Date of appointment of receiver
10334	Firstier Bank	Louisville	CO	01/28/2011
10463	Nova Bank	Berwyn	PA	10/26/2012

The liquidation of the assets for each receivership has been completed. To the extent permitted by available funds and in accordance with law, the Receiver will be making a final dividend payment to proven creditors. Based upon the foregoing, the Receiver has determined that the continued existence of the receiverships will serve no useful purpose. Consequently, notice is given that the receiverships shall be terminated, to be effective no sooner than thirty days after the date of this notice. If any person wishes to comment concerning the termination of any of the receiverships, such comment must be made in writing, identify the receivership to which the comment pertains, and be sent within thirty days of the date of this notice to: Federal Deposit Insurance Corporation, Division of Resolutions and Receiverships, Attention: Receivership Oversight Section, 600 North Pearl, Suite 700, Dallas, TX 75201. No comments

concerning the termination of the abovementioned receiverships will be considered which are not sent within this timeframe.

FEDERAL MARITIME COMMISSION

[Docket No. FMC-2023-0016]

Request for Information

AGENCY: Federal Maritime Commission. **ACTION:** Request for information.

SUMMARY: The Federal Maritime Commission (the Commission) seeks

public comment on questions related to maritime data accuracy to continue the process of gathering information to inform possible future Commission activities with a focus on information related to containers moving through marine terminals. In particular, the Commission seeks responses on what data elements are communicated between transportation service providers and importers/exporters. The Commission also seeks information on how changes to information are conveyed and where communication is most likely to break down or information is most likely to be conveyed inaccurately.

DATES: Submit comments on or before 11:59 p.m. eastern standard time (EST) on June 17, 2024.

ADDRESSES: The Commission will collect comments through the Federal eRulemaking Portal at *www.regulations.gov*, under Docket No. FMC-2023-0016. Please refer to the "Public Participation" heading under the **SUPPLEMENTARY INFORMATION** section of this notice for detailed instructions on how to submit comments, including instructions on how to request confidential treatment.

FOR FURTHER INFORMATION CONTACT:

David Eng, Secretary; Phone: (202) 523– 5725; Email: *secretary@fmc.gov.*

SUPPLEMENTARY INFORMATION:

I. Background

Containerized cargo in international trade moves between the control of numerous entities. While some key data elements are readily shared between supply chain participants, the lack of timely and accurate access to some data elements can lead to inefficiencies, as was seen during the COVID–19 pandemic. Additionally, the lack of data standardization reduces the ability to move cargo in an effective way.

Improved communication and data availability could ease the flow of data and potentially provide positive results including fewer and shorter duration instances of congestion; quicker movement of import and export shipments; assessment of fewer storage fees; and a reduction in non-government cargo holds thereby improving supply chain effectiveness and efficiency.

II. Request for Information/Notice of Inquiry

The Maritime Transportation Data Initiative (MTDI), led by Commissioner Carl Bentzel, examined the issue of data usage and sharing within the supply chain served by international ocean carriers. Commissioner Bentzel released a report in May 2023 summarizing the information he gathered and his initial findings.¹

The Commission now seeks additional information to expand the information gathered from the MTDI and the Commission's August 23, 2023, Request for Information (88 FR 55697) related to data availability, accuracy, and exchange. This Request places particular emphasis on data accuracy.

A common theme revealed by the MTDI was that information on container pick up/return was difficult to gather accurately or predict. MTDI participants cited challenges such as determining who should provide the information, information changing frequently, and changes not being conveyed to shipping entities. These points have been reiterated to the Commission via numerous avenues, including by the

National Shipper Advisory Committee.² The Commission created the prior Request for Information to understand some of the data challenges that entities throughout the supply chain face.³ The purpose of this Request for Information is to continue the process of gathering information to inform possible future Commission activities with a focus on information related to containers moving through marine terminals. The purpose of these questions is to seek information about data accuracy, not information about specific customers/ partners and commenters should not name specific customers/partners when responding. The Commission has segmented the questions into categories specific to certain stakeholders, but it is also interested in hearing from the public, who may respond to all of the questions.
