FEDERAL REGISTER

Vol. 89 Monday,
No. 83 April 29, 2024

Pages 33183–34070

OFFICE OF THE FEDERAL REGISTER

The **FEDERAL REGISTER** (ISSN 0097–6326) is published daily, Monday through Friday, except official holidays, by the Office of the Federal Register, National Archives and Records Administration, under the Federal Register Act (44 U.S.C. Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). The Superintendent of Documents, U.S. Government Publishing Office, is the exclusive distributor of the official edition. Periodicals postage is paid at Washington, DC.

The **FEDERAL REGISTER** provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive Orders, Federal agency documents having general applicability and legal effect, documents required to be published by act of Congress, and other Federal agency documents of public interest.

Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless the issuing agency requests earlier filing. For a list of documents currently on file for public inspection, see *www.federalregister.gov.*

The seal of the National Archives and Records Administration authenticates the Federal Register as the official serial publication established under the Federal Register Act. Under 44 U.S.C. 1507, the contents of the **Federal Register** shall be judicially noticed.

The **Federal Register** is published in paper and on 24x microfiche. It is also available online at no charge at *www.govinfo.gov*, a service of the U.S. Government Publishing Office.

The online edition of the **Federal Register** is issued under the authority of the Administrative Committee of the Federal Register as the official legal equivalent of the paper and microfiche editions (44 U.S.C. 4101 and 1 CFR 5.10). It is updated by 6:00 a.m. each day the **Federal Register** is published and includes both text and graphics from Volume 1, 1 (March 14, 1936) forward. For more information, contact the GPO Customer Contact Center, U.S. Government Publishing Office. Phone 202-512-1800 or 866-512-1800 (toll free). E-mail, *gpocusthelp.com.*

The annual subscription price for the **Federal Register** paper edition is $860 plus postage, or $929, for a combined **Federal Register, Federal Register** Index and List of CFR Sections Affected (LSA) subscription; the microfiche edition of the **Federal Register** including the **Federal Register** Index and LSA is $330, plus postage. Six month subscriptions are available for one-half the annual rate. The prevailing postal rates will be applied to orders according to the delivery method requested. The price of a single copy of the daily **Federal Register,** including postage, is based on the number of pages: $11 for an issue containing less than 200 pages; $22 for an issue containing 200 to 400 pages; and $33 for an issue containing more than 400 pages. Single issues of the microfiche edition may be purchased for $3 per copy, including postage. Remit check or money order, made payable to the Superintendent of Documents, or charge to your GPO Deposit Account, VISA, MasterCard, American Express, or Discover. Mail to: U.S. Government Publishing Office—New Orders, P.O. Box 979050, St. Louis, MO 63197-9000; or call toll free 1-866-512-1800, DC area 202-512-1800; or go to the U.S. Government Online Bookstore site, see *bookstore.gpo.gov.*

There are no restrictions on the republication of material appearing in the **Federal Register.**

How To Cite This Publication: Use the volume number and the page number. Example: 89 FR 12345.

Postmaster: Send address changes to the Superintendent of Documents, Federal Register, U.S. Government Publishing Office, Washington, DC 20402, along with the entire mailing label from the last issue received.

Rules and Regulations

Federal Register
Vol. 89, No. 83
Monday, April 29, 2024

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect, most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents.

NUCLEAR REGULATORY COMMISSION

10 CFR Parts 21, 50, and 52

[NRC–2023–0166]

Regulatory Guide: Dedication of Commercial-Grade Items for Use in Nuclear Power Plants

AGENCY: Nuclear Regulatory Commission.

ACTION: Final guide; issuance.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) is issuing Revision 1 to Regulatory Guide (RG) 1.164, ''Dedication of Commercial-Grade Items for Use in Nuclear Power Plants.'' This RG describes methods that the staff of the NRC considers acceptable in meeting regulatory requirements for the dedication of commercial grade items and services used in nuclear power plants.

DATES: Revision 1 to RG 1.164 is available on April 29, 2024.

ADDRESSES: Please refer to Docket ID NRC–2023–0166 when contacting the NRC about the availability of information regarding this document. You may obtain publicly available information related to this document using any of the following methods:

- *Federal Rulemaking Website:* Go to *https://www.regulations.gov* and search for Docket ID NRC–2023–0166. Address questions about Docket IDs in *Regulations.gov* to Stacy Schumann; telephone: 301–415–0624; email: *Stacy.Schumann@nrc.gov.* For technical questions, contact the individuals listed in the **FOR FURTHER INFORMATION CONTACT** section of this document.
- *NRC's Agencywide Documents Access and Management System (ADAMS):* You may obtain publicly available documents online in the ADAMS Public Documents collection at *https://www.nrc.gov/reading-rm/adams.html.* To begin the search, select ''Begin Web-based ADAMS Search.'' For problems with ADAMS, please contact the NRC's Public Document Room (PDR) reference staff at 1–800–397–4209, at 301–415–4737, or by email to *PDR.Resource@nrc.gov.* The ADAMS accession number for each document referenced (if it is available in ADAMS) is provided the first time that it is mentioned in this document.
- *NRC's PDR:* The PDR, where you may examine and order copies of publicly available documents, is open by appointment. To make an appointment to visit the PDR, please send an email to *PDR.Resource@nrc.gov* or call 1–800–397–4209 or 301–415–4737, between 8 a.m. and 4 p.m. eastern time (ET), Monday through Friday, except Federal holidays.

Revision 1 to RG 1.164 and the regulatory analysis may be found in ADAMS under Accession Nos. ML24038A310 and ML23187A534, respectively.

Regulatory guides are not copyrighted, and NRC approval is not required to reproduce them.

FOR FURTHER INFORMATION CONTACT: Amir Mobasheran, Office of Nuclear Regulatory Research, telephone: 301–415–8112; email: *Amir.Mobasheran@nrc.gov* and Deanna Zhang, Office of Nuclear Reactor Regulation, telephone: 301–415–1946; email: *Deanna.Zhang@nrc.gov.* Both are staff of the U.S. Nuclear Regulatory Commission, Washington, DC 20555–0001.

SUPPLEMENTARY INFORMATION:

I. Discussion

The NRC is issuing a revision in the NRC's ''Regulatory Guide'' series. This series was developed to describe methods that are acceptable to the NRC staff for implementing specific parts of the agency's regulations, to explain techniques that the staff uses in evaluating specific issues or postulated events, and to describe information that the staff needs in its review of applications for permits and licenses.

The proposed Revision 1 to RG 1.164 was issued with a temporary identification of Draft Regulatory Guide, (DG)–1415 (ADAMS Accession No. ML23187A531). This revision of the guide (Revision 1) updates the guidance to provide additional clarification on the NRC's definition of counterfeit, fraudulent, and suspect items. This revision also provides additional clarity on requirements applicable to the dedication of commercial-grade items. In addition, the staff made several editorial changes to conform to the current format and content of RGs.

II. Additional Information

The NRC published notice of the availability of DG–1415 in the **Federal Register** on November 17, 2023 (88 FR 80195), for a 30-day public comment period. The public comment period closed on December 18, 2023. Public comments on DG–1415 and the staff responses to the public comments are available under ADAMS Accession No. ML24059A003.

As noted in the **Federal Register** on December 9, 2022 (87 FR75671), this document is being published in the ''Rules'' section of the **Federal Register** to comply with publication requirements under chapter I of title 1 of the *Code of Federal Regulations* (CFR).

III. Congressional Review Act

This RG is a rule as defined in the Congressional Review Act (5 U.S.C. 801–808). However, the Office of Management and Budget has not found it to be a major rule as defined in the Congressional Review Act.

IV. Backfitting, Forward Fitting, and Issue Finality

Issuance of RG 1.164, Revision 1, does not constitute backfitting as defined in 10 CFR 50.109, ''Backfitting,'' and as described in NRC Management Directive (MD) 8.4, ''Management of Backfitting, Forward Fitting, Issue Finality, and Information Requests''; does not affect issue finality of any approval issued under 10 CFR part 52, ''Licenses, Certifications, and Approvals for Nuclear Power Plants''; and does not constitute forward fitting as that term is defined and described in MD 8.4, because, as explained in RG 1.164, Revision 1, licensees would not be required to comply with the positions set forth in the RG.

V. Submitting Suggestions for Improvement of Regulatory Guides

A member of the public may, at any time, submit suggestions to the NRC for improvement of existing RGs or for the development of new RGs. Suggestions can be submitted on the NRC's public website at *https://www.nrc.gov/reading-rm/doc-collections/reg-guides/contactus.html.* Suggestions will be

considered in future updates and enhancements to the ''Regulatory Guide'' series.

Dated: April 22, 2024.

For the Nuclear Regulatory Commission.

Meraj Rahimi,

Chief, Regulatory Guide and Programs Management Branch, Division of Engineering, Office of Nuclear Regulatory Research.

[FR Doc. 2024–08963 Filed 4–26–24; 8:45 am]

BILLING CODE 7590–01–P

NUCLEAR REGULATORY COMMISSION

10 CFR Part 72

[NRC–2024–0034]

RIN 3150–AL07

List of Approved Spent Fuel Storage Casks: NAC International, Inc., NAC–UMS Universal Storage System, Certificate of Compliance No. 1015, Renewal of Initial Certificate and Amendment Nos. 1 Through 9

AGENCY: Nuclear Regulatory Commission.

ACTION: Direct final rule.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) is amending its spent fuel storage regulations by revising the NAC International, Inc., NAC–UMS Universal Storage System listing within the ''List of approved spent fuel storage casks'' to renew the initial certificate and Amendment Nos. 1 through 9 of Certificate of Compliance No. 1015. The renewal of the initial certificate of compliance and Amendment Nos. 1 through 9 for 40 years changes the certificate's conditions and technical specifications to address aging management activities related to the structures, systems, and components important to safety of the dry storage system to ensure that these will maintain their intended functions during the period of extended storage operations.

DATES: This direct final rule is effective July 15, 2024 unless significant adverse comments are received by May 29, 2024. If the direct final rule is withdrawn as a result of such comments, timely notice of the withdrawal will be published in the **Federal Register**. Comments received after this date will be considered if it is practical to do so, but the NRC is able to ensure consideration only for comments received on or before this date. Comments received on this direct final rule will also be considered to be comments on a companion proposed rule published in the Proposed Rules section of this issue of the **Federal Register**.

ADDRESSES: Submit your comments, identified by Docket ID NRC–2024–0034 at *https://www.regulations.gov.* If your material cannot be submitted using *https://www.regulations.gov,* call or email the individuals listed in the **FOR FURTHER INFORMATION CONTACT** section of this document for alternate instructions.

You can read a plain language description of this direct final rule at *https://www.regulations.gov/docket/NRC-2024-0034.* For additional direction on obtaining information and submitting comments, see ''Obtaining Information and Submitting Comments'' in the **SUPPLEMENTARY INFORMATION** section of this document.

FOR FURTHER INFORMATION CONTACT: Christopher Markley, Office of Nuclear Material Safety and Safeguards, telephone: 301–415–6293, email: *Christopher.Markley@nrc.gov* and Greg Trussell, Office of Nuclear Material Safety and Safeguards, telephone: 301–415–6244, email: *Gregory.Trussell@nrc.gov.* Both are staff of the U.S. Nuclear Regulatory Commission, Washington, DC 20555–0001.

SUPPLEMENTARY INFORMATION:

Table of Contents

I. Obtaining Information and Submitting Comments

A. Obtaining Information

Please refer to Docket ID NRC–2024–0034 when contacting the NRC about the availability of information for this action. You may obtain publicly available information related to this action by any of the following methods:

- *Federal Rulemaking Website:* Go to *https://www.regulations.gov* and search for Docket ID NRC–2024–0034. Address questions about NRC dockets to Helen Chang, telephone: 301–415- 3228, email: *Helen.Chang@nrc.gov.* For technical questions contact the individuals listed in the **FOR FURTHER INFORMATION CONTACT** section of this document.
- *NRC's Agencywide Documents Access and Management System (ADAMS):* You may obtain publicly available documents online in the ADAMS Public Documents collection at *https://www.nrc.gov/reading-rm/adams.html.* To begin the search, select ''Begin Web-based ADAMS Search.'' For problems with ADAMS, please contact the NRC's Public Document Room (PDR) reference staff at 1–800–397–4209, 301–415–4737, or by email to *PDR.resource@nrc.gov.* For the convenience of the reader, instructions about obtaining materials referenced in this document are provided in the ''Availability of Documents'' section.
- *NRC's PDR:* The PDR, where you may examine and order copies of publicly available documents, is open by appointment. To make an appointment to visit the PDR, please send an email to *PDR.Resource@nrc.gov* or call 1–800–397–4209 or 301–415–4737, between 8 a.m. and 4 p.m. eastern time, Monday through Friday, except Federal holidays.

B. Submitting Comments

The NRC encourages electronic comment submission through the Federal rulemaking website (*https://www.regulations.gov*). Please include Docket ID NRC–2024–0034 in your comment submission.

The NRC cautions you not to include identifying or contact information that you do not want to be publicly disclosed in your comment submission. The NRC will post all comment submissions at *https://www.regulations.gov* as well as enter the comment submissions into ADAMS. The NRC does not routinely edit comment submissions to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for submission to the NRC, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that the NRC does not routinely edit comment submissions to remove such information before making the comment submissions available to the public or entering the comment into ADAMS.

II. Rulemaking Procedure

This direct final rule is limited to the changes contained in the initial certificate and Amendment Nos. 1 through 9 to Certificate of Compliance (CoC) No. 1015 and does not include other aspects of NAC International, Inc., NAC–UMS Universal Storage System design. The NRC is using the ''direct final rule procedure'' to issue this renewal because this action represents a

limited and routine change to an existing CoC that is expected to be non-controversial and, accordingly, is unlikely to result in significant adverse comments. Adequate protection of public health and safety continues to be reasonably assured. The amendment to the rule will become effective on July 15, 2024. However, if the NRC receives any significant adverse comment on this direct final rule by May 29, 2024, then the NRC will publish a document that withdraws this action and will subsequently address the comments received in a final rule as a response to the companion proposed rule published in the Proposed Rules section of this issue of the **Federal Register** or as otherwise appropriate. In general, absent significant modifications to the proposed revisions requiring republication, the NRC will not initiate a second comment period on this action.

A significant adverse comment is a comment where the commenter explains why the rule would be inappropriate, including challenges to the rule's underlying premise or approach, or would be ineffective or unacceptable without a change. A comment is adverse and significant if:

(1) The comment opposes the rule and provides a reason sufficient to require a substantive response in a notice-and-comment process. For example, a substantive response is required when:

(a) The comment causes the NRC to reevaluate (or reconsider) its position or conduct additional analysis;

(b) The comment raises an issue serious enough to warrant a substantive response to clarify or complete the record; or

(c) The comment raises a relevant issue that was not previously addressed or considered by the NRC.

(2) The comment proposes a change or an addition to the rule, and it is apparent that the rule would be ineffective or unacceptable without incorporation of the change or addition.

(3) The comment causes the NRC to make a change (other than editorial) to the rule, CoC, or technical specifications.

III. Background

Section 218(a) of the Nuclear Waste Policy Act of 1982, as amended, requires that ''[t]he Secretary [of the Department of Energy] shall establish a demonstration program, in cooperation with the private sector, for the dry storage of spent nuclear fuel at civilian nuclear power reactor sites, with the objective of establishing one or more technologies that the [Nuclear Regulatory] Commission may, by rule, approve for use at the sites of civilian nuclear power reactors without, to the maximum extent practicable, the need for additional site-specific approvals by the Commission.'' Section 133 of the Nuclear Waste Policy Act states, in part, that ''[t]he Commission shall, by rule, establish procedures for the licensing of any technology approved by the Commission under Section 219(a) [sic: 218(a)] for use at the site of any civilian nuclear power reactor.''

To implement this mandate, the Commission approved dry storage of spent nuclear fuel in NRC-approved casks under a general license by publishing a final rule that added a new subpart K in part 72 of title 10 of the *Code of Federal Regulations* (10 CFR) entitled ''General License for Storage of Spent Fuel at Power Reactor Sites'' (55 FR 29181; July 18, 1990). This rule also established a new subpart L in 10 CFR part 72 entitled ''Approval of Spent Fuel Storage Casks,'' which contains procedures and criteria for obtaining NRC approval of spent fuel storage cask designs. The NRC subsequently issued a final rule on October 19, 2000 (65 FR 62581), that approved the NAC–UMS Universal Storage System design and added it to the list of NRC-approved cask designs in § 72.214 as CoC No. 1015.

On August 28, 2007 (72 FR 49352), the NRC amended the scope of the general licenses issued under § 72.210 to include the storage of spent fuel in an independent spent fuel storage installation (ISFSI) at power reactor sites to persons authorized to possess or operate nuclear power reactors under 10 CFR part 52. On February 16, 2011 (76 FR 8872), the NRC amended subparts K and L in 10 CFR part 72, to extend and clarify the term limits for certificates of compliance and to revise the conditions for spent fuel storage casks renewals, including adding requirements for the safety analysis report to include time-limited aging analyses and a description of aging management programs. The NRC also clarified the terminology used in the regulations to use ''renewal'' rather than ''reapproval'' to better reflect that extending the term of a currently approved cask design is based on the cask design standards in effect at the time the CoC was approved rather than current standards.

IV. Discussion of Changes

The term certified by the initial CoC No. 1015 was 20 years. The period of extended operation for each cask begins 20 years after the cask is first used by the general licensee to store spent fuel. On October 13, 2020, NAC International, Inc. submitted a request to the NRC to renew CoC No. 1015 for a period of 40 years beyond the initial certificate period and Amendment Nos. 1 through 7 to Certificate of Compliance No. 1015 for the NAC–UMS® Universal Storage System. NAC International, Inc. supplemented its request on March 3, 2022; March 18, 2022 (adding Amendment Nos. 8 and 9 to the request); July 28, 2022; and December 21, 2022.

The NAC–UMS Universal Storage System (the system) is certified as described in the Safety Analysis Report (SAR) and in NRC's Safety Evaluation Report (SER) accompanying the CoC. The system consists of the following components: (1) transportable storage canister (TSC), which contains the spent fuel; (2) vertical concrete cask (VCC), which contains the TSC during storage; and (3) a transfer cask, which contains the TSC during loading, unloading, and transfer operations.

The original CoC for the NAC–UMS Universal Storage System included designs for the storage of five classes of TSCs, including three lengths for pressurized-water reactor (PWR) fuel types and two lengths for boiling-water reactor (BWR) fuel types. The system included a TSC provided with integral fuel baskets for the storage of up to 24 PWR and 56 BWR spent nuclear fuel assemblies. Subsequently, the NRC issued nine amendments to the NAC–UMS Universal Storage System CoC.

The Nuclear Energy Institute's (NEI) document NEI 14–03, Revision 2, ''Format, Content and Implementation Guidance for Dry Cask Storage Operations-Based Aging Management,'' (December 2016) provides an operations-based, learning approach to aging management for the storage of spent fuel, which builds on the lessons learned from industry's experience with aging management for reactors. The NRC endorsed NEI 14–03, Revision 2, with clarifications, in Regulatory Guide 3.76, Revision 0, ''Implementation of Aging Management Requirements for Spent Fuel Storage Renewals,'' issued July 2021. Specifically, NEI 14–03 provides a framework for sharing operating experience through an industry-developed database called the ISFSI Aging Management Institute of Nuclear Power Operations Database. NEI 14–03 also includes a framework for learning aging management programs using aging management ''tollgates,'' which offer a structured approach for periodically assessing operating experience and data from applicable research and industry initiatives at specific times during the period of extended operation and performing a safety assessment that confirms the safe storage of the spent nuclear fuel by

ensuring the aging management programs continue to effectively manage the identified aging effects. The ISFSI Aging Management Institute of Nuclear Power Operations Database provides operating experience information and a basis to support licensees' future changes to the aging management programs. The ISFSI Aging Management Institute of Nuclear Power Operations Database and the aging management tollgates are considered key elements in ensuring the effectiveness of aging management activities and the continued safe storage of spent fuel during the period of extended operation.

NAC International Inc., incorporated periodic tollgate assessments as requirements in the renewed certificate of compliance, as recommended in NEI 14–03, Revision 2. The implementation of tollgate assessments provides reasonable assurance that the aging management programs for the canister, the transfer cask, and the overpack will continue to effectively manage aging effects during the period of extended operation.

The renewal of the initial certificate and Amendment Nos. 1 through 9 was conducted in accordance with the renewal provisions in § 72.240. The NRC's regulations require the safety analysis report for the renewal to include time-limited aging analyses that demonstrate that structures, systems, and components important to safety will continue to perform their intended function for the requested period of extended operation and a description of the aging management programs for the management of issues associated with aging that could adversely affect structures, systems, and components important to safety. The NRC spent fuel storage regulations in 10 CFR 72.240 authorize the NRC to revise the CoC to include any additional terms, conditions, and specifications it deems necessary to ensure the safe operation of the cask during the CoC's renewal term. Here, the NRC is adding three new conditions to the renewal of the CoC to address aging management activities related to the structures, systems, and components important to the safety of the dry storage system to ensure that these will maintain their intended functions during the period of extended storage operations. This would ensure the safe operation of the cask during the CoC's renewal term and would allow the use of the NAC–UMS Universal Storage System during the approved period of extended operation. Additionally, the NRC is amending the condition that describes the authorization for use of the NAC–UMS Universal Storage System design under the general license.

The three new conditions added to the renewal of the initial CoC and Amendment Nos. 1 through 9 are the following:

- A condition requiring the CoC holder to submit an updated final safety analysis report within 90 days after the effective date of the renewal. The updated final safety analysis report must reflect the changes resulting from the review and approval of the renewal of the CoC, including the NAC–UMS Universal Storage System final safety analysis report. This condition ensures that final safety analysis report changes are made in a timely fashion to enable general licensees using the storage system during the period of extended operation to develop and implement necessary procedures related to renewal and aging management activities. The CoC holder is required to continue to update the final safety analysis report pursuant to the requirements of § 72.248.
- A condition requiring each general licensee using the NAC–UMS Universal Storage System design to include, in the evaluations required by § 72.212(b)(5), evaluations related to the terms, conditions, and specifications of this CoC amendment as modified (*i.e.,* changed or added) as a result of the renewal of the CoC and include, in the document review required by § 72.212(b)(6), a review of the final safety analysis report changes resulting from the renewal of the CoC and the NRC Safety Evaluation Report (SER) for the renewal of the CoC. The general licensee would also be required to ensure that the evaluations required by § 72.212(b)(7) in response to these changes are conducted and the determination required by § 72.212(b)(8) is made. This condition also makes it clear that to meet the requirements in § 72.212(b)(11), general licensees that currently use a NAC–UMS Universal Storage System will need to update their § 72.212 reports, even if they do not put additional NAC–UMS Universal Storage Systems into service after the renewal's effective date. These evaluations, reviews, and determinations are to be completed before the dry storage system enters the period of extended operation (which begins 20 years after the first use of the NAC–UMS Universal Storage System) or no later than 365 days after the effective date of this rule, whichever is later. This will provide general licensees a minimum of 365 days to comply with the new terms, conditions, specifications, and other changes to the CoC and to make the necessary determinations required by § 72.212(b)(8) as to whether activities related to the storage of spent nuclear fuel using the renewed CoC involve a change in the facility Technical Specifications or requires a license amendment for the facility.
- A condition requiring all future amendments and revisions to the CoC (*i.e.,* the initial certificate 1015 and Amendment Nos. 1 through 9) include evaluations of the impacts to aging management activities (*i.e.,* time-limited aging analyses and aging management programs) to ensure that they remain adequate for any changes to structures, systems, and components important to safety within the scope of renewal. This condition ensures that future amendments to the CoC address the renewed design bases for the CoC, including aging management impacts that may arise from any changes to the system in proposed future amendments.

Additionally, the condition for the initial certificate and Amendment Nos. 1 through 9 would be amended to reflect changes to the scope of the general license granted by § 72.210 that were made after the approval of the initial certificate. The authorization is amended to allow persons authorized to possess or operate a nuclear power reactor under 10 CFR part 52 to use the NAC–UMS Universal Storage System under the general license issued under § 72.210.

The NRC made one corresponding change from the technical specifications for the initial CoC and Amendment Nos. 1 through 9 by adding a section addressing the aging management program. General licensees using the NAC–UMS Universal Storage System design during the period of extended operation will need to establish, implement, and maintain written procedures for each applicable aging management program in the final safety analysis report to use the NAC–UMS Universal Storage System design during the approved period of extended operation. The procedures will need to include provisions for changing aging management program elements, as necessary, and within the limitations of the approved design bases to address new information on aging effects based on inspection findings and/or industry operating experience provided to the general licensee during the renewal period. The program document must contain a reference to the specific aspect of the aging management program element implemented by that procedure, and that reference must be maintained even if the procedure is modified.

General licensees will need to establish and implement these written

procedures prior to entering the period of extended operation (which begins 20 years after the first use of the cask system) or no later than 365 days after the effective date of this direct final rule, whichever is later. The general licensee is required to maintain these written procedures for as long as the general licensee continues to operate NAC–UMS Universal Storage System in service for longer than 20 years.

Under § 72.240(d), the design of a spent fuel storage cask will be renewed if (1) the quality assurance requirements in 10 CFR part 72, subpart G, ''Quality Assurance,'' are met; (2) the requirements of 10 CFR 72.236(a) through (i) are met; and (3) the application includes a demonstration that the storage of spent fuel has not, in a significant manner, adversely affected the structures, systems, and components important to safety. Additionally, § 72.240(c) requires that the safety analysis report accompanying the application contain time-limited aging analyses that demonstrate that the structures, systems, and components important to safety will continue to perform their intended function for the requested period of extended operation and a description of the aging management program for management of aging issues that could adversely affect structures, systems, and components important to safety.

As documented in the preliminary safety evaluation report, the NRC reviewed the application for the renewal of the CoC and the conditions in the CoC and determined that the conditions in subpart G, § 72.236(a) through (i), have been met and that the application includes a demonstration that the storage of spent nuclear fuel has not, in a significant manner, adversely affected structures, systems, and components important to safety. The NRC's safety review determined that the NAC–UMS Universal Storage System, with the added terms, conditions, and specifications in the CoC and the technical specifications, will continue to meet the requirements of 10 CFR part 72 for an additional 40 years beyond the initial certificate term. Consistent with § 72.240, the NRC is renewing the NAC–UMS Universal Storage System initial certificate 1015 and Amendment Nos. 1 through 9.

Extending the expiration date of the approval for the initial certificate and Amendment Nos. 1 through 9 for 40 years and requiring the implementation of aging management activities during the period of extended operation does not impose any modification or addition to the design of a cask system's structures, systems, and components important to safety, or to the procedures or organization required to operate the system during the initial 20-year storage term certified by the cask's initial CoC. General licensees who have loaded these casks, or who load these casks in the future under the specifications of the applicable renewed CoC, may store spent fuel in these cask system designs for 20 years without implementing the aging management program. For any casks that have been in use for more than 20 years, the general licensee will have 365 days to complete the analyses required to use the cask system design pursuant to the terms and conditions in the renewed CoC. As explained in the 2011 final rule that amended 10 CFR part 72 (76 FR 8872), the general licensee's authority to use a particular storage cask design under an approved CoC will be for at least the term certified by the cask's CoC. For casks placed into service before the expiration date of the initial certificate, the general licensee's authority to use the cask would be extended for an additional 40 years from the date the initial certificate expired. For casks placed into service after the expiration date of the initial certificate and before the effective date of this rule, the general licensee's authority to use the cask would last the length of the term certified by the cask's CoC (*i.e.,* 40 years after the cask is placed into service). For casks placed into service after this rule becomes effective, the general licensee's authority to use the cask would expire 40 years after the cask is first placed into service.

This direct final rule revises the NAC International, Inc., NAC–UMS Universal Storage System design listing in § 72.214 by renewing, for 40 more years, the initial certificate and Amendment Nos. 1 through 9 of CoC No. 1015. The renewed CoC includes the changes to the CoC and technical specifications previously described. The renewed CoC includes terms, conditions, and specifications that will ensure the safe operation of the cask during the renewal term and the added conditions that will require the implementation of an aging management program. The preliminary safety evaluation report describes the new and revised conditions in the CoC, the changes to the technical specifications, and the NRC staff evaluation.

V. Voluntary Consensus Standards

The National Technology Transfer and Advancement Act of 1995 (Pub. L. 104–113) requires that Federal agencies use technical standards that are developed or adopted by voluntary consensus standards bodies unless the use of such a standard is inconsistent with applicable law or otherwise impractical. In this direct final rule, the NRC revises the NAC International, Inc., NAC–UMS Universal Storage System design listed in § 72.214, ''List of approved spent fuel storage casks.'' This action does not constitute the establishment of a standard that contains generally applicable requirements.

VI. Agreement State Compatibility

Under the ''Agreement State Program Policy Statement'' approved by the Commission on October 2, 2017, and published in the **Federal Register** on October 18, 2017 (82 FR 48535), this rule is classified as Compatibility Category NRC—Areas of Exclusive NRC Regulatory Authority. The NRC program elements in this category are those that relate directly to areas of regulation reserved to the NRC by the Atomic Energy Act of 1954, as amended, or the provisions of 10 CFR chapter I. Therefore, compatibility is not required for program elements in this category.

VII. Plain Writing

The Plain Writing Act of 2010 (Pub. L. 111–274) requires Federal agencies to write documents in a clear, concise, and well-organized manner. The NRC has written this document to be consistent with the Plain Writing Act as well as the Presidential Memorandum, ''Plain Language in Government Writing,'' published June 10, 1998 (63 FR 31885).

VIII. Environmental Assessment and Finding of No Significant Impact

Under the National Environmental Policy Act of 1969, as amended, and the NRC's regulations in 10 CFR part 51, ''Environmental Protection Regulations for Domestic Licensing and Related Regulatory Functions,'' the NRC has determined that this direct final rule, if adopted, would not be a major Federal action significantly affecting the quality of the human environment and, therefore, an environmental impact statement is not required. The NRC has made a finding of no significant impact based on this environmental assessment.

A. The Action

The action is to amend § 72.214 to change the NAC International, Inc., NAC–UMS Universal Storage System listing within the ''List of approved spent fuel storage casks'' to renew, for an additional 40 years, the initial certificate and Amendment Nos. 1 through 9 of CoC No. 1015.

B. The Need for the Action

This direct final rule renews the initial certificate and Amendment Nos. 1 through 9 of CoC No. 1015 for the NAC International, Inc., NAC–UMS Universal Storage System design within the list of approved spent fuel storage casks to allow power reactor licensees to store spent fuel at reactor sites in casks with the approved modifications under a general license. Specifically, this direct final rule extends the expiration date for the NAC–UMS Universal Storage System certificate for an additional 40 years, allowing a power reactor licensee to continue using the cask design during a period of extended operation for a term certified by the cask's renewed CoC.

The new conditions added to the renewal of the initial CoC and Amendment Nos. 1 through 9 are:

- A condition for submitting an updated final safety analysis report to the NRC, in accordance with § 72.4, within 90 days after the effective date of the CoC renewal.
- A condition for renewed CoC use during the period of extended operation to ensure that a general licensee's report prepared under § 72.212 evaluates the appropriate considerations for the period of extended operation. All future amendments and revisions to this CoC must include evaluations of the impacts to aging management activities.
- The NRC is revising the initial certificate and Amendment Nos. 1 through 9 to address the language change in § 72.210 ''General license issue'' and other updates to the regulations.
- A condition requiring all future amendments and revisions to the CoC (*i.e.,* the initial certificate 1015 and Amendment Nos. 1 through 9) include evaluations of the impacts to aging management activities (*i.e.,* time-limited aging analyses and aging management programs) to ensure that they remain adequate for any changes to structures, systems, and components important to safety within the scope of renewal.

The NRC will also make various corrections and editorial changes to the CoC and TSs.

C. Environmental Impacts of the Action

On July 18,1990 (55 FR 29181), the NRC issued an amendment to 10 CFR part 72 to provide for the storage of spent fuel under a general license in cask designs approved by the NRC. The potential environmental impacts of using NRC-approved storage casks were analyzed in the environmental assessment for the 1990 final rule and are described in ''Environmental Assessment for Proposed Rule Entitled, 'Storage of Spent Nuclear Fuel in NRC-Approved Storage Casks at Nuclear Power Reactor Sites.''' The potential environmental impacts for the longer-term use of dry cask designs and the renewal of certificates of compliance were analyzed in the environmental assessment for the 2011 final rule establishing the regulatory requirements for renewing certificates of compliance and are described in ''Environmental Assessment and Finding of No Significant Impact for the Final Rule Amending 10 CFR part 72 License and Certificate of Compliance Terms.'' The environmental impacts from continued storage were also considered in NUREG–2157, ''Generic Environmental Impact Statement for Continued Storage of Spent Nuclear Fuel.'' The environmental assessment for the renewal of the initial certificate and Amendment Nos. 1 through 9 of CoC No. 1015 tiers off of the environmental assessment for the February 16, 2011, final rule and NUREG–2157. Tiering on past environmental assessments is a standard process under the National Environmental Policy Act of 1969, as amended.

The NAC–UMS Universal Storage System is designed to mitigate the effects of design basis accidents that could occur during storage. Design basis accidents account for human-induced events and the most severe natural phenomena reported for the site and surrounding area. Postulated accidents analyzed for an independent spent fuel storage installation, the type of facility at which a holder of a power reactor operating license would store spent fuel in casks in accordance with 10 CFR part 72, can include tornado winds and tornado-generated missiles, a design basis earthquake, a design basis flood, an accidental cask drop, lightning effects, fire, explosions, and other incidents.

A renewal reaffirms the original design basis and allows the cask to be used during a period of extended operation that corresponds to the term certified by the cask's CoC in the renewal. As a condition of the renewal, the NRC requires an aging management program that will ensure that structures, systems, and components important to safety will perform as designers intended during the renewal period. The renewal does not reflect a change in design or fabrication of the cask system. This renewal does not reflect a significant change in design or fabrication of the cask. Because there are no significant design or process changes, any resulting occupational exposure or offsite dose rates from the renewal of the initial certificate and Amendment Nos. 1 through 9 would remain well within the 10 CFR part 20 limits. The NRC has also determined that the design of the cask would continue to maintain confinement, shielding, and criticality control in the event of an accident. Therefore, these changes would not result in any radiological or non-radiological environmental impacts that significantly differ from the environmental impacts evaluated in the environmental assessment supporting the February 16, 2011, final rule. There will be no significant change in the types or significant revisions in the amounts of any effluent released, no significant increase in the individual or cumulative radiation exposures, and no significant increase in the potential for, or consequences from, radiological accidents. The NRC determined that the structures, systems, and components important to safety will continue to perform their intended functions during the requested period of extended operation. The NRC determined that the renewed NAC–UMS Universal Storage System, when used under the conditions specified in the renewed CoC, the technical specifications, and the NRC's regulations, will meet the requirements of 10 CFR part 72; therefore, adequate protection of public health and safety will continue to be reasonably assured. The NRC documented its safety findings in the preliminary SER.

Based on the previously stated assessments and its preliminary SER for the requested renewal of the NAC–UMS Universal Storage System CoC, the NRC has determined that the expiration date of this system in 10 CFR 72.214 can be safely extended for an additional 40 years, and that commercial nuclear power reactor licensees can continue using the system during this period under a general license without significant impacts on the human environment.

D. Alternative to the Action

The alternative to this action is to deny the renewal of the initial certificate and Amendment Nos. 1 through 9 and not issue the direct final rule. Consequently, any 10 CFR part 72 general licensee that seeks to load spent nuclear fuel into the NAC–UMS Universal Storage System after the expiration date of the CoC or that seeks to continue storing spent nuclear fuel in the NAC–UMS Universal Storage System for longer than the term certified by the cask's CoC for the initial certificate (*i.e.,* more than 20 years) would have to request an exemption

from the requirements of §§ 72.212 and 72.214 or would have to load the spent nuclear fuel into a different approved cask design. Under this alternative, those licensees interested in continuing to use the NAC–UMS Universal Storage System would have to prepare, and the NRC would have to review, a separate exemption request, thereby increasing the administrative burden upon the NRC and the costs to each licensee. If the general licensee is granted an exemption, the environmental impacts would be the same as the proposed action. If the general licensee is not granted an exemption, the general licensee would need to unload the NAC–UMS Universal Storage System and load the fuel into another cask system design, which would result in environmental impacts that are greater than for the proposed action because activities associated with cask loading and decontamination may result in some small liquid and gaseous effluent.

E. Alternative Use of Resources

Renewal of the initial certificate and Amendment Nos. 1 through 9 to CoC No. 1015 would result in no irreversible commitment of resources.

F. Agencies and Persons Contacted

No agencies or persons outside the NRC were contacted in connection with the preparation of this environmental assessment.

G. Finding of No Significant Impact

This direct final rule is to amend § 72.214 to revise the NAC International, Inc., NAC–UMS Universal Storage System listing within the ''List of approved spent fuel storage casks'' to renew, for an additional 40 years, the initial certificate and Amendment Nos. 1 through 9 of CoC No. 1015. The environmental impacts of the action have been reviewed under the requirements in the National Environmental Policy Act of 1969, as amended, and the NRC's regulations in subpart A of 10 CFR part 51, ''Environmental Protection Regulations for Domestic Licensing and Related Regulatory Functions.'' The renewal does not reflect a change in design or fabrication of the cask system as approved for the initial certificate or Amendment Nos. 1 through 9. The NRC determined that the renewed NAC–UMS Universal Storage System design, when used under the conditions specified in the renewed CoC, the technical specifications, and the NRC's regulations, will meet the requirements of 10 CFR part 72; therefore, adequate protection of public health and safety will continue to be reasonably assured.

Based on the foregoing environmental assessment, the NRC concludes that this direct final rule, ''List of Approved Spent Fuel Storage Casks: NAC International, Inc., NAC–UMS Universal Storage System, Certificate of Compliance No. 1015, Renewal of Initial Certificate and Amendment Nos. 1 through 9,'' will not have a significant effect on the quality of the human environment. Therefore, the NRC has determined that an environmental impact statement is not necessary for this direct final rule.

IX. Paperwork Reduction Act Statement

This direct final rule does not contain any new or amended collections of information subject to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*). Existing collections of information were approved by the Office of Management and Budget, approval number 3150–0132.

Public Protection Notification

The NRC may not conduct or sponsor, and a person is not required to respond to, a request for information or an information collection requirement unless the requesting document displays a currently valid Office of Management and Budget control number.

X. Regulatory Flexibility Certification

Under the Regulatory Flexibility Act of 1980 (5 U.S.C. 605(b)), the NRC certifies that this direct final rule will not, if issued, have a significant economic impact on a substantial number of small entities. This direct final rule affects only nuclear power plant licensees and NAC International, Inc. These entities do not fall within the scope of the definition of small entities set forth in the Regulatory Flexibility Act or the size standards established by the NRC (§ 2.810).

XI. Regulatory Analysis

On July 18, 1990 (55 FR 29181), the NRC issued an amendment to 10 CFR part 72 to provide for the storage of spent nuclear fuel under a general license in cask designs approved by the NRC. Any nuclear power reactor licensee can use NRC-approved cask designs to store spent nuclear fuel if (1) it notifies the NRC in advance; (2) the spent fuel is stored under the conditions specified in the cask's CoC; and (3) the conditions of the general license are met. A list of NRC-approved cask designs is contained in § 72.214. On October 19, 2000 (65 FR 62581), the NRC issued an amendment to 10 CFR part 72 that approved the NAC–UMS Universal Storage System design by adding it to the list of NRC-approved cask designs in § 72.214.

On October 13, 2020, NAC International, Inc. submitted a request to the NRC to renew, for an additional 40 years, the initial certificate and Amendment Nos. 1 through 7 of CoC No. 1015 for the NAC–UMS Universal Storage System. NAC International, Inc. supplemented its request on March 3, 2022; March 18, 2022 (adding Amendment Nos. 8 and 9 to the request); July 28, 2022; and December 21, 2022. Because NAC International, Inc. filed its renewal application at least 30 days before the certificate expiration date of November 20, 2020, pursuant to the timely renewal provisions in § 72.240(b), the initial issuance of the certificate and Amendment Nos. 1 through 9 of CoC No. 1015 did not expire.

The alternative to this action is to withhold approval of the renewal of the initial certificate and Amendment Nos. 1 through 9 and to require any 10 CFR part 72 general licensee seeking to continue the storage of spent nuclear fuel in NAC–UMS Universal Storage System using the initial certificate or Amendment Nos. 1 through 9 beyond the initial 20-year storage term certified by the cask's initial CoC to request an exemption from the requirements of §§ 72.212 and 72.214. The term for general licenses would not be extended from 20 years to 40 years. Under this alternative, each interested 10 CFR part 72 licensee would have to prepare, and the NRC would have to review, a separate exemption request, thereby increasing the administrative burden upon the NRC and the costs to each licensee.

Approval of this direct final rule is consistent with previous NRC actions. Further, as documented in the preliminary SER and environmental assessment, this direct final rule will have no adverse effect on public health and safety or the environment. This direct final rule has no significant identifiable impact or benefit on other government agencies. Based on this regulatory analysis, the NRC concludes that the requirements of this direct final rule are commensurate with the NRC's responsibilities for public health and safety and the common defense and security. No other available alternative is believed to be as satisfactory; therefore, this action is recommended.

XII. Backfitting and Issue Finality

The NRC has determined that the actions in this direct final rule do not constitute backfitting because they do not meet the definition of backfitting

under § 72.62. That definition states that backfitting means the addition, elimination, or modification, after the license has been issued, of the structures, systems, or components of an ISFSI or the procedures or organization required to operate an ISFSI. Certificate of compliance holders like NAC International, Inc. are not within the scope of the backfit rule in § 72.62.

Certificate of Compliance No. 1015 for the NAC International, Inc., NAC–UMS Universal Storage System design, as currently listed in § 72.214, ''List of Approved Spent Fuel Storage Casks,'' was initially approved for a 20-year term. This direct final rule would renew the initial certificate and Amendment Nos. 1 through 9, extending their approval period by 40 years. With this renewal, the term certified by the cask's CoC would change from 20 years to 40 years, with the period of extended operation beginning 20 years after the cask is placed into service. Because the term for the renewal would be longer than the initial term certified by the cask's CoC, the general licensee's authority to use the cask also would be extended to 40 years. Further, the revision to the CoC through the renewal would require implementation of aging management programs during the period of extended operation.

Renewing these certificates does not fall within the definition of backfitting under § 72.62 during the COC's initial 20-year term. General licensees who have loaded these casks, or who load these casks in the future under the specifications of the applicable certificate, may continue to store spent fuel in these systems for the initial 20-year storage period authorized by the original certificate. Extending the certificates' expiration dates for 40 more years and requiring the implementation of aging management programs does not impose any modification or addition to the design of the structures, systems, and components important to safety of a cask system, or to the procedures or organization required to operate the system during this initial 20-year term certified by the cask's CoC. The aging management programs required to be implemented by this renewal are only required to be implemented after the storage cask system's initial 20-year service period ends.

General licensees using the existing systems subject to these renewals are not required to continue using these systems following the end of the initial 20-year storage period. If general licensees choose to continue to store spent fuel in the NAC–UMS Universal Storage System after the initial 20-year period, these general licensees will be required to implement aging management activities for any cask systems subject to a renewed CoC. Such continued use is voluntary, so renewing the CoC with aging management program conditions does not constitute backfitting under § 72.62 for these general licensees.

XIII. Congressional Review Act

This direct final rule is not a rule as defined in the Congressional Review Act.

List of Subjects in 10 CFR Part 72

Administrative practice and procedure, Hazardous waste, Indians, Intergovernmental relations, Nuclear energy, Penalties, Radiation protection, Reporting and recordkeeping requirements, Security measures, Spent fuel, Whistleblowing.

For the reasons set out in the preamble and under the authority of the Atomic Energy Act of 1954, as amended; the Energy Reorganization Act of 1974, as amended; the Nuclear Waste Policy Act of 1982, as amended; and 5 U.S.C. 552 and 553; the NRC is adopting the following amendments to 10 CFR part 72:

PART 72—LICENSING REQUIREMENTS FOR THE INDEPENDENT STORAGE OF SPENT NUCLEAR FUEL, HIGH-LEVEL RADIOACTIVE WASTE, AND REACTOR-RELATED GREATER THAN CLASS C WASTE

■ 1. The authority citation for part 72 continues to read as follows:

Authority: Atomic Energy Act of 1954, secs. 51, 53, 57, 62, 63, 65, 69, 81, 161, 182, 183, 184, 186, 187, 189, 223, 234, 274 (42 U.S.C. 2071, 2073, 2077, 2092, 2093, 2095, 2099, 2111, 2201, 2210e, 2232, 2233, 2234, 2236, 2237, 2238, 2273, 2282, 2021); Energy Reorganization Act of 1974, secs. 201, 202, 206, 211 (42 U.S.C. 5841, 5842, 5846, 5851); National Environmental Policy Act of 1969 (42 U.S.C. 4332); Nuclear Waste Policy Act of 1982, secs. 117(a), 132, 133, 134, 135, 137, 141, 145(g), 148, 218(a) (42 U.S.C. 10137(a), 10152, 10153, 10154, 10155, 10157, 10161, 10165(g), 10168, 10198(a)); 44 U.S.C. 3504 note.

■ 2. In § 72.214, Certificate of Compliance No. 1015 is revised to read as follows:

§ 72.214 List of approved spent fuel storage casks.

* * * * *

Certificate Number: 1015.

Initial Certificate Effective Date: November 20, 2000, superseded by Renewed Initial Certificate on July 15, 2024.

Amendment Number 1 Effective Date: February 20, 2001, superseded by Renewed Amendment Number 1 on July 15, 2024.

Amendment Number 2 Effective Date: December 31, 2001, superseded by Renewed Amendment Number 2 on July 15, 2024.

Amendment Number 3 Effective Date: March 31, 2004, superseded by Renewed Amendment Number 3 on July 15, 2024.

Amendment Number 4 Effective Date: October 11, 2005, superseded by Renewed Amendment Number 4 on July 15, 2024.

BILLING CODE 7590–01–P

DEPARTMENT OF ENERGY

10 CFR Part 420

RIN 1930–AA01

Mandatory Transmission and Distribution Planning Support Activities

AGENCY: Office of State and Community Energy Programs, State Energy Program, Department of Energy.

ACTION: Interim final rule and request for comment.

SUMMARY: The U.S. Department of Energy (DOE) is publishing an interim final rule that amends the State Energy Program (SEP) regulations to incorporate certain changes made to the DOE-administered formula grant program by the Infrastructure Investment and Jobs Act of 2021. Through this rulemaking, DOE amends SEP's mandatory requirements for state energy conservation plans.

DATES: This rule is effective April 29, 2024. Written comments must be received by May 29, 2024.

FOR FURTHER INFORMATION CONTACT: Ari Gerstman, U.S. Department of Energy, Office of State and Community Energy Programs, State Energy Program, SCEP–30, 1000 Independence Avenue SW, Washington, DC 20585–0121, Telephone: (240) 388–5805, Email: *ari.gerstman@hq.doe.gov.*

SUPPLEMENTARY INFORMATION:

I. Authority and Background

The U.S. Department of Energy's State Energy Program provides financial assistance in the form of formula grants to states, U.S. territories, and the District of Columbia (hereinafter referred to as states) [1] for a wide variety of energy efficiency and renewable energy initiatives authorized under the Energy Policy and Conservation Act (EPCA) (Pub. L. 94–163), as amended. 42 U.S.C. 6321 *et seq.* Section 40109(a)(3) of the Infrastructure Investment and Jobs Act (IIJA 2021) (Pub. L. 117–58) amended Section 362(c) of EPCA, which pertains to the mandatory features of state energy conservation plans. 42 U.S.C. 6322(c). The submission of such plans is required for a state's participation in SEP and receipt of a formula grant. This interim final rule amends SEP regulations in part 420 of title 10 of the Code of Federal Regulations to incorporate the IIJA 2021 amendments.

Section 40109 of IIJA 2021 amended section 362(c) of EPCA to include a new paragraph (7) that mandates the inclusion of transmission and distribution planning support activities into states' energy conservation plans.[2] 42 U.S.C. 6322(c). With the issuance of this interim final rule, DOE amends 10 CFR 420.15 to include a new paragraph (g) to adopt this new statutory requirement. Once in effect, DOE's regulatory requirement for state energy conservation plans will reflect the corresponding statutory requirement.

DOE is also revising the reference to the Energy Policy and Conservation Act included in the 10 CFR part 420 authority line from Part D to Part B.

II. Interim Final Rulemaking

DOE is issuing this action as an interim final rule, without prior notice and opportunity for public comment, for two reasons. First, in general, the Administrative Procedure Act (APA) requires an agency to first provide public notice of a proposed rulemaking that is published in the **Federal Register** and provide the public an opportunity to participate in the rulemaking before finalizing the regulatory action. 5 U.S.C. 553(b)–(c). The APA's requirements of notice and public comment do not apply ''to the extent that there is involved . . . a matter related to agency . . . *grants,* benefits, or contracts.'' 5 U.S.C. 553(a)(2), emphasis added. SEP is a program that provides formula and competitive grants as well as technical assistance to states to enhance energy security, advance state-led energy initiatives, and increase energy affordability.

The interim final rule amends SEP's regulations to include the new mandatory features for state energy conservation plans established by section 40109(a)(3) of the IIJA 2021. States applying for SEP grants must submit plans that consider these new features in addition to those already set out SEP's regulations. 10 CFR 420.15. Because this rulemaking pertains to DOE's grant program and adopts new mandatory plan features that states must satisfy in order to receive SEP grant funds, the APA's requirements for notice and comment do not apply.

Second, this rulemaking regards a nondiscretionary action because DOE is incorporating the section 40109(a)(3) of IIJA 2021 amendments to SEP's regulations without substantive change. The language adopted in regulation mirrors the language of the statute verbatim and DOE is not amending any other provision of SEP's existing regulations as part of this rulemaking. DOE is simply adopting a mandatory requirement for state energy conservation plans as prescribed in statute into SEP's regulation.

Therefore, because this action concerns a grant program subject to an APA exception and is nondiscretionary, DOE has determined notice and comment is not necessary and is pursuing this activity through an interim final rule.

[1] Per 10 CFR 420.2, ''state'' means a state, the District of Columbia, Puerto Rico, or any territory or possession of the United States.

[2] The mandatory plan features include ''the mandatory conduct of activities to support transmission and distribution planning, including—(A) support for local governments and Indian Tribes; (B) feasibility studies for transmission line routes and alternatives; (C) preparation of necessary project design and permits; and (D) outreach to affected stakeholders.'' 42 U.S.C. 6322(c)(7).

III. Procedural Requirements

A. Review Under Executive Orders 12866, 13563, and 14094

This final rule has been determined not to be a ''significant regulatory action'' under E.O. 12866, Regulatory Planning and Review, 58 FR 51735 (October 4, 1993) as supplemented and reaffirmed by E.O. 13563, ''Improving Regulation and Regulatory Review'', 76 FR 3821 (Jan. 21, 2011) and amended by E.O. 14094, ''Modernizing Regulatory Review'', 88 FR 21879 (April 11, 2023). Accordingly, this rule is not subject to review under the E.O. by the Office of Information and Regulatory Affairs (OIRA) within the Office of Management and Budget (OMB).

B. Administrative Procedure Act

As discussed previously, the Administrative Procedure Act (APA), 5 U.S.C. 551 *et seq.,* generally requires public notice and an opportunity for comment before a rule becomes effective. 5 U.S.C. 553(b)–(c). However, the APA provides that the requirements of 5 U.S.C. 553 do not apply ''to the extent that there is involved . . . a matter relating to agency . . . grants, benefits, or contracts.'' The interim final rule amends SEP's regulations to include the new mandatory state energy conservation plan features established by section 40109(a) of the IIJA 2021, which amended SEP's state energy conservation plan requirements. States applying for SEP grants are required to submit plans that consider these and the other mandatory features established in statute and codified in SEP's regulations. Because this rulemaking amends SEP's regulations at 10 CFR 420.15 to include features states must satisfy in order to receive a grant from SEP, the APA's general notice and comment requirements do not apply.

C. Review Under the Regulatory Flexibility Act

The Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*) requires preparation of an initial regulatory flexibility analysis for any rule that by law must be proposed for public comment. As discussed previously, DOE has determined that prior notice and opportunity for public comment is not required under the APA for this rulemaking because it concerns a grant program. Because a notice of proposed rulemaking is not required for this action pursuant to 5 U.S.C. 553, or any other law, no regulatory flexibility analysis has been prepared for this interim final rule. *See* 5 U.S.C. 601(2), 603(a).

D. Review Under the Paperwork Reduction Act of 1995

This interim final rule imposes no new information or recordkeeping requirements. Accordingly, Office of Management and Budget clearance is not required under the Paperwork Reduction Act. (44 U.S.C. 3501 *et seq.*)

E. Review Under the National Environmental Policy Act of 1969

DOE has determined that this interim final rule falls into a class of actions that are categorically exclude from review under the National Environmental Policy Act (NEPA) of 1969 (42 U.S.C. 4321 *et seq.*) and DOE's implementing regulations at 10 CFR part 1021. Specifically, DOE has determined that this rulemaking is consistent with activities identified in 10 CFR part 1021, subpart D, appendix A6, because it is strictly procedural and meets the requirements for application of a categorical exclusion. Therefore, DOE has determined that promulgation of this rule is not a major Federal action significantly affecting the quality of the human environment within the meaning of NEPA and does not require an environmental assessment nor an environmental impact statement.

F. Review Under Executive Order 13132

Executive Order 13132, ''Federalism,'' 64 FR 43255 (August 4, 1999), imposes certain requirements on agencies formulating and implementing policies or regulations that preempt State law or that have federalism implications. The Executive order requires agencies to examine the constitutional and statutory authority supporting any action that would limit the policymaking discretion of the States and to carefully assess the necessity for such actions. The Executive order also requires agencies to have an accountable process to ensure meaningful and timely input by State and local officials in the development of regulatory policies that have federalism implications. On March 14, 2000, DOE published a statement of policy describing the intergovernmental consultation process it will follow in the development of such regulations (65 FR 13735). DOE examined this interim final rule and determined that it does not preempt State law and does not have a substantial direct effect on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. Accordingly, no further action is required by Executive Order 13132.

G. Review Under Executive Order 12988

With respect to the review of existing regulations and the promulgation of new regulations, section 3(a) of Executive Order 12988, ''Civil Justice Reform,'' 61 FR 4729 (Feb. 7, 1996), imposes on Federal agencies the general duty to adhere to the following requirements: (1) Eliminate drafting errors and ambiguity; (2) write regulations to minimize litigation; and (3) provide a clear legal standard for affected conduct rather than a general standard and promote simplification and burden reduction. Section 3(b) of Executive Order 12988 specifically requires that Executive agencies make every reasonable effort to ensure that the regulation: (1) Clearly specifies the preemptive effect, if any; (2) clearly specifies any effect on existing Federal law or regulation; (3) provides a clear legal standard for affected conduct while promoting simplification and burden reduction; (4) specifies the retroactive effect, if any; (5) adequately defines key terms; and (6) addresses other important issues affecting clarity and general draftsmanship under any guidelines issued by the Attorney General. Section 3(c) of Executive Order 12988 requires Executive agencies to review regulations in light of applicable standards in section 3(a) and section 3(b) to determine whether they are met or it is unreasonable to meet one or more of them. DOE has completed the required review and determined that, to the extent permitted by law, this interim final rule meets the relevant standards of Executive Order 12988.

H. Review Under the Unfunded Mandates Reform Act of 1995

Title II of the Unfunded Mandates Reform Act of 1995 (UMRA) (Pub. L. 104–4) requires each Federal agency to assess the effects of Federal regulatory actions on State, local, and Tribal governments and the private sector. For a proposed regulatory action likely to result in a rule that may cause the expenditure by State, local, and Tribal governments, in the aggregate, or by the private sector of $100 million or more in any one year (adjusted annually for inflation), section 202 of UMRA requires a Federal agency to publish a written statement that estimates the resulting costs, benefits, and other effects on the national economy. (2 U.S.C. 1532(a) and (b).) The UMRA also requires a Federal agency to develop an effective process to permit timely input by elected officers of State, local, and Tribal governments on a proposed ''significant intergovernmental mandate,'' and requires an agency plan for giving notice

and opportunity for timely input to potentially affected small governments before establishing any requirements that might significantly or uniquely affect small governments. On March 18, 1997, DOE published a statement of policy on its process for intergovernmental consultation under UMRA (62 FR 12820) (also available at *www.energy.gov/gc/office-general-counsel*). This interim final rule does not contain an intergovernmental mandate or a mandate that may result in the expenditure of $100 million or more in any year, so these requirements under the Unfunded Mandates Reform Act do not apply.

I. Review Under the Treasury and General Government Appropriations Act of 1999

Section 654 of the Treasury and General Government Appropriations Act, 1999 (Pub. L. 105–277) requires Federal agencies to issue a Family Policymaking Assessment for any rule that may affect family well-being. This interim final rule would not have any impact on the autonomy or integrity of the family as an institution. Accordingly, DOE has concluded that it is not necessary to prepare a Family Policymaking Assessment.

J. Review Under Executive Order 12630

Pursuant to E.O. 12630, ''Governmental Actions and Interference with Constitutionally Protected Property Rights,'' 53 FR 8859 (March 18, 1988), DOE has determined that this interim final rule would not result in any takings that might require compensation under the Fifth Amendment to the U.S. Constitution.

K. Review Under the Treasury and General Government Appropriations Act, 2001

The Treasury and General Government Appropriations Act, 2001 (44 U.S.C. 3516 note) provides for Federal agencies to review most disseminations of information to the public under guidelines established by each agency pursuant to general guidelines issued by OMB. OMB's guidelines were published at 67 FR 8452 (Feb. 22, 2002), and DOE's guidelines were published at 67 FR 62446 (Oct. 7, 2002). DOE has reviewed this interim final rule under the OMB and DOE guidelines and has concluded that it is consistent with applicable policies in those guidelines.

L. Review Under Executive Order 13211

Executive Order 13211, ''Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use,'' 66 FR 28355 (May 22, 2001), requires Federal agencies to prepare and submit to the Office of Information and Regulatory Affairs (OIRA), Office of Management and Budget, a Statement of Energy Effects for any proposed significant energy action. A ''significant energy action'' is defined as any action by an agency that promulgated or is expected to lead to promulgation of a final rule, and that: (1) Is a significant regulatory action under Executive Order 12866, or any successor order; and (2) is likely to have a significant adverse effect on the supply, distribution, or use of energy, or (3) is designated by the Administrator of OIRA as a significant energy action. For any proposed significant energy action, the agency must give a detailed statement of any adverse effects on energy supply, distribution, or use should the proposal be implemented, and of reasonable alternatives to the action and their expected benefits on energy supply, distribution, and use.

This interim final rule would not have a significant adverse effect on the supply, distribution, or use of energy and, therefore, is not a significant energy action. Accordingly, DOE has not prepared a Statement of Energy Effects.

M. Congressional Notification

As required by 5 U.S.C. 801, DOE will report to Congress on the promulgation of this rule prior to its effective date. The report will state that it has been determined that the rule is not a ''major rule'' as defined by 5 U.S.C. 804(2).

IV. Approval of the Office of the Secretary

The Secretary of Energy has approved publication of this interim final rule.

List of Subjects in 10 CFR Part 420

Energy conservation, Grant programs—energy, Technical assistance.

Signing Authority

This document of the Department of Energy was signed on April 22, 2024, by David Crane, Under Secretary for Infrastructure, pursuant to delegated authority from the Secretary of Energy. That document with the original signature and date is maintained by DOE. For administrative purposes only, and in compliance with requirements of the Office of the Federal Register, the undersigned DOE Federal Register Liaison Officer has been authorized to sign and submit the document in electronic format for publication, as an official document of the Department of Energy. This administrative process in no way alters the legal effect of this document upon publication in the **Federal Register**.

Signed in Washington, DC, on April 23, 2024.

Treena V. Garrett,

Federal Register Liaison Officer, U.S. Department of Energy.

For the reasons set forth in the preamble, the Department of Energy amends part 420 of chapter II, subchapter D of title 10 of the Code of Federal Regulations as set forth below:

PART 420—STATE ENERGY PROGRAM

■ 1. The authority citation for part 420 is revised to read as follows:

Authority: Title III, part B, as amended, of the Energy Policy and Conservation Act (42 U.S.C. 6321 *et seq.*); Department of Energy Organization Act (42 U.S.C. 7101 *et seq.*)

■ 2. Amend § 420.15 by revising the section heading and adding a new paragraph (g) to read as follows:

§ 420.15 Annual State applications and amendments to State plans.

* * * * *

(g) The mandatory conduct of activities to support transmission and distribution planning, including—

(1) Support for local governments and Indian Tribes;

(2) Feasibility studies for transmission line routes and alternatives;

(3) Preparation of necessary project design and permits; and

(4) Outreach to affected stakeholders.

BILLING CODE 6450–01–P

DEPARTMENT OF ENERGY

10 CFR Part 611

RIN 1901–AB60

Statutory Updates to the Advanced Technology Vehicles Manufacturing Program

AGENCY: Loan Programs Office, Department of Energy.

ACTION: Direct final rule.

SUMMARY: The Department of Energy (''DOE'') issues this direct final rule to amend the regulations implementing the direct loan provisions for the Advanced Technology Vehicles Manufacturing Incentive Program established by section 136 of the Energy Independence and Security Act of 2007, as amended (''ATVM statute''). The ATVM statute provides for grants and loans to eligible automobile manufacturers and component suppliers for projects that

reequip, expand, or establish manufacturing facilities in the United States to produce qualifying advanced technology vehicles or qualifying components. Specifically, this rule: amends the existing applicable regulations in order to implement additional categories of advanced technology vehicles added to the ATVM statute by the Infrastructure Investment and Jobs Act and funded by the Inflation Reduction Act of 2022, including certain medium-duty and heavy-duty vehicles, trains, locomotives, maritime vessels, aircraft, and hyperloop technology. This rule also amends the existing applicable regulations to reflect the ultra efficient vehicle category of advanced technology vehicles added to the ATVM statute through an earlier appropriations act. DOE is implementing these amendments through a final rule so that the implementing regulations are consistent with the statutory requirements of the ATVM statute.

DATES: This final rule is effective July 15, 2024, unless adverse comment is received by May 29, 2024. If adverse comments are received that DOE determines may provide a reasonable basis for withdrawal of the direct final rule, a timely withdrawal of this rule will be published in the **Federal Register**.

ADDRESSES: Interested persons may submit comments, identified by RIN 1901–AB60, by any of the following methods:

Federal eRulemaking Portal: www.regulations.gov. Follow the instructions for submitting comments.

Electronic Mail (Email): lpofederalregistercomments@hq.doe.gov. Include the RIN 1901–AB60 in the subject line of the message.

Postal Mail: Loan Programs Office, Attn: LPO Legal Department, U.S. Department of Energy, 1000 Independence Avenue SW, Washington, DC 20585–0121. Please submit one signed original paper copy. Due to potential delays in DOE's receipt and processing of mail sent through the U.S. Postal Service, we encourage respondents to submit comments electronically to ensure timely receipt.

Hand Delivery/Courier: U.S. Department of Energy, Room 4B–122, 1000 Independence Avenue SW, Washington, DC 20585.

No telefacsimiles (faxes) will be accepted. For detailed instructions on submitting comments and additional information on the rulemaking process, see section IV of this document, *Public Participation.*

Docket: The docket, which includes **Federal Register** notices, comments, and other supporting documents and materials, is available for review at *www.regulations.gov.* All documents in the docket are listed in the *www.regulations.gov* index. However, some documents listed in the index, such as those containing information that is exempt from public disclosure, may not be publicly available. The docket web page can be found at the *www.regulations.gov* web page associated with RIN 1901–AB60. The docket web page contains simple instructions on how to access all documents, including public comments, in the docket. See section IV of this document, *Public Participation,* for information on how to submit comments through *www.regulations.gov.*

FOR FURTHER INFORMATION CONTACT: Mr. Steven Westhoff, Attorney-Adviser, Loan Programs Office, email: *steven.westhoff@hq.doe.gov,* or phone: (240) 220–4994.

SUPPLEMENTARY INFORMATION:

Table of Contents

I. Introduction and Background

A. ATVM Statute and Regulations

Section 136 of the Energy Independence and Security Act of 2007, as amended (42 U.S.C. 17013) (''ATVM statute'') authorizes the Secretary of Energy (''Secretary'') to issue grants and direct loans to applicants for the costs of reequipping, expanding, or establishing manufacturing facilities in the United States to produce qualified advanced technology vehicles or qualifying components. The ATVM statute also authorizes the Secretary to issue grants and direct loans for the costs of engineering integration performed in the United States of qualifying advanced technology vehicles and qualifying components. The Advanced Technology Vehicles Manufacturing Loan Program (''ATVM Program'') represents the Secretary's implementation of the direct loan authority under the ATVM statute. The ATVM Program is administered by the U.S. Department of Energy's (''DOE'') Loan Programs Office (''LPO''). The purpose of the ATVM Program is to originate, underwrite, and service loans to eligible automotive manufacturers and component manufacturers to finance the cost of: (i) reequipping, expanding, or establishing manufacturing facilities in the United States to produce Advanced Technology Vehicles (''ATVs'') and qualifying components; and (ii) engineering integration performed in the United States of ATVs and qualifying components.

Consistent with section 17013(e) of title 42 of the United States Code (''U.S.C.''), DOE promulgated regulations for the ATVM Program in 2009, which are set forth at 10 Code of Federal Regulations (''CFR'') part 611.[1] Part 611 provides eligibility criteria for automobile manufacturers, project eligibility requirements, and application requirements and general terms for the ATVM Program. Part 611 has since been amended twice to: (1) standardize the submission and handling within DOE's assistance programs, of trade secrets and commercial or financial information that is privileged or confidential [2] and (2) clarify the eligibility of critical minerals projects.[3]

B. Energy and Water Development and Related Agencies Appropriations Act of 2010

Section 312 of the Energy and Water Development and Related Agencies Appropriations Act of 2010 [4] amended the ATVM statute to include the ultra efficient vehicle category within the statutory definition of ATVs. In this final rule, DOE is adding this category of vehicles to part 611 to reflect the ATVM statute.

C. Infrastructure Investment and Jobs Act

Section 40401(b) of the Infrastructure Investment and Jobs Act (''IIJA'') [5] amended the definitions provision of the ATVM statute to add the following categories of vehicles within the statutory definition of ATVs: a medium-duty vehicle or a heavy-duty vehicle that exceeds 125 percent of the greenhouse gas emissions and fuel efficiency standards established by the final rule of the Environmental Protection Agency entitled ''Greenhouse Gas Emissions and Fuel Efficiency Standards for Medium- and Heavy-Duty Engines and Vehicles-Phase 2'' (81 FR 73478 (October 25, 2016)); a train or locomotive; a maritime vessel; an aircraft; and hyperloop technology.[6]

[1] 73 FR 66721 (November 12, 2008).
[2] 76 FR 26579 (May 9, 2011).
[3] 86 FR 3747 (January 15, 2021).
[4] Public Law 111–85 (2009).
[5] Public Law 117–58 (2021).
[6] Section 40401(l) of the IIJA prohibited the Secretary from using amounts appropriated prior to

Continued

In this final rule, DOE is adding these categories of vehicles to part 611 in order for them to be eligible for a direct loan under the ATVM Program.

D. Inflation Reduction Act

The Inflation Reduction Act of 2022 (''IRA'')[7] contains energy and climate provisions that appropriate $3 billion for the ATVM Program, including to support the categories of ATVs added to the program by the IIJA. However, section 50142 of the IRA, which provides the Secretary with the authority to use funds appropriated by the IRA for the costs of providing direct loans to the categories of ATVs added to the definition of ATV by the IIJA, also provides that, with respect to trains or locomotives; maritime vessels; aircraft; and hyperloop technology, such funds may be used for that purpose only if the relevant advanced technology vehicles emit, under any possible operational mode or condition, low or zero exhaust emissions of greenhouse gases. The IRA appropriations for the ATVM Program are available through September 30, 2028.

E. Intended Future Rulemaking Process

This direct final rule is focused on revising part 611 to implement additional categories of advanced technology vehicles that are already statutorily eligible. In addition to this current rulemaking, DOE expects to undertake a separate rulemaking to implement further improvements to part 611 based on experience implementing the ATVM Program and to potentially further define the requirements for nonroad advanced technology vehicle projects. In that separate rulemaking, DOE intends to issue a request for information requesting public feedback regarding ATVM Program design as related to the new categories of advanced technology vehicles and regarding potential demand for loans for manufacturing facilities for such ATVs, as well as invite additional public input regarding part 611 and the ATVM Program. Following further consideration of such issues and comments, which may include related comments received in response to this direct final rule, DOE may then issue a notice of proposed rulemaking proposing more expansive changes to part 611. In addition to the two rulemakings, DOE expects to conduct a broader set of updates to the ATVM Program guidance and application materials to reflect the changes in these rulemakings. DOE does not expect ATVM Program applicants in the new ATV categories relying on this direct final rule to be materially impacted by the future rulemaking.

II. Discussion

This final rule allows the Secretary to implement the amendments to the ATVM statute enacted by the IIJA and funded by the IRA by codifying these requirements in the Code of Federal Regulations. Without revisions to part 611, applicants for projects that were made eligible for the ATVM Program under the IIJA and the IRA would not be eligible for direct loans under the regulations applicable to the ATVM Program. Further, the requirements applicable to the use of the funds provided for the cost of direct loans under the IRA for the applicable vehicle categories are not currently set forth in part 611.

As such, this final rule amends the definition of ''advanced technology vehicle'' under part 611 to include the categories of ATVs added by the IIJA. It also amends the provisions describing the eligibility requirements for these new categories of ATVs as provided by the IRA and distinguishes between the requirements applicable to on-road advanced technology vehicles and nonroad advanced technology vehicles. These technical and administrative changes to part 611 represent conforming changes to the text of the ATVM statute, as amended by the IIJA and the IRA requirements applicable to the use of funds appropriated by the IRA for the ATVM Program. The final rule adopts the IRA requirement that projects for nonroad ATVs support only ATVs that ''emit, under any possible operational mode or condition, low or zero exhaust emissions of greenhouse gases'' for all nonroad ATV projects in order to prescribe a single eligibility standard.[8]

For consistency and completeness, this direct final rule also makes conforming changes to reflect the earlier amendments to the ATVM statute that established the ultra efficient vehicles category of ATVs.

III. Section-by-Section Analysis

Provided below is a section-by-section analysis of the changes made by this direct final rule.

§ 611.1 Purpose

DOE is revising § 611.1 to include legal references relating to the IIJA and the IRA, as well as the Energy and Water Development and Related Agencies Appropriations Act of 2010.

§ 611.2 Definitions

DOE is revising the definition of ''advanced technology vehicle'' to include both on-road advanced technology vehicles and nonroad advanced technology vehicles; adding a definition of ''on-road advanced technology vehicle'' that includes ultra efficient vehicles, light duty vehicles, medium duty vehicles, and heavy duty vehicles, in each case as defined in the ATVM statute; adding a definition of ''nonroad advanced technology vehicle'' that includes low or zero emission trains or locomotives, maritime vessels, aircraft, and hyperloop technologies; and adding a definition of ''ultra efficient vehicle'' from the ATVM statute.

§ 611.3 On-Road Advanced Technology Vehicle

DOE is revising § 611.3 to refer to ''on-road advanced technology vehicles'' as this section describes program requirements that are specific to on-road vehicle manufacturers and not to manufacturers of nonroad advanced technology vehicles.

§ 611.4 Nonroad Advanced Technology Vehicle

DOE is adding a new § 611.4, ''Nonroad advanced technology vehicle'' to distinguish and describe the program requirements applicable to a manufacturer of a nonroad advanced technology vehicle or a manufacturer of a nonroad advanced technology vehicle qualifying component as provided by section 50142(a) of the IRA.

§ 611.100 Eligible Applicant

DOE is revising § 611.100 to distinguish between the requirements applicable to on-road advanced technology vehicle manufacturers and those applicable to nonroad advanced technology vehicle manufacturers. Due to the addition of new categories of on-road advanced technology vehicles, DOE is also clarifying, consistent with the current statute and pre-existing § 611.100, that the specified improved fuel economy requirements of paragraph (b) continue to apply only to manufacturers of light duty vehicles.

the date of the enactment of the IIJA to provide direct loans under section 136(d) for the costs of activities that were not eligible for those loans prior to that date. Public Law 117–58 (2021). However, this prohibition was later eliminated by the Consolidated Appropriations Act of 2023. Public Law 117–328 (2022).

[7] Public Law 117–169 (2022).

[8] DOE notes that certain appropriations for the ATVM Program are not subject to the IRA requirement. However, DOE believes the IRA requirement demonstrates Congressional intent regarding how the ATVM Program should consider nonroad advanced technology vehicles as ''advanced'' and therefore eligible for loans under the program.

IV. Public Participation

DOE will accept comments, data, and information regarding this final rule on or before the date provided in the **DATES** section at the beginning of this final rule. Interested parties may submit comments, data, and other information using any of the methods described in the **ADDRESSES** section at the beginning of this document.

Submitting comments via www.regulations.gov. The *www.regulations.gov* web page will require you to provide your name and contact information. Your contact information will not be publicly viewable except for your first and last names, organization name (if any), and submitter representative name (if any). If your comment is not processed properly because of technical difficulties, DOE will use this information to contact you. If DOE cannot read your comment due to technical difficulties and cannot contact you for clarification, DOE may not be able to consider your comment.

However, your contact information will be publicly viewable if you include it in the comment itself or in any documents attached to your comment. Any information that you do not want to be publicly viewable should not be included in your comment, nor in any document attached to your comment. Otherwise, persons viewing comments will see only first and last names, organization names, correspondence containing comments, and any documents submitted with the comments.

Do not submit to *www.regulations.gov* information the disclosure of which is restricted by statute, such as trade secrets and commercial or financial information (hereinafter referred to as Confidential Business Information (''CBI'')). Comments submitted through *www.regulations.gov* cannot be claimed as CBI. Comments received through the website will waive any CBI claims for the information submitted. For information on submitting CBI, see the Confidential Business Information section.

DOE processes submissions made through *www.regulations.gov* before posting. Normally, comments will be posted within a few days of being submitted. However, if large volumes of comments are being processed simultaneously, your comment may not be viewable for up to several weeks. Please keep the comment tracking number that *www.regulations.gov* provides after you have successfully uploaded your comment.

Submitting comments via email, hand delivery/courier, or postal mail. Comments and documents submitted via email, hand delivery/courier, or postal mail also will be posted to *www.regulations.gov.* If you do not want your personal contact information to be publicly viewable, do not include it in your comment or any accompanying documents. Instead, provide your contact information in a cover letter. Include your first and last names, email address, telephone number, and optional mailing address. The cover letter will not be publicly viewable as long as it does not include any comments.

Include contact information each time you submit comments, data, documents, and other information to DOE. If you submit via postal mail or hand delivery/courier, please provide all items on a CD, if feasible, in which case it is not necessary to submit printed copies. No telefacsimiles (faxes) will be accepted.

Comments, data, and other information submitted to DOE electronically should be provided in PDF (preferred), Microsoft Word or Excel, WordPerfect, or text (ASCII) file format. Provide documents that are written in English, and that are free of any defects or viruses. Documents should not contain special characters or any form of encryption. If possible, documents should carry the electronic signature of the author.

Confidential Business Information. Pursuant to 10 CFR 1004.11, any person submitting information that they believe to be confidential and exempt by law from public disclosure should submit via email, postal mail, or hand delivery/courier two well-marked copies: One copy of the document marked ''confidential'' including all the information believed to be confidential, and one copy of the document marked ''non-confidential'' that deletes the information believed to be confidential. Submit these documents via email or on a CD, if feasible. DOE will make its own determination about the confidential status of the information and will treat it according to its determination. It is DOE's policy that all comments, including any personal information provided in the comments, may be included in the public docket, without change and as received, except for information deemed to be exempt from public disclosure.

V. Regulatory and Notices Analysis

A. Executive Orders 12866, 13563, and 14094

Executive Order (''E.O.'') 12866, ''Regulatory Planning and Review,'' 58 FR 51735 (October 4, 1993), as supplemented and reaffirmed by E.O. 13563, ''Improving Regulation and Regulatory Review,'' 76 FR 3821 (Jan. 21, 2011), and amended by E.O. 14094, ''Modernizing Regulatory Review,'' 88 FR 21879 (April 11, 2023), requires agencies, to the extent permitted by law, to (1) propose or adopt a regulation only upon a reasoned determination that its benefits justify its costs (recognizing that some benefits and costs are difficult to quantify); (2) tailor regulations to impose the least burden on society, consistent with obtaining regulatory objectives, taking into account, among other things, and to the extent practicable, the costs of cumulative regulations; (3) select, in choosing among alternative regulatory approaches, those approaches that maximize net benefits (including potential economic, environmental, public health and safety, and other advantages; distributive impacts; and equity); (4) to the extent feasible, specify performance objectives, rather than specifying the behavior or manner of compliance that regulated entities must adopt; and (5) identify and assess available alternatives to direct regulation, including providing economic incentives to encourage the desired behavior, such as user fees or marketable permits, or providing information upon which choices can be made by the public. DOE emphasizes as well that E.O. 13563 requires agencies to use the best available techniques to quantify anticipated present and future benefits and costs as accurately as possible. In its guidance, the Office of Information and Regulatory Affairs (''OIRA'') has emphasized that such techniques may include identifying changing future compliance costs that might result from technological innovation or anticipated behavioral changes. For the reasons stated in the preamble, this regulatory action is consistent with these principles.

Section 6(a) of E.O. 12866 requires agencies to submit ''significant regulatory actions'' to OIRA for review. This final rule has been determined to be a ''significant regulatory action'' under E.O. 12866. Accordingly, this action was subject to review by OIRA.

Section 6(a) of E.O. 12866 requires an agency issuing a ''significant regulatory action'' to provide an assessment of the potential costs and benefits of the regulatory action. To that end, DOE has further assessed the qualitative and quantitative costs and benefits of this direct final rule.

As discussed in previous sections of this direct final rule, DOE is aligning its regulations with the statutory

requirements for the voluntary federal loan program provided in the ATVM statute. However, DOE has considered the costs and benefits in this analysis for transparency. DOE does not expect the costs and benefits associated with applying to the ATVM Program in connection with the new categories of ATVs to deviate materially from the costs associated with the current categories of ATVs. The estimated costs of completing an application for a newly eligible project under the direct final rule are detailed in the current Paperwork Reduction Act burden analysis: $27,075 per applicant. While the range of advanced ATVs and qualifying components projects may broaden under the amendments under this direct final rule, DOE anticipates receiving the previously estimated 40 annual applications to the ATVM Program across all vehicle categories, resulting in the same estimated $1,083,000 combined annual cost to applicants as articulated in DOE's current burden analysis. As DOE has previously noted, much of the financial and technical information and other activities required as part of an ATVM Program loan application is required of an applicant that is raising equity, seeking a loan in the private sector, or exploring other financing sources for a project of similar complexity, size, and risk.

DOE estimated its annual costs in administering the ATVM Program for fiscal year 2024 to be $25,000,000.[9] DOE anticipates that the new ATV classes will produce 2–4 more loan applications per year in the 12 months following the effectiveness of this direct final rule. Given the above-mentioned cost estimates of $27,075 per applicant, that would amount to between $54,150 and $108,300 per year in costs borne by industry for these ATV applications. At the same time, DOE expects a natural decrease in the number of applications from the prior ATV categories, as parties planning projects under those categories have already applied to the ATVM Program, leaving the overall volume of ATVM Program applications steady over the next few years. Given the number of loan applications generated by nonroad vehicle technologies, DOE does not anticipate requiring additional resources, personnel, or staff time compared to its baseline to process applications in new ATV categories. DOE has issued eight loans for a total of more than $10 billion obligated to borrowers, with a further conditional commitment of eight more loans and $16 billion more dollars. In total, this would suggest on average a loan amount of roughly $1.73 billion per loan, although many loans are expected to be less than $1 billion. To the extent any of the loan applications for nonroad technology classes introduced by this rulemaking are successful, without additional information on the size of the loan requests at this stage DOE would anticipate a similar level of transfer. DOE does not anticipate any greater administrative costs to the Federal Government resulting from this direct final rule.

While the ATVM Program has no application fee, each applicant would incur the following costs: costs by DOE's independent advisors in connection with the applicant's project; and a fee at the time of closing of a loan, equal to 10 basis points (0.1%) of the principal amount of the loan. The interest rate associated with an ATVM Program loan is equal to the U.S. Treasury-equivalent yield curve with zero credit spread.

Like other federal credit programs, the ATVM Program accounts for the cost of each individual loan in accordance with the Federal Credit Reform Act of 1990, as amended (2 U.S.C. 661 *et seq.*) (''FCRA''), which requires agencies to estimate the cost to the government of extending or guaranteeing credit. This cost, referred to as credit subsidy cost, equals the net present value of estimated cash flows from the government minus estimated cash flows to the government over the life of the loan and excluding administrative costs. In accordance with FCRA, the non-administrative cost to the Federal Government of issuing each individual loan under the ATVM Program must be estimated, using a model provided by the Office of Management and Budget (''OMB'').

The benefits of this direct final rule derive from facilitating the applications for statutorily eligible projects under the ATVM Program. Under the existing part 611 and over the course of the ATVM Program, DOE has financed facilities for the manufacturing of advanced automobiles, as well as more recently for the manufacturing of electric vehicle batteries and battery-grade critical minerals. Throughout its history, the ATVM Program has issued eight total loans, and more than $10 billion has been obligated to borrowers. Since the passage of the IIJA, the ATVM Program has added two loans to its portfolio: Ultium Cells and Syrah Technologies.

Loans for relatively newer low or zero emissions vehicle technologies might differ from loans for the existing vehicle definitions. At present, DOE does not have an estimate on the average size of a loan for the additional categories of nonroad vehicles added to the ATVM Program by this rule, nor does DOE have an estimate for the failure rate of loans for nonroad technologies. These are important considerations when projecting the impact the nonroad vehicle classes will have on available ATVM Program funds. For example, if project failure rates are relatively higher for the nonroad vehicle classes, then DOE might make different decisions on the size of disbursed funds based on the likelihood of retrieving loaned amounts. Similarly, if loans tend to be relatively larger in this space, then the pool of funding might be exhausted faster as loan applications are approved than in DOE's previous experience. As DOE develops more experience with loan applications for nonroad technologies, DOE will consider providing additional guidance or rulemaking.

To date, projects that have been financed in part by ATVM Program loans have produced vehicles that are estimated to have saved over 19 billion gallons of gasoline, equivalent to a cumulative 26 million metric tons of carbon dioxide emissions, and created more than 43,000 direct jobs across eight states. DOE has issued conditional commitments for eight additional projects, potentially totaling over $16 billion in ATVM Program loans, that would further contribute to the reduction of vehicle emissions and to the creation of new domestic manufacturing opportunities. Through the ATVM Program, domestic and foreign automakers and manufacturers have deployed advanced technologies, saved or created thousands of jobs, reduced costs for consumers through increased fuel efficiency, and enhanced U.S. energy independence and security. DOE anticipates that this direct final rule will, consistent with current law, potentially advance the same types of benefits seen in existing and pending ATVM Program loans across a broader range of advanced technology vehicles and qualifying components.

A final consideration for the addition of new vehicle classes is the spillover impacts the new vehicle classes might have on existing classes. The IRA provided $3 billion in additional funding for the ATVM Program, including for the purpose of nonroad vehicle technologies. This funding is also available for technologies currently eligible for ATVM Program loans. To the extent that loan demand increases for existing technologies, it is possible that funding might become limited for

[9] See DOE's Fiscal Year 2024 Budget Justification, Loan Programs Office Summary, available at *https://www.energy.gov/sites/default/files/2023-03/doe-fy-2024-budget-vol-3-lpo-v2.pdf*.

nonroad vehicles. In the reverse case, where nonroad loan demand is especially high, the loan amounts for currently eligible technologies might decrease. DOE does not believe that demand for loans will exceed the point such that either of the above are practical concerns, but does note that in the event of this possibility, further communication might be necessary.

B. Administrative Procedure Act

The Administrative Procedure Act (5 U.S.C. 551 *et seq.*) (''APA'') exempts from the APA's notice and comment procedures under 5 U.S.C. 553(b) and (c) rulemakings that involve matters relating to public property, loans, grants, benefits, or contracts. (5 U.S.C. 553(a)(2)). As this rule relates to the issuance of loans, DOE has determined that notice of proposed rulemaking (and comment thereon) is not required.

C. Regulatory Flexibility Act

The Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*) requires that an agency prepare an initial regulatory flexibility analysis for any rule that by law must be proposed for public comment, unless the agency certifies that the rule, if promulgated, will not have a significant economic impact on a substantial number of small entities. As required by Executive Order 13272, ''Proper Consideration of Small Entities in Agency Rulemaking,'' 67 FR 53461 (August 16, 2002), DOE published procedures and policies on February 19, 2003, to ensure that the potential impacts of its rules on small entities are properly considered during the rulemaking process (68 FR 7990).

This final rule updates part 611. DOE is not obligated to prepare a regulatory flexibility analysis for this rulemaking because there is not a requirement to publish a general notice of proposed rulemaking for rules related to loans under the APA. (See 5 U.S.C. 553(a)(2)). Furthermore, this direct final rule implements, without substantive change, amendments to the ATVM statute and applicable provisions from the IRA.

D. Paperwork Reduction Act of 1995

The final rule would impose no new information or record keeping requirements. Accordingly, OMB clearance is not required under the Paperwork Reduction Act. (See 42 U.S.C. 3501 *et seq.*). The information collection necessary to administer DOE loans under the ATVM Program under 10 CFR part 611 is subject to approval under the Paperwork Reduction Act. The information collection provisions of this part were previously approved by the OMB under OMB Control Number 1910–5137.

Notwithstanding any other provision of the law, no person is required to respond to, nor shall any person be subject to a penalty for failure to comply with, a collection of information subject to the requirements of the PRA, unless that collection of information displays a currently valid OMB Control Number.

E. National Environmental Policy Act of 1969

In this rule, DOE amends part 611 to add additional categories of advanced technology vehicles authorized to be considered eligible for loans under the ATVM Program. DOE has determined that this final rule qualifies for categorical exclusion under 10 CFR part 1021, subpart D Appendix A5 as a rulemaking that amends an existing rule or regulation (*i.e.,* part 611) without changing the environmental effect of that rule. Therefore, DOE has determined that this final rule is not a major Federal action significantly affecting the quality of the human environment within the meaning of NEPA and does not require an environmental assessment or an environmental impact statement. Through the issuance of this rule, DOE is making no decision relative to the approval of a loan for a particular project. DOE would prepare appropriate NEPA review for any proposed project.

F. Executive Order 12988

With respect to the review of existing regulations and the promulgation of new regulations, section 3(a) of Executive Order 12988, ''Civil Justice Reform,'' 61 FR 4729 (February 7, 1996), imposes on executive agencies the general duty to adhere to the following requirements: (1) eliminate drafting errors and ambiguity; (2) write regulations to minimize litigation; and (3) provide a clear legal standard for affected conduct rather than a general standard and promote simplification and burden reduction.

With regard to the review required by section 3(a), section 3(b) of Executive Order 12988 specifically requires, in pertinent part, that executive agencies make every reasonable effort to ensure that the regulation: (1) clearly specifies the preemptive effect, if any; (2) clearly specifies any effect on existing Federal law or regulation; (3) provides a clear legal standard for affected conduct while promoting simplification and burden reduction; (4) specifies the retroactive effect, if any; (5) adequately defines key terms; and (6) addresses other important issues affecting clarity and general draftsmanship under any guidelines issued by the Attorney General.

Section 3(c) of Executive Order 12988 requires Executive agencies to review regulations in light of applicable standards in section 3(a) and section 3(b) to determine whether they are met or it is unreasonable to meet one or more of them.

DOE has completed the required review and determined that, to the extent permitted by law, this rule meets the relevant standards of Executive Order 12988.

G. Executive Order 13132

Executive Order 13132, ''Federalism,'' [10] imposes certain requirements on agencies formulating and implementing policies or regulations that preempt State law or that have federalism implications. Agencies are required to examine the constitutional and statutory authority supporting any action that would limit the policymaking discretion of the States and to carefully assess the necessity for such actions. The Executive order also requires agencies to have an accountable process to ensure meaningful and timely input by State and local officials in the development of regulatory policies that have federalism implications. On March 14, 2000, DOE published a statement of policy describing the intergovernmental consultation process it will follow in the development of such regulations.[11]

DOE has examined this final rule and has determined that it will not preempt State law and will not have a substantial direct effect on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. Accordingly, no further action is required by Executive Order 13132.

H. Executive Order 13175

Under Executive Order 13175, ''Consultation and Coordination with Indian Tribal Governments,'' [12] DOE may not issue a discretionary rule that has ''Tribal'' implications and imposes substantial direct compliance costs on Indian Tribal governments. DOE has determined that this final rule will not have such effects and has concluded that Executive Order 13175 does not apply to this final rule.

[10] 64 FR 43255 (August 4, 1999).

[11] 65 FR 13735 (March 14, 2000).

[12] 65 FR 67249 (November 9, 2000).

I. Unfunded Mandates Reform Act of 1995

Title II of the Unfunded Mandates Reform Act of 1995 (''UMRA'') [13] requires each Federal agency to assess the effects of Federal regulatory actions on State, local, and tribal governments and the private sector. For a proposed regulatory action likely to result in a rule that may cause the expenditure by State, local, and tribal governments, in the aggregate, or by the private sector of $100 million or more in any one year (adjusted annually for inflation), section 202 of UMRA requires a Federal agency to publish a written statement that estimates the resulting costs, benefits, and other effects on the national economy (2 U.S.C. 1532(a) and (b)). UMRA also requires a Federal agency to develop an effective process to permit timely input by elected officers of State, local, and tribal governments on a proposed ''significant intergovernmental mandate'' and requires an agency plan for giving notice and opportunity for timely input to potentially affected small governments before establishing any requirements that might significantly or uniquely affect small governments. On March 18, 1997, DOE published a statement of policy on its process for intergovernmental consultation under UMRA.[14] DOE examined this final rule according to UMRA and its statement of policy and has determined that the final rule contains neither an intergovernmental mandate nor a mandate that may result in the expenditure of $100 million or more in any year by State, local, and tribal governments, in the aggregate, or by the private sector. The final rule establishes only requirements that are a condition of Federal assistance or a duty arising from participation in a voluntary program. Accordingly, no further assessment or analysis is required under UMRA.

J. Treasury and General Government Appropriations Act of 1999

Section 654 of the Treasury and General Government Appropriations Act, 1999 [15] requires Federal agencies to issue a Family Policymaking Assessment for any proposed rule that may affect family well-being. This final rule will not have any impact on the autonomy or integrity of the family as an institution. Accordingly, DOE has concluded that it is not necessary to prepare a Family Policymaking Assessment.

K. Treasury and General Government Appropriations Act, 2001

Section 515 of the Treasury and General Government Appropriations Act, 2001 [16] provides for Federal agencies to review most disseminations of information to the public under guidelines established by each agency pursuant to general guidelines issued by OMB. OMB's guidelines were published at 67 FR 8452 (February 22, 2002), and DOE's guidelines were published at 67 FR 62446 (October 7, 2002). Pursuant to OMB Memorandum M–19–15, ''Improving Implementation of the Information Quality Act'' (April 24, 2019), DOE published updated guidelines which are available at: *https://www.energy.gov/sites/prod/files/2019/12/f70/DOE%20Final%20Updated%20IQA%20Guidelines%20Dec%202019.pdf.*

DOE has reviewed this final rule under the OMB and DOE guidelines and has concluded that it is consistent with applicable policies in those guidelines.

L. Executive Order 13211

Executive Order 13211, ''Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use,'' [17] requires Federal agencies to prepare and submit to the OMB, a Statement of Energy Effects for any proposed significant energy action. A ''significant energy action'' is defined as any action by an agency that promulgated or is expected to lead to promulgation of a final rule, and that: (1) is a significant regulatory action under Executive Order 12866, or any successor order; and (2) is likely to have a significant adverse effect on the supply, distribution, or use of energy, or (3) is designated by the Administrator of OIRA as a significant energy action. For any proposed significant energy action, the agency must give a detailed statement of any adverse effects on energy supply, distribution, or use should the proposal be implemented, and of reasonable alternatives to the action and their expected benefits on energy supply, distribution, and use. This regulatory action will not have a significant adverse effect on the supply, distribution, or use of energy and is therefore not a significant energy action. Accordingly, DOE has not prepared a Statement of Energy Effects.

M. Congressional Review Act

As required by 5 U.S.C. 801, DOE will report to Congress on the promulgation of this rule. The report will state that OIRA has determined that the rule meets the criteria set forth in 5 U.S.C. 804(2).

VI. Approval of the Office of the Secretary

The Secretary of Energy has approved publication of this direct final rule.

List of Subjects in 10 CFR Part 611

Administrative practice and procedure, Energy, Loan programs, Reporting and recordkeeping requirements.

Signing Authority

This document of the Department of Energy was signed on April 23, 2024, by Jigar Shah, Executive Director, Loan Programs Office, pursuant to delegated authority from the Secretary of Energy. That document with the original signature and date is maintained by DOE. For administrative purposes only, and in compliance with requirements of the Office of the Federal Register, the undersigned DOE Federal Register Liaison Officer has been authorized to sign and submit the document in electronic format for publication, as an official document of the Department of Energy. This administrative process in no way alters the legal effect of this document upon publication in the **Federal Register**.

Signed in Washington, DC, on April 24, 2024.

Treena V. Garrett,

Federal Register Liaison Officer, U.S. Department of Energy.

For the reasons stated in the preamble, DOE amends part 611 of chapter II of title 10 of the Code of Federal Regulations as set forth below:

PART 611—ADVANCED TECHNOLOGY VEHICLES MANUFACTURER ASSISTANCE PROGRAM

■ 1. The authority citation for part 611 is revised to read as follows:

Authority: Pub. L. 110–140 (42 U.S.C. 17013), Pub. L. 110–329, Pub. L. 111–85, Pub. L. 117–58.

■ 2. Revise § 611.1 to read as follows:

§ 611.1 Purpose.

This part is issued by the Department of Energy (DOE) pursuant to section 136 of the Energy Independence and Security Act of 2007, Public Law 110–140, as amended by section 129 of Consolidated Security, Disaster Assistance, and Continuing

[13] Public Law 104–4 (1995).

[14] 62 FR 12820 (March 18, 1997); also available at *www.energy.gov/gc/office-general-counsel.*

[15] Public Law 105–277 (1998); 5 U.S.C. 601 note.

[16] Public Law 106–554 (2000); 44 U.S.C. 3516 note.

[17] 66 FR 28355 (May 22, 2001).

Appropriations Act of 2009, Public Law 110–329, section 312 of Energy and Water Development and Related Agencies Appropriations Act of 2010, Public Law 111–85, section 40401(b) of the Infrastructure Investment and Jobs Act, Public Law 117–58, and section 50142 of the Inflation Reduction Act of 2022, Public Law 117–169. Specifically, section 136(e) directs DOE to promulgate an interim final rule establishing regulations that specify eligibility criteria and that contain other provisions that the Secretary deems necessary to administer this section and any loans made by the Secretary pursuant to this section.

■ 3. Amend § 611.2 by:
■ a. Revising the definitions for ''Advanced technology vehicle'' and;
■ b. Adding, in alphabetical order, definitions for ''Nonroad advanced technology vehicle'', ''On-road advanced technology vehicle'', and ''Ultra efficient vehicle''.

The additions and revision read as follows:

§ 611.2 Definitions.

* * * * *

Advanced technology vehicle means an on-road advanced technology vehicle or a nonroad advanced technology vehicle.

* * * * *

Nonroad advanced technology vehicle means:

(1) A train or locomotive;

(2) A maritime vessel;

(3) An aircraft; and

(4) Hyperloop technology

That, in each case, emit, under any possible operational mode or condition, low or zero exhaust emissions of greenhouse gases.

On-road advanced technology vehicle means

(1) An ultra efficient vehicle or a light duty vehicle that meets—

(i) The Bin 5 Tier II emission standard established in regulations issued by the Administrator of the Environmental Protection Agency under section 202(i) of the Clean Air Act (the Act) (42 U.S.C. 7521(i)), as of the date of application, or a lower-numbered Bin emission standard;

(ii) Any new emission standard in effect for fine particulate matter prescribed by the Administrator under the Act (42 U.S.C. 7401 *et seq.*), as of the date of application; and

(iii) At least 125 percent of the harmonic production weighted average combined fuel economy, for vehicles with substantially similar attributes in model year 2005.

(2) A medium duty vehicle or heavy duty vehicle that exceeds 125 percent of the greenhouse gas emissions and fuel efficiency standards established by the final rule of the Environmental Protection Agency entitled ''Greenhouse Gas Emissions and Fuel Efficiency Standards for Medium- and Heavy-Duty Engines and Vehicles—Phase 2'' (81 FR 73478 (October 25, 2016)).

* * * * *

Ultra efficient vehicle means a fully closed compartment vehicle designed to carry at least 2 adult passengers that achieves—

(1) At least 75 miles per gallon while operating on gasoline or diesel fuel;

(2) At least 75 miles per gallon equivalent while operating as a hybrid electric-gasoline or electric-diesel vehicle; or

(3) At least 75 miles per gallon equivalent while operating as a fully electric vehicle.

■ 4. Amend § 611.3 by revising the section heading, the introductory text, and paragraph (a) to read as follows:

§ 611.3 On-road advanced technology vehicle.

In order to demonstrate that a light duty vehicle is an ''on-road advanced technology vehicle'', an automobile manufacturer must provide the following:

(a) Emissions certification. An automobile manufacturer must certify in writing that the vehicle meets, or will meet, the emissions requirements specified in the definition of ''on-road advanced technology vehicle''; and

* * * * *

■ 5. Add § 611.4 to subpart A to read as follows:

§ 611.4 Nonroad advanced technology vehicle.

A manufacturer of a nonroad advanced technology vehicle or a manufacturer of a nonroad advanced technology vehicle qualifying component must provide DOE with such information to demonstrate to the satisfaction of DOE that the applicable nonroad advanced technology vehicle emits, under any possible operational mode or condition, low or zero exhaust emissions of greenhouse gases.

■ 6. Amend § 611.100 by revising paragraph (a)(1) to read as follows.

§ 611.100 Eligible applicant.

(a) * * *

(1) Must be—

(i) An on-road advanced technology vehicle manufacturer that, if it is a light duty vehicle manufacturer, can demonstrate an improved fuel economy as specified in paragraph (b) of this section, or otherwise satisfies the applicable standards set forth in the definition of on-road advanced technology vehicle,

(ii) A manufacturer of a qualifying component, or

(iii) A nonroad advanced technology vehicle manufacturer; and

* * * * *

BILLING CODE 6450–01–P

DEPARTMENT OF ENERGY

10 CFR Part 955

RIN 1903–AA12

Elemental Mercury Management and Storage Fees

AGENCY: Office of Environmental Management, U.S. Department of Energy.

ACTION: Final rule.

SUMMARY: The Department of Energy (DOE) is removing the regulatory provisions established by the final rule Elemental Mercury Management and Storage Fees that was published in the **Federal Register** on December 23, 2019. On September 5, 2020, the U.S. District Court for the District of Columbia issued an order that vacated and remanded the rule to DOE for reconsideration. This action amends the Code of Federal Regulations to reflect the Court's order.

DATES: This rule is effective on April 29, 2024. However, the Court's order had legal effect immediately upon its issuance on September 5, 2020.

FOR FURTHER INFORMATION CONTACT: Timothy Herald, U.S. Department of Energy, Office of Environmental Management, Room B126, 19901 Germantown Road, Germantown, MD 20874; (240) 243–8753 or *timothy.herald@em.doe.gov.*

SUPPLEMENTARY INFORMATION: Section 5(a)(1) of the Mercury Export Ban Act (MEBA), as amended, 42 U.S.C. 6939f(a)(1), provides that the Secretary of Energy shall designate a facility or facilities of DOE for the purpose of long-term management and storage of elemental mercury generated within the United States. MEBA section 5(b)(1), 42 U.S.C. 6939f(b)(1), further provides that DOE shall assess and collect a fee at the time of delivery for providing such management and storage, based on the pro rata cost of long-term management and storage of elemental mercury delivered to the facility.

On December 6, 2019, DOE published its Record of Decision (ROD) identifying a portion of two buildings at a Texas facility leased by DOE and owned by

Waste Control Specialists, LLC (WCS facility) as its designated facility under MEBA section 5(a). (84 FR 66890). In accordance with MEBA section 5(b), on December 23, 2019, DOE issued a final rule that established the fee for the management and storage of elemental mercury at the designated facility. (84 FR 70402). The rule, which became effective on January 22, 2020, added 10 CFR part 955 titled ''Fee for Long-Term Management and Storage of Elemental Mercury Under the Mercury Export Ban Act of 2008, as Amended.''

On January 17, 2020, Nevada Gold Mines, LLC (NGM) filed suit against DOE in the U.S. District Court for the District of Columbia seeking to vacate both the final rule and the ROD. *Nevada Gold Mines, LLC* v. *Dan Brouillette, et al.,* Case No. 1:20–cv–00141–RJL (D.D.C. 2020). On August 21, 2020, NGM and DOE executed a settlement agreement in which DOE agreed to move the district court to vacate and remand the fee rule. On September 5, 2020, the district court granted DOE's motion to vacate the fee rule and ordered the rule vacated and remanded to DOE for reconsideration. Consistent with the agreement, DOE subsequently issued an amended ROD withdrawing the designation of the WCS facility. In this final rule, DOE removes 10 CFR part 955 to reflect the district court's order.

This final rule is not subject to the requirement to provide prior notice and an opportunity for public comment under 5 U.S.C. 553(b) and (c) because it falls under the good cause exception at 5 U.S.C. 553(b)(3)(B). The good cause exception is satisfied when notice and comment is ''impracticable, unnecessary, or contrary to the public interest.'' *Id.* This final rule is an administrative step that implements the district court's order vacating the December 2019 rule. Notice and comment are unnecessary for implementation of the court's vacatur and would be impracticable and contrary to the public interest in light of DOE's need to implement the now-effective final judgment. Additionally, because this final rule implements a court order already in effect, DOE has good cause to waive the 30-day effective date. *See* 5 U.S.C. 553(d)(3).

Approval of the Office of the Secretary

The Secretary of Energy has approved publication of this final rule.

List of Subjects in 10 CFR Part 955

Elemental Mercury, Hazardous Waste Treatment, Storage, and Disposal, and Reporting and Recordkeeping Requirements.

Signing Authority

This document of the Department of Energy was signed on April 23, 2024, by David M. Turk, Deputy Secretary of Energy, pursuant to delegated authority from the Secretary of Energy. That document with the original signature and date is maintained by DOE. For administrative purposes only, and in compliance with requirements of the Office of the Federal Register, the undersigned DOE Federal Register Liaison Officer has been authorized to sign and submit the document in electronic format for publication, as an official document of the Department of Energy. This administrative process in no way alters the legal effect of this document upon publication in the **Federal Register**.

Signed in Washington, DC, on April 24, 2024.

Treena V. Garrett,

Federal Register Liaison Officer, U.S. Department of Energy.

PART 955—[REMOVED AND RESERVED]

■ For the reasons stated in the preamble, and under the authority of 42 U.S.C. 6939f(b), DOE removes and reserves 10 CFR part 955.

Federal Aviation Administration

14 CFR Part 39

[Docket No. FAA–2023–1989; Project Identifier AD–2023–00512–E; Amendment 39–22719; AD 2024–06–14]

RIN 2120–AA64

Airworthiness Directives; International Aero Engines, LLC Engines

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: The FAA is adopting a new airworthiness directive (AD) for certain International Aero Engines, LLC (IAE) Model PW1124G1–JM, PW1127G–JM, PW1127GA–JM, PW1129G–JM, PW1130G–JM, PW1133G–JM, and PW1133GA–JM engines. This AD was prompted by a report that certain high-pressure compressor (HPC) 2nd stage rotors and HPC 4th stage rotors have potentially degraded knife-edge seals and abrasive coating of the rear wing 4th stage rotor due to having been cleaned in alkaline solution without masking the knife-edge seal coating. Operating in this condition could result in material degradation and fracture of the HPC 2nd stage rotor and HPC 4th stage rotor. This AD requires replacement of certain HPC 2nd stage rotors and HPC 4th stage rotors. The FAA is issuing this AD to address the unsafe condition on these products.

DATES: This AD is effective June 3, 2024.

The Director of the Federal Register approved the incorporation by reference of a certain publication listed in this AD as of June 3, 2024.

ADDRESSES:

AD Docket: You may examine the AD docket at *regulations.gov* under Docket No. FAA–2023–1989; or in person at Docket Operations between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays. The AD docket contains this final rule, any comments received, and other information. The address for Docket Operations is U.S. Department of Transportation, Docket Operations, M–30, West Building Ground Floor, Room W12–140, 1200 New Jersey Avenue SE, Washington, DC 20590.

Material Incorporated by Reference:

• For Pratt & Whitney (PW) service information identified in this final rule, contact International Aero Engines, LLC, 400 Main Street, East Hartford, CT 06118; phone: (860) 565–0140; email: *help24@pw.utc.com;* website: *connect.prattwhitney.com.*

• You may view this service information at the FAA, Airworthiness Products Section, Operational Safety Branch, 1200 District Avenue, Burlington, MA 01803. For information on the availability of this material at the FAA, call (817) 222–5110.

FOR FURTHER INFORMATION CONTACT: Carol Nguyen, Aviation Safety Engineer, FAA, 2200 South 216th Street, Des Moines, WA 98198; phone: (781) 238–7655; email: *carol.nguyen@faa.gov.*

SUPPLEMENTARY INFORMATION:

Background

The FAA issued a notice of proposed rulemaking (NPRM) to amend 14 CFR part 39 by adding an AD that would apply to certain IAE Model PW1124G1–JM, PW1127G–JM, PW1127GA–JM, PW1129G–JM, PW1130G–JM, PW1133G–JM, and PW1133GA–JM engines. The NPRM published in the **Federal Register** on October 5, 2023 (88 FR 69099). The NPRM was prompted by a report of a batch of HPC 2nd stage rotors and HPC 4th stage rotors that could have degraded knife-edge seals and abrasive coating on the rear wing 4th stage rotor due to having been cleaned in alkaline solution without

masking the knife-edge seal coating. Operating in this condition could result in material degradation and fracture of the HPC 2nd stage rotor and HPC 4th stage rotor. In the NPRM, the FAA proposed to require replacement of the affected HPC 2nd stage rotor and HPC 4th stage rotor with parts eligible for installation. The FAA is issuing this AD to address the unsafe condition on these products.

Since the NPRM was issued, PW also revised PW Service Bulletin PW1000G–C–72–00–0208–00A–930A–D, Issue 001, dated September 13, 2022, to PW Alert Service Bulletin (ASB) PW1000G–C–72–00–0208–00A–930A–D, Issue 002, dated January 18, 2024, to incorporate editorial changes. This service bulletin revision does not affect compliance or add any additional burden upon owners/operators of aircraft with the affected engines installed. Full credit will be given for PW Service Bulletin PW1000G–C–72–00–0208–00A–930A–D, Issue 001, dated September 13, 2022.

Discussion of Final Airworthiness Directive

Comments

The FAA received comments from two commenters. The commenters were the Air Line Pilots Association, International (ALPA), and Delta Air Lines, Inc (DAL). ALPA supported the NPRM without change. The following presents the comment received from DAL on the NPRM and the FAA's response.

Request To Revise Definition for Parts Eligible for Installation

DAL requested that the FAA revise paragraph (h)(1)(ii) of the proposed AD to specify which version of the service bulletin is acceptable for compliance. DAL noted that the definition of a part eligible for installation in paragraph (h)(1)(ii) of the proposed AD does not currently specify which version of the service bulletin is acceptable for compliance, and it may be unclear to operators if the use of a future revision of the service bulletin is acceptable.

The FAA agrees with the request to revise paragraph (h)(1)(ii) of this AD in order to specify which version of the service bulletin is acceptable for compliance. The FAA revised paragraph (h)(2)(ii) of this AD to reference PW ASB PW1000G–C–72–00–0208–00A–930A–D, Issue 002, dated January 18, 2024, which was issued by PW after the NPRM was published. The FAA also added paragraph (i) to this AD, and redesignated subsequent paragraphs of this AD accordingly, to provide credit for actions performed before the effective date of this AD using PW SB PW1000G–C–72–00–0208–00A–930A–D, Issue 001, dated September 13, 2022.

Conclusion

The FAA reviewed the relevant data, considered any comments received, and determined that air safety requires adopting this AD as proposed. Accordingly, the FAA is issuing this AD to address the unsafe condition on these products. Except for minor editorial changes, and any other changes described previously, this AD is adopted as proposed in the NPRM. None of the changes will increase the economic burden on any operator.

Related Service Information Under 1 CFR Part 51

The FAA reviewed Pratt & Whitney ASB PW1000G–C–72–00–0208–00A–930A–D, Issue 002, dated January 18, 2024. This service information identifies the affected HPC 2nd stage rotors and HPC 4th stage rotors and specifies procedures for inspection and repair of the HPC 2nd stage rotors and HPC 4th stage rotors. This service information is reasonably available because the interested parties have access to it through their normal course of business or by the means identified in **ADDRESSES**.

Costs of Compliance

The FAA estimates that this AD affects 6 engines installed on airplanes of U.S. registry.

The FAA estimates the following costs to comply with this AD:

ESTIMATED COSTS

Action	Labor cost	Parts cost	Cost per product	Cost on U.S. operators
Replace HPC 2nd stage rotor and HPC 4th stage rotor with repaired parts.	73 work-hours × $85 per hour = $6,205	$0	$6,205	$37,230

Operators may choose to use new parts instead of repaired parts to comply with this AD. For replacement with new parts, the FAA estimates the following costs:

Action	Labor cost	Parts cost	Cost per product
Replace HPC 2nd stage rotor	32 work-hours × $85 per hour = $2,720	$312,000	$314,720
Replace HPC 4th stage rotor	32 work-hours × $85 per hour = $2,720	244,000	246,720

Authority for This Rulemaking

Title 49 of the United States Code specifies the FAA's authority to issue rules on aviation safety. Subtitle I, section 106, describes the authority of the FAA Administrator. Subtitle VII: Aviation Programs, describes in more detail the scope of the Agency's authority.

The FAA is issuing this rulemaking under the authority described in Subtitle VII, Part A, Subpart III, Section 44701: General requirements. Under that section, Congress charges the FAA with promoting safe flight of civil aircraft in air commerce by prescribing regulations for practices, methods, and procedures the Administrator finds necessary for safety in air commerce. This regulation is within the scope of that authority because it addresses an unsafe condition that is likely to exist or develop on products identified in this rulemaking action.

Regulatory Findings

This AD will not have federalism implications under Executive Order 13132. This AD will not have a substantial direct effect on the States, on the relationship between the national

government and the States, or on the distribution of power and responsibilities among the various levels of government.

For the reasons discussed above, I certify that this AD:

(1) Is not a ''significant regulatory action'' under Executive Order 12866,

(2) Will not affect intrastate aviation in Alaska, and

(3) Will not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 39

Air transportation, Aircraft, Aviation safety, Incorporation by reference, Safety.

The Amendment

Accordingly, under the authority delegated to me by the Administrator, the FAA amends 14 CFR part 39 as follows:

PART 39—AIRWORTHINESS DIRECTIVES

■ 1. The authority citation for part 39 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40113, 44701.

§ 39.13 [Amended]

■ 2. The FAA amends § 39.13 by adding the following new airworthiness directive:

2024–06–14 International Aero Engines, LLC: Amendment 39–22719; Docket No. FAA–2023–1989; Project Identifier AD–2023–00512–E.

(a) Effective Date

This airworthiness directive (AD) is effective June 3, 2024.

(b) Affected ADs

None.

(c) Applicability

This AD applies to International Aero Engines, LLC Model PW1124G1–JM, PW1127G–JM, PW1127GA–JM, PW1129G–JM, PW1130G–JM, PW1133G–JM, and PW1133GA–JM engines having a high-pressure compressor (HPC) 2nd stage rotor or HPC 4th stage rotor having a part number and serial number identified in the Applicability, Table 2, of Pratt & Whitney (PW) Alert Service Bulletin (ASB) PW1000G–C–72–00–0208–00A–930A–D, Issue 002, dated January 18, 2024 (PW ASB PW1000G–C–72–00–0208–00A–930A–D, Issue 002).

(d) Subject

Joint Aircraft System Component (JASC) Code 7230, Turbine Engine Compressor Section.

(e) Unsafe Condition

This AD was prompted by a report that certain HPC 2nd stage rotors and HPC 4th stage rotors have potentially degraded knife-edge seals and abrasive coating of the rear wing 4th stage rotor due to having been cleaned in alkaline solution without masking the knife-edge seal coating. The FAA is issuing this AD to prevent material degradation and fracture of the HPC 2nd stage rotor and HPC 4th stage rotor. The unsafe condition, if not addressed, could result in uncontained part release or dual-engine shutdown, damage to engine, damage to airplane, and loss of the airplane.

(f) Compliance

Comply with this AD within the compliance times specified, unless already done.

(g) Required Actions

(1) At the next engine shop visit after the effective date of this AD, remove the HPC 2nd stage rotor having a part number and serial number identified in the Applicability, Table 2, of PW ASB PW1000G–C–72–00–0208–00A–930A–D, Issue 002, and replace with a part eligible for installation.

(2) At the next engine shop visit after the effective date of this AD, remove the HPC 4th stage rotor having a part number and serial number identified in the Applicability, Table 2, of PW ASB PW1000G–C–72–00–0208–00A–930A–D, Issue 002, and replace with a part eligible for installation.

(h) Definitions

(1) For the purposes of this AD, a ''part eligible for installation'' is:

(i) Any HPC 2nd stage rotor or HPC 4th stage rotor, as applicable, that does not have a part number and serial number identified in the Applicability, Table 2, of PW ASB PW1000G–C–72–00–0208–00A–930A–D, Issue 002; or

(ii) Any HPC 2nd stage rotor or HPC 4th stage rotor, as applicable, that has incorporated PW ASB PW1000G–C–72–00–0208–00A–930A–D, Issue 002.

(2) For the purposes of this AD, an ''engine shop visit'' is the induction of an engine into the shop for maintenance involving the separation of the ''H'' flange.

(i) Credit for Previous Actions

You may take credit for the replacement of the HPC 2nd stage rotor or HPC 4th stage rotor required by paragraph (g)(1) or (2) of this AD if the HPC 2nd stage rotor or HPC 4th stage rotor incorporated PW Service Bulletin PW1000G–C–72–00–0208–00A–930A–D, Issue 001, dated September 13, 2022, before the effective date of this AD.

(j) Alternative Methods of Compliance (AMOCs)

(1) The Manager, AIR–520 Continued Operational Safety Branch, FAA, has the authority to approve AMOCs for this AD, if requested using the procedures found in 14 CFR 39.19. In accordance with 14 CFR 39.19, send your request to your principal inspector or local Flight Standards District Office, as appropriate. If sending information directly to the Manager, AIR–520 Continued Operational Safety Branch, send it to the attention of the person identified in paragraph (k) of this AD and email to: *ANE-AD-AMOC@faa.gov.*

(2) Before using any approved AMOC, notify your appropriate principal inspector, or lacking a principal inspector, the manager of the local flight standards district office/certificate holding district office.

(k) Additional Information

For more information about this AD, contact Carol Nguyen, Aviation Safety Engineer, FAA, 2200 South 216th Street, Des Moines, WA 98198; phone: (781) 238–7655; email: *carol.nguyen@faa.gov.*

(l) Material Incorporated by Reference

(1) The Director of the Federal Register approved the incorporation by reference (IBR) of the service information listed in this paragraph under 5 U.S.C. 552(a) and 1 CFR part 51.

(2) You must use this service information as applicable to do the actions required by this AD, unless the AD specifies otherwise.

(i) Pratt & Whitney Alert Service Bulletin PW1000G–C–72–00–0208–00A–930A–D, Issue 002, dated January 18, 2024.

(ii) [Reserved]

(3) For Pratt & Whitney service information identified in this AD, contact International Aero Engines, LLC, 400 Main Street, East Hartford, CT 06118; phone: (860) 565–0140; email: *help24@pw.utc.com;* website: *connect.prattwhitney.com.*

(4) You may view this service information at FAA, Airworthiness Products Section, Operational Safety Branch, 1200 District Avenue, Burlington, MA 01803. For information on the availability of this material at the FAA, call (817) 222–5110.

(5) You may view this material at the National Archives and Records Administration (NARA). For information on the availability of this material at NARA, visit *www.archives.gov/federal-register/cfr/ibr-locationsoremailfr.inspection@nara.gov.*

Issued on March 22, 2024.

Victor Wicklund,

Deputy Director, Compliance & Airworthiness Division, Aircraft Certification Service.

RIN 2120–AA64

Airworthiness Directives; Pilatus Aircraft Ltd. Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: The FAA is superseding Airworthiness Directive (AD) 2023–12–17, which applied to Pilatus Aircraft Ltd. (Pilatus) Model PC–12, PC–12/45,

PC–12/47, and PC–12/47E airplanes. AD 2023–12–17 required revising the airworthiness limitation section (ALS) of the existing aircraft maintenance manual (AMM) or Instructions for Continued Airworthiness (ICA) for your airplane by introducing new and more restrictive instructions and maintenance tasks as specified in the component limitations section, which includes repetitive inspections for cracks in the lower main spar connection of the horizontal stabilizer. Since the FAA issued AD 2023–12–17, the FAA has determined that new or more restrictive airworthiness limitations are necessary. This AD requires revising the ALS of your existing AMM or ICA and your existing approved maintenance or inspection program, as applicable, as specified in a European Union Aviation Safety Agency (EASA) AD, which is incorporated by reference. The FAA is issuing this AD to address the unsafe condition on these products.

DATES: This AD is effective June 3, 2024.

The Director of the Federal Register approved the incorporation by reference of a certain publication listed in this AD as of June 3, 2024.

ADDRESSES:

AD Docket: You may examine the AD docket at *regulations.gov* under Docket No. FAA–2024–0045; or in person at Docket Operations between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays. The AD docket contains this final rule, the mandatory continuing airworthiness information (MCAI), any comments received, and other information. The address for Docket Operations is U.S. Department of Transportation, Docket Operations, M–30, West Building Ground Floor, Room W12–140, 1200 New Jersey Avenue SE, Washington, DC 20590.

Material Incorporated by Reference:

- For EASA material, contact EASA, Konrad-Adenauer-Ufer 3, 50668 Cologne, Germany; phone: +49 221 8999 000; email: *ADs@easa.europa.eu;* website: *easa.europa.eu.* You may find this material on the EASA website at *ad.easa.europa.eu.*
- You may view this material at the FAA, Airworthiness Products Section, Operational Safety Branch, 901 Locust, Kansas City, MO 64106. For information on the availability of this material at the FAA, call (817) 222–5110. It is also available at *regulations.gov* under Docket No. FAA–2024–0045.

SUPPLEMENTARY INFORMATION:

Background

The FAA issued a notice of proposed rulemaking (NPRM) to amend 14 CFR part 39 to supersede AD 2023–12–17, Amendment 39–22475 (88 FR 42604, July 3, 2023) (AD 2023–12–17). AD 2023–12–17 applied to Pilatus Model PC–12, PC–12/45, PC–12/47, and PC–12/47E airplanes. AD 2023–12–17 required incorporating new revisions to the ALS of the existing AMM or ICA for your airplane to establish new or more restrictive airworthiness limitations that include repetitive inspections for cracks in the lower main spar connection of the horizontal stabilizer. The FAA issued AD 2023–12–17 to address cracks in the lower main spar connection of the horizontal stabilizer and failure of certain parts, which could result in loss of airplane control.

The NPRM published in the **Federal Register** on February 2, 2024 (89 FR 7297). The NPRM was prompted by EASA AD 2023–0184, dated October 19, 2023 (EASA AD 2023–0184) (also referred to as the MCAI), issued by EASA, which is the Technical Agent for the Member States of the European Union. The MCAI states that new or more restrictive tasks and limitations have been developed. These new or more restrictive airworthiness limitations include repetitive eddy current inspections for cracks in the main landing gear yoke fitting.

You may examine the MCAI in the AD docket at *regulations.gov* under Docket No. FAA–2024–0045.

In the NPRM, the FAA proposed to require revising the ALS of your existing AMM or ICA and your existing approved maintenance or inspection program, as applicable, as specified in EASA AD 2023–0184. The FAA is issuing this AD to address failure of certain parts, which could result in asymmetric main landing gear failure that could lead to loss of airplane control during take-off, landing, and taxiing operations. Additionally, the actions required to address the unsafe condition in AD 2023–12–17 are included in ''the applicable ALS,'' as defined in EASA AD 2023–0184.

Discussion of Final Airworthiness Directive

Comments

The FAA received comments from two anonymous commenters, an individual, and the Air Line Pilots Association, International (ALPA). All commenters supported the NPRM without change.

Conclusion

These products have been approved by the aviation authority of another country and are approved for operation in the United States. Pursuant to the FAA's bilateral agreement with this State of Design Authority, it has notified the FAA of the unsafe condition described in the MCAI referenced above. The FAA reviewed the relevant data, considered the comments received, and determined that air safety requires adopting the AD as proposed. Accordingly, the FAA is issuing this AD to address the unsafe condition on these products. This AD is adopted as proposed in the NPRM.

Related Service Information Under 1 CFR Part 51

EASA AD 2023–0184 requires certain actions and associated thresholds and intervals, including life limits and maintenance tasks. EASA AD 2023–0184 also requires doing corrective actions if any discrepancy (as defined in ''the applicable ALS'' as defined in EASA AD 2023–0184) is found during accomplishment of any task required by paragraph (1) of EASA AD 2023–0184 and revising the aircraft maintenance program (AMP) by incorporating the limitations, tasks, and associated thresholds and intervals described in ''the applicable ALS'' as defined in EASA AD 2023–0184. This material is reasonably available because the interested parties have access to it through their normal course of business or by the means identified in **ADDRESSES**.

Differences Between This AD and the MCAI

Paragraph (1) of EASA AD 2023–0184 requires replacing each component before exceeding the applicable life limit and within the identified thresholds and intervals accomplishing all applicable maintenance tasks as specified in the applicable ALS for that airplane. Paragraph (2) of EASA AD 2023–0184 requires corrective actions in accordance with the applicable Pilatus maintenance documentation or contacting Pilatus for approved instructions and accomplishing those instructions accordingly. Paragraph (4) of EASA AD 2023–0184 provides credit for performing actions in accordance with previous revisions of the Pilatus AMM. Paragraph (5) of EASA AD 2023–0184 explains that after revision of the AMP, it is not necessary to record accomplishment of individual actions for demonstration of AD compliance. This AD does not require compliance

with paragraphs (1), (2), (4), and (5) of EASA AD 2023–0184.

Costs of Compliance

The FAA estimates that this AD affects 1,030 airplanes of U.S. registry.

The FAA estimates the following costs to comply with this AD:

ESTIMATED COSTS

Action	Labor cost	Parts cost	Cost per product	Cost on U.S. operators
Revise the ALS	1 work-hour × $85 per hour = $85	$0	$85	$87,550

Authority for This Rulemaking

Title 49 of the United States Code specifies the FAA's authority to issue rules on aviation safety. Subtitle I, section 106, describes the authority of the FAA Administrator. Subtitle VII: Aviation Programs, describes in more detail the scope of the Agency's authority.

The FAA is issuing this rulemaking under the authority described in Subtitle VII, Part A, Subpart III, Section 44701: General requirements. Under that section, Congress charges the FAA with promoting safe flight of civil aircraft in air commerce by prescribing regulations for practices, methods, and procedures the Administrator finds necessary for safety in air commerce. This regulation is within the scope of that authority because it addresses an unsafe condition that is likely to exist or develop on products identified in this rulemaking action.

Regulatory Findings

The FAA has determined that this AD will not have federalism implications under Executive Order 13132. This AD will not have a substantial direct effect on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government.

For the reasons discussed above, I certify that this AD:

(1) Is not a ''significant regulatory action'' under Executive Order 12866,

(2) Will not affect intrastate aviation in Alaska, and

(3) Will not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 39

Air transportation, Aircraft, Aviation safety, Incorporation by reference, Safety.

The Amendment

Accordingly, under the authority delegated to me by the Administrator, the FAA amends 14 CFR part 39 as follows:

PART 39—AIRWORTHINESS DIRECTIVES

■ 1. The authority citation for part 39 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40113, 44701.

§ 39.13 [Amended]

■ 2. The FAA amends § 39.13 by:

■ a. Removing Airworthiness Directive 2023–12–17, Amendment 39–22475 (88 FR 42604, July 3, 2023); and

■ b. Adding the following new airworthiness directive:

2024–08–07 Pilatus Aircraft Ltd.: Amendment 39–22740; Docket No. FAA–2024–0045; Project Identifier MCAI–2023–01088–A.

(a) Effective Date

This airworthiness directive (AD) is effective June 3, 2024.

(b) Affected ADs

This AD replaces AD 2023–12–17, Amendment 39–22475 (88 FR 42604, July 3, 2023) (AD 2023–12–17).

(c) Applicability

This AD applies to Pilatus Aircraft Ltd. Model PC–12, PC–12/45, PC–12/47, and PC–12/47E airplanes, all serial numbers, certificated in any category.

(d) Subject

Joint Aircraft System Component (JASC) Code 3211, Main Landing Gear Attach Section.

(e) Unsafe Condition

This AD was prompted by a revision to the airworthiness limitations section (ALS) of the existing aircraft maintenance manual (AMM) introducing new and more restrictive instructions and maintenance tasks as specified in the component limitations section, which include repetitive eddy current inspections for cracks in the main landing gear yoke fitting. The FAA is issuing this AD to address failure of certain parts, which could result in asymmetric main landing gear failure that could lead to loss of airplane control during take-off, landing, and taxiing operations.

(f) Compliance

Comply with this AD within the compliance times specified, unless already done.

(g) Required Actions

Except as specified in paragraphs (h) and (i) of this AD: Comply with all required actions and compliance times specified in, and in accordance with, European Union Aviation Safety Agency (EASA) AD 2023–0184, dated October 19, 2023 (EASA AD 2023–0184).

(h) Exceptions to EASA AD 2023–0184

(1) Where EASA AD 2023–0184 refers to its effective date, this AD requires using the effective date of this AD.

(2) This AD does not adopt the requirements specified in paragraphs (1), (2), (4), and (5) of EASA AD 2023–0184.

(3) Where paragraph (3) of EASA AD 2023–0184 specifies ''Within 12 months after the effective date of this AD, revise the AMP,'' replace that text with ''Within 30 days after the effective date of this AD, revise the airworthiness limitations section of your existing airplane maintenance manual or instructions for continued airworthiness and your existing approved maintenance or inspection program, as applicable.''

(4) The initial compliance time for doing the tasks specified in paragraph (3) of EASA AD 2023–0184 is on or before the applicable ''limitations'' and ''associated thresholds'' as incorporated by the requirements of paragraph (3) of EASA AD 2023–0184 or within 30 days after the effective date of this AD, whichever occurs later.

(5) This AD does not adopt the ''Remarks'' section of EASA AD 2023–0184.

(i) Provisions for Alternative Actions and Intervals

No alternative actions and associated thresholds and intervals, including life limits, are allowed for compliance with paragraph (g) of this AD unless they are approved as specified in the provisions of the ''Ref. Publications'' section of EASA AD 2023–0184.

(j) Alternative Methods of Compliance (AMOCs)

The Manager, International Validation Branch, FAA, has the authority to approve AMOCs for this AD, if requested using the procedures found in 14 CFR 39.19. In accordance with 14 CFR 39.19, send your request to your principal inspector or local Flight Standards District Office, as appropriate. If sending information directly to the International Validation Branch, send it to the attention of the person identified in paragraph (k) of this AD or email to: *9-AVS-AIR-730-AMOC@faa.gov.* If mailing information, also submit information by email. Before using any approved AMOC,

notify your appropriate principal inspector, or lacking a principal inspector, the manager of the responsible Flight Standards Office/certificate holding district office.

(k) Additional Information

For more information about this AD, contact Doug Rudolph, Aviation Safety Engineer, FAA, 1600 Stewart Avenue, Suite 410, Westbury, NY 11590; phone: (816) 329–4059; email: *doug.rudolph@faa.gov.*

(l) Material Incorporated by Reference

(1) The Director of the Federal Register approved the incorporation by reference (IBR) of the service information listed in this paragraph under 5 U.S.C. 552(a) and 1 CFR part 51.

(2) You must use this service information as applicable to do the actions required by this AD, unless the AD specifies otherwise.

(i) European Union Aviation Safety Agency (EASA) AD 2023–0184, dated October 19, 2023.

(ii) [Reserved]

(3) For EASA AD 2023–0184, contact EASA, Konrad-Adenauer-Ufer 3, 50668 Cologne, Germany; phone: +49 221 8999 000; email: *ADs@easa.europa.eu;* website: *easa.europa.eu.* You may find this EASA AD on the EASA website at *ad.easa.europa.eu.*

(4) You may view this material at the FAA, Airworthiness Products Section, Operational Safety Branch, 901 Locust, Kansas City, MO 64106. For information on the availability of this material at the FAA, call (817) 222–5110.

(5) You may view this material at the National Archives and Records Administration (NARA). For information on the availability of this material at NARA, visit *www.archives.gov/federal-register/cfr/ibr-locations* or email *fr.inspection@nara.gov.*

Issued on April 17, 2024.

Victor Wicklund,

Deputy Director, Compliance & Airworthiness Division, Aircraft Certification Service.

Airworthiness Directives; Hamilton Sundstrand Corporation Propellers

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: The FAA is adopting a new airworthiness directive (AD) for all Hamilton Sundstrand Corporation (Hamilton Sundstrand) Model 14SF–7, 14SF–15, and 14SF–23 propellers. This AD was prompted by a report of an auxiliary motor and pump failing to feather a propeller in flight. This AD requires replacing a certain auxiliary motor and pump. This AD also prohibits installation of a certain auxiliary motor and pump. The FAA is issuing this AD to address the unsafe condition on these products.

DATES: This AD is effective June 3, 2024.

The Director of the Federal Register approved the incorporation by reference of a certain publication listed in this AD as of June 3, 2024.

ADDRESSES:

AD Docket: You may examine the AD docket at *regulations.gov* under Docket No. FAA–2023–1820; or in person at Docket Operations between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays. The AD docket contains this final rule, any comments received, and other information. The address for Docket Operations is U.S. Department of Transportation, Docket Operations, M–30, West Building Ground Floor, Room W12–140, 1200 New Jersey Avenue SE, Washington, DC 20590.

Material Incorporated by Reference:

- For service information identified in this final rule, contact Hamilton Sundstrand, One Hamilton Road, Windsor Locks, CT 06096–1010, phone: (877) 808–7575; email: *CRC@collins.com.*
- You may view this service information at the FAA, Airworthiness Products Section, Operational Safety Branch, 1200 District Avenue, Burlington, MA 01803. For information on the availability of this material at the FAA, call (817) 222–5110. It is also available at *regulations.gov* under Docket No. FAA–2023–1820.

FOR FURTHER INFORMATION CONTACT: Isabel Saltzman, Aviation Safety Engineer, FAA, 1701 Columbia Avenue, College Park, GA 30337; phone: (781) 238–7649; email: *9-AVS-AIR-BACO-COS@faa.gov.*

SUPPLEMENTARY INFORMATION:

Background

The FAA issued a notice of proposed rulemaking (NPRM) to amend 14 CFR part 39 by adding an AD that would apply to all Hamilton Sundstrand Corporation (Hamilton Sundstrand) Model 14SF–7, 14SF–15, and 14SF–23 propellers. The NPRM published in the **Federal Register** on September 7, 2023 (88 FR 61480). The NPRM was prompted by a report of an auxiliary motor and pump installed on a non-Hamilton Sundstrand propeller failing to feather the propeller in flight through either the primary or the backup means. The failure was caused by motor magnets in the auxiliary motor and pump that were de-bonded due to corrosion at the magnet and housing interface. The de-bonded motor magnets prevented motor rotation. Hamilton Sundstrand Model 14SF–7, 14SF–15, and 14SF–23 propellers use the same auxiliary motor and pump. These propellers are installed on, but not limited to, De Havilland Aircraft of Canada Limited (Type Certificate previously held by Bombardier Inc.) Model DHC–8–100 series, DHC–8–200 series, and DHC–8–300 series airplanes. This condition, if not addressed, could result in reduced controllability of the aircraft and consequent loss of control of the aircraft.

In the NPRM, the FAA proposed to require the removal from service of an auxiliary motor and pump having part number (P/N) 782655–3 (Aerocontrolex P/N 4122–006009) and replacement with an auxiliary motor and pump having P/N 782655–4 (Aerocontrolex P/N 4122–056000). In the NPRM, the FAA also proposed to prohibit the installation of an auxiliary motor and pump having P/N 782655–3 (Aerocontrolex P/N 4122–006009) on any propeller. The FAA is issuing this AD to address the unsafe condition on these products.

Discussion of Final Airworthiness Directive

Comments

The FAA received comments from three commenters. The commenters were Collins Aerospace, Sierra Nevada Corporation, and an individual. Sierra Nevada Corporation noted that the AD does not apply to its fleet and had no objection to the NPRM. Two commenters, Collins Aerospace and an individual, recommended certain changes. The following presents the comments received on the NPRM and the FAA's response.

Request To Clarify the Use of ''Any Propeller'' in the NPRM

Two commenters, Collins Aerospace and an individual, observed that the use of the phrase ''any propeller'' in the NPRM causes confusion. The commenters noted that the phrase ''any propeller'' appears three times in the subject NPRM. Collins Aerospace stated that this use of ''any propeller'' language has caused some confusion related to AD 2023–16–06 [Amendment 39–22525 (88 FR 63513, September 15, 2023)]. An individual also observed that the use of the word ''also'' in the sentence, ''This AD also prohibits installation of a certain auxiliary motor and pump on any propeller,'' in the Summary section

of the proposed rule indicates or implies the prohibition is for other propellers in addition to what is identified in the applicability. The commenters requested that the FAA remove the phrase ''any propeller'' from all preamble and regulatory text regarding an installation prohibition in the AD. The commenters also requested that the FAA write the prohibition to show that it only pertains to the propeller models listed in this AD.

The FAA agrees to clarify regarding the use of the phrase ''any propeller'' and whether the prohibition only applies to the propeller models list in the AD. For clarification, all of the requirements of an AD can apply only to the propellers listed in the applicability. To eliminate any confusion, however, the FAA revised paragraph (h) of this final rule, Installation Prohibition, to specify that the installation prohibition applies to any propeller identified in paragraph (c) of this AD.

Conclusion

The FAA reviewed the relevant data, considered any comments received, and determined that air safety requires adopting this AD as proposed. Accordingly, the FAA is issuing this AD to address the unsafe condition on these products. Except for minor editorial changes, and any other changes described previously, this AD is adopted as proposed in the NPRM. None of the changes will increase the economic burden on any operator.

Related Service Information Under 1 CFR Part 51

The FAA reviewed Hamilton Sundstrand Service Bulletin (SB) 14SF–61–168, Revision 1, dated December 21, 2016. This service information specifies instructions for replacing the auxiliary motor and pump. Hamilton Sundstrand Corporation is a UTC Aerospace Systems Company. This service information is identified as both Hamilton Sundstrand Corporation and UTC Aerospace Systems. This service information is reasonably available because the interested parties have access to it through their normal course of business or by the means identified in **ADDRESSES**.

Costs of Compliance

The FAA estimates that this AD affects 180 propellers installed on airplanes of U.S. registry.

The FAA estimates the following costs to comply with this AD:

ESTIMATED COSTS

Action	Labor cost	Parts cost	Cost per product	Cost on U.S. operators
Replace auxiliary motor and pump	2 work-hours × $85 per hour = $170	$11,000	$11,170	$2,010,600
Perform post-installation system test	1 work-hour × $85 per hour = $85	0	85	15,300

Authority for This Rulemaking

Title 49 of the United States Code specifies the FAA's authority to issue rules on aviation safety. Subtitle I, section 106, describes the authority of the FAA Administrator. Subtitle VII: Aviation Programs, describes in more detail the scope of the Agency's authority.

The FAA is issuing this rulemaking under the authority described in Subtitle VII, Part A, Subpart III, Section 44701: General requirements. Under that section, Congress charges the FAA with promoting safe flight of civil aircraft in air commerce by prescribing regulations for practices, methods, and procedures the Administrator finds necessary for safety in air commerce. This regulation is within the scope of that authority because it addresses an unsafe condition that is likely to exist or develop on products identified in this rulemaking action.

Regulatory Findings

This AD will not have federalism implications under Executive Order 13132. This AD will not have a substantial direct effect on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government.

For the reasons discussed above, I certify that this AD:

(1) Is not a ''significant regulatory action'' under Executive Order 12866,

(2) Will not affect intrastate aviation in Alaska, and

(3) Will not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 39

Air transportation, Aircraft, Aviation safety, Incorporation by reference, Safety.

The Amendment

Accordingly, under the authority delegated to me by the Administrator, the FAA amends 14 CFR part 39 as follows:

PART 39—AIRWORTHINESS DIRECTIVES

■ 1. The authority citation for part 39 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40113, 44701.

§ 39.13 [Amended]

■ 2. The FAA amends § 39.13 by adding the following new airworthiness directive:

2024–07–01 Hamilton Sundstrand Corporation: Amendment 39–22721; Docket No. FAA–2023–1820; Project Identifier AD–2023–00510–P.

(a) Effective Date

This airworthiness directive (AD) is effective June 3, 2024.

(b) Affected ADs

None.

(c) Applicability

This AD applies to Hamilton Sundstrand Corporation (Hamilton Sundstrand) Model 14SF–7, 14SF–15, and 14SF–23 propellers.

Note 1 to paragraph (c): These propellers are known to be installed on, but not limited to, De Havilland Aircraft of Canada Limited (Type Certificate previously held by Bombardier Inc.) Model DHC–8–100 series, DHC–8–200 series, and DHC–8–300 series airplanes.

(d) Subject

Joint Aircraft System Component (JASC) Code 6123, Propeller Feathering/Reversing.

(e) Unsafe Condition

This AD was prompted by a report of an auxiliary motor and pump failing to feather a propeller in flight. The FAA is issuing this AD to prevent the failure of a certain auxiliary motor and pump to feather propellers. The unsafe condition, if not addressed, could result in reduced controllability of the aircraft and consequent loss of control of the aircraft.

(f) Compliance

Comply with this AD within the compliance times specified, unless already done.

(g) Required Actions

(1) Within 30 months after the effective date of this AD, remove from service an auxiliary motor and pump having part number (P/N) 782655–3 (Aerocontrolex P/N 4122–006009) and replace with an auxiliary motor and pump having P/N 782655–4 (Aerocontrolex P/N 4122–056000) in accordance with the Accomplishment Instructions, paragraphs 3.B., 3.C., and 3.E. of Hamilton Sundstrand Service Bulletin (SB) 14SF–61–168, Revision 1, dated December 21, 2016 (Hamilton Sundstrand SB 14SF–61–168, Revision 1).

(2) After replacement of the auxiliary motor and pump, perform a post-installation system test in accordance with the Accomplishment Instructions, paragraph 3.F. of Hamilton Sundstrand SB 14SF–61–168, Revision 1.

(h) Installation Prohibition

After the effective date of this AD, do not install an auxiliary motor and pump having P/N 782655–3 (Aerocontrolex P/N 4122–006009) on any propeller identified in paragraph (c) of this AD.

(i) No Return of Parts

Where the service information referenced in the Accomplishment Instructions, paragraph 3.B. of Hamilton Sundstrand SB 14SF–61–168, Revision 1, specifies returning certain parts to the manufacturer for modification, this AD does not include that requirement.

(j) Credit for Previous Actions

You may take credit for the actions required by paragraph (g) of this AD if you performed those actions before the effective date of this AD using Hamilton Sundstrand SB 14SF–61–168, Original Issue, dated December 14, 2016.

(k) Alternative Methods of Compliance (AMOCs)

(1) The Manager, East Certification Branch, FAA, has the authority to approve AMOCs for this AD, if requested using the procedures found in 14 CFR 39.19. In accordance with 14 CFR 39.19, send your request to your principal inspector or local Flight Standards District Office, as appropriate. If sending information directly to the manager of the branch office, send it to the attention of the person identified in paragraph (l)(1) of this AD. Information may be emailed to: *9-AVS-AIR-BACO-COS@faa.gov.*

(2) Before using any approved AMOC, notify your appropriate principal inspector, or lacking a principal inspector, the manager of the local flight standards district office/certificate holding district office.

(l) Additional Information

(1) For more information about this AD, contact Isabel Saltzman, Aviation Safety Engineer, FAA, 1701 Columbia Avenue, College Park, GA 30337; phone: (781) 238–7649; email: *9-AVS-AIR-BACO-COS@faa.gov*.

(2) Service information identified in this AD that is not incorporated by reference is available at the addresses specified in paragraphs (m)(3) and (4) of this AD.

(m) Material Incorporated by Reference

(1) The Director of the Federal Register approved the incorporation by reference (IBR) of the service information listed in this paragraph under 5 U.S.C. 552(a) and 1 CFR part 51.

(2) You must use this service information as applicable to do the actions required by this AD, unless the AD specifies otherwise.

(i) Hamilton Sundstrand Corporation Service Bulletin 14SF–61–168, Revision 1, dated December 21, 2016.

Note 2 to paragraph (m)(2)(i): Hamilton Sundstrand Corporation is a UTC Aerospace Systems Company. This service information is identified as both Hamilton Sundstrand Corporation and UTC Aerospace Systems.

(ii) [Reserved]

(3) For service information identified in this AD, contact Hamilton Sundstrand, One Hamilton Road, Windsor Locks, CT 06096–1010, phone: (877) 808–7575; email: *CRC@collins.com.*

(4) You may view this service information at FAA, Airworthiness Products Section, Operational Safety Branch, 1200 District Avenue, Burlington, MA 01803. For information on the availability of this material at the FAA, call (817) 222–5110.

(5) You may view this material at the National Archives and Records Administration (NARA). For information on the availability of this material at NARA, visit *www.archives.gov/federal-register/cfr/ibr-locations* or email *fr.inspection@nara.gov.*

Issued on March 26, 2024.

Victor Wicklund,

Deputy Director, Compliance & Airworthiness Division, Aircraft Certification Service.

RIN 2120–AA64

Airworthiness Directives; CFM International, S.A. Engines

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: The FAA is adopting a new airworthiness directive (AD) for certain CFM International, S.A. (CFM) Model LEAP–1A23, LEAP–1A24, LEAP–1A24E1, LEAP–1A26, LEAP–1A26CJ, LEAP–1A26E1, LEAP–1A29, LEAP–1A29CJ, LEAP–1A30, LEAP–1A32, LEAP–1A33, LEAP–1A33B2, and LEAP–1A35A engines. This AD was prompted by a report of multiple aborted takeoffs and air turn-backs (ATBs) caused by high-pressure compressor (HPC) stall, which was induced by high levels of non-synchronous vibration (NSV). Additional manufacturer investigation revealed that wear on the No. 3 bearing spring finger housing can lead to high levels of NSV. This AD requires initial and repetitive calculations of the levels of NSV, inspection of the stage 2 high-pressure turbine (HPT) nozzle assembly honeycomb and HPT stator stationary seal honeycomb and, depending on the results of the calculations and inspections, replacement of certain parts. This AD also requires replacement of certain No. 3 bearing spring finger housings at a certain time. The FAA is issuing this AD to address the unsafe condition on these products.

DATES: This AD is effective June 3, 2024.

The Director of the Federal Register approved the incorporation by reference of a certain publication listed in this AD as of June 3, 2024.

ADDRESSES:

AD Docket: You may examine the AD docket at *regulations.gov* under Docket No. FAA–2023–1991; or in person at Docket Operations between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays. The AD docket contains this final rule, any comments received, and other information. The address for Docket Operations is U.S. Department of Transportation, Docket Operations, M–30, West Building Ground Floor, Room W12–140, 1200 New Jersey Avenue SE, Washington, DC 20590.

- You may view this service information at the FAA, Airworthiness Products Section, Operational Safety Branch, 1200 District Avenue, Burlington, MA 01803. For information on the availability of this material at the FAA, call (817) 222–5110.

FOR FURTHER INFORMATION CONTACT: Mehdi Lamnyi, Aviation Safety Engineer, FAA, 2200 South 216th Street, Des Moines, WA 98198; phone: (781) 238–7743; email: *mehdi.lamnyi@faa.gov.*

SUPPLEMENTARY INFORMATION:

Background

The FAA issued a notice of proposed rulemaking (NPRM) to amend 14 CFR part 39 by adding an AD that would apply to certain CFM Model LEAP–1A23, LEAP–1A24, LEAP–1A24E1,

LEAP–1A26, LEAP–1A26CJ, LEAP–1A26E1, LEAP–1A29, LEAP–1A29CJ, LEAP–1A30, LEAP–1A32, LEAP–1A33, LEAP–1A33B2, and LEAP–1A35A engines. The NPRM published in the **Federal Register** on October 11, 2023 (88 FR 70409). The NPRM was prompted by a manufacturer's report of three aborted takeoffs and two ATBs caused by HPC stall. Additional manufacturer investigation revealed that wear on the No. 3 bearing spring finger housing can lead to high levels of NSV, which could induce HPC stall. As a result of its investigation, the manufacturer published service information that specifies procedures for addressing this situation. In the NPRM, the FAA proposed to require repetitive calculations of the levels of NSV and, depending on the results of the calculations, replacement of the No. 3 bearing spring finger housing. The FAA also proposed to require, following the removal and replacement of the No. 3 bearing spring finger housing, inspection of the stage 2 HPT nozzle assembly honeycomb and HPT stator stationary seal honeycomb for rubs and, depending on findings, replacement of the stage 2 HPT nozzle assembly honeycomb and HPT stator stationary seal. This FAA also proposed to require replacement of the No. 3 bearing spring finger housing regardless of calculated level of NSV at a certain time. The FAA is issuing this AD to address the unsafe condition on these products.

Discussion of Final Airworthiness Directive

Comments

The FAA received comments from four commenters. Commenters included the Air Line Pilots Association, International (ALPA), American Airlines (AA), Avianca Airlines (AVA), and CFM International (CFM). ALPA supported the NPRM without change. The following presents the comments received from AA, AVA, and CFM on the NPRM and the FAA's response to each comment.

Request To Allow Automated Monitoring

AA requested that the FAA allow for the use of automated condition monitoring solutions as an alternative to the accomplishment of the manual review every 125 cycles required by paragraph (g)(1) of the proposed AD. AA noted that automated monitoring solutions have already been accepted to replace previously FAA required MRB tasks, and allowing automated condition monitoring will provide a safer, more robust solution that exceeds the minimum requirements outlined in CFM Service Bulletin (SB) LEAP–1A–72–00–0504–01A–930A–D, Issue 001, dated June 14, 2023, and the NPRM.

The FAA disagrees with the commenter's request to add automated monitoring solutions as an alternative in the final rule. However, if any operator prefers to address the unsafe condition by means other than those specified in the referenced service information, they may request approval for an alternative method of compliance (AMOC) in accordance with paragraph (j) of this AD and, if approved, may use it instead of the procedures specified in the service information and the final rule. The FAA did not change this AD as a result of this comment.

Request To Include Customer Notification Report (CNR) in AD

Avianca requested that the CNR for exceedance of NSV thresholds be included in the NPRM as an additional method of compliance for all operators who have active CFM Diagnostics Monitoring. Avianca noted that under the CFM Diagnostics Program, the parameter NSV TCF Max Vibe Fleeting Event is actively monitored and if any exceedance is detected, a CNR is triggered for NSV exceedance.

The FAA disagrees with the commenter's request to add CNR for NSV thresholds exceedance as an additional method of compliance in the final rule. However, if any operator prefers to address the unsafe condition by means other than those specified in the referenced service information, they may request approval for an AMOC in accordance with paragraph (j) of this AD and, if approved, may use it instead of the procedures specified in the service information and the final rule. The FAA did not change this AD as a result of this comment.

Request To Clarify Replacement Language in Summary

CFM requested that the FAA update the Summary section of the proposed AD to read: ''This proposed AD would also require replacement of the No. 3 bearing spring finger housing having P/N 2629M62G01 and a serial number identified in Table 1 of CFM SB LEAP–1A–72–00–0504–01A–93 0A–D.'' CFM noted that the focus of the proposed AD should be on NSV monitoring and the actions required when NSV is present. CFM also noted that service bulletins LEAP–1A–72–00–0505–01A–93 0A–D, Issue 001, dated June 05, 2023, and LEAP–1A–72–00–0498–01A–93 0A–D, Issue 001, dated June 05, 2023, include the shop visit workscope recommendations for engines with potential No. 3 bearing spring finger housing wear, regardless of the signs of NSV vibrations.

The FAA partially agrees with the request. The FAA agrees to edit the Summary section of this AD to clarify that only certain No. 3 bearing spring finger housings require replacement. The FAA disagrees with the request to specify the part number and serial number of the affected parts in the Summary section of this AD because that level of specificity is not appropriate for the Summary section. The FAA acknowledges the presence of service bulletins LEAP–1A–72–00–0505–01A–93 0A–D, Issue 001, dated June 05, 2023, and LEAP–1A–72–00–0498–01A–93 0A–D, Issue 001, dated June 05, 2023, and notes that neither of those SBs are incorporated by reference in this AD.

Request To Update Proposed AD Requirements

CFM requested that the FAA update the Proposed AD Requirements in This NPRM section to read: ''This proposed AD would also require replacement of the No. 3 bearing spring finger housing having P/N 2629M62G01 and a serial number identified in Table 1 of CFM SB LEAP–1A–72–00–0504–01A–930A–D, regardless of calculated level of NSV, at a certain time.''

The FAA agrees with the requested language. However, this section is not included in the final rule. Therefore, the FAA did not change this AD as a result of this comment.

Request To Update Background and Unsafe Condition

CFM requested that the FAA update the Background and Unsafe Condition sections of the proposed AD to include that CFM experience to date has shown that NSV has led to self-recovering HPC stalls. CFM also requested to remove the following portion from paragraph (e): ''The FAA is issuing this AD to prevent HPC stall.'' CFM acknowledged that the manufacturer investigation revealed that wear on the No. 3 bearing spring finger housing can lead to high levels of NSV, which could induce HPC stall.

The FAA disagrees with the request to include information regarding self-recovering HPC stalls in this AD. The FAA also disagrees with the requested change to paragraph (e) of this AD. The FAA notes that the field experience to date does not provide conclusive evidence that NSV-induced HPC stalls will always be self-recovering. The FAA did not change this AD as a result of this comment.

Request To Update Interim Action

CFM requested that the FAA update the Interim Action section of the proposed AD to reflect that this AD is the closing action of paragraph (e) Unsafe Condition of the proposed AD and although there are additional hardware modifications that are being developed by the design approval holder, those modifications are not necessary to address the unsafe condition.

The FAA disagrees with this request. Although at this time the required actions of this AD address the unsafe condition, additional hardware modifications, when developed and FAA-approved, could also address the unsafe condition for the long-term. Therefore, the FAA considers that the monitoring and corresponding actions required by this AD would be an interim action to address the unsafe condition, and the FAA may consider additional rulemaking on this subject. The FAA did not change this AD as a result of this comment.

Request To Update Service Information Incorporated by Reference

CFM requested that the FAA change the SB referenced in the NPRM from ''LEAP–1A–72–00–0504–01A–930A–D, Issue 001, dated June 14, 2023'' to ''LEAP–1A–72–00–0504–01A–930A–D, Issue 002, dated October 17, 2023.'' CFM noted that SB LEAP–1A–72–00–0504–01A–930A–D, Issue 002, dated October 17, 2023, contains the following revisions that are pertinent to the NPRM;

(1) A note that NSV monitoring can be performed on-wing.

(2) Correction to data labels used in the alternative procedure for NSV Monitoring with ACMS Takeoff Reports.

(3) Correction to vibration units used in the alternative procedure for NSV Monitoring with ACMS Takeoff Reports.

The FAA agrees and has updated the service information incorporated by reference from ''LEAP–1A–72–00–0504–01A–930A–D, Issue 001, dated June 14, 2023'' to ''LEAP–1A–72–00–0504–01A–930A–D, Issue 002, dated October 17, 2023.'' Requiring this updated service bulletin does not increase the scope of the AD or increase the burden on any operator over that already proposed in the NPRM.

Request To Remove ''At the Next Piece-part Exposure'' From Required Actions

CFM requested that the FAA remove the reference to ''At the next piece-part exposure'' in paragraph (g)(5) of the proposed AD. CFM stated that NSV monitoring and actions required when NSV is present are the focus of the proposed AD. CFM noted that the statement related to ''At the next piece-part exposure'' was taken from SB LEAP–1A–72–00–0498–01A–930A–D, Issue 001, dated June 05, 2023, for shop visit work scope recommendations for engines with potential No. 3 bearing spring finger housing wear. CFM also noted that this is already referenced in Chapter 05 of the LEAP–1A Engine Shop Manual LEAP–1A–05–11–03–01A–0B1B–C.

The FAA disagrees with the request because the commenter did not provide an adequate justification for changing the compliance time. The FAA notes that decision to include a mandatory action to remove all affected parts at the next piece-part exposure was not taken from SB LEAP–1A–72–00–0498–01A–930A–D, Issue 001, dated June 05, 2023. The FAA did not change this AD as a result of this comment.

Request To Add Credit for Previous Actions

CFM requested that the FAA add the following language to the NPRM to allow customers to take credit for NSV monitoring that was performed prior to the effective date of the proposed AD, in accordance with section 5.A of SB LEAP–1A–72–00–0504–01A–930A–D, Issue 001, dated June 14, 2023; ''Evaluation of the NSV of an engine, accomplished before the effective date of this AD in accordance with the instructions of section 5.A of SB LEAP–1A–72–00–0504–01A–930A–D original issue (Issue 001) and, as applicable, accomplishment of corrective actions in accordance with the instructions of SB LEAP–1A–72–00–0504–01A–930A–D original issue (Issue 001) are acceptable to comply with the requirements of paragraphs (1) and (2), as applicable, of this AD for that engine (see Note 1 of this AD). Note 1: Evaluation of the NSV of an engine, accomplished in accordance with the instructions of section 5.B ('Alternative Procedure—NSV Monitoring with ACMS Takeoff Reports') of SB LEAP–1A–72–00–0504–01A–930A–D original issue (Issue 001) is not acceptable to comply with the requirements of paragraphs (1) of this AD.''

The FAA disagrees with the request because the FAA does not believe it is necessary to provide such credit because NSV monitoring is required initially at 125 flight cycles after the effective date of the AD and repetitively at intervals of 125 flight cycles. Therefore, there would be no advantage of taking credit for NSV monitoring done before the effective date of this AD. Once the NSV data calculation exceeds the specified limits, then the affected No. 3 bearing spring finger housing must be removed from the engine and replaced with a part eligible for installation, and the AD applicability no longer applies to that engine. The FAA did not change this AD as a result of this comment.

Request To Update Compliance Time for Removal From Service

CFM requested that the FAA change compliance time language in paragraph (g)(2) of the proposed AD from, ''within 150 FCs of performing the calculation'' to ''within 150 FCs of the flight when this threshold is exceeded.'' CFM noted that there is a discrepancy in the removal compliance time language between the NPRM and CFM SB LEAP–1A–72–00–0504–01A–930A–D if NSV data exceeds the limits listed in CFM SB LEAP–1A–72–00–0504–01A–930A–D.

The FAA agrees to update the language in paragraph (g)(2) of this AD from, ''within 150 FCs of performing the calculation'' to ''within 150 FCs of the flight when these limits are exceeded.''

Conclusion

The FAA reviewed the relevant data, considered any comments received, and determined that air safety requires adopting this AD as proposed. Accordingly, the FAA is issuing this AD to address the unsafe condition on these products. Except for minor editorial changes, and any other changes described previously, this AD is adopted as proposed in the NPRM. None of the changes will increase the economic burden on any operator.

Related Service Information Under 1 CFR Part 51

The FAA reviewed CFM SB LEAP–1A–72–00–0504–01A–930A–D, Issue 002, dated October 17, 2023. This service information identifies affected No. 3 bearing spring finger housings and specifies procedures for monitoring NSV during engine operation. This service information also specifies procedures for replacing the No. 3 bearing spring finger housings, inspecting the stage 2 HPT nozzle assembly honeycomb and HPT stator stationary seal honeycomb, and replacing the stage 2 HPT nozzle assembly honeycomb and HPT stator stationary seal. This service information is reasonably available because the interested parties have access to it through their normal course of business or by the means identified in the **ADDRESSES** section.

Interim Action

The FAA considers this AD to be an interim action. This unsafe condition is still under investigation by the manufacturer and, depending on the results of that investigation, the FAA may consider further rulemaking action.

Costs of Compliance

The FAA estimates that this AD affects 48 engines installed on airplanes of U.S. registry. The FAA estimates that 33 engines installed on airplanes of U.S. registry require replacement of the No. 3 bearing spring finger housing.

The FAA estimates the following costs to comply with this AD:

ESTIMATED COSTS

Action	Labor cost	Parts cost	Cost per product	Cost on U.S. operators
Calculate NSV data	1 work-hours × $85 per hour = $85	$0	$85	$4,080
Replace No. 3 bearing spring finger housing	17 work-hours × $85 per hour = $1,445	64,590	66,035	2,179,155

The FAA estimates the following costs to do any necessary replacement and inspection that would be required based on the results of the calculation. The agency has no way of determining the number of aircraft that might need these replacements and inspections:

ON-CONDITION COSTS

Action	Labor cost	Parts cost	Cost per product
Inspect stage 2 HPT nozzle assembly honeycomb and HPT stator stationary seal honeycomb.	4 work-hours × $85 per hour = $340	$0	$340
Replace stage 2 HPT nozzle assembly honeycomb	8 work-hours × $85 per hour = $680	58,536	59,216
Replace HPT stator stationary seal	8 work-hours × $85 per hour = $680	6,855	7,535

Authority for This Rulemaking

Title 49 of the United States Code specifies the FAA's authority to issue rules on aviation safety. Subtitle I, section 106, describes the authority of the FAA Administrator. Subtitle VII: Aviation Programs, describes in more detail the scope of the Agency's authority.

The FAA is issuing this rulemaking under the authority described in Subtitle VII, Part A, Subpart III, Section 44701: General requirements. Under that section, Congress charges the FAA with promoting safe flight of civil aircraft in air commerce by prescribing regulations for practices, methods, and procedures the Administrator finds necessary for safety in air commerce. This regulation is within the scope of that authority because it addresses an unsafe condition that is likely to exist or develop on products identified in this rulemaking action.

Regulatory Findings

This AD will not have federalism implications under Executive Order 13132. This AD will not have a substantial direct effect on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government.

For the reasons discussed above, I certify that this AD:

(1) Is not a ''significant regulatory action'' under Executive Order 12866,

(2) Will not affect intrastate aviation in Alaska, and

(3) Will not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 39

Air transportation, Aircraft, Aviation safety, Incorporation by reference, Safety.

The Amendment

Accordingly, under the authority delegated to me by the Administrator, the FAA amends 14 CFR part 39 as follows:

PART 39—AIRWORTHINESS DIRECTIVES

■ 1. The authority citation for part 39 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40113, 44701.

§ 39.13 [Amended]

■ 2. The FAA amends § 39.13 by adding the following new airworthiness directive:

2024–07–06 CFM International, S.A.: Amendment 39–22727; Docket No. FAA–2023–1991; Project Identifier AD–2023–00700–E.

(a) Effective Date

This airworthiness directive (AD) is effective June 3, 2024.

(b) Affected ADs

None.

(c) Applicability

This AD applies to CFM International, S.A. (CFM) Model LEAP–1A23, LEAP–1A24, LEAP–1A24E1, LEAP–1A26, LEAP–1A26CJ, LEAP–1A26E1, LEAP–1A29, LEAP–1A29CJ, LEAP–1A30, LEAP–1A32, LEAP–1A33, LEAP–1A33B2, and LEAP–1A35A engines with an installed No. 3 bearing spring finger housing having part number (P/N) 2629M62G01 and a serial number identified in Table 1 or Table 2 of CFM Service Bulletin (SB) LEAP–1A–72–00–0504–01A–930A–D, Issue 002, dated October 17, 2023 (CFM SB LEAP–1A–72–00–0504–01A–930A–D, Issue 002).

(d) Subject

Joint Aircraft System Component (JASC) Code 7230, Turbine Engine Compressor Section.

(e) Unsafe Condition

This AD was prompted by a report of multiple aborted takeoffs and air turn-backs caused by high-pressure compressor (HPC) stall, which was induced by high levels of non-synchronous vibration (NSV), and an additional manufacturer investigation that revealed wear on the No. 3 bearing spring finger housing. The FAA is issuing this AD to prevent HPC stall. The unsafe condition, if not addressed, could result in engine power loss at a critical phase of flight such as takeoff or climb, loss of engine thrust control, reduced controllability of the airplane, and loss of the airplane.

(f) Compliance

Comply with this AD within the compliance times specified, unless already done.

(g) Required Actions

(1) Within 125 flight cycles (FCs) after the effective date of this AD and thereafter at intervals not to exceed 125 FCs, calculate the NSV data in accordance with the Accomplishment Instructions, paragraphs 5.A.(1) and 5.A.(3), or 5.B.(1) and 5.B.(3) of CFM SB LEAP–1A–72–00–0504–01A–930A–D, Issue 002.

(2) If, during any calculation required by paragraph (g)(1) of this AD, the NSV data exceeds the limits specified in the Accomplishment Instructions, paragraph 5.A.(4)(a)1 or 5.B.(4)(a)1 of CFM SB LEAP–1A–72–00–0504–01A–930A–D, Issue 002, discontinue the calculations required by paragraph (g)(1) of this AD and within 150 FCs of the flight when these limits are exceeded:

(i) Remove from service the No. 3 bearing spring finger housing having P/N 2629M62G01 and a serial number identified in Table 1 or Table 2 of CFM SB LEAP–1A–72–00–0504–01A–930A–D, Issue 002, and replace with a part eligible for installation.

(ii) Inspect the stage 2 high-pressure turbine (HPT) nozzle assembly honeycomb for rubs in accordance with the Accomplishment Instructions, paragraphs 5.A.(4)(a)3b1) or 5.B.(4)(a)3b1) of CFM SB LEAP–1A–72–00–0504–01A–930A–D, Issue 002.

(iii) Inspect the HPT stator stationary seal honeycomb for rubs in accordance with the Accomplishment Instructions, paragraphs 5.A.(4)(a)3b2) or 5.B.(4)(a)3b2) of CFM SB LEAP–1A–72–00–0504–01A–930A–D, Issue 002.

(3) If, during the inspection required by paragraph (g)(2)(ii) of this AD, the stage 2 HPT nozzle assembly honeycomb fails to meet the serviceability criteria referenced in the Accomplishment Instructions, paragraphs 5.A.(4)(a)3b1) or 5.B.(4)(a)3b1) of CFM SB LEAP–1A–72–00–0504–01A–930A–D, Issue 002, before further flight, replace the stage 2 HPT nozzle assembly honeycomb.

(4) If, during the inspection required by paragraph (g)(2)(iii) of this AD, the HPT stator stationary seal honeycomb fails to meet the serviceability criteria referenced in the Accomplishment Instructions, paragraphs 5.A.(4)(a)3b2) or 5.B.(4)(a)3b2) of CFM SB LEAP–1A–72–00–0504–01A–930A–D, Issue 002, before further flight, replace the HPT stator stationary seal.

(5) At the next piece-part exposure after the effective date of this AD, but before exceeding 9,900 cycles since new, replace the No. 3 bearing spring finger housing having P/N 2629M62G01 and a serial number identified in Table 1 of CFM SB LEAP–1A–72–00–0504–01A–930A–D, Issue 002, with a part eligible for installation.

(h) Terminating Action

Replacement of the No. 3 bearing spring finger housing having P/N 2629M62G01 and a serial number identified in Table 1 or Table 2 of CFM SB LEAP–1A–72–00–0504–01A–930A–D, Issue 002 with a part eligible for installation, as specified in paragraphs (g)(2)(i) and (g)(5) of this AD, constitutes terminating action for the calculations required by paragraph (g)(1) of this AD.

(i) Definition

For the purpose of this AD, a ''part eligible for installation'' is a No. 3 bearing spring finger housing that does not have P/N 2629M62G01 and a serial number identified in Table 1 or Table 2 of CFM SB LEAP–1A–72–00–0504–01A–930A–D, Issue 002.

(j) Alternative Methods of Compliance (AMOCs)

(1) The Manager, AIR–520 Continued Operational Safety Branch, FAA, has the authority to approve AMOCs for this AD, if requested using the procedures found in 14 CFR 39.19. In accordance with 14 CFR 39.19, send your request to your principal inspector or local Flight Standards District Office, as appropriate. If sending information directly to the Manager, AIR–520 Continued Operational Safety Branch, send it to the attention of the person identified in paragraph (k) of this AD and email it to: *ANE-AD-AMOC@faa.gov.*

(2) Before using any approved AMOC, notify your appropriate principal inspector, or lacking a principal inspector, the manager of the local flight standards district office/certificate holding district office.

(3) For service information that contains steps that are labeled as Required for Compliance (RC), the following provisions apply.

(i) The steps labeled as RC, including substeps under an RC step and any figures identified in an RC step, that are required by paragraph (g) of this AD must be done to comply with this AD. An AMOC is required for any deviations to RC steps required by paragraph (g) of this AD, including substeps and identified figures.

(ii) Steps not labeled as RC may be deviated from using accepted methods in accordance with the operator's maintenance or inspection program without obtaining approval of an AMOC, provided the RC steps, including substeps and identified figures, can still be done as specified, and the airplane can be put back in an airworthy condition.

(k) Additional Information

For more information about this AD, Mehdi Lamnyi, Aviation Safety Engineer, FAA, 2200 South 216th Street, Des Moines, WA 98198; phone: (781) 238–7743; email: *mehdi.lamnyi@faa.gov.*

(l) Material Incorporated by Reference

(1) The Director of the Federal Register approved the incorporation by reference (IBR) of the service information listed in this paragraph under 5 U.S.C. 552(a) and 1 CFR part 51.

(2) You must use this service information as applicable to do the actions required by this AD, unless the AD specifies otherwise.

(i) CFM International, S.A. Service Bulletin LEAP–1A–72–00–0504–01A–930A–D, Issue 002, dated October 17, 2023.

(ii) [Reserved]

(3) For service information, contact CFM International, S.A., GE Aviation Fleet Support, 1 Neumann Way, M/D Room 285, Cincinnati, OH 45215; phone: (877) 432–3272; email: *aviation.fleetsupport@ge.com.*

Federal Aviation Administration

14 CFR Part 39

[Docket No. FAA–2024–0771; Project Identifier AD–2023–01251–E; Amendment 39–22720; AD 2024–06–15]

RIN 2120–AA64

Airworthiness Directives; General Electric Company Engines

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule; request for comments.

SUMMARY: The FAA is adopting a new airworthiness directive (AD) for certain General Electric Company (GE) Model GE90–110B1 and GE90–115B engines. This AD was prompted by a report of an aborted takeoff due to left engine failure caused by liberation of the interstage high-pressure turbine (HPT) rotor seal rim. This AD requires repetitive ultrasonic inspections (USIs) of the interstage HPT rotor seal for cracks and removal from service if necessary. As a mandatory terminating action to the repetitive USIs of the interstage HPT rotor seal, this AD also requires replacement of the interstage HPT rotor seal. The FAA is issuing this AD to address the unsafe condition on these products.

DATES: This AD is effective May 14, 2024.

The Director of the Federal Register approved the incorporation by reference of a certain publication listed in this AD as of May 14, 2024.

The FAA must receive comments on this AD by June 13, 2024.

ADDRESSES: You may send comments, using the procedures found in 14 CFR

11.43 and 11.45, by any of the following methods:

- *Federal eRulemaking Portal:* Go to *regulations.gov.* Follow the instructions for submitting comments.
- *Fax:* (202) 493–2251.
- *Mail:* U.S. Department of Transportation, Docket Operations, M–30, West Building Ground Floor, Room W12–140, 1200 New Jersey Avenue SE, Washington, DC 20590.
- *Hand Delivery:* Deliver to Mail address above between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

AD Docket: You may examine the AD docket at *regulations.gov* under Docket No. FAA–2024–0771; or in person at Docket Operations between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays. The AD docket contains this final rule, any comments received, and other information. The street address for Docket Operations is listed above.

Material Incorporated by Reference:

- For service information identified in this final rule, contact General Electric Company, 1 Neumann Way, Cincinnati, OH 45215; phone: (513) 552–3272; email: *aviation.fleetsupport@ae.ge.com;* website: *ge.com.*
- You may view this service information at the FAA, Airworthiness Products Section, Operational Safety Branch, 1200 District Avenue, Burlington, MA 01803. For information on the availability of this material at the FAA, call (817) 222–5110. It is also available at *regulations.gov* under Docket No. FAA–2024–0771.

FOR FURTHER INFORMATION CONTACT: Alexander Thickstun, Aviation Safety Engineer, FAA, 2200 South 216th Street, Des Moines, WA 98198; phone: (202) 267–8292; email: *alexander.m.thickstun@faa.gov*.

SUPPLEMENTARY INFORMATION:

Comments Invited

The FAA invites you to send any written data, views, or arguments about this final rule. Send your comments to an address listed under **ADDRESSES**. Include ''FAA–2024–0771 Project Identifier AD–2023–01251–E'' at the beginning of your comments. The most helpful comments reference a specific portion of the final rule, explain the reason for any recommended change, and include supporting data. The FAA will consider all comments received by the closing date and may amend this final rule because of those comments.

Except for Confidential Business Information (CBI) as described in the following paragraph, and other information as described in 14 CFR 11.35, the FAA will post all comments received, without change, to *regulations.gov*, including any personal information you provide. The agency will also post a report summarizing each substantive verbal contact received about this final rule.

Confidential Business Information

CBI is commercial or financial information that is both customarily and actually treated as private by its owner. Under the Freedom of Information Act (FOIA) (5 U.S.C. 552), CBI is exempt from public disclosure. If your comments responsive to this AD contain commercial or financial information that is customarily treated as private, that you actually treat as private, and that is relevant or responsive to this AD, it is important that you clearly designate the submitted comments as CBI. Please mark each page of your submission containing CBI as ''PROPIN.'' The FAA will treat such marked submissions as confidential under the FOIA, and they will not be placed in the public docket of this AD. Submissions containing CBI should be sent to Alexander Thickstun, Aviation Safety Engineer, FAA, 2200 South 216th Street, Des Moines, WA 98198. Any commentary that the FAA receives which is not specifically designated as CBI will be placed in the public docket for this rulemaking.

Background

On October 19, 2019, a The Boeing Company Model 777 airplane, powered by GE Model GE90–115B engines, experienced an engine failure, which resulted in an aborted takeoff. A manufacturer investigation determined that the engine failure was caused by rim liberation of the interstage HPT rotor seal. Additional root cause analysis determined that rim liberation was the result of high cycle fatigue cracks initiating at the interstage seal web holes occurring from atypical intermittent operating conditions with short durations. As a result, the FAA issued Emergency AD 2019–21–51, Amendment 39–19798 (84 FR 64195, November 21, 2019) for certain GE GE90–115B model turbofan engines; Emergency AD 2020–01–55, Amendment 39–19838 (85 FR 8386, February 14, 2020) for certain GE GE90–115B model turbofan engines; and AD 2020–10–04, Amendment 39–21122 (85 FR 27909, May 12, 2020) for all GE GE90–110B1 and GE90–115B model turbofan engines with a certain interstage HPT rotor seal installed to remove affected parts from engines that had accumulated high flight cycles (FCs). Since the FAA issued those three ADs, the affected engines have continued to accumulate FCs, and the manufacturer has identified additional parts for inspection and removal. This condition, if not addressed, could result in uncontained HPT failure, release of high-energy debris, damage to the engine, damage to the airplane, and possible loss of the airplane. The FAA is issuing this AD to address the unsafe condition on these products.

FAA's Determination

The FAA is issuing this AD because the agency has determined the unsafe condition described previously is likely to exist or develop in other products of the same type design.

Related Service Information Under 1 CFR Part 51

The FAA reviewed GE GE90–100 Service Bulletin (SB) 72–0908 R00, dated July 7, 2023. The SB specifies procedures for performing a USI of the interstage HPT rotor seal. This service information is reasonably available because the interested parties have access to it through their normal course of business or by the means identified in **ADDRESSES**.

AD Requirements

This AD requires repetitive USIs of the interstage HPT rotor seal for cracks and removal from service if necessary. As a mandatory terminating action to the repetitive USIs of the interstage HPT rotor seal, this AD requires replacement of the interstage HPT rotor seal.

Interim Action

The FAA considers this AD to be an interim action. The unsafe condition is still under investigation by the manufacturer and, depending on the results of that investigation, the FAA may consider further rulemaking action.

Justification for Immediate Adoption and Determination of the Effective Date

Section 553(b)(3)(B) of the Administrative Procedure Act (APA) (5 U.S.C. 551 *et seq.*) authorizes agencies to dispense with notice and comment procedures for rules when the agency, for ''good cause,'' finds that those procedures are ''impracticable, unnecessary, or contrary to the public interest.'' Under this section, an agency, upon finding good cause, may issue a final rule without providing notice and seeking comment prior to issuance. Further, section 553(d) of the APA authorizes agencies to make rules effective in less than thirty days, upon a finding of good cause.

The FAA justifies waiving notice and comment prior to adoption of this rule because no domestic operators use this

product. It is unlikely that the FAA will receive any adverse comments or useful information about this AD from any U.S. operator. Accordingly, notice and opportunity for prior public comment are unnecessary, pursuant to 5 U.S.C. 553(b)(3)(B). In addition, for the foregoing reason(s), the FAA finds that good cause exists pursuant to 5 U.S.C. 553(d) for making this amendment effective in less than 30 days.

Regulatory Flexibility Act

The requirements of the Regulatory Flexibility Act (RFA) do not apply when an agency finds good cause pursuant to 5 U.S.C. 553 to adopt a rule without prior notice and comment. Because FAA has determined that it has good cause to adopt this rule without prior notice and comment, RFA analysis is not required.

Costs of Compliance

The FAA estimates that this AD affects 0 engines installed on airplanes of U.S. registry.

The FAA estimates the following costs to comply with this AD:

ESTIMATED COSTS

Action	Labor cost	Parts cost	Cost per product	Cost on U.S. operators
Remove interstage HPT rotor seal	100 work-hours × $85 per hour = $8,500	$540,000	$548,500	$0
Perform USI of interstage HPT rotor seal	2 work-hours × $85 per hour = $170	0	170	0

Authority for This Rulemaking

Title 49 of the United States Code specifies the FAA's authority to issue rules on aviation safety. Subtitle I, section 106, describes the authority of the FAA Administrator. Subtitle VII: Aviation Programs describes in more detail the scope of the Agency's authority.

The FAA is issuing this rulemaking under the authority described in Subtitle VII, Part A, Subpart III, Section 44701: General requirements. Under that section, Congress charges the FAA with promoting safe flight of civil aircraft in air commerce by prescribing regulations for practices, methods, and procedures the Administrator finds necessary for safety in air commerce. This regulation is within the scope of that authority because it addresses an unsafe condition that is likely to exist or develop on products identified in this rulemaking action.

Regulatory Findings

This AD will not have federalism implications under Executive Order 13132. This AD will not have a substantial direct effect on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government.

For the reasons discussed above, I certify that this AD:

(1) Is not a ''significant regulatory action'' under Executive Order 12866, and

(2) Will not affect intrastate aviation in Alaska.

List of Subjects in 14 CFR Part 39

Air transportation, Aircraft, Aviation safety, Incorporation by reference, Safety.

The Amendment

Accordingly, under the authority delegated to me by the Administrator, the FAA amends 14 CFR part 39 as follows:

PART 39—AIRWORTHINESS DIRECTIVES

■ 1. The authority citation for part 39 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40113, 44701.

§ 39.13 [Amended]

■ 2. The FAA amends § 39.13 by adding the following new airworthiness directive:

2024–06–15 General Electric Company: Amendment 39–22720; Docket No. FAA–2024–0771; Project Identifier AD–2023–01251–E.

(a) Effective Date

This airworthiness directive (AD) is effective May 14, 2024.

(b) Affected ADs

None.

(c) Applicability

This AD applies to General Electric Company (GE) Model GE90–110B1 and GE90–115B engines with an installed interstage high-pressure turbine (HPT) rotor seal having a part number and serial number listed in Table 1 or Table 2 of GE GE90–100 Service Bulletin (SB) 72–A0908 R00, dated July 7, 2023 (GE SB 72–A0908).

(d) Subject

Joint Aircraft System Component (JASC) Code 7250, Turbine Section.

(e) Unsafe Condition

This AD was prompted by a report of an aborted takeoff due to left engine failure caused by liberation of the interstage HPT rotor seal rim. The FAA is issuing this AD to prevent failure of the HPT. The unsafe condition, if not addressed, could result in uncontained HPT failure, release of high-energy debris, damage to the engine, damage to the airplane, and possible loss of the airplane.

(f) Compliance

Comply with this AD within the compliance times specified, unless already done.

(g) Required Actions

(1) Perform an ultrasonic inspection (USI) of the interstage HPT rotor seal in accordance with the Accomplishment Instructions, paragraph 3.B.(2), of GE SB 72–A0908, as follows:

(i) Perform an initial USI before reaching the part cycles since new limit listed in Table 1 or Table 2, as applicable, of GE SB 72–A0908, or within 10 flight cycles after the effective date of this AD, whichever occurs later; and

(ii) Repeat the USI thereafter within every 100 cycles or 175 cycles, as applicable, as listed in Table 1 or Table 2 of GE SB 72–A0908, since the last inspection.

(2) If, during any USI required by paragraph (g)(1)(i) or (ii) of this AD, a non-serviceable indication is found, as defined in paragraph 3.B.(2)(b) of GE SB 72–A0908, before further flight, remove the interstage HPT rotor seal from service.

(h) Mandatory Terminating Action

As a terminating action to the repetitive USI required by paragraph (g)(1)(i) or (ii) of this AD, at the next engine shop visit after the effective date of this AD, remove the affected interstage HPT rotor seal from service.

(i) Definition

For the purpose of this AD, an ''engine shop visit'' is the induction of an engine into the shop for maintenance involving the separation of pairs of major mating engine case flanges, except separation of engine flanges solely for the purposes of transportation of the engine without subsequent maintenance, which does not constitute an engine shop visit.

(j) Alternative Methods of Compliance (AMOCs)

(1) The Manager, AIR–520 Continued Operational Safety Branch, FAA, has the authority to approve AMOCs for this AD, if

requested using the procedures found in 14 CFR 39.19. In accordance with 14 CFR 39.19, send your request to your principal inspector or local Flight Standards District Office, as appropriate. If sending information directly to the manager of the AIR–520 Continued Operational Safety Branch, send it to the attention of the person identified in paragraph (k) of this AD and email to: *ANE-AD-AMOC@faa.gov.*

(2) Before using any approved AMOC, notify your appropriate principal inspector, or lacking a principal inspector, the manager of the local flight standards district office/certificate holding district office.

(k) Additional Information

For more information about this AD, contact Alexander Thickstun, Aviation Safety Engineer, FAA, 2200 South 216th Street, Des Moines, WA 98198; phone: (202) 267–8292; email: *alexander.m.thickstun@faa.gov*.

(l) Material Incorporated by Reference

(1) The Director of the Federal Register approved the incorporation by reference (IBR) of the service information listed in this paragraph under 5 U.S.C. 552(a) and 1 CFR part 51.

(2) You must use this service information as applicable to do the actions required by this AD, unless the AD specifies otherwise.

(i) General Electric Company GE90–100 Service Bulletin 72–0908 R00, dated July 7, 2023.

(ii) [Reserved]

(3) For service information identified in this AD, contact General Electric Company, 1 Newman Way, Cincinnati, OH 45215; phone: (513) 552–3272; email:*aviation.fleetsupport@ae.ge.com;* website: *ge.com.*

(4) You may view this service information at the FAA, Airworthiness Products Section, Operational Safety Branch, 1200 District Avenue, Burlington, MA 01803. For information on the availability of this material at the FAA, call (817) 222–5110.

(5) You may view this material at the National Archives and Records Administration (NARA). For information on the availability of this material at NARA, visit *www.archives.gov/federal-register/cfr/ibr-locations* or email *fr.inspection@nara.gov.*

Issued on March 25, 2024.

Victor Wicklund,

Deputy Director, Compliance & Airworthiness Division, Aircraft Certification Service.

Airworthiness Directives; Britten-Norman Aircraft, Ltd. Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: The FAA is adopting a new airworthiness directive (AD) for all Britten-Norman Aircraft, Ltd. Model BN–2, BN–2A, BN–2A–2, BN–2A–3, BN–2A–6, BN–2A–8, BN–2A–9, BN–2A–20, BN–2A–21, BN–2A–26, BN–2A–27, BN–2B–20, BN–2B–21, BN–2B–26, BN–2B27, BN–2T, BN2T–4R, and BN2T–4S airplanes; and Model BN2A MK. III, BN2A MK. III–2, and BN2A MK. III–3 airplanes. This AD is prompted by reports of electrical cable (Koiled Kord) and flight control cables interference with the control column. This AD requires inspecting for interference between the control column, rudder pedal adjuster cable, and any wiring (including the Koiled Kord) concurrently with performing a flight control full and free movement inspection, and taking corrective actions if necessary. The FAA is issuing this AD to address the unsafe condition on these products.

DATES: This AD is effective June 3, 2024.

The Director of the Federal Register approved the incorporation by reference of a certain publication listed in this AD as of June 3, 2024.

ADDRESSES:

AD Docket: You may examine the AD docket at *regulations.gov* under Docket No. FAA–2024–0044; or in person at Docket Operations between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays. The AD docket contains this final rule, the mandatory continuing airworthiness information (MCAI), any comments received, and other information. The address for Docket Operations is U.S. Department of Transportation, Docket Operations, M–30, West Building Ground Floor, Room W12–140, 1200 New Jersey Avenue SE, Washington, DC 20590.

Material Incorporated by Reference:

- For service information, contact Britten-Norman Aircraft Ltd., Bembridge Airport, Bembridge, Isle of Wight, PO35 5PR United Kingdom; phone: +44 20 3371 4000; email: *customer.support@britten-norman.com;* website: *britten-norman.com/approvals-technical-publications.*
- You may view this service information at the FAA, Airworthiness Products Section, Operational Safety Branch, 901 Locust, Kansas City, MO 64106. For information on the availability of this material at the FAA, call (817) 222–5110. It is also available at *regulations.gov* under Docket No. FAA–2024–0044.

FOR FURTHER INFORMATION CONTACT: Penelope Trease, Aviation Safety Engineer, FAA, 1600 Stewart Avenue, Suite 410, Westbury, NY 11590; phone: (303) 342–1094; email: *penelope.trease@faa.gov*.

SUPPLEMENTARY INFORMATION:

Background

The FAA issued a notice of proposed rulemaking (NPRM) to amend 14 CFR part 39 by adding an AD that would apply to all Britten-Norman Aircraft, Ltd. Model BN–2, BN–2A, BN–2A–2, BN–2A–3, BN–2A–6, BN–2A–8, BN–2A–9, BN–2A–20, BN–2A–21, BN–2A–26, BN–2A–27, BN–2B–20, BN–2B–21, BN–2B–26, BN–2B–27, BN–2T, BN2T–4R, and BN2T–4S airplanes; and Model BN2A MK. III, BN2A MK. III–2, and BN2A MK. III–3 airplanes. The NPRM published in the **Federal Register** on February 1, 2024 (89 FR 6452). The NPRM was prompted by AD G–2022–0017, dated September 20, 2022 (also referred to as the MCAI), issued by the Civil Aviation Authority (CAA), which is the aviation authority for the United Kingdom (UK). The MCAI states that there have been occurrences of flight control restriction in pitch during the pilot's full and free flight control checks prior to take-off. Investigations into these occurrences revealed interference between the routing of the Koiled Kord, flight control cables, and control column, which could restrict the full and free movement of the flight controls. An incorrectly routed Koiled Kord could snag the rudder pedal adjustment cable, draw it towards the control column tube where it could snag the aileron control stop, and restrict movement of the control column tube. This increased load on the rudder pedal adjustment cable could unlock the adjustment mechanism, permitting the rudder pedals to freely move forward and aft. One of the investigations also revealed that a correctly routed Koiled Kord was entangled with an incorrectly routed rudder pedal adjustment cable, which resulted in snagging the aileron control stop. In order to address this condition, the MCAI requires an inspection using Britten-Norman

Service Bulletin SB 398, Issue 2, dated May 30, 2022 (Britten-Norman SB 398, Issue 2), to ensure the Koiled Kord is correctly routed behind the instrument panel and that the rudder pedal adjustment cable and Koiled Kord are not interfering with each other.

In the NPRM, the FAA proposed to require inspecting for interference between the control column, rudder pedal adjuster cable, and any wiring (including the Koiled Kord) concurrently with performing a flight control full and free movement inspection, and taking corrective actions if necessary. Interference between the Koiled Kord, flight control cables, and the control column, if not addressed, could result in loss of control of the airplane during flight.

You may examine the MCAI in the AD docket at *regulations.gov* under Docket No. FAA–2024–0044.

Discussion of Final Airworthiness Directive

Comments

The FAA received a comment from an individual. The commenter supported the NPRM without change.

Conclusion

These products have been approved by the aviation authority of another country and are approved for operation in the United States. Pursuant to the FAA's bilateral agreement with this State of Design Authority, it has notified the FAA of the unsafe condition described in the MCAI referenced above. The FAA reviewed the relevant data, considered the comment received, and determined that air safety requires adopting the AD as proposed. Accordingly, the FAA is issuing this AD to address the unsafe condition on these products. This AD is adopted as proposed in the NPRM.

Related Service Information Under 1 CFR Part 51

The FAA reviewed Britten-Norman SB 398, Issue 2, which specifies procedures for inspecting the cable routing behind the instrument panel to determine if the cables and wiring to the instrument panel, wiring in the surrounding area, the rudder pedal adjuster cable, and the Koiled Kord are routed securely and there is clearance to allow full and free movement of the flight controls, and if interference is found, securely tying the cables so they are clear of the control column for its full range of motion. This service information is reasonably available because the interested parties have access to it through their normal course of business or by the means identified in **ADDRESSES**.

Differences Between This AD and the MCAI

The MCAI specifies that if any interference is found during the inspection for interference between the control column, rudder pedal adjuster cable, and any wiring (including the Koiled Kord) while performing a flight control full and free movement check, complete the operator feedback form in Appendix A of Britten-Norman SB 398, Issue 2, and return it to Britten-Norman Aircraft, Ltd. That action is not required by this AD.

Costs of Compliance

The FAA estimates that this AD affects 72 airplanes of U.S. registry.

The FAA estimates the following costs to comply with this AD:

ESTIMATED COSTS

Action	Labor cost	Parts cost	Cost per product	Cost on U.S. operators
Inspect for interference and full and free movement.	1 work-hour × $85 per hour = $85	$0	$85	$6,120

The FAA estimates the following costs to do any necessary actions that would be required based on the results of the inspection. The agency has no way of determining the number of airplanes that might need these actions:

ON-CONDITION COSTS

Action	Labor cost	Parts cost	Cost per product
Correct Koiled Kord cable routing	Up to 3 work-hours × $85 per hour = $255	$0	Up to $255.

Authority for This Rulemaking

Title 49 of the United States Code specifies the FAA's authority to issue rules on aviation safety. Subtitle I, section 106, describes the authority of the FAA Administrator. Subtitle VII: Aviation Programs, describes in more detail the scope of the Agency's authority.

The FAA is issuing this rulemaking under the authority described in Subtitle VII, Part A, Subpart III, Section 44701: General requirements. Under that section, Congress charges the FAA with promoting safe flight of civil aircraft in air commerce by prescribing regulations for practices, methods, and procedures the Administrator finds necessary for safety in air commerce. This regulation is within the scope of that authority because it addresses an unsafe condition that is likely to exist or develop on products identified in this rulemaking action.

Regulatory Findings

This AD will not have federalism implications under Executive Order 13132. This AD will not have a substantial direct effect on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government.

For the reasons discussed above, I certify that this AD:

(1) Is not a ''significant regulatory action'' under Executive Order 12866,

(2) Will not affect intrastate aviation in Alaska, and

(3) Will not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 39

Air transportation, Aircraft, Aviation safety, Incorporation by reference, Safety.

The Amendment

Accordingly, under the authority delegated to me by the Administrator, the FAA amends 14 CFR part 39 as follows:

PART 39—AIRWORTHINESS DIRECTIVES

■ 1. The authority citation for part 39 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40113, 44701.

§ 39.13 [Amended]

■ 2. The FAA amends § 39.13 by adding the following new airworthiness directive:

2024–08–03 Britten-Norman Aircraft, Ltd.: Amendment 39–22736; Docket No. FAA–2024–0044; Project Identifier MCAI–2023–00629–A.

(a) Effective Date

This airworthiness directive (AD) is effective June 3, 2024.

(b) Affected ADs

None.

(c) Applicability

This AD applies to Britten-Norman Aircraft Ltd airplanes, all serial numbers, certificated in any category, identified in paragraphs (c)(1) and (2) of this AD.

(1) Model BN–2, BN–2A, BN–2A–2, BN–2A–3, BN–2A–6, BN–2A–8, BN–2A–9, BN–2A–20, BN–2A–21, BN–2A–26, BN–2A–27, BN–2B–20, BN–2B–21, BN–2B–26, BN–2B–27, BN–2T, BN2T–4R, and BN2T–4S airplanes.

(2) Model BN2A MK. III, BN2A MK. III–2, and BN2A MK. III–3 airplanes.

(d) Subject

Joint Aircraft System Component (JASC) Code 2797, Flight Control System Wiring.

(e) Unsafe Condition

This AD was prompted by reports of electrical cable (Koiled Kord) and flight control cables interference with the control column. The FAA is issuing this AD to address interference between the Koiled Kord, flight control cables, and the control column, which could restrict the full and free movement of the flight controls. This unsafe condition, if not addressed, could result in loss of control of the airplane during flight.

(f) Compliance

Comply with this AD within the compliance times specified, unless already done.

(g) Definition

For the purposes of this AD, a Koiled Kord is the coiled electrical cable that carries the wires from switches on the control yoke, through the control column tube, to the rear of the instrument panel. It exits the control column tube behind the instrument panel and continues to a terminal block.

(h) Required Actions

(1) Within 100 hours time-in-service (TIS) after the effective date of this AD, inspect for interference between the control column, rudder pedal adjuster cable, and any other wiring, including the Koiled Kord, in accordance with Sections 6 and 7(1) of Britten-Norman Service Bulletin SB 398, Issue 2, dated May 30, 2022 (Britten-Norman SB 398, Issue 2), while concurrently performing a control column full and free movement inspection, in accordance with Section 8 of Britten-Norman SB 398, Issue 2, to inspect for free play, friction, binding, non-linear forces, and any remaining interference.

(2) If interference between the control column, the rudder pedal adjuster cable, and any other wiring, including the Koiled Kord, or any free play, friction, binding, non-linear forces, or any remaining interference was found during the inspections required by paragraph (h)(1) of this AD, before further flight, securely tie any interfering electrical cables clear of the control column for its full range of motion and perform a final full and free movement inspection in accordance with Section 8 of Britten-Norman SB 398, Issue 2, to inspect for free play, friction, binding, non-linear forces, and any remaining interference. If there is any free play, friction, binding, non-linear forces, or any remaining interference, before further flight resolve these issues in accordance with a method approved by the Manager, International Validation Branch, FAA; or the Civil Aviation Authority United Kingdom (CAA UK); or Britten-Norman Aircraft Ltd.'s CAA UK Design Organization Approval (DOA). If approved by the DOA, the approval must include the DOA-authorized signature.

(i) Alternative Methods of Compliance (AMOCs)

The Manager, International Validation Branch, FAA, has the authority to approve AMOCs for this AD, if requested using the procedures found in 14 CFR 39.19. In accordance with 14 CFR 39.19, send your request to your principal inspector or local Flight Standards District Office, as appropriate. If sending information directly to the manager of the International Validation Branch, mail it to the address identified in paragraph (j)(2) of this AD or email to: *9-AVS-AIR-730-AMOC@faa.gov.* If mailing information, also submit information by email. Before using any approved AMOC, notify your appropriate principal inspector, or lacking a principal inspector, the manager of the local Flight Standards District Office/certificate holding district office.

(j) Additional Information

(1) Refer to CAA UK AD G–2022–0017, dated September 20, 2022, for related information. This CAA UK AD may be found in the AD docket at regulations.gov under Docket No. FAA–2024–0044.

(2) For more information about this AD, contact Penelope Trease, Aviation Safety Engineer, FAA, 1600 Stewart Avenue, Suite 410, Westbury, NY 11590; phone: (303) 342–1094; email: *penelope.trease@faa.gov.*

(k) Material Incorporated by Reference

(1) The Director of the Federal Register approved the incorporation by reference of the service information listed in this paragraph under 5 U.S.C. 552(a) and 1 CFR part 51.

(2) You must use this service information as applicable to do the actions required by this AD, unless the AD specifies otherwise.

(i) Britten-Norman Service Bulletin SB 398, Issue 2, dated May 30, 2022.

(ii) [Reserved]

(3) For service information, contact Britten-Norman Aircraft Ltd., Bembridge Airport, Bembridge, Isle of Wight, PO35 5PR United Kingdom; phone: +44 20 3371 4000; email: *customer.support@britten-norman.com;* website: *britten-norman.com/approvals-technical-publications.*

Airworthiness Directives; GA 8 Airvan (Pty) Ltd Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: The FAA is superseding Airworthiness Directive (AD) 2010–18–06, which applied to all GA8 Airvan (Pty) Ltd Model GA8 and GA8–TC320 airplanes. AD 2010–18–06 required inspections and a minor design change to the forward slide of the cargo door with corrective action as necessary. Since the FAA issued AD 2010–18–06, the Civil Aviation Safety Authority (CASA), which is the aviation authority for Australia, superseded the previous CASA Australia AD to incorporate more detailed inspections and additional modifications as specified in updated

service information published by the manufacturer. This AD was prompted by reports of in-flight cargo door separation. This AD requires inspections and rework (modifications) of the cargo door with corrective action as necessary. The FAA is issuing this AD to address the unsafe condition on these products.

DATES: This AD is effective June 3, 2024.

The Director of the Federal Register approved the incorporation by reference of a certain publication listed in this AD as of June 3, 2024.

ADDRESSES:

AD Docket: You may examine the AD docket at *regulations.gov* under Docket No. FAA–2024–0035; or in person at Docket Operations between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays. The AD docket contains this final rule, the mandatory continuing airworthiness information (MCAI), any comments received, and other information. The address for Docket Operations is U.S. Department of Transportation, Docket Operations, M–30, West Building Ground Floor, Room W12–140, 1200 New Jersey Avenue SE, Washington, DC 20590.

SUPPLEMENTARY INFORMATION:

Background

The FAA issued a notice of proposed rulemaking (NPRM) to amend 14 CFR part 39 to supersede AD 2010–18–06, Amendment 39–16419 (75 FR 52253, August 25, 2010) (AD 2010–18–06). AD 2010–18–06 applied to all GA8 Airvan (Pty) Ltd Model GA8 and GA8–TC320 airplanes. AD 2010–18–06 was prompted by MCAI originated by CASA, which is the aviation authority for Australia. CASA Australia issued CASA Australia AD AD/GA8/3 Amdt 2, dated August 11, 2010 (CASA Australia AD/GA8/3 Amdt 2) to correct an unsafe condition identified as excessive wear in the forward cargo door slide, which could result in an in-flight separation of the cargo door, with possible loss of control of the airplane. CASA Australia AD AD/GA8/3 Amdt 2 was issued to require the actions in service information updated by the manufacturer to remove any ambiguities in the previous revision and provide an improved inspection method and a minor design change to the forward slide of the cargo door (inclusion of a slide backing plate, castellated nut, and split pin).

AD 2010–18–06 required doing all of Action 1 (measuring the groove width of the forward cargo door slide and if it exceeds 0.145 inch at any point along the slide, or is cracked, installing a new slider assembly) and Action 2 (inspecting wear of the forward slide of the cargo door and doing applicable corrective action steps specified in Action 1) of GippsAero Pty. Ltd. Mandatory Service Bulletin SB–GA8–2005–23, Issue 3, dated August 5, 2010. The FAA issued AD 2010–18–06 to address excessive wear in the forward cargo door slide.

The NPRM published in the **Federal Register** on January 23, 2024 (89 FR 4211). The NPRM was prompted by CASA Australia AD AD/GA8/3 amdt 3, dated August 18, 2023 (also referred to as the MCAI). The MCAI states that inspections revealed cases of excessive wear in the forward slide of the cargo door. Excessive wear in the forward slide of the cargo door may result in the cargo door separating from the airplane in flight with potentially catastrophic results. The MCAI requires accomplishing the actions specified in GippsAero Service Bulletin SB–GA8–2005–23, Issue 7, dated May 30, 2023 (GippsAero Service Bulletin SB–GA8–2005–23, Issue 7). This service bulletin includes procedures for revised inspections of the door mechanism, installing a stop on the forward slide of the cargo door and reworking the door slide to suit (accommodate) the track stop installation. Depending on the findings of the inspections, additional actions might be necessary including reworking the door mechanism pivot, upgrading the door operating rod, or fitting a door handle with an integral stop.

The FAA is issuing this AD to address excessive wear in the forward slide of the cargo door. The unsafe condition, if not addressed, could result in the cargo door separating from the airplane during flight, with potential loss of control of the airplane.

You may examine the MCAI in the AD docket at *regulations.gov* under Docket No. FAA–2024–0035.

Discussion of Final Airworthiness Directive

Comments

The FAA received no comments on the NPRM or on the determination of the costs.

Conclusion

These products have been approved by the aviation authority of another country and are approved for operation in the United States. Pursuant to the FAA's bilateral agreement with this State of Design Authority, it has notified the FAA of the unsafe condition described in the MCAI referenced above. The FAA reviewed the relevant data and determined that air safety requires adopting this AD as proposed. Accordingly, the FAA is issuing this AD to address the unsafe condition on these products. This AD is adopted as proposed in the NPRM.

Related Service Information Under 1 CFR Part 51

The FAA reviewed GippsAero Service Bulletin SB–GA8–2005–23, Issue 8, dated October 11, 2023 (GippsAero SB–GA8–2005–23, Issue 8). This service information specifies procedures for installing a backing plate on the forward slide of the cargo door; inspecting the forward slide of the cargo door for excessive wear; inspecting the cargo door latching mechanism for contact between the operating rod and door handle pivot post, inspecting the threaded studs and rod ends at both ends of the operating rod for bending, and checking the cargo door handle engagement with the catch; reworking the cargo door handle pivot post; reworking the door operating rod; inspecting the door handle to determine if an integrated stop is installed and checking for excessive play; and inspecting the center rail of the cargo door to determine if an aft stop is installed, installing an aft stop, and reworking the center rail of the cargo door to accommodate the track stop.

This service information is reasonably available because the interested parties have access to it through their normal course of business or by the means identified in **ADDRESSES**.

Differences Between This AD and the MCAI[

The MCAI applicability is Gippsland Aeronautics Model GA8 Series airplanes, all serial numbers. The applicability in this AD is GA8 Airvan (Pty) Ltd Model GA8 and GA8–TC320

airplanes because the FAA type certificate specifies GA8 Airvan (Pty) Ltd instead of Gippsland Aeronautics and specifies Model GA8 and GA8–TC320 airplanes instead of Model GA8 Series airplanes.

The MCAI requires doing the actions in Gippsland Aeronautics mandatory service bulletin SB–GA8–2005–23 Issue 7, dated May 30, 2023. This AD requires doing the actions in GippsAero SB–GA8–2005–23, Issue 8. After the MCAI was published, the manufacturer issued GippsAero SB–GA8–2005–23, Issue 8, which was revised to provide clarification regarding the actions and compliance schedule. The title page of GippsAero SB–GA8–2005–23, Issue 8, specifies GippsAero instead of Gippsland Aeronautics.

Costs of Compliance

The FAA estimates that this AD affects 61 airplanes of U.S. registry.

The FAA estimates the following costs to comply with this AD. The corresponding letter and number in parenthesis refer to the specific paragraph in GippsAero SB–GA8–2005–23, Issue 8.

ESTIMATED COSTS

Action	Labor cost	Parts cost	Cost per product	Cost on U.S. operators
Installing forward cargo door slide backing plate (A1).	0.50 work-hour × $85 per hour = $42.50.	$175	$217.50	$13,267.50.
Inspecting forward cargo door slide wear (A2).	0.25 work-hour × $85 per hour = $21.25 per inspection cycle.	0	$21.25 per inspection cycle	$1,296.25 per inspection cycle.
Inspecting cargo door latching mechanism (B1).	1 work-hour × $85 per hour = $85 per inspection cycle.	0	$85 per inspection cycle	$5,185 per inspection cycle.
Inspecting cargo door handle and inspecting for excessive play (C).	0.75 work-hour × $85 per hour = $63.75.	0	$63.75	$3,88.75.
Inspecting cargo door center rail (D1).	1 work-hour × $85 per hour = $85.	0	$85	$5,185.

The FAA estimates the following costs to do any necessary actions that would be required based on the results of the inspections. The agency has no way of determining the number of airplanes that might need these actions. The corresponding letter and number in parenthesis refer to the specific paragraph in GippsAero SB–GA8–2005–23, Issue 8.

ON-CONDITION COSTS

Action	Labor cost	Parts cost	Cost per product
Inspecting/replacing forward cargo door slide (A1, Steps 2 through 4), corrective action for (A2).	0.50 work-hour × $85 per hour = $42.50	$175	$217.50.
Reworking cargo door pivot (B2) and reworking/replacing door operating rod assembly (B3).	2 work-hours × $85 per hour = $170	630	800.
Replacing door handle/handle bush (C)	1 work-hour × $85 per hour = $85	267	352.
Replacing cargo door center rail/slide-center and backing plate (D1) and reworking cargo door center rail and backing plate (D2).	2 work-hours × $85 per hour = $170	152	322.

The FAA has included all known costs in its cost estimate. According to the manufacturer, however, some of the costs of this AD may be covered under warranty, thereby reducing the cost impact on affected operators.

Authority for This Rulemaking

Title 49 of the United States Code specifies the FAA's authority to issue rules on aviation safety. Subtitle I, section 106, describes the authority of the FAA Administrator. Subtitle VII: Aviation Programs, describes in more detail the scope of the Agency's authority.

The FAA is issuing this rulemaking under the authority described in Subtitle VII, Part A, Subpart III, Section 44701: General requirements. Under that section, Congress charges the FAA with promoting safe flight of civil aircraft in air commerce by prescribing regulations for practices, methods, and procedures the Administrator finds necessary for safety in air commerce. This regulation is within the scope of that authority because it addresses an unsafe condition that is likely to exist or develop on products identified in this rulemaking action.

Regulatory Findings

The FAA has determined that this AD will not have federalism implications under Executive Order 13132. This AD will not have a substantial direct effect on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government.

For the reasons discussed above, I certify that this AD:

(1) Is not a ''significant regulatory action'' under Executive Order 12866,

(2) Will not affect intrastate aviation in Alaska, and

(3) Will not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 39

Air transportation, Aircraft, Aviation safety, Incorporation by reference, Safety.

The Amendment

Accordingly, under the authority delegated to me by the Administrator,

the FAA amends 14 CFR part 39 as follows:

PART 39—AIRWORTHINESS DIRECTIVES

■ 1. The authority citation for part 39 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40113, 44701.

§ 39.13 [Amended]

■ 2. The FAA amends § 39.13 by:

■ a. Removing Airworthiness Directive 2010–18–06, Amendment 39–16419 (75 FR 52253, August 25, 2010); and

■ b. Adding the following new airworthiness directive:

2024–07–07 GA 8 Airvan (Pty) Ltd: Amendment 39–22728; Docket No. FAA–2024–0035; Project Identifier MCAI–2023–00986–A.

(a) Effective Date

This airworthiness directive (AD) is effective June 3, 2024.

(b) Affected ADs

This AD replaces AD 2010–18–06, Amendment 39–16419 (75 FR 52253, August 25, 2010).

(c) Applicability

This AD applies to GA 8 Airvan (Pty) Ltd Model GA8 and GA8–TC320 airplanes, all serial numbers, certificated in any category.

(d) Subject

Joint Aircraft System Component (JASC) Code 5230, Cargo/Baggage Doors

(e) Unsafe Condition

This AD was prompted by reports of in-flight cargo door separation. The FAA is issuing this AD to detect and correct excessive wear in the forward cargo door slide, which could result in an in-flight separation of the cargo door, with possible loss of control of the airplane.

(f) Compliance

Comply with this AD within the compliance times specified, unless already done.

(g) Required Actions

Do the applicable actions specified in Table 1 to paragraph (g) of this AD at the times in Table 1 to paragraph (g) of this AD, in accordance with the Accomplishment Instructions of GippsAero Service Bulletin SB–GA8–2005–23, Issue 8, dated October 11, 2023 (GippsAero SB–GA8–2005–23, Issue 8).

TABLE 1 TO PARAGRAPH (g)

Paragraphs in Accomplishment Instructions of GippsAero SB–GA8–2005–23, Issue 8	Action	Compliance time
12.1, A1, steps 1 and 2, for backing plate inspection, except where Figure 1 in step 1 specifies to remove and discard the vertical bolt, remove the vertical bolt from service. Steps 3 through 7, if a backing plate is not installed.	Inspect for the existence of a backing plate on the forward slide of the cargo door. If a backing plate is not installed, install a backing plate on the forward slide of the cargo door, measure the groove width of the forward slide, and replace the slide if it exceeds 0.145 inch at any point or is cracked or worn beyond limits.	Inspect within 50 hours time-in-service (TIS) or 2 months after the effective date of this AD, whichever occurs first. Install, measure, and replace before further flight after the inspection.
12.2, A2, steps 1 and 2 for the inspection ..... 12.2, A2, step 3 or 4, and 12.1, A1, steps 2 through 4, for the follow-on inspection and replacement.	Inspect for wear of the forward slide of the cargo door by inserting a slide gauge or feeler gauge to measure the clearance between the forward slide and the cargo door track. If a gap is found, measure the groove width of the forward slide and replace the slide if the groove width exceeds 0.145 inch at any point or is cracked or worn beyond limits.	Inspect for wear within 100 hours TIS or 2 months after the effective date of this AD, whichever occurs first, and thereafter at intervals not to exceed 100 hours TIS or 12 months, whichever occurs first after the most recent inspection. Measure the groove width and replace the slide before further flight after each inspection as necessary.
12.3, B1, steps 1 through 6 for the inspections 12.3, B1, steps 2, 3i, and 3ii; 12.4, B2, steps 1 through 5; and 12.5, B3, steps 1 through 12 for the corrective actions.	Inspect the cargo door mechanism for contact between the operating rod and cargo door handle pivot post, inspect the threaded studs and rod ends at both ends of the operating rod for bending, and inspect the cargo door handle engagement with the catch. Perform all applicable corrective actions.	Inspect within 50 hours TIS or 2 months after the effective date of this AD, whichever occurs first and thereafter at intervals not to exceed 100 hours TIS or 12 months, whichever occurs first after the most recent inspection. Perform all applicable corrective actions before further flight.
12.6, C, steps 1 through 6	Inspect the cargo door handle to determine if an integrated stop is installed and if an integrated stop is not installed, install a cargo door handle with an integrated stop. Inspect the cargo door handle for beyond normal play and replace the handle bush if the door handle has beyond normal play.	Within 150 hours TIS or 4 months after the effective date of this AD, whichever occurs first. Perform the installation and replacement, as necessary, before further flight after the inspection.
12.7, D1, steps 1 through 10 for the center rail cargo door inspection and installation. 12.8, D2, steps 1 through 2, for any necessary follow-on rework.	Inspect the center rail of the cargo door to determine if a center rail aft stop is installed and if a center rail aft stop is not installed, install an aft stop before further flight.	Within 50 hours TIS or 2 months after the effective date of this AD, whichever occurs first.

(h) Alternative Methods of Compliance (AMOCs)

The Manager, International Validation Branch, FAA, has the authority to approve AMOCs for this AD, if requested using the procedures found in 14 CFR 39.19. In accordance with 14 CFR 39.19, send your request to your principal inspector or local Flight Standards District Office, as appropriate. If sending information directly to the manager of the International Validation Branch, mail it to the address identified in paragraph (i)(2) of this AD or email to: *9-AVS-AIR-730-AMOC@faa.gov*. If mailing information, also submit information by email. Before using any approved AMOC, notify your appropriate principal inspector, or lacking a principal inspector, the manager of the local Flight Standards District Office/certificate holding district office.

(i) Additional Information

(1) Refer to Civil Aviation Safety Authority (CASA) Australia AD AD/GA8/3 amdt 3, dated August 18, 2023, for related information. This CASA Australia AD may be

found in the AD docket at regulations.gov under Docket No. FAA–2024–0035.

(2) For more information about this AD, contact Doug Rudolph, Aviation Safety Engineer, FAA, 1600 Stewart Avenue, Suite 410, Westbury, NY 11590; phone: (816) 329–4059; email: *doug.rudolph@faa.gov.*

(j) Material Incorporated by Reference

(1) The Director of the Federal Register approved the incorporation by reference (IBR) of the service information listed in this paragraph under 5 U.S.C. 552(a) and 1 CFR part 51.

(2) You must use this service information as applicable to do the actions required by this AD, unless the AD specifies otherwise.

(i) GippsAero Service Bulletin SB–GA8–2005–23, Issue 8, dated October 11, 2023.

(ii) [Reserved]

[Docket No. FAA–2023–1836; Amdt. No. 91–371B]

RIN 2120–AL70

Inclusion of Additional Automatic Dependent Surveillance-Broadcast (ADS–B) Out Technical Standard Orders; Incorporation by Reference; Correction

AGENCY: Federal Aviation Administration (FAA), U.S. Department of Transportation (DOT).

ACTION: Direct final rule; correction.

SUMMARY: On October 17, 2023, the Federal Aviation Administration (FAA) published the subject direct final rule in the **Federal Register**, confirmed on November 29, 2023. In that direct final rule, the FAA redesignated two paragraphs in one section of the Code of Federal Regulations but failed to amend cross-references to those paragraphs. This document corrects those errors.

DATES: This correction is effective April 29, 2024.

FOR FURTHER INFORMATION CONTACT: Juan Sebastian Yanguas, Airspace Rules & Regulations, AJV–P21, Federal Aviation Administration, 800 Independence Avenue SW, Washington, DC 20591; telephone (202) 267–8783; email *Juan.S.Yanguas@faa.gov.*

SUPPLEMENTARY INFORMATION: On October 17, 2023, the Federal Aviation Administration (FAA) published the direct final rule, Inclusion of Additional Automatic Dependent Surveillance-Broadcast (ADS–B) Out Technical Standard Orders; Incorporation by Reference, in the **Federal Register**.[1] In that direct final rule the FAA incorporated by reference two new Technical Standard Orders (TSOs), and three RTCA documents—TSO–C166c, TSO–C154d, section 2 of RTCA DO–260C, RTCA DO–260C Change 1, and section 2 of RTCA DO–282C into 14 CFR 91.225 and 91.227. The FAA responded to comments and confirmed the direct final rule on November 28, 2023.[2]

In the direct final rule, the FAA amended § 91.225 by redesignating paragraphs (h) and (i) as set out in the following redesignation table:

Old paragraph	New paragraph
paragraph (h)	paragraph (i).
paragraph (i)	paragraph (h).

While the FAA discussed the redesignation of paragraphs (h) and (i), it failed to revise cross-references to those paragraphs appearing elsewhere in § 91.225. This document corrects those errors.

List of Subjects in 14 CFR Part 91

Air traffic control, Aircraft, Airports, Aviation safety, Incorporation by reference, Transportation.

Accordingly, 14 CFR part 91 is corrected by making the following correcting amendments:

PART 91—GENERAL OPERATING AND FLIGHT RULES

■ 1. The authority citation for part 91 continues to read as follows:

Authority: 49 U.S.C. 106(f), 106(g), 40101, 40103, 40105, 40113, 40120, 44101, 44111, 44701, 44704, 44709, 44711, 44712, 44715, 44716, 44717, 44722, 46306, 46315, 46316, 46504, 46506–46507, 47122, 47508, 47528–47531, 47534, Pub. L. 114–190, 130 Stat. 615 (49 U.S.C. 44703 note); articles 12 and 29 of the Convention on International Civil Aviation (61 Stat. 1180), (126 Stat. 11).

■ 2. Amend § 91.225 by revising the introductory text of paragraphs (d) and (f) to read as follows:

§ 91.225 Automatic Dependent Surveillance-Broadcast (ADS–B) Out equipment and use.

* * * * *

(d) After January 1, 2020, except as prohibited in paragraph (h)(2) of this section or unless otherwise authorized by ATC, no person may operate an aircraft in the following airspace unless the aircraft has equipment installed that meets the requirements in paragraph (b) of this section:

* * * * *

(f) Except as prohibited in paragraph (h)(2) of this section, each person operating an aircraft equipped with ADS–B Out must operate this equipment in the transmit mode at all times unless—

* * * * *

Issued under the authority of 49 U.S.C. 106(f) in Washington, DC.

Brandon Roberts,

Executive Director, Office of Rulemaking.

[Docket No. 240423–0115]

RIN 0694–AJ59

Amendment to Existing Controls on Russia and Belarus Under the Export Administration Regulations (EAR) Adding New License Exception Medical Devices (MED); Corrections

AGENCY: Bureau of Industry and Security, Department of Commerce.

ACTION: Final rule.

SUMMARY: In this final rule, the Bureau of Industry and Security (BIS) makes changes to the Russia and Belarus sanctions under the Export Administration Regulations (EAR) to add a new license exception for EAR99 medical devices and related parts, components, accessories, and attachments for use in or with medical devices that are destined for both countries and the temporarily occupied Crimea region of Ukraine, or the covered regions of Ukraine. The purpose of this final rule is to authorize under a license

[1] 88 FR 71468; FR Doc. 2023–22710.

[2] 88 FR 83022.

exception certain exports, reexports, and transfers (in-country) of ''medical devices'' that are being regularly approved and that advance U.S. national security and foreign policy interests. In addition, this final rule makes two corrections to the EAR related to Russia-related rules published in January, and March, 2024 by correcting an end-user control and adding a cross-reference correction.

DATES: This rule is effective on April 29, 2024.

FOR FURTHER INFORMATION CONTACT: For questions on this final rule, contact Mark Salinas, Senior Export Policy Analyst, Foreign Policy Division, Bureau of Industry and Security, Department of Commerce, Phone: 202–482–4252, Email: *mark.salinas@bis.doc.gov.*

For emails, include ''License Exception MED'' in the subject line.

SUPPLEMENTARY INFORMATION:

I. Background

A. Export Controls Implemented Against Russia and Belarus

In response to Russia's February 2022 full-scale invasion of Ukraine, BIS imposed extensive sanctions on Russia under the EAR as part of the final rule, ''Implementation of Sanctions Against Russia Under the Export Administration Regulations (EAR)'' (the Russia Sanctions Rule) (87 FR 12226, March 3, 2022). To address Belarus's complicity in the invasion, BIS imposed similar sanctions on Belarus under the EAR in a final rule, ''Implementation of Sanctions Against Belarus'' (''Belarus Sanctions Rule'') (87 FR 13048, March 6, 2022). During the last two years, BIS has published a number of additional final rules strengthening the export controls on Russia and Belarus, including measures undertaken in coordination with U.S. allies and partners. Most recently, in March 2024, BIS amended the EAR to strengthen export controls against Russia and other destinations by expanding controls on persons identified on the List of Specially Designated Nationals and Blocked Persons (SDN List) (March 21, 2024, 89 FR 20107). As corrected by this rule, as described below under section II.C.1, § 744.8 of the EAR imposes licensing restrictions on exports, reexports, and transfers (in-country) made in connection with persons designated as SDNs by the Department of the Treasury's Office of Foreign Asset Controls pursuant to several Russia-related Executive Orders.

B. Overview of This Final Rule

In this final rule, BIS makes changes to the Russia and Belarus sanctions under the EAR to add a new license exception for ''medical devices'' under § 740.23 (Medical Devices (MED)). License Exception MED will authorize the export, reexport, or transfer (in country) of ''medical devices'' designated as EAR99 to or within Russia, Belarus, the temporarily occupied Crimea region of Ukraine, or the covered regions of Ukraine. Items subject to the EAR that are not on the Commerce Control List (CCL) in supplement no. 1 to part 774 of the EAR are designated as EAR99. License Exception MED will also authorize ''parts,'' ''components,'' ''accessories,'' and ''attachments'' designated as EAR99 that are exclusively for use in or with ''medical devices'' designated as EAR99.

The purpose of this final rule is to create a new license exception that will authorize (subject to certain terms and conditions) certain exports, reexports, and transfers (in-country) that BIS generally has been approving under the licensing application review policies set forth in §§ 746.5, 746.6, and 746.10 of the EAR. New License Exception MED includes terms and conditions to ensure that only those exports, reexports, and transfers (in-country) that are in U.S. national security and foreign policy interests will be authorized.

This final rule also makes conforming changes to the EAR to reflect the addition of this new license exception.

Lastly, this final rule makes two corrections to the EAR, consisting of: one correction to an end-user control under the EAR that was impacted by the final rule, ''Export Administration Regulations End-User Controls: Imposition of Restrictions on Certain Persons Identified on the List of Specially Designated Nationals and Blocked Persons (SDN List),'' published March 21, 2024 (89 FR 20107); and a cross-reference correction to the final rule, ''Implementation of Additional Sanctions Against Russia and Belarus Under the Export Administration Regulations (EAR) and Refinements to Existing Controls,'' published January 25, 2024 (89 FR 4804).

The three sets of changes this final rule makes are described in section II as follows:

A. Addition of License Exception Medical Devices (MED);

B. Conforming changes to the EAR made in connection with the addition of License Exception MED; and

C. Correction to the March 21, 2024, final rule addressing EAR controls for certain Specially Designated Nationals (SDNs) and correction to the January 25, 2024, Russia sanctions final rule.

II. Amendments to the EAR

A. Addition of License Exception Medical Devices (MED)

In part 740 (License Exceptions), this final rule adds a new license exception to the EAR under § 740.23 (Medical Devices (MED)).

1. Scope of License Exception MED

This final rule adds paragraph (a) (*Scope)* to specify that License Exception MED authorizes the export, reexport, or transfer (in country) of ''medical devices'' designated as EAR99 to Russia, Belarus, the temporarily occupied Crimea region of Ukraine, or the covered regions of Ukraine. See the Supplement No. 3 to Part 774—Statements of Understanding under paragraph (a) (Statement of Understanding—medical equipment) for guidance on classifying medical equipment and the definition of ''medical device'' in § 772.1 of the EAR. Exporters, reexporters, or transferors that need assistance in classifying their items to determine whether they are designated as EAR99 may submit classification requests to BIS using the Simplified Network Application Process (SNAR–R) available on the BIS website at *https://www.bis.doc.gov.*

The second sentence of paragraph (a) specifies that License Exception MED is also available to authorize ''parts,'' ''components,'' ''accessories,'' and ''attachments'' designated as EAR99 that are exclusively for use in or with ''medical devices'' designated as EAR99. Due to the importance of ''parts,'' ''components,'' ''accessories,'' and ''attachments'' for the use of ''medical devices,'' these commodities are also included as part of this authorization. The criterion ''exclusively for use in or with ''medical devices'' designated as EAR99'' is intended to limit the types of ''parts,'' ''components,'' ''accessories,'' and ''attachments'' that may be exported, reexported, or transferred (in-country) under License Exception MED, to those which are necessary for replacement or maintenance in or with medical devices, which will also reduce the likelihood of diversion to industrial or military end uses. The last sentence of paragraph (a) specifies that License Exception MED authorizes transactions involving EAR99 designated items that would otherwise require a license pursuant to §§ 746.5, 746.6 or 746.10 of the EAR, provided the terms and conditions described in § 740.23 are met.

License Exception MED does not overcome any license requirements imposed under § 746.8 or any other EAR license requirement (*e.g.,* those specified under part 744) other than those specified under §§ 746.5, 746.6, or 746.10. Additionally, as with any EAR license exception, exports, reexports, or transfers (in-country) under License Exception MED may be restricted under § 740.2 (Restrictions on All License Exceptions).

2. Restrictions of License Exception MED

This final rule adds paragraph (b) (Restrictions) to specify that License Exception MED does not authorize the export, reexport, or transfer (in country) of any item that meets the restrictions under paragraph (b)(1), (2), or (3) of § 740.23. Paragraph (b)(1) specifies that License Exception MED is not available when a ''proscribed person,'' as defined in § 772.1, is a party to the transaction as described in § 748.5(c) through (f) of the EAR. This final rule also includes an illustrative list in a parenthetical phrase that provides some examples of ''proscribed persons'' (including but not limited to 'military end users' see §§ 744.17(e) and 744.21(g)) or in situations in which an entity on the Entity List in supplement no. 4 to part 744 or on the Military End-User (MEU) List) that are excluded from being parties to the transaction. License Exception MED may not be utilized to help support the Russian industrial base (in particular, the Russian medical device industry) or enable ''proscribed persons'' or entities to receive eligible items. Paragraph (b)(2) restricts any export, reexport, or transfers (in-country) destined to a ''production'' ''facility,'' as those terms are defined in § 772.1. For the same reason, this final rule under paragraph (b)(3) restricts any export, reexport, or transfer (in-country) destined to Russia, Belarus, the temporarily occupied Crimea region of Ukraine, or the covered regions of Ukraine when the exporter, reexporter, or transferor has ''knowledge'' that the items are intended to develop or produce items. This final rule also adds a Note 1 to paragraphs (b)(2) and (3), to specify that the assembly in a hospital or other health care ''facility'' of a finished ''medical device'' completely ''produced'' outside of Russia, Belarus, the temporarily occupied Crimea region of Ukraine, or the covered regions of Ukraine for the sole purpose of using that ''medical device'' at that facility is not considered a ''production'' activity for purposes of these two paragraphs.

3. Verification Procedures for License Exception MED

This final rule adds paragraph (c) (*Verification)* to impose a requirement on exporters, reexporters, and transferors to maintain a system of distribution that ensures that ''medical devices'' are not delivered to ''proscribed persons'' or entities engaged in the ''production'' of any product. Exporters, reexporters, and transferors are responsible for ensuring that the items being exported, reexported, or transferred (in-country) are not diverted contrary to the terms and conditions of License Exception MED. The paragraph (c) text specifies that the verification of the effectiveness of the distribution system may entail obtaining certain information from a consignee (*e.g.,* obtaining affirmations or other documentation from a consignee as part of an exporter, reexporter, or transferor's compliance program) for ensuring that the use and disposition of ''medical devices'' received under License Exception MED meet the required terms and conditions.

This final rule under paragraph (c) also provides another illustrative example for how the verification of the effectiveness of the distribution system may be confirmed by the exporter, reexporter, or transferor by conducting periodic on-site spot checks. This final rule includes criteria in a parenthetical phrase that follows the phrase 'or performing periodic on-site spot-checks' to provide illustrative examples of the verification methods that may be adopted to ensure the effectiveness of the distribution system when an exporter, reexporter, or transferor decides to use conducting periodic on-site spot checks. Specifically, this final rule specifies in that parenthetical phrase that a verification system may include periodic on-site spot-checks in Russia, Belarus, the temporarily occupied Crimea region of Ukraine, or the covered regions of Ukraine, by the exporter, reexporter, or transferor; an internationally accredited auditing firm; or by an internationally recognized non-governmental humanitarian organization.

4. Recordkeeping and Review of Records Under License Exception MED

This final rule under paragraph (d) (*Recordkeeping and review of records),* specifies that in addition to complying with the recordkeeping requirements in part 762 of the EAR, that exporters, reexporters, and transferors must maintain records of verification, as specified in paragraph (d), for 5 five years, and, upon request, these records must be provided to BIS, or any other official of the United States designated by BIS, for review.

BIS estimates the new License Exception MED under § 740.23 will result in a reduction of 3,900 license applications being submitted to BIS annually.

B. Conforming Changes to the EAR for Addition of License Exception MED

In § 746.5 (Russian and Belarusian industry sector sanctions), this final rule revises paragraph (c)'s (License exceptions) introductory text, to add a reference to new paragraph (c)(8) (License Exception MED), an additional license exception that may overcome the license requirements set forth in this section. This final rule also adds paragraph (c)(8) (License Exception MED), including adding a cross reference to new § 740.23 of the EAR.

In § 746.6 (Temporarily occupied Crimea region of Ukraine and covered regions of Ukraine), this final rule adds a new paragraph (c)(7) (License Exception MED), including adding a cross reference to new § 740.23 of the EAR.

In § 746.10 ('Luxury goods' sanctions against Russia and Belarus and Russian and Belarusian oligarchs and malign actors), this final rule revises paragraph (c) (License Exceptions) introductory text to add a reference to new paragraph (c)(8) (License Exception MED) as an additional license exception that may overcome the license requirements in paragraph (a)(1) of this section. This final rule also adds paragraph (c)(8) (License Exception MED), including adding a cross reference to new § 740.23 of the EAR.

In § 762.2 (Records to be retained), this final rule revises paragraph (b) (Records retention references) to add a new paragraph (b)(55) (§ 740.23, License Exception MED) and makes two conforming changes by revising paragraph (b)(53) to remove the word ''and'' and revising paragraph (b)(54) to replace the period with a semi-colon to reflect the addition of new paragraph (b)(55).

C. Correction to March 24, 2024 Final Rule Imposing EAR Controls on Certain Persons Identified on the SDN List and Correction to January 25, 2024 Russia Sanctions Final Rule

1. Correction to March 24, 2024 Final Rule

This final rule makes a conforming change correction to § 744.11 to reflect the revisions made to § 744.8 in the March 24, 2024, final rule, ''Export Administration Regulations End-User

Controls: Imposition of Restrictions on Certain Persons Identified on the List of Specially Designated Nationals and Blocked Persons (SDN List),'' (89 FR 20107). Specifically, this final rule removes the fourth sentence of paragraph (b) introductory text that specified that § 744.11 ''may not be used to place on the Entity List any party to which exports or reexports require a license pursuant to § 744.8, § 744.12, § 744.13, § 744.14, or § 744.18'' because it is no longer needed or accurate. Sections 744.12 through 744.14 and 744.18 were reserved as of March 24, 2024. Note 2 to paragraph (a) of the revised § 744.8 provides guidance that the Entity List in supplement no. 4 to part 744 includes certain persons that have also been designated with certain identifiers on the SDN List. Note 2 includes a cross reference that directs persons to § 744.11 and supplement no. 4 to part 744 for requirements, including license review policies, for these entities, which take precedence over the requirements in § 744.8.

2. Correction to January 25, 2024 Russia Sanctions Final Rule

This final rule makes a cross-reference correction to § 746.10 to add a reference to paragraph (c)(7) to reflect that License Exception CCD is intended to be available to overcome the license requirements under § 746.10(a)(1) as described in the Background section of the January 25, 2024, final rule, ''Implementation of Additional Sanctions Against Russia and Belarus Under the Export Administration Regulations (EAR) and Refinements to Existing Controls,'' published January 25, 2024 (89 FR 4804), but the regulatory cross-reference was not updated to reflect paragraph (c)(3) was redesignated as paragraph (c)(7) in the January 25, 2024 final rule. This final rule corrects § 746.10(c) introductory text to make a needed cross-reference correction to specify that License Exception CCD is available.

Export Control Reform Act of 2018

On August 13, 2018, the President signed into law the John S. McCain National Defense Authorization Act for Fiscal Year 2019, which included the Export Control Reform Act of 2018 (ECRA) (codified, as amended, at 50 U.S.C. 4801–4852). ECRA provides the legal basis for BIS's principal authorities and serves as the authority under which BIS issues this rule. To the extent it applies to certain activities that are the subject of this rule, the Trade Sanctions Reform and Export Enhancement Act of 2000 (TSRA) (codified, as amended, at 22 U.S.C. 7201–7211) also serves as authority for this rule.

Rulemaking Requirements

1. BIS has examined the impact of this rule as required by Executive Orders 12866, 13563, and 14094, which direct agencies to assess all costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits (*e.g.,* potential economic, environmental, public, health, and safety effects, distributive impacts, and equity). Pursuant to E.O. 12866, as amended, this final rule has not been determined to be a ''significant regulatory action.''

2. Notwithstanding any other provision of law, no person is required to respond to, nor shall any person be subject to a penalty for failure to comply with, a collection of information subject to the requirements of the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*) (PRA), unless that collection of information displays a currently valid Office of Management and Budget (OMB) Control Number. This rule involves the following OMB-approved collections of information subject to the PRA:

- OMB Control Number 0694–0088, ''Multi-Purpose Application,'' which carries a burden hour estimate of 29.4 minutes for a manual or electronic submission;
- OMB Control Number 0694–0096 ''Five Year Records Retention Period,'' which carries a burden hour estimate of less than one minute; and
- OMB Control Number 0607–0152 ''Automated Export System (AES) Program,'' which carries a burden hour estimate of three minutes per electronic submission.

This rule changes the respondent burden for control number 0694–0088 by reducing the estimated number of submissions by 3,900, which is expected to reduce the current approved estimates, which will result in a reduction of 1,911 burden hours saved and cost savings to the public of $72,618 under this collection. The respondent burden under controls numbers 0694–0096 and 0607–0152 are not anticipated to change as a result of this final rule.

Current information regarding all three collections of information—including all background materials—can be found at *https://www.reginfo.gov/public/do/PRAMain* by using the search function to enter either the title of the collection or the OMB Control Number.

3. This rule does not contain policies with federalism implications as that term is defined in E.O. 13132.

4. Pursuant to section 1762 of ECRA (50 U.S.C. 4821), this action is exempt from the Administrative Procedure Act (APA) (5 U.S.C. 553) requirements for notice of proposed rulemaking, opportunity for public participation, and delay in effective date. While section 1762 of ECRA provides sufficient authority for such an exemption, this action is also independently exempt from these APA requirements because it involves a military or foreign affairs function of the United States (5 U.S.C. 553(a)(1)).

5. Because neither the Administrative Procedure Act nor any other law requires that notice of proposed rulemaking and an opportunity for public comment be given for this rule, the analytical requirements of the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*) are not applicable. Accordingly, no Final Regulatory Flexibility Analysis is required and none has been prepared.

List of Subjects

15 CFR Part 740

Administrative practice and procedure, Exports, Reporting and recordkeeping requirements.

15 CFR Part 744

Exports, Reporting and recordkeeping requirements, Terrorism

15 CFR Part 746

Exports, Reporting and recordkeeping requirements.

15 CFR Part 762

Administrative practice and procedure, Business and industry, Confidential business information, Exports, Reporting and recordkeeping requirements.

For the reasons stated in the preamble, parts 740, 744, 746, and 762 of the Export Administration Regulations (15 CFR parts 730 through 774) are amended as follows:

PART 740—LICENSE EXCEPTIONS

■ 1. The authority citation for part 740 continues to read as follows:

Authority: 50 U.S.C. 4801–4852; 50 U.S.C. 4601 *et seq.;* 50 U.S.C. 1701 *et seq.;* 22 U.S.C. 7201 *et seq.;* E.O. 13026, 61 FR 58767, 3 CFR, 1996 Comp., p. 228; E.O. 13222, 66 FR 44025, 3 CFR, 2001 Comp., p. 783.

■ 2. Part 740 is amended by adding § 740.23 to read as follows.

§ 740.23 MEDICAL DEVICES (MED).

(a) *Scope.* License Exception MED authorizes the export, reexport, or transfer (in country) of ''medical devices'' designated as EAR99 to or within Russia, Belarus, the temporarily

occupied Crimea region of Ukraine, or the covered regions of Ukraine (as specified in § 746.6(a)(2) of the EAR). *See* Supplement no. 3 to part 774—Statements of Understanding under paragraph (a) (Statement of Understanding—medical equipment) for guidance on classifying medical equipment and the definition of ''medical device'' in § 772.1 of the EAR. License Exception MED also authorizes the export, reexport, or transfer (in country) to or within Russia, Belarus, the temporarily occupied Crimea region of Ukraine, or the covered regions of Ukraine of ''parts,'' ''components,'' ''accessories,'' and ''attachments'' designated as EAR99 that are exclusively for use in or with ''medical devices'' designated as EAR99. This license exception authorizes transactions involving items designated as EAR99 that would otherwise require a license pursuant to §§ 746.5, 746.6 or 746.10 of the EAR, subject to the terms and conditions described in this section. For ''parts,'' ''components,'' ''accessories,'' and ''attachments'' authorized under License Exception MED, such replacement ''parts,'' ''components,'' ''accessories,'' and ''attachments'' may only be exported, reexported, or transferred (in-country) if they also meet the additional requirements under paragraphs (a)(1) and (2) of this section:

(1) The ''part,'' ''component,'' ''accessory,'' or ''attachment'' is being exported, reexported, or transferred (in-country) solely to replace a broken or nonoperational ''part,'' ''component,'' ''accessory,'' or ''attachment'' for use in or with a ''medical device'' that falls within the scope of paragraph (a) of this section, or the export, reexport, or transfer (in-country) of such replacement ''parts,'' ''components,'' ''accessories,'' and ''attachments'' is necessary and ordinarily incident to the proper preventative maintenance of such a ''medical device;'' *and*

(2) The number of replacement ''parts,'' ''components,'' ''accessories,'' and ''attachments'' that are exported, reexported, transferred (in-country), and stored in Russia, Belarus, the temporarily occupied Crimea region of Ukraine, or the covered regions of Ukraine does not exceed the number of corresponding operational ''parts,'' ''components,'' ''accessories,'' and ''attachments'' currently in use in or with the relevant medical devices in Russia, Belarus, the temporarily occupied Crimea region of Ukraine, or the covered regions of Ukraine.

(b) *Restrictions.* This license exception does not authorize the export, reexport, or transfer (in country) of any item:

(1) To a ''proscribed person'' (including but not limited to 'military end users' (see §§ 744.17(e) and 744.21(g)) or in situations in which an entity on the Entity List in supplement no. 4 to part 744 or on the Military End-User (MEU) List) is a party to the transaction as described in § 748.5(c) through (f) of the EAR;

(2) Destined to a ''production'' ''facility;'' *or*

(3) When you have ''knowledge'' that the item is intended to develop or produce items.

Note 1 to paragraphs (b)(2) and (3): The assembly in a hospital or other health care facility of a finished ''medical device'' completely ''produced'' outside of Russia, Belarus, the temporarily occupied Crimea region of Ukraine, or the covered regions of Ukraine'' for the sole purpose of using that ''medical device'' at that facility is not considered a ''production'' activity for purposes of the restrictions under paragraphs (b)(2) and (3) of this section.

(c) *Verification.* Exporters, reexporters, and transferors must maintain a system of distribution that ensures that ''medical devices'' and ''parts,'' ''components,'' ''accessories,'' or ''attachments'' are not delivered to ''proscribed persons'' or entities engaged in the ''production'' of any product. Verification of the effectiveness of the distribution system may entail obtaining certain information from a consignee (*e.g.,* obtaining affirmations or other documentation from a consignee, or performing periodic on-site spot-checks (*e.g.,* conducting such verification by staff of the exporter, reexporter, or transferor; an internationally accredited auditing firm; or an internationally recognized non-governmental humanitarian organization in Russia, Belarus, the temporarily occupied Crimea region of Ukraine, or the covered regions of Ukraine to conduct such verification).

(d) *Recordkeeping and review or inspection of records.* In addition to complying with the recordkeeping requirements in part 762 of the EAR, exporters, reexporters, and transferors must maintain records of verification, as specified in paragraph (c) of this section, for 5 years and, upon request, provide records to BIS, or any other official of the United States designated by BIS, for review or inspection.

PART 744—CONTROL POLICY: END-USER AND END-USE BASED

■ 3. The authority citation for part 744 continues to read as follows:

Authority: 50 U.S.C. 4801–4852; 50 U.S.C. 4601 *et seq.;* 50 U.S.C. 1701 *et seq.;* 22 U.S.C. 3201 *et seq.;* 42 U.S.C. 2139a; 22 U.S.C. 7201 *et seq.;* 22 U.S.C. 7210; E.O. 12058, 43 FR 20947, 3 CFR, 1978 Comp., p. 179; E.O. 12851, 58 FR 33181, 3 CFR, 1993 Comp., p. 608; E.O. 12938, 59 FR 59099, 3 CFR, 1994 Comp., p. 950; E.O. 13026, 61 FR 58767, 3 CFR, 1996 Comp., p. 228; E.O. 13099, 63 FR 45167, 3 CFR, 1998 Comp., p. 208; E.O. 13222, 66 FR 44025, 3 CFR, 2001 Comp., p. 783; E.O. 13224, 66 FR 49079, 3 CFR, 2001 Comp., p. 786; Notice of September 19, 2022, 87 FR 57569 (September 21, 202); Notice of November 8, 2022, 87 FR 68015, 3 CFR, 2022 Comp., p. 563; Notice of September 7, 2023, 88 FR 62439 (September 11, 2023).

§ 744.11 [Amended]

■ 4. Section 744.11 is amended by removing the fourth sentence of paragraph (b) introductory text.

PART 746—EMBARGOES AND OTHER SPECIAL CONTROLS

■ 5. The authority citation for 15 CFR part 746 continues to read as follows:

Authority: 50 U.S.C. 4801–4852; 50 U.S.C. 4601 *et seq.;* 50 U.S.C. 1701 *et seq.;* 22 U.S.C. 287c; Sec 1503, Pub. L. 108–11, 117 Stat. 559; 22 U.S.C. 2151 note; 22 U.S.C. 6004; 22 U.S.C. 7201 *et seq.;* 22 U.S.C. 7210; E.O. 12854, 58 FR 36587, 3 CFR, 1993 Comp., p. 614; E.O. 12918, 59 FR 28205, 3 CFR, 1994 Comp., p. 899; E.O. 13222, 66 FR 44025, 3 CFR, 2001 Comp., p. 783; E.O. 13338, 69 FR 26751, 3 CFR, 2004 Comp., p 168; Presidential Determination 2003–23, 68 FR 26459, 3 CFR, 2004 Comp., p. 320; Presidential Determination 2007–7, 72 FR 1899, 3 CFR, 2006 Comp., p. 325; Notice of May 8, 2023, 88 FR 30211 (May 10, 2023).

■ 6. Section 746.5 is amended by revising paragraph (c) introductory text and adding paragraph (c)(8), to read as follows:

§ 746.5 Russian and Belarusian industry sector sanctions.

* * * * *

(c) *License exceptions.* No license exceptions may overcome the license requirements set forth in this section, except the license exceptions identified in paragraphs (c)(2), (7), and (8) of this section.

* * * * *

(8) License Exception MED (§ 740.23 of the EAR).

■ 7. Section 746.6 is amended by adding paragraph (c)(7), to read as follows:

§ 746.6 Temporarily occupied Crimea region of Ukraine and covered regions of Ukraine.

* * * * *

(c) * * *

(7) License Exception MED (§ 740.23 of the EAR).

* * * * *

■ 8. Section 746.10 is amended by revising paragraph (c) introductory text and adding paragraph (c)(8), to read as follows:

§ 746.10 'Luxury goods' sanctions against Russia and Belarus and Russian and Belarusian oligarchs and malign actors.

* * * * *

(c) *License exceptions.* No license exceptions may overcome the license requirements in paragraph (a)(1) of this section except the license exceptions identified in paragraphs (c)(1) through (3), (c)(7) and (8) of this section.

* * * * *

(8) License Exception MED (§ 740.23 of the EAR).

PART 762—RECORDKEEPING

■ 9. The authority citation for 15 CFR part 746 continues to read as follows:

Authority: 50 U.S.C. 4801–4852; 50 U.S.C. 4601 *et seq.;* 50 U.S.C. 1701 *et seq.;* E.O. 13222, 66 FR 44025, 3 CFR, 2001 Comp., p. 783.

■ 10. Section 762.2 is amended by:
■ a. Revising paragraphs (b)(53) and (54), and
■ b. Adding paragraph (b)(55).

The revisions and addition read as follows:

§ 762.2 Records to be retained.

* * * * *

(b) * * *

(53) § 750.7(c)(2), Notification of name change by advisory opinion request;

(54) § 748.13, Certain Hong Kong import and export licenses; *and*

(55) § 740.23, License Exception MED.

* * * * *

Thea D. Rozman Kendler,

Assistant Secretary for Export Administration.

BILLING CODE 3510–JT–P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration

21 CFR Parts 161, 164, 184, and 186

[Docket No. FDA–2024–D–1669]

Revocation of Uses of Partially Hydrogenated Oils in Foods: Guidance for Industry; Small Entity Compliance Guide; Availability

AGENCY: Food and Drug Administration, Department of Health and Human Services (HHS).

ACTION: Notification of availability.

SUMMARY: The Food and Drug Administration (FDA or we) is announcing the availability of a guidance for industry entitled ''Revocation of Uses of Partially Hydrogenated Oils in Foods: Guidance for Industry; Small Entity Compliance Guide.'' The small entity compliance guide (SECG) is intended to help small entities comply with our regulations after we revoked specific requirements pertaining to the use of partially hydrogenated oils in certain foods or as a direct or indirect food substance.

DATES: The announcement of the guidance is published in the **Federal Register** on April 29, 2024.

ADDRESSES: You may submit either electronic or written comments on FDA guidances at any time as follows:

Electronic Submissions

Submit electronic comments in the following way:

- *Federal eRulemaking Portal: https://www.regulations.gov.* Follow the instructions for submitting comments. Comments submitted electronically, including attachments, to *https://www.regulations.gov* will be posted to the docket unchanged. Because your comment will be made public, you are solely responsible for ensuring that your comment does not include any confidential information that you or a third party may not wish to be posted, such as medical information, your or anyone else's Social Security number, or confidential business information, such as a manufacturing process. Please note that if you include your name, contact information, or other information that identifies you in the body of your comments, that information will be posted on *https://www.regulations.gov.*
- If you want to submit a comment with confidential information that you do not wish to be made available to the public, submit the comment as a written/paper submission and in the manner detailed (see ''Written/Paper Submissions'' and ''Instructions'').

Written/Paper Submissions

Submit written/paper submissions as follows:

- *Mail/Hand Delivery/Courier (for written/paper submissions):* Dockets Management Staff (HFA–305), Food and Drug Administration, 5630 Fishers Lane, Rm. 1061, Rockville, MD 20852.
- For written/paper comments submitted to the Dockets Management Staff, FDA will post your comment, as well as any attachments, except for information submitted, marked and identified, as confidential, if submitted as detailed in ''Instructions.''

Instructions: All submissions received must include the Docket No. FDA–2024–D–1669 for ''Revocation of Uses of Partially Hydrogenated Oils in Foods: Guidance for Industry; Small Entity Compliance Guide.'' Received comments will be placed in the docket and, except for those submitted as ''Confidential Submissions,'' publicly viewable at *https://www.regulations.gov* or at the Dockets Management Staff between 9 a.m. and 4 p.m., Monday through Friday, 240–402–7500.

- Confidential Submissions—To submit a comment with confidential information that you do not wish to be made publicly available, submit your comments only as a written/paper submission. You should submit two copies total. One copy will include the information you claim to be confidential with a heading or cover note that states ''THIS DOCUMENT CONTAINS CONFIDENTIAL INFORMATION.'' We will review this copy, including the claimed confidential information, in our consideration of comments. The second copy, which will have the claimed confidential information redacted/blacked out, will be available for public viewing and posted on *https://www.regulations.gov.* Submit both copies to the Dockets Management Staff. If you do not wish your name and contact information to be made publicly available, you can provide this information on the cover sheet and not in the body of your comments and you must identify this information as ''confidential.'' Any information marked as ''confidential'' will not be disclosed except in accordance with 21 CFR 10.20 and other applicable disclosure law. For more information about FDA's posting of comments to public dockets, see 80 FR 56469, September 18, 2015, or access the information at: *https://www.govinfo.gov/content/pkg/FR-2015-09-18/pdf/2015-23389.pdf.*

Docket: For access to the docket to read background documents or the electronic and written/paper comments received, go to *https://www.regulations.gov* and insert the docket number, found in brackets in the heading of this document, into the ''Search'' box and follow the prompts and/or go to the Dockets Management Staff, 5630 Fishers Lane, Rm. 1061, Rockville, MD 20852, 240–402–7500.

You may submit comments on any guidance at any time (see 21 CFR 10.115(g)(5)).

Submit written requests for single copies of the SECG to the Office of Food Additive Safety, Center for Food Safety and Applied Nutrition, Food and Drug Administration, 5001 Campus Dr., College Park, MD 20740. Send two self-

addressed adhesive labels to assist that office in processing your request. See the **SUPPLEMENTARY INFORMATION** section for electronic access to the guidance.

FOR FURTHER INFORMATION CONTACT: Ellen Anderson, Center for Food Safety and Applied Nutrition, Office of Food Additive Safety (HFS–255), Food and Drug Administration, 5001 Campus Dr., College Park, MD 20740, 240–402–1309; or Philip Chao, Center for Food Safety and Applied Nutrition, Office of Regulations and Policy (HFS–024), Food and Drug Administration, 5001 Campus Dr., College Park, MD 20740, 240–402–2378.

SUPPLEMENTARY INFORMATION:

I. Background

We are announcing the availability of a guidance for industry entitled ''Revocation of Uses of Partially Hydrogenated Oils in Foods: Guidance for Industry; Small Entity Compliance Guide.'' We are issuing this SECG consistent with our good guidance practices regulation (21 CFR 10.115). The SECG represents the current thinking of FDA on this topic. It does not establish any rights for any person and is not binding on FDA or the public. You can use an alternative approach if it satisfies the requirements of the applicable statutes and regulations.

In the **Federal Register** of August 9, 2023 (88 FR 53764), we published a direct final rule entitled ''Revocation of Uses of Partially Hydrogenated Oils in Foods'' (''the final rule''). The final rule amends our regulations that provide for the use of partially hydrogenated oils (PHOs) in food in light of our determination that PHOs are no longer generally recognized as safe (GRAS).

The final rule:

- Removes PHOs as an optional ingredient in the standards of identity for canned tuna and for peanut butter at §§ 161.190 (21 CFR 161.190) and 164.150 (21 CFR 164.150), respectively;
- Revises our regulations affirming food substances as GRAS pertaining to menhaden oil (21 CFR 184.1472) and to low erucic acid rapeseed oil (LEAR oil) (21 CFR 184.1555) to no longer include partially hydrogenated forms of these oils;
- Deletes the regulation affirming partially hydrogenated fish oil as GRAS as an indirect food substance (21 CFR 186.1551); and
- Revokes prior sanctions for the use of PHOs in margarine, shortening, and bread, rolls, and buns. (A ''prior sanction'' exempts a specific use of a substance in food from the definition of food additive and from all related food additive provisions of the Federal Food, Drug, and Cosmetic Act if the use was sanctioned or approved before September 6, 1958. In accordance with our general regulations regarding prior sanctions, we may revoke a prior sanctioned use of a food ingredient where scientific data or information demonstrate that prior-sanctioned use of the food ingredient may be injurious to health (see 21 CFR 181.1).)

The final rule became effective on December 22, 2023 (88 FR 86580, December 14, 2023).

Because we revised, removed, or revoked the regulations mentioned above, the SECG informs small entities that they should no longer use:

- PHOs as an optional ingredient in canned tuna under the standard of identity for canned tuna at § 161.190;
- PHOs as an optional ingredient in peanut butter under the standard of identity for peanut butter at § 164.150;
- Partially hydrogenated versions of menhaden oil or LEAR oil as a direct food substance;
- Partially hydrogenated fish oil as an indirect food substance used as a constituent of cotton and cotton fabrics used for dry food packaging; and
- PHOs as an ingredient in margarine, shortening, bread, rolls, and buns.

II. Paperwork Reduction Act of 1995

FDA tentatively concludes that this guidance contains no collection of information. Therefore, clearance by the Office of Management and Budget under the Paperwork Reduction Act of 1995 is not required.

III. Electronic Access

Persons with access to the internet may obtain the guidance at *https://www.fda.gov/FoodGuidances, https://www.fda.gov/regulatory-information/search-fda-guidance-documents,* or *https://www.regulations.gov.* Use the FDA website listed in the previous sentence to find the most current version of the guidance.

Dated: April 22, 2024.

Lauren K. Roth,

Associate Commissioner for Policy.

BILLING CODE 4164–01–P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration

21 CFR Part 573

[Docket No. FDA–2024–F–1850]

Food Additives Permitted in Feed and Drinking Water of Animals; Condensed, Extracted Glutamic Acid Fermentation Product

AGENCY: Food and Drug Administration, HHS.

ACTION: Final rule; technical amendment.

SUMMARY: The Food and Drug Administration (FDA) is amending the food additive regulations to update the production organism *Corynebacterium lilium* that has been scientifically reclassified to *Corynebacterium glutamicum.* This action is being taken to improve the accuracy and clarity of the regulations.

DATES: This rule is effective April 29, 2024.

FOR FURTHER INFORMATION CONTACT: Chelsea Cerrito, Center for Veterinary Medicine (HFV–221), Food and Drug Administration, 12225 Wilkins Ave., Rockville, MD 20852, 240–402–6729, *Chelsea.Cerrito@fda.hhs.gov.*

SUPPLEMENTARY INFORMATION: FDA is amending the food additive regulation at 21 CFR 573.500 *Condensed, extracted glutamic acid fermentation product* for use in animal feed to update the production organism *Corynebacterium lilium* that has been scientifically reclassified to *Corynebacterium glutamicum.* This action is being taken to improve the accuracy and clarity of the regulations.

Publication of this document constitutes final action under the Administrative Procedures Act (5 U.S.C. 553). FDA has determined that notice and public comment are unnecessary because this amendment to the regulations provides only technical changes to update scientific nomenclature and is nonsubstantive.

List of Subjects in 21 CFR Part 573

Animal feeds, Food additives.

Therefore, under the Federal Food, Drug, and Cosmetic Act, and the Public Health Service Act, and under the authority delegated to the Commissioner of Food and Drugs, 21 CFR part 573 is amended as follows:

PART 573—FOOD ADDITIVES PERMITTED IN FEED AND DRINKING WATER OF ANIMALS

■ 1. The authority citation for part 573 continues to read as follows:

Authority: 21 U.S.C. 321, 342, 348.

§ 573.500 [Amended]

■ 2. In § 573.500, in paragraph (a), remove the words ''*Corynebacterium lilium*'' and add in their place the words ''*Corynebacterium glutamicum*''.

Dated: April 22, 2024.

Lauren K. Roth,

Associate Commissioner for Policy.

DEPARTMENT OF HOMELAND SECURITY

Coast Guard

33 CFR Part 165

[Docket Number USCG–2024–0157]

RIN 1625–AA87

Security Zone; Port Valdez and Valdez Narrows, Valdez, AK

AGENCY: Coast Guard, DHS.

ACTION: Final rule.

SUMMARY: The current Trans-Alaska Pipeline Valdez Terminal complex (Terminal) security zone encompasses a waterside portion and 2000 yards inland, which includes the shoreside portion of the terminal and adjacent land. The Coast Guard is amending the TAPS Terminal security zone to exclude the land portion from the security zone. The Coast Guard has never exercised any legal authority, nor has it enforced regulations within the inland portion of the security zone.

DATES: This rule is effective May 29, 2024.

ADDRESSES: To view documents mentioned in this preamble as being available in the docket, go to *https://www.regulations.gov,* type USCG–2024–0157 in the search box and click ''Search.'' Next, in the Document Type column, select ''Supporting & Related Material.''

FOR FURTHER INFORMATION CONTACT: If you have questions about this rule, call or email Lieutenant Junior Grade Abigail Ferrara, Marine Safety Unit Valdez, US Coast Guard. Telephone 907–835–7209, email *Abigail.C.Ferrara@uscg.mil.*

SUPPLEMENTARY INFORMATION:

I. Table of Abbreviations

CFR Code of Federal Regulations
COTP Captain of the Port Prince William Sound
DHS Department of Homeland Security
FR Federal Register
NPRM Notice of proposed rulemaking
§ Section
TAPS Trans-Alaska Pipeline
U.S.C. United States Code

II. Background Information and Regulatory History

In response to the terrorist attacks on September 11, 2001, the Coast Guard instituted several temporary security zones in the Trans-Alaska Pipeline (TAPS) Terminal and Port Valdez areas. Between 2002 and 2004, Coast Guard published several proposed and supplemental proposed rulemakings to establish security zones in the area. This culminated with a final rule (71 FR 2152) published on January 13, 2006, which established the current permanent security zones in 33 CFR 165.1710.

The current TAPS Terminal security zone encompasses a waterside portion and 2000 yards inland, which includes the shoreside portion of the terminal and adjacent land. The Coast Guard has never exercised any legal authority, nor has it enforced regulations within the inland portion of the security zone. The Captain of the Port Prince William Sound (COTP) determined that the current practice of non-enforcement within the inland portion of the security zone could create confusion for future stakeholders and the public. It would be an arbitrary and unreasonable burden upon the facility and industry employees who have freely entered the inland portion without COTP permission for decades if a COTP were to begin enforcing their authority over the inland portion of the security zone in the future.

The Coast Guard is issuing this rulemaking under authority in 46 U.S.C. 70051 and 70124.

On February 20, 2024, the Coast Guard published a notice of proposed rulemaking (NPRM) titled Security Zone; Port Valdez and Valdez narrows, Valdez, AK (89 FR 13015). There we stated why we issued the NPRM and invited comments on our proposed regulatory action related to this security zone. During the comment period that ended March 22, 2024, we received no comments.

III. Legal Authority and Need for Rule

The Coast Guard is issuing this rule under authority in 46 U.S.C. 70051 and 70124. The COTP determined that the current practice of non-enforcement within the inland portion of the security zone could create confusion for future stakeholders and the public. It would be an arbitrary and unreasonable burden upon the facility and industry employees who have freely entered the inland portion without COTP permission for decades if a COTP were to begin enforcing their authority over the inland portion of the security zone in the future. The purpose of this rule is to prevent future confusion.

IV. Discussion of Comments, Changes, and the Rule

As noted above, we received no comments on our NPRM published February 20, 2024. There are no changes in the regulatory text of this rule from the proposed rule in the NPRM.

The COTP is amending the current security zone found in 33 CFR 165.1710(a)(1) to excise the 2000-yard inland portion of the zone. This will result in the security zone encompassing only the water up to the shoreline. The regulatory text we are amending appears at the end of this document.

V. Regulatory Analyses

We developed this rule after considering numerous statutes and Executive orders related to rulemaking. Below we summarize our analyses based on a number of these statutes and Executive orders.

A. Regulatory Planning and Review

Executive Orders 12866 and 13563 direct agencies to assess the costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits. This rule has not been designated a ''significant regulatory action,'' under section 3(f) of Executive Order 12866, as amended by Executive Order 14094 (Modernizing Regulatory Review). Accordingly, this rule has not been reviewed by the Office of Management and Budget (OMB).

This regulatory action determination is based on the size and location of the current waterside portion security zone remaining the same. Moreover, the landside portion of the facility has had other security regulations in place for roughly two decades.

B. Impact on Small Entities

The Regulatory Flexibility Act of 1980, 5 U.S.C. 601–612, as amended, requires Federal agencies to consider the potential impact of regulations on small entities during rulemaking. The term ''small entities'' comprises small businesses, not-for-profit organizations

that are independently owned and operated and are not dominant in their fields, and governmental jurisdictions with populations of less than 50,000. The Coast Guard received no comments from the Small Business Administration on this rulemaking. The Coast Guard certifies under 5 U.S.C. 605(b) that this rule will not have a significant economic impact on a substantial number of small entities.

This regulatory change would not affect any small entities, as the COTP does not enforce the requirements for the landside portion of the security zone, and the waterside security zone coordinates will remain unchanged.

Under section 213(a) of the Small Business Regulatory Enforcement Fairness Act of 1996 (Pub. L. 104–121), we want to assist small entities in understanding this rule. If the rule would affect your small business, organization, or governmental jurisdiction and you have questions concerning its provisions or options for compliance, please call or email the person listed in the **FOR FURTHER INFORMATION CONTACT** section.

Small businesses may send comments on the actions of Federal employees who enforce, or otherwise determine compliance with, Federal regulations to the Small Business and Agriculture Regulatory Enforcement Ombudsman and the Regional Small Business Regulatory Fairness Boards. The Ombudsman evaluates these actions annually and rates each agency's responsiveness to small business. If you wish to comment on actions by employees of the Coast Guard, call 1–888–REG–FAIR (1–888–734–3247). The Coast Guard will not retaliate against small entities that question or complain about this rule or any policy or action of the Coast Guard.

C. Collection of Information

This rule will not call for a new collection of information under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3520).

D. Federalism and Indian Tribal Governments

A rule has implications for federalism under Executive Order 13132 (Federalism), if it has a substantial direct effect on the States, on the relationship between the National Government and the States, or on the distribution of power and responsibilities among the various levels of government. We have analyzed this rule under that Order and have determined that it is consistent with the fundamental federalism principles and preemption requirements described in Executive Order 13132.

Also, this rule does not have tribal implications under Executive Order 13175, Consultation and Coordination with Indian Tribal Governments, because it does not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes.

E. Unfunded Mandates Reform Act

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531–1538) requires Federal agencies to assess the effects of their discretionary regulatory actions. In particular, the Act addresses actions that may result in the expenditure by a State, local, or tribal government, in the aggregate, or by the private sector of $100,000,000 (adjusted for inflation) or more in any one year. Though this rule will not result in such an expenditure, we do discuss the effects of this rule elsewhere in this preamble.

F. Environment

We have analyzed this rule under Department of Homeland Security Directive 023–01, Rev. 1, associated implementing instructions, and Environmental Planning COMDTINST 5090.1 (series), which guide the Coast Guard in complying with the National Environmental Policy Act of 1969 (42 U.S.C. 4321–4370f), and have determined that this action is one of a category of actions that do not individually or cumulatively have a significant effect on the human environment. This rule involves excising the 2000-yard inland portion TAPS Terminal security zone. It is categorically excluded from further review under paragraph L60(b) of Appendix A, Table 1 of DHS Instruction Manual 023–01–001–01, Rev. 1.

List of Subjects in 33 CFR Part 165

Harbors, Marine safety, Navigation (water), Reporting and recordkeeping requirements, Security measures, Waterways.

For the reasons discussed in the preamble, the Coast Guard amends 33 CFR part 165 as follows:

PART 165—REGULATED NAVIGATION AREAS AND LIMITED ACCESS AREAS

■ 1. The authority citation for part 165 continues to read as follows:

Authority: 46 U.S.C. 70034, 70051, 70124; 33 CFR 1.05–1, 6.04–1, 6.04–6, and 160.5; Department of Homeland Security Delegation No. 00170.1, Revision No. 01.3.

■ 2. Revise § 165.1710 paragraph (a)(1) to read as follows:

§ 165.1710 Port Valdez and Valdez Narrows, Valdez, Alaska—security zones.

(a) * * *

(1) *Trans-Alaska Pipeline (TAPS) Valdez Terminal complex (Terminal), Valdez, Alaska and TAPS tank vessels.* All waters enclosed within a line beginning on the southern shoreline of Port Valdez at 61°05′03.6″ N, 146°25′42″ W; thence northerly to yellow buoy at 61°06′00″ N, 146°25′42″ W; thence east to the yellow buoy at 61°06′00″ N, 146°21′30″ W; thence south to 61°05′06″ N, 146°21′30″ W; thence west along the shoreline to the beginning point.

* * * * *

Dated: April 23, 2024.

S.K. Rousseau,

Commander, U.S. Coast Guard, Captain of the Port Prince William Sound.

BILLING CODE 9110–04–P

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[EPA–R01–OAR–2024–0018; FRL–11714–02–R1]

Air Plan Approval; New Hampshire; Amendments to Motor Vehicle Inspection and Maintenance Program Regulation

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: The Environmental Protection Agency (EPA) is approving a State Implementation Plan (SIP) revision submitted by the State of New Hampshire. This revision includes an amended regulation for the Enhanced Motor Vehicle Inspection and Maintenance (I/M) program in New Hampshire. Overall, the submittal updates and clarifies the implementation of the New Hampshire I/M program. The intended effect of this action is to approve the updated I/M program regulation into the New Hampshire SIP. This action is being taken in accordance with the Clean Air Act.

DATES: This rule is effective on May 29, 2024.

ADDRESSES: EPA has established a docket for this action under Docket Identification No. EPA–R01–OAR–2024–0018. All documents in the docket are listed on the *https://www.regulations.gov* website. Although

listed in the index, some information is not publicly available, *i.e.,* CBI or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the internet and will be publicly available only in hard copy form. Publicly available docket materials are available at *https://www.regulations.gov* or at the U.S. Environmental Protection Agency, EPA Region 1 Regional Office, Air and Radiation Division, 5 Post Office Square—Suite 100, Boston, MA. EPA requests that if at all possible, you contact the contact listed in the **FOR FURTHER INFORMATION CONTACT** section to schedule your inspection. The Regional Office's official hours of business are Monday through Friday, 8:30 a.m. to 4:30 p.m., excluding legal holidays and facility closures due to COVID–19.

FOR FURTHER INFORMATION CONTACT: Ayla Martinelli, Air Quality Branch, U.S. Environmental Protection Agency, EPA Region 1, 5 Post Office Square—Suite 100, (Mail code 5–MI), Boston, MA 02109–3912, tel. (617) 918–1057, email: *martinelli.ayla@epa.gov.*

SUPPLEMENTARY INFORMATION: Throughout this document whenever ''we,'' ''us,'' or ''our'' is used, we mean EPA.

Table of Contents

I. Background and Purpose

On January 31, 2024 (89 FR 6082), EPA published a Notice of Proposed Rulemaking (NPRM) for the State of New Hampshire. The NPRM proposed approval of New Hampshire's amended regulation for the state's Enhanced Motor Vehicle Inspection and Maintenance (I/M) program. The formal SIP revision was submitted by New Hampshire on September 22, 2022. The rationale for EPA's proposed action is explained in the NPRM and will not be restated here. No public comments were received on the NPRM.

II. Final Action

EPA is approving New Hampshire's amended I/M regulation as a revision to the New Hampshire SIP.

EPA is incorporating New Hampshire's I/M program regulation, Saf–C 3200 ''Official Motor Vehicle Inspection Requirements,'' by reference into the New Hampshire SIP. New Hampshire's I/M program regulation contains enforcement provisions that detail state enforcement procedures, including administrative, civil, and criminal penalties, and administrative and judicial procedures. Such enforcement-related provisions are required elements of an I/M SIP under 40 CFR 61.364, and EPA is finalizing the approval of the provisions as meeting those requirements. However, EPA is not finalizing the incorporation of those provisions by reference into the EPA-approved federal regulations at 40 CFR part 52. In any federal action to enforce violations of the substantive requirements of the New Hampshire I/M program, the relevant provisions of Section 113 or 304 of the CAA, rather than state enforcement provisions would govern. Similarly, the applicable procedures in any federal action would be the applicable federal court rules or EPA's rules for administrative proceedings at 40 CFR part 22, rather than state administrative procedures. Since the state enforcement provisions would not be applicable in a federal action, incorporating these state-only enforcement provisions into the federal regulations would have no effect. To avoid confusion to the public and regulated parties, EPA is not incorporating these provisions by reference into the EPA-approved federal regulations in the New Hampshire plan identification in 40 CFR part 52. Specifically, EPA is not incorporating New Hampshire's regulations Saf–C 3222.04(d) and Saf–C 3248 into the federal regulations at 40 CFR 52.1520(c).

III. Incorporation by Reference

In this rule, the EPA is finalizing regulatory text that includes incorporation by reference. In accordance with requirements of 1 CFR 51.5, the EPA is finalizing the incorporation by reference of the New Hampshire Department of Safety Regulation Saf–C 3200 ''Official Motor Vehicle Inspection Requirements,'' which updates and clarifies the implementation of the New Hampshire I/M program, with exceptions as described in section II of this final rule. The EPA has made, and will continue to make, these documents generally available through *www.regulations.gov* and at the EPA Region 1 Office (please contact the person identified in the **FOR FURTHER INFORMATION CONTACT** section of this preamble for more information). Therefore, these materials have been approved by EPA for inclusion in the State implementation plan, have been incorporated by reference by EPA into that plan, are fully federally enforceable under sections 110 and 113 of the CAA as of the effective date of the final rulemaking of EPA's approval, and will be incorporated by reference in the next update to the SIP compilation.[1]

IV. Statutory and Executive Order Reviews

Under the Clean Air Act, the Administrator is required to approve a SIP submission that complies with the provisions of the Act and applicable Federal regulations. 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, EPA's role is to approve state choices, provided that they meet the criteria of the Clean Air Act. Accordingly, this action merely approves state law as meeting Federal requirements and does not impose additional requirements beyond those imposed by state law. For that reason, this action:

- Is not a significant regulatory action subject to review by the Office of Management and Budget under Executive Orders 12866 (58 FR 51735, October 4, 1993) and 13563 (76 FR 3821, January 21, 2011);
- Does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*);
- Is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);
- Does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104–4);
- Does not have federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);
- Is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);
- Is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001); and
- Is not subject to requirements of Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the Clean Air Act.

In addition, the SIP is not approved to apply on any Indian reservation land or in any other area where EPA or an Indian tribe has demonstrated that a tribe has jurisdiction. In those areas of Indian country, the rule does not have tribal implications and will not impose substantial direct costs on tribal governments or preempt tribal law as

[1] 62 FR 27968 (May 22, 1997).

specified by Executive Order 13175 (65 FR 67249, November 9, 2000).

Executive Order 12898 (Federal Actions To Address Environmental Justice in Minority Populations and Low-Income Populations, 59 FR 7629, Feb. 16, 1994) directs Federal agencies to identify and address ''disproportionately high and adverse human health or environmental effects'' of their actions on minority populations and low-income populations to the greatest extent practicable and permitted by law. EPA defines environmental justice (EJ) as ''the fair treatment and meaningful involvement of all people regardless of race, color, national origin, or income with respect to the development, implementation, and enforcement of environmental laws, regulations, and policies.'' EPA further defines the term fair treatment to mean that ''no group of people should bear a disproportionate burden of environmental harms and risks, including those resulting from the negative environmental consequences of industrial, governmental, and commercial operations or programs and policies.''

New Hampshire did not evaluate environmental justice considerations as part of its SIP submittal; the CAA and applicable implementing regulations neither prohibit nor require such an evaluation. Due to the nature of the action being taken here, this action is expected to have a neutral to positive impact on the air quality of the affected area. EPA did not perform an EJ analysis and did not consider EJ in this action. Consideration of EJ is not required as part of this action, and there is no information in the record inconsistent with the stated goal of E.O. 12898 of achieving environmental justice for people of color, low-income populations, and Indigenous peoples.

The Congressional Review Act, 5 U.S.C. 801 *et seq.,* as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. EPA will submit a report containing this action and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. A major rule cannot take effect until 60 days after it is published in the **Federal Register**. This action is not a ''major rule'' as defined by 5 U.S.C. 804(2).

Under section 307(b)(1) of the Clean Air Act, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by *June 28, 2024.* Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this action for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed and shall not postpone the effectiveness of such rule or action. This action may not be challenged later in proceedings to enforce its requirements. (See section 307(b)(2).)

List of Subjects in 40 CFR Part 52

Environmental protection, Air pollution control, Carbon monoxide, Incorporation by reference, Intergovernmental relations, Lead, Nitrogen dioxide, Ozone, Particulate matter, Reporting and recordkeeping requirements, Sulfur oxides, Volatile organic compounds.

Dated: April 22, 2024.

David Cash,

Regional Administrator, EPA Region 1.

Part 52 of chapter I, title 40 of the Code of Federal Regulations is amended as follows:

PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

■ 1. The authority citation for part 52 continues to read as follows:

Authority: 42 U.S.C. 7401 *et seq.*

Subpart EE—New Hampshire

■ 2. In § 52.1520(c), the table in paragraph (c) is amended by revising the entry for ''Saf–C 3200'' to read as follows:

§ 52.1520 Identification of plan.

BILLING CODE 6560–50–P

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 180

[EPA–HQ–OPP–2023–0280; FRL–11860–01–OCSPP]

Flonicamid; Pesticide Tolerances

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: This regulation amends the existing tolerance for residues of flonicamid in or on the raw agricultural commodity berry, low-growing, subgroup 13–07G by increasing the tolerance from 1.5 parts per million (ppm) to 2 ppm. ISK Biosciences Corporation requested this amended tolerance under the Federal Food, Drug, and Cosmetic Act (FFDCA).

DATES: This regulation is effective April 29, 2024. Objections and requests for hearings must be received on or before June 28, 2024, and must be filed in accordance with the instructions provided in 40 CFR part 178 (see also Unit I.C. of the **SUPPLEMENTARY INFORMATION**).

ADDRESSES: The docket for this action, identified by docket identification (ID) number EPA–HQ–OPP–2023–0280, is available at *https://www.regulations.gov* or at the Office of Pesticide Programs Regulatory Public Docket (OPP Docket) in the Environmental Protection Agency Docket Center (EPA/DC), West William Jefferson Clinton Bldg., Rm. 3334, 1301 Constitution Ave. NW, Washington, DC 20460–0001. The Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Public Reading Room and the OPP Docket is (202) 566–1744. Please review the visitor instructions and additional information about the docket available at *https://www.epa.gov/dockets.*

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this action apply to me?

You may be potentially affected by this action if you are an agricultural producer, food manufacturer, or pesticide manufacturer. The following list of North American Industrial Classification System (NAICS) codes is not intended to be exhaustive, but rather provides a guide to help readers determine whether this document applies to them. Potentially affected entities may include:

- Crop production (NAICS code 111).
- Animal production (NAICS code 112).
- Food manufacturing (NAICS code 311).
- Pesticide manufacturing (NAICS code 32532).

B. How can I get electronic access to other related information?

You may access a frequently updated electronic version of EPA's tolerance regulations at 40 CFR part 180 through the Office of the Federal Register's e-CFR site at *https://www.ecfr.gov/current/title-40.*

C. How can I file an objection or hearing request?

Under FFDCA section 408(g), 21 U.S.C. 346a(g), any person may file an objection to any aspect of this regulation and may also request a hearing on those objections. You must file your objection or request a hearing on this regulation in accordance with the instructions provided in 40 CFR part 178. To ensure proper receipt by EPA, you must identify docket ID number EPA–HQ–OPP–2023–0280, in the subject line on the first page of your submission. All objections and requests for a hearing must be in writing and must be received by the Hearing Clerk on or before June 28, 2024. Addresses for mail and hand delivery of objections and hearing requests are provided in 40 CFR 178.25(b).

In addition to filing an objection or hearing request with the Hearing Clerk as described in 40 CFR part 178, please submit a copy of the filing (excluding any Confidential Business Information (CBI)) for inclusion in the public docket. Information not marked confidential pursuant to 40 CFR part 2 may be disclosed publicly by EPA without prior notice. Submit the non-CBI copy of your objection or hearing request, identified by docket ID number EPA–HQ–OPP–2023–0280, by one of the following methods:

- *Federal eRulemaking Portal: https://www.regulations.gov.* Follow the online instructions for submitting comments. Do not submit electronically any information you consider to be CBI or other information whose disclosure is restricted by statute.
- *Mail:* OPP Docket, Environmental Protection Agency Docket Center (EPA/DC), (28221T), 1200 Pennsylvania Ave. NW, Washington, DC 20460–0001.
- *Hand Delivery:* To make special arrangements for hand delivery or delivery of boxed information, please follow the instructions at *https://www.epa.gov/dockets/where-send-comments-epa-dockets.*

Additional instructions on commenting or visiting the docket, along with more information about dockets generally, is available at *https://www.epa.gov/dockets.*

II. Summary of Petitioned-For Tolerances

In the **Federal Register** of July 5, 2023 (88 FR 42935) (FRL–10579–05–OCSPP), EPA issued a document pursuant to FFDCA section 408(d)(3), 21 U.S.C. 346a(d)(3), announcing the filing of a pesticide petition (PP 3F9050) by ISK Biosciences Corporation, 7470 Auburn Road, Suite A, Concord, OH 44077–9703. The petition requested that 40 CFR part 180 be amended by establishing tolerances for residues of flonicamid in or on the raw agricultural commodities berry, low-growing, subgroup 13–07G, except strawberry, at 1.5 ppm and strawberry at 2.0 ppm. The petition also requested removal of the existing tolerance for residues of flonicamid in or on berry, low-growing, subgroup 13–07G at 1.5 ppm.

That document referenced a summary of the petition, which is available in the docket at *https://www.regulations.gov.* There were no comments received on the notice of filing.

Based upon review of the data supporting the petition and in accordance with its authority under FFDCA section 408(d)(4)(A)(i), EPA is amending the existing tolerance for residues of flonicamid in or on berry, low-growing, subgroup 13–07G by increasing the tolerance from 1.5 ppm to 2 ppm, rather than establishing different tolerances for berry, low-growing, subgroup 13–07G, except strawberry, and strawberry as originally requested. A revised petition was submitted by ISK Biosciences Corporation to support this change to the petitioned-for tolerance. For details, see Unit IV.C.

III. Aggregate Risk Assessment and Determination of Safety

Section 408(b)(2)(A)(i) of FFDCA allows EPA to establish a tolerance (the legal limit for a pesticide chemical residue in or on a food) only if EPA determines that the tolerance is ''safe.'' Section 408(b)(2)(A)(ii) of FFDCA defines ''safe'' to mean that ''there is a reasonable certainty that no harm will

result from aggregate exposure to the pesticide chemical residue, including all anticipated dietary exposures and all other exposures for which there is reliable information.'' This includes exposure through drinking water and in residential settings but does not include occupational exposure. Section 408(b)(2)(C) of FFDCA requires EPA to give special consideration to exposure of infants and children to the pesticide chemical residue in establishing a tolerance and to ''ensure that there is a reasonable certainty that no harm will result to infants and children from aggregate exposure to the pesticide chemical residue . . . .''

Consistent with FFDCA section 408(b)(2)(D), and the factors specified therein, EPA has reviewed the available scientific data and other relevant information in support of this action. EPA has sufficient data to assess the hazards of and to make a determination on aggregate exposure for flonicamid including exposure resulting from the tolerances established by this action. EPA's assessment of exposures and risks associated with flonicamid follows.

In an effort to streamline its publications in the **Federal Register**, EPA is not reprinting sections that repeat what has been previously published for tolerance rulemakings for the same pesticide chemical. Where scientific information concerning a particular chemical remains unchanged, the content of those sections would not vary between tolerance rulemakings, and EPA considers referral back to those sections as sufficient to provide an explanation of the information EPA considered in making its safety determination for the new rulemaking.

EPA has previously published tolerance rulemakings for flonicamid in which EPA concluded, based on the available information, that there is a reasonable certainty that no harm would result from aggregate exposure to flonicamid and established tolerances for residues of the chemical. EPA is incorporating previously published sections from these rulemakings as described further in this rulemaking, as they remain unchanged.

Toxicological profile. For a discussion of the toxicological profile of flonicamid, see Unit III. of the flonicamid tolerance rulemaking published in the **Federal Register** of September 20, 2023 (88 FR 64819) (FRL–11393–01).

Toxicological points of departure/levels of concern. For a summary of the toxicological points of departure/levels of concern for flonicamid used for human health risk assessment, see Table 4.0.1. of the ''Flonicamid. Human Health Risk Assessment for the Petition for Amendment of Tolerances in/on Low Growing Berry Subgroup 13–07G'' (hereafter the Flonicamid Human Health Risk Assessment) in docket ID EPA–HQ–OPP–2023–0280 at *https://www.regulations.gov.*

Exposure assessment. EPA's dietary exposure assessments have been updated to include the additional exposure from the increased tolerance for residues of flonicamid in or on berry, low-growing, subgroup 13–07G. The dietary exposure assessments were conducted with Dietary Exposure Evaluation Model software using the Food Commodity Intake Database (DEEM–FCID) Version 4.02, which uses the 2005–2010 food consumption data from the United States Department of Agriculture's (USDA's) National Health and Nutrition Examination Survey, What We Eat in America (NHANES/WWEIA). An unrefined chronic dietary exposure assessment was conducted for all proposed and registered uses of flonicamid. The analysis assumed 100 percent crop treated (100% CT) and tolerance level residues for all commodities. Separate tolerances have been established for potato granules/flakes, tomato paste, and tomato puree based on processing studies. The processing factors were set to 1.0 for these commodities. The Agency's default processing factors were used for the other processed commodities for which default processing factors are available.

Drinking water and non-occupational exposures. The estimated drinking water concentrations have not changed as a result of the increased tolerance for residues of flonicamid in or on berry, low-growing, subgroup 13–07G. For a detailed summary of the drinking water analysis for flonicamid used for the human health risk assessment, see Unit III.C.2. of the flonicamid tolerance rulemaking published in the **Federal Register** of July 23, 2018 (83 FR 34775) (FRL–9977–82).

There are no proposed residential uses at this time; however, there are existing registered residential handler uses that were previously assessed and which resulted in no risks of concern. Registered residential use patterns are expected to result in only short-term exposures to flonicamid and, as a dermal endpoint was not selected, residential risk estimates were calculated for the inhalation route only.

Cumulative exposure. Section 408(b)(2)(D)(v) of FFDCA requires that, when considering whether to establish, modify, or revoke a tolerance, the Agency consider ''available information'' concerning the cumulative effects of a particular pesticide's residues and ''other substances that have a common mechanism of toxicity.'' Unlike other pesticides for which EPA has followed a cumulative risk approach based on a common mechanism of toxicity, EPA has not made a common mechanism of toxicity finding as to flonicamid and any other substances, and flonicamid does not appear to produce a toxic metabolite produced by other substances. For the purposes of this action, therefore, EPA has not assumed that flonicamid has a common mechanism of toxicity with other substances.

Safety factor for infants and children. EPA continues to conclude that there are reliable data to support the reduction of the Food Quality Protection Act (FQPA) safety factor from 10X to 1X. See Unit III. of the September 20, 2023, rulemaking for a discussion of the Agency's rationale for that determination.

Aggregate risks and determination of safety. EPA determines whether acute and chronic dietary pesticide exposures are safe by comparing dietary (food and drinking water) exposure estimates to the acute population-adjusted dose (aPAD) and chronic population-adjusted dose (cPAD). Short- and intermediate-term risks are evaluated by comparing the estimated total food, water, and residential exposure to the appropriate points of departure to ensure that an adequate margin of exposure (MOE) exists.

No adverse effect resulting from a single oral exposure was identified and no acute dietary endpoint was selected. Therefore, flonicamid is not expected to pose an acute risk. Chronic dietary risks are below the Agency's level of concern of 100% of the cPAD; they are 91% of the cPAD for children 1 to 2 years old, the group with the highest exposure.

For short-term aggregate risk, adult residential handler exposure estimates are aggregated with adult dietary exposure estimates, which are considered background. The estimated aggregate MOE for adult handlers is 1,100 and is not of concern because it is higher than the level of concern of 100. Short-term aggregate risk estimates for children are expected to be equivalent to chronic dietary risks.

A cancer dietary assessment was not conducted as flonicamid has been determined to be ''suggestive evidence of carcinogenicity, but not sufficient to assess human carcinogenicity potential.'' The Agency has determined that quantification of risk using a non-linear approach (*i.e.,* using a chronic reference dose) adequately accounts for all chronic toxicity, including

carcinogenicity that could result from exposure to flonicamid. As stated above, the chronic risks are not of concern.

Therefore, based on the risk assessments and information described above, EPA concludes there is a reasonable certainty that no harm will result to the general population, or to infants and children, from aggregate exposure to flonicamid residues. More detailed information on this action can be found in the Flonicamid Human Health Risk Assessment in docket ID EPA–HQ–OPP–2023–0280 at *https://www.regulations.gov.*

IV. Other Considerations

A. Analytical Enforcement Methodology

For a discussion of the available analytical enforcement method, see Unit IV.A. of the July 23, 2018, rulemaking.

B. International Residue Limits

In making its tolerance decisions, EPA seeks to harmonize U.S. tolerances with international standards whenever possible, consistent with U.S. food safety standards and agricultural practices. EPA considers the international maximum residue limits (MRLs) established by the Codex Alimentarius Commission (Codex), as required by FFDCA section 408(b)(4).

The tolerance expression for plant and livestock commodities are harmonized between the U.S. and Canada, but not Codex and Japan. Codex and Japanese residues of concern are expressed as flonicamid only, whereas U.S. residues of concern are flonicamid and its metabolites TFNA, TFNA–AM, and TFNG. Codex has an MRL for residues of flonicamid in or on low growing berries at 1.5 ppm, and Canada has MRLs for residues of flonicamid in or on bearberry; bilberry; blueberry, lowbush; cloudberry; cranberry; and lingonberry at 1.5 ppm. The existing U.S. tolerance for residues of flonicamid in or on berry, low-growing, subgroup 13–07G at 1.5 ppm is harmonized with Codex and Canadian MRLs. However, the petition requested that EPA increase the existing U.S. tolerance from 1.5 ppm to 2 ppm in order to harmonize with the Japanese MRL for residues of flonicamid in or on strawberry, cranberry, and other berries at 2 ppm and minimize barriers to imports of strawberries from Japan. Although this action is establishing a higher tolerance for residues of flonicamid in or on low growing berry, subgroup 13–07G that is no longer harmonized with Codex or Canadian MRLs, this is not expected to create a trade barrier to imports of these commodities from Codex countries and Canada since commodities that comply with the lower Codex and Canadian MRLs could be imported into the U.S. For these reasons, EPA has determined it is appropriate to amend the tolerance for residues of flonicamid in or on low growing berry, subgroup 13–07G from 1.5 ppm to 2 ppm, as petitioned.

C. Revisions to Petitioned-For Tolerances

EPA is amending the existing tolerance for residues of flonicamid in or on berry, low-growing, subgroup 13–07G by increasing the tolerance from 1.5 ppm to 2 ppm, rather than establishing different tolerances for berry, low-growing, subgroup 13–07G, except strawberry, and strawberry as originally requested. Because strawberry is the representative commodity for berry, low-growing, subgroup 13–07G, it may not be excepted from the crop subgroup under 40 CFR 180.40(h). A revised petition was submitted by ISK Biosciences Corporation to support this change to the petitioned-for tolerance.

V. Conclusion

Therefore, the established tolerance for residues of flonicamid in or on berry, low-growing, subgroup 13–07G is amended from 1.5 ppm to 2 ppm.

VI. Statutory and Executive Order Reviews

This action establishes a tolerance under FFDCA section 408(d) in response to a petition submitted to the Agency. The Office of Management and Budget (OMB) has exempted these types of actions from review under Executive Order 12866, entitled ''Regulatory Planning and Review'' (58 FR 51735, October 4, 1993). Because this action has been exempted from review under Executive Order 12866, this action is not subject to Executive Order 13211, entitled ''Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use'' (66 FR 28355, May 22, 2001), or to Executive Order 13045, entitled ''Protection of Children from Environmental Health Risks and Safety Risks'' (62 FR 19885, April 23, 1997). This action does not contain any information collections subject to OMB approval under the Paperwork Reduction Act (PRA) (44 U.S.C. 3501 *et seq.*), nor does it require any special considerations under Executive Order 12898, entitled ''Federal Actions to Address Environmental Justice in Minority Populations and Low-Income Populations'' (59 FR 7629, February 16, 1994).

Since tolerances and exemptions that are established on the basis of a petition under FFDCA section 408(d), such as the tolerance in this final rule, do not require the issuance of a proposed rule, the requirements of the Regulatory Flexibility Act (RFA) (5 U.S.C. 601 *et seq.*), do not apply.

This action directly regulates growers, food processors, food handlers, and food retailers, not States or Tribes, nor does this action alter the relationships or distribution of power and responsibilities established by Congress in the preemption provisions of FFDCA section 408(n)(4). As such, the Agency has determined that this action will not have a substantial direct effect on States or Tribal Governments, on the relationship between the National Government and the States or Tribal Governments, or on the distribution of power and responsibilities among the various levels of government or between the Federal Government and Indian Tribes. Thus, the Agency has determined that Executive Order 13132, entitled ''Federalism'' (64 FR 43255, August 10, 1999) and Executive Order 13175, entitled ''Consultation and Coordination with Indian Tribal Governments'' (65 FR 67249, November 9, 2000) do not apply to this action. In addition, this action does not impose any enforceable duty or contain any unfunded mandate as described under Title II of the Unfunded Mandates Reform Act (UMRA) (2 U.S.C. 1501 *et seq.*).

This action does not involve any technical standards that would require Agency consideration of voluntary consensus standards pursuant to section 12(d) of the National Technology Transfer and Advancement Act (NTTAA) (15 U.S.C. 272 note).

VII. Congressional Review Act

Pursuant to the Congressional Review Act (5 U.S.C. 801 *et seq.*), EPA will submit a report containing this rule and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. This action is not a ''major rule'' as defined by 5 U.S.C. 804(2).

List of Subjects in 40 CFR Part 180

Environmental protection, Administrative practice and procedure, Agricultural commodities, Pesticides, and pests, Reporting and recordkeeping requirements.

Dated: April 23, 2024.

Charles Smith,

Director, Registration Division, Office of Pesticide Programs.

Therefore, for the reasons stated in the preamble, EPA is amending 40 CFR chapter 1 as follows:

PART 180—TOLERANCES AND EXEMPTIONS FOR PESTICIDE CHEMICAL RESIDUES IN FOOD

■ 1. The authority citation for part 180 continues to read as follows:

Authority: 21 U.S.C. 321(q), 346a and 371.

■ 2. In § 180.613, revise the entry in table 1 to paragraph (a)(1) for ''Berry, low-growing, subgroup 13–07G'' to read as follows:

§ 180.613 Flonicamid; tolerances for residues.

(a) * * *

(1) * * *

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

43 CFR Part 8360

[BLM_CA_FRN_MO4500173363]

Final Supplementary Rule for Public Lands in the Cotoni-Coast Dairies Unit of the California Coastal National Monument in Santa Cruz County, CA

AGENCY: Bureau of Land Management, Interior.

ACTION: Final supplementary rule.

SUMMARY: The Bureau of Land Management (BLM) is finalizing a supplementary rule for all public lands within the Cotoni-Coast Dairies (C–CD) unit of the California Coastal National Monument (CCNM) in Santa Cruz County, California. The final supplementary rule will allow the BLM to manage recreation, address public safety, and provide resource protection on BLM-managed public lands within the C–CD unit of the CCNM. The supplementary rule is needed to enforce the BLM's decisions established in the CCNM Resource Management Plan, as amended.

DATES: These supplementary rules are effective May 29, 2024.

ADDRESSES: You may submit inquiries by mail, hand-delivery, or electronic mail. Mail: Bureau of Land Management, California State Office, 2800 Cottage Way Suite W1623, Sacramento, CA 95825. Electronic mail: *BLM_CA_Web_SO@blm.gov.*

FOR FURTHER INFORMATION CONTACT: Sky Murphy, Planning and Environmental Coordinator, BLM Central Coast Field Office; telephone: (831) 582–2200, email: *smurphy@blm.gov.*

Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services. Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States.

SUPPLEMENTARY INFORMATION:

I. Background

The BLM completed the C–CD Resource Management Plan (RMP) amendment on June 23, 2021, to establish land use decisions that protect the objects and values of the C–CD unit of the CCNM and to support responsible recreation opportunities. Public participation during planning for the use and enjoyment of the C–CD unit indicates that it will be a popular area for recreating, and a supplementary rule is needed to allow for law enforcement to enforce land-use decisions for managing recreation and to protect cultural and natural resources.

This final supplementary rule will apply to all the BLM-managed lands in the C–CD unit. Persons performing essential operations central to the BLM's mission will be exempt. Such persons include, for example, members of any organized law enforcement, rescue, or fire-fighting force.

The final supplementary rule is needed to provide consistency and uniformity for visitors to BLM-managed lands, prevent resource damage and user conflicts, and provide greater safety to the visiting public.

Resource Damage: Presidential Proclamation 9563 added the C–CD unit to the CCNM and identified objects to be protected. To ensure protection of the objects identified in Proclamation 9563, particularly biological and cultural objects, the final rule prohibits use and occupancy of the C–CD from ½ hour after sunset to ½ hour before sunrise. The final supplementary rule requires visitors to stay on roads and trails designated open for non-motorized and mechanized use. The supplementary rule requires pets to be on a leash at all times, and visitors are prohibited from leaving a pet unattended or allowing pet feces to remain on C–CD, other than within trash receptacles provided for such purposes.

Public Safety: As visitation increases among all types of recreational users, so do the conflicts between user groups. In crowded areas, conflicts among users increase risk to visitor safety. Other recreationists and nearby landowners also have concerns for their personal safety, as well as damage to property. To ensure public safety and reduce the risk of wildfire, the final supplementary rule prohibits recreational target shooting, camping, and fires of any kind. To minimize other visitor-use conflicts, the final supplementary rule prohibits leaving property unattended for more than 24 hours, building any structure, placing signs of any kind, and the possession or use of metal detecting devices. The supplementary rule prohibits taking off or landing of aircraft, including unmanned aircraft systems, paragliding, hang-gliding, and similar recreational uses within the C–CD unit of the CCNM.

At present, no supplementary rules are in effect for BLM-managed public lands in the C–CD unit. Therefore, this supplementary rule is needed to address

management issues and concerns with respect to public use of this area.

The authority for this supplementary rule is set forth at sections 303 and 310 of the Federal Land Policy and Management Act, 43 U.S.C. 1733 and 1740. The BLM is issuing this supplementary rule under the authority of 43 CFR 8365.1–6, which allows BLM State Directors to establish supplementary rules for the protection of persons, property, and public lands and resources.

II. Discussion of Public Comments and Rationale for Final Supplementary Rule

On November 29, 2022, the BLM published a proposed supplementary rule (87 FR 73276), initiating a 60-day public comment period that ended on January 29, 2023. The BLM received 16 unique comments signed by 54 individuals and organizations on the proposed supplementary rule.

Eleven of the unique comments did not specifically address the proposed supplementary rule. The BLM made no changes to the final supplementary rule based on these unrelated comments.

The remainder of the comments provided suggestions for how the BLM could make the final rule clearer and provide additional protection of resources.

Public comments expressed support for the supplementary rule and the importance of adhering to the BLM's policy and guidance for lands within the National Landscape Conservation System.

Public comments suggested the BLM clarify Rules 3, 7, 19, and 21. The BLM did not make changes to Rules 3, 7, 19, or 21 in response to these comments. The BLM disagrees with the commenters that the language needs clarifying. The proposed and final rules are written in plain language and need no further explanation.

Public comments also recommended that the BLM change Rule 17 to prohibit ''unlawfully taking or possessing wildlife, plants, or plant communities, or portions thereof, listed as Objects of the Monument.'' However, BLM law enforcement already has authority to issue citations for removal and destruction of plants, except as permitted, under 43 CFR 8365.1–5(a)(2). No changes were made to Rule 17 because the purpose of this rule is to allow the BLM to enforce hunting restrictions that are consistent with California Department of Fish and Wildlife (CDFW) regulations. As noted by the comments on Rule 17, the BLM plans to seek approval from CDFW to allow archery hunting at C–CD.

Public comments suggested that the BLM should also revise Rule 18 so that it mirrors the language of the Endangered Species Act (ESA), which would prohibit ''disturbing, harming, or harassing wildlife, plants, or plant communities, or portions thereof, listed as objects of the Monument.'' Another comment asked that proposed Rule 18 be revised to prohibit disturbing wildlife in any manner and by any means. Final Rule 18, however, is intended to address impacts from sustained loud noises because that is the particular issue that BLM believes needs to be addressed at this time. The agency does not currently believe that it is necessary to promulgate a rule that penalizes the disturbance of wildlife in any manner, and no changes were made to Rule 18. The BLM could promulgate additional wildlife-related supplementary rules in the future if the need arises.

Public comments also requested additional rules that would address problems related to fireworks; unauthorized release of translocated animals, plants, or organisms; and public interference with authorized livestock and grazing operations. The BLM did not incorporate any of these suggested additional rules into the final rule because other portions of the final rule and existing regulations already address these concerns. For example, Rule 12 will allow the BLM to enforce restrictions on fires of any kind, including fireworks. Under 43 CFR 9212.1, the BLM can also prohibit sources of ignition through its fire management and prevention rules at C–CD. Knowingly introducing weeds or pathogens is prohibited by 43 CFR 8365.1–4(a)(2) (creating a hazard or nuisance) and 43 CFR 9264.1(h). California state law CPC 597s prohibits the willful abandonment of an animal. Under 43 CFR 9264.1(e) the BLM can issue citations for molesting livestock; and 43 CFR 8365.1–5(a)(1), 43 CFR 8365.1–5(a)(2), and 43 CFR 8365.1–5(a)(3) provide additional protections for structures, natural objects, and minerals.

Ultimately, there were only two substantive changes, to proposed Rules 6 and 14, based on public comments. Proposed Rule 6 said, ''established parking areas are for the use of visitors to Cotoni-Coast Dairies unit of the California Coastal National Monument only.'' A commenter stated that those using parking lots are, by definition, visitors to the C–CD property by virtue of using a parking lot. To avoid having visitors use the lots to access beaches that are not in the C–CD, the commenter suggested Rule 6 be revised to say ''visitors leaving vehicles in parking areas shall not depart from the Cotoni-Coast Dairies unit of the California Coastal Monument while their vehicles remain in those parking areas.'' The BLM agrees with the commenter that the potential for pedestrians crossing State and County roads near the C–CD to use nearby beaches at un-marked locations is a risk to public safety. Rather than adopt the language recommended by the commenter, final Rule 6 has been reworded to clarify that ''*members of the public are prohibited from leaving the C–CD unit of the CCNM while their vehicle is parked in BLM-managed parking areas*'' Rule 6 will be prominently incorporated into the BLM's outreach and education for C–CD to inform the public that the BLM-managed parking areas are not designed to support coastal access for beach-going visitors; and the BLM's law enforcement officers will have the authority to issue citations to persons violating the rule. This change will improve public safety by reducing the frequency of visitors crossing roads at un-marked locations while attempting to use BLM-managed parking areas to access coastal beaches or adjacent lands. Similarly, another commenter suggested the BLM add a rule that would prohibit unpermitted trail improvements. Rather than include a new rule, the BLM made a minor change to final Rule 14, to explain that ''construction or building of any structure, including trails, is prohibited.'' This change will improve public awareness that unauthorized improvements to recreation facilities, including trails, would be a violation of the supplementary rule for C–CD unit of the CCNM.

The BLM determined that the remaining comments from individuals related to management of C–CD do not warrant changes to the final supplementary rule. For example, one commenter requested the addition of subheadings to the regulations, which is unnecessary because the final rule is already relatively short and is arranged in a logical order.

In another example, one commenter asked that the BLM include a definition for ''electric mobility products,'' which is used in Rule 3. The definition provided for Rule 3, which can be found in 43 CFR 8340.0–5(j), will allow the BLM to restrict the use of electric bikes. The BLM determined a definition for ''electric mobility products'' is not needed because it is written in plain language and encompasses a wide range of motor-powered personal mobility devices used for transporting an individual at speeds that do not normally exceed 20 miles per hour.

Nothing in the final rule will diminish the BLM's responsibility to provide reasonable modifications for access in accordance with Section 504 of the Rehabilitation Act and ensure that persons with disabilities receive the benefits and services of BLM programs and activities.

Restrictions on feeding wild animals can be enforced under 43 CFR 8365 (creating a hazard or nuisance).

Commenters suggested that instead of Rule 7 prohibiting the use of public lands within the C–CD starting ½ hour after sunset and ending ½ hour before sunrise, Rule 7 should prohibit use before ''sunrise'' and after ''sunset,'' or add a definition for these two terms. Neither of these changes would make Rule 7 more effective because sunrise and sunset fluctuate daily, depending on the time of the year and the latitude and longitude of a specific location. The BLM also anticipates many visitors who enjoy watching the sunrise (or sunset) will arrive (or depart) during the ½ hour grace period. The plain language of Rule 7 is simple and easy to understand, and it is common for land management agencies to restrict occupancy and use of outdoor recreation areas starting 30 minutes after sunset and ending 30 minutes before sunrise.

Similarly, one comment requested that we add a definition for ''service animal'' to Rule 8. A definition of ''service animal'' that is similar to the definition in the Americans with Disabilities Act of 1990, as amended, has been added.

One commenter asked for an additional rule that would prohibit unauthorized commercial activities. The BLM did not include this change in the final rule because unauthorized commercial activities are already prohibited under 43 CFR 2932.57.

Commenters asked the BLM to clarify the types of persons that would be exempt from this final rule and how the public would be informed of such exemptions. The BLM did not make changes in response to this request because the language of the final supplementary rule plainly states that exempt persons include any Federal, State, or local officer or employee in the scope of their duties; members of any organized law enforcement, rescue, or fire-fighting force in performance of an official duty; and any person whose activities are authorized in writing by the BLM. Based on the standard exemption language, the BLM's authorized officer can provide written approval to persons that support operations necessary to pursue the BLM's goals and objectives for C–CD. Examples include, but are not limited to, livestock operators, scientists and other researchers, Tribal members, contractors, volunteers, and existing rights holders.

Comments related to development of BLM management plans and resource inventories are outside the scope of this final supplementary rule. Accordingly, the BLM made no changes in response to those comments. As stated earlier, this final supplementary rule is based on management actions listed in the Decision Record for the C–CD RMP amendment, approved on June 23, 2021, and the original CCNM RMP completed in 2005, both of which involved extensive public involvement.

The final supplementary rule will allow the BLM to enforce portions of the C–CD RMP amendment and other existing policies that guide management and protection of monument objects and values identified in Presidential Proclamation 9563, signed January 12, 2017. The public will be informed of these restrictions with signs posted along roads, in parking areas, and other important locations. Additional public notice of the BLM final supplementary rule will be provided through local news releases, social media, and information published on maps, brochures, educational materials, and websites. As a result, the final supplementary rule is expected to promote stewardship of the public lands and increase appreciation and understanding of the resource objects and values of the C–CD unit of the CCNM.

The BLM's final supplementary rule decision may be appealed to the Interior Board of Land Appeals, Office of the Secretary, in accordance with the regulations contained in 43 CFR part 4.

III. Procedural Matters

Regulatory Planning and Review (Executive Orders (E.O.) 12866 and 13563)

This final supplementary rule is not a significant regulatory action and is not subject to review by the Office of Management and Budget under Executive Order 12866, as amended by E.O. 14094. The final supplementary rule will not have an annual effect of $200 million or more on the economy. It is not intended to affect commercial activity, but rather impose rules of conduct on recreational visitors for public safety and resource protection reasons in a limited area of public lands. This final supplementary rule will not adversely affect, in a material way, the economy, productivity, competition, jobs, the environment, public health or safety, or state, local, or Tribal governments or communities. This final supplementary rule will not create a serious inconsistency or otherwise interfere with an action taken or planned by another agency. This final supplementary rule will not materially alter the budgetary effects of entitlements, grants, user fees, or loan programs, or the right or obligations of their recipients, nor does it raise novel legal or policy issues. It merely strives to protect public safety and the environment.

Regulatory Flexibility Act

Congress enacted the Regulatory Flexibility Act (RFA), 5 U.S.C. 601–612, to ensure that government regulations do not unnecessarily or disproportionately burden small entities. The RFA requires a regulatory flexibility analysis if a rule would have a significant economic impact, either detrimental or beneficial, on a substantial number of small entities. The final supplementary rule does not pertain specifically to commercial or governmental entities of any size, but to public recreational use of specific public lands. Therefore, the BLM has determined that under the RFA the final supplementary rule will not have a significant economic impact on a substantial number of small entities.

Congressional Review Act

This final supplementary rule does not meet the criteria of 5 U.S.C. 804(2). This final supplementary rule merely contains rules of conduct for recreational use of public lands. This final supplementary rule will not affect business, commercial, or industrial use of the public lands.

Unfunded Mandates Reform Act

This final supplementary rule will not impose an unfunded mandate on State, local, or Tribal governments in the aggregate, or the private sector, of more than $100 million per year; nor will it have a significant or unique effect on small governments. This final supplementary rule does not require anything of State, local, or Tribal governments. Therefore, the BLM is not required to prepare a statement containing the information required by the Unfunded Mandates Reform Act, 2 U.S.C. 1531 *et seq.*

Governmental Actions and Interference With Constitutionally Protected Property Rights—Takings (E.O. 12630)

This final supplementary rule will not affect a taking of private property or otherwise have taking implications under E.O. 12630. This final supplementary rule will not address

property rights in any form and will not impair any property rights. Therefore, the BLM has determined that this final supplementary rule will not cause a taking of private property or require further discussion of takings implications under this E.O.

Federalism (E.O. 13132)

This final supplementary rule will not have a substantial direct effect on the States, on the relationship between the Federal government and the States, or on the distribution of power and responsibilities among the various levels of government. This final supplementary rule will apply to a limited area of land in only one State: California. This supplementary rule contains rules of conduct for recreational use of BLM-managed public lands to protect public safety and the environment. Therefore, the BLM has determined that this final supplementary rule will not have sufficient federalism implications to warrant preparation of a federalism assessment.

Civil Justice Reform (E.O. 12988)

Under E.O. 12988, the BLM has determined that this final supplementary rule will not unduly burden the judicial system and that the requirements of sections 3(a) and 3(b)(2) of the Order are met. More specifically, this final rule meets the criteria of section 3(a), which requires agencies to review all regulations to eliminate errors and ambiguity and to write all regulations to minimize litigation. This final rule also meets the criteria of section 3(b)(2), which requires agencies to write all regulations in clear language with clear legal standards.

Consultation and Coordination With Indian Tribal Governments (E.O. 13175 and Departmental Policy)

The Department strives to strengthen its government-to-government relationship with Indian Tribes through a commitment to consultation with Indian Tribes and recognition of their right to self-governance and Tribal sovereignty. The BLM evaluated this final rule under the Department's consultation policy and under the criteria in E.O. 13175 to identify possible effects of the rule on federally recognized Indian Tribes. The BLM has found that this final supplementary rule will have no substantial direct effects on federally recognized Indian Tribes and that consultation under the Department's Tribal consultation policy is not required. This final supplementary rule will not affect lands held in trust for the benefit of Native American Tribes, individual Indians, Aleuts, or others.

Paperwork Reduction Act (44 U.S.C. 3501 et seq.)

This final supplementary rule does not contain information collection requirements that the Office of Management and Budget must approve under the Paperwork Reduction Act, 44 U.S.C. 3501 *et seq.*

National Environmental Policy Act

The final supplementary rule will facilitate implementation of management direction established in CCNM RMP, as amended, and the C–CD RMP amendment. The environmental impacts of the final supplementary rule were analyzed in the Environmental Impact Statement supporting the CCNM RMP and the environmental assessment (EA), dated September 25, 2020, supporting the C–CD RMP amendment. Therefore, additional NEPA analysis is not necessary.

Effects on the Energy Supply (E.O. 13211)

This final supplementary rule will not comprise a significant energy action. This supplementary rule will not have an adverse effect on energy supplies, production, or consumption. It only addresses rules of conduct for recreational use of BLM-managed public lands to protect public safety and the environment and has no connection with energy policy.

Author

The principal author of the final supplementary rule is Nicholas Lasher, BLM Law Enforcement Officer for the Central Coast Field Office, California.

V. Final Rule

For the reasons stated in the preamble, and under the authority for supplementary rules at 43 U.S.C. 1740 and 43 CFR 8365.1–6, the California State Director, Bureau of Land Management, establishes a final supplementary rule for all public lands included in the Cotoni-Coast Dairies (C–CD) unit of the California Coastal National Monument (CCNM) to read as follows:

Definitions

Designated roads and trails means any road or trail that the BLM has posted as open for public use.

Pet means any domestic animal that is not classified as a ''service animal.''

Public lands means any lands or interest in lands managed by the BLM.

Public road means any road, dirt or otherwise, on which public motorized vehicular traffic is permitted.

Recreational target shooting means shooting a weapon for recreational purposes when game is not being legally pursued. Weapon includes any firearm, cross bow, bow and arrow, paint gun, fireworks, or explosive device capable of propelling a projectile either by means of an explosion or by string or spring.

Service animal means a dog, or other animal, that is individually trained to do work or perform tasks for people with disabilities.

Traffic control devices means markers, signs, and signal devices used to inform, guide, and control traffic, including pedestrians, motorists, cyclists, or electronic mobility products.

Unattended pet means any pet that is unaccompanied by an owner or handler, even if on a tether, within a crate, or within an unoccupied motor vehicle.

Unmanned aircraft system means any aircraft without a human pilot on board (*e.g.,* drones).

Restrictions on public lands in the C–CD unit of the CCNM:

1. All public use is restricted to designated roads and trails.

2. Bicycles and bicycle riding are prohibited except on designated roads and trails that are posted as open for bicycle and bicycle riding use.

3. Electric bicycles, as defined in 43 CFR 8340.0–5(j), are prohibited except on roads designated for such use in accordance with applicable law. All other electric mobility products are prohibited except within established parking areas and public roads, and in accordance with applicable law.

4. Horseback riding is prohibited except on designated roads and trails that are posted as open for horseback riding use.

5. Violating any posted sign, rule, or notification, including any traffic control device, is prohibited.

6. Members of the public are prohibited from leaving the C–CD unit of the CCNM while their vehicle is parked in BLM-managed parking areas.

7. Use and occupancy of all lands within the C–CD are prohibited from ½ hour after sunset to ½ hour before sunrise.

8. Pets are prohibited except on designated roads and trails that are posted as open for their use. Service animals are exempt from this rule.

9. All pets must be physically restrained, or on a leash or cord not to exceed 6 feet in length, at all times.

10. Visitors are prohibited from leaving a pet unattended.

11. It is unlawful for the owner or person having custody of any pet to allow pet feces to remain on C–CD, either willfully or through failure to

exercise due care or control, other than within trash receptacles provided for such purposes.

12. Fires of any kind are prohibited, including open fire, wood, charcoal, and gas.

13. Abandoning property or leaving property unattended for more than 24 hours is prohibited. The BLM may remove and appropriately dispose of unattended property.

14. Construction or building of any structure, including trails, is prohibited.

15. Placing flagging, markings, or signs of any kind is prohibited.

16. Possession or use of a mineral or metal detector, magnetometer, side scan sonar, other metal detecting device, or sub-bottom profiler is prohibited.

17. The taking of wildlife, except for authorized hunting activities in accordance with California Department of Fish and Wildlife regulations, and possessing unlawfully taken wildlife or portions thereof, is prohibited.

18. Knowingly or willfully disturbing wildlife with audio devices, including speakers, air horns, and musical instruments, is prohibited.

19. Taking off or landing of aircraft, including unmanned aircraft systems, is prohibited.

20. Taking off or landings a paraglider, hang-glider, or similar recreational equipment is prohibited within the C–CD unit of the CCNM.

21. Recreational target shooting is prohibited.

Exemptions

The following persons are exempt from these final supplementary rules: Any Federal, State, or local officer or employee in the scope of their duties; members of any organized law enforcement, rescue, or fire-fighting force in performance of an official duty; and any person whose activities are authorized in writing by the BLM.

Enforcement

Any person who violates any part of the final supplementary rule may be tried before a United States Magistrate and fined in accordance with 18 U.S.C. 3571, imprisoned no more than 12 months under 43 U.S.C. 1733(a) and 43 CFR 8360.0–7, or both. In accordance with 43 CFR 8365.1–7, State or local officials may also impose penalties for violations of California and local law.

(Authority: 43 CFR 8365.1–6)

Gordon Toevs,

Acting California State Director.

[FR Doc. 2024–08608 Filed 4–26–24; 8:45 am]

BILLING CODE 4331–15–P

FEDERAL COMMUICATIONS COMMISSION

47 CFR Parts 0 and 101

[WT Docket No. 20–133; FCC 24–16; FR ID 207939]

Modernizing and Expanding Access to the 70/80/90 GHz Bands; Report and Order

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: In this document, the Federal Communications Commission (Commission) continues to play a leading role in fostering innovation in the provisioning of broadband, including through novel technological solutions as well as fifth-generation wireless technology (5G). Meeting the non-stop growth in demand for wireless broadband connectivity is more important than ever due to the outsized impact the internet has on its work, education, health care, and personal connections. Recognizing this reality, and to help close the digital divide, the *Report and Order* adopts new rules and updates preexisting ones. The Commission also updates its rules to permit the use of smaller and lower-cost antennas to facilitate the provision of backhaul service and mandates a channelization plan . Finally, the Commission adopts changes to the link registration process in certain bands requiring certification of construction of registered links to promote more efficient use of this spectrum and improve the accuracy of the link registration database.

DATES: Effective May 29, 2024, except for the addition of § 101.147(z)(3) at instruction 9, which is effective on September 1, 2024. The amendments to §§ 101.63(b) at instruction 5, 101.1523(a) and (e) at instruction 12, and 101.1528(a)(11), (b)(10), and (d) at instruction 14 are delayed indefinitely. The Federal Communications Commission will publish a document in the **Federal Register** announcing the effective date for the amendments to §§ 101.63(b), 101.1523(a) and (e), and 101.1528(a)(11), (b)(10), and (d).

FOR FURTHER INFORMATION CONTACT: Jeffrey Tignor, Wireless Telecommunications Bureau, Broadband Division, at *Jeffrey.Tignor@fcc.gov* or 202–418–0774.

SUPPLEMENTARY INFORMATION: This is a summary of the Commission's *Report and Order* in WT Docket No. 20–33, FCC 24–16; adopted on January 24, 2024 and released on January 26, 2024. The full text of this document (as corrected by Erratum released on April 10, 2024) is available at *https://docs.fcc.gov/public/attachments/FCC-24-16A1.pdf.*

Final Regulatory Flexibility Analysis

As required by the Regulatory Flexibility Act of 1980, as amended (RFA), an Initial Regulatory Flexibility Analysis (IRFA) was incorporated into the *Modernizing and Expanding Access to the 70/80/90 GHz Bands, Notice of Proposed Rulemaking (70/80/90 GHz NPRM)* released in June 2020 (85 FR 40168, July 6, 2020). The Commission sought written public comment on the proposals in the *NPRM,* including comments on the IRFA. No comments were filed addressing the IRFA. This present Final Regulatory Flexibility Analysis (FRFA) conforms to the RFA.

Congressional Review Act

The Commission will submit the *Report and Order* to the Administrator of the Office of Information and Regulatory Affairs, Office of Management and Budget, for concurrence as to whether this rule is ''major'' or ''non-major'' under the Congressional Review Act, 5 U.S.C. 804(2). The Commission will send a copy of this *Report and Order* to Congress and the Government Accountability Office pursuant to 5 U.S.C. 801(a)(1)(A).

I. Background

1. In the United States, the 71–76 GHz, 81–86 GHz, 92–94 GHz, and 94.1–95 GHz bands (collectively, the 70/80/90 GHz bands) are allocated on a co-primary basis for Federal and non-Federal use, as follows.

Band	Non-Federal use	Federal use
71–74 GHz	Fixed, Fixed Satellite, Mobile, and Mobile Satellite.	Fixed, Fixed Satellite, Mobile, and Mobile Satellite.

[1] Additional allocations for Federal and non-Federal use for Space Research are on a secondary basis.

Band	Non-Federal use	Federal use
74–76 GHz [1]	Fixed, Fixed Satellite, Mobile, Broadcasting, and Broadcasting Satellite.	Fixed, Fixed Satellite, and Mobile.
81–84 GHz	Fixed, Fixed Satellite, Mobile, Mobile Satellite, and Radio Astronomy.	Fixed, Fixed Satellite, Mobile, Mobile Satellite, and Radio Astronomy.
84–86 GHz	Fixed, Fixed Satellite, Mobile, and Radio Astronomy.	Fixed, Fixed Satellite, Mobile, and Radio Astronomy.
92–94 GHz, 94.1–95 GHz	Fixed, Mobile, Radio Astronomy, and Radiolocation.	Fixed, Mobile, Radio Astronomy, and Radiolocation.

In the 71–76 GHz (70 GHz) and 81–86 GHz (80 GHz) bands Fixed, Mobile, and Broadcasting services must not cause harmful interference to, nor claim protection from, Federal Fixed-Satellite Service operations located at 28 military installations. In addition, in the 80 GHz band, and in the 92–94 GHz and 94.1–95 GHz bands (collectively, the 90 GHz band), licensees proposing to register links located near 18 radio astronomy observatories must coordinate their proposed links with those observatories. The 94–94.1 GHz frequencies are allocated for Federal use for Earth Exploration Satellite (active), Radiolocation, and Space Research (active) and for non-Federal use for Radiolocation. Additionally, the adjacent 86–92 GHz band is allocated for Federal and non-Federal Earth Exploration-Satellite (passive), Space Research (passive), and Radio Astronomy services and is subject to footnote US246.

2. In 2003, the Commission established service rules for non-Federal use of the 70/80/90 GHz bands through a two-step, non-exclusive licensing regime. Users first obtain a nationwide, non-exclusive license for the entire 12.9 gigahertz of the 70/80/90 GHz bands and then register individual links in a database administered by third-party database managers. Since 2004, the Wireless Telecommunications Bureau (WTB) has designated four entities to be database managers; there are currently two: Comsearch and Micronet Communications, Inc. In order for a link to be registered, it must be coordinated successfully with Federal operations—typically through the National Telecommunications and Information Administration's (NTIA) online, automated mechanism. If a proposed link does not interfere with existing Federal operations then it is given a ''green light;'' if it may interfere with existing Federal operations, then it is given a ''yellow light,'' indicating that the licensee must file a registration application for the link with the FCC for coordination with NTIA. The ''green light''/''yellow light'' system protects the sensitive nature of the locations of military installations. Also, the licensee must provide an analysis to the third-party database manager demonstrating that the proposed link will neither cause harmful interference to, nor receive harmful interference from, any previously registered non-government link. Licensees are afforded first-in-time priority for successfully registered links relative to links that are successfully registered at a later point in time. Registered links must be constructed within 12 months of their registration. Under part 101, non-Federal licensees may use the 70/80/90 GHz bands for any point-to-point, non-broadcast service.

3. In June 2020, the Commission adopted the aforementioned *70/80/90 GHz NPRM* in this proceeding, seeking comment on both adopting new rules and updating preexisting rules to further enable non-Federal uses of the 70/80/90 GHz bands. Among a range of issues and proposals—which the Commission said it would work with NTIA to evaluate—the *70/80/90 GHz NPRM* sought comment on requests from Aeronet Global Communications, Inc. (Aeronet) to authorize point-to-point links to endpoints in motion in the 70 GHz and 80 GHz bands to facilitate broadband service to ships and aircraft in motion, as well as on whether to classify those links as ''mobile'' service (the Aeronet Petitions). Although the Aeronet Petitions proposed that endpoints in motion operations be permitted in the 70, 80 and 90 GHz bands, several parties that commented on the Aeronet Petitions expressed concerns about co-existence with other services in the 90 GHz band. The *70/80/90 GHz NPRM* did not propose to authorize endpoints in motion in the 90 GHz band. Noting that the 70/80/90 GHz bands could provide a ''unique spectrum resource'' for ''the provisioning of broadband services to airplanes, ships, and other antennas in motion,'' the Commission sought comment on technical and operational rules to allow these new service offerings in the 70 GHz and 80 GHz bands and to mitigate interference to incumbents and other proposed users of these bands and adjacent bands.

4. The *70/80/90 GHz NPRM* also proposed several changes to the antenna standards for the 70 GHz and 80 GHz bands to provide greater flexibility in deploying wireless backhaul, noting industry's assessment of its needs. The *70/80/90 GHz NPRM* sought comment as well on whether adopting a channelization plan would promote more efficient use of the 70 GHz and 80 GHz bands. In addition, the *70/80/90 GHz NPRM* asked about whether the Commission should make changes to the link registration rules for the 70, 80, and 90 GHz bands. Parties including aeronautical and satellite companies, radio astronomy interests, equipment manufacturers, fixed and mobile wireless entities, and organizations focused on meteorology filed in response to the *70/80/90 GHz NPRM.* Commenters discussed Aeronet's proposals, the suitability of the bands for backhaul, and a range of ways to improve the bands' overall functionality (such as channelization and updates to the relevant antenna standards and link registration process).

5. Following the *70/80/90 GHz NPRM,* in October 2021 WTB issued a Public Notice seeking to further develop the record on the use of High Altitude Platform Stations (*HAPS Public Notice*) or other stratospheric-based platform services in the 70/80/90 GHz bands. The Commission's rules define a ''High Altitude Platform Station'' as a ''station located on an object at an altitude of 20 to 50 km and at a specified, nominal, fixed point relative to the earth.'' Fifteen Comments and five Reply Comments were filed in response to the *HAPS Public Notice,* with participants ranging from past commenters on the original *70/80/90 GHz NPRM* to additional governmental entities and public interest groups, among others.

6. In the *70/80/90 GHz NPRM,* the Commission committed to coordinate with NTIA prior to adopting any rules in this proceeding that would affect Federal users, given that allocations for the 70 GHz and 80 GHz bands include both Federal and non-Federal use. In response to the *70/80/90 GHz NPRM,* NTIA established a technical interchange group (TIG) with representatives from the affected Federal agencies, including National Aeronautics and Space Administration,

the National Oceanic and Atmospheric Administration, the National Science Foundation, the Department of the Air Force, and NTIA itself (collectively, the Federal Agencies) (Federal Agencies Letter). Commission staff participated in regular information exchange meetings with the TIG. The Federal Agencies, through NTIA, submitted a summary of their analyses and a set of proposed interference mitigation measures to the record. On October 18, 2023, the Bureau issued a Public Notice seeking to refresh the overall record in this proceeding and seeking comment, in particular, on the Federal Agencies' proposals (*Refresh Public Notice*). Nine parties—eight of which had already participated in the record to date—filed comments in response to the *Refresh Public Notice.*

II. Report and Order

7. After reviewing the record, the Commission adopts rules to allow for point-to-point links to endpoints in motion—specifically, links on aircraft and on ships—in the 70 GHz and 80 GHz bands under its part 101 rules. The Commission also adopts changes to its rules to facilitate the use of the 70 and 80 GHz bands for backhaul, including through the use of smaller antennas, and to improve the accuracy of the link registration database for the 70/80/90 GHz bands. Specifically, the Commission adopts proposals to increase maximum antenna beamwidth from 1.2 degrees to 2.2 degrees; reduce minimum antenna gain from 43 dBi to 38 dBi while retaining the proportional EIRP reduction requirement; eliminate the co-polar and relax the cross-polar discrimination requirements at angles less than 5 degrees; revise the co-polar and cross-polar discrimination requirements at angles between 5 degrees and 180 degrees; and allow minor modifications to registrations in the 70/80/90 GHz bands without the loss of first-in-time rights. The Commission further adopts a channelization plan consistent with Recommendation ITU–R F.2006. Finally, the Commission adopts a requirement that licensees certify that each link is constructed and operating within 12 months of successful registration in the link registration system (LRS) administered by third-party database managers.

A. Enabling Point-to-Point Communications to Aircraft and Ships

8. Pursuant to the Aeronet Petitions—one addressing aeronautical service, the other maritime service—the *70/80/90 GHz NPRM* proposed to authorize point-to-point links to endpoints in motion on aircraft and on ships in the 70 GHz and 80 GHz bands. The *70/80/90 GHz NPRM* sought comment on this proposal, with a focus on potential impacts on other services, including radio astronomy service (RAS), Earth Exploration-Satellite Service (passive) (EESS), FSS, and terrestrial fixed point-to-point links in the Fixed Service (FS).

9. As noted above, in the *70/80/90 GHz NPRM* the Commission committed to coordinate with NTIA prior to adopting any rules in this proceeding that would affect Federal users; this coordination ultimately resulted in the work of NTIA's TIG and the submission of the Federal Agencies Letter, which was one of the topics specifically noted in the Commission's *Refresh Public Notice.* Both the Federal Agencies Letter and the responsive filings in the record have advanced the Commission's efforts to enable innovative new uses of this band in both the aeronautical and the maritime contexts, while ensuring adequate interference protection for incumbents and other authorized services in these and adjacent bands.

10. In order to facilitate increased provision of broadband service and enhanced competition in the aviation and maritime markets, the Commission adopts rules authorizing point-to-point links to endpoints in motion on aircraft and on ships, pursuant to specifications and restrictions described below. These rules will permit increased broadband access in this space while protecting important incumbent and Federal operations.

1. Authorization and Framework

11. *Classification of Services.* The Aeronet Petitions requested that the Commission categorize Aeronet's proposed services as fixed services. In the *70/80/90 GHz NPRM,* however, the Commission instead proposed to classify service to endpoints in motion as a mobile service, because its rules define ''fixed service'' as a ''radiocommunication service between specified fixed points,'' which endpoints in motion inherently are not. Several commenters supported the Commission's approach, including Boeing, the Fixed Wireless Communications Coalition (FWCC), and Loon, which also requested that the Commission makes sure any definition of ''mobile'' include mobile components of HAPS systems as well. The Wireless internet Service Providers Association (WISPA) alone opposed mobile classification, on the grounds that one endpoint of the transmission is fixed, and therefore the service does not reach ''full mobility,'' and also because the appropriate comparison is with the Fixed Satellite Service, which may provide service to Earth Stations in Motion (ESIMs) without being reclassified as ''Mobile-Satellite Services.'' WISPA also argued that if the Commission does classify services to endpoints in motion as mobile, the Commission should classify them as aeronautical mobile and maritime mobile specifically, as those terms are defined in the Commission's existing rules.

12. The Commission finds WISPA's arguments unpersuasive. Other mobile services, for example cellular service, ubiquitously involve transmissions from one fixed point (the base station) to a variety of mobile points (the cell phone), without risking reclassification as a fixed service. As between ''mobile'' and ''aeronautical mobile,'' the Commission notes that a classification as simply ''mobile'' encompasses aeronautical use. Similarly, as between ''mobile'' and ''maritime mobile,'' a classification as simply ''mobile'' encompasses maritime use. Given the otherwise favorable record, and the Commission's existing rules, the Commission concludes that the service the Commission authorize, involving transmissions to and from aeronautical endpoints in motion, is a mobile service.

13. As noted in the *70/80/90 GHz NPRM,* the Commission's authorization of a mobile service in the 70 GHz and 80 GHz bands constitutes a revisiting of the Commission's previous actions in the Spectrum Frontiers proceeding. At that time, the Commission declined to authorize mobile use in the 70 GHz and 80 GHz bands, but reserved the right to revisit the issue of possible methods of promoting coexistence between fixed links and mobile operations as mobile deployments increased in other millimeter-wave bands, as technology developed, and as additional options or frameworks for coexistence of fixed and mobile services in the same band were brought forth. In the six years since the *2017 Spectrum Frontiers Order,* there have been considerable advances in both technology and sharing paradigms—and Aeronet and other parties have continued to submit new analyses on possible coexistence. The Commission therefore conclude that revisiting the Commission's previous stance on this matter is warranted and appropriate. The Commission notes that the mobile services that the Commission permits pursuant to its decisions in this *Report and Order* are subject to significantly different rules and requirements than the part 30 rules the Commission contemplated in 2017.

14. *Limitation to 70 GHz and 80 GHz Bands.* In the *70/80/90 GHz NPRM,* the

Commission noted various concerns already in the record regarding potential harmful interference to Enhanced Flight Vision Systems (EFVS) and Foreign Object Detection (FOD) systems from Aeronet's proposed service in the 90 GHz band and, on that basis, proposed to allow endpoint-in-motion operations only in the 70 GHz and 80 GHz bands, while continuing to seek comment on the issue. Since then, additional concerns have been raised by numerous other entities regarding proposed aeronautical use of the 90 GHz band, due to both potential incompatibility with proposed use by EFVS and FOD systems, and potential harmful interference to radio astronomy and remote sensing receivers in the 86–92 GHz band and at 94.0–94.1 GHz. Given the many concerns raised in the record, and the relatively greater interest expressed in expanding use of the 70 GHz and 80 GHz bands, the Commission concludes that the risk of harmful interference to incumbent and adjacent services outweighs the benefit to consumers of allowing service to aeronautical endpoints-in-motion in the 90 GHz band. As proposed in the *70/80/90 GHz NPRM,* the Commission therefore authorizes endpoint-in-motion service only in the 70 and 80 GHz bands. At this juncture, the new service covers: (1) in the aeronautical space, ground-to-air and air-to-ground transmissions between ground stations and aircraft, and air-to-air transmission between aircraft in flight; and (2) in the maritime space, ship-to-shore, shore-to-ship, shore-to-aerostat, aerostat-to-ship, aerostat-to-shore, and ship-to-ship transmissions. For purposes of both the *Report and Order* and *Further Notice,* the Commission considers the term ''aerostat'' to mean an airborne transmitter operating within a small specified area, below 1,000 feet of elevation, regardless of method of propulsion.

15. *Coordination, Licensing, and Registration.* In the *70/80/90 GHz NPRM,* the Commission sought comment generally on what changes to the 70/80/90 GHz coordination, licensing, and registration framework might be necessary in order to facilitate the operation of endpoints in motion under part 101. The Commission also proposed to incorporate such operations, to the extent ultimately authorized, into the current framework of non-exclusive, nationwide licensing used for fixed point-to-point operations in these bands. The record is fairly thin on the specifics of the appropriate licensing framework; most commenters focused on whether the Commission should authorize this service as an initial matter. However, several commenters did voice support for including any new service in the existing third-party database management system.

16. In order to allow service to aeronautical and maritime endpoints in motion to deploy efficiently and without causing harmful interference to incumbent operations and other services in these bands, the applicable licensing mechanism must support adequate coordination with those other services without being unduly burdensome on both incumbent and new operators. To this end, the Commission will require prospective operators of service to aeronautical and maritime endpoints in motion to first apply for and receive a nationwide, non-exclusive license. This license will establish the prospective operator's qualification to be a licensee and will serve as a blanket license for: (1) on the aeronautical side, air-to-air operations, and as a prerequisite to register ground-to-air (GTA) stations and associated air-to-ground (ATG) transmission; and (2) on the maritime side, as a prerequisite to register ship-to-shore, shore-to-ship, shore-to-aerostat, aerostat-to-ship, and aerostat-to-shore transmissions. The Commission clarifies that as of the effective date of the rules, the Commission is adopting, all nationwide, non-exclusive licenses for the 70/80/90 GHz service will include the service areas set forth in section 101.1501, as revised.

17. In the matter of coordinating and registering individual aeronautical stations and links, the Commission proposed in the *70/80/90 GHz NPRM* to require coordination and registration for not only GTA stations and ATG transmissions, but also air-to-air links between two aircraft in motion. The Commission also sought comment on how all types of links should be represented or described in their registrations, as the current system, designed for fixed point-to-point links on the ground, does not account for potential differences in altitude or the varying orientation of links to endpoints in motion. Several commenters noted the potential difficulty of coordinating air-to-air links, due not only to these different characteristics, but also their temporary and transient nature. Aeronet proposed coordinating three-dimensional polyhedrons for air-to-air links, which DSA supports, within a horizontal altitude band from 10,000 to 50,000 feet. However, concerns in the record about potential harmful interference from air-to-air transmissions stem mainly from such transmissions' specific angle, direction, or distance from specific sites (most of which would not be addressed by registration of polyhedrons) that can be addressed directly with specific limitations. Due to the difficulties of adequately representing the potential interference from these links in the existing database structure, and in light of the various interference mitigation measures the Commission also adopts (discussed below) to answer those concerns, the Commission will not require registration or coordination of individual air-to-air links.

18. In the matter of coordinating and registering individual maritime stations and links, the Commission proposed in the *70/80/90 GHz NPRM* to require coordination and registration for not only ship-to-shore and shore-to-ship transmissions, but also ship-to-ship and ship-to-node (*i.e.,* as described in this item ship-to-aerostat). The Commission also sought comment on how all types of links should be represented or described in their registrations, as the current system—designed for two-dimensional fixed point-to-point links on the ground—does not account for potential differences in three-dimensional space-to-endpoints in motion. As explained immediately above, commenters focused on the potential difficulty of coordinating air-to-air links, and Aeronet proposed a system of three-dimensional polyhedrons for the same. Similar in-depth discussion around maritime-related links did not develop in the record.

19. After receiving the nationwide license, aeronautical operators will coordinate with Federal operators and register GTA stations and associated ATG transmissions and must not operate such facilities until registration has successfully been completed. Air-to-air operations will not be separately registered but may only operate under a nationwide license if the communication is associated with a registered GTA or ATG registration. All GTA and ATG operations, including operations transmitting to or from aeronautical endpoints in motion and associated ground stations, will be afforded protection from other operations on a first-in-time basis, and must afford those other operations the relevant first-in-time protections in turn.[2]

[2] The Commission notes the request of CTIA and others that the Commission grants priority to fixed service in these bands over new uses. Fixed service in these bands has been co-primary with other services, including mobile service, for some time. Adopting new service rules for these existing allocations does not change the co-primary status of

Continued

20. After receiving the nationwide license, maritime operators will coordinate with Federal operators and register shore-to-ship transmitters, shore-to-aerostat transmitters, ship-to-shore transmitters, and aerostat relay stations. As with GTA and ATG transmissions, all such maritime operators must not operate any facilities until registration has successfully been completed. All such maritime operations will be afforded protection from other operations on a first-in-time basis and must afford those other operations the relevant first-in-time protections in turn.

21. The Commission delegates authority to WTB to establish specific procedures to be followed for coordinating and registering aeronautical and maritime stations and their associated transmissions, to be set forth in a future publication or publications. The Commission note, in relation to technical discussion raised by certain parties in the docket, that validation of new aeronautical and maritime systems' ability to not cause interference may involve processes beyond the third-party database system. Additionally, the Commission delegates authority to WTB and the Office of Engineering and Technology (OET) to establish a process, in coordination with NTIA, for demonstrating that technologies for point-to-endpoint-in-motion communications to aircraft and ships are capable of meeting the specific technical and operating requirements adopted in this *Report and Order.* The Commission instructs WTB and OET to take such actions as authorized by sections 0.241(l) and 0.331(g) of its rules, which the Commission adopts, and to do so expeditiously.

2. Technical and Operational Rules

22. In the *70/80/90 GHz NPRM,* the Commission sought comment on what changes to its current rules might be necessary to facilitate the contemplated aeronautical and maritime services, while protecting incumbent and Federal operations. The Commission also sought comment generally on any interference mitigation measures not specifically mentioned that might be necessary to protect other operations.

23. In response to the *70/80/90 GHz NPRM,* some commenters argued—focusing on the aeronautical context in particular—that a more developed record would be necessary to support the authorization of aeronautical mobile service along the lines proposed by Aeronet, given the potential for interference to incumbent and other potential services. Other commenters disagreed. Maritime service was largely unaddressed in the record. A small number of parties—including SpaceX, T-Mobile, and Verizon—raised more specific, albeit still highly generalized, objections to the *70/80/90 GHz NPRM*'s proposed maritime authorizations, citing in part concerns over potential impacts on fixed wireless backhaul, among other issues. Others generally endorsed the adoption of the proposed maritime regime.

24. Since the initial comment period to the *70/80/90 GHz NPRM,* additional submissions to the record, including detailed contributions from NTIA and other Federal agencies, have enhanced the depth of the record. The Commission's increased understanding of potential interactions between Aeronet's proposed service and incumbent, adjacent, and other potential operations (including sensitive operations such as weather satellites in the EESS) now allows us to set forth a series of technical and operational rules calculated to protect all services from harmful interference within the 70 GHz and 80 GHz bands and adjacent to them.

25. Except as noted below, the aeronautical and maritime mobile services the Commission authorize will be governed by part 101 of its rules. Though part 101 currently encompasses only fixed services, the Commission finds it appropriate to place the service rules governing aeronautical and maritime mobile services in the 70 GHz and 80 GHz bands within the same rule part. In addition, operators of these new services must coordinate with operators in the existing FS, and part 101 is the logical home for rules related to that coordination. The technical and operational rules the Commission sets forth below are sufficient to accommodate the different technical characteristics of these aeronautical and maritime transmissions.

26. *Guard Bands.* The Commission did not specifically seek comment in the *70/80/90 GHz NPRM* on the potential use of guard bands as means of protecting services in adjacent bands from harmful interference. Several commenters suggest them, particularly to protect both EESS satellites and RAS facilities in the 86–92 GHz band. However, the analysis submitted by the Federal Agencies, which includes NASA and NOAA, instead relies upon specified out of band emissions (OOBE) limits to protect EESS. Because the Federal Agencies' analysis supports coexistence between the new aeronautical and maritime services and services in adjacent bands without the use of a guard band, no commenters objected to the lack of guard bands in response to the *Refresh Public Notice,* and based on the Commission's engineering analysis of the Federal Agencies' recommendations, the Commission declines to adopt guard bands as an interference protection measure here.

27. *Transmission Power Levels.* In the *70/80/90 GHz NPRM,* the Commission sought comment on Aeronet's request to increase the maximum allowable mobile equivalent isotropically radiated power (EIRP) for the 70 GHz and 80 GHz bands from +55 dBW to +57 dBW. CORF and satellite operators objected to this proposal, on the grounds that an increased power level would unacceptably increase the risk of harmful interference to FSS and RAS operations. Qualcomm supported the increase, arguing that atmospheric attenuation in these bands should be sufficient to mitigate interference concerns. Aeronet argues that the proposed increase is minimal and that the highly directional nature of transmissions in its proposed service will work to avoid incidents of harmful interference. The Federal Agencies' analysis of potential interference into Federal operations assumes +57 dBW, and suggests that the recommended interference mitigation measures in its report would be sufficient to protect Federal operations from an aeronautical mobile service operating at that power level.

28. The Commission acknowledges the concerns of satellite operators and the RAS community about potential interference from the services that this item contemplates, as discussed in more detail below. However, the Federal Agencies' analysis addresses potential harmful interference to both RAS and FSS operations, and the Commission find it persuasive based on its review of the record and its independent analysis. As the Commission also adopts the interference mitigation measures recommended in that report, the Commission adopts a maximum EIRP level of +57 dBW for transmissions in these new aeronautical and maritime mobile services.

a. Transmissions Between Aircraft and Ground Stations

29. In introducing a new aeronautical mobile service to these bands, care must be taken to ensure compatibility with

the fixed service. Additionally, incorporating these new aeronautical and maritime services into the existing registration regime with first-in-time protection effectively protects all existing operations, including fixed operations, from all deployments in these services. That subsequent deployments will be protected from each other on a first in time basis is also consistent with the co-primary nature of the allocations.

existing and other authorized services, both in the 70 GHz and 80 GHz bands, and adjacent to them. The record reflects a variety of concerns about the potential impact on these other services. To address these concerns, the Commission adopts a number of interference mitigation measures specifically related to transmissions between ground stations and aircraft in flight, described below. Ground-to-air and air-to-ground transmissions are limited to the 80 GHz and 70 GHz bands, respectively; ground stations must be located a minimum distance away from RAS facilities, fixed stations, and FSS earth stations; specific OOBE limits above 86 GHz must be observed; and minimum and maximum elevation angles for ground-to-air transmissions are required.

30. Several commenters expressed concern regarding air-to-ground transmissions in the 80 GHz band, due to the potential for such transmissions to cause harmful interference to RAS operations. No party, including Aeronet, has argued that downlink transmissions in the 80 GHz band are necessary to provide aeronautical service, provided that the 70 GHz band is available for that purpose. AT&T notes in its comments that a channel plan that designates different parts of the 70 GHz or 80 GHz bands for uplink versus downlink signals would be beneficial to reduce self-interference to air-to-ground and ground-to-air mobile systems. In addition, having air-to-ground transmissions in the 70 GHz band and ground-to-air transmissions in the 80 GHz band creates directional consistency with the bands designated for space-to-Earth (71–76 GHz) and Earth-to-space (81–86 GHz) in the FSS service. Aeronet's technical study indicates compatibility with the FSS services while assuming air-to-ground transmissions in the 70 GHz band and ground-to-air transmissions in the 80 GHz band. SpaceX supported Aeronet's study. The Commission therefore authorizes air-to-ground transmissions only in the 70 GHz band.

31. Many commenters suggested that some separation distance between aeronautical ground stations and operations of other services, including RAS stations, FSS earth stations, and fixed point-to-point links, would be either advisable or necessary to reduce the risk of harmful interference. The Federal Agencies' analysis provides specific values for such separation distances: greater than 10 km for licensed FSS earth stations, 10 km for fixed point-to-point transmitters, and 150 km for RAS operations. That analysis also asserts that in order to protect RAS operations, ground stations should not transmit in the direction of an RAS facility, or receive transmissions from aircraft in that direction, such that the transmission enters the appropriate ''zone of avoidance'' around the facility. In response to the *Refresh Public Notice,* NRAO raised concerns that this 150 km separation distance may be inadequate to protect RAS operations in the 76–81 GHz band specifically.

32. The Commission finds the conclusions of the Federal Agencies' analysis persuasive. No other party has submitted alternative suggestions for separation distances with respect to Federal operations. With regard to NRAO's concerns, the Commission notes that as the Technical Interchange Group that produced the Federal Agencies Letter specifically considered interference into the 76–81 GHz band, and as NSF, with which NRAO is affiliated, participated in the TIG and endorsed its output, the Commission will defer to the expertise of NSF in this matter. Accordingly, the Commission adopts a minimum separation distance of 150 km between RAS facilities and aeronautical ground stations.

33. With respect to FS and FSS, although the 10 km distances were calculated specifically with Federal operations in mind, the Commission finds that a 10 km distance separation should apply with respect to non-Federal operations in these services. With respect to FSS, the record generally supports the 10 km separation distance without objection. For example, Aeronet's study showing compatibility between its system and FSS concluded that a 10 km separation distance would be sufficient to prevent interference, and SpaceX supports this conclusion. With respect to FS, Aeronet contends that applying a 10 km separation requirement for ground stations is unnecessary and possibly counterproductive given that Aeronet expects to, in some cases, be able to co-locate with backhaul links. FWCC and CTIA, on the other hand, assert that the 10 km separation distance is necessary to protect non-Federal FS stations. Based on the Commission's assessment of the record, the Commission does not find any technical reason to adopt a different separation distance between ground stations and non-Federal FS stations than the Commission adopts for the separation between ground stations and Federal FS stations. Moreover, in response to Aeronet's concern that a 10 km separation distance could preclude co-location of ground stations with backhaul links, the Commission notes that ground stations can be separated less than 10 km from backhaul links pursuant to coordination agreements, and the Commission encourages all parties to explore more efficient interference protection parameters in the context of those discussions. The Commission finds that a 10 km coordination requirement strikes the appropriate balance for sharing between the longstanding use of the bands under the fixed allocation and the new uses under the co-primary mobile allocation—including ground stations with antennas that are not static.

34. While Comsearch assumed a larger coordination area around FS stations than 10 km, the Commission notes that its analysis uses conservative assumptions to calculate an area on the ground that could be illuminated by an aircraft antenna (for example, the Comsearch analysis assumes an aircraft altitude of 50,000 ft, whereas most commercial aircraft typically fly between 31,000 and 38,000 feet). This worst-case calculation does not take into account a number of factors that would reduce the interference potential, most notably the directional nature of transmissions from the aircraft. Considering the relative potential interference between ground stations and FSS versus FS, the Commission notes the following: (1) the elevation angle of FSS earth station receive antennas makes them more likely to be co-linear with the air-to-ground link; (2) due to the long path from space-to-Earth, the desired signal at a satellite earth station from a satellite would typically be weaker than the desired signal at an FS receiver from its transmitter (in other words, the C in the C/I ratio would be higher for any FS station); and (3) the Federal FSS study assumed an interference threshold of I/N = −12.2 dB would be required to protect FSS, whereas the typical interference threshold for FS is 1.0 dB of degradation of the static threshold of the protected receiver, which equates to an I/N of −6 dB. These factors all indicate that FS would be less susceptible to interference from air-to-ground or ground-to-air links than FSS. The Commission therefore concludes that there is no need for the separation distance between ground stations and FS stations to be any greater than the separation distance between ground stations and FSS stations. Accordingly, the Commission adopts a minimum separation distance 10 km between proposed aeronautical ground stations and any registered fixed point-to-point transmitter or FSS earth station, Federal or non-Federal, in the absence of a coordination agreement with the fixed station or FSS earth station operator.

35. Commenters in the record evidenced significant concern regarding protection of EESS sensors above 86 GHz from harmful interference due to spurious emissions from the 80 GHz band. The Commission sought comment on what interference mitigation measures might be necessary to protect EESS services operating in the 86–92 GHz band. CORF, ESA/EUMETSAT, and the World Meteorological Organization suggest that the OOBE limits in the Commission's rules should be updated to conform to the standard set forth in ITU–R Resolution 750. The Federal Agencies, based on an independent analysis incorporating specific details of Aeronet's proposed system, recommend an OOBE limit of −38.5 dBW in any 100 megahertz of the passive band 86–92 GHz for ground-to-air transmissions.

36. The Commission finds the recommendation of the Federal Agencies to be persuasive. The Commission acknowledges that this OOBE limit is slightly more lenient than that urged by CORF and others. However, the Federal Agencies' analysis takes into account specific characteristics of Aeronet's proposed system. The Commission is therefore confident that their resulting conclusions are sufficient to adequately protect EESS operations. The Commission adopts an OOBE limit of −38.5 dBW in any 100 megahertz of the passive band 86–92 GHz for ground-to-air transmissions.

37. *Minimum and Maximum Elevation Angles.* In the *70/80/90 GHz NPRM,* the Commission sought comment on a minimum elevation angle of five degrees for transmissions from ground stations, consistent with the parameters in Aeronet's initial petition. Some commenters suggest that lower elevation angles, such as three or even 1.5 degrees, would be sufficient to prevent harmful interference. Hughes argues that lower elevation angles might require larger separation distances between these aeronautical ground stations and FSS ground stations, thereby hampering future deployment of FSS service. Geneva Communications is generally supportive of some minimum elevation angle in order to protect incumbent Fixed users, and FWCC supports a 5 degree minimum specifically. Loon argues that any minimum elevation angle would favor some systems or business models over others, and thereby restrict competition. Comsearch's analysis of the potential impact of Aeronet's proposed service on other services in the 70/80/90 GHz bands concludes that a minimum elevation angle of five degrees significantly mitigates the potential for interference into fixed point-to-point links. Aeronet subsequently indicated that a minimum elevation angle of five degrees could impact deployment timing and costs compared to a lower angle such as three degrees.

38. The Commission adopts a minimum elevation angle of five degrees for ground stations in this aeronautical service. This is consistent with Aeronet's initial petition and with the record before us. The Commission notes that the Federal Agencies Clarification Letter stated that one study initially conducted by the Federal Agencies assumed 3 degree minimum elevation angles. However, in the record before the Commission, Aeronet has only proposed a 5 degree minimum elevation angle, both in its own Petition and in studies that Aeronet commissioned. The OOBE limit of −38.5 dBW in any 100 megahertz of the passive band 86–92 GHz for ground-to-air transmissions, as recommended in the Federal Agencies Clarification Letter, accounts for a 5 degree minimum elevation angle.

39. The Commission finds Loon's argument against any minimum elevation angle unpersuasive. Elevation angle is routinely an area of potential concern in bands where terrestrial service coexists with services operating at altitude; for example, part 25 of the Commission's rules, which provides the default rules for satellite operations, requires that satellite earth stations not transmit at elevation angles below five degrees in any band shared with a terrestrial radio service. Adopting a similar restriction on aeronautical services is motivated by similar interference protection concerns and remains a technology-neutral requirement. Given the concerns raised in the record about lower elevation angles, the Commission concludes that five degrees is the most appropriate value. That said, the Commission recognizes the benefits to efficient spectrum use, and ultimately consumers, of permitting parties to agree to less stringent interference mitigation measures than required under its rules. Accordingly, WTB will consider any request for waiver of this rule through the Commission's existing regulatory processes, subject to coordination with NTIA to ensure that Federal incumbents are protected from harmful interference and, as Aeronet suggests, ''coordination with other potentially impacted parties based on real-world data.''

40. The Commission also adopts a maximum elevation angle of forty-five degrees for aeronautical ground stations. Though this parameter was not included in Aeronet's petition, it is the maximum elevation angle used by the Federal Agencies in their analysis of potential harmful interference to Federal operations, and these assumptions about likely operational parameters were based on input from Aeronet. Because this analysis shows that elevation angles of up to forty-five degrees can (under certain other parameters) coexist successfully with Federal operations, and because the Commission lacks evidence in the record that transmissions above that angle of elevation will not cause harmful interference to Federal or other satellite operations, the Commission adopts a maximum elevation angle of forty-five degrees.

41. Together, these technical parameters and interference mitigation measures will ensure that operators in this aeronautical mobile service will be able to successfully operate, while also protecting operators in other services.

b. Transmissions Between Aircraft in Flight

42. Air-to-air transmissions present a unique set of characteristics in terms of the potential for interaction with other services, in both the same and adjacent bands, and accordingly, considerable attention has been paid to how harmful interference from such transmissions might be avoided. In the *70/80/90 GHz NPRM,* the Commission sought comment generally on potential interference mitigation measures. Many commenters raised concerns about the potential for harmful interference into other services, particularly RAS sites above 86 GHz. In response to these concerns, Aeronet, Comsearch, and other commenters suggested a variety of potential mitigation measures. In particular, the Federal Agencies submitted a report with both suggested interference mitigation measures and underlying analysis supporting them, which they suggest would be sufficient to protect Federal operations both in the 70/80 GHz bands and in adjacent bands from harmful interference from air-to-air transmissions.

43. After reviewing the record, and as discussed in more detail below, the Commission adopts the following technical and operational restrictions on transmissions between aircraft in flight, in order to reduce the risk of harmful interference to other services. Air-to-air transmissions will be authorized in both the 70 GHz and 80 GHz bands. The Commission establishes an OOBE limit of −29.7 dBW in any 100 megahertz of the passive band 86–92 GHz, to protect EESS (passive) operations. In the 80 GHz band, the Commission sets a

maximum allowed EIRP signal level towards any of a specified list of RAS sites, varying by transmission frequency and distance from the site. In the 70 GHz band, the Commission adopts a similar limit on EIRP signal levels toward specified military installations. Finally, the Commission adopts both altitude restrictions and a minimum slant path distance requirement in order to reduce the risk of harmful interference to in-band services, particularly fixed point-to-point links.

44. Several commenters raised concerns in the record that air-to-air transmissions in the 80 GHz band might produce unwanted emissions into the band above 86 GHz that might cause harmful interference to services in that band, particularly RAS observatories and EESS operations. The Commission agrees with commenters on the importance of protecting RAS and EESS operations in the 86–92 GHz band. However, based on the analysis by the Federal Agencies, the Commission concludes that the interference mitigation measures the Commission adopts, which include restrictions on transmissions in the direction of RAS sites, are sufficient to allow air-to-air transmissions in both the 70 GHz and 80 GHz bands.

45. In the *70/80/90 GHz NPRM,* the Commission sought general comment on what interference mitigation measures might be necessary to protect EESS and RAS services operating in the 86–92 GHz band. Among the measures proposed by commenters relating to air-to-air transmissions were limiting those transmissions to the 70 GHz band and updating the OOBE limits to reflect recent ITU standards. Several commenters also discussed the need for any air-to-air transmissions to avoid pointing directly at an RAS receiver. The Federal Agencies' analysis recommends an OOBE limit of −29.7 dBW in any 100 megahertz of the passive band 86–92 GHz for air-to-air transmissions in order to protect EESS sensors, and a set of restrictions on EIRP levels toward any RAS site depending on the distance of the transmitter to the site. Aeronet has represented both in the Commission's record and to the Federal Agencies that their proposed system has the capability to automatically avoid transmission towards specified stationary areas or coordinates corresponding to RAS sites, which would enable them to comply with such a requirement.

46. The Commission adopts an OOBE limit of −29.7 dBW in any 100 megahertz of the passive band 86–92 GHz for air-to-air transmissions, as suggested by the Federal Agencies. The Commission also adopts a requirement that air-to-air transmissions, in both the 70 GHz and 80 GHz bands, not take place within the main beam of an RAS observatory, and that if this cannot be assured, no transmissions should take place within the radio horizon of the observatory. This restriction was also suggested by the Federal Agencies. The Commission adopts these requirements in order to protect passive services in the adjacent bands (*i.e.,* 76–81 GHz, and above 86 GHz). The Federal Agencies' analysis uses ITU recommendations as their starting point, and comprehensively considers various factors that may influence both harmful interference from aeronautical operations specifically, and aggregate interference from those operations, in addition to previously authorized services. Accordingly, the Commission concludes that the resulting recommendations will be sufficient to protect EESS operations.

47. The Commission takes protection of RAS operations very seriously, and accordingly assign significant weight to the concerns expressed in the record, and especially in the Federal Agencies' analysis, which discusses protection of RAS operations in detail. In order to safeguard these operations, the Commission will follow the recommendations of the Federal Agencies in requiring the following interference protection measures. First, as a general matter no transmissions may occur within the main beam of an RAS station. In addition, aircraft within the radio horizon of any RAS station must limit the EIRP level towards the RAS stations of any air-to-air transmission, as set forth in Fig. 1.

FIG. 1—LIST OF MAXIMUM ALLOWABLE EIRP LEVELS TOWARD RAS SITES, IN DBW

Frequency (GHz)	Horizontal distance (km)									
	150	175	200	225	250	275	300	325	350	375
81	−11.2	−8.8	−6.5	−4.2	−1.5	1.1	3.9	6.7	10	13.5
82	−11.5	−9.2	−6.9	−4.6	−2	0.5	3.2	6	9.2	12.6
83	−11.7	−9.5	−7.3	−5	−2.4	0	2.7	5.4	8.6	11.9
84	−11.9	−9.7	−7.5	−5.3	−2.8	−0.4	2.3	4.9	8	11.3
85	−12.1	−9.9	−7.8	−5.5	−3	−0.7	1.9	4.5	7.6	10.8
86	−12.2	−10	−7.9	−5.7	−3.3	−0.9	1.7	4.2	7.3	10.5

48. In addition to concerns regarding adjacent band services, the Federal Agencies also raised concerns about potential harmful interference to co-primary services in the 70 GHz band. Protection of fixed point-to-point links, both Federal and non-Federal, is addressed below. For protection of Federal FSS operations, the Federal Agencies suggest that, similar to protections for RAS stations, EIRP levels from air-to-air transmissions within 375 km of a specified military installation should not exceed 20 dBW/1000 megahertz toward that installation, unless the aeronautical operator has coordinated some other allowable level with the Department of Defense. In response to the *Refresh Public Notice,* no commenter objects to these interference mitigations measures, nor argues that they are insufficient to protect co-primary services in the 70 GHz band. As with protections for RAS operations, the Commission finds the Federal Agencies' analysis on this point persuasive, particularly since no other commenter touches on the interest of Federal FSS operations. Accordingly, the Commission adopts the suggested requirement that air-to-air transmitters within 375 km of any of the specified military installations [3] must limit the EIRP of their transmissions to 20 dBW toward the military installation site.

49. *Altitude Restrictions.* In its petition for rulemaking, Aeronet specified that its proposed service would operate only with aircraft at altitudes between 10,000 and 50,000 feet. The Commission does not seek specific comment in the *70/80/90 GHz NPRM* on this point. DSA suggested that

[3] This list, which includes specific coordinates for each site, may be found in the Final Rules of the *Report and Order* at 47 CFR 101.1528(c). The Department of Navy also seeks to add an additional FSS site in Miramar, CA, which is not currently reflected in US389, to the list of protected sites in the Commission's part 101 rules. The Commission is not taking any action in this proceeding to modify US389, and thus defer on this request at this time.

altitude restrictions are unnecessary because the risk of interference into other services is already low, while Loon argued against any altitude caps on the theory that they would be harmful to potential competition. Geneva Communications suggests that altitude restrictions are unnecessary so long as links are adequately and dynamically coordinated. FWCC supports a restriction to between 10,000 and 50,000 feet of altitude.

50. The Commission rejects Loon's assertion that altitude restrictions favor certain technologies or business models over others. The record demonstrates that, together with other restrictions, air-to-air transmissions between 10,000 and 50,000 feet may be accomplished without harmful interference to incumbent and adjacent operations; it does not demonstrate that transmissions at higher or lower altitudes would be similarly successful. As the Commission is unpersuaded that mandating dynamic coordination of all air-to-air links is necessary, the Commission rejects Geneva Communications' argument as well. Consistent with Aeronet's petition, the Commission adopts a minimum altitude of 10,000 feet for all air-to-air transmissions in these bands, and a maximum altitude of 50,000 feet. Together with the minimum slant path distance requirement that the Commission also adopts, these altitude restrictions will reduce the risk of harmful interference into other services by limiting the area on the ground with line of sight to the airborne transmitter, restricting the angle at which air-to-air transmissions may enter receivers on the ground, and setting a minimum vertical distance (and therefore a minimum amount of atmospheric attenuation) between air-to-air transmissions and both terrestrial and satellite services.

51. *Minimum Slant Path Distance.* In the *70/80/90 GHz NPRM,* the Commission asked what mitigation measures might be necessary to address the risk of harmful interference from air-to-air transmissions between aircraft of significantly different altitudes. That risk of interference arises from the resulting steep angle of the signal, and therefore the increased risk that the transmission ultimately illuminates a receiver in another service, especially a fixed point-to-point receiver along the boresight. Aeronet and Comsearch suggest that a minimum slant path distance would reduce any potential harmful interference from air-to-air links. Qualcomm argues that a minimum horizontal distance between aircraft would be sufficient to render potential harmful interference into fixed links negligible. No commenters argue against adopting a minimum separation between aircraft. Given the state of the record on this point, the Commission adopts a minimum slant path distance of 50 kilometers between aircraft involved in air-to-air transmissions.

c. Transmissions Between Ships, Shore, and Aerostat Stations

52. The record generally supports technical and operational restrictions on transmissions to and from ship, shore, and aerostat stations that are parallel to those adopted for airborne transmissions. Shore-to-ship transmissions are only permitted in the 70 GHz band, and ship-to-shore transmissions are only permitted in the 80 GHz band. Shore-to-aerostat transmissions and aerostat-to-ship transmissions are only permitted in the 70 GHz band. Aerostat-to-shore transmissions are only permitted in the 80 GHz band. The Commission adopts an OOBE limit of −29.7 dBW in any 100 megahertz of the passive band 86–92 GHz for ship-to-shore and aerostat-to-shore transmissions in order to protect EESS (passive) operations.

53. Ship-to-ship communications are limited to ships located more than 30 km offshore, or closer only where the main beam of the transmit antenna is oriented at least 15 degrees away from any point on the shore. Ship stations and aerostat stations must only operate when there is a minimum separation of 150 km to the Federal facilities listed in table 3 to § 101.1528(c)(1) of the Final Rules in this *Report and Order,* absent a coordination agreement with the Federal operator. Shore-to-ship, shore-to-aerostat, aerostat-to-shore, and ship-to-shore transmission must only occur between stations that are located at least 10 km from the Federal military installations listed in table 4 to § 101.1528(c)(2) of the Final Rules in this *Report and Order,* absent a coordination agreement with the Federal operator. Ship-to-shore, shore-to-ship, shore-to-aerostat, aerostat-to-ship, and aerostat-to-shore operations must coordinate with Federal FS operations using the NTIA web-based coordination mechanism to prevent interference. The Commission notes that ship-to-aerostat operation has not been sufficiently studied, and thus is not permitted at this time, although the Commission seeks comment in the *Further Notice* below on its potential implementation. Aeronet, through filings submitted in the record, has outlined the important role of bidirectional transmissions between ships and aerostats to the two-way maritime broadband services otherwise authorized in this *Report and Order.* During the pendency of the *Further Notice,* WTB will consider requests for waiver with respect to specific ship-to-aerostat implementation deployment proposals through the Commission's existing regulatory processes, subject to coordination with NTIA to ensure that Federal incumbents are protected from harmful interference and coordination with any other potentially impacted parties.

54. The same engineering principles that underpin the Commission's adoption of technical and operational restrictions for transmissions between aircraft and ground stations and aircraft in flight serve as a baseline in the maritime context as well, subject to certain modifications as set forth herein and in the Final Rules of this *Report and Order.* For example, the Commission clarifies that the Final Rules do not establish a minimum elevation angle in the maritime context. Opponents of transmissions between ships, shore, and aerostat stations predominantly assert the need for further examination of whether incumbent or future operations in the bands might suffer interference from by maritime operations. The exhaustive TIG process led by the Federal Agencies provides the requested examination. Each of the restrictions described above finds specific support in the collective Federal Agencies Letter, reflecting extensive interagency collaboration—collaboration focused in part on ensuring non-interference with current and future uses of the bands in question—as promised by the Commission in the *70/80/90 GHz NPRM.* No parties objected to adopting the proposed maritime regime the Commission describes above following the solicitation of comment on the Federal Agencies Letter in the Commission's *Refresh Public Notice.* The Commission finds that the combination of the: (1) Commission's own engineering expertise; (2) initial general support for a maritime regime found in responses to the *70/80/90 GHz NPRM;* (3) further examination of specific analyses undertaken in the Federal Agencies Letter, and the studies underpinning it; and (4) silence on maritime issues in particular in the *Refresh Public Notice* comment cycle, demonstrate that the above-described regime for transmissions between ships, shore, and aerostats will protect current and future operations both in the 70 GHz and 80 GHz bands, and in adjacent bands.

B. Facilitating Use of the Bands for Backhaul

55. To promote more intensive use of spectrum in the 70 GHz and 80 GHz bands, including use for backhaul for high-capacity 5G service, the Commission adopt several changes to its antenna standards that will allow licensees to use smaller, lower-cost antennas in these bands, and the Commission adopt a channelization plan for the band.

56. *Antenna Standards.* The *70/80/90 GHz NPRM* proposed several changes to the antenna standards for the 70 GHz and 80 GHz band to promote flexibility. In particular, the *70/80/90 GHz NPRM* proposed to reduce minimum antenna gain from 43 dBi to 38 dBi while retaining the requirement to proportionally reduce maximum EIRP in a ratio of 2 dB of power per 1 dB of gain. It also proposed to reduce the co-polar and cross-polar discrimination requirements applicable to 70 GHz and 80 GHz band antennas. Further, the *70/80/90 GHz NPRM* sought comment on whether to allow +/− 45 degree polarization (also known as slant polarization) and whether to adopt a second, more flexible set of antenna standards in these bands. Commenters generally supported reducing antenna gain and co-polar and cross-polar discrimination requirements.

57. Although the Commission does not regulate the size of antennas directly, minimum antenna size is constrained by technical factors including the intended operating bands and requirements governing beamwidth, gain, and polarization discrimination. Based on the Commission's analysis of the record, the Commission determine to relax those requirements for the 70 GHz and 80 GHz bands to standards more in line with the requirements for point-to-point operations for other part 101 bands. The Commission acknowledge Fiberless Networks' concern that ''[a]ny reduction in antenna sizes must ultimately impact the number of wireless links using the 71–76 and 81–86 GHz bands that may be deployed in any metro area,'' but the Commission are persuaded by the FWCC's long-stated advocacy that such changes ''will allow for the use of smaller, lighter, lower cost, less susceptible to pole sway, and more visually attractive antennas'' that may enable more intensive use of the 70 GHz and 80 GHz bands for point-to-point backhaul services. Additionally, commenters agree that relaxing these antenna standards will also enable the use of smaller antennas for backhaul that will be needed to facilitate densified 5G networks. Accordingly, the Commission raise the maximum beamwidth to 2.2 degrees and reduce the minimum antenna gain to 38 dBi for antennas in the 70 GHz and 80 GHz bands. In order to maintain consistency and minimize the risk of interference, the proportional power reduction requirement will continue to be applicable to antennas in these bands with a gain less than 50 dBi down to the new minimum antenna gain of 38 dBi. Lower-gain antennas have more energy in their sidelobes as compared to a higher-performance antenna, so imposing a proportional reduction in EIRP for antennas with a gain less than 50 dB helps to compensate for the additional power in the sidelobes—thereby ensuring that a lower-performance antenna does not create any greater risk of off-axis interference than a higher-performance antenna.

58. The Commission also adopt its proposal to remove the co-polar discrimination requirement below 5 degrees and modify the cross-polar discrimination requirements below 5 degrees to 21 dB. Some commenters argue that both the co-polar and cross-polar discrimination requirements are obsolete and propose eliminating those requirements entirely. FWCC contends that some of the smaller, lighter antennas its members contemplate using cannot meet the existing co-polar requirement. In order to maximize the flexibility the Commission seek to achieve by relaxing the antenna standards, the Commission eliminate the co-polar discrimination requirement at angles less than 5 degrees. However, the Commission decline to eliminate the cross-polar discrimination requirements below 5 degrees in their entirety. The Commission agree with commenters, including the third-party database manager Comsearch, that cross-polar discrimination requirements are proven to be effective in maximizing frequency reuse in the 70 GHz and 80 GHz bands. The Commission agrees with Comsearch that reducing the cross-polar discrimination requirement for angles less than 5 degrees to 21 dB brings its rules closer to conformity with international standards without sacrificing the frequency reuse advantages of having some cross-polar requirement. The Commission agree with Comsearch that a cross-polar discrimination requirement of 21 dB is not ''difficult to meet[.]''

59. Further, the Commission adopt corresponding changes to the co-polar and cross-polar discrimination requirements at angles between 5 degrees and 180 degrees. Physics dictates that smaller antennas will have less sidelobe suppression. Therefore, corresponding adjustments to the discrimination requirements between 5 and 180 degrees are also necessary to facilitate the use of smaller antennas. FWCC proposed antenna standards for this band that are consistent with the Commission's proposed minimum gain of 38 dbi and maximum beamwidth of 2.2 degrees and also proposed co-polar and cross-polar discrimination values for angles between 5 degrees and 180 degrees. FWCC's proposals are consistent with ESTI Class 3 antenna standards, and are supported by the 5G Wireless Backhaul Advocates and Comsearch. Comsearch emphasizes that it is appropriate to provide antenna performance requirements between 5 and 180 degrees, as proposed by FWCC. The Commission believe that the changes proposed by FWCC and the 5G Backhaul Advocates strike a balance, allowing for the use of smaller antennas which will promote and expedite backhaul deployment, while also preserving an appropriate co-polar and cross-polar advantage between paths to promote frequency re-use.

60. In the *70/80/90 GHz NPRM,* the Commission sought comment on a proposal to allow +/− 45 degree polarization (slant polarization) in the 70 GHz and 80 GHz bands. At this time, the Commission decline to modify its rules to adopt slant polarization because the Commission agree with most commenters that slant polarization will increase the risk of interference and make the coordination of links more difficult. As Comsearch notes, allowing slant polarization would ''take away the cross-polarization advantage between paths'' which has ''proven to be effective in maximizing frequency reuse in the 70 and 80 GHz bands . . . .''

61. The Commission also decline to adopt a second category of antenna standards for the 70 GHz and 80 GHz bands. The Commission's rules for some other services regulated under part 101 allow for two categories of antennas, Category A and Category B; Category A performance standards are more stringent than Category B.[4] In the *70/80/90 GHz NPRM,* the Commission sought comment on whether to adopt a similar framework for the 70 GHz and 80 GHz bands by designating the existing antenna standards the ''Category A'' standards and adopting new, less restrictive ''Category B'' standards.

[4] Category B antennas may be used in areas not subject to frequency congestion. Category B antennas must be replaced if they are shown to cause interference to (or receive interference from) any other authorized station where a higher performance antenna is not likely to cause such interference.

Although some commenters, including Scientel Solutions and T-Mobile, support adding a Category B standard that does not exist for these bands in the current rules, others, including 5G Americas, Ericsson, and Nokia, do not believe a Category B standard is necessary. Comsearch argues that there is no reason to define two categories of antennas because database managers would not be able to compel antenna upgrades based on predicted interference. The Commission also agree with commenters that adding a Category B standard is unnecessary, given its decision in this *Report and Order* to allow smaller antennas in these bands.

62. *Channelization Plan.* The *70/80/90 GHz NPRM* sought comment on whether adopting a channelization plan would promote more efficient use of the 70 GHz and 80 GHz bands. It further asked about what channel plan should be considered, noting the existence of the plan contained in ITU Recommendation F.2006—see International Telecommunications Union (ITU), Recommendation ITU–R F.2006, ''Radio-Frequency Channel and Block Arrangements for Fixed Wireless Systems Operating in the 71–76 and 81–86 GHz Bands'' (2012), *https://www.itu.int/dms_pubrec/itu-r/rec/f/R-REC-F.2006-0-201203-I!!PDF-E.pdf* (ITU–R F.2006)—which the Commission describe in greater detail below. The *70/80/90 GHz NPRM* also solicited comment on a range of issues including the impact of a channel plan on existing equipment, whether to continue to apply the standard emission limit rules in section 101.1011, whether any specific channel plan and direction of service would be particularly conducive to protecting the other co-primary services from interference, and the costs and benefits of channelization.

63. The Commission are persuaded that the Commission should adopt a channelization plan consistent with ITU–R F.2006. The Commission acknowledge that the Commission decided in 2003 that a specific channel plan was unnecessary in the context of adopting new rules to facilitate greater use of the bands by nascent fixed services. Given the development of these fixed services since 2003 and its adoption of rules to permit additional services into the band, the Commission agree with commenters that a standardized channel plan will make interference mitigation between licensees easier to manage. Adopting the ITU F.2006 plan will also harmonize the Commission's rules with international standards, and is consistent with a majority of commenters' recommendations.

64. After reviewing the record, including responses to the *HAPS Public Notice* and *Refresh Public Notice,* while some commenters are neutral on the issue of channelization others specifically state that if the Commission introduces new services into the band—such as the services contemplated by Aeronet—there will be a greater need to have a standardized channel plan in order to make interference mitigation between licensees more manageable. On balance, most commenters support adopting a standardized plan specifically if new services are introduced into the band. Moreover, Aeronet supports the adoption of a standardized channel plan.

65. There is near-unanimous agreement among commenters that if the Commission adopts a channel plan, the Commission should adopt a plan consistent with ITU–R F.2006, which provides different channel sizes from 250 megahertz up to 5 gigahertz, and includes a plan for 1.25 gigahertz segmentation. This channelization plan is consistent with what the Commission proposed, but ultimately did not codify in the original 70–80 GHz rulemaking. Comsearch notes that a majority of licensees already conform with the ITU–R F.2006 channel plan. Even commenters that advocate against adopting a standardized channel plan, such as WISPA, support adopting the ITU F.2006 channel plan if the Commission decides that it should adopt a standardized plan.

66. To provide adequate lead time for manufacturers to modify their equipment lines to comply with the new channel plan, the Commission will make the new channel plan effective on September 1, 2024. Considering that there are incumbents in the band who have deployed under the current rules and may not be operating consistent with a channel plan that the Commission adopt, the Commission will permit licensees that are registered prior to the effective date of the new channel plan to continue to operate under nonconforming channel plans as long as their pre-existing operations remain in good standing. With the exception of de minimis modifications to registered links discussed below, all links registered on or after September 1, 2024, will be required to comply with the new channel plan.

C. Improving the Link Registration System

67. In the *70/80/90 GHz NPRM,* the Commission solicited input on whether it should make changes to the link registration rules for the 70/80/90 GHz bands.[5] Specifically, the Commission sought comment on how to amend its rules to improve the accuracy of the link registration database. The Commission also asked whether it should require licensees in these bands to certify that their links have been timely constructed—and, if so, how an efficient and effective certification process would operate. Among other things, the Commission asked whether ''certifications should be filed when the links become operational, at any time prior to the construction deadline, or whenever a licensee seeks to renew its license?'' The Commission also sought comment on whether to allow de minimis modifications to certain information filed in the registration database.

1. Construction and Operational Status

68. To promote the efficient use of the high-capacity 70/80/90 GHz bands, in this *Report and Order* the Commission adopt a requirement that licensees certify that each link is constructed and operating within 12 months of successful registration in the link registration system (LRS) administered by third-party database managers. Under the Commission's rules in place since 2003, licensees must construct their links within 12 months of registering them in the LRS and failure to timely begin operation means the authorization cancels automatically. Under the hybrid license/registration approach adopted for these bands, however, the Commission decided ''at [that] time'' not to require licensees to affirmatively report link construction and instead relied on licensees to ask a database manager to remove unconstructed links from the database. As such, the Commission instructed the database managers to remove a link from the registry if it is found to be unconstructed after the required timeframe. The Commission note that in 2003 the bands were ''essentially undeveloped and available for new uses'' and that the Commission reserved the discretion to revisit this issue if experience indicated that additional measures were necessary.

69. As in 2003, the overarching purpose of the Commission's requirements concerning link construction, as well as modification

[5] The 90 GHz band has different antenna rules, but the same link registration process as the 70 GHz and 80 GHz bands. Although in this *Report and Order* the Commission does not modify the antenna rules in the 90 GHz band, in the Commission's consideration of changes to the link registration process, the Commission does include the 90 GHz band to maintain a harmonized approach to link registration for all of the bands included in the link registration system.

and discontinuance, is to ensure that spectrum is put to use and to maintain the ''integrity of the information in the relevant databases by correctly reflecting the actual record concerning these issues.'' Based on the Commission's experience, including the development of the bands since 2003, and the record before us, the Commission finds that requiring licensees to certify in the LRS that each link is timely constructed will significantly improve the accuracy of the database, thereby increasing opportunities for additional, efficient use of the bands. Failure to begin operations in a timely manner pursuant to a part 101 authorization results in the automatic cancelation of an authorization.

70. In the 70/80/90 GHz bands, the nationwide license serves as a prerequisite to registering links, each registration in the LRS is the licensee's authorization to operate the individual link, and the 12-month construction period commences on the registration date of each individual link. Because 70/80/90 GHz links are registered in the LRS, the provision in paragraph (f) stating that ''construction of any authorized facility or frequency must be completed by the date specified in the license'' is inapplicable to 70/80/90 links. Under the current rules, ''[f]ailure to timely begin operation means the authorization cancels automatically'' as of the construction deadline. Similar to the timeline for construction notifications filed in ULS, however, the Commission will allow 70/80/90 GHz licensees 15 days after the 12-month construction deadline for each link to certify in the LRS that the link was timely constructed and operating. Accordingly, if a 70/80/90 GHz licensee does not certify in the LRS within 15 days after the 12-month construction deadline for a link, the link will be deemed to be unconstructed and the licensee's authority to operate the link shall be terminated automatically without further Commission action as of the 12-month construction deadline for the link. The Commission also agrees with commenters that after the certification requirement becomes effective, it should apply to all uncertified links even if the 12-month construction deadline date occurred prior to the effective date of the certification requirement. For uncertified links registered 12 months or longer before the effective date, licensees will have until 15 days after the effective date to certify that their links were constructed on or before the effective date. Thus, for uncertified links registered less than 12 months before the effective date, licensees will have to file a certification within 15 days from the end of the 12-month construction period following registration.

71. Once the certification requirement is in effect, the Commission instructs the third-party database managers, as a matter of database accuracy and integrity, to remove uncertified registrations from the LRS that have terminated automatically under the Commission's rules. Because licensees will have until 15 days after the 12-month construction deadline to certify in the LRS that a link is constructed and operating, the Commission instructs database managers to remove a link from the LRS on the 16th day after the 12-month construction deadline for a link if the licensee has not certified in the LRS that the link was timely constructed and operating.

72. Imposing the certification requirement on licensees and having the third-party database managers update the LRS accordingly will allow all licensees, and the Commission, to track link cancellations through the LRS. Parties considering the 70/80/90 GHz bands and licensees seeking to register links after implementation of this requirement will have a more accurate database to use to judge spectrum availability. In this setting, if a licensee's authority to operate a link is automatically terminated because the construction requirement was not met, the licensee will not be barred from attempting to register the link again, and if successful, constructing it later. The licensee, however, will lose the original registration date for the purpose of interference protection procedures.

73. There is broad support in the record for implementing the certification requirement. FWCC argues that construction certifications will help maintain a reliable database at a low cost to licensees. Commenters broadly agree that the database should consist only of links that are actually constructed or that have been successfully registered but are within their one-year construction period, and that requiring construction certifications would be an effective way to maintain an accurate database and promote efficient access to the bands. Other commenters, including Comsearch, agree that the existing database managers are well suited to administer the certification requirement. Micronet's database provides information about links that have been registered and not constructed, but there is no requirement that Micronet provide this information and there is no requirement that licensees inform Micronet when links are built. Therefore, links that appear in Micronet's database as unconstructed may be constructed.

74. Although some parties would have the Commission manage construction certifications through ULS, the Commission believes that the hybrid license/registration approach that has governed these bands since the database managers developed and began operating the LRS in 2005 has worked reasonably well and should not be displaced. Industry members are already accustomed to working with the database managers on spectrum management matters and have established access to the database managers' platforms. The Commission agrees with FWCC and Comsearch that using ULS for certification would add unnecessary complexity to the link registration process. The Commission agrees, however, with commenters who suggest that additional measures are warranted to ensure that registered links remain operational on an ongoing basis long after satisfaction of the 12-month construction deadline. Accordingly, when a 70/80/90 GHz band licensee seeks to renew its nationwide license, the Commission will require the licensee to certify as part of the license renewal application that each link registered under the license more than twelve months prior to the filing date of the renewal application is constructed and operating on an ongoing basis as of the filing date of the license renewal application. The Commission disagrees with AT&T that requiring licensees to certify every ten years that they are still operating their registered links is unnecessary given that the Commission is requiring licensees to certify each link shortly after the 12-month construction deadline. The Commission clarifies, however, that the Commission is not requiring renewal applicants to ''list links, whether constructed or not, in renewal applications for 70/80/90 GHz licenses.''

75. *Implementation Matters.* The Commission authorizes and directs WTB to consult each database manager on the timing of modifications to the LRS necessary to accommodate rule changes. WTB will also announce by public notice the details and dates for implementing a construction certification requirement. Additionally, the Commission understands that each database manager periodically sends its registrants email reminders of their upcoming and recently past construction deadlines and that each database manager plans to send email alerts to its relevant registrants about these rule changes. The Commission

applauds the database managers' past efforts to improve the accuracy of the database and encourage them to continue sending email alerts to licensees. The Commission emphasizes, however, that each licensee is responsible for timely filing its construction certifications in the LRS regardless of whether a courtesy reminder email may have been sent or received. Finally, the Commission reminds licensees that they should only certify as constructed links that are operational, and that non-operational links should be deleted from the database. Licensees are reminded that links that are not actually constructed by the construction deadline cancel automatically on the date of the construction period expires, and are not entitled to first-in-time protection regardless of whether they may appear in the registration database.

2. De Minimis Modifications to Registrations

76. The *70/80/90 GHz NPRM* sought comment on whether licensees should be allowed to amend their registered links without losing first-in-time status—*i.e.,* on what date should a link be considered registered and given protected status for purposes of these rule—and what amendments, if any, should be allowed without losing first-in-time status. The Commission finds support in the record for allowing de minimis modifications to registrations that are exclusively for the purpose of repairing or replacing installed and operating equipment, provided that there are no changes to any registered technical parameters that would change the potential for a link to cause or receive interference. Modifications that are consistent with these requirements can be implemented without affecting a registrant's first-in-time rights for the particular link. Such modifications may be implemented if the modified registration is successful without affecting a registrant's first-in-time rights for the particular link. By allowing these de minimis modifications to registrations without changing the interference-protection date, the Commission allows licensees to maintain the existing operation of their links without sacrificing either the accuracy of the database or the licensee's interference-protection rights. The Commission emphasizes that ''de minimis'' modifications to registrations that commenters discuss in this proceeding are distinct from the Commission's part 1 rules that govern major or minor modifications to station authorizations. To avoid confusion, the Commission refers to modifications to registrations that licensees can make without losing first-in-time status as de minimis. Most parties support de minimis modifications to the extent that they will not change the interference landscape, though parties' ideas of what would constitute a de minimis modification differ. Some parties argue that de minimis modifications should include changes to some technical specifications. For example, WISPA argues that minor modifications should include changes to geographic coordinates within +/− 15 meters of latitude or longitude and +/− 3 meters of elevation. Others, however, believe that de minimis modifications should be only those changes that do not affect any technical parameters relevant for coordination. The Commission agrees with commenters that modifications that change ''interference potential'' should not be treated as de minimis modifications and will result in a new date for first-in-time purposes.

77. The Commission finds that many of the proposals by commenters, such as those involving changes to location, could change the interference landscape and therefor are not de minimis. In addition, changes to parameters that typically would not be considered major in other contexts, like increases to receive antenna height, could make an existing link more susceptible to interference. Given the sensitivity of the first-in-time rights to changes in the interference environment, the Commission believes that it is prudent to define de minimis modifications in this context very narrowly. Based on the Commission's analysis of the comments in the record the Commission will define de minimis modifications as those that meet all of the following criteria: The modification is necessary to repair or replace registered, constructed, and operating equipment; the modification does not increase the EIRP of a digital system or change the EIRP of an analog system; [6] the modification does not increase the channel bandwidth; the modification does not change the power density; the modification does not increase the receiver sensitivity; the modification does not increase the antenna beamwidth; the modification does not increase the antenna gain, except where there is a corresponding reduction transmitter power so that there is no increase in EIRP; the modification does not involve a change to antenna with less off-axis attenuation at any angle; and the modification does not change any other technical parameters not mentioned above.

78. Under the definition adopted above, any modification to a registration that could make a link more susceptible to interference or more likely to cause interference will result in a new date for first-in-time coordination purposes. The Commission finds that the limited definition of a de minimis modification adopted in this *Report and Order* will minimize the risk of harmful interference and promote efficient access to these bands.

D. Other Issues

79. The Commission does not take action at this time on several other issues raised in the Commission's inquiries in this proceeding, or by commenters in the record owing to absence of notice, an inadequate record, or lack of consensus on a path forward. To wit, in the *70/80/90 GHz NPRM,* the Commission sought comment on a proposal relating to authorizing mobile operations on a non-interference basis to fixed operations along the United States' international borders with Canada and Mexico, subject to future international agreements. This specific issue was not addressed by any filers. In the absence of a developed record on this issue, the Commission does not address it at this time.

80. Separately, in the *HAPS Public Notice* WTB sought to supplement the record on the possibility of bringing HAPS and/or other stratospheric-based platform services into the 70/80/90 GHz bands. The record, including analysis provided by the Federal Agencies, contains highly divergent claims regarding the possibility of integrating HAPS operations into the 70/80/90 GHz bands, with limited actual data to support such action. The Commission therefore declines at this time to adopt rules for HAPS operations in the 70/80/90 GHz bands. The Commission does note that any party—including HAPS providers—can engage in operations consistent with the rules of general applicability for aeronautical services adopted in this *Report and Order.*

81. Beginning in *ex parte* presentations, and later in other filings in this docket, SpaceX requested that the Commission amends its rules to allow the registration of FSS earth stations in the third-party link registration database for the 70 GHz and 80 GHz bands. While FSS has a co-primary shared allocation, the Commission has not yet developed

[6] For analog systems the interference criteria in rule section 101.105 is specified as a C/I ratio, so decreases in EIRP could change the C/I ratio and potentially make a link more susceptible to interference. Therefore, for analog systems any modification that changes the EIRP will not be considered de minimis, and a new date will be applied for first-in-time purposes.

service rules for FSS operations in these bands. As FSS operations differ in significant ways from the FS operations that the third-party database system was originally designed to accommodate, adding FSS to this system would likely require development of different coordination parameters, and possibly additional interference mitigation techniques to protect Federal operations in the bands. The Commission notes that the Commission's rules for authorization of proposed non-Federal fixed terrestrial links in the 71.0–76.0 GHz and 81.0–86.0 GHz bands do not address co-band, non-Federal FSS Earth stations and thus non-Federal terrestrial licensees are not required to analyze the potential for harmful interference to or from a proposed link to non-Federal gateway Earth stations previously authorized or pending in ICFS under the default service rules. Moreover, SpaceX notes that the interference mitigations proposed in the Federal Agencies Letter, which inform the rules to accommodate airborne and maritime point-to-endpoints-in-motion in the third-party database system that the Commission adopts would not be appropriate for FSS operations in the 70 GHz and 80 GHz bands. Without the development of a record on the specifics required to include FSS earth stations in the third-party database, or Federal inter-agency discourse on this prospect, the Commission is not in a position to take this step. However, the Commission seeks further input on these issues in the *Further Notice* portion of this item immediately below.

82. The fact that the Commission is not adding FSS to the third-party database registration system does not impair the ability of FSS operators to continue to deploy and operate new earth stations in the 70/80/90 GHz bands,[7] subject to prior coordination with existing incumbents.[8]

83. In response to certain concerns raised in the record, the Commission emphasizes that the allocations in the 70/80/90 GHz bands have not changed. FSS and FS remain co-primary, and the Commission continues to have policies in place that allow for coexistence. First-in-time priority rights serve as the foundation for such coexistence in the 70/80/90 GHz bands, as they do in other spectrum bands shared by FS and FSS; nothing the Commission adopts disturbs this status quo.

III. Final Regulatory Flexibility Analysis

84. As required by the Regulatory Flexibility Act of 1980, as amended (RFA), an Initial Regulatory Flexibility Analysis (IRFA) was incorporated into the *Modernizing and Expanding Access to the 70/80/90 GHz Bands, Notice of Proposed Rulemaking (NPRM)* released in June 2020. The Federal Communications Commission (Commission) sought written public comment on the proposals in the *NPRM,* including comments on the IRFA. No comments were filed addressing the IRFA. This present Final Regulatory Flexibility Analysis (FRFA) conforms to the RFA.

A. Need for, and Objectives of, the Report and Order

85. In the *Report and Order,* the Commission seeks to further its goals of fostering innovation in provisioning broadband and on meeting the rapidly increasing demand for its related services by small and other entities through the adoption of new rules and modernizing current rules for the 71–76 GHz, 81–86 GHz, 92–94 GHz, and 94.1–95 GHz bands (collectively, the 70/80/90 GHz bands).

86. The adopted rules take several approaches towards achieving these goals. One approach is authorizing certain point-to-point links to endpoints in motion in the 70 GHz and 80 GHz bands under the Commission's part 101 rules to further the use of these frequencies for access to broadband services on aircraft and ships. In the *Report and Order,* the Commission authorizes certain point-to-point links to endpoints in motion in the 71–76 GHz (the 70 GHz band) and 81–86 GHz (the 80 GHz band) bands under its part 101 rules. Another approach is updating the Commission's rules to permit the use of smaller and lower-cost antennas to facilitate the provisioning of backhaul service in the 70 GHz and 80 GHz bands, and mandates a channelization plan in those bands. Finally, the *Report and Order* adopted changes to the link registration process in the 70/80/90 GHz bands to promote prompt construction of registered links, thereby fostering more efficient use of this spectrum and improving the accuracy of the link registration database.

B. Summary of Significant Issues Raised by Public Comments in Response to the IRFA

87. There were no comments filed that specifically addressed the proposed rules and policies presented in the IRFA.

C. Response to Comments by the Chief Counsel for Advocacy of the Small Business Administration

88. Pursuant to the Small Business Jobs Act of 2010, which amended the RFA, the Commission is required to respond to any comments filed by the Chief Counsel for Advocacy of the Small Business Administration (SBA), and to provide a detailed statement of any change made to the proposed rules as a result of those comments. The Chief Counsel did not file any comments in response to the proposed rules in this proceeding.

D. Description and Estimate of the Number of Small Entities to Which the Rules Will Apply

89. The RFA directs agencies to provide a description of and, where feasible, an estimate of the number of small entities that may be affected by the rules adopted herein. The RFA generally defines the term ''small entity'' as having the same meaning as the terms ''small business,'' ''small organization,'' and ''small governmental jurisdiction.'' In addition, the term ''small business'' has the same meaning as the term ''small business concern'' under the Small Business Act.'' A ''small business concern'' is one which: (1) is independently owned and operated; (2) is not dominant in its field of operation; and (3) satisfies any additional criteria established by the SBA.

90. *Small Businesses, Small Organizations, Small Governmental Jurisdictions.* The Commission's actions, over time, may affect small entities that are not easily categorized at present. The Commission therefore describes, at the outset, three broad groups of small entities that could be directly affected herein. First, while there are industry specific size standards for small businesses that are used in the regulatory flexibility analysis, according to data from the Small Business

[7] The Commission notes, for example, that SpaceX has filed earth and space station applications to authorize its operations in the 70/80/90 GHz bands pursuant to the part 25 default service rules, and is currently operating under special temporary authorizations (STAs) pending completion of Federal coordination on its applications for final authorization.

[8] Satellite operations were not yet permitted in the E-band in 2003 when the Commission adopted the license/registration approach for non-Federal terrestrial links. The Commission recognized, however, that there were co-primary satellite allocations in various portions of the E-band and decided to maintain multiple services in the allocation table and address possible sharing criteria in the future stating that ''all terrestrial 71–76 GHz and 81–86 GHz band entities are hereby made aware that future operations of satellite and satellite earth stations could be permitted in the 71–76 GHz and 81–86 GHz bands. Once the Commission considers and adopts technical standards for terrestrial and satellite operations to share this spectrum, all licensees will be expected to satisfy these and any other Part 101 requirements.''

Administration's (SBA) Office of Advocacy, in general a small business is an independent business having fewer than 500 employees. These types of small businesses represent 99.9% of all businesses in the United States, which translates to 33.2 million businesses.

91. Next, the type of small entity described as a ''small organization'' is generally ''any not-for-profit enterprise which is independently owned and operated and is not dominant in its field.'' The Internal Revenue Service (IRS) uses a revenue benchmark of $50,000 or less to delineate its annual electronic filing requirements for small exempt organizations. Nationwide, for tax year 2020, there were approximately 447,689 small exempt organizations in the U.S. reporting revenues of $50,000 or less according to the registration and tax data for exempt organizations available from the IRS.

92. Finally, the small entity described as a ''small governmental jurisdiction'' is defined generally as ''governments of cities, counties, towns, townships, villages, school districts, or special districts, with a population of less than fifty thousand.'' U.S. Census Bureau data from the 2017 Census of Governments indicate there were 90,075 local governmental jurisdictions consisting of general purpose governments and special purpose governments in the United States. Of this number, there were 36,931 general purpose governments (county, municipal, and town or township) with populations of less than 50,000 and 12,040 special purpose governments—independent school districts with enrollment populations of less than 50,000. Accordingly, based on the 2017 U.S. Census of Governments data, the Commission estimates that at least 48,971 entities fall into the category of ''small governmental jurisdictions.''

93. *Wireless Telecommunications Carriers (except Satellite).* This industry comprises establishments engaged in operating and maintaining switching and transmission facilities to provide communications via the airwaves. Establishments in this industry have spectrum licenses and provide services using that spectrum, such as cellular services, paging services, wireless internet access, and wireless video services. The SBA size standard for this industry classifies a business as small if it has 1,500 or fewer employees. U.S. Census Bureau data for 2017 show that there were 2,893 firms in this industry that operated for the entire year. Of that number, 2,837 firms employed fewer than 250 employees. Additionally, based on Commission data in the 2022 Universal Service Monitoring Report, as of December 31, 2021, there were 594 providers that reported they were engaged in the provision of wireless services. Of these providers, the Commission estimates that 511 providers have 1,500 or fewer employees. Consequently, using the SBA's small business size standard, most of these providers can be considered small entities.

94. *Fixed Microwave Services.* Fixed microwave services include common carrier, private-operational fixed, and broadcast auxiliary radio services. They also include the Upper Microwave Flexible Use Service (UMFUS), Millimeter Wave Service (70/80/90 GHz), Local Multipoint Distribution Service (LMDS), the Digital Electronic Message Service (DEMS), 24 GHz Service, Multiple Address Systems (MAS), and Multichannel Video Distribution and Data Service (MVDDS), where in some bands licensees can choose between common carrier and non-common carrier status. Wireless Telecommunications Carriers (*except* Satellite) is the closest industry with a SBA small business size standard applicable to these services. The SBA small size standard for this industry classifies a business as small if it has 1,500 or fewer employees. U.S. Census Bureau data for 2017 show that there were 2,893 firms that operated in this industry for the entire year. Of this number, 2,837 firms employed fewer than 250 employees. Thus under the SBA size standard, the Commission estimates that a majority of fixed microwave service licensees can be considered small.

95. The Commission's small business size standards with respect to fixed microwave services involve eligibility for bidding credits and installment payments in the auction of licenses for the various frequency bands included in fixed microwave services. When bidding credits are adopted for the auction of licenses in fixed microwave services frequency bands, such credits may be available to several types of small businesses based average gross revenues (small, very small and entrepreneur) pursuant to the competitive bidding rules adopted in conjunction with the requirements for the auction and/or as identified in part 101 of the Commission's rules for the specific fixed microwave services frequency bands.

96. In frequency bands where licenses were subject to auction, the Commission notes that as a general matter, the number of winning bidders that qualify as small businesses at the close of an auction does not necessarily represent the number of small businesses currently in service. Further, the Commission does not generally track subsequent business size unless, in the context of assignments or transfers, unjust enrichment issues are implicated. Additionally, since the Commission does not collect data on the number of employees for licensees providing these services, at this time the Commission is not able to estimate the number of licensees with active licenses that would qualify as small under the SBA's small business size standard.

97. *Satellite Telecommunications.* This industry comprises firms ''primarily engaged in providing telecommunications services to other establishments in the telecommunications and broadcasting industries by forwarding and receiving communications signals via a system of satellites or reselling satellite telecommunications.'' Satellite telecommunications service providers include satellite and earth station operators. The SBA small business size standard for this industry classifies a business with $38.5 million or less in annual receipts as small. U.S. Census Bureau data for 2017 show that 275 firms in this industry operated for the entire year. Of this number, 242 firms had revenue of less than $25 million. Additionally, based on Commission data in the 2022 Universal Service Monitoring Report, as of December 31, 2021, there were 65 providers that reported they were engaged in the provision of satellite telecommunications services. Of these providers, the Commission estimates that approximately 42 providers have 1,500 or fewer employees. Consequently, using the SBA's small business size standard, a little more than half of these providers can be considered small entities.

98. *All Other Telecommunications.* This industry is comprised of establishments primarily engaged in providing specialized telecommunications services, such as satellite tracking, communications telemetry, and radar station operation. This industry also includes establishments primarily engaged in providing satellite terminal stations and associated facilities connected with one or more terrestrial systems and capable of transmitting telecommunications to, and receiving telecommunications from, satellite systems. Providers of internet services (*e.g.,* dial-up ISPs) or Voice over Internet Protocol (VoIP) services, via client-supplied telecommunications connections are also included in this industry. The SBA small business size standard for this industry classifies firms with annual receipts of $35

million or less as small. U.S. Census Bureau data for 2017 show that there were 1,079 firms in this industry that operated for the entire year. Of those firms, 1,039 had revenue of less than $25 million. Based on this data, the Commission estimates that the majority of ''All Other Telecommunications'' firms can be considered small.

99. *Radio and Television Broadcasting and Wireless Communications Equipment Manufacturing.* This industry comprises establishments primarily engaged in manufacturing radio and television broadcast and wireless communications equipment. Examples of products made by these establishments are: transmitting and receiving antennas, cable television equipment, GPS equipment, pagers, cellular phones, mobile communications equipment, and radio and television studio and broadcasting equipment. The SBA small business size standard for this industry classifies businesses having 1,250 employees or less as small. U.S. Census Bureau data for 2017 show that there were 656 firms in this industry that operated for the entire year. Of this number, 624 firms had fewer than 250 employees. Thus, under the SBA size standard, the majority of firms in this industry can be considered small.

E. Description of Projected Reporting, Recordkeeping, and Other Compliance Requirements for Small Entities

100. The rule changes adopted in the *Report and Order* will impose some new and/or additional reporting, recordkeeping, or other compliance requirements on small entities who obtain licenses in the 70/80/90 GHz bands. These requirements are consistent with the requirements the Commission has adopted for other mmW bands; as a result, small entities will potentially have less of a learning curve in their efforts to comply with the adopted rules.

101. In 2003, the Commission established service rules for non-Federal use of the 70/80/90 GHz bands through a two-step, non-exclusive licensing regime. Small entities and other applicants obtain a nationwide, non-exclusive license for the entire 12.9 gigahertz of the 70/80/90 GHz bands, and then register individual links in a database administered by third-party database managers. Since 2004, the Wireless Bureau has designated the Commission's entities to be database managers but there are currently two database managers: Comsearch and Micronet Communications, Inc. In order for a link to be registered, it must be coordinated successfully with Federal operations, typically through the National Telecommunications and Information Administration's (NTIA) online, automated mechanism. If a proposed link does not interfere with existing Federal operations then it is given a ''green light;'' if it may interfere with existing Federal operations, then it is given a ''yellow light,'' indicating that the licensee must file a registration application for the link with the FCC for coordination with NTIA. The ''green light''/''yellow light'' system protects the sensitive nature of the locations of military installations. Also, the licensee must provide an analysis to the third-party database manager demonstrating that the proposed link will neither cause harmful interference to, nor receive harmful interference from, any previously registered non-government link. Licensees are afforded first-in-time priority for successfully registered links relative to links that are successfully registered at a later point in time. Registered links must be constructed within 12 months of their registration. Under part 101, non-Federal licensees may use the 70/80/90 GHz bands for any point-to-point, non-broadcast service.

102. Many of the rule changes adopted in the *Report and Order* are consistent with and mirror existing Commission policies and requirements used in other part 101 spectrum bands, which the Commission expects will help minimize some of the compliance burdens associated with the adopted rules. For example, while the Commission does add a construction certification requirement that licensees certify that each link is constructed and operating within 12 months of successful registration in the link registration system (LRS) administered by third-party database managers, small entities with existing licenses in other bands may already be familiar with similar policies and requirements and have the processes and procedures already in place to facilitate compliance, resulting in minimal incremental costs to comply with the Commission's requirements for the 70/80/90 GHz bands. The Commission also adopts de minimis modifications to link registrations, which allow licensees to amend their registered links without losing their first-in-time rights for those links. Adopting this rule allows small and other licensees to maintain the existing operation of their links without sacrificing either the accuracy of the database or the licensee's interference-protection rights. Additionally, the Commission believes small entities will continue to benefit from their ability to obtain more information than was previously available to them, such as access to the third-party databases and FCC rulemakings, but with improvements to the data within the database that will result from the construction certification requirement.

F. Steps Taken To Minimize the Significant Economic Impact on Small Entities, and Significant Alternatives Considered

103. The RFA requires an agency to provide ''a description of the steps the agency has taken to minimize the significant economic impact on small entities . . . including a statement of the factual, policy, and legal reasons for selecting the alternative adopted in the final rule and why each one of the other significant alternatives to the rule considered by the agency which affect the impact on small entities was rejected.''

104. In the *Report and Order,* the Commission adopts measures to meet the great demand for wireless broadband connectivity in an efficient and effective manner. While doing so, the Commission is mindful that small licensees and service providers will incur some new and/or additional compliance requirements that may also result in increased costs. In adopting the proposed rules, the Commission weighed the impact of these obligations on small entities against the public interest benefits gained from them and have determined that the benefits outweigh the costs. Both the specific steps the Commission has taken to minimize costs and reduce the economic impact for small entities and the alternatives considered are discussed below.

105. For example, through the adopted rules, the Commission took the step of changing its antenna standards to allow licensees, some of which are small entities, to use smaller, lower-cost antennas in the 70 GHz and 80 GHz bands for 5G backhaul. Taking this approach will allow for more intensive use of these bands by small and other entities, thus allowing them to further develop and expand their businesses. Alternatively, the Commission considered not utilizing this approach, due to a concern that reducing antenna size would impact the number of links using the 71–76 GHz and 81–86 GHz bands in metro areas. However, the benefit of allowing for greater use of the bands outweighed this concern. The Commission also minimized the economic impact on small and other entities through its adoption of the de minimis modification requirement, which ensures that licensees can amend their registrations and not lose their

first-in-time status for their registered links, as long as their modifications are consistent with the adopted requirements. The adopted de minimis standard for modifications will be a particular boon to small entities, who may already have limited resources and would likely be disproportionately burdened if their need to repair or replace installed and operating equipment did not change the potential risk of a link causing or receiving interference, yet still caused them to ''lose their place in line.'' The Commission considered, but declined to adopt, proposals from commenters that the Commission determined were beyond a de minimis modification, such as those that would change the interference landscape.

106. The Commission also considered but rejected arguments requiring construction certifications be filed in the Universal Licensing System (ULS). The Commission instead focused on targeted changes to improve efficiency in high-capacity bands critical to accelerating the deployment of 5G services nationwide. The Commission expects its approach of opting to modify existing rules as minimally as possible instead of creating numerous new and/or additional rules, should minimize the economic impact for small entities and promote greater use of the band among all providers.

107. To the extent the cost of complying with these burdens is relatively greater for smaller entities than for large ones, the Commission believes equal application of the rules is necessary to effectuate the purpose of the Communications Act, namely, to further the efficient use of spectrum and to prevent spectrum warehousing. Likewise, equal application of compliance with the Commission's technical rules and coordination requirements for all licensees is necessary for the furtherance of the Commission's goals of protecting the public while facilitating the provision of interference-free services by licensees.

IV. Ordering Clauses

108. *It is ordered* that, pursuant to sections 4(i), 301, 302, 303(c), 303(f), and 303(r) of the Communications Act of 1934, as amended, 47 U.S.C. 154(i), 301, 302a, 303(c), 303(f), and 303(r), that this *Report and Order is adopted* as set forth above.

109. *It is further ordered* that the amendments of the Commission's rules as set forth in Final Rules *are adopted,* effective thirty days from the date of publication in the **Federal Register**, except for: (1) section 101.147(z)(3), which will take effect on September 1, 2024; and (2) sections 101.63(b), 101.1523(a), (e), and 101.1528 (a)(11), (b)(10), and (d), which contain new or modified information collection requirements that requires approval by the Office of Management and Budget under the Paperwork Reduction Act and will take effect after the Commission publishes a notice in the **Federal Register** announcing such approval and the relevant effective date(s).

110. *It is further ordered* that the Commission's Office of the Secretary, *shall send* a copy of this *Report and Order,* including the Final Regulatory Flexibility Analysis, to the Chief Counsel for Advocacy of the Small Business Administration.

111. *It is further ordered* that the Office of the Managing Director, Performance and Program Management, *shall send* a copy of this *Report and Order* in a report to be sent to Congress and the Government Accountability Office pursuant to the Congressional Review Act, 5 U.S.C. 801(a)(1)(A).

List of Subjects

Authority delegations (Government agencies); Classified information; Communications; Communications common carriers.

47 CFR Part 101

Administrative practice and procedure; Communications; Communications equipment; Radio; Reporting and recordkeeping requirements; Satellites; Telecommunications.

Federal Communications Commission.

Marlene Dortch,

Secretary, Office of Secretary.

Final Rules

For the reasons discussed in preamble, the Federal Communications Commission amends 47 CFR parts 0 and 101 as follows:

PART 0—COMMISSION ORGANIZATION

■ 1. The authority citation for part 0 continues to read as follows:

Authority: 47 U.S.C. 151, 154(i), 154(j), 155, 225, and 409, unless otherwise noted.

■ 2. Effective May 29, 2024, § 0.241 is amended by adding paragraph (l) to read as follows:

§ 0.241 Authority delegated.

* * * * *

(l) The Chief of the Office of Engineering and Technology is delegated authority, jointly with the Chief of the Wireless Telecommunications Bureau, to establish and administer a process for review of proposed technologies for point-to-endpoint-in-motion communications to aircraft and ships in the 71–76 GHz and 81–86 GHz bands to ensure compliance with the requirements adopted by the Commission.

■ 3. Effective May 29, 2024, § 0.331 is amended by revising the introductory text and adding paragraph (g) to read as follows:

§ 0.331 Authority delegated.

The Chief, Wireless Telecommunications Bureau, is hereby delegated authority to perform all functions of the Bureau, described in § 0.131, subject to the exceptions and limitations in paragraphs (a) through (d) of this section, and also the functions described in paragraphs (e) through (g) of this section.

* * * * *

(g) *Authority concerning review of certain proposed technologies in the 71–76 and 81–86 GHz bands.* The Chief of the Wireless Telecommunications Bureau is delegated authority, jointly with the Chief of the Office of Engineering and Technology, to establish and administer a process for review of proposed technologies for point-to-endpoint-in-motion communications to aircraft and ships in the 71–76 GHz and 81–86 GHz bands to ensure compliance with the requirements adopted by the Commission. The Chief of the Wireless Telecommunications Bureau is also delegated authority to establish and administer specific procedures to be followed for coordinating and registering aeronautical and maritime stations and their associated transmissions.

PART 101—FIXED MICROWAVE SERVICES

■ 4. The authority citation for part 101 continues to read as follows:

Authority: 47 U.S.C. 154, 303.

■ 5. Delayed indefinitely, § 101.63 is amended by revising paragraph (b) to read as follows:

§ 101.63 Period of construction; certification of completion of construction.

* * * * *

(b) For the 70 GHz, 80 GHz, and 90 GHz bands, the 12-month construction period will commence on the date of each registration of each individual link; adding links will not change the overall renewal period of the license. For each individual link, a licensee who

commences operations within the construction period must certify in the third-party link registration database, such as those established pursuant to section 101.1523, that the link is constructed and operational. The certification must be filed within 15 days of the expiration of the applicable construction period for each individual link. If operations have begun using some, but not all, of the authorized transmitters, the certification must show to which specific transmitters it applies. After 15 days of the end of the construction period for each individual link, if the licensee has not certified that the link is constructed and operational, the third-party database managers will delete the registration from the database.

* * * * *

■ 6. Effective May 29, 2024, § 101.111 is amended by adding paragraph (a)(2)(vi) to read as follows:

§ 101.111 Emission limitations.

(a) * * *

(2) * * *

(vi)(A) In order to protect Federal Earth Exploration-Satellite Service (passive), aeronautical and maritime endpoints in motion operating in the 70 and 80 GHz bands must comply with the following limits:

(*1*) Ground-to-air transmissions shall not exceed an unwanted emission level of –38.5 dBW per 100 MHz in any portion of the 86–92 GHz passive band;

(*2*) Air-to-air, ship-to-shore, and aerostat-to-shore transmissions shall not exceed an unwanted emission level of −29.7 dBW per 100 MHz in any portion of the 86–92 GHz passive band.

(B) Any changes to system specifications, operations, or deployment scenarios for aeronautical or maritime end points in motion shall be pre-coordinated with NTIA and affected Federal agencies, and licensees of aeronautical or maritime end points in motion must cooperate fully with any updates to the required unwanted emission limits that may result from these modifications.

* * * * *

■ 7. Effective May 29, 2024, § 101.113 is amended in the table in paragraph (a) by revising entries for ''71,000 to 76,000'' and ''81,000 to 86,000'' to read as follows:

§ 101.113 Transmitter power limitations.

(a) * * *

Frequency band (MHz)	Maximum allowable EIRP [1] [2]	
	Fixed [1] [2] (dBW)	Mobile (dBW)
* * * * *	*	*
71,000–76,000 [13] [14]	+55	+55
81,000–86,000 [13] [14]	+55	+55
* * * * *	*	*

[1] Per polarization.

[2] For multiple address operations, see *§ 101.147*. Remote alarm units that are part of a multiple address central station projection system are authorized a maximum of 2 watts.

* * * * *

[13] The maximum transmitter power is limited to 3 watts (5 dBW) unless a proportional reduction in maximum authorized EIRP is required under *§ 101.115*. The maximum transmitter power spectral density is limited to 150 mW per 100 MHz.

[14] The EIRP limit for fixed and mobile stations used for aeronautical and maritime endpoints in motion is 57 dBW.

* * * * *

■ 8. Effective May 29, 2024, § 101.115 is amended in the table in paragraph (b)(2) by revising the entries for ''71,000 to 76,000 (co-polar)'', ''71,000 to 76,000 (cross-polar)'', ''81,000 to 86,000 (co-polar)'', and ''81,000 to 86,000 (cross-polar)'' to read as follows:

§ 101.115 Directional antennas.

* * * * *

(b) * * *

(2) * * *

ANTENNA STANDARDS

Frequency (MHz)	Category	Maximum beamwidth to 3 dB points [1] (included angle in degrees)	Minimum antenna gain (dBi)	Minimum radiation suppression to angle in degrees from centerline of main beam in decibels						
				5° to 10°	10° to 15°	15° to 20°	20° to 30°	30° to 100°	100° to 140°	140° to 180°
*	*	*		*	*	*	*	*		
71,000 to 76,000 (co-polar) [14]	N/A	2.2	38	22	28	32	35	37	55	55
71,000 to 76,000 (cross-polar) [14]	N/A	2.2	38	35	35	40	42	47	55	55
81,000 to 86,000 (co-polar) [14]	N/A	2.2	38	22	28	32	35	37	55	55
81,000 to 86,000 (cross-polar) [14]	N/A	2.2	38	35	35	40	42	47	55	55
*	*	*		*	*	*	*	*		

[1] If a licensee chooses to show compliance using maximum beamwidth to 3 dB points, the beamwidth limit shall apply in both the azimuth and the elevation planes.

* * * * *

[14] Antenna gain less than 50 dBi (but greater than or equal to 38 dBi) is permitted only with a proportional reduction in maximum authorized EIRP in a ratio of 2 dB of power per 1 dB of gain, so that the maximum allowable EIRP (in dBW) for antennas of less than 50 dBi gain becomes +55–2(50–G), where G is the antenna gain in dBi. In addition, antennas in these bands must meet the following additional standard for minimum radiation suppression: At angles of less than 5 degrees from the centerline of main beam, cross-polar discrimination must be at least 21 dB.

* * * * *

■ 9. Effective September 1, 2024, § 101.147 is amended by adding paragraph (z)(3) to read as follows:

§ 101.147 Frequency assignments.

* * * * *

(z) * * *

(3) The following channel plans apply to the 71,000–76,000 MHz and 81,000–86,000 MHz bands:

(i) *250 MHz authorized bandwidth.*

Transmit (receive) (MHz)	Receive (transmit) (MHz)
71250	81250
71500	81500
71750	81750
72000	82000
72250	82250
72500	82500
72750	82750
73000	83000
73250	83250
73500	83500
73750	83750
74000	84000
74250	84250
74500	84500
74750	84750
75000	85000
75250	85250
75500	85500
75750	85750

(ii) *500 MHz authorized bandwidth.*

Transmit (receive) (MHz)	Receive (transmit) (MHz)
71375	81375
71875	81875
72375	82375
72875	82875
73375	83375
73875	83875
74375	84375
74875	84875
75375	85375

(iii) *750 MHz authorized bandwidth.*

Transmit (receive) (MHz)	Receive (transmit) (MHz)
71500	81500
72250	82250
73000	83000
73750	83750
74500	84500
75250	85250

(iv) *1 GHz authorized bandwidth.*

Transmit (receive) (MHz)	Receive (transmit) (MHz)
71625	81625
72625	82625
74125	84125
75125	85125

(v) *1.25 GHz authorized bandwidth.*

Transmit (receive) (MHz)	Receive (transmit) (MHz)
71750	81750
73000	83000
74250	84250

(vi) *1.5 GHz authorized bandwidth.*

Transmit (receive) (MHz)	Receive (transmit) (MHz)
71875	81875
74375	84375

(vii) *1.75 GHz authorized bandwidth.*

Transmit (receive) (MHz)	Receive (transmit) (MHz)
72000	82000
74500	84500

(viii) *2.0 GHz authorized bandwidth.*

Transmit (receive) (MHz)	Receive (transmit) (MHz)
72125	82125
74625	84625

(ix) *2.25 GHz authorized bandwidth.*

Transmit (receive) (MHz)	Receive (transmit) (MHz)
72250	82250
74750	84750

(x) *2.5 GHz authorized bandwidth.*

Transmit (receive) (MHz)	Receive (transmit) (MHz)
72375	82375

(xi) *2.75 GHz authorized bandwidth.*

Transmit (receive) (MHz)	Receive (transmit) (MHz)
72500	82500

(xii) *3 GHz authorized bandwidth.*

Transmit (receive) (MHz)	Receive (transmit) (MHz)
72625	82625

(xiii) *3.25 GHz authorized bandwidth.*

Transmit (receive) (MHz)	Receive (transmit) (MHz)

■ 10. Effective May 29, 2024, § 101.1501 is revised to read as follows:

§ 101.1501 Service areas.

The 70/80/90 GHz bands are licensed on the basis of non-exclusive nationwide licenses. There is no limit to the number of non-exclusive nationwide licenses that may be granted for these bands, and these licenses will serve as a prerequisite for registering individual point-to-point links. In the 71–76 GHz and 81–86 GHz bands, nationwide non-exclusive licenses also serve as a blanket license for air-to-air and ship-to-ship operations, and as a prerequisite to register ground-to-air (GTA) stations and to operate associated GTA and air-to-ground (ATG) transmissions; and as a prerequisite to register shore stations and aerostat relay stations and to operate associated ship-to-shore, shore-to-ship, shore-to-aerostat, aerostat-to-

ship, and aerostat-to-shore transmissions.

■ 11. Effective May 29, 2024, § 101.1507 is revised to read as follows:

§ 101.1507 Permissible operations.

Licensees may use the 70 GHz, 80 GHz, and 90 GHz bands for any point-to-point, non-broadcast service. Licensees may use the 70 GHz and 80 GHz bands for aeronautical and maritime service as set forth in § 101.1528. The segments may be unpaired or paired, but pairing will be permitted only in a standardized manner (*e.g.,* 71–72.25 GHz may be paired only with 81–82.25 GHz, and so on). The segments may be aggregated without limit.

■ 12. Delayed indefinitely, § 101.1523 is amended by revising paragraph (a) and adding paragraph (e) to read as follows:

§ 101.1523 Sharing and coordination among non-government licensees and between non-government and government services.

(a) Each individual point-to-point link must be registered in a third-party database. Registration of aeronautical ground stations, maritime shore stations, and aerostats for operation of aeronautical or maritime links to end points in motion in the 71–76 GHz and 81–86 GHz bands will be in a third-party database after the Wireless Telecommunications Bureau announces by public notice the details of the implementation of a third-party database for such links to endpoints in motion.

* * * * *

(e) A licensee must successfully complete the requirements of this section prior to modifying the technical parameters of a registered link. Except for de minimis modifications, any change to the technical data on a link registration will result in a new interference protection date. A modification to link registration in the 71–76 GHz and 81–86 GHz bands is de minimis, and the registration will retain its existing interference protection date and not lose its existing first-in-time rights, if the modification meets all of the following criteria:

(1) The licensee certifies that the modification is necessary to repair or replace equipment specified in the registration that was constructed and operating under the registration, and;

(2) The modification does not increase the EIRP of a digital system or change the EIRP of an analog system;

(3) The modification does not increase the channel bandwidth;

(4) The modification does not change the power density;

(5) The modification does not increase the receiver sensitivity;

(6) The modification does not increase the antenna beamwidth;

(7) The modification does not increase the antenna gain, except where there is a corresponding reduction transmitter power so that there is no increase in EIRP;

(8) The modification does not involve a change to antenna with less off-axis attenuation at any angle; and

(9) The modification does not change any other technical parameters not mentioned in paragraphs (e)(1) through (e)(8) of this section.

■ 13. Effective May 29, 2024, § 101.1528 is added to subpart Q to read as follows:

§ 101.1528 Requirements for aeronautical and maritime links to, from, or between endpoints in motion.

(a) *Requirements for aeronautical ground stations and endpoints in motion.* (1) Air-to-ground transmissions are permitted only in the 71–76 GHz band.

(2) Ground-to-air transmissions are permitted only in the 81–86 GHz band.

(3) Air-to-air transmissions are permitted only between aircraft that are separated by a minimum slant path distance of 50 km.

(4) Transmissions are only permitted to and from aircraft at altitudes between 10,000 ft and 50,000 ft.

(5) Ground stations must operate with a minimum elevation angle of 5 degrees and a maximum elevation angle of 45 degrees.

(6) Ground stations must be located at least 10 km from any existing Non-Federal FSS earth station or Federal facility listed in table 4 to paragraph (c)(2) of this section, absent a coordination agreement with the FSS operator.

(7) Ground stations must be located at least 150 km from the specific Federal facilities and not within the areas listed in table 3 to paragraph (c)(1) of this section, absent a coordination agreement with the Federal operator.

(8) Ground stations must be located at least 10 km from any existing Federal or non-Federal fixed station receiver, absent a coordination agreement with the fixed station operator.

(9) Air-to-air transmissions are permitted in 81–86 GHz subject to the following limitations;

(i) EIRP signal levels radiated along a line between the airborne transmitter and the latitude and longitude of the observatories in table 3 to paragraph (c)(1) of this section, which must be maintained as the airborne transmitter moves, cannot exceed the levels shown in table 1 to this paragraph (a)(9)(i). Within the range of 150 km and 375 km, the maximum allowable EIRP levels for horizontal distances not listed in table below may be approximated by linear interpolation.

TABLE 1 TO PARAGRAPH (a)(9)(i)—LIST OF MAXIMUM ALLOWABLE EIRP LEVELS, IN dBW

Frequency (GHz)	Horizontal distance (km)									
	150	175	200	225	250	275	300	325	350	375
81	−11.2	−8.8	−6.5	−4.2	−1.5	1.1	3.9	6.7	10	13.5
82	−11.5	−9.2	−6.9	−4.6	−2	0.5	3.2	6	9.2	12.6
83	−11.7	−9.5	−7.3	−5	−2.4	0	2.7	5.4	8.6	11.9
84	−11.9	−9.7	−7.5	−5.3	−2.8	−0.4	2.3	4.9	8	11.3
85	−12.1	−9.9	−7.8	−5.5	−3	−0.7	1.9	4.5	7.6	10.8
86	−12.2	−10	−7.9	−5.7	−3.3	−0.9	1.7	4.2	7.3	10.5

(ii) A licensee of aeronautical end points in motion must have a capability to target specific areas which can be added to a ''block list'' as part of a dynamic link management system. If air-to-air transmission within the main beam of the radio astronomy receiver cannot be avoided, air-to-air transmissions within the radio horizon of the radio astronomy site (as specified in table 2 to this paragraph (a)(9)(ii)) should not occur.

TABLE 2 TO PARAGRAPH (a)(9)(ii)—APPROXIMATE RADIO HORIZON, IN HORIZONTAL DISTANCE

[km]

Altitude (m)	Approximate radio horizon (km) (horizontal distance)
10,360	375
8,000	315
6,000	260
5,000	220
4,000	180
3,000	125

(iii) The list of radio astronomy sites may be periodically updated by the NTIA and the FCC. This rule may be superseded by a coordination agreement between the licensee and NSF, in which case the coordination agreement will specify the technical restrictions.

(10) Air-to-air transmissions in the 71–76 GHz band are subject to the following restrictions:

(i) EIRP signal levels shall be limited to 20 dBW/1000 MHz towards each military installation listed in table 4 to paragraph (c)(2) that is within 375 km of the airborne transmitter. This 20 dBW/1000 MHz EIRP applies to the power radiated along a line between the airborne transmitter and the latitude and longitude of the military installations in table 4 to paragraph (c)(2) of this section and must be maintained as the airborne transmitter moves. An EIRP of 57 dBW/1000 MHz is allowed in other directions. The list of military installations in table 4 to paragraph (c)(2)of this section may be periodically updated by the NTIA and the FCC. This rule may be superseded by a coordination agreement between the licensee and the Department of Defense (DoD), in which case the coordination agreement will specify the technical restrictions and allow the licensee and DoD to update the list of protected installations in the agreement. The locations of all aeronautical end-point-in-motion ground stations will be provided to NTIA and DoD as part of the coordination process.

(ii) A licensee of aeronautical end points in motion must have a capability to target specific areas which can be added to a ''block list'' as part of a dynamic link management system. If air-to-air transmission within the main beam of the radio astronomy receivers associated with the observatories in table 3 to paragraph (c)(1) of this section cannot be avoided, air-to-air transmissions within the radio horizon of the radio astronomy site (as specified in table 2 to paragraph (a)(9)(ii) of this section) should not occur.

(iii) The list of radio astronomy sites may be periodically updated by the NTIA and the FCC. This rule may be superseded by a coordination agreement between the licensee and NSF, in which case the coordination agreement will specify the technical restrictions.

(b) *Requirements for maritime shore stations, aerostats, and endpoints in motion.* (1) Ship-to-shore transmissions are only permitted in the 81–86 GHz band.

(2) Shore-to-ship transmissions are only permitted in the 71–76 GHz band.

(3) Shore-to-aerostat transmissions are only permitted in the 71–76 GHz band.

(4) Aerostat-to-ship transmissions are only permitted in the 71–76GHz band.

(5) Aerostat-to-shore transmissions are only permitted in the 81–86GHz band.

(6) Aerostat must not operate above an altitude limit of 1000 ft.

(7) Ship-to-ship communications are limited to ships located more than 30 km offshore, or closer only where the main beam of the transmit antenna is oriented at least 15 degrees away from any point on the shore.

(8) Ship stations and aerostat stations must only operate when there is a minimum separation of 150 km to the specific Federal facilities and not within the areas listed in table 3 to paragraph (c)(1) of this section, absent a coordination agreement with the Federal operator.

(9) Shore-to-ship and ship-to-shore transmission must only occur between stations that are located at least 10 km from the Federal military installations listed in table 4 to paragraph (c)(2) of this section, absent a coordination agreement with the Federal operator.

(c) *Protected Federal sites.* (1) RAS and VLBA sites:

TABLE 3 TO PARAGRAPH (c)(1)

RAS station name	North latitude	West longitude

BILLING CODE 6712–01–P

DEPARTMENT OF TRANSPORTATION

Pipeline and Hazardous Materials Safety Administration

49 CFR Parts 192, and 195

[Docket No. PHMSA–2016–0002; Amdt. Nos. 192–135, 195–107]

RIN 2137–AF13

Pipeline Safety: Periodic Updates of Regulatory References to Technical Standards and Miscellaneous Amendments

AGENCY: Pipeline and Hazardous Materials Safety Administration (PHMSA), DOT.

ACTION: Final rule.

SUMMARY: PHMSA is amending the Federal pipeline safety regulations (PSRs) to incorporate by reference all or parts of more than 20 new or updated voluntary, consensus industry technical

standards. This action allows pipeline operators to use current technologies, improved materials, and updated industry and management practices. Additionally, PHMSA is clarifying certain regulatory provisions and making several editorial corrections.

DATES: The effective date of this final rule is June 28, 2024. The incorporation by reference of certain publications listed in the rule is approved by the Director of the Federal Register as of June 28, 2024.

FOR FURTHER INFORMATION CONTACT:

Technical Information: Rod Seeley by phone at 281 513–1741 or by email at *rodrick.m.seeley@dot.gov*.

Regulatory Information: Brianna Wilson by phone at 771–215–0969 or by email at *brianna.wilson@dot.gov.*

SUPPLEMENTARY INFORMATION:

I. Background

A. Purpose of This Rule

This final rule incorporates by reference more than 20 new or updated voluntary, consensus industry technical standards (updated industry standards) within the PSRs (49 Code of Federal Regulation (CFR) parts 190–199). These updated standards will maintain or improve public safety and environmental protection, prevent regulatory confusion, reduce compliance burdens on stakeholders, and satisfy a mandate in the National Technology Transfer and Advancement Act (NTTAA) of 1995 (15 United States Code (U.S.C.) 272 (note)) directing Federal agencies to, ''when practical and consistent with applicable laws, use technical standards developed by voluntary consensus standard bodies instead of government-developed technical standards.''

PHMSA incorporates more than 80 industry standards by reference into the PSRs; however, many standards become outdated over time as new editions become available. By updating these standards, PHMSA ensures better alignment of the PSRs with the latest innovations in operational and management practices, materials, testing, and technological advancements; enhances compliance by avoiding conflict between different versions of the same industry standards; and facilitates safety-focused allocation of resources by pipeline operators. PHMSA consequently concludes that each of the updated standards in this final rule will either maintain or enhance the protection of public safety and the environment—including avoidance of greenhouse gas emissions in the form of methane releases from gas pipelines. PHMSA further concludes that each of the final rule's updated standards are technically feasible, reasonable, cost-effective, and practicable because of their respective anticipated commercial, public safety, and environmental benefits; and because the benefits better support PHMSA's safety and environmental priorities compared to alternatives, thereby justifying any associated compliance costs.

B. History of Incorporation by Reference

The Office of Management and Budget (OMB) sets the policy for Federal use and development of voluntary, consensus industry technical standards in OMB Circular A–119 (''Federal Participation in the Development and Use of Voluntary Consensus Standards and in Conformity Assessment Activities'').[1] Material that is incorporated by reference (IBR) is treated as if it were published in full in the **Federal Register** and the PSRs. Therefore, like any other rule issued in the **Federal Register**, a voluntary, consensus industry technical standard that has been incorporated by reference has the full force and effect of the law. As specified in 1 CFR 51.1(c), the Director of the Federal Register has the authority to determine whether material that is proposed for IBR serves the public interest. If a provision of an incorporated standard conflicts with a regulation, the regulation takes precedence unless the regulation expressly provides otherwise.

PHMSA has incorporated more than 80 industry standards by reference into the PSRs. The lists of publications that PHMSA has incorporated into parts 192 (which regulates the transportation of gas by pipeline) and 195 (which regulates the transportation of hazardous liquids and carbon dioxide by pipeline) are found in §§ 192.7 and 195.3, respectively. Previous rules that incorporated updated industry standards by reference were published on May 24, 1996 (61 FR 26121); February 17, 1998 (63 FR 7721); June 14, 2004 (69 FR 32886); June 9, 2006 (71 FR 33402); February 1, 2007 (72 FR 4655 (correction)); August 11, 2010 (75 FR 48593); January 5, 2015 (80 FR 168); and August 6, 2015 (80 FR 46847 (correction)).[2]

The voluntary, consensus industry technical standards related to pipeline facilities that are incorporated within the PSRs are developed or adopted by domestic and international standard-development organizations (SDOs). Approximately every two to five years, these organizations use agreed-upon procedures to update and revise their published standards to reflect the latest developments in technology, testing, and operational practices. New or updated industry standards often incorporate new technologies, materials, management practices, and other innovations that can improve the physical integrity, and the safe and environmentally protective operation of pipeline facilities.

PHMSA employees participate in meetings held by 25 domestic SDOs that address the design, construction, maintenance, inspection, operation, and repair of pipeline facilities. PHMSA's subject-matter experts represent the Agency in all dealings with the SDOs; participate in discussions and technical debates; register opinions; and vote in accordance with the procedures of the SDOs at each stage of the standards-development process (unless prohibited from doing so by law). PHMSA participates in this process to ensure the Agency's safety and environmental priorities are considered, and to avoid the need to develop separate, government-unique standards.

PHMSA also regularly reviews updated editions of currently referenced industry standards and amends the PSRs to partially or fully incorporate updated standards that will enhance or maintain pipeline and environmental safety. This ensures that the PSRs incorporate and facilitate the use of the latest technologies, materials, management and operational practices, testing, and other innovations. The adoption of more recent editions of industry standards also prevents conflicts between the standards referenced in the PSRs and updated versions of the same standards with which operators and suppliers may voluntarily comply, thereby (1) avoiding the confusion and expense associated with ensuring compliance with competing versions of the same standard; and (2) improving compliance and allowing the allocation of more operator resources toward safety and

[1] OMB, Circular No. A–119 (Feb. 10, 1998), available at: *https://www.whitehouse.gov/wp-content/uploads/2017/11/Circular-119-1.pdf.*

[2] PHMSA is also pursuing another periodic standards update rulemaking (under RIN2137–AF48) in parallel with issuance of this final rule. See PHMSA, ''Pipeline Safety: Periodic Standards Update II—Proposed Rule,'' 87 FR 52713 (Aug. 29, 2022).

environmental protection. PHMSA reviewed the updated standards discussed in this final rule and finds them appropriate for IBR within the PSRs.

C. Availability of Materials to Interested Parties

Pursuant to section 24 of the Pipeline Safety, Regulatory Certainty, and Job Creation Act of 2011 (Pub. L. 112–90, 49 U.S.C. 60102(p), as amended), ''the Secretary may not issue a regulation pursuant to this chapter that incorporates any documents or portions thereof unless the documents or portions thereof are made available to the public, free of charge.'' On November 7, 2014, the Office of the Federal Register issued a final rule that revised 1 CFR 51.5 to require every Federal agency to ''[d]iscuss, in the preamble of the proposed rule, the ways that the materials it proposes to incorporate by reference are reasonably available to interested parties or how it worked to make those materials reasonably available to interested parties[.]'' [3]

PHMSA consequently has negotiated agreements to make viewable copies of the standards available to the public at no cost with all but two of the SDOs whose updated standards PHMSA now incorporates by reference in the PSRs in this final rule. The organizations that agreed to the public access requirements of the statutory mandate discussed above are: the American Petroleum Institute (API), the American Gas Association (AGA), ASTM International (formerly the American Society for Testing and Materials), the Gas Technology Institute (GTI), the Manufacturers Standardization Society of the Valve and Fittings Industry, Inc. (MSS), the Association for Materials Protection and Performance (AMPP), the National Fire Protection Association (NFPA), and the Plastics Pipe Institute (PPI).[4] Each organization's mailing address and website is listed in 49 CFR parts 192 and 195. As of the date of publication of this final rule, PHMSA was not able to reach a general agreement with the American Society of Mechanical Engineers (ASME) to make the standards readily available online as ASME relies heavily on the revenue the standards generate.[5] Individuals and organizations may temporarily access the ASME standards incorporated by reference in this final rule, as well as any other standard in this final rule that is not otherwise available from the relevant SDO, by contacting PHMSA at the following email address: *phmsaphpstandards@dot.gov.* Such requests should include a phone number, physical address, and an email address.

The API standards incorporated in this final rule are available from the following website: *https://publications.api.org/IBR-Documents-Under-Consideration.aspx.*

The ASTM standards incorporated in this final rule are available from the following website: *https://www.astm.org/products-services/reading-room.html.*

The MSS standards incorporated in this final rule are available from the following website: *https://ibr.ansi.org/standards/mss.aspx.*

The AMPP: NACE standards incorporated in this final rule are available from the following website: *https://ibr.ansi.org/Standards/nace.aspx.*

Finally, the NFPA standards incorporated in this final rule are available from the following website: *https://www.nfpa.org/Codes-and-Standards/All-Codes-and-Standards/List-of-Codes-and-Standards.*

In addition, the ASME standards incorporated in this final rule are available by contacting PHMSA at the following email address: *phmsaphpstandards@dot.gov.*

Additional information regarding standards availability can be found at *https://www.phmsa.dot.gov/standards-rulemaking/pipeline/standards-incorporated-reference.*

II. Notice of Proposed Rulemaking

On January 15, 2021, PHMSA published a notice of proposed rulemaking to incorporate by reference new or updated editions of voluntary, consensus industry technical standards into the PSRs.[6] PHMSA proposed to incorporate by reference all or parts of more than 20 updated industry standards and make editorial corrections to certain regulations. The NPRM described with respect to each proposed industry standard (1) the provisions within the PSR in which it is incorporated by reference; (2) how each such standard contributed to pipeline safety or environmental protection; and (3) if the standard was an update to a standard previously incorporated by reference in the PSR, any material changes between the previous version of that industry standard and the updated version proposed for incorporation in the PSR. PHMSA requested comment from the public, state pipeline safety regulators, and other stakeholders, and considered this input when drafting the final version of this rule.

III. Pipeline Advisory Committee Meeting

On October 20 and 21, 2021, PHMSA discussed the NPRM with the Technical Pipeline Safety Standards Committee (also known as the Gas Pipeline Advisory Committee (GPAC)), and the Technical Hazardous Liquid Pipeline Safety Standards Committee (also known as the Liquid Pipeline Advisory Committee (LPAC)). These committees are statutorily mandated advisory committees that, respectively, advise PHMSA on proposed gas and hazardous liquid (including carbon dioxide) pipeline facility regulatory amendments and associated risk assessments.[7] These committees are comprised of equal representation from the government, industry, and the general public. The members of these committees review standards proposed in an NPRM for incorporation within the PSRs for cost-effectiveness, reasonableness, practicability, and technical feasibility, and provide recommendations that PHMSA considers in adopting this or any other final rule.

The Joint GPAC/LPAC Transcript from that meeting and all presentation materials are available both in the docket for the rulemaking and on the web page that PHMSA created for the meeting.[8] Additional information

[3] Office of the Federal Register, ''Incorporation by Reference—Final Rule,'' 79 FR 66267 (Nov. 7, 2014).

[4] ASTM updates some of its more widely used standards every year, and sometimes SDOs publish multiple editions of a standard in a given year. NACE International and the Society for Protective Coatings merged to form AMPP, which is why NACE standards are listed under AMPP.

[5] At the joint October 2021 GPAC/LPAC meeting, the committees raised concerns regarding the availability of ASME standards. The committees recommended PHMSA work with the pipeline advisory committees and other pipeline safety representatives to establish an agreement with ASME to provide viewable copies of the standards incorporated by reference in the PSRs permanently available on the internet for free to the general public. Joint Gas and Liquid Pipeline Advisory Committee Meeting Transcript, Docket No. PHMSA–2021–0069–0005 at 86:2–11, (Oct. 21, 2021) (Joint GPAC/LPAC Transcript).

[6] PHMSA, ''Pipeline Safety: Periodic Updates of Regulatory References to Technical Standards and Miscellaneous Amendments—Proposed Rule,'' 86 FR 3938 (Jan. 15, 2021) (NPRM).

[7] PHMSA established these committees in accordance with its enabling statute (49 U.S.C. 60115) and the Federal Advisory Committee Act (5 U.S.C. App. 2, as amended), its implementing regulations (41 CFR parts 101–106), and DOT policies (Department of Transportation (DOT) Order 1120.3C).

[8] Gas Pipeline Advisory Committee (GPAC) and Liquid Pipeline Advisory Committee (LPAC) Meeting (Oct. 21, 2021), available at: *https://primis.phmsa.dot.gov/meetings/MtgHome.mtg?mtg=156.*

regarding the GPAC and LPAC recommendations on the NPRM may be found in section IV below.

IV. Summary of Comments, GPAC/LPAC Discussion, and PHMSA Response

On January 15, 2021, PHMSA published the NPRM proposing to incorporate by reference all or parts of more than 20 new or revised consensus standards and to make several miscellaneous editorial or technical amendments.

The comment period for the NPRM ended on March 16, 2021. PHMSA received 10 comments on the NPRM, including five late-filed comments.[9] Pursuant to 49 CFR 190.323, PHMSA considered late-filed comments along with timely-received comments, as PHMSA's consideration of those late-filed was practicable in that their review did not add additional expense or delay to PHMSA's issuance of this final rule. The commenters on the NPRM who filed before the joint GPAC/LPAC meeting are as follows: Aaron Adamczyk; the Alyeska Pipeline Service Company; an anonymous commenter; the American Fuel & Petrochemical Manufacturers; the American Petroleum Institute; ASME; the National Propane Gas Association; and a joint comment from a number of organizations, hereafter referred to as ''the Associations'' (the American Petroleum Institute, Interstate Natural Gas Association of America (INGAA), GPA Midstream Association, American Gas Association, and American Public Gas Association). The commenters on the NPRM who filed after the joint GPAC/LPAC meeting are as follows: a joint comment from the American Gas Association, American Petroleum Institute, American Public Gas Association, GPA Midstream Association, and Interstate Natural Gas Association of America (collectively ''AAAGI''), and a joint comment from Association of Oil Pipelines, American Petroleum Institute, and GPA Midstream Association (collectively ''AAG'').

PHMSA discusses below comments received from stakeholders (in written comments or during the GPAC/LPAC meeting) on a handful of specific industry standards and editorial and technical corrections proposed by the NPRM for incorporation in the PSRs. In connection with those and any other industry standards, technical corrections, and editorial corrections proposed in the NPRM, PHMSA incorporates by reference within this final rule its NPRM discussions of those proposed regulatory amendments—including but not limited to, its description in the NPRM of the content of any updated standards and corrections, and the safety and environmental benefits anticipated from those amendments. After evaluating its preliminary assessments of those proposed regulatory amendments against stakeholder comments discussed below, as well as pertinent discussion during and recommendations of the GPAC/LPAC, PHMSA concludes that adoption of its proposed regulatory amendments (as modified below) will better align the PSRs with the latest innovations in operational and management practices, materials, testing, and technological advancements; enhance compliance by avoiding conflict between different versions of the same industry standards; and facilitate safety-focused allocation of resources by pipeline operators. PHMSA therefore concludes that the each of the amendments to the PSR adopted in this final rule are technically feasible, cost-effective, reasonable, and practicable in light of their respective anticipated commercial, public safety, and environmental benefits that justify any associated compliance costs.

A. Stakeholder Comments and GPAC/LPAC Discussion

PHMSA received a number of comments generally supportive of its proposed IBR of updated industry standards and codification of technical and editorial corrections, with several comments calling on PHMSA to update the standards referenced in the PSRs more frequently than historical practice. A number of other comments PHMSA received on the NPRM or during the GPAC/LPAC meeting concerned retroactive application of the proposed updated industry standards; compliance timelines; minor editorial corrections to the PSR or the NPRM's proposed regulatory amendments; as well as some matters that were outside of the scope of this rulemaking.

PHMSA received one comment on the NPRM from the Alyeska Pipeline Service Company regarding the proposed IBR of an updated version of API Spec 6D.[10] API Spec 6D, whose 23rd edition is currently incorporated by reference in §§ 192.145 and 195.116, defines the design, manufacturing, assembly, testing, and documentation requirements for valves used in pipeline systems. The 24th edition of API Spec 6D includes several clarifications, safety improvements, and editorial revisions, including clarified bore tolerance specifications for full-opening valves; new procedures for installers when no minimum bore tolerances are listed in the specification; and updates specifying that calibration intervals should not exceed one year. Alyeska recommended that PHMSA should, when incorporating by reference the 24th edition of API Spec 6D, include allowances for legacy designs that incorporate flanged valves with intermediate design pressures since the 24th edition of API Spec 6D prohibits designing flanged valves with intermediate pressure ratings. Alyeska stated that that its own flange connections exceed ASME B16.47 [11]—but not API Spec 6D—because they ''us[e] special bolting dimensions as an extra safety measure not required.'' Because of this, they stated that PHMSA's safety concerns regarding installing lower-pressure-rated valves motivating its proposed IBR of the updated version of API Spec 6D would not apply to its pipeline facilities. PHMSA notes, however, that the updated version of API Spec 6D will not apply retroactively; it will apply only to the design, installation, or construction of valves as they are new, replaced, relocated, or otherwise changed.

Additionally, the Associations' joint comment requested that PHMSA continue to allow operators to install pipe that is compliant with the 45th edition of API Spec 5L until January 1, 2022, since the 46th edition of API Spec 5L PHMSA proposed to IBR in the NPRM is relatively recent and thus the supply chain is not yet fully stocked with the compliant materials.[12] API Spec 5L is the primary manufacturing specification for seamless and welded steel pipe used in gas, hazardous liquid, and carbon dioxide pipeline transportation systems. This comment also requested that PHMSA continue to allow operators to install flanges that are compliant with the 2019 edition of MSS SP–44 [13] until January 1, 2022. PHMSA

[9] Two of the five late-filed comments were submitted after the October 2022 joint GPAC/LPAC meeting. Comments in Response to the PHMSA Public Meeting, PHMSA–2021–0069–0006 (Nov. 16, 2021); Comments on the Oct. 2021 Joint Gas and Liquid Pipeline Advisory Committee Meeting, PHMSA–2021–0069–0008 (Nov. 22, 2021).

[10] API Specification 6D, ''Specification for Pipeline and Piping Valves,'' 24th edition (Aug. 2014) (API Spec 6D).

[11] ASME B16.47, ''Large Diameter Steel Flanges: NPS 26 through NPS 60, Metric/Inch Standard'' (2020).

[12] API Specification (Spec) 5L, ''Specification for Line Pipe,'' 45th edition (July 2013); API Specification (Spec) 5L, ''Specification for Line Pipe,'' 46th edition (Apr. 2018) (API Spec 5L).

[13] MSS SP–44–2019, Standard Practice, ''Steel Pipeline Flanges'' (Apr. 2020) (MSS SP–44).

notes that the date the Associations anticipate the supply chain will be stocked with compliant materials has passed; because this final rule is publishing nearly two years after the projected date, PHMSA understands that there is no need for a delayed compliance date unique to its adoption of an updated version of API Spec 5L.

PHMSA also received comments that were inapplicable for a variety of reasons. Some of those comments were inapplicable because they assumed potential application to existing pipeline facilities of updated voluntary industry standards that would be incorporated by reference within design, testing, or installation standards that are subject to the statutory retroactivity prohibition at 49 U.S.C. 60104(b). The retroactivity prohibition restricts the application of certain new standards to an existing pipeline facility unless that pipeline facility is new, replaced, relocated, or changed. Other comments were inapplicable because this final rule did not publish before alternative compliance dates proposed by the comments. Further, many of the comments that PHMSA received were outside of the scope of this rulemaking as defined by the proposals in the NPRM. For example, the Associations' joint comment requested that PHMSA incorporate by reference a number of updated voluntary, consensus industry technical standards not proposed in the NPRM, including the following: API Recommended Practice (RP) 1181 (to implement section 109 of the Protecting Our Infrastructure of Pipelines and Enhancing Safety Act of 2020 (Pub. L. 116–260)); the second edition of API RP 80 (to enhance operators' understanding and compliance with safety requirements); Addendum 2 to the 12th edition of API Standard (Std.) 620 Errata 1 to the 13th edition of API Std. 650; and a more recent edition of API Std. 653.[14] Although PHMSA is considering incorporating these standards for inclusion in the future in a separate rulemaking after evaluation, it declines to adopt those standards in this rulemaking without providing the public an opportunity to review and comment upon those standards. One exception is PHMSA's incorporation of Errata 1 (January 2021) to the 13th edition of API Std. 650 since the errata only contains editorial changes. PHMSA is also incorporating errata to each of API Spec 6D (Errata 10, July 2021) and the 5th edition of API 2350 (Errata 1, April 2021) since they also only contain technical edits. PHMSA further notes that, pursuant to § 190.331, any interested person (including the Associations) may petition PHMSA to establish, amend, or repeal a substantive regulation, to include the IBR of updated voluntary industry standards.

The Associations' joint comment also asked PHMSA to correct an allegedly erroneous reference to API RP 1130 in § 195.3(b)(7).[15] The joint comment specified that the PSRs currently reference the third edition of API RP 1130 while the most recent edition of API RP 1130 is the first edition. PHMSA has reviewed the history of API RP 1130 and its incorporation into the PSRs and determined that the reference in § 195.3(b)(7) is correct. On January 5, 2015, PHMSA replaced the second edition of API 1130 (which had been issued in 2002) with the third edition of API RP 1130 (which had been issued in 2007). However, PHMSA notes that API subsequently in 2017 reaffirmed the 2007 version of API RP 1130 and re-characterized it as the first edition of API RP 1130. PHMSA will therefore retain the current reference to the third edition of API RP 1130.

Both the GPAC and LPAC discussions and voting were broadly supportive of the proposed amendments in the NPRM. The GPAC voted unanimously to endorse as ''technically feasible, reasonable, cost-effective, and practicable'' almost all of PHMSA's proposed IBR of the updated industry standards and miscellaneous amendments within part 192. However, as discussed further in section IV.C. below, the GPAC qualified its endorsement of PHMSA's proposed IBR of the 2016 edition of ASME B31.8S by calling on PHMSA to IBR a more recent (2018) version of that standard and to make conforming revisions to the PSR provisions (including § 192.11(m)) referencing that newer version of the standard. The GPAC also called on PHMSA to work towards an agreement with ASME to make its standards available for free on the internet to the public.

The LPAC also voted unanimously to endorse as ''technically feasible, reasonable, cost-effective, and practicable'' almost all of PHMSA's proposed IBR of the updated industry standards and miscellaneous amendments within part 195. However, as discussed further in sections IV.B. and D below, the LPAC qualified its endorsement of PHMSA's proposed IBR of the 5th edition of API Std. 2350 and the 4th edition of API RP 651. And like the GPAC, the LPAC also called on PHMSA to work towards an agreement with ASME to make its standards available for free on the internet to the public.

B. API Std 2350

API Std 2350 applies to overfill and damage-prevention practices for aboveground storage tanks associated with facilities that receive flammable and combustible petroleum liquids, such as refineries, marketing terminals, bulk plants, and pipeline terminals. The PSRs currently reference the third edition of this document in § 195.428(c) governing aboveground breakout tanks.[16] Material changes introduced between the 3rd and 5th editions of API Std 2350 are described at length in the NPRM and include the development of policies and procedures for overfill protection processes and risk assessments.

PHMSA received a comment from the American Fuel & Petrochemical Manufacturers regarding its proposed IBR of the 5th edition of API Std 2350. The American Fuel & Petrochemical Manufacturers expressed concern that it is unclear which provision of API Std 2350 applies to existing tank overfill systems, and that the current wording of the regulatory text would require operators to significantly expand their physical programs and make numerous changes to their operational parameters if PHMSA incorporated the updated API Std 2350. They specifically noted that § 195.428(c) states that operators must only install overfill systems in accordance with API RP 2350, but that provision fails to specify which sections of API Std 2350 operators should reference for such installations—a potential source of confusion for regulated entities because API Std 2350 contains elements pertaining to installation as well as maintenance and operation. They consequently requested that PHMSA amend the text of § 195.428(c) to identify precisely which sections of API Std 2350 govern installing an overfill protection system.

At the GPAC/LPAC meeting, an LPAC committee member representing industry noted in discussion of the proposed standard that they supported moving forward with API Std 2350 as proposed but recommended that, because of the significant changes

[14] For more information on these standards, please see the Associations' joint comment. Comment from API et al., Docket No. PHMSA–2016–0002–0005 (March 15, 2021).

[15] API Recommended Practice 1130, ''Computational Pipeline Monitoring for Liquids: Pipeline Segment,'' 3rd edition (Sept. 2007) (API RP 1130).

[16] PHMSA notes that the version of this document currently referenced in the PSRs was characterized by API as a ''recommended practice.'' API now characterizes this document as a ''standard.''

between the 3rd and 5th editions of this standard noted in the NPRM, PHMSA consider a longer timeline to aid in its implementation by operators. However, the LPAC voted unanimously to endorse the IBR of the updated version of API Std 2350 without any explicit condition on a longer compliance timeline. Because API Std 2350 was not referenced within part 192, the GPAC neither discussed nor voted on this standard. After the GPAC/LPAC meeting, the AAG submitted a joint comment on API Std 2350 echoing the comments of the industry stakeholders during the LPAC and calling on PHMSA to extend the compliance deadline for this updated industry standard beyond the 60-day effective and compliance period PHMSA had suggested for this rulemaking during the GPAC/LPAC meeting.

In response to the American Fuel and Petrochemical's comments regarding the applicability of API Std 2350, PHMSA notes that § 195.428(c) states that ''[o]ther aboveground breakout tanks with 600 gallons (2271 liters) or more of storage capacity that are constructed or significantly altered after October 2, 2000, must have an overfill protection system installed according to API RP 2350.'' The requirements in § 195.428(c) are specific to installation, not to the operation or maintenance of the relevant aboveground breakout tanks. However, PHMSA also notes that the PSRs elsewhere at § 195.402 require that operators have a procedural manual for operating and maintenance for their systems—including any related breakout tanks, which are defined broadly in § 195.2 to include overfill protection systems that contribute to the pressure relief function of those breakout tanks. Therefore, an operator of a breakout tank that has installed an overfill protection system per API Std 2350 should consider also having a procedural manual to maintain the system in a manner that is consistent with API RP Std 2350.

PHMSA understands that operators will have adequate time to implement the installation requirements in API Std 2350, as specified in § 195.428(c), and implement any conforming revisions to their operations and maintenance procedural manuals given the following: (1) the extended period of time between the GPAC/LPAC meeting and publication of the final rule; (2) API Std 2350 is an industry-created standard, which, presumably, is already implemented by responsible operators; and (3) the IBR API Std 2350 standard will only apply to new, replaced, relocated, or otherwise changed overfill prevention systems. PHMSA also notes that—notwithstanding that a longer compliance timeline was presented to it—the LPAC declined to condition its endorsement of IBR of the 5th edition of API Std 2350 on a longer compliance timeline. Therefore, PHMSA did not adopt the longer implementation timeframe requested.

C. ASME B31.8S

ASME B31.8S provides guidance on various risk assessment approaches covering design, construction, operational prevention, mitigation, and assessment, ensuring the safe operation of gas pipelines. ASME B31.8S also describes the foundations for an effective integrity management (IM) program for gas transmission pipelines. Along with subpart O of part 192, ASME B31.8S provides the essential features of an IM program. The standard applies to onshore gas pipeline systems constructed with ferrous materials (such as iron and steel) that transport gas and is frequently referenced throughout subpart O. ASME B31.8S provides operators with the information necessary to develop and implement an effective IM program utilizing proven industry practices and processes. The PSRs currently IBR the 2004 version of AMSE B31.8S; the NPRM proposed to IBR the 2016 version of the standard, which incorporates a number of edits, additions, and clarifications that will improve the effectiveness of the gas transmission IM programs.

PHMSA did not originally propose regulatory text incorporating the 2018 edition of ASME B31.8S, as PHMSA explained in the NPRM that it had reviewed the 2018 edition and understood that the updated standard had removed nearly all communications plan requirements found in the portion of that standard (Section 10) explicitly mentioned in § 192.911(m). As a result, PHMSA proposed the 2016 edition for incorporation, as that version retained the Section 10 communications plan requirements. However, PHMSA explicitly requested comments regarding incorporation of the 2018 edition of ASME B31.8S.

PHMSA received two comments in response. Both the ASME and the Associations' joint comment recommended that PHMSA incorporate the 2018 edition of this standard. They noted that the communications plan requirements formerly located in Section 10 had not (as PHMSA believed) been removed, but instead been relocated from Section 10 to Chapter V, Paragraph 850.9, of the 2018 version of ASME B31.8, which is the companion standard to ASME B31.8S. Additionally, B31.8S includes a reference in Section 10 that points to the communications plan requirements in the 2018 version of ASME B31.8. The commenters therefore requested that PHMSA revise § 192.911(m) to directly reference the communications plan requirements in Paragraph 850.9 of the 2018 edition of ASME B31.8. The GPAC voted unanimously to endorse the 2018 edition of ASME B31.8S with a recommendation to revise § 192.911(m) to directly reference the communications plan requirements in Paragraph 850.9 of the 2018 edition of ASME B31.8. Because ASME B31.8S was not referenced within part 195, the LPAC neither discussed nor voted on this standard.

In response to the GPAC's recommendations and the public comments received, PHMSA, in this final rule, is incorporating the 2018 edition of ASME B31.8S within its part 192 regulations. Further, PHMSA has revised § 192.911(m) to directly reference the communications-plan requirements in Paragraph 850.9 of the 2018 edition of ASME B31.8.

PHMSA is also in this final rule making conforming revisions in the PSRs to match the relevant sections in the 2018 edition of ASME B31.8S. PHMSA updated the relevant sections as follows:

- § 192.714(c): Removed ''section 7, Figure 4'' and replaced it with ''Section 7, Figure 7.2.1–1'';
- § 192.917(e)(1): Removed ''Appendix A7'' and replaced it with ''Appendix A–8'';
- § 192.917(e)(4): Removed ''ASME/ANSI B31.8S, Appendices A4.3 and A4.4, and any'' and replaced it with ''ASME B31.8S, Appendices A–5.3 and A–5.4, and any'';
- § 192.921(a)(2): Removed ''specified in Table 3 of section 5'' and replaced it with ''specified in Table 5.6.1–1 of Section 5'';
- § 192.923(b)(1): Removed ''section 6.4'' and replaced it with ''Section 6.4'';
- § 192.933(c): Removed ''section 7, Figure 4'' and replaced it with ''Section 7, Figure 7.2.1–1'';
- § 192.937(c)(2): Removed ''table 3 of section 5'' and replaced it with ''Table 5.6.1–1 of Section 5'';
- § 192.939(a)(1)(ii): Removed ''section 5, Table 3'' and replaced it with ''Table 5.6.1–1 of Section 5''; and
- § 192.939(a)(3): Removed ''section 5, Table 3'' and replaced it with ''Table 5.6.1–1 of Section 5.''

PHMSA also notes that in August 2022, it concluded a rulemaking (first proposed in 2016) that amended, or introduced, several provisions referencing the ASME B31.8S industry standard being updated in this final

rule.[17] Pertinent provisions introduced or amended by the RIN2 Final Rule include the following: §§ 192.13(d); 192.714(c) and (d); 192.917(a) through (e); and 192.933(d)(1) and (d)(2)(iv)). PHMSA has compared the pertinent sections of each of those currently-referenced versions of ASME B31.8S against the updated version incorporated within the PSR by this final rule, and has concluded that application of that update to the regulatory provisions added or amended by the RIN2 Final Rule is technically feasible, reasonable, cost-effective, and practicable because it entails no additional compliance burdens for pipeline operators, while at the same time offering the same safety and environmental benefits (better alignment of the PSRs with the latest innovations in operational and management practices, materials, testing, and technological advancements; enhanced compliance by avoiding conflict between different versions of the same industry standards; and facilitation of safety-focused allocation of resources by pipeline operators) as other amendments adopted in this final rule. PHMSA notes that two of those provisions—specifically, §§ 192.714(d) and 192.933(d)(1) and (d)(2)(iv)—are the subject of a pending legal challenge brought by INGAA against the RIN2 Final Rule. PHMSA, therefore, has determined that in this final rule, it will not update references within §§ 192.714(d) and 192.933(d)(1) and (d)(2)(iv) to ASME B31.8S to reflect the 2018 version of that standard, but will in those two provisions continue to reference the 2004 version of ASME B31.8S. PHMSA may update those provisions to reference the 2018 version of ASME B31.8S in the future.

D. API RP 651

PHMSA proposed to IBR the 4th edition of API RP 651 (Cathodic Protection of Aboveground Petroleum Storage Tanks) referenced in §§ 195.565 and 195.573(d). The PSRs currently reference the 3rd edition of this document, which describes practices and procedures regarding the use of cathodic protection to effectively control corrosion on aboveground storage-tank bottoms. It also includes provisions for the application of cathodic protection to new and existing aboveground storage tanks, and information and guidance regarding cathodic protection for aboveground metallic storage tanks in hydrocarbon service.

Both the American Fuel & Petrochemical Manufacturers and the Associations submitted comments regarding the 4th edition of API RP 651. The American Fuel & Petrochemical Manufacturers stated that it is concerned with the way the 4th edition of API RP 651 is being interpreted during field inspections, as it understood that some state regulatory authorities were interpreting API RP 651 as requiring all breakout tanks to have cathodic protection, even tanks not in direct contact with soil. The American Fuel & Petrochemical Manufacturers and the Associations stated that PHMSA should not consider double-bottomed tanks with an interstitial fill of concrete (not soil) or tanks on continuous concrete pads to be ''buried'' such that they would require cathodic protection pursuant to § 195.563. They stated that such tanks do not allow any part of the pipe through which hazardous liquid moves to come into contact with the upper layer of the earth and would like PHMSA to state definitively that cathodic protection is not required, consistent with their understanding of recommendations in the 4th edition of API RP 651 against it. Additionally, the Associations' joint comment asked PHMSA to clarify requirements in § 195.563 for the cathodic protection of double-bottom breakout tanks by referencing the 4th edition of API RP 651 and to allow operators to protect these tanks without requiring cathodic protection.

At the joint GPAC/LPAC meeting, an industry committee member from API requested that PHMSA clarify that the design of double-bottom tanks precludes the use of cathodic protection and asked that PHMSA allow operators to use alternative methods to protect these tanks form corrosion. Although the LPAC unanimously voted to recommend IBR of the updated version of API RP 651, it recommended that PHMSA include in the final rule preamble the suggestion by the industry stakeholder during the meeting. Because API RP 651 is not referenced within part 192, the GPAC neither discussed nor voted on this standard. After the GPAC/LPAC meeting, the AAG submitted a joint comment that included a discussion on the 4th edition of API RP 651. AAG stated that they supported LPA's recommendation to clarify appropriate application of the 4th edition of API RP 651. The AAG in particular called on PHMSA to state explicitly that the 4th edition of API RP 651 would not apply to El Segundo double-bottom tanks[18] or tanks on concrete not using cathodic protection to prevent corrosion. The AAG stated that they do not believe these tanks are ''buried''—which they characterize § 195.553 as defining to mean ''covered or in contact with soil''—and that therefore those tanks would not be required to have cathodic protection pursuant to § 195.563 or the risk-based framework in the most recent (5th edition) of API RP 653. The AAG called on PHMSA to IBR that most recent version of API RP 653.

PHMSA has considered those comments and the discussion during the GPAC/LPAC meeting and understands the application of § 195.563 by some state regulatory authorities is beyond the scope of this standards update rulemaking. PHMSA in the NPRM proposed simply to incorporate the 4th edition of API RP 651 into §§ 195.565 and 195.573(d) and did not propose changes in the regulatory text or interpretations affecting existing cathodic protection requirements for breakout tanks pursuant to a different PSR provision (§ 195.563) that does not explicitly reference API RP 651. PHMSA similarly did not propose to update the version of API RP 653 referenced in part 195. PHMSA notes, however, that it recently responded to a request for interpretation of §§ 195.553 and 195.563 that provides additional information on this issue as applied to specific pipeline facilities operated by Chemoil.[19]

V. Summary of Final Rule and 1 CFR 51

This final rule incorporates the following updated industry standards and amendments into 49 CFR parts 192 and 195. Availability information for each standard is specified in Section I of this preamble, and a summary of each standard is detailed below and in Section II of the NPRM.

These updated industry standards are developed through agreed-upon procedures and adopted by domestic and international standard development organizations, ensuring the voluntary,

[17] PHMSA, ''Pipeline Safety: Safety of Gas Transmission Pipelines: Repair Criteria, Integrity Management Improvements, Cathodic Protection, Management of Change, and Other Related Amendments—Final Rule,'' 87 FR 52224 (Aug. 24, 2022) (RIN2 Final Rule). The RIN2 Final Rule is currently the subject of a petition for judicial review. *See* INGAA v. PHMSA, et al., DC Cir. Case No. 23–1173.

[18] AAG, in the joint comment, describes an El Segundo double-bottom tank as one ''where the active tank floor is on contact with a concrete interstitial fill, and the secondary, inactive bottom is in contact with the soil.'' For more information, please see the AAG joint comment. AAG Joint Comment, Docket No. PHMSA–2021–0069–0008 (Nov. 22, 2021), available at: *https://www.regulations.gov/comment/PHMSA-2021-0069-0008.*

[19] PHMSA Interp. Resp. No. PI–20–0014 (Oct. 7, 2021), available at: *https://www7.phmsa.dot.gov/regulations/title49/interp/PI-20-0014.*

consensus industry standards reflect modern technology and technology practices. PHMSA understands that reasonably prudent operators employ industry standards and best practices even when not required by PHMSA regulations. Thus, PHMSA finds that the new or updated editions of voluntary, consensus industry technical standards may already be observed and implemented voluntarily by reasonably prudent operators in order to protect the public, environment, and their commercially valuable product. PHMSA also notes that should an operator identify a compelling need for regulatory flexibility, the PSR provides for special permit procedures at § 190.341 to request a deviation from specific requirements.

Viewed against the considerations herein and the compliance costs estimated in the cost-benefit analysis in Section VI of this final rule, PHMSA finds the proposed amendments will be a cost-effective approach to achieving the commercial, public safety, and environmental benefits discussed in this final rule and its supporting documents. Lastly, PHMSA believes that operator compliance timelines—based on an effective date of the final requirement (60 days after the effective date of the final rule, which the timeline would necessarily be in addition to the time since issuance of the January 2021 NPRM) would provide operators ample time to implement requisite systems and manage any related compliance costs.

Thus, PHMSA finds that the discussion herein—in addition to the NPRM's discussion of the safety, environmental, and other benefits and detriments incorporated herein by reference—supports its conclusion that each of the regulatory amendments in this final rule are technically feasible, reasonable cost-effective, and practicable.

A. AMPP

• NACE SP0204–2015, ''Stress Corrosion Cracking (SCC) Direct Assessment Methodology,'' March 14, 2015.

This standard provides a process and a series of required steps for operators to use to assess the extent of stress-corrosion cracking on a section of buried pipeline. The methodology is designed as a screening tool to determine whether stress corrosion cracking is a substantial risk on a pipeline system.

[Replaces incorporated by reference (IBR): NACE SP0204–2008, ''Standard Practice, Stress Corrosion Cracking (SSC) Direct Assessment Methodology,'' September 18, 2008; Referenced in 49 CFR 195.588(c).]

B. API

• API RP 651, ''Cathodic Protection of Aboveground Petroleum Storage Tanks,'' 4th edition, September 2014.

Cathodic protection is a method of protecting metallic pipelines from corrosion. This recommended practice contains: (1) procedures and practices for effective corrosion control on aboveground storage tank bottoms using cathodic protection; (2) provisions for the application of cathodic protection to existing and new aboveground storage tanks; and (3) information and guidance for cathodic protection specific to aboveground metallic storage tanks in hydrocarbon service.

[Replaces ANSI/API RP 651, ''Cathodic Protection of Aboveground Petroleum Storage Tanks,'' 3rd edition, January 2007; Referenced in 49 CFR 195.565 and 195.573(d).]

• API RP 2026, ''Safe Access/Egress Involving Floating Roofs of Storage Tanks in Petroleum Service,'' 3rd edition, June 2017.

The 3rd edition of API RP 2026 (formerly API Publication 2026) addresses the hazards associated with access/egress onto external and internal floating roofs of in-service petroleum storage tanks. In a floating roof tank, the roof floats on top of product in the tank and rises and lowers with the level of product in the storage tank. Floating roofs minimize the creation of hazardous vapors above the product. A floating roof can be designed for use on a tank with no fixed roof (an external floating roof) or inside a tank with a fixed roof (internal floating roof).

[Replaces API Publication 2026, ''Safe Access/Egress Involving Floating Roofs of Storage Tanks in Petroleum Service,'' 2nd edition, issued April 1998, reaffirmed June 2006; Referenced in 49 CFR 195.405(b)].

• API Spec 5L, ''Line Pipe,'' 46th edition, April 2018; including Errata 1 (May 2018).

API Spec 5L is the primary manufacturing specification for seamless and welded steel pipe for use in gas, hazardous liquid, and carbon dioxide pipeline transportation systems. The specification does not cover cast pipe and non-steel pipe. The specification includes requirements for pipe material, manufacturing, quality control and testing, inspection, and pipe marking.

[Replaces API Spec 5L, ''Specification for Line Pipe,'' 45th edition, July 2013; Referenced in 49 CFR 192.55(e); 192.112(a), (b), (d), (e); 192.113; Section I of Appendix B in part 192; and 49 CFR 195.106(b), (e).]

• API Spec 6D, ''Specification for Pipeline and Piping Valves,'' 24th edition, August 2014, including Errata 1 (October 2014), Errata 2 (December 2014), Errata 3 (February 2015), Errata 4 (June 2015), Errata 5 (July 2015), Errata 6 (September 2015), Errata 7 (June 2016), Errata 8 (August 2016), Errata 9 (March 2017), Errata 10 (July 2021), Addendum 1 (March 2015), and Addendum 2 (June 2016).

API Spec 6D defines the design, manufacturing, assembly, testing, and documentation requirements for valves used in pipeline systems. PHMSA requires all valves on gas pipeline systems, other than those made of cast iron or plastic, to meet the requirements of API Spec 6D, or a national or international standard that provides an equivalent performance level of safety. Hazardous liquid and carbon dioxide pipeline valves must be shell-tested and seat-tested in accordance with API Spec 6D.

[Replaces ANSI/API Spec 6D, ''Specification for Pipeline Valves,'' 23rd edition, October 1, 2008, including Errata 1 (June 2008), Errata 2 (November 2008), Errata 3 (February 2009), Errata 4 (April 2010), Errata 5 (November 2010), Errata 6 (August 2011), Addendum 1 (October 2009), Addendum 2 (August 2011), and Addendum 3 (October 2012); Referenced in 49 CFR 192.145(a) and 195.116(d).]

• API Std 620, ''Design and Construction of Large, Welded, Low-Pressure Storage Tanks,'' 12th Edition, October 2013, including Addendum 1 (November 2014).

API Std 620 specifies design, construction, and testing requirements for large, field assembled, welded steel tanks used to store petroleum, petroleum products, or other liquids used in the petrochemical industry. Tanks designed, constructed, and tested in accordance with API Std 620 are rated to operate with a vapor pressure up to 15 psig and a metal temperature below 250 °F.

[Replaces API Std 620, ''Design and Construction of Large, Welded, Low-Pressure Storage Tanks,'' 11th Edition, February 2008; including Addendum 1 (March 2009), Addendum 2 (August 2010), and Addendum 3 (March 2012); Referenced in 49 CFR 195.132(b); 195.205(b); 195.264(b) and (e); 195.307(b); 195.565; and 195.579(d).]

• API Std 650, ''Welded Tanks for Oil Storage,'' 13th edition, March 1, 2020, including Errata 1 (January 2021).

This standard establishes minimum requirements for material, design, fabrication, erection, and inspection for

vertical, cylindrical, aboveground, closed- and open-top, welded storage tanks in various sizes and capacities for internal pressures approximating atmospheric pressure. This standard applies only to tanks whose entire bottom is uniformly supported and to tanks in non-refrigerated service that have a maximum design temperature of 93°C (200 °F) or less. In part 195, breakout tanks associated with the transportation of hazardous liquids that are included in the scope of this standard must be designed, constructed, tested, and repaired in accordance with API Std 650.

[Replaces API Std 650, ''Welded Steel Tanks for Oil Storage,'' 11th edition, June 2007; including Addendum 1 (November 2008), Addendum 2 (November 2009), Addendum 3 (August 2011), and Errata (October 2011); Referenced in 49 CFR 195.132(b); 195.205(b); 195.264(b) and (e); 195.307(c) and (d); 195.565; and 195.579(d).]

• API Std 1104, ''Welding of Pipelines and Related Facilities,'' 21st edition, September 2013; including Errata 1 (2013), Errata 2 (2014), Errata 3 (2014), Errata 4 (2015), Errata 5 (2018), Addendum 1 (2014), and Addendum 2 (2016)—except for Note 2 in Section 5.4.2.2.

API Std 1104 is the primary standard for welding steel piping and for testing welds on steel pipelines. It covers the requirements for welding and nondestructive testing of pipeline welds. In the PSRs, this standard is used for qualifying welders, welding procedures, and welding operators, and interpreting the results of non-destructive tests.

[Replaces API Std 1104, ''Welding of Pipelines and Related Facilities,'' 20th edition, October 2005; including Errata/Addendum (July 2007) and Errata 2 (2008); Referenced in 49 CFR 192.225(a); 192.227(a); 192.229(b) and (c); 192.241(c); Section II of Appendix B in part 192; 195.214(a); 195.222(a) and (b); and 195.228(b).]

• API Std 2000, ''Venting Atmospheric and Low-pressure Storage Tanks'' 7th edition, March 2014.

This standard contains vapor-venting requirements for aboveground liquid petroleum product storage tanks, and aboveground and/or underground refrigerated storage tanks, all of which are designed for operation at pressures from full vacuum through 103.4 kPa (or 15 psig). Normal vapor venting refers to the inflow and outflow of vapor related to pressure changes inside the storage tanks. Emergency vapor venting relates to the inflow or outflow of vapor that may occur due to unforeseen circumstances. Vapor-venting requirements deal with the operation of vapor vents in response to temperature and pressure changes both inside and outside of a tank. Pressure normally accumulates inside most production or breakout storage tanks that contain various types of hazardous liquid. The new edition of this standard provides more information on equipment that stabilizes pressure within the tank by venting or depressurizing once the pressure within the tank reaches a certain level. The vapor-venting requirements in this standard elaborate on pipeline owners' obligations, including providing vapor-venting equipment guidelines.

[Replaces ANSI/API Std 2000, ''Venting Atmospheric and Low-pressure Storage Tanks,'' 6th edition, November 2009; Referenced in 49 CFR 195.264(e).]

• API Std 2350, ''Overfill Prevention for Storage Tanks in Petroleum Facilities,'' 5th Edition, September 1, 2020, including Errata 1 (April 2021).

This standard is intended for storage tanks associated with facilities that receive flammable and combustible petroleum liquids, such as refineries, marketing terminals, bulk plants, and pipeline terminals. It addresses minimum overfill and damage-prevention practices for aboveground storage tanks in petroleum facilities, including refineries, marketing terminals, bulk plants, and pipeline terminals that receive flammable and combustible liquids.

[Replaces API RP 2350, 3rd Edition (January 2005): Overfill Protection for Storage Tanks in Petroleum Facilities (API RP 2350); Referenced in 49 CFR 195.428(c).]

C. ASME

• ASME B31.8–2018, ''Gas Transmission and Distribution Piping Systems,'' November 20, 2018.

This standard covers safety requirements associated with the design, fabrication, installation, inspection, testing, and operation and maintenance of pipeline facilities used for the transportation of natural gas and liquefied petroleum gases when they are vaporized and used as gaseous fuels.

[Replaces ASME/ANSI B31.8–2007, ''Gas Transmission and Distribution Piping Systems,'' November 30, 2007; Referenced in 49 CFR 192.112(b); 192.619(a); 192.911(m); 195.5(a); and 195.406(a).]

• ASME B31.8S–2018, ''Managing System Integrity of Gas Pipelines,'' November 28, 2018.

ASME B31.8S describes the foundations for an effective integrity management (IM) program for gas transmission pipelines. Along with subpart O of part 192, ASME B31.8S provides the essential features of an integrity management program. Section 3.2 of B31.8S addresses the potential impact factor for gases other than standard quality natural gas that may be transported through a gas transmission pipeline. Other sections are as follows: Section 4—Gathering, Reviewing and Integrating Data; Section 5—Risk Assessment and Reassessment Intervals; Section 6.2—Selection of In-line Inspection Tools (ILI); Section 6.4—Direct Assessment Requirements for External Corrosion and Internal Corrosion; Section 7—Remediation Schedule and Immediate Repair Requirements; Section 9—Performance Plan and Program Effectiveness; Section 10—Communications Plan; Section 11—Management of Change Process; Section 12—Quality Assurance Process; Appendix A—Data Requirements of Each Threat; Appendix A3—Direct Assessment Requirements for the Stress Corrosion Cracking (SCC) Threat; Appendix 4.3 and 4.4—Criteria and Risk Assessment and Integrity Assessment for the Manufacturing Threat; and Appendix A7—Criteria and Risk Assessment and Integrity Assessment, Response, and Mitigation and Performance Measures for the Third Party Damage Threat.

[Replaces ASME/ANSI B31.8S–2004 ''Supplement to B31.8 on Managing System Integrity of Gas Pipelines,'' January 14, 2005; Referenced in 49 CFR 192.13(d); 192.712(b); 192.714(c); 192.903; 192.907; 192.907(b); 192.911; 192.911(i), and (k) through (m); 192.913(a) through (c); 192.917(a) through (e); 192.921(a); 192.923(b); 192.925(b); 192.933(c); 192.935(b); 192.937(c); 192.939(a); and 192.945(a).]

As explained in section IV.C. above, PHMSA will retain existing references to the 2004 version of ASME B31.8S within §§ 192.714(d), and 192.933(d)(1) and (d)(2)(iv).

• ASME B36.10M–2018 ''Welded and Seamless Wrought Steel Pipe,'' October 12, 2018.

ASME B36.10M specifies standards for dimensions of welded and seamless wrought steel pipe for high or low temperatures and pressures. This standard replaces the current reference in § 192.279 to Table C1 of ASME/ANSI B16.5. The 2003 and subsequent editions of ASME/ANSI B16.5 remove Table C1; that information is now in ASME B36.10M–2018. Therefore, PHMSA is revising § 192.279 to replace the phrase ''listed in Table C1 of ASME/ANSI B16.5'' with ''listed in ASME B36.10M.''

[Replaces Table C1 of ASME/ANSI B16.5; Referenced in 49 CFR 192.279.]

D. ASTM International

• ASTM A53/A53M–20, ''Standard Specification for Pipe, Steel, Black, and Hot-Dipped, Zinc-Coated, Welded and Seamless,'' July 1, 2020.

ASTM A53/A53M specifies the design for seamless and welded black and hot-dipped galvanized steel pipe in nominal pipe size (NPS) ⅛ to NPS 26. The standard also specifies requirements for tests of material properties, hydrostatic tests, and non-destructive tests.

[Replaces ASTM A53/A53M–10, ''Standard Specification for Pipe, Steel, Black and Hot-Dipped, Zinc-Coated, Welded and Seamless,'' October 1, 2010; Referenced in 49 CFR 192.113; Section II of Appendix B in part 192; and 195.106(e).]

• ASTM A106/A106M–19A, ''Standard Specification for Seamless Carbon Steel Pipe for High-Temperature Service,'' November 1, 2019.

ASTM A106/A106M specifies standards for seamless carbon steel pipe appropriate for high-temperature service. Pipe meeting this specification is suitable for bending, flanging, and welding. The updates added since the 2010 edition currently incorporated by reference include clarifying the supplementary requirements in the ordering information, as well as the definition of single or double random lengths of pipe with single random joints allowed from 17 to 24-foot lengths and double random joints being between 36 and 44 feet.

[Replaces ASTM A106/A106M–10, ''Standard Specification for Seamless Carbon Steel Pipe for High-Temperature Service,'' October 1, 2010; Referenced in 49 CFR 192.113; Section I of Appendix B in part 192; and 195.106(e).]

• ASTM A333/A333M–18, ''Standard Specification for Seamless and Welded Steel Pipe for Low-Temperature Service and Other Applications with Required Notch Toughness,'' November 1, 2018.

ASTM A333/A333M specifies standards for nominal (average) wall seamless and welded carbon and alloy steel pipe intended for use at low temperatures. The standard addresses chemical, tensile strength, mechanical testing, and other requirements.

[Replaces ASTM A333/A333M–11, ''Standard Specification for Seamless and Welded Steel Pipe for Low-Temperature Service,'' April 1, 2011; Referenced in 49 CFR 192.113; Section I of Appendix B in part 192; and 49 CFR 195.106(e).]

• ASTM A381/A381M–18, ''Standard Specification for Metal-Arc-Welded Carbon or High-Strength Low-Alloy Steel Pipe for Use with High-Pressure Transmission Systems,'' November 1, 2018.

ASTM A381/A381M specifies standards for straight seam, double-submerged arc-welded steel pipe (commonly referred to as DSAW pipe as opposed to spiral-welded or electric-resistance-welded pipe) that is intended for the fabrication of fittings and accessories for compressor or pump-station piping and is suitable for high-pressure service at outside diameters of 16 inches or greater.

[Replaces ASTM A381–96, ''Standard Specification for Metal-Arc Welded Steel Pipe for Use with High-Pressure Transmission Systems,'' reaffirmed October 1, 2005; Referenced in 49 CFR 192.113; Section I of Appendix B in part 192; and 195.106(e).]

• ASTM A671/A671M–20, ''Standard Specification for Electric-Fusion-Welded Steel Pipe for Atmospheric and Lower Temperatures,'' March 1, 2020.

ASTM A671/A671M specifies the design, fabrication, and testing requirements for electric-fusion-welded (as opposed to arc-welded) steel pipe with added filler metal. Specifically, the specification applies to pipe fabricated from pressure vessel quality steel plates suitable for use at high pressures at atmospheric and lower temperatures.

[Replaces ASTM A671/A671M–10, ''Standard Specification for Electric-Fusion-Welded Steel Pipe for Atmospheric and Lower Temperatures,'' April 1, 2010; Referenced in 49 CFR 192.113; Section I of Appendix B in part 192; and 195.106(e).]

• ASTM A691/A691M–19, ''Standard Specification for Carbon and Alloy Steel Pipe, Electric-Fusion-Welded for High-Pressure Service at High Temperatures,'' November 1, 2019.

ASTM A691/A691M specifies the design, composition, fabrication, and testing of carbon and alloy steel pipe.

[Replaces ASTM A691/A691M–09, ''Standard Specification for Carbon and Alloy Steel Pipe, Electric-Fusion-Welded for High-Pressure Service at High Temperatures,'' October 1, 2009; Referenced in 49 CFR 192.113; Section I of Appendix B in part 192; and 49 CFR 195.106(e).]

E. The Manufacturers Standardization Society of the Valve and Fittings Industry, Inc.

• ANSI/MSS SP–44–2019, ''Steel Pipeline Flanges,'' April 2020.

MSS SP–44 covers pressure-temperature ratings, materials, dimensions, tolerances, marking, and testing of steel pipeline flanges.

[Replaces MSS SP–44–2010, ''Standard Practice, Steel Pipeline Flanges,'' 2010 edition, including Errata (May 20, 2011); Referenced in 49 CFR 192.147(a).]

• MSS SP–75–2019, ''High-Strength, Wrought, Butt-Welding Fittings,'' December 2019.

MSS SP–75 specifies requirements for factory-made, seamless, and electric-welded carbon and low-alloy steel butt-welding fittings. MSS SP–75 is applicable to fittings used in high-pressure gas and oil transmission and distribution systems, including pipelines, compressor stations, metering and regulating stations, and mains.

[Replaces MSS SP–75–2008, ''Specification for High Test, Wrought, Butt-Welding Fittings,'' June 1, 2009; Referenced in 49 CFR 195.118(a).]

F. National Fire Protection Association (NFPA)

• NFPA 58, ''Liquefied Petroleum Gas Code,'' 2020 edition, August 25, 2019.

NFPA 58 specifies requirements for the ''storage, handling, transportation, and use of liquefied petroleum gas.'' The PSRs require any plant that supplies liquefied petroleum to a pipeline system and any pipeline system that transports only petroleum gas or petroleum gas mixtures to meet the requirements of NFPA 58 in addition to the requirements of part 192.

[Replaces NFPA 58, ''Liquefied Petroleum Gas Code,'' 2004 edition, April 1, 2004; Referenced in 49 CFR 192.7; and 192.11(a) through (c).]

• NFPA 59, ''Utility LP-Gas Plant Code,'' 2018 edition, September 6, 2017.

NFPA 59 specifies the design, construction, location, installation, operation, and maintenance of utility gas plants. Compared to NFPA 58, NFPA 59 generally covers larger facilities.

[Replaces NFPA 59, ''Utility LP-Gas Plant Code,'' 2004 edition, April 1, 2004; Referenced in 49 CFR 192.11(a) through (c).]

• NFPA 70, ''National Electrical Code,'' 2017 edition, August 24, 2016.

NFPA 70, also known as the National Electrical Code (NEC), covers the installation and removal of electrical equipment, conductors, and conduits in structures and outdoor areas. The NEC is a foundational standard for electrical safety in residential, commercial, and industrial implementations.

[Replaces NFPA 70, ''National Electrical Code,'' 2011 edition (September 24, 2010); Referenced in 49 CFR 192.163(e) and 192.189(c).]

G. Miscellaneous Amendments

PHMSA is also incorporating miscellaneous editorial amendments and corrections to the PSRs. Some of

these revisions respond to a petition for rulemaking from the AGA. In addition to petitioning PHMSA to incorporate the most recent edition of NFPA 59 by reference, the AGA suggested edits to 49 CFR 192.11 that would clarify the scope of NFPA 58 and NFPA 59. The PSRs currently require operators of liquefied petroleum pipeline facilities to meet the requirements of both NFPA 58 and NFPA 59, but the change clarifies that operators must only satisfy the requirements for the NFPA standard that, based on the scope and applicability statements in NFPA 58 and NFPA 59, is applicable to the type of facility they operate. Generally, NFPA 58 applies to liquefied petroleum pipeline systems and NFPA 59 to utility-scale liquefied petroleum gas plants. PHMSA has considered this proposed clarification and is adopting the recommended editorial revision to 49 CFR 192.11 in this final rule.

Another revision recommended by AGA and which PHMSA adopts in this final rule corrects the minimum wall thickness tables in 49 CFR 192.121 for plastic pipe that is made of polyethylene (PE), polyamide (PA) PA11, and PA12 to include specifications for pipe with a copper tubing sizes (CTS) of 1¼ inches and to correct the minimum wall thickness for 1-inch CTS pipe. The minimum wall thickness—and, more specifically, the dimension ratio, which is the ratio of outside diameter to wall thickness—is consistent with values already specified for adjacent sizes. Plastic pipe, especially PE, is very common on gas distribution systems. On November 20, 2018, PHMSA published a final rule that allowed plastic pipe to operate with a design factor (a derating factor) of 0.4 rather than 0.32 as long as it met various requirements, including a minimum wall thickness that matched the definitions in the tables in 49 CFR 192.121.[20] As described in that 2018 final rule and its supporting RIA, as well as the AGA's petition for rulemaking, the revised design factor allows the use of approximately 17 percent less material or 11 percent higher capacity for a given outside specification.

The NPRM included listings for copper tubing sizes (CTS) of ½ and ¾ inches for polyethylene (PE) pipe. In response to comments, PHMSA included CTS sizes for polyamide (PA) PA11 and PA12 pipe, as well as iron pipe sizes (IPS) below 1 inch for all materials. However, stakeholders subsequently requested that PHMSA also consider including 1¼-inch CTS. This amendment allows the use of 1¼-inch CTS pipe with a 0.4 design factor provided that the pipe wall is at least 0.121 inches thick. A wall thickness of 0.121 corresponds to a dimension ratio of approximately 11, which is the same standard dimension ratio (SDR) that is currently permitted for 1¼-inch IPS, 1-inch CTS, and 1-inch IPS. This change reduces the cost to produce this size of plastic pipe by approximately 10 percent. The revised design factor is already permitted for similar, adjacent sizes such as 1¼-inch IPS pipe, and it was not PHMSA's intent to exclude specifications such as 1¼-inch CTS. The costs and benefits of this change were accounted for in the RIA for the 2018 final rule.

PHMSA also adopts in this final rule other technical and editorial revisions proposed in the NPRM, including the following:

- Updating reference to PHMSA's website (*https://portal.phmsa.dot.gov/*) in § 195.58;
- Copying the definition for a master meter system that is used in part 191 to part 192. The term ''master meter system'' is referenced in both part 191 and part 192; however, it is only defined in § 191.3 of part 191. This rule adds the definition to § 192.3 of part 192;
- Clarifying reference to flange requirements in § 192.147(a) to specify that flanges must meet ASME B16.5, ANSI/MSS SP–44, or the equivalent;
- Correcting the placement of the word ''in'' in § 192.153(d);
- Removing a reference to an inactive phone number for the National Pipeline Mapping System (NPMS) program in § 192.727(g) and 195.59(a);
- Removing references to § 195.242(c) and (d) in § 195.1(c) because this section no longer exists in the regulations;
- Correcting § 195.3(c)(3) to reflect that ASME B31.4 is no longer referenced in § 195.452(h); and
- Revising § 192.307(c) references to API 650 sections 7.3.5 and 7.3.6 because the testing requirements were moved to sections 7.3.6 and 7.3.7, respectively, in the updated edition of API 650.

VI. Regulatory Analyses and Notices

Summary/Legal Authority for This Rule

This final rule is published under the authority of the Secretary of Transportation delegated to the PHMSA Administrator pursuant to 49 CFR 1.97. Among the statutory authorities delegated to PHMSA are those set forth in the Federal pipeline safety statutes (49 U.S.C. 60101 *et seq.*). 49 U.S.C. 60102 grants authority, to the extent appropriate and practicable, to the Secretary to update incorporated, voluntary, consensus industry technical standards that were adopted as part of the PSRs to protect public safety and the environment.

This final rule incorporates by reference more than 20 updated industry standards. In addition, this final rule makes several other minor clarifying and editorial changes to the PSRs.

Executive Orders 12866 and 14094; DOT Regulatory Policies and Procedures

Executive Order 12866 (''Regulatory Planning and Review''), as amended by Executive Order 14094 (''Modernizing Regulatory Review''), requires that agencies ''should assess all costs and benefits of available regulatory alternatives, including the alternative of not regulating.'' [21] Agencies should consider both quantifiable measures and qualitative measures of costs and benefits that are difficult to quantify. Further, Executive Order 12866 requires that agencies ''should select those [regulatory] approaches that maximize net benefits (including potential economic, environmental, public health and safety, and other advantages, as well as distributive impacts and equity), unless a statute requires another regulatory approach.'' Similarly, DOT Order 2100.6A (''Rulemaking and Guidance Procedures'') requires PHMSA and other DOT operating administrations to consider an assessment of the potential benefits, costs, and other important impacts of the proposed action; they should also quantify (to the extent practicable) the benefits, costs, and any significant distributional impacts, including any environmental impacts.

Executive Order 12866 (as amended by Executive Order 14094) and DOT Order 2100.6A require that PHMSA submit ''significant regulatory actions'' to the OMB for review. However, this final rule is not considered a significant regulatory action under Executive Order 12866 and, therefore, was not subject to review by the OMB. Further, the DOT considers this final rule to be non-significant pursuant to DOT Order 2100.6A.

In accordance with the NTTAA and OMB Circular A–119, PHMSA constantly reviews new editions and revisions to relevant voluntary, consensus industry technical standards, and publishes a proposed rule every two to three years to incorporate new or updated industry standards by

[20] PHMSA, ''Pipeline Safety: Plastic Pipe Rule—Final Rule,'' 83 FR 58694 (Nov. 20, 2018).

[21] Executive Order 12866 is available at 58 FR 51735 (Oct. 4, 1993); Executive Order 14094 is available at 88 FR 21879 (Apr. 6, 2023).

reference. This practice is consistent with the intent of the NTTAA and OMB directives to avoid the need to develop government standards that could potentially result in regulatory conflicts with updated standards and an increased compliance burden for industry.

PHMSA expects that the changes to the PSRs described in this final rule will result in unquantified public safety and environmental benefits associated with the updated industry standards. Although, as discussed above, many of the changes within the updated industry standards for incorporation within the PSRs are editorial revisions or clarifications, others consist of substantive changes that reflect advancements in the state of knowledge (based on developments in technology, testing, materials, and practical experience memorialized within operational and management practices) compared to earlier versions of the same standards. PHMSA's technical review of those updated industry standards concluded that their incorporation would enhance the protection of public safety and the environment.

Further, PHMSA expects the administrative burden for stakeholders stemming from the incorporation of these updated industry standards will be negligible and the net economic benefits will be high. According to the annual reports that operators submit to PHMSA, there are more than 2,813 entities operating distribution systems and facilities for gas and hazardous liquid (as well as carbon dioxide) pipeline facilities subject to part 192 or 195 as of May 23, 2021. In fact, updates to industry standards are generally accepted and followed on a voluntary basis throughout most of the pipeline industry. PHMSA understands that the majority of pipeline operators already purchase and voluntarily apply industry standards—including the updated industry standards that are the subject of this rulemaking—within their ordinary business practices. Incorporation of the updated industry standards within the PSRs will help ensure the industry is not forced to incur the additional cost of complying with different versions of the same standards.

In addition to incorporating updated industry standards into the PSRs, PHMSA is adopting non-substantive editorial changes and clarifications of certain provisions of regulatory language. Since these editorial changes are minor, this final rule will not require pipeline operators to undertake significant new pipeline safety initiatives and would have negligible cost implications. The non-substantive changes will increase the clarity of the pipeline safety regulations, thereby improving compliance and helping to ensure the safety of the Nation's pipeline systems.

Executive Order 13132: Federalism

PHMSA analyzed this final rule in accordance with the principles and criteria contained in Executive Order 13132 (''Federalism'') [22] and the Presidential Memorandum titled ''Preemption.'' [23] Executive Order 13132 requires agencies to ensure meaningful and timely input by State and local officials regarding the development of regulatory policies that may have ''substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government.''

The regulatory amendments in this final rule will not have a substantial direct effect on State or local governments; the relationship between the national government and the States; or the distribution of power and responsibilities among the various levels of government. In addition, this rule will not impose substantial direct compliance costs on State or local governments. While the final rule's revisions may operate to preempt some State requirements, it will not impose any regulation that has substantial direct effects on the States; the relationship between the national government and the States; or the distribution of power and responsibilities among the various levels of government.

Section 60104(c) of the Federal pipeline safety laws prohibits State safety regulation of interstate pipelines. Under the Federal pipeline safety laws, States that have submitted a current certification under 49 U.S.C. 60105(a) must adopt the minimum Federal pipeline safety requirements for intrastate pipelines and may adopt additional or more stringent requirements so long as they are compatible. A State may also regulate an intrastate pipeline facility that PHMSA does not regulate.

In this instance, the preemptive effect of the final rule is limited to the minimum level necessary to achieve the objectives of the Federal pipeline safety laws. Therefore, PHMSA has determined that the consultation and funding requirements of Executive Order 13132 do not apply to this final rule.

Executive Order 13175: Consultation and Coordination With Indian Tribal Governments

PHMSA analyzed this final rule according to the principles and criteria in Executive Order 13175 (''Consultation and Coordination with Indian Tribal Governments'') [24] and DOT Order 5301.1A (''Department of Transportation Tribal Consultation Policy and Procedures''). Executive Order 13175 requires agencies to ensure meaningful and timely input from Tribal government representatives during the development of rules that significantly or uniquely affect Tribal communities by imposing ''substantial direct compliance costs'' or ''substantial direct effects'' on such communities, or the relationship or distribution of power between the Federal Government and Tribes.

PHMSA assessed the impact of the final rule's revisions and concluded that they will not significantly or uniquely affect Tribal communities or Tribal governments. The rule's regulatory amendments are facially neutral and will have broad, national scope; PHMSA, therefore, does not expect this rule would significantly or uniquely affect Tribal communities, much less that it will impose substantial compliance costs on Native American Tribal governments or mandate Tribal action. Insofar as PHMSA expects that the rule will improve safety and reduce environmental risks, PHMSA finds that it will not entail disproportionately high adverse risks for Tribal communities. Therefore, PHMSA concludes that the funding and consultation requirements of Executive Order 13175 and DOT Order 5301.1A do not apply.

Regulatory Flexibility Act and Executive Order 13272

The Regulatory Flexibility Act, as amended by the Small Business Regulatory Flexibility Fairness Act of 1996 (5 U.S.C. 601 *et seq.*), generally requires Federal agencies to prepare a final regulatory flexibility analysis for a final rule subject to notice-and-comment rulemaking under the Administrative Procedure Act. 5 U.S.C. 603(a).[25] Executive Order 13272 (''Proper Consideration of Small Entities in

[22] 64 FR 43255 (Aug. 10, 1999).

[23] 74 FR 24693 (May 22, 2009).

[24] 65 FR 67249 (Nov. 6, 2000).

[25] Agencies are not required to conduct a regulatory flexibility analysis if the head of the agency certifies that the rule will not have a significant impact on a substantial number of small entities. 5 U.S.C. 605.

Agency Rulemaking'') [26] obliges agencies to establish procedures promoting compliance with the Regulatory Flexibility Act; DOT's implementing guidance is available on its website.[27]

This final rule was developed in accordance with Executive Order 13272 and DOT guidance to ensure compliance with the Regulatory Flexibility Act and provide appropriate consideration of the potential impacts of the rulemaking on small entities. PHMSA has concluded that the costs of incorporating these updated voluntary, consensus industry technical standards within the PSRs will be negligible. PHMSA understands that updates to industry standards are generally accepted and followed on a voluntary basis throughout most of the pipeline industry; the majority of pipeline operators already purchase and voluntarily apply industry standards—including the updated standards that are the subject of this rulemaking—within their ordinary business practices. Further, incorporating such standards by reference helps to ensure that the industry is not forced to comply with competing versions of the same industry standards. Similarly, PHMSA does not expect the miscellaneous editorial and clarifying revisions in this rulemaking will impose meaningful compliance costs on operators. Therefore, based on the available information regarding the anticipated impact of this final rule, PHMSA certifies that this rule will not have a significant economic impact on a substantial number of small entities.

Paperwork Reduction Act

Pursuant to 5 CFR 1320.8(d), PHMSA is required to provide interested members of the public and affected agencies with an opportunity to comment on information collection and recordkeeping requests. In accordance with 5 CFR 1320.8(d), PHMSA analyzed this final rule in accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), which establishes policies and procedures for controlling paperwork burdens imposed by Federal agencies on the public and requires Federal agencies to minimize the burden of paperwork imposed on the U.S. public by ensuring maximum utility and quality of Federal information. This allowed for the use of information technology to improve the Federal Government's performance and accountability regarding the management of information-collection activities. This final rule does not impose any new information-collection requirements or modify any existing information-collection requirements.

Unfunded Mandates Reform Act of 1995

The Unfunded Mandates Reform Act (2 U.S.C. 1501 *et seq.*) requires agencies to assess the effects of Federal regulatory actions on State, local, and Tribal governments, and the private sector. For any NPRM or final rule that includes a Federal mandate that may result in the expenditure by State, local, or Tribal governments, in an aggregate of $100 million or more (in 1996 dollars) in any given year, the agency must prepare, among other things, a written statement that qualitatively and quantitatively assesses the costs and benefits of the Federal mandate.

As explained in the above discussion of Executive Order 12866, PHMSA does not expect that the final rule will impose enforceable duties of $100 million or more (in 1996 dollars) in any one year on either State, local, or Tribal governments or on the private sector. Therefore, the requirement to prepare a statement pursuant to Unfunded Mandates Reform Act does not apply.

Privacy Act Statement

In accordance with 5 U.S.C. 553(c), the DOT solicits comments from the public to better inform its rulemaking process. The DOT posts these comments without edit, including any personal information the commenter provides, to *https://www.regulations.gov/.* This is described in the system of records notice (DOT/ALL–14 FDMS), which can be reviewed at *https://www.dot.gov/privacy.*

Regulation Identifier Number

A regulation identifier number (RIN) is assigned to each regulatory action listed in the Unified Agenda of Regulatory and Deregulatory Actions (Unified Agenda). The RIN contained in the heading of this document can be used to cross-reference this action with the Unified Agenda.

Final Environmental Assessment

The National Environmental Policy Act of 1969 (NEPA, 42 U.S.C. 4321 *et. seq.*) requires Federal agencies to prepare a detailed statement on major Federal actions that significantly affect the quality of the human environment. The Council on Environmental Quality's implementing regulations (40 CFR parts 1500–1508) require Federal agencies to conduct an environmental review that considers (1) the need for the action; (2) alternatives to the action; (3) the probable environmental impacts of the action and alternatives; and (4) the agencies and individuals consulted during the consideration process. DOT Order 5610.1C (''Procedures for Considering Environmental Impacts'') establishes departmental procedures for the evaluation of environmental impacts under NEPA and its implementing regulations. In this final rule, PHMSA incorporates more than 20 updated industry standards.

PHMSA has completed an Environmental Assessment and concluded that an environmental impact statement will not be required for this rulemaking because it will not have a significant impact on the human environment. To the extent that the final rule will impact the environment, those impacts will be primarily beneficial impacts enhancing the PSR's protection of public safety and the environment by incorporating updated industry standards.

Description of Action: The NTTAA directs Federal agencies to use industry standards and design specifications developed by voluntary consensus standard bodies instead of government-developed standards, when applicable. There are currently more than 80 standards incorporated in parts 192, 193, and 195 of the PSRs.

PHMSA engineers and subject matter experts participate on 25 standards development committees to keep current on committee actions. PHMSA only adopts standards into the Federal regulations that meet the Agency's directive(s) to ensure the best interests of public and environmental safety are served.

Purpose and Need: Many of the industry standards currently incorporated in the PSRs have been revised and updated to incorporate and promote new technologies and methodologies. This final rule allows operators to use new technologies by incorporating new editions of the standards into the PSRs.

PHMSA's technical and subject matter experts continually review the actions of pipeline standards-developing committees and study industry safety practices to ensure that PHMSA's endorsement of any new editions or revised industry standards incorporated into the PSRs will improve public safety and provide protection for the environment. If PHMSA does not amend the PSRs to keep up with industry practices, it could potentially have an adverse effect on the safe transportation of energy resources.

These amendments make the regulatory provisions more consistent with current technology and therefore

[26] 67 FR 53461 (Aug. 16, 2002).

[27] DOT, ''Rulemaking Requirements Concerning Small Entities,'' *https://www.transportation.gov/regulations/rulemaking-requirements-concerning-small-entities* (last updated May 18. 2012).

promote the safe transportation of hazardous liquids, natural and other gases, and liquefied natural gas by pipeline.

Alternatives Considered: In developing this final rule, PHMSA considered two alternatives:

Alternative (1): Take no action and continue to incorporate only the existing standards currently referenced in the PSRs. Because PHMSA's goal is to facilitate pipeline safety and incorporate appropriate and up-to-date industry standards, PHMSA rejected the no-action alternative. This alternative potentially results in forgoing the safety and environmental improvements in the updated standards.

Selected Alternative (2): Adopt the above-described amendments and incorporate updated editions of industry standards as described in the NPRM and this final rule, including cited material. This is the selected alternative. PHMSA's goal is to incorporate updated editions of industry standards by reference into the PSRs when appropriate to facilitate pipeline operators to use current technology, new materials, and other management practices. Another goal is to update and clarify certain provisions in the regulations.

Environmental Consequences: The Nation's pipelines are located throughout the United States, both onshore and offshore, and traverse a variety of environments that range from highly populated urban sites to remote, unpopulated, rural areas and ecologically sensitive environments. The Federal pipeline regulatory system is a risk-management system that is prevention-oriented and focused on identifying safety hazards and reducing the likelihood and quantity of a gas or hazardous liquid (or carbon dioxide) release. Pipeline operators are required to develop and implement IM programs to enhance safety by identifying and reducing pipeline integrity risks.

Pipelines subject to this final rule transport hazardous liquids (as well as carbon dioxide) and gas, and therefore, a spill or leak of the product could affect the physical environment as well as the health and safety of the public. The release of hazardous liquids (as well as carbon dioxide) or gas can cause the loss of cultural and historical resources (*e.g.,* properties listed on the National Register of Historic Places); biological and ecological resources (*e.g.,* coastal zones, wetlands, plant and animal species and their habitats, forests, grasslands, or offshore marine ecosystems); special ecological resources (*e.g.,* threatened and endangered plant and animal species and their habitats, national and State parklands, biological reserves, or wild and scenic rivers); and the contamination of air, water resources (*e.g.,* oceans, streams, or lakes), and soil that exists directly adjacent to and within the vicinity of pipelines. Incidents involving pipelines can result in fires and explosions, causing damage to the local environment. Depending on the size of a spill, carbon dioxide release, or gas leak, and the nature of the failure zone, the potential impacts could vary from property or environmental damage, to injuries or, on rare occasions, fatalities.

Compliance with the PSRs substantially reduces the possibility of an accidental release of product. Incorporating new industry standards or updating those already incorporated into the PSRs can provide operators with the advantages and added safety that can accompany the use of newer technologies. These standards are based on the shared knowledge and experience of owners, operators, manufactures, risk-management experts, and others involved in the pipeline industry, as well as regulatory agencies like PHMSA and state DOTs. PHMSA staff actively participates in the standards development process to ensure that each incorporated standard will enhance pipeline safety and environmental protection. Newer editions are not automatically incorporated, but instead reviewed in detail before they may be incorporated into the PSRs.

PHMSA reviewed each of the standards described in this rule and determined that most of the updates involve minor changes, such as editorial changes, the inclusion of best practices, or similar changes. The majority of updates incorporated in this final rule increase pipeline safety standards to decrease risk. In a small number of instances, standards organizations relax standards to reduce industry burden when justified by low risk, overlapping protections, or technological innovation within the same standard. Provisions that allow for relaxation are the less-conservative-design sloshing wave-height calculations in the revised edition of API Std 650; the provisions in the 21st edition of API Std 1104 that allow welders who are qualified in a fixed position to also be qualified to weld in the roll position; and the elimination of the need to calculate evaporation rates in the 7th edition of API Std 2000. PHMSA has determined that each of these updates maintains and provides adequate protection against applicable risks, and that the safety improvements elsewhere in API Std 650, API Std 1104, and API Std 2000 offset these changes.

Environmental Justice: Executive Order 12898 (''Federal Actions to Address Environmental Justice in Minority Populations and Low-Income Populations''),[28] directs Federal agencies to take appropriate and necessary steps to identify and address disproportionately high and adverse effects of Federal actions on the health or environment of minority and low-income populations ''[t]o the greatest extent practicable and permitted by law.'' DOT Order 5610.2C (''U.S. Department of Transportation Actions to Address Environmental Justice in Minority Populations and Low-Income Populations'') establishes departmental procedures for effectuating Executive Order 12898 by promoting and fully considering the principles of environmental justice throughout the planning and decision-making process when developing programs, policies, and activities—including PHMSA rulemaking.

PHMSA evaluated this final rule according to DOT Order 5610.2C and Executive Order 12898 and has determined that it will not cause disproportionately high and adverse human health and environmental effects on minority populations and low-income populations. The final rule is national in scope; it is neither directed toward a particular population, region, or community, nor is it expected to adversely impact any particular population, region, or community. Indeed, because this rule will generally reduce safety and environmental risks, PHMSA understands the regulatory amendments will reduce any disproportionate human health and environmental risks for minority populations, low-income populations, or other underserved and disadvantaged communities in the vicinity of pipelines within the scope of the rule's amendments. Lastly, the regulatory amendments will yield reductions in greenhouse gas emissions, thereby reducing the risks posed by anthropogenic climate change to minority and low-income populations, and historically underserved and other traditionally disadvantaged populations and communities.

The above findings are also consistent with E.O. 14096 (''Revitalizing Our Nation's Commitment to Environmental Justice for All'') [29] by achieving several goals, including continuing to deepen the Biden-Harris Administration's whole of government approach to

[28] 59 FR 7629 (Feb. 16, 1994).

[29] 88 FR 25251 (April 26, 2023).

environmental justice and to better protect overburdened communities from pollution and environmental harms.

Public Involvement: On October 21, 2021, PHMSA held a virtual public meeting to discuss periodic standards updates and inform this rulemaking. During this meeting, members of the public, Tribal government and Tribal advocacy representatives, State pipeline safety program representatives, pipeline safety advocacy groups, first responders and emergency response organizations, and industry experts provided information and feedback on a variety of topics, including current regulations, public perspectives, and public comments from the NPRM. The meeting included many opportunities for questions and public input. PHMSA also opened a docket in coordination with the public meeting to receive additional input during and in response to the meeting, which can be found at: *https://www.regulations.gov/docket/PHMSA-2021-0069.* The full transcripts of the meeting can be found at: *https://primis.phmsa.dot.gov/meetings/MtgHome.mtg?mtg=156.*

Conclusion—Finding of No Significant Impact (FONSI): Based on the analysis summarized in this Final Environmental Assessment, the analysis provided in the NPRM, this final rule, and accompanying documents in Docket No. PHMSA–2016–0002, PHMSA finds that the final rule does not result in a significant impact on the human or natural environment. Overall, the final rule is expected to have a positive environmental impact by incorporating industry standards that will allow the pipeline industry to use improved technologies, new materials, performance-based approaches, manufacturing processes, and other practices to enhance public health, safety, and welfare. PHMSA's goal is to ensure hazardous liquids, natural and other gases, and liquefied natural gas transported by pipeline will arrive safely to their destinations. In accordance with NEPA, PHMSA solicited comments on the environmental and safety impacts of the proposed rule. All comments received during this period were addressed in the final rule. None of the comments concerned the environmental assessment specified in the proposed rule. Therefore, PHMSA is issuing a Finding of No Significant Impact (FONSI) thus concluding the NEPA process for this rulemaking.

Executive Order 13211: Significant Energy Actions

Executive Order 13211 (''Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use'') [30] requires Federal agencies to prepare a Statement of Energy Effects for any ''significant energy action.'' Executive Order 13211 defines a ''significant energy action'' as any action by an agency (normally published in the **Federal Register**) that promulgates or is expected to lead to the promulgation of a final rule or regulation that (1)(i) is a significant regulatory action under Executive Order 12866 or any successor order, and (ii) is likely to have a significant adverse effect on the supply, distribution, or use of energy; or (2) is designated by the Administrator of the Office of Information and Regulatory Affairs (OIRA) as a significant energy action.

This final rule will not be a ''significant energy action'' under Executive Order 13211. It will not have a significant adverse effect on the supply, distribution, or use of energy. Further, OIRA has not designated this final rule as a significant energy action.

Executive Order 13609 and International Trade Analysis

Executive Order 13609 (''Promoting International Regulatory Cooperation'') [31] requires agencies to consider whether the impacts associated with significant variations between domestic and international regulatory approaches are unnecessary or may impair the ability of American businesses to export and compete internationally. In meeting shared challenges involving health, safety, labor, security, environmental, and other issues, international regulatory cooperation can identify approaches that are at least as protective as those that would be adopted in the absence of such cooperation. International regulatory cooperation can also reduce, eliminate, or prevent unnecessary differences in regulatory requirements.

Similarly, the Trade Agreements Act of 1979 (Pub. L. 96–39), as amended by the Uruguay Round Agreements Act (Pub. L. 103–465), prohibits Federal agencies from establishing any industry standards or engaging in related activities that create unnecessary obstacles to the foreign commerce of the United States. For purposes of these requirements, Federal agencies may participate in the establishment of international standards so long as the standards have a legitimate domestic objective, such as helping to ensure safety, and do not operate to exclude imports that meet this objective. The statute also requires consideration of international standards and, where appropriate, that they serve as the basis for U.S. standards.

PHMSA participates in the establishment of international standards to protect the safety of the American public. PHMSA assessed the effects of the final rule and understands that it will not cause unnecessary obstacles to foreign trade.

Cybersecurity and Executive Order 14028

Executive Order 14028 (''Improving the Nation's Cybersecurity'') [32] directs the Federal Government to improve its efforts to identify, deter, and respond to ''persistent and increasingly sophisticated malicious cyber campaigns.'' In keeping with these policies and directives, PHMSA has assessed the effects of this final rule to determine what impact the regulatory amendments may have on cybersecurity risks for pipeline facilities and has determined that this final rule will not materially affect the cybersecurity risk profile for pertinent pipeline facilities.

This final rule adopts more than 20 new or updated voluntary, consensus industry technical standards that provide specification of materials, test methods, or performance requirements. Gas and hazardous liquid (and carbon dioxide) pipeline operator compliance strategies may be subject to current Transportation Security Agency (TSA) pipeline cybersecurity directives [33] and would be subject to ongoing TSA efforts to strengthen cybersecurity and resiliency in the pipeline sector, as discussed within an ANPRM published in November 2022.[34] Further, the Cybersecurity & Infrastructure Security Agency (CISA) and the Pipeline Cybersecurity Initiative (PCI) of the U.S. Department of Homeland Security conduct ongoing activities to address cybersecurity risks to U.S. pipeline facilities, and may introduce other cybersecurity requirements and guidance for gas and hazardous liquid (and carbon dioxide) pipeline operators.[35] Lastly, because PHMSA concludes that each of the updated standards in this final rule will enhance the protection of public safety and the environment, this rulemaking could reduce the public safety and the

[30] 66 FR 28355 (May 22, 2001).

[31] 77 FR 26413 (May 4, 2012).

[34] TSA, ''Advance Notice of Proposed Rulemaking: Enhancing Surface Cyber Risk Management,'' 87 FR 73527 (Nov. 30, 2022).

[35] *See, e.g.,* CISA, National Cyber Awareness System Alerts, *https://www.cisa.gov/uscert/ncas/alerts* (last accessed Feb. 1, 2023).

environmental consequences in the event of a cybersecurity incident on pertinent pipeline facilities.

National Technology Transfer and Advancement Act

As discussed above, the NTTAA of 1995 (15 U.S.C. 272 note) directs Federal agencies to use voluntary, consensus technical industry standards in their regulatory activities unless doing so would be inconsistent with applicable law or would be otherwise impractical. Voluntary, consensus technical industry standards are technical standards (*e.g.,* specification of materials, test methods, or performance requirements) that are developed or adopted by voluntary consensus standards bodies. This final rule adopts more than 20 new or updated voluntary, consensus industry technical standards.

Severability

The purpose of this final rule is to operate holistically in addressing a panoply of issues necessary to ensure safe operation of regulated gas and hazardous liquid (as well as carbon dioxide) pipelines, with a focus on providing pipeline operators the ability to use current technologies, improved materials, and updated industry and management practices. However, PHMSA recognizes that this rule incorporates by reference various updated industry standards that focus on unique topics. Therefore, PHMSA concludes that the regulatory amendments adopted herein incorporating various updated industry standards into the PSRs are severable and able to function independently if severed from each other. In the event a court were to invalidate one or more of the unique provisions of the final rule issued in this proceeding, the remaining provisions should stand, thus allowing their continued effect.

List of Subjects

49 CFR Part 192

Incorporation by reference, Pipeline safety, Natural gas.

49 CFR Part 195

Incorporation by reference, Pipeline safety, Anhydrous ammonia, Carbon dioxide, Petroleum.

In consideration of the foregoing, PHMSA is amending 49 CFR parts 192 and 195 as follows:

PART 192—TRANSPORTATION OF NATURAL AND OTHER GAS BY PIPELINE: MINIMUM FEDERAL SAFETY STANDARDS

■ 1. The authority citation for part 192 continues to read as follows:

Authority: 30 U.S.C. 185(w)(3), 49 U.S.C. 5103, 60101 *et seq.,* and 49 CFR 1.97.

■ 2. In § 192.3, add, in alphabetical order, the definition for ''Master Meter System'' to read as follows:

§ 192.3 Definitions.

* * * * *

Master Meter System means a pipeline system for distributing gas within, but not limited to, a definable area (such as a mobile home park, housing project, or apartment complex) where the operator purchases metered gas from an outside source for resale through a gas distribution pipeline system. The gas distribution pipeline system supplies the ultimate consumer who either purchases the gas directly through a meter or by other means, such as by rents.

* * * * *

■ 3. Amend § 192.7 by:
■ a. Revising paragraph (a), the introductory text of paragraph (b), paragraphs (b)(7) through (9), the introductory text of paragraph (c) and paragraphs (c)(2), (5), and (6);
■ b. Adding paragraph (c)(7);
■ c. Redesignating paragraphs (c)(8) through (10) as (c)(9) through (11);
■ d. Adding paragraph (c)(8);
■ e. Revising the introductory text of paragraph (e) and paragraphs (e)(1) through (3), (5), (7), and (9);
■ f. Removing and reserve paragraph (f); and
■ g. Revising paragraph (g), the introductory text of paragraph (i), and paragraphs (i)(2) through (4).

The revisions and additions read as follows:

§ 192.7 What documents are incorporated by reference partly or wholly in this part?

(a) Certain material is incorporated by reference into this part with the approval of the Director of the Federal Register under 5 U.S.C. 552(a) and 1 CFR part 51. All approved incorporation by reference (IBR) material is available for inspection at the Pipeline and Hazardous Materials Safety Administration (PHMSA) and the National Archives and Records Administration (NARA). Contact PHMSA at: Office of Pipeline Safety, Pipeline and Hazardous Materials Safety Administration, 1200 New Jersey Avenue SE, Washington, DC 20590; 202–366–4046; *www.phmsa.dot.gov/pipeline/regs.* For information on the availability of this material at NARA, visit *www.archives.gov/federal-register/cfr/ibr-locations.html* or email *fr.inspection@nara.gov.* It is also available from the sources in the following paragraphs of this section.

(1) ASTM A53/A53M–20, Standard Specification for Pipe, Steel, Black and Hot-Dipped, Zinc-Coated, Welded and Seamless, approved July 1, 2020, (ASTM A53/A53M); IBR approved for § 192.113; appendix B to part 192.

(2) ASTM A106/A106M–19A, Standard Specification for Seamless Carbon Steel Pipe for High-Temperature Service, approved November 1, 2019, (ASTM A106/A106M); IBR approved for § 192.113; appendix B to part 192.

(3) ASTM A333/A333M–18, Standard Specification for Seamless and Welded Steel Pipe for Low-Temperature Service and Other Applications with Required Notch Toughness, approved November 1, 2018, (ASTM A333/A333M); IBR approved for § 192.113; appendix B to part 192.

* * * * *

(5) ASTM A381/A381M–18, Standard Specification for Metal-Arc-Welded Carbon or High-Strength Low-Alloy Steel Pipe for Use with High-Pressure Transmission Systems, approved November 1, 2018, (ASTM A381); IBR approved for § 192.113; appendix B to part 192.

* * * * *

(7) ASTM A671/A671M–20, Standard Specification for Electric-Fusion-Welded Steel Pipe for Atmospheric and Lower Temperatures, approved March 1, 2020, (ASTM A671/A671M); IBR approved for § 192.113; appendix B to part 192.

* * * * *

(9) ASTM A691/A691M–19, Standard Specification for Carbon and Alloy Steel Pipe, Electric-Fusion-Welded for High-Pressure Service at High Temperatures, approved November 1, 2019, (ASTM A691/A691M); IBR approved for § 192.113; appendix B to part 192.

* * * * *

(g) Manufacturers Standardization Society of the Valve and Fittings Industry, Inc. (MSS), 127 Park St. NE, Vienna, VA 22180; phone: (703) 281–6613; email: *info@msshq.org;* website: *www.mss-hq.org/.*

(1) ANSI/MSS SP–44–2019, Steel Pipeline Flanges, published April 2020, (MSS SP–44); IBR approved for § 192.147(a).

(2) [Reserved]

* * * * *

(i) National Fire Protection Association (NFPA), 1 Batterymarch Park, Quincy, MA 02169; phone: (617) 984–7275; website: *www.nfpa.org.*

* * * * *

(2) NFPA 58, Liquefied Petroleum Gas Code, 2020 edition, effective August 25, 2019, (NFPA 58); IBR approved for § 192.11.

(3) NFPA 59, Utility LP-Gas Plant Code, 2018 edition, effective September 6, 2017, (NFPA 59); IBR approved for § 192.11.

(4) NFPA 70, National Electrical Code (NEC), 2017 edition, effective August 24, 2016, (NFPA 70); IBR approved for §§ 192.163(e); 192.189(c).

* * * * *

■ 4. Revise § 192.11 to read as follows:

§ 192.11 Petroleum gas systems.

(a) Each plant that supplies petroleum gas by pipeline to a natural gas distribution system must meet the requirements of this part and NFPA 58 or NFPA 59 (both incorporated by reference, *see* § 192.7), based on the scope and applicability statements in those standards.

(b) Each pipeline system subject to this part that transports only petroleum gas or petroleum gas/air mixtures must meet the requirements of this part and NFPA 58 or NFPA 59 (both incorporated by reference, *see* § 192.7), based on the scope and applicability statements in those standards.

(c) In the event of a conflict between this part and NFPA 58 or NFPA 59 (both incorporated by reference, *see* § 192.7), NFPA 58 or NFPA 59 shall prevail if applicable based on the scope and applicability statements in those standards.

§ 192.13 [AMENDED]

■ 5. In § 192.13 paragraph (d), remove the text ''ASME/ANSI B31.8S'' and add, in its place, the text ''ASME B31.8S''.

§ 192.112 [AMENDED]

■ 6. Amend § 192.112 by:

■ a. Removing in paragraph (b)(1)(ii), the text ''American Society of Mechanical Engineers (ASME)'' and adding, in its place, the text ''ASME'';

■ b. Removing in paragraph (b)(2)(iv), the text ''API Specification 5L'' and adding, in its place, the text ''API Spec 5L'';

■ c. Removing in the introductory text of paragraph (c)(2), the text ''include (i) and either (ii) or (iii)'' and adding, in its place, the text ''include paragraph (c)(2)(i) of this section and either paragraph (c)(2)(ii) or (iii) of this section'';

■ d. Redesignating paragraphs (c)(2)(iii)(a) through (e) as paragraphs (c)(2)(iii)(A) through (E) and adding a paragraph break before each newly redesignated paragraph; and

■ e. Removing in paragraph (e)(3), the text '''ANSI/API Spec 5L''' and adding, in its place, the text ''API Spec 5L''.

■ 7. Revise § 192.113 to read as follows:

§ 192.113 Longitudinal joint factor (E) for steel pipe.

(a) The longitudinal joint factor to be used in the design formula in § 192.105 is determined in accordance with the table 1 to this paragraph (a):

TABLE 1 TO PARAGRAPH (a)

Specification	Pipe class	Longitudinal joint factor (E)
ASTM A53/A53M (incorporated by reference, see § 192.7)	Seamless	1.00
	Electric resistance welded	1.00
	Furnace butt welded	.60
ASTM A106/A106M (incorporated by reference, see § 192.7)	Seamless	1.00
ASTM A333/A333M (incorporated by reference, see § 192.7)	Seamless	1.00
	Electric resistance welded	1.00
ASTM A381 (incorporated by reference, see § 192.7)	Double submerged arc welded	1.00
ASTM A671/A671M (incorporated by reference, see § 192.7)	Electric-fusion-welded	1.00
ASTM A672 (incorporated by reference, see § 192.7)	Electric-fusion-welded	1.00
ASTM A691/A691M (incorporated by reference, see § 192.7)	Electric-fusion-welded	1.00
API Spec 5L (incorporated by reference, see § 192.7)	Seamless	1.00

TABLE 1 TO PARAGRAPH (a)—Continued

Specification	Pipe class	Longitudinal joint factor (E)
	Electric resistance welded	1.00
	Electric flash welded	1.00
	Submerged arc welded	1.00
	Furnace butt welded	.60
Other	Pipe over 4 inches (102 millimeters)	.80
Other	Pipe 4 inches (102 millimeters) or less	.60

(b) If the type of longitudinal joint cannot be determined, the joint factor to be used must not exceed that designated for ''Other.''

■ 8. In § 192.121, revise paragraphs (c)(2)(iv), (d)(2)(iv), and (e)(4) to read as follows:

§ 192.121 Design of plastic pipe.

* * * * *

(c) * * *

(2) * * *

(iv) The wall thickness for a given outside diameter is not less than that listed in Table 1 to this paragraph (c)(2)(iv):

TABLE 1 TO PARAGRAPH (c)(2)(iv)

PE pipe: minimum wall thickness and SDR values

§ 192.145 [AMENDED]

■ 9. In § 192.145 paragraph (a), remove the text ''ANSI/API Spec 6D'' and add, in its place, the text ''API Spec 6D''.

■ 10. In § 192.147, revise paragraph (a) to read as follows:

§ 192.147 Flanges and flange accessories.

(a) Each flange or flange accessory (other than cast iron) must meet the minimum requirements of ASME/ANSI B16.5 (incorporated by reference, see § 192.7), ANSI/MSS SP–44 (incorporation by reference, see § 192.7), or the equivalent.

* * * * *

■ 11. In § 192.153, revise paragraph (d) to read as follows:

§ 192.153 Components fabricated by welding.

* * * * *

(d) Except for flat closures designed in accordance with ASME BPVC, Section VIII, Division 1 or Division 2, (both incorporated by reference, *see* § 192.7), flat closures and fish tails may not be used on pipe that either operates at 100 psig (689 kilopascals) or more, or that is more than 3 inches (76 millimeters) in nominal diameter.

* * * * *

§ 192.163 [AMENDED]

■ 12. In § 192.163 paragraph (e), remove the text ''NFPA–70'' and add, in its place, the text ''NFPA 70 (incorporated by reference, *see* § 192.7)''.

§ 192.225 [AMENDED]

■ 13. In § 192.225 paragraph (a), remove the text ''section 5'' and add, in its place, the text ''section 5 (except for Note 2 in section 5.4.2.2)''.

■ 14. Revise § 192.279 to read as follows:

§ 192.279 Copper pipe.

Copper pipe may not be threaded except for copper pipe that is used for joining screw fittings or valves, which may be threaded if the wall thickness is equivalent to the comparable size of Schedule 40 or heavier wall pipe listed in ASME B36.10M (incorporated by reference, *see* § 192.7).

§ 192.714 [AMENDED]

■ 15. Amend § 192.714, by:

■ a. Removing the text ''ASME/ANSI B31.8S'' in paragraph (c), and adding, in its place, the text ''ASME B31.8S'';

■ b. Removing in paragraph (c) the text ''section 7, Figure 4'' and adding, in its place, the text ''Section 7, Figure 7.2.1–1''; and

■ c. Removing in paragraph (d)(1) and (d)(2)(iv), the text ''ASME/ANSI

B31.8S'' and adding, in its place, the text ''ASME/ANSI B31.8S–2004''.

■ 16. In § 192.727 revise paragraph (g)(1) to read as follows:

§ 192.727 Abandonment or deactivation of facilities.

* * * * *

(g) * * *

(1) The preferred method to submit data on pipeline facilities abandoned after October 10, 2000, is to the National Pipeline Mapping System (NPMS) in accordance with the NPMS ''Standards for Pipeline and Liquefied Natural Gas Operator Submissions.'' To obtain a copy of the NPMS Standards, please refer to the NPMS homepage at *www.npms.phmsa.dot.gov.* A digital data format is preferred, but hard copy submissions are acceptable if they comply with the NPMS Standards. In addition to the NPMS-required attributes, operators must submit the date of abandonment, diameter, method of abandonment, and certification that, to the best of the operator's knowledge, all of the reasonably available information requested was provided and, to the best of the operator's knowledge, the abandonment was completed in accordance with applicable laws. Refer to the NPMS Standards for details in preparing your data for submission. The NPMS Standards also include details of how to submit data. Alternatively, operators may submit reports by mail, fax or email to the Office of Pipeline Safety, Pipeline and Hazardous Materials Safety Administration, U.S. Department of Transportation, Information Resources Manager, PHP–10, 1200 New Jersey Avenue SE, Washington, DC 20590–0001; fax (202) 366–4566; email *InformationResourcesManager@dot.gov.* The information in the report must contain all reasonably available information related to the facility, including information in the possession of a third party. The report must contain the location, size, date, method of abandonment, and a certification that the facility has been abandoned in accordance with all applicable laws.

* * * * *

§ 192.903 [AMENDED]

■ 17. Amend the Note to *Potential impact radius* in § 192.903 by removing the term ''ASME/ANSI B31.8S'' and adding in its place the term ''ASME B31.8S''.

§ 192.907 [AMENDED]

■ 18. In § 192.907 paragraph (b), remove the text ''ASME/ANSI B31.8S'' wherever it appears and add, in its place, the text ''ASME B31.8S''.

■ 19. Amend § 192.911 by:

■ a. Removing in the introductory text to § 192.911, paragraphs (i), and (l), the text ''ASME/ANSI B31.8S'' and adding in its place, the text ''ASME B31.8S''; and

■ b. Revising paragraph (m).

The revisions read as follows:

§ 192.911 What are the elements of an integrity management program?

* * * * *

(m) A communication plan that includes the elements of ASME B31.8, Paragraph 850.9 (incorporated by reference, *see* § 192.7), and that includes procedures for addressing safety concerns raised by—

(1) OPS; and

(2) A State or local pipeline safety authority when a covered segment is located in a State where OPS has an interstate agent agreement.

* * * * *

§ 192.917 [AMENDED]

■ 20. Amend § 192.917 by:

■ a. Removing the text ''ASME/ANSI B31.8S'', wherever it appears, and add, in its place, the text ''ASME B31.8S'';

■ b. Removing the paragraph break between the introductory text of paragraph (b) and the undesignated paragraph immediately following;

■ c. Removing in paragraph (e)(1), the text ''Appendix A7'' and adding, in its place, the text ''Appendix A–8''; and

■ d. Removing in paragraph (e)(4), the text ''Appendices A4.3 and A4.4'' and adding, in its place, the text ''Appendices A–5.3 and A–5.4''.

§ 192.921 [AMENDED]

■ 21. In § 192.921 paragraph (a)(2), remove the text ''specified in Table 3 of section 5 of ASME/ANSI'' and add in its place, the text ''specified in Table 5.6.1–1 of Section 5 of ASME''.

§ 192.923 [AMENDED]

■ 22. In § 192.923, amend paragraph (b)(1) by:

■ a. Removing the text ''ASME/ANSI'' and adding, in its place, the text ''ASME''; and

■ b. Removing the text ''section 6.4'' and adding, in its place, the text ''Section 6.4''.

§ 192.925 [AMENDED]

■ 23. In § 192.925, remove the text ''ASME/ANSI B31.8S'', wherever it appears, and add, in its place, the text ''ASME B31.8S''.

§ 192.927 [AMENDED]

■ 24. In § 192.927 paragraph (c)(4)(iii), remove the paragraph break that appears after the text ''risk factors specific to the ICDA region''.

§ 192.933 [AMENDED]

■ 25. Amend § 192.933, by:

■ a. Removing in paragraph (c), the text ''ASME/ANSI B31.8S'' and adding, in its place, the text ''ASME B31.8S'';

■ b. Removing in paragraph (c), the text ''section 7, Figure 4'' and adding, in its place, the text ''Section 7, Figure 7.2.1–1''; and

■ c. Removing in paragraph (d), the text ''ASME/ANSI B31.8S'', wherever it appears, and adding, in its place, the text ''ASME/ANSI B31.8S–2004''.

§ 192.935 [AMENDED]

■ 26. In § 192.935 paragraph (b)(1)(iv), remove the text ''ANSI/ASME'' and add, in its place, the text ''ASME''.

§ 192.937 [AMENDED]

■ 27. In § 192.937 paragraph (c)(2), remove the text ''table 3 of section 5 of ASME/ANSI'' and add, in its place, the text ''Table 5.6.1–1 of Section 5 of ASME''.

§ 192.939 [AMENDED]

■ 28. Amend § 192.939 by:

■ a. Removing in paragraph (a)(1)(ii), the text ''section 5, Table 3'' and adding, in its place, the text ''Table 5.6.1–1 of Section 5''; and

■ b. Removing in paragraph (a)(3), the text ''ASME/ANSI B31.8S, section 5, Table 3'' and adding, in its place, the text ''ASME B31.8S, Table 5.6.1–1 of Section 5''.

Appendix B to Part 192 [Amended]

■ 29. Amend Section I.A. by removing the text ''API Specification for Line Pipe'' and adding in its place, the text ''Line Pipe''.

PART 195—TRANSPORTATION OF HAZARDOUS LIQUIDS BY PIPELINE

■ 30. The authority citation for part 195 continues to read as follows:

Authority: 30 U.S.C. 185(w)(3), 49 U.S.C. 5103, 60101 *et seq,* and 49 CFR 1.97.

■ 31. In § 195.1, revise paragraph (c) to read as follows:

§ 195.1 Which pipelines are covered by this Part?

* * * * *

(c) *Breakout tanks.* Breakout tanks that are subject to this part must comply with requirements that apply specifically to breakout tanks and, to the extent applicable, with requirements that apply to pipeline systems and pipeline facilities. If a conflict exists between a requirement that applies specifically to breakout tanks and a requirement that applies to pipeline systems or pipeline facilities, the

requirement that applies specifically to breakout tanks prevails. Anhydrous ammonia breakout tanks need not comply with §§ 195.132(b); 195.205(b); 195.264(b) and (e); 195.307; 195.428(c) through (d); and 195.432(b) and (c).

■ 32. Amend § 195.3 by:
■ a. Revising paragraph (a), the introductory text of paragraph (b), and paragraphs (b)(1), and (5), (12) through (14), (17) and (18), and (20) and (21);
■ b. Redesignating paragraphs (b)(1) through (23) as set forth in the following table:

Old	New
Paragraph (b)(1)	Paragraph (b)(11).
Paragraph (b)(2) through (11).	Paragraph (b)(1) through (10).
Paragraph (b)(12)	Paragraph (b)(22).
Paragraph (b)(13) through (20).	Paragraph (b)(12) through (19).
Paragraph (b)(21)	Paragraph (b)(21).
Paragraph (b)(22)	Paragraph (b)(23).
Paragraph (b)(23)	Paragraph (b)(20).

■ d. Revising the introductory text of paragraph (c) and paragraphs (c)(3) and (4);
■ e. Revising and republishing paragraph (e);
■ f. Revising paragraph (f), the introductory text of paragraph (g), and paragraph (g)(4); and
■ g. Redesignating paragraphs (f) and (g) as set forth in the following table:

Old	New
Paragraph (f)	Paragraph (g).
Paragraph (g)	Paragraph (f).

The additions and revisions read as follows:

§ 195.3 What documents are incorporated by reference partly or wholly in this part?

(a) Certain material is incorporated by reference into this part with the approval of the Director of the Federal Register under 5 U.S.C. 552(a) and 1 CFR part 51. All approved incorporation by reference (IBR) material is available for inspection at the Pipeline and Hazardous Materials Safety Administration (PHMSA) and at the National Archives and Records Administration (NARA). Contact PHMSA at: Office of Pipeline Safety, Pipeline and Hazardous Materials Safety Administration, 1200 New Jersey Avenue SE, Washington, DC 20590; (202) 366–4046; *www.phmsa.dot.gov/pipeline/regs.* For information on inspecting this material at NARA, visit *www.archives.gov/federal-register/cfr/ibr-locations.html* or email *fr.inspection@nara.gov.* It is also available from the sources in the following paragraphs of this section.

§ 195.5 [AMENDED]

■ 33. In § 195.5 paragraph (a)(1)(i), remove the text ''ASME/ANSI B31.8'' and add, in its place, the text ''ASME B31.8''.

■ 34. In § 195.58, revise paragraph (a) to read as follows:

§ 195.58 Reporting submission requirements.

(a) *General.* Except as provided in paragraphs (b) and (e) of this section, an operator must submit each report required by this part electronically to PHMSA at *https://portal.phmsa.dot.gov* unless an alternative reporting method is authorized in accordance with paragraph (d) of this section.

* * * * *

■ 35. In § 195.59, revise paragraph (a) to read as follows:

§ 195.59 Abandonment or deactivation of facilities.

* * * * *

(a) The preferred method to submit data on pipeline facilities abandoned after October 10, 2000, is to the National Pipeline Mapping System (NPMS) in accordance with the NPMS ''Standards for Pipeline and Liquefied Natural Gas Operator Submissions.'' To obtain a copy of the NPMS standards, please refer to the NPMS homepage at *https://www.npms.phmsa.dot.gov.* A digital data format is preferred, but hard copy submissions are acceptable if they comply with the NPMS Standards. In addition to the NPMS-required attributes, operators must submit the date of abandonment, diameter, method of abandonment, and certification that, to the best of the operator's knowledge, all of the reasonably available information requested was provided and, to the best of the operator's knowledge, the abandonment was completed in accordance with applicable laws. Refer to the NPMS Standards for details in preparing your data for submission. The NPMS Standards also include details of how to submit data. Alternatively, operators may submit reports by mail, fax or email to the Office of Pipeline Safety, Pipeline and Hazardous Materials Safety Administration, U.S. Department of Transportation, Information Resources Manager, PHP–10, 1200 New Jersey Avenue SE, Washington, DC 20590–0001; fax: (202) 366–4566; email: *InformationResourcesManager@dot.gov.* The information in the report must contain all reasonably available information related to the facility, including information in the possession of a third party. The report must contain the location, size, date, method of abandonment, and a certification that the facility has been abandoned in accordance with all applicable laws.

* * * * *

§ 195.106 [AMENDED]

■ 36. In § 195.106, amend paragraphs (b)(1)(i) and (e)(1) by removing the text ''ANSI/API Spec 5L'' and adding, in its place, the text ''API Spec 5L''.

§ 195.110 [AMENDED]

■ 37. In § 195.110 paragraph (a), remove the text ''ASME/ANSI B31.4'' and add, in its place, the words ''ASME B31.4''.

§ 195.116 [AMENDED]

■ 38. In § 195.116 paragraph (d), remove the text ''ANSI/API Spec 6D'' and add, in its place, the text ''API Spec 6D''.

§ 195.214 [AMENDED]

■ 39. In § 195.214 paragraph (a), remove the text ''section 5'' and add, in its place, the text ''section 5 (except for Note 2 in section 5.4.2.2)''.

■ 40. Amend § 195.307 by:

■ a. Revising paragraph (c); and

■ b. Removing in paragraph (d), the text ''API Standard 653'' and adding, in its place, the text ''API Std 653''.

The revision reads as follows:

§ 195.307 Pressure testing aboveground breakout tanks.

* * * * *

(c) For aboveground breakout tanks built to API Std 650 (incorporated by reference, *see* § 195.3) that were first placed into service after October 2, 2000, testing must be conducted in accordance with Sections 7.3.6 and 7.3.7 of API Std 650.

* * * * *

§ 195.405 [AMENDED]

■ 41. In § 195.405 paragraph (b), remove the text ''API Pub 2026'', wherever it appears, and add, in its place, the text ''API RP 2026''.

§ 195.406 [AMENDED]

■ 42. In § 195.406 paragraph (a)(1)(i), remove the text ''ASME/ANSI B31.8'' and add, in its place, the text ''ASME B31.8''.

§ 195.428 [AMENDED]

■ 43. In § 195.428 paragraph (c), remove the text ''API RP 2350'', wherever it appears, and add, in its place, the text ''API Std 2350''.

§ 195.565 [AMENDED]

■ 44. In § 195.565, remove the text ''ANSI/API RP 651'', wherever it appears, and add, in its place, the text ''API RP 651''.

§ 195.588 [AMENDED]

■ 45. In § 195.588 paragraph (c), remove the text ''NACE SP0204–2008'', wherever it appears, and add, in its place, the text ''NACE SP0204''.

Issued in Washington, DC, on April 17, 2024, under authority delegated in 49 CFR 1.97.

Tristan H. Brown,

Deputy Administrator.

BILLING CODE 4910–60–P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 679

[Docket No. 240227–0061; RTID 0648–XD879]

Fisheries of the Exclusive Economic Zone Off Alaska; Gulf of Alaska; Final 2024 and 2025 Harvest Specifications for Groundfish; 2024 Rockfish Program Cooperative Allocations

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule.

SUMMARY: NMFS is providing notification for the Rockfish Program cooperative allocations as described in the final rule that published on March 4, 2024, implementing the final 2024 and 2025 harvest specifications and prohibited species catch limits for the groundfish fishery of the Gulf of Alaska (GOA). These allocations are necessary to provide the Rockfish Program cooperative amounts for 2024, thus allowing commercial fishermen to

maximize their economic opportunities in this fishery. This notification comports with the Fishery Management Plan (FMP) for Groundfish of the GOA (GOA FMP).

DATES: Effective 1,200 hours, Alaska local time (A.l.t.), May 1, 2024, through 1,200 hours, A.l.t., December 31, 2024.

FOR FURTHER INFORMATION CONTACT: Abby Jahn, 907–586–7228.

SUPPLEMENTARY INFORMATION: NMFS manages the groundfish fishery in the GOA exclusive economic zone according to the FMP prepared by the North Pacific Fishery Management Council under authority of the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act). Regulations governing fishing by U.S. vessels in accordance with the FMP appear at subpart H of 50 CFR part 600 and 50 CFR parts 679 and 680.

As described in the final 2024 and 2025 harvest specifications for groundfish of the Gulf of Alaska, allocations among vessels belonging to catcher vessel (CV) cooperatives or catcher/processor (CP) cooperatives are not included in the final harvest specifications (March 4, 2024, 89 FR 15484). Rockfish Program applications for CV cooperatives and CP cooperatives are not due to NMFS until March 1 of each calendar year; therefore, NMFS cannot calculate 2024 and 2025 allocations in conjunction with the final harvest specifications (§ 679.81(f)). NMFS has received the 2024 Rockfish Program applications and has calculated the 2024 allocations for CV cooperatives and CP cooperatives, as set forth in § 679.81(b), (c), and (e). NMFS is listing the 2024 allocations in table 1.

BILLING CODE 3510–22–P

BILLING CODE 3510–22–C

Classification

NMFS issues this action pursuant to section 305(d) of the Magnuson-Stevens Act. Through previous actions, the FMP and regulations are designed to authorize NMFS to take this action. See 50 CFR part 679. This action is exempt from review under Executive Order 12866.

The Assistant Administrator for Fisheries, NOAA, finds good cause to waive the requirement to provide prior notice and opportunity for public comment pursuant to the authority set forth at 5 U.S.C. 553(b)(B), as such requirement is unnecessary and contrary to the public interest. This notification provides information on the 2024 Rockfish Program cooperative allocations, and does not change operating practices in the fisheries. This notification is consistent with the harvest specifications recommended by the North Pacific Fishery Management Council in December 2023 and implemented by NMFS in the final rule for the 2024 and 2025 harvest specifications (89 FR 15484, March 4, 2024). Those harvest specifications specify the final total allowable catch (TAC) limits from which NMFS calculates the Rockfish Program cooperative allocations based on existing regulations, which were implemented through prior notice and comment rulemaking (§ 679.81(b), (c), and (e)). The public was provided with notice and opportunity to comment during the public comment period for the proposed harvest specifications (88 FR 85184, December 7, 2023) and has had notice of the final harvest specifications implementing the final TAC limits (89 FR 15484, March 4, 2024). Because the public already had a meaningful opportunity to comment on the TAC limits from which these allocations are derived, further opportunity for public comment is

unnecessary and would not be meaningful.

This notification announces the Rockfish Program cooperative allocations based on applications received after the publication of the 2024 and 2025 harvest specifications. If this notification is delayed to allow for notice and comment it could also result in confusion for participants in the Rockfish Program given that the final rule implementing the 2024 and 2025 harvest specifications is effective and the Rockfish Program fishery opens May 1, 2024. Therefore, the Assistant Administrator finds good cause to waive the requirement to provide prior notice and opportunity for public comment. For the reasons above, the Assistant Administrator also finds good cause under 5 U.S.C. 553(d)(3) to waive the 30-day delay in effective date and make this rule effective immediately upon publication.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: April 23, 2024.

Everett Wayne Baxter,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

Proposed Rules

Federal Register
Vol. 89, No. 83
Monday, April 29, 2024

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

7 CFR Part 927

[Doc. No. AMS–SC–22–0079]

Pears Grown in Oregon and Washington; Amendment to the Marketing Order

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Proposed rule and referendum order.

SUMMARY: This rulemaking proposes an amendment to Marketing Order No. 927, which regulates the handling of pears grown in Oregon and Washington. The proposed amendment would revise the Fresh Pear Committee's approval requirement for recommending modifications to the marketing order's fresh pear handling regulations from 80 to 75 percent.

DATES: The referendum will be conducted from May 13 through May 27, 2024. Only pear growers who grew pears within the designated production area during the period July 1, 2022, through June 30, 2023, are eligible to vote in this referendum.

ADDRESSES: Interested persons with questions and comments are invited to submit written questions and comments to the Docket Clerk, Market Development Division, Specialty Crops Program, AMS, USDA, 1400 Independence Avenue SW, STOP 0237, Washington, DC 20250–0237; or Telephone: (202) 720–8085.

FOR FURTHER INFORMATION CONTACT: Geronimo Quinones, Marketing Specialist, or Matthew Pavone, Chief, Rulemaking Services Branch, Market Development Division, Specialty Crops Program, AMS, USDA, 1400 Independence Avenue SW, Stop 0237, Washington, DC 20250–0237; Telephone: (202) 720–8085, or Email: *Geronimo.Quinones@usda.gov* or *Matthew.Pavone@usda.gov.*

Small businesses may request information on complying with this regulation by contacting Richard Lower, Market Development Division, Specialty Crops Program, AMS, USDA, 1400 Independence Avenue SW, STOP 0237, Washington, DC 20250–0237; Telephone: (202) 720–8085, or Email: *Richard.Lower@usda.gov.*

SUPPLEMENTARY INFORMATION: This action, pursuant to 5 U.S.C. 553, proposes to amend regulations issued to carry out a marketing order as defined in 7 CFR 900.2(j). This proposal is issued under Marketing Order No. 927, as amended (7 CFR part 927), regulating the handling of pears grown in Oregon and Washington. Part 927 referred to as the ''Order'' is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), hereinafter referred to as the ''Act.'' The Committee locally administers the Order and is comprised of growers and handlers of pears operating within the area of production.

The Agricultural Marketing Service (AMS) is issuing this proposed rule in conformance with Executive Orders 12866, 13563, and 14094. Executive Orders 12866 and 13563 direct agencies to assess all costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits (including potential economic, environmental, public health and safety effects, distributive impacts, and equity). Executive Order 13563 emphasizes the importance of quantifying both costs and benefits, reducing costs, harmonizing rules, and promoting flexibility. Executive Order 14094 reaffirms, supplements, and updates Executive Order 12866 and further directs agencies to solicit and consider input from a wide range of affected and interested parties through a variety of means. This action falls within a category of regulatory actions that the Office of Management and Budget (OMB) exempted from Executive Order 12866 review.

This proposed rule has been reviewed under Executive Order 13175—Consultation and Coordination with Indian Tribal Governments, which requires agencies to consider whether their rulemaking actions would have Tribal implications. AMS has determined this proposed rule is unlikely to have substantial direct effects on one or more Indian Tribes, on the relationship between the Federal Government and Indian Tribes, or on the distribution of power and responsibilities between the Federal Government and Indian Tribes.

This proposed rule has been reviewed under Executive Order 12988, Civil Justice Reform. This rule shall not be deemed to preclude, preempt, or supersede any State program covering pears grown in Oregon and Washington.

The Act provides that administrative proceedings must be exhausted before parties may file suit in court. Under sec. 8c(15)(A) of the Act (7 U.S.C. 608c(15)(A)), any handler subject to an order may file with the U.S. Department of Agriculture (USDA) a petition stating that the order, any provision of the order, or any obligation imposed in connection with the order is not in accordance with law and request a modification of the order or to be exempted therefrom. A handler is afforded the opportunity for a hearing on the petition. After the hearing, USDA would rule on the petition. The Act provides that the district court of the United States in any district in which the handler is an inhabitant, or has his or her principal place of business, has jurisdiction to review USDA's ruling on the petition, provided an action is filed no later than 20 days after the date of entry of the ruling.

Section 1504 of the Food, Conservation, and Energy Act of 2008 (2008 Farm Bill) (Pub. L. 110–246) amended sec. 8c(17) of the Act, which in turn required the addition of supplemental rules of practice to 7 CFR part 900 (73 FR 49307; August 21, 2008). The amendment of sec. 8c(17) of the Act and the supplemental rules of practice authorize the use of informal rulemaking (5 U.S.C. 553) to amend Federal fruit, vegetable, and nut marketing agreements and orders. USDA may use informal rulemaking to amend marketing orders depending upon the nature and complexity of the proposed amendment, the potential regulatory and economic impacts on affected entities, and any other relevant matters.

AMS has considered these factors and has determined that the amendment proposed herein is not unduly complex and the nature of the proposed amendment is appropriate for utilizing the informal rulemaking process to amend the Order. This proposed rule

would revise the approval requirement for recommending modifications to the Order's fresh pear handling regulations. A discussion of the potential regulatory and economic impacts on affected entities is discussed later in the ''Final Regulatory Flexibility Analysis'' section of this proposed rule. The amendment would apply equally to all producers and handlers, regardless of size. The proposed amendment also has no additional impact on the reporting, record-keeping, or compliance costs of small businesses.

The Committee recommended the proposed amendment to the Order following deliberations at a public meeting held on June 2, 2022. The Committee recommended this change by vote of nine in favor and two opposed, with one abstention. The two opposing voters did not feel the proposed change was necessary, and the abstention voter wanted an even lower voter approval requirement. The Committee submitted its formal recommendation to amend the Order through the informal rulemaking process on August 23, 2022, and subsequently provided AMS clarification about the recommendation on December 1, 2022.

A proposed rule soliciting public comments on the proposed amendment was published in the **Federal Register** on October 10, 2023 (88 FR 69888). AMS received one comment—supporting the proposed rule. Based on all the information available to AMS at this time, including the comment received in response to the proposed rule, no substantive changes will be made to the proposed amendment.

AMS will conduct a producer referendum to determine support for the proposed amendment. If appropriate, a final rule will then be issued to effectuate the amendment, if it is favored by producers in the referendum.

Proposal—Prerequisites to Recommendations

Currently, §§ 927.33(a) and 927.52(a) of the Order provide that all decisions of the Committee require a supporting vote of 75 percent or greater; except that a decision to recommend changes to the regulations concerning the shipment of fresh pears requires a supporting vote of 80 percent or greater. The voting requirements in § 927.52 of the Order utilize a weighted calculation of votes based on the handling of specific pear varieties. The Committee recommended modifying the current 80 percent voting requirement to 75 percent to align these voting requirements, mitigate confusion, and simplify the Order.

In 2020, the Committee recommended a regulation change for the Anjou pear variety in three separate motions, each receiving a separate vote. A subcommittee was then formed to investigate how the proposed modification to the voting requirement might have affected the 2020 voting outcomes. The subcommittee analyzed the three motions by comparing each voting outcome at 75- and 80-percent concurrence requirement levels. Of the three, two motions did not have enough Committee support at either voting level and received only 52 percent and 66 percent of the vote, respectively. The third motion for the regulation change received 86 percent affirmative support by vote. Therefore, the subcommittee concluded that changing the requirement to 75 percent would not have altered the outcome of those votes.

While a majority of the Committee believes the current 80-percent voter affirmation requirement is too high, two members believe the change to 75 percent is not necessary, and one member believes the change is not impactful enough.

The Committee considered alternatives, including a 70-percent requirement. However, after running simulations with historical data to assess the impact of a 70- or 75-percent requirement, the Committee determined 75 percent to be optimal in that it did not materially affect vote outcomes for recommendations. Additionally, the adjustment from an 80- to 75-percent voting requirement establishes regulatory consistency with other Committee recommendations that have a 75-percent voting requirement. As such, the Committee believes this proposal would provide more continuity to all Committee voting procedures without materially changing voting outcomes, thereby mitigating confusion and improving the efficiency of its operations.

Final Regulatory Flexibility Analysis

Pursuant to requirements set forth in the Regulatory Flexibility Act (RFA) (5 U.S.C. 601–612), AMS has considered the economic impact of this action on small entities. Accordingly, AMS has prepared this final regulatory flexibility analysis.

The purpose of the RFA is to fit regulatory actions to the scale of businesses subject to such actions in order that small businesses will not be unduly or disproportionately burdened. Marketing orders issued pursuant to the Act are unique in that they are brought about through group action of essentially small entities acting on their own behalf.

There are approximately 708 growers of fresh pears in the production area and 27 handlers subject to regulation under the Order. At the time this analysis was prepared, small agricultural producers of pears were defined by the Small Business Administration as those having annual receipts equal to or less than $3,500,000 (North American Industry Classification System code 111339, Other Noncitrus Fruit Farming), and small agricultural service firms were defined as those whose annual receipts are equal to or less than $34,000,000 (North American Industry Classification System Code 115114, Postharvest Crop Activities) (13 CFR 121.201).

According to the National Agricultural Statistics Service (NASS), the 2020 average grower price received for fresh pears produced in Oregon and Washington was $11.39 per 44-pound standard box or equivalent. Committee data indicates total production was 16,290,225 44-pound standard boxes or equivalent in the 2019–20 fiscal period. The total 2019–20 fiscal period value of assessable fresh ''summer/fall'' and ''winter'' pears grown in Oregon and Washington was $185,545,663 (16,290,225 44-pound standard boxes or equivalent multiplied by $11.39 per box equals $185,545,663). Dividing the crop value by the estimated number of growers (708), yields an estimated average receipt per grower of $262,070.

According to USDA Market News data, the reported average terminal price for 2020 Oregon and Washington fresh pears was $34.87 per 44-pound standard box or equivalent (data reported in 4/5 bushel). Multiplying the Committee-reported 2019–20 Oregon and Washington total production of 16,290,225 44-pound standard boxes or equivalent by the estimated average price per box or equivalent of $34.87 equals $568,040,146. Dividing this figure by 27 regulated handlers yields estimated average annual handler receipts of $21,038,524.

Therefore, using the above data, the majority of growers and handlers of Oregon and Washington fresh pears may be classified as small entities.

This proposed rule would revise a provision in the Order's subpart regulating handling of pears grown in Oregon and Washington. This proposal would align the approval requirement for recommending modifications to the Order's fresh pear handling regulations, which is 80 percent, with all other Committee voting requirements within the Order. Currently, all other Committee recommendations require 75 percent concurrence. The different voting requirements sometimes result in

confusion for some Committee members, which can disrupt Committee operations.

The proposed amendment has no anticipated impact on the reporting, record-keeping, or compliance costs of small businesses.

The proposed amendment would not directly increase or decrease costs to members of the pear industry.

Alternatives to the proposed amendment were considered, including making no changes at this time. However, the Committee believes it is necessary to bring all voting requirements in-line for clarity and understanding to ensure the efficient execution of the Order.

Paperwork Reduction Act

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the Order's information collection requirements have been previously approved by OMB and assigned OMB No. 0581–0189, Fruit Crops. No changes in those requirements are necessary because of this action. Should any changes become necessary, they would be submitted to OMB for approval.

This proposed rule would impose no additional reporting or recordkeeping requirements on either small or large pear handlers. As with all Federal marketing order programs, reports and forms are periodically reviewed to reduce information requirements and duplication by industry and public-sector agencies.

AMS is committed to complying with the E-Government Act, to promote the use of the internet and other information technologies to provide increased opportunities for citizen access to Government information and services, and for other purposes.

USDA has not identified any relevant Federal rules that duplicate, overlap, or conflict with this action.

The Committee's meetings are widely publicized throughout the pear production area. All interested persons are invited to attend the meetings and encouraged to participate in Committee deliberations on all issues. Like all Committee meetings, the meeting held on June 2, 2022, was open to the public, and all entities, both large and small, were encouraged to express their views on the proposed amendment.

A proposed rule concerning this action published in the **Federal Register** on October 10, 2023 (88 FR 69888). A copy of the rule was sent via email to Committee staff for distribution to all Committee members and Oregon and Washington pear growers and handlers. The proposed rule was also made available by USDA through the internet and the Office of the Federal Register. A 60-day comment period ending December 11, 2023, was provided to allow interested persons to respond to the proposals. AMS received one comment—supportive of the proposed amendment—during the comment period. Based on all the information available to AMS at this time, including the comment received in response to the proposed rule, no substantive changes will be made to the amendment as proposed.

A small business guide on complying with fruit, vegetable, and specialty crop marketing agreements and orders may be viewed at: *https://www.ams.usda.gov/rules-regulations/moa/small-businesses.* Any questions about the compliance guide should be sent to Richard Lower at the previously mentioned address in the **FOR FURTHER INFORMATION CONTACT** section.

Findings and Conclusions

AMS has determined that the findings and conclusions, and general findings and determinations included in the proposed rule set forth in the October 10, 2023, issue of the **Federal Register** (88 FR 69888) are appropriate and necessary and are hereby approved and adopted.

Marketing Order

Annexed hereto and made a part hereof is the document entitled, ''Order Amending the Order Regulating the Handling Pears Grown in Oregon and Washington.'' This document has been decided upon as the detailed and appropriate means of effectuating the foregoing findings and conclusions. It is hereby ordered that this entire proposed rule be published in the **Federal Register**.

Referendum Order

It is hereby directed that a referendum be conducted in accordance with the procedure for the conduct of referenda (7 CFR 900.400–407) to determine whether the annexed order amending the Order regulating the handling of pears grown in Oregon and Washington is approved by growers, as defined under the terms of the Order, who during the representative period were engaged in the production of pears in the production area. The representative period for the conduct of such referendum is hereby determined to be July 1, 2022, through June 30, 2023.

The agents designated by the Secretary to conduct the referendum are Josh Wilde and Barry Broadbent, West Region Branch, Market Development Division, Specialty Crops Program, AMS, USDA; Telephone: (863) 324–3375, Fax: (863) 291–8614, or Email: *Joshua.R.Wilde@usda.gov* and *Barry.Broadbent@usda.gov,* respectively.

Order Amending the Order Regulating the Handling of Pears Grown in Oregon and Washington [1]

Findings and Determinations

The findings and determinations hereinafter set forth are supplementary to the findings and determinations which were previously made in connection with the issuance of Marketing Order 927; and all said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

1. Marketing Order 927 as hereby proposed to be amended and all the terms and conditions thereof, would tend to effectuate the declared policy of the Act;

2. Marketing Order 927 as hereby proposed to be amended regulates the handling of pears grown in Oregon and Washington and is applicable only to persons in the respective classes of commercial and industrial activity specified in the Order;

3. Marketing Order 927 as hereby proposed to be amended is limited in application to the smallest regional production area that is practicable, consistent with carrying out the declared policy of the Act, and the issuance of several marketing orders applicable to subdivisions of the production area would not effectively carry out the declared policy of the Act;

4. Marketing Order 927 as hereby proposed to be amended prescribes, insofar as practicable, such different terms applicable to different parts of the production area as are necessary to give due recognition to the differences in the production and marketing of pears produced or packed in the production area; and

5. All handling of pears grown or handled in the production area, as defined in Marketing Order 927 is in the current of interstate or foreign commerce or directly burdens, obstructs, or affects such commerce.

Order Relative to Handling

It is therefore ordered, that on and after the effective date hereof, all

[1] This order shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders have been met.

handling of pears grown in Oregon and Washington shall be in conformity to, and in compliance with, the terms and conditions of the said Order as hereby proposed to be amended as follows:

The provisions of the proposed marketing order amending the Order contained in the proposed rule issued by the Administrator and published in the **Federal Register** (88 FR 69888) on October 10, 2023, will be and are the terms and provisions of this order amending the Order and are set forth in full herein.

List of Subjects in 7 CFR Part 927

Marketing agreements, Pears, Reporting and recordkeeping requirements.

For the reasons set forth in the preamble, the AMS proposes to amend 7 CFR part 927 as follows:

PART 927—PEARS GROWN IN OREGON AND WASHINGTON

■ 1. The authority citation for 7 CFR part 927 continues to read as follows:

Authority: 7 U.S.C. 601–674.

■ 2. Amend § 927.52 by revising paragraph (a) to read as follows:

§ 927.52 Prerequisites to recommendations.

(a) Decisions of the Fresh Pear Committee or the Processed Pear Committee with respect to any recommendations to the Secretary pursuant to the establishment or modification of a supplemental rate of assessment for an individual variety or subvariety of pears shall be made by affirmative vote of not less than 75 percent of the applicable total number of votes, computed in the manner described in paragraph (b) of this section, of all members. Decisions of the Fresh Pear Committee pursuant to the provisions of § 927.50 shall be made by an affirmative vote of not less than 75 percent of the applicable total number of votes, computed in the manner prescribed in paragraph (b) of this section, of all members.

* * * * *

Erin Morris,

Associate Administrator, Agricultural Marketing Service.

BILLING CODE P

NUCLEAR REGULATORY COMMISSION

10 CFR Part 72

[NRC–2024–0034]

RIN 3150–AL07

List of Approved Spent Fuel Storage Casks: NAC International, Inc., NAC–UMS Universal Storage System, Certificate of Compliance No. 1015, Renewal of Initial Certificate and Amendment Nos. 1 Through 9

AGENCY: Nuclear Regulatory Commission.

ACTION: Proposed rule.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) is proposing to amend its spent fuel storage regulations by revising the NAC International, Inc., NAC–UMS Universal Storage System listing within the ''List of approved spent fuel storage casks'' to renew the initial certificate and Amendment Nos. 1 through 9 of Certificate of Compliance No. 1015. The renewal of the initial certificate of compliance and Amendment Nos. 1 through 9 for 40 years changes the certificate's conditions and technical specifications to address aging management activities related to the structures, systems, and components important to safety of the dry storage system to ensure that these will maintain their intended functions during the period of extended storage operations.

DATES: Submit comments by May 29, 2024. Comments received after this date will be considered if it is practical to do so, but the NRC is able to ensure consideration only for comments received on or before this date.

ADDRESSES: Submit your comments, identified by Docket ID NRC–2024–0034, at *https://www.regulations.gov.* If your material cannot be submitted using *https://www.regulations.gov,* call or email the individuals listed in the **FOR FURTHER INFORMATION CONTACT** section of this document for alternate instructions.

You can read a plain language description of this proposed rule at *https://www.regulations.gov/docket/NRC-2024-0034.* For additional direction on obtaining information and submitting comments, see ''Obtaining Information and Submitting Comments'' in the **SUPPLEMENTARY INFORMATION** section of this document.

FOR FURTHER INFORMATION CONTACT: Christopher Markley, Office of Nuclear Material Safety and Safeguards; telephone: 301–415–6293, email: *Christopher.Markley@nrc.gov* and Greg Trussell, Office of Nuclear Material Safety and Safeguards, telephone: 301–415–6244, email: *Gregory.Trussell@nrc.gov.* Both are staff of the U.S. Nuclear Regulatory Commission, Washington, DC 20555–0001.

SUPPLEMENTARY INFORMATION:

Table of Contents

I. Obtaining Information and Submitting Comments

A. Obtaining Information

Please refer to Docket ID NRC–2024–0034, when contacting the NRC about the availability of information for this action. You may obtain publicly available information related to this action by any of the following methods:

- *Federal Rulemaking website:* Go to *https://www.regulations.gov* and search for Docket ID NRC–2024–0034. Address questions about NRC dockets to Helen Chang, telephone: 301–415–3228, email: *Helen.Chang@nrc.gov.* For technical questions contact the individual listed in the **FOR FURTHER INFORMATION CONTACT** section of this document.
- *NRC's Agencywide Documents Access and Management System (ADAMS):* You may obtain publicly available documents online in the ADAMS Public Documents collection at *https://www.nrc.gov/reading-rm/adams.html.* To begin the search, select ''Begin Web-based ADAMS Search.'' For problems with ADAMS, please contact the NRC's Public Document Room (PDR) reference staff at 1–800–397–4209, 301–415–4737, or by email to *PDR.Resource@nrc.gov.* For the convenience of the reader, instructions about obtaining materials referenced in this document are provided in the ''Availability of Documents'' section.
- *NRC's PDR:* The PDR, where you may examine and order copies of publicly available documents, is open by appointment. To make an appointment to visit the PDR, please send an email to *PDR.Resource@nrc.gov* or call 1–800–397–4209 or 301–415–4737, between 8 a.m. and 4 p.m. eastern time, Monday through Friday, except Federal holidays.

B. Submitting Comments

The NRC encourages electronic comment submission through the Federal rulemaking website (*https://www.regulations.gov*). Please include Docket ID NRC–2024–0034 in your comment submission.

The NRC cautions you not to include identifying or contact information that you do not want to be publicly disclosed in your comment submission. The NRC will post all comment submissions at *https://www.regulations.gov* as well as enter the comment submissions into ADAMS. The NRC does not routinely edit comment submissions to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for submission to the NRC, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that the NRC does not routinely edit comment submissions to remove such information before making the comment submissions available to the public or entering the comment into ADAMS.

II. Rulemaking Procedure

Because the NRC considers this action to be non-controversial, the NRC is publishing this proposed rule concurrently with a direct final rule in the Rules and Regulations section of this issue of the **Federal Register**. The direct final rule will become effective on July 15, 2024. However, if the NRC receives any significant adverse comment by May 29, 2024, then the NRC will publish a document that withdraws the direct final rule. If the direct final rule is withdrawn, the NRC will address the comments in a subsequent final rule. In general, absent significant modifications to the proposed revisions requiring republication, the NRC will not initiate a second comment period on this action in the event the direct final rule is withdrawn.

A significant adverse comment is a comment where the commenter explains why the rule would be inappropriate, including challenges to the rule's underlying premise or approach, or would be ineffective or unacceptable without a change. A comment is adverse and significant if:

(1) The comment opposes the rule and provides a reason sufficient to require a substantive response in a notice-and-comment process. For example, a substantive response is required when:

(a) The comment causes the NRC to reevaluate (or reconsider) its position or conduct additional analysis;

(b) The comment raises an issue serious enough to warrant a substantive response to clarify or complete the record; or

(c) The comment raises a relevant issue that was not previously addressed or considered by the NRC.

(2) The comment proposes a change or an addition to the rule, and it is apparent that the rule would be ineffective or unacceptable without incorporation of the change or addition.

(3) The comment causes the NRC to make a change (other than editorial) to the rule.

For a more detailed discussion of the proposed rule changes and associated analyses, see the direct final rule published in the Rules and Regulations section of this issue of the **Federal Register**.

III. Background

Section 218(a) of the Nuclear Waste Policy Act of 1982, as amended, requires that ''[t]he Secretary [of the Department of Energy] shall establish a demonstration program, in cooperation with the private sector, for the dry storage of spent nuclear fuel at civilian nuclear power reactor sites, with the objective of establishing one or more technologies that the [Nuclear Regulatory] Commission may, by rule, approve for use at the sites of civilian nuclear power reactors without, to the maximum extent practicable, the need for additional site-specific approvals by the Commission.'' Section 133 of the Nuclear Waste Policy Act states, in part, that ''[t]he Commission shall, by rule, establish procedures for the licensing of any technology approved by the Commission under Section 219(a) [sic: 218(a)] for use at the site of any civilian nuclear power reactor.''

To implement this mandate, the Commission approved dry storage of spent nuclear fuel in NRC-approved casks under a general license by publishing a final rule that added a new subpart K in part 72 of title 10 of the *Code of Federal Regulations* (10 CFR) entitled ''General License for Storage of Spent Fuel at Power Reactor Sites'' (55 FR 29181; July 18, 1990). This rule also established a new subpart L in 10 CFR part 72 entitled ''Approval of Spent Fuel Storage Casks,'' which contains procedures and criteria for obtaining NRC approval of spent fuel storage cask designs. The NRC subsequently issued a final rule on October 19, 2000 (65 FR 62581), that approved the NAC–UMS Universal Storage System design and added it to the list of NRC-approved cask designs in § 72.214 as Certificate of Compliance (CoC) No. 1015.

On August 28, 2007 (72 FR 49352), the NRC amended the scope of the general licenses issued under 10 CFR 72.210 to include the storage of spent fuel in an independent spent fuel storage installations (ISFSI) at power reactor sites to persons authorized to possess or operate nuclear power reactors under 10 CFR part 52. On February 16, 2011 (76 FR 8872), the NRC amended subparts K and L in 10 CFR part 72, to extend and clarify the term limits for certificates of compliance and to revise the conditions for spent fuel storage cask renewals, including adding requirements for the safety analysis report to include time-limited aging analyses and a description of aging management programs. The NRC also clarified the terminology used in the regulations to use ''renewal'' rather than ''reapproval'' to better reflect that extending the term of a currently approved cask design is based on the cask design standards in effect at the time the CoC was approved rather than current standards.

IV. Plain Writing

The Plain Writing Act of 2010 (Pub. L. 111–274) requires Federal agencies to write documents in a clear, concise, well-organized manner. The NRC has written this document to be consistent with the Plain Writing Act as well as the Presidential Memorandum, ''Plain Language in Government Writing,'' published June 10, 1998 (63 FR 31885). The NRC requests comment on the proposed rule with respect to clarity and effectiveness of the language used.

V. Availability of Documents

[Docket No. FAA–2023–1488; Project Identifier AD–2023–00182–T]

RIN 2120–AA64

Airworthiness Directives; The Boeing Company Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Supplemental notice of proposed rulemaking (SNPRM).

SUMMARY: The FAA is revising a notice of proposed rulemaking (NPRM) that applied to certain The Boeing Company Model 757–200, –200CB, and –200PF series airplanes. This action revises the NPRM by adding airplanes to the applicability. The FAA is proposing this airworthiness directive (AD) to address the unsafe condition on these products. Since these actions would impose an additional burden over that in the NPRM, the FAA is requesting comments on this SNPRM.

DATES: The FAA must receive comments on this SNPRM by June 13, 2024.

ADDRESSES: You may send comments, using the procedures found in 14 CFR 11.43 and 11.45, by any of the following methods:

- *Federal eRulemaking Portal:* Go to *regulations.gov.* Follow the instructions for submitting comments.
- *Fax:* 202–493–2251.
- *Mail:* U.S. Department of Transportation, Docket Operations, M–30, West Building Ground Floor, Room W12–140, 1200 New Jersey Avenue SE, Washington, DC 20590.
- *Hand Delivery:* Deliver to Mail address above between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

AD Docket: You may examine the AD docket at *regulations.gov* under Docket No. FAA–2023–1488; or in person at Docket Operations between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays. The AD docket contains this SNPRM, any comments received, and other information. The street address for Docket Operations is listed above.

Material Incorporated by Reference:

- For service information identified in this SNPRM, contact Boeing Commercial Airplanes, Attention: Contractual & Data Services (C&DS), 2600 Westminster Blvd., MC 110–SK57, Seal Beach, CA 90740–5600; telephone 562–797–1717; website *myboeingfleet.com.*
- You may view this service information at the FAA, Airworthiness Products Section, Operational Safety Branch, 2200 South 216th St., Des Moines, WA. For information on the availability of this material at the FAA, call 206–231–3195. It is also available at *regulations.gov* by searching for and locating Docket No. FAA–2023–1488.

FOR FURTHER INFORMATION CONTACT: Wayne Ha, Aviation Safety Engineer, FAA, 2200 South 216th Street, Des Moines, WA 98198; phone: 562–627–5238; email: *wayne.ha@faa.gov.*

SUPPLEMENTARY INFORMATION:

Comments Invited

The FAA invites you to send any written relevant data, views, or arguments about this proposal. Send your comments to an address listed under **ADDRESSES**. Include ''Docket No. FAA–2023–1488; Project Identifier AD–2023–00182–T'' at the beginning of your comments. The most helpful comments reference a specific portion of the proposal, explain the reason for any recommended change, and include supporting data. The FAA will consider all comments received by the closing date and may again revise this proposal because of those comments.

Except for Confidential Business Information (CBI) as described in the following paragraph, and other information as described in 14 CFR 11.35, the FAA will post all comments received, without change, to *regulations.gov,* including any personal information you provide. The agency will also post a report summarizing each substantive verbal contact received about this proposed AD.

Confidential Business Information

CBI is commercial or financial information that is both customarily and actually treated as private by its owner. Under the Freedom of Information Act (FOIA) (5 U.S.C. 552), CBI is exempt from public disclosure. If your comments responsive to this SNPRM contain commercial or financial information that is customarily treated as private, that you actually treat as private, and that is relevant or responsive to this SNPRM, it is important that you clearly designate the submitted comments as CBI. Please mark each page of your submission containing CBI as ''PROPIN.'' The FAA will treat such marked submissions as confidential under the FOIA, and they will not be placed in the public docket of this SNPRM. Submissions containing CBI should be sent to Wayne Ha, Aviation Safety Engineer, FAA, 2200 South 216th Street, Des Moines, WA 98198; phone: 562–627–5238; email: *wayne.ha@faa.gov.* Any commentary that the FAA receives that is not specifically designated as CBI will be placed in the public docket for this rulemaking.

Background

The FAA issued an NPRM to amend 14 CFR part 39 by adding an AD that would apply to The Boeing Company Model 757–200, –200CB, and –200PF series airplanes. The NPRM published in the **Federal Register** on August 4, 2023 (88 FR 51745). The NPRM was prompted by a report of cracks found at the main deck cargo door cutout forward and aft hinge attachment holes. In the NPRM, the FAA proposed to require a maintenance record check for repairs at the forward and aft hinge areas of the main deck cargo door cutout; repetitive open-hole high frequency eddy current (HFEC) inspections for cracks in the unrepaired areas of the bear strap, skin, doubler, and upper sill chord at the main deck cargo door forward and aft hinge attachment holes; and corrective actions including obtaining and following procedures for alternative inspections and crack repairs.

Actions Since the NPRM Was Issued

Since the FAA issued the NPRM, the FAA determined that airplanes that have been modified from a passenger to a freighter configuration using VT Mobile Aerospace Engineering (VT MAE) Supplemental Type Certificate (STC) ST03562AT, ST03952AT, or ST04242AT were inadvertently omitted in the NPRM.

Comments

The FAA received comments from VT MAE, FedEx Express (FedEx), United Parcel Service (UPS), Boeing, Aviation Partners Boeing (APB), and two individuals. The following presents the comments received on the NPRM and the FAA's response to each comment.

Effect of Winglets on Accomplishment of the Proposed Actions

APB stated that accomplishing STC ST01518SE on 757–200 passenger airplanes that have been converted to freighters using Boeing STC ST00916WI–D does not affect the actions specified in the proposed rule.

The FAA agrees with the commenter. The FAA has redesignated paragraph (c) of the proposed AD as paragraph (c)(1) of this proposed AD and added paragraph (c)(2) of this proposed AD to state that installation of STC ST01518SE does not affect the ability to accomplish the actions required by this proposed AD. Therefore, for airplanes on which APB STC ST01518SE is installed, a ''change in product'' alternative method of compliance (AMOC) approval request is not necessary to comply with the requirements of 14 CFR 39.17.

Request To Add Actions for Certain Airplanes

FedEx asked for clarification regarding what actions should be done on its fleet. FedEx noted that its airplanes were converted to freighters using VT MAE STC ST03562AT and were not included in the proposed AD due to this conversion. FedEx stated that the intent of the proposed AD applies to its fleet since the STC is based on the design of Boeing 757–200 special freighter (SF) airplanes. VT MAE noted that the installation of the main deck cargo door hinge using VT MAE STCs ST03562AT, ST03952A, and ST04242AT is identical to Boeing 757–200 SF airplanes (those converted using Boeing STC ST00916WI–D). FedEx and VT MAE proposed to use the actions and compliance times specified for Group 2 airplanes as identified in Boeing Alert Requirements Bulletin 757–53A0106 RB, dated January 3, 2023, for airplanes modified under one of the specified VT MAE STCs. The commenters noted that this would include an initial action time related to the time since the aircraft was converted to a freighter.

The FAA agrees that the 757–200 airplanes that have been modified under VT MAE STCs ST03562AT, ST03952AT, and ST04242AT are affected by the identified unsafe condition and has revised paragraph (c)(1) of this proposed AD to include airplanes modified using those STCs. At this time, whether the VT MAE and Boeing STCs are identical in the areas affected by this proposed AD or using the compliance methods and times for Group 2 airplanes adequately addresses the identified unsafe condition has not been determined. Therefore, the FAA has redesignated paragraph (g) of the proposed AD as paragraph (g)(1) of this proposed AD and added paragraph (g)(2) of this proposed AD to specify the applicable compliance times and actions for those airplanes. However, under the provisions of paragraph (i) of this AD, the FAA will consider requests for alternative compliance times or methods if sufficient data are provided to substantiate the request. The FAA is seeking comments on the applicable compliance time and actions for airplanes modified with one of the identified VT MAE STCs. The applicable compliance times and actions for those airplanes may change depending upon comments and data the FAA may receive and review.

Request for Additional Information on Requirements and Unsafe Condition

Two individuals requested that the proposed AD specify the location and size of the liner holes that need to be inspected, as well as the acceptable tolerance for the hole diameter and the plug fit; guidance on how to repair cracks if they are found, such as the type and size of the fasteners, sealants, and patches to be used; a compliance time for the inspections and repairs, based on the number of flight cycles and flight hours of the airplane; and the reason for the unplugged liner holes and how they cause stress concentration and cracks. The commenters stated that this information would help operators to perform the inspections more accurately and consistently, ensure that the repairs are done in accordance with the Boeing standards and specifications, prioritize the most critical aircraft while preventing further crack propagation, and educate operators and maintenance personnel on how to prevent the problem.

The FAA agrees to clarify. The inspection requirements, compliance times, and repair instructions are addressed in Boeing Alert Requirements Bulletin 757–53A0106 RB, dated January 3, 2023, which is mandated by paragraph (g) of this proposed AD. This service information is available in the docket for interested parties. Additionally, the NPRM provided details on the cause of the identified unsafe condition and how to address it. No change is necessary to this proposed AD.

Request To Require Replacement of Skin Panel Under Certain Conditions

The individual commenters suggested that the proposed AD should specify that if the cracks exceed a specified maximum allowable length or maximum allowable width, as specified in the Boeing 757 Structural Repair Manual, then the affected area must be replaced with a new section of skin panel. The commenters added that the replacement procedure must follow any instructions and drawings provided by Boeing, the new section must be inspected for proper installation and fit, and the replacement must be done before further flight. One individual stated that the repair should be universal for all affected models.

The FAA does not agree with the commenters' request. If any crack is found, this proposed AD requires repairing it; there is no maximum allowable length or width for cracking. The crack repair instructions are addressed in Boeing Alert Requirements Bulletin 757–53A0106 RB, dated January 3, 2023, which is required by paragraph (g) of this proposed AD. If an operator finds any cracks, they must follow the procedures outlined in paragraph (h)(2) of this proposed AD to obtain customized repair instructions. No change is necessary to this proposed AD.

Request To Clarify Repairs Requiring Additional Actions

UPS requested that the FAA clarify the proposed AD regarding the repairs found during the required maintenance record check. UPS noted that Boeing Alert Requirements Bulletin 757–53A0106 RB, dated January 3, 2023, requires a maintenance record check for ''any repair'' at the forward and aft hinge areas of the main deck cargo door cutout. UPS stated that Boeing 757–200PF Structural Repair Manual (SRM) 53–00–01–1A–1 allows for smooth dents, edge and surface blends, and rivet plugging of lightning strike or small hole damage in accordance with SRM 53–00–01–2R–6. UPS added that rivet plugs using solid rivets are a Category A repair with no supplemental inspections, so any repairs within the SRM allowable limits and small damage repair do not appreciably affect damage tolerance of the fuselage skin at the door cutout and surround structure. Additionally, UPS noted the potential for non-reinforcing repairs (dents, blends, etc.) that are beyond SRM allowable limits but approved by Boeing to remain as-is without supplemental inspections. UPS stated that it believes the intent of the maintenance record check is to identify and report existing reinforcing and freeze plug repairs in the inspection areas that may affect damage tolerance of the skin and door surround structure. UPS added that Boeing confirmed this intent in Boeing Message SRID 4–5882455484. UPS therefore requested that the proposed

AD be revised to require using ''any reinforcing or freeze plug repair'' in lieu of ''any repair.''

The FAA does not agree with the commenter's request. The FAA has no way of knowing the type or extent of repairs that might be on a given airplane or how those repairs would impact the actions required by this AD. Therefore, any existing repair, including any non-reinforced repair, needs to be evaluated for any potential effect on the inspection requirements. No change is necessary to this proposed AD.

Request To Revise Certain Wording

Boeing requested the FAA to revise the Background section and paragraph (e) of the proposed AD to clarify the affected structure and align the wording with the service information. Boeing requested that verbiage regarding what prompted the proposed AD be revised to specify ''cargo deck cutout'' rather than ''cargo deck.'' Boeing also requested that verbiage regarding the possible effects of undetected cracks be revised to specify ''cargo door hinge area'' rather than ''cargo door hinge.''.

The FAA agrees with the commenter's request. The FAA has revised the Background section and paragraph (e) of this proposed AD accordingly.

FAA's Determination

The FAA is proposing this AD after determining the unsafe condition described previously is likely to exist or develop in other products of the same type design. Certain changes described above expand the scope of the NPRM. As a result, it is necessary to reopen the comment period to provide additional opportunity for the public to comment on this SNPRM.

Related Service Information Under 1 CFR Part 51

The FAA reviewed Boeing Alert Requirements Bulletin 757–53A0106 RB, dated January 3, 2023. This service information specifies procedures for a maintenance record check for repairs at the forward and aft hinge areas of the main deck cargo door cutout; repetitive open-hole HFEC inspections for cracks in the unrepaired areas of the bear strap, skin, doubler, and upper sill chord at the main deck cargo door forward and aft hinge attachment holes; and corrective actions including obtaining and following procedures for alternative inspections and crack repairs.

This service information is reasonably available because the interested parties have access to it through their normal course of business or by the means identified in **ADDRESSES**.

Proposed AD Requirements in This SNPRM

This proposed AD would require accomplishing the actions specified in the service information already described, except for any differences identified as exceptions in the regulatory text of this proposed AD. For information on the procedures and compliance times, see this service information at *regulations.gov* by searching for and locating Docket No. FAA–2023–1488.

Costs of Compliance

The FAA estimates that this AD, if adopted as proposed, would affect 564 airplanes of U.S. registry. The FAA estimates the following costs to comply with this proposed AD:

ESTIMATED COSTS

Action	Labor cost	Parts cost	Cost per product	Cost on U.S. operators
Maintenance record check ...	1 work-hour * × $85 per hour = $85	$0	$85	$47,940
HFEC inspections	26 work-hours × $85 per hour = $2,210, per inspection cycle.	0	2,210 per inspection cycle	1,246,440 per inspection cycle

* The time to do the maintenance record check will vary by operator but would likely take no more than 1 work-hour per airplane.

The FAA has received no definitive data on which to base the cost estimates for the on-condition actions specified in this proposed AD.

Authority for This Rulemaking

Title 49 of the United States Code specifies the FAA's authority to issue rules on aviation safety. Subtitle I, section 106, describes the authority of the FAA Administrator. Subtitle VII: Aviation Programs describes in more detail the scope of the Agency's authority.

The FAA is issuing this rulemaking under the authority described in Subtitle VII, Part A, Subpart III, Section 44701: General requirements. Under that section, Congress charges the FAA with promoting safe flight of civil aircraft in air commerce by prescribing regulations for practices, methods, and procedures the Administrator finds necessary for safety in air commerce. This regulation is within the scope of that authority because it addresses an unsafe condition that is likely to exist or develop on products identified in this rulemaking action.

Regulatory Findings

The FAA determined that this proposed AD would not have federalism implications under Executive Order 13132. This proposed AD would not have a substantial direct effect on the States, on the relationship between the national Government and the States, or on the distribution of power and responsibilities among the various levels of government.

For the reasons discussed above, I certify this proposed regulation:

(1) Is not a ''significant regulatory action'' under Executive Order 12866,

(2) Would not affect intrastate aviation in Alaska, and

(3) Would not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 39

Air transportation, Aircraft, Aviation safety, Incorporation by reference, Safety.

The Proposed Amendment

Accordingly, under the authority delegated to me by the Administrator, the FAA proposes to amend 14 CFR part 39 as follows:

PART 39—AIRWORTHINESS DIRECTIVES

■ 1. The authority citation for part 39 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40113, 44701.

§ 39.13 [Amended]

■ 2. The FAA amends § 39.13 by adding the following new airworthiness directive:

The Boeing Company: Docket No. FAA–2023–1488; Project Identifier AD–2023–00182–T.

(a) Comments Due Date

The FAA must receive comments on this airworthiness directive (AD) by June 13, 2024.

(b) Affected ADs

None.

(c) Applicability

(1) This AD applies to The Boeing Company Model 757–200, –200CB, and –200PF series airplanes specified in paragraph (c)(1)(i) or (ii) of this AD, certificated in any category.

(i) Airplanes identified in Boeing Alert Requirements Bulletin 757–53A0106 RB, dated January 3, 2023.

(ii) Airplanes converted to a freighter configuration using VT MAE Supplemental Type Certificate (STC) ST03562AT, ST03952AT, or ST04242AT.

(2) Installation of STC ST01518SE does not affect the ability to accomplish the actions required by this AD. Therefore, for airplanes on which STC ST01518SE is installed, a ''change in product'' alternative method of compliance (AMOC) approval request is not necessary to comply with the requirements of 14 CFR 39.17.

(d) Subject

Air Transport Association (ATA) of America Code 53, Fuselage.

(e) Unsafe Condition

This AD was prompted by a report indicating an operator has found cracks on three Model 757–200PF airplanes at the main deck cargo door cutout forward and aft hinge attachment holes. The FAA is issuing this AD to detect and correct cracks in the main deck cargo door hinge area. Undetected cracks in the main deck cargo door hinge area could result in reduced structural integrity of the aircraft.

(f) Compliance

Comply with this AD within the compliance times specified, unless already done.

(g) Required Actions

(1) For the airplanes identified in paragraph (c)(1)(i) of this AD: Except as specified by paragraph (h) of this AD, at the applicable times specified in the ''Compliance'' paragraph of Boeing Alert Requirements Bulletin 757–53A0106 RB, dated January 3, 2023, do all applicable actions identified in, and in accordance with, the Accomplishment Instructions of Boeing Alert Requirements Bulletin 757–53A0106 RB, dated January 3, 2023.

Note 1 to paragraph (g)(1): Guidance for accomplishing the actions required by this AD can be found in Boeing Alert Service Bulletin 757–53A0106, dated January 3, 2023, which is referred to in Boeing Alert Requirements Bulletin 757–53A0106 RB, dated January 3, 2023.

(2) For the airplanes identified in paragraph (c)(1)(ii) of this AD: Within 30 days after the effective date of this AD, do a maintenance record check for any repair at the forward and aft hinge areas of the main deck cargo door cutout and obtain inspection instructions and applicable repair instructions using a method approved by the Manager, AIR–520, Continued Operational Safety Branch, FAA. Comply with all applicable instructions at the time specified in the instructions.

(h) Exceptions to Service Information Specifications

(1) Where the Compliance Time columns of the tables in the ''Compliance'' paragraph of Boeing Alert Requirements Bulletin 757–53A0106 RB, dated January 3, 2023, use the phrase the original issue date of Requirements Bulletin 757–53A0106 RB, this AD requires using the effective date of this AD.

(2) Where Boeing Alert Requirements Bulletin 757–53A0106 RB, dated January 3, 2023, specifies contacting Boeing for repair instructions or for alternative inspections, this AD requires doing the repair, or doing the alternative inspections and applicable on-condition actions using a method approved in accordance with the procedures specified in paragraph (i) of this AD.

(i) Alternative Methods of Compliance (AMOCs)

(1) The Manager, AIR–520, Continued Operational Safety Branch, FAA, has the authority to approve AMOCs for this AD, if requested using the procedures found in 14 CFR 39.19. In accordance with 14 CFR 39.19, send your request to your principal inspector or responsible Flight Standards Office, as appropriate. If sending information directly to the manager of the certification office, send it to the attention of the person identified in paragraph (j)(1) of this AD. Information may be emailed to: *AMOC@faa.gov.*

(2) Before using any approved AMOC, notify your appropriate principal inspector, or lacking a principal inspector, the manager of the responsible Flight Standards Office.

(3) An AMOC that provides an acceptable level of safety may be used for any repair, modification, or alteration required by this AD if it is approved by The Boeing Company Organization Designation Authorization (ODA) that has been authorized by the Manager, AIR–520, Continued Operational Safety Branch, to make those findings. To be approved, the repair method, modification deviation, or alteration deviation must meet the certification basis of the airplane, and the approval must specifically refer to this AD.

(j) Related Information

(1) For more information about this AD, contact Wayne Ha, Aviation Safety Engineer, FAA, 2200 South 216th Street, Des Moines, WA 98198; phone: 562–627–5238; email: *wayne.ha@faa.gov.*

(2) Service information identified in this AD that is not incorporated by reference is available at the address specified in paragraph (k)(3) of this AD.

(k) Material Incorporated by Reference

(1) The Director of the Federal Register approved the incorporation by reference (IBR) of the service information listed in this paragraph under 5 U.S.C. 552(a) and 1 CFR part 51.

(2) You must use this service information as applicable to do the actions required by this AD, unless the AD specifies otherwise.

(i) Boeing Alert Requirements Bulletin 757–53A0106 RB, dated January 3, 2023.

(ii) [Reserved]

(3) For service information identified in this AD, contact Boeing Commercial Airplanes, Attention: Contractual & Data Services (C&DS), 2600 Westminster Blvd., MC 110–SK57, Seal Beach, CA 90740–5600; telephone 562–797–1717; website *myboeingfleet.com.*

(4) You may view this service information at the FAA, Airworthiness Products Section, Operational Safety Branch, 2200 South 216th St., Des Moines, WA. For information on the availability of this material at the FAA, call 206–231–3195.

(5) You may view this material at the National Archives and Records Administration (NARA). For information on the availability of this material at NARA, visit *www.archives.gov/federal-register/cfr/ibr-locations* or email *fr.inspection@nara.gov.*

Issued on April 23, 2024.

Victor Wicklund,

Deputy Director, Compliance & Airworthiness Division, Aircraft Certification Service.

BILLING CODE 4910–13–P

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 39

[Docket No. FAA–2024–1009; Project Identifier MCAI–2023–01221–T]

RIN 2120–AA64

Airworthiness Directives; MHI RJ Aviation ULC (Type Certificate Previously Held by Bombardier, Inc.) Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: The FAA proposes to adopt a new airworthiness directive (AD) for certain MHI RJ Aviation ULC Model CL–600–2D15 (Regional Jet Series 705) and CL–600–2D24 (Regional Jet Series 900) airplanes. This proposed AD was prompted by a report that torque wrenches used during production installation of bulkhead fittings on the oxygen lines of the flight crew oxygen mask stowage boxes and adapter fitting on the oxygen pressure gauge were out of calibration during production installation, which resulted in a higher torque level setting than required. This proposed AD would require replacement of the affected oxygen line fittings, as specified in a Transport Canada AD, which is proposed for

incorporation by reference (IBR). The FAA is proposing this AD to address the unsafe condition on these products.

DATES: The FAA must receive comments on this proposed AD by June 13, 2024.

ADDRESSES: You may send comments, using the procedures found in 14 CFR 11.43 and 11.45, by any of the following methods:

- *Federal eRulemaking Portal:* Go to *regulations.gov.* Follow the instructions for submitting comments.
- *Fax:* 202–493–2251.
- *Mail:* U.S. Department of Transportation, Docket Operations, M–30, West Building Ground Floor, Room W12–140, 1200 New Jersey Avenue SE, Washington, DC 20590.
- *Hand Delivery:* Deliver to Mail address above between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

AD Docket: You may examine the AD docket at *regulations.gov* under Docket No. FAA–2024–1009; or in person at Docket Operations between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays. The AD docket contains this NPRM, the mandatory continuing airworthiness information (MCAI), any comments received, and other information. The street address for Docket Operations is listed above.

Material Incorporated by Reference:

- For Transport Canada material that is proposed for IBR in this AD, contact Transport Canada, Transport Canada National Aircraft Certification, 159 Cleopatra Drive, Nepean, Ontario K1A 0N5, Canada; telephone 888–663–3639; email *TC.AirworthinessDirectives-Consignesdenavigabilite.TC@tc.gc.ca.* You may find this material on the Transport Canada website at *tc.canada.ca/en/aviation.* It is also available at *regulations.gov* under Docket No. FAA–2024–1009.
- You may view this material at the FAA, Airworthiness Products Section, Operational Safety Branch, 2200 South 216th St., Des Moines, WA. For information on the availability of this material at the FAA, call 206–231–3195.

FOR FURTHER INFORMATION CONTACT: Fatin Saumik, Aviation Safety Engineer, FAA, 1600 Stewart Avenue, Suite 410, Westbury, NY 11590; telephone 516–228–7300; email *Fatin.R.Saumik@faa.gov.*

SUPPLEMENTARY INFORMATION:

Comments Invited

The FAA invites you to send any written relevant data, views, or arguments about this proposal. Send your comments to an address listed under **ADDRESSES**. Include ''Docket No. FAA–2024–1009; Project Identifier MCAI–2023–01221–T'' at the beginning of your comments. The most helpful comments reference a specific portion of the proposal, explain the reason for any recommended change, and include supporting data. The FAA will consider all comments received by the closing date and may amend this proposal because of those comments.

Except for Confidential Business Information (CBI) as described in the following paragraph, and other information as described in 14 CFR 11.35, the FAA will post all comments received, without change, to *regulations.gov,* including any personal information you provide. The agency will also post a report summarizing each substantive verbal contact received about this NPRM.

Confidential Business Information

CBI is commercial or financial information that is both customarily and actually treated as private by its owner. Under the Freedom of Information Act (FOIA) (5 U.S.C. 552), CBI is exempt from public disclosure. If your comments responsive to this NPRM contain commercial or financial information that is customarily treated as private, that you actually treat as private, and that is relevant or responsive to this NPRM, it is important that you clearly designate the submitted comments as CBI. Please mark each page of your submission containing CBI as ''PROPIN.'' The FAA will treat such marked submissions as confidential under the FOIA, and they will not be placed in the public docket of this NPRM. Submissions containing CBI should be sent to Fatin Saumik, Aviation Safety Engineer, FAA, 1600 Stewart Avenue, Suite 410, Westbury, NY 11590; telephone 516–228–7300; email *Fatin.R.Saumik@faa.gov.* Any commentary that the FAA receives which is not specifically designated as CBI will be placed in the public docket for this rulemaking.

Background

Transport Canada, which is the aviation authority for Canada, has issued Transport Canada AD CF–2023–75, dated November 28, 2023 (Transport Canada AD CF–2023–75) (also referred to as the MCAI), to correct an unsafe condition for certain MHI RJ Aviation ULC Model CL–600–2D15 (Regional Jet Series 705) and CL–600–2D24 (Regional Jet Series 900) airplanes. The MCAI states MHI RJ Aviation ULC received a quality escape notice from a supplier, reporting that torque wrenches used during production installation of bulkhead fittings on the oxygen lines of the flight crew oxygen mask stowage boxes and adapter fitting on the oxygen pressure gauge were out of calibration, which resulted in a higher torque level setting than required by drawing. This over-torque could cause damage to the oxygen line fittings which, if not corrected, could cause oxygen leakage before being annunciated and result in lack of oxygen to the flight crew when needed. The FAA is proposing this AD to address the unsafe condition on these products.

You may examine the MCAI in the AD docket at *regulations.gov* under Docket No. FAA–2024–1009.

Related Service Information Under 1 CFR Part 51

The FAA reviewed Transport Canada AD CF–2023–75, dated November 28, 2023, which specifies procedures for replacement of the bulkhead fittings on the oxygen lines of the mask stowage boxes and replacement of the fitting adapter on the oxygen pressure gauge. This material is reasonably available because the interested parties have access to it through their normal course of business or by the means identified in **ADDRESSES**.

FAA's Determination

This product has been approved by the aviation authority of another country and is approved for operation in the United States. Pursuant to the FAA's bilateral agreement with this State of Design Authority, it has notified the FAA of the unsafe condition described in the MCAI referenced above. The FAA is issuing this NPRM after determining that the unsafe condition described previously is likely to exist or develop in other products of the same type design.

Proposed AD Requirements in This NPRM

This proposed AD would require accomplishing the actions specified in Transport Canada AD CF–2023–75 described previously, except for any differences identified as exceptions in the regulatory text of this proposed AD.

Explanation of Required Compliance Information

In the FAA's ongoing efforts to improve the efficiency of the AD process, the FAA developed a process to use some civil aviation authority (CAA) ADs as the primary source of information for compliance with requirements for corresponding FAA ADs. The FAA has been coordinating this process with manufacturers and CAAs. As a result, the FAA proposes to incorporate Transport Canada AD CF–2023–75 by reference in the FAA final

rule. This proposed AD would, therefore, require compliance with Transport Canada AD CF–2023–75 in its entirety through that incorporation, except for any differences identified as exceptions in the regulatory text of this proposed AD. Service information required by Transport Canada AD CF–2023–75 for compliance will be available at *regulations.gov* under Docket No. FAA–2024–1009 after the FAA final rule is published.

Costs of Compliance

The FAA estimates that this AD, if adopted as proposed, would affect 24 airplanes of U.S. registry. The FAA estimates the following costs to comply with this proposed AD:

ESTIMATED COSTS FOR REQUIRED ACTIONS

Labor cost	Parts cost	Cost per product	Cost on U.S. operators
6 work-hours × $85 per hour = $510	$350	$860	$20,640

Authority for This Rulemaking

Title 49 of the United States Code specifies the FAA's authority to issue rules on aviation safety. Subtitle I, section 106, describes the authority of the FAA Administrator. Subtitle VII: Aviation Programs, describes in more detail the scope of the Agency's authority.

The FAA is issuing this rulemaking under the authority described in Subtitle VII, Part A, Subpart III, Section 44701: General requirements. Under that section, Congress charges the FAA with promoting safe flight of civil aircraft in air commerce by prescribing regulations for practices, methods, and procedures the Administrator finds necessary for safety in air commerce. This regulation is within the scope of that authority because it addresses an unsafe condition that is likely to exist or develop on products identified in this rulemaking action.

Regulatory Findings

The FAA determined that this proposed AD would not have federalism implications under Executive Order 13132. This proposed AD would not have a substantial direct effect on the States, on the relationship between the national Government and the States, or on the distribution of power and responsibilities among the various levels of government.

For the reasons discussed above, I certify this proposed regulation:

(1) Is not a ''significant regulatory action'' under Executive Order 12866,

(2) Would not affect intrastate aviation in Alaska, and

(3) Would not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 39

Air transportation, Aircraft, Aviation safety, Incorporation by reference, Safety.

The Proposed Amendment

Accordingly, under the authority delegated to me by the Administrator, the FAA proposes to amend 14 CFR part 39 as follows:

PART 39—AIRWORTHINESS DIRECTIVES

■ 1. The authority citation for part 39 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40113, 44701.

§ 39.13 [Amended]

■ 2. The FAA amends § 39.13 by adding the following new airworthiness directive:

MHI RJ Aviation ULC (Type Certificate Previously Held by Bombardier, Inc.): Docket No. FAA–2024–1009; Project Identifier MCAI–2023–01221–T.

(a) Comments Due Date

The FAA must receive comments on this airworthiness directive (AD) by June 13, 2024.

(b) Affected ADs

None.

(c) Applicability

This AD applies to MHI RJ Aviation ULC (Type Certificate previously held by Bombardier, Inc.) Model CL–600–2D15 (Regional Jet Series 705) and CL–600–2D24 (Regional Jet Series 900) airplanes, certificated in any category, as identified in Transport Canada AD CF–2023–75, dated November 28, 2023 (Transport Canada AD CF–2023–75).

(d) Subject

Air Transport Association (ATA) of America Code 35, Oxygen.

(e) Unsafe Condition

This AD was prompted by a report that torque wrenches used during production installation of bulkhead fittings on the oxygen lines of the flight crew oxygen mask stowage boxes and adapter fitting on the oxygen pressure gauge were out of calibration, which resulted in a higher torque level setting than required. The FAA is issuing this AD to address this over-torque, which could cause damage to the oxygen line fittings. The unsafe condition, if not addressed, could result in oxygen leakage before being annunciated and result in lack of oxygen to the flight crew when needed.

(f) Compliance

Comply with this AD within the compliance times specified, unless already done.

(g) Requirements

Except as specified in paragraph (h) of this AD: Comply with all required actions and compliance times specified in, and in accordance with, Transport Canada AD CF–2023–75.

(h) Exception to Transport Canada AD CF–2023–75

(1) Where Transport Canada AD CF–2023–75 refers to its effective date, this AD requires using the effective date of this AD.

(2) Where Transport Canada AD CF–2023–75 refers to hours air time, this AD requires using flight hours.

(i) Additional AD Provisions

The following provisions also apply to this AD:

(1) *Alternative Methods of Compliance (AMOCs):* The Manager, International Validation Branch, FAA, has the authority to approve AMOCs for this AD, if requested using the procedures found in 14 CFR 39.19. In accordance with 14 CFR 39.19, send your request to your principal inspector or responsible Flight Standards Office, as appropriate. If sending information directly to the manager of the International Validation Branch, mail it to the address identified in paragraph (j) of this AD. Information may be emailed to: *9-AVS-NYACO-COS@faa.gov.* Before using any approved AMOC, notify your appropriate principal inspector, or lacking a principal inspector, the manager of the responsible Flight Standards Office.

(2) *Contacting the Manufacturer:* For any requirement in this AD to obtain instructions from a manufacturer, the instructions must be accomplished using a method approved by the Manager, International Validation Branch, FAA; Transport Canada; or MHI RJ Aviation ULC's Transport Canada Design Approval Organization (DAO). If approved by the DAO, the approval must include the DAO-authorized signature.

(j) Additional Information

For more information about this AD, contact Fatin Saumik, Aviation Safety Engineer, FAA, 1600 Stewart Avenue, Suite

410, Westbury, NY 11590; telephone 516–228–7300; email *Fatin.R.Saumik@faa.gov.*

(k) Material Incorporated by Reference

(1) The Director of the Federal Register approved the incorporation by reference (IBR) of the service information listed in this paragraph under 5 U.S.C. 552(a) and 1 CFR part 51.

(2) You must use this service information as applicable to do the actions required by this AD, unless this AD specifies otherwise.

(i) Transport Canada AD CF–2023–75, dated November 28, 2023.

(ii) [Reserved]

(3) For Transport Canada AD CF–2023–75, contact Transport Canada, Transport Canada National Aircraft Certification, 159 Cleopatra Drive, Nepean, Ontario K1A 0N5, Canada; telephone 888–663–3639; email *TC.AirworthinessDirectives-Consignesdenavigabilite.TC@tc.gc.ca.* You may find this Transport Canada AD on the Transport Canada website at *tc.canada.ca/en/aviation.*

(4) You may view this material at the FAA, Airworthiness Products Section, Operational Safety Branch, 2200 South 216th St., Des Moines, WA. For information on the availability of this material at the FAA, call 206–231–3195.

(5) You may view this material at the National Archives and Records Administration (NARA). For information on the availability of this material at NARA, visit *www.archives.gov/federal-register/cfr/ibr-locations,* or email *fr.inspection@nara.gov.*

Issued on April 20, 2024.

Victor Wicklund,

Deputy Director, Compliance & Airworthiness Division, Aircraft Certification Service.

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: The FAA proposes to supersede Airworthiness Directive (AD) 2023–05–08, which applies to certain Airbus Canada Limited Partnership Model BD–500–1A10 and BD–500–1A11 airplanes. AD 2023–05–08 requires required revising the existing maintenance or inspection program, as applicable, to incorporate new or more restrictive airworthiness limitations. Since the FAA issued AD 2023–05–08, the FAA has determined that new or more restrictive airworthiness limitations are necessary. This proposed AD would continue to require certain actions in AD 2023–05–08 and require revising the existing maintenance or inspection program, as applicable, to incorporate new or more restrictive airworthiness limitations. The FAA is proposing this AD to address the unsafe condition on these products.

DATES: The FAA must receive comments on this NPRM by June 13, 2024.

ADDRESSES: You may send comments, using the procedures found in 14 CFR 11.43 and 11.45, by any of the following methods:

- *Federal eRulemaking Portal:* Go to *regulations.gov*. Follow the instructions for submitting comments.
- *Fax:* 202–493–2251.
- *Mail:* U.S. Department of Transportation, Docket Operations, M–30, West Building Ground Floor, Room W12–140, 1200 New Jersey Avenue SE, Washington, DC 20590.
- *Hand Delivery:* Deliver to Mail address above between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

AD Docket: You may examine the AD docket at *regulations.gov* under Docket No. FAA–2024–1285; or in person at Docket Operations between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays. The AD docket contains this NPRM, the mandatory continuing airworthiness information (MCAI), any comments received, and other information. The street address for Docket Operations is listed above.

Material Incorporated by Reference:

- For Airbus Canada Limited Partnership material, contact Airbus Canada Limited Partnership, 13100 Henri-Fabre Boulevard, Mirabel, Québec J7N 3C6, Canada; telephone 450–476–7676; email a220 website *a220world.airbus.com.*
- You may view this material at the FAA, Airworthiness Products Section, Operational Safety Branch, 2200 South 216th St., Des Moines, WA. For information on the availability of this material at the FAA, call 206–231–3195.

FOR FURTHER INFORMATION CONTACT: Gabriel D. Kim, Aviation Safety Engineer, FAA, 1600 Stewart Avenue, Suite 410, Westbury, NY 11590; telephone 516–228–7343; email *9-avs-nyaco-cos@faa.gov.*

SUPPLEMENTARY INFORMATION:

Comments Invited

The FAA invites you to send any written relevant data, views, or arguments about this proposal. Send your comments to an address listed under **ADDRESSES**. Include ''Docket No. FAA–2024–1285; Project Identifier MCAI–2023–01146–T'' at the beginning of your comments. The most helpful comments reference a specific portion of the proposal, explain the reason for any recommended change, and include supporting data. The FAA will consider all comments received by the closing date and may amend the proposal because of those comments.

Except for Confidential Business Information (CBI) as described in the following paragraph, and other information as described in 14 CFR 11.35, the FAA will post all comments received, without change, to *regulations.gov*, including any personal information you provide. The agency will also post a report summarizing each substantive verbal contact received about this NPRM.

Confidential Business Information

CBI is commercial or financial information that is both customarily and actually treated as private by its owner. Under the Freedom of Information Act (FOIA) (5 U.S.C. 552), CBI is exempt from public disclosure. If your comments responsive to this NPRM contain commercial or financial information that is customarily treated as private, that you actually treat as private, and that is relevant or responsive to this NPRM, it is important that you clearly designate the submitted comments as CBI. Please mark each page of your submission containing CBI as ''PROPIN.'' The FAA will treat such marked submissions as confidential under the FOIA, and they will not be placed in the public docket of this NPRM. Submissions containing CBI should be sent to Gabriel D. Kim, Aviation Safety Engineer, FAA, 1600 Stewart Avenue, Suite 410, Westbury, NY 11590, telephone 516–228–7343; email *9-avs-nyaco-cos@faa.gov.* Any commentary that the FAA receives that is not specifically designated as CBI will be placed in the public docket for this rulemaking.

Background

The FAA issued AD 2023–05–08, Amendment 39–22377 (88 FR 20751, April 7, 2023) (AD 2023–05–08), for certain Airbus Canada Limited Partnership Model BD–500–1A10 and BD–500–1A11 airplanes. AD 2023–05–08 requires revising the existing maintenance or inspection program, as

applicable, to incorporate new or more restrictive airworthiness limitations. AD 2023–05–08 resulted from a determination that new or more restrictive airworthiness limitations are necessary. The FAA issued AD 2023–05–08 to supersede AD 2021–04–05, Amendment 39–21426 (86 FR 10799, February 23, 2021). AD 2023–05–08 terminated the actions specified in AD 2021–04–05, except for Section 03, ''Candidate CMR Limitations—General'', of Airbus Canada Limited Partnership A220 Airworthiness Limitations, BD500–3AB48–11400–02, Issue 011.00, dated June 18, 2020. The FAA issued AD 2023–05–08 to address reduced structural integrity of the airplane or reduced controllability of the airplane.

Actions Since AD 2023–05–08 Was Issued

Since the FAA issued AD 2023–05–08, the FAA has determined that new or more restrictive airworthiness limitations are necessary.

Transport Canada Civil Aviation (TCCA), which is the aviation authority for Canada, has issued TCCA AD CF–2023–69, dated October 5, 2023 (TCCA AD CF–2022–18) (also referred to after this as the MCAI), to correct an unsafe condition for certain Airbus Canada Limited Partnership Model BD–500–1A10 and BD–500–1A11 airplanes. Airplanes with an original airworthiness certificate or original export certificate of airworthiness issued after August 17, 2023, must comply with the airworthiness limitations specified as part of the approved type design and referenced on the type certificate data sheet; this proposed AD therefore does not include those airplanes in the applicability.

The FAA is proposing this AD to address new or more restrictive airworthiness limitations are necessary. The FAA is proposing this AD to address reduced structural integrity of the airplane or reduced controllability of the airplane.

You may examine the MCAI in the AD docket at *regulations.gov* under Docket No. FAA–2024–1285.

Related Service Information Under 1 CFR Part 51

Airbus Canada Limited Partnership has issued A220 Airworthiness Limitations, BD500–3AB48–11400–02, Issue 017.01, dated August 17, 2023, which describes airworthiness limitations for fuel tank systems, safe life limits, and certification maintenance requirements.

This proposed AD would also require Airbus Canada Limited Partnership A220 Airworthiness Limitations, BD500–3AB48–11400–02, Issue 014.00, dated February 3, 2022, which the Director of the Federal Register approved for incorporation by reference as of May 12, 2023 (88 FR 20751, April 7, 2023).

This proposed AD would also require Airbus Canada Limited Partnership A220 Airworthiness Limitations, BD500–3AB48–11400–02, Issue 011.00, dated June 18, 2020, which the Director of the Federal Register approved for incorporation by reference as of March 30, 2021 (86 FR 10799, February 23, 2021).

This service information is reasonably available because the interested parties have access to it through their normal course of business or by the means identified in the **ADDRESSES** section.

FAA's Determination

This product has been approved by the aviation authority of another country, and is approved for operation in the United States. Pursuant to the FAA's bilateral agreement with this State of Design Authority, it has notified the FAA of the unsafe condition described in the MCAI [and service information] referenced above. The FAA is issuing this NPRM after determining that the unsafe condition described previously is likely to exist or develop on other products of the same type design.

Proposed Requirements of This NPRM

This proposed AD would retain all requirements of AD 2023–05–08, which includes retaining Section 03, ''Candidate CMR Limitations—General,'' of Airbus Canada Limited Partnership A220 Airworthiness Limitations, BD500–3AB48–11400–02, Issue 011.00, dated June 18, 2020. This proposed AD would require revising the existing maintenance or inspection program, as applicable, to incorporate new or more restrictive airworthiness limitations. Revising the existing maintenance or inspection program as proposed in this AD would terminate the retained requirements from AD 2023–05–08 that are specified in paragraph (i) of this proposed AD.

This proposed AD would require revisions to certain operator maintenance documents to include new actions (*e.g.,* inspections) and Critical Design Configuration Control Limitations (CDCCLs). Compliance with these actions and CDCCLs is required by 14 CFR 91.403(c). For airplanes that have been previously modified, altered, or repaired in the areas addressed by this proposed AD, the operator may not be able to accomplish the actions described in the revisions. In this situation, to comply with 14 CFR 91.403(c), the operator must request approval for an alternative method of compliance according to paragraph (m)(1) of this proposed AD.

Differences Between This NPRM and the MCAI or Service Information

TCCA AD CF–2023–69 specifies to incorporate all sections of the airworthiness limitations document. This proposed AD would not require the incorporation of Section 03, ''Candidate CMR limitations,'' of Airbus Canada Limited Partnership A220 Airworthiness Limitations, BD500–3AB48–11400–02, Issue 017.01, dated August 17, 2023. However, this proposed AD would continue to require the incorporation of Section 03, ''Candidate CMR limitations—General,'' of Airbus Canada Limited Partnership A220 Airworthiness Limitations, BD500–3AB48–11400–02, Issue 011.00, dated June 18, 2020, which is identical to the list of CCMRs identified in Issue 017.01.

Costs of Compliance

The FAA estimates that this proposed AD affects 99 airplanes of U.S. registry. The FAA estimates the following costs to comply with this proposed AD:

The FAA estimates the total cost per operator for the retained actions from AD 2023–05–08 to be $7,650 (90 work-hours × $85 per work-hour).

The FAA has determined that revising the maintenance or inspection program takes an average of 90 work-hours per operator, although the agency recognizes that this number may vary from operator to operator. Since operators incorporate maintenance or inspection program changes for their affected fleet(s), the FAA has determined that a per-operator estimate is more accurate than a per-airplane estimate. Therefore, the agency estimates the average total cost per operator to be $7,650 (90 work-hours × $85 per work-hour).

The FAA estimates the total cost per operator for the new proposed actions to be $7,650 (90 work-hours × $85 per work-hour).

Authority for This Rulemaking

Title 49 of the United States Code specifies the FAA's authority to issue rules on aviation safety. Subtitle I, section 106, describes the authority of the FAA Administrator. Subtitle VII: Aviation Programs, describes in more detail the scope of the Agency's authority.

The FAA is issuing this rulemaking under the authority described in

Subtitle VII, Part A, Subpart III, Section 44701: General requirements. Under that section, Congress charges the FAA with promoting safe flight of civil aircraft in air commerce by prescribing regulations for practices, methods, and procedures the Administrator finds necessary for safety in air commerce. This regulation is within the scope of that authority because it addresses an unsafe condition that is likely to exist or develop on products identified in this rulemaking action.

Regulatory Findings

The FAA determined that this proposed AD would not have federalism implications under Executive Order 13132. This proposed AD would not have a substantial direct effect on the States, on the relationship between the national Government and the States, or on the distribution of power and responsibilities among the various levels of government.

For the reasons discussed above, I certify this proposed regulation:

(1) Is not a ''significant regulatory action'' under Executive Order 12866,

(2) Would not affect intrastate aviation in Alaska, and

(3) Would not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 39

Air transportation, Aircraft, Aviation safety, Incorporation by reference, Safety.

The Proposed Amendment

Accordingly, under the authority delegated to me by the Administrator, the FAA proposes to amend 14 CFR part 39 as follows:

PART 39—AIRWORTHINESS DIRECTIVES

■ 1. The authority citation for part 39 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40113, 44701.

§ 39.13 [Amended]

■ 2. The FAA amends § 39.13 by:

■ a. Removing Airworthiness Directive 2023–05–08, Amendment 39–22377 (88 FR 20751, April 7, 2023); and

■ b. Adding the following new airworthiness directive:

Airbus Canada Limited Partnership (Type Certificate Previously Held by C Series Aircraft Limited Partnership (CSALP); Bombardier, Inc.): Docket No. FAA–2024–1285; Project Identifier MCAI–2023–01146–T.

(a) Comments Due Date

The FAA must receive comments on this airworthiness directive (AD) by June 13, 2024.

(b) Affected ADs

This AD replaces AD 2023–05–08, Amendment 39 22377 (88 FR 20751, April 7, 2023) (AD 2023–05–08).

(c) Applicability

This AD applies to Airbus Canada Limited Partnership airplanes, certificated in any category, as identified in paragraphs (c)(1) and (2) of this AD.

(1) Model BD–500–1A10 airplanes, serial numbers 50001 and subsequent with an original airworthiness certificate or original export certificate of airworthiness issued on or before August 17, 2023.

(2) Model BD–500–1A11 airplanes, serial numbers 55001 and subsequent with an original airworthiness certificate or original export certificate of airworthiness issued on or before August 17, 2023.

(d) Subject

Air Transport Association (ATA) of America Code 05, Time Limits/Maintenance Checks.

(e) Reason

This AD was prompted by a determination that new or more restrictive airworthiness limitations are necessary. The FAA is issuing this AD to address reduced structural integrity of the airplane or reduced controllability of the airplane.

(f) Compliance

Comply with this AD within the compliance times specified, unless already done.

(g) Retained Revision of the Existing Maintenance or Inspection Program, With Revised Language

This paragraph restates the requirements of paragraph (g) of AD 2023–05–08, with revised language. For airplanes with an original airworthiness certificate or original export certificate of airworthiness issued on or before June 18, 2020: Within 90 days after March 30, 2021 (the effective date of AD 2021–04–05, Amendment 39–21426 (86 FR 10799, February 23, 2021)), revise the existing maintenance or inspection program, as applicable, to incorporate the information specified in Section 03, ''Candidate CMR Limitations—General,'' of Airbus Canada Limited Partnership A220 Airworthiness Limitations, BD500–3AB48–11400–02, Issue 011.00, dated June 18, 2020. The initial compliance time for doing the tasks is at the time specified in Airbus Canada Limited Partnership A220 Airworthiness Limitations, BD500–3AB48–11400–02, Issue 011.00, dated June 18, 2020, or within 90 days after March 30, 2021, whichever occurs later.

(h) Retained No Alternative Actions, Intervals, or Critical Design Configuration Control Limitations (CDCCLs), With Revised Language

This paragraph restates the requirements of paragraph (h) of AD 2023–05–08 with revised language. After the existing maintenance or inspection program has been revised as required by paragraph (g) of this AD, no alternative actions (*e.g.,* inspections), intervals, or CDCCLs may be used unless the actions, intervals, and CDCCLs are approved as an alternative method of compliance.

(i) Retained Revision of the Existing Maintenance or Inspection Program, With a New Terminating Action

This paragraph restates the requirements of paragraph (i) of AD 2023–05–08, with a new terminating action. For airplanes with an original airworthiness certificate or original export certificate of airworthiness issued on or before February 3, 2022: Within 90 days after May 12, 2023 (the effective date of AD 2023–05–08), revise the existing maintenance or inspection program, as applicable, to incorporate the information specified in Sections 01, ''Airworthiness limitations—Introduction;'' 02, ''Certification maintenance requirements—General;'' 04, ''ALI structural inspections—General;'' 05, ''Life limited parts—General;'' 06, ''Fuel system limitations—General;'' 07, ''Critical design configuration control limitations—General;'' 08, ''Power plant limitations—General;'' 09, ''Structural repair limitations—General;'' and 10, ''Limit of validity—General;'' inclusive of Airbus Canada Limited Partnership A220 Airworthiness Limitations, BD500–3AB48–11400–02, Issue 014.00, dated February 3, 2022. The initial compliance time for doing the tasks is at the time specified in Airbus Canada Limited Partnership A220 Airworthiness Limitations, BD500–3AB48–11400–02, Issue 014.00, dated February 3, 2022, or within 90 days after May 12, 2023 (the effective date of AD 2023–05–08), whichever occurs later. Accomplishing the revision of the existing maintenance or inspection program required by paragraph (k) of this AD terminates the requirements of this paragraph.

(j) Retained No Alternative Actions, Intervals, or Critical Design Configuration Control Limitations (CDCCLs), With a New Exception

This paragraph restates the requirements of paragraph (j) of AD 2023–05–08, with a new exception. Except as required by paragraph (k) of this AD, after the existing maintenance or inspection program has been revised as required by paragraph (i) of this AD, no alternative actions (*e.g.,* inspections), intervals, or CDCCLs may be used unless the actions, intervals, and CDCCLs are approved as an alternative method of compliance (AMOC) in accordance with the procedures specified in paragraph (m)(1) of this AD.

(k) New Maintenance or Inspection Program Revision

Within 90 days after the effective date of this AD, revise the existing maintenance or inspection program, as applicable, to incorporate the information specified in Airbus Canada Limited Partnership A220 Airworthiness Limitations, BD500–3AB48–11400–02, Issue 017.01, dated August 17, 2023, except for the information specified in Section 03, ''Candidate CMR Limitations—General''. The initial compliance time for doing the tasks is at the time specified in Airbus Canada Limited Partnership A220

Airworthiness Limitations, BD500–3AB48–11400–02, Issue 017.01, dated August 17, 2023, or within 90 days after the effective date of this AD, whichever occurs later. Accomplishing the revision of the existing maintenance or inspection program required by this paragraph terminates the actions required by paragraph (i) of this AD.

(l) New No Alternative Actions, Intervals, or CDCCLs

After the existing maintenance or inspection program has been revised as required by paragraph (k) of this AD, no alternative actions (*e.g.,* inspections), intervals, or CDCCLs may be used unless the actions, intervals, and CDCCLs are approved as an AMOC in accordance with the procedures specified in paragraph (m)(1) of this AD.

(m) Additional AD Provisions

The following provisions also apply to this AD:

(1) *Alternative Methods of Compliance (AMOCs):* The Manager, International Validation Branch, FAA, has the authority to approve AMOCs for this AD, if requested using the procedures found in 14 CFR 39.19. In accordance with 14 CFR 39.19, send your request to your principal inspector or responsible Flight Standards Office, as appropriate. If sending information directly to the manager of the International Validation Branch, mail it to the address identified in paragraph (n)(2) of this AD. Information may be emailed to: *9-AVS-NYACO-COS@faa.gov.*

(i) Before using any approved AMOC, notify your appropriate principal inspector, or lacking a principal inspector, the manager of the responsible Flight Standards Office.

(2) *Contacting the Manufacturer:* For any requirement in this AD to obtain instructions from a manufacturer, the instructions must be accomplished using a method approved by the Manager, International Validation Branch, FAA; or Transport Canada; or Airbus Canada Limited Partnership's Transport Canada Design Approval Organization (DAO). If approved by the DAO, the approval must include the DAO-authorized signature.

(n) Additional Information

(1) Refer to Transport Canada AD CF–2023–69, dated October 5, 2023, for related information. This Transport Canada AD may be found in the AD docket at *regulations.gov* under Docket No. FAA–2024–1285.

(2) For more information about this AD, contact Gabriel D. Kim, Aviation Safety Engineer, FAA, 1600 Stewart Avenue, Suite 410, Westbury, NY 11590; telephone 516–228–7343; email *9-avs-nyaco-cos@faa.gov.*

(o) Material Incorporated by Reference

(1) The Director of the Federal Register approved the incorporation by reference (IBR) of the service information listed in this paragraph under 5 U.S.C. 552(a) and 1 CFR part 51.

(2) You must use this service information as applicable to do the actions required by this AD, unless this AD specifies otherwise.

(3) The following service information was approved for IBR on [DATE 35 DAYS AFTER PUBLICATION OF THE FINAL RULE].

(i) Airbus Canada Limited Partnership A220 Airworthiness Limitations, BD500–3AB48–11400–02, Issue 017.01, dated August 17, 2023.

(ii) [Reserved]

(4) The following service information was approved for IBR on May 12, 2023 (88 FR 20751, April 7, 2023).

(i) Airbus Canada Limited Partnership A220 Airworthiness Limitations, BD500–3AB48–11400–02, Issue 014.00, dated February 3, 2020.

(ii) [Reserved]

(5) The following service information was approved for IBR on March 30, 2021 (86 FR 10799, February 23, 2021).

(i) Airbus Canada Limited Partnership A220 Airworthiness Limitations, BD500–3AB48–11400–02, Issue 011.00, dated June 18, 2020.

(ii) [Reserved]

(6) For Airbus Canada Limited Partnership material, contact Airbus Canada Limited Partnership, 13100 Henri-Fabre Boulevard, Mirabel, Québec J7N 3C6, Canada; telephone 450–476–7676; email *a220_crc@abc.airbus;* website *a220world.airbus.com.*

(7) You may view this material at the FAA, Airworthiness Products Section, Operational Safety Branch, 2200 South 216th St., Des Moines, WA. For information on the availability of this material at the FAA, call 206–231–3195.

(8) You may view this material at the National Archives and Records Administration (NARA). For information on the availability of this material at NARA, visit *www.archives.gov/federal-register/cfr/ibr-locations,* or email *fr.inspection@nara.gov.*

Issued on April 20, 2024.

Victor Wicklund,

Deputy Director, Compliance & Airworthiness Division, Aircraft Certification Service.

BILLING CODE 4910–13–P

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 71

[Docket No. FAA–2023–2422; Airspace Docket No. 23–AWP–48]

RIN 2120–AA66

Modification of Class E Airspace; Bishop Airport, Bishop, CA

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: This action proposes to modify the Class E airspace designated as a surface area, modify the airspace designated as an extension to a Class E surface area, modify the Class E airspace extending upward from 700 feet above the surface, and remove the Class E airspace extending upward from 1,200 feet above the surface at Bishop Airport, Bishop, CA. These actions would support the safety and management of instrument flight rules (IFR) operations at the airport.

DATES: Comments must be received on or before June 13, 2024.

ADDRESSES: Send comments identified by FAA Docket No. FAA–2023–2422 and Airspace Docket No. 23–AWP–48 using any of the following methods:

* *Federal eRulemaking Portal:* Go to *www.regulations.gov* and follow the online instructions for sending your comments electronically.

* *Mail:* Send comments to Docket Operations, M–30; U.S. Department of Transportation, 1200 New Jersey Avenue SE, Room W12–140, West Building Ground Floor, Washington, DC 20590–0001.

* *Hand Delivery or Courier:* Take comments to Docket Operations in Room W12–140 of the West Building Ground Floor at 1200 New Jersey Avenue SE, Washington, DC, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

* *Fax:* Fax comments to Docket Operations at (202) 493–2251.

Docket: Background documents or comments received may be read at *www.regulations.gov* at any time. Follow the online instructions for accessing the docket or go to the Docket Operations in Room W12–140 of the West Building Ground Floor at 1200 New Jersey Avenue SE, Washington, DC, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

FAA Order JO 7400.11H, Airspace Designations and Reporting Points, and subsequent amendments can be viewed online at *www.faa.gov/air_traffic/publications/.* You may also contact the Rules and Regulations Group, Office of Policy, Federal Aviation Administration, 800 Independence Avenue SW, Washington, DC 20591; telephone: (202) 267–8783.

FOR FURTHER INFORMATION CONTACT: Keith Adams, Federal Aviation Administration, Western Service Center, Operations Support Group, 2200 S 216th Street, Des Moines, WA 98198; telephone (206) 231–2428.

SUPPLEMENTARY INFORMATION:

Authority for This Rulemaking

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106, describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is

promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of the airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it would modify Class E airspace to support IFR operations at Bishop Airport, Bishop, CA.

Comments Invited

The FAA invites interested persons to participate in this rulemaking by submitting written comments, data, or views. Comments are specifically invited on the overall regulatory, aeronautical, economic, environmental, and energy-related aspects of the proposal. The most helpful comments reference a specific portion of the proposal, explain the reason for any recommended change, and include supporting data. To ensure the docket does not contain duplicate comments, commenters should submit only one time if comments are filed electronically, or commenters should send only one copy of written comments if comments are filed in writing.

The FAA will file in the docket all comments it receives, as well as a report summarizing each substantive public contact with FAA personnel concerning this proposed rulemaking. Before acting on this proposal, the FAA will consider all comments it receives on or before the closing date for comments. The FAA will consider comments filed after the comment period has closed if it is possible to do so without incurring expense or delay. The FAA may change this proposal in light of the comments it receives.

Privacy: In accordance with 5 U.S.C. 553(c), DOT solicits comments from the public to better inform its rulemaking process. DOT posts these comments, without edit, including any personal information the commenter provides, to *www.regulations.gov,* as described in the system of records notice (DOT/ALL–14 FDMS), which can be reviewed at *www.dot.gov/privacy.*

Availability of Rulemaking Documents

An electronic copy of this document may be downloaded through the internet at *www.regulations.gov.* Recently published rulemaking documents can also be accessed through the FAA's web page at *www.faa.gov/air_traffic/publications/airspace_amendments/.*

You may review the public docket containing the proposal, any comments received and any final disposition in person in the Dockets Operations office (see **ADDRESSES** section for address, phone number, and hours of operations). An informal docket may also be examined during normal business hours at the Northwest Mountain Regional Office of the Federal Aviation Administration, Air Traffic Organization, Western Service Center, Operations Support Group, 2200 S 216th Street, Des Moines, WA 98198.

Incorporation by Reference

Class E2, E4, and E5 airspace designations are published in paragraph 6002, 6004, and 6005 respectively, of FAA Order JO 7400.11, Airspace Designations and Reporting Points, which is incorporated by reference in 14 CFR 71.1 on an annual basis. This document proposes to amend the current version of that order, FAA Order JO 7400.11H, dated August 11, 2023, and effective September 15, 2023. These updates would be published in the next update to FAA Order JO 7400.11. That order is publicly available as listed in the **ADDRESSES** section of this document.

FAA Order JO 7400.11H lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

Background

The FAA has developed three new special procedures for Bishop Airport: Area Navigation (RNAV) (Global Positioning System [GPS]) M Runway (RWY) 12 approach, RNAV (GPS) RWY 30 approach, and MOTSE ONE DEPARTURE (RNAV).

The Proposal

The FAA is proposing an amendment to 14 CFR part 71 that would modify the Class E airspace designated as a surface area, modify the airspace designated as an extension to a Class E surface area, modify the Class E airspace extending upward from 700 feet above the surface, and remove Class E airspace extending upward from 1,200 feet above the surface at Bishop Airport, Bishop, CA.

The Class E airspace designated as a surface area should be expanded to include that airspace within 1.8 miles northeast and 1 mile southwest of the 147° bearing from the airport, extending from the 5-mile radius to 6.9 miles southeast of the airport, and that airspace within 3.8 miles either side of the 317° bearing extending to the 7.1-mile radius of the airport. This would more appropriately contain arriving IFR operations between the surface and 1,000 feet above the surface while executing the RNAV (GPS) M RWY 12 and the RNAV (GPS) M RWY 30 approaches. It would also better contain departing IFR operations until reaching the base of adjacent controlled airspace while executing the MOTSE ONE DEPARTURE (RNAV).

The Class E airspace designated as an extension to a Class E surface area is oversized and should be reduced to be within 1.2 miles east and 1.1 miles west of the airport's 337° bearing extending from the 7.1-mile radius of the airport to 9.6 miles northwest of the airport. This would more appropriately contain arriving IFR operations below 1,000 feet above the surface while executing the Localizer Directional Aid (LDA) RWY 17 approach.

The Class E airspace extending upward from 700 feet above the surface should be reduced to include that airspace within 3.4 miles northeast and 4 miles southwest of the airport's 157° bearing extending 7.6 miles southeast of the airport, and 4 miles southwest and 3.4 miles northeast of the airport's 337° bearing extending 15.2 miles northwest of the airport. This would better contain arriving IFR operations below 1,500 feet above the surface while executing the RNAV (GPS) M RWY 12 and RNAV (GPS) M RWY 30 approaches. The modification would also more appropriately contain departing IFR operations below 1,200 feet above the surface when executing the MOTSE ONE DEPARTURE (RNAV).

The Class E airspace extending upward from 1,200 feet above the surface should be removed, as the area is already within the Coaldale and Los Angeles Class E enroute domestic airspace areas.

Regulatory Notices and Analyses

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore: (1) is not a ''significant regulatory action'' under Executive Order 12866; (2) is not a ''significant rule'' under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this proposed rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

This proposal will be subject to an environmental analysis in accordance

with FAA Order 1050.1F, ''Environmental Impacts: Policies and Procedures,'' prior to any FAA final regulatory action.

List of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

The Proposed Amendment

In consideration of the foregoing, the Federal Aviation Administration proposes to amend 14 CFR part 71 as follows:

PART 71—DESIGNATION OF CLASS A, B, C, D, AND E AIRSPACE AREAS; AIR TRAFFIC SERVICE ROUTES; AND REPORTING POINTS

■ 1. The authority citation for 14 CFR part 71 continues to read as follows:

Authority: 49 U.S.C. 106(f), 106(g); 40103, 40113, 40120; E.O. 10854, 24 FR 9565, 3 CFR, 1959–1963 Comp., p. 389.

§ 71.1 [Amended]

■ 2. The incorporation by reference in 14 CFR 71.1 of FAA Order JO 7400.11H, Airspace Designations and Reporting Points, dated August 11, 2023, and effective September 15, 2023, is amended as follows:

Paragraph 6002 Class E Airspace Areas Designated as Surface Areas.

* * * * *

AWP CA E2 Bishop, CA [Amended]

Bishop Airport, CA
(Lat. 37°22′23″ N, long. 118°21′49″ W)

That airspace extending upwards from the surface within a 5-mile radius of the airport, within 1.8 miles northeast and 1 mile southwest of the airport's 147° bearing extending to 6.9 miles southeast, and within 3.8 miles either side of the airport's 317° bearing extending to the 7.1-mile radius of the airport.

* * * * *

Paragraph 6004 Class E Airspace Areas Designated as an Extension to a Class D or Class E Surface Area.

* * * * *

AWP CA E4 Bishop, CA [Amended]

Bishop Airport, CA
(Lat. 37°22′23″ N, long. 118°21′49″ W)

That airspace extending upward from the surface within 1.2 miles east and 1.1 miles west of the airport's 337° bearing extending from the 7.1-mile radius of the airport to 9.6 miles northwest of the airport.

* * * * *

Paragraph 6005 Class E Airspace Areas Extending Upward From 700 Feet or More Above the Surface of the Earth.

* * * * *

AWP CA E5 Bishop, CA [Amended]

Bishop Airport, CA
(Lat. 37°22′23″ N, long. 118°21′49″ W)

That airspace extending upward from 700 feet above the surface within 3.4 miles northeast and 4 miles southwest of the airport's 157° bearing extending 7.6 miles southeast of the airport, and within 3.4 miles northeast and 4 miles southwest of the airport's 337° bearing extending 15.2 miles northwest of the airport.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 71

[Docket No. FAA–2024–0867; Airspace Docket No. 24–ANE–03]

RIN 2120–AA66

Amendment of Class E Airspace; Presque Isle, ME

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: This action proposes to amend Class E airspace extending upward from 700 feet above the surface for Presque Isle International Airport, Presque Isle, ME, by adding and updating airport names in the header and updating geographic coordinates. This action would not change the airspace boundaries or operating requirements.

DATES: Comments must be received on or before June 13, 2024.

ADDRESSES: Send comments identified by FAA Docket No. FAA–2024–0867 and Airspace Docket No. 24–ANE–03 using any of the following methods:

* *Federal eRulemaking Portal:* Go to *www.regulations.gov* and follow the online instructions for sending your comments electronically.

* *Mail:* Send comments to Docket Operations, M–30; U.S. Department of Transportation, 1200 New Jersey Avenue SE, Room W12–140, West Building Ground Floor, Washington, DC 20590–0001.

* *Hand Delivery or Courier:* Take comments to Docket Operations in Room W12–140 of the West Building Ground Floor at 1200 New Jersey Avenue SE, Washington, DC, between 9 a.m. and 5 p.m., Monday through Friday, except for Federal holidays.

* *Fax:* Fax comments to Docket Operations at (202) 493–2251.

Docket: Background documents or comments received may be read at *www.regulations.gov* at any time. Follow the online instructions for accessing the docket or go to the Docket Operations in Room W12–140 of the West Building Ground Floor at 1200 New Jersey Avenue SE, Washington, DC, between 9 a.m. and 5 p.m., Monday through Friday, except for Federal holidays.

FAA Order JO 7400.11H Airspace Designations and Reporting Points and subsequent amendments can be viewed online at *www.faa.gov/air_traffic/publications/.* You may also contact the Rules and Regulations Group, Office of Policy, Federal Aviation Administration, 800 Independence Avenue SW, Washington, DC 20591; telephone: (202) 267–8783.

FOR FURTHER INFORMATION CONTACT: Justin T. Rhodes, Operations Support Group, Eastern Service Center, Federal Aviation Administration, 1701 Columbia Avenue, College Park, GA 30337; Telephone: (404) 305–5478.

SUPPLEMENTARY INFORMATION:

Authority for This Rulemaking

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority, as it would amend Class E airspace in Presque Isle, ME. An airspace evaluation determined that this update is necessary to support IFR operations in the area.

Comments Invited

The FAA invites interested persons to participate in this rulemaking by submitting written comments, data, or views. Comments are specifically invited on the overall regulatory, aeronautical, economic, environmental, and energy-related aspects of the proposal. The most helpful comments reference a specific portion of the proposal, explain the reason for any recommended change, and include supporting data. To ensure the docket does not contain duplicate comments,

commenters should submit only one time if comments are filed electronically, or commenters should send only one copy of written comments if comments are filed in writing.

The FAA will file in the docket all comments it receives, as well as a report summarizing each substantive public contact with FAA personnel concerning this proposed rulemaking. Before acting on this proposal, the FAA will consider all comments it receives on or before the closing date for comments. The FAA will consider comments filed after the comment period has closed if it is possible to do so without incurring expense or delay. The FAA may change this proposal in light of the comments it receives.

Privacy: In accordance with 5 U.S.C. 553(c), DOT solicits comments from the public to better inform its rulemaking process. DOT posts these comments, without edit, including any personal information the commenter provides, to *www.regulations.gov,* as described in the system of records notice (DOT/ALL–14 FDMS), which can be reviewed at *www.dot.gov/privacy.*

Availability of Rulemaking Documents

An electronic copy of this document may be downloaded through the internet at *www.regulations.gov.* Recently published rulemaking documents can also be accessed through the FAA's web page at *www.faa.gov/air_traffic/publications/airspace_amendments/.*

You may review the public docket containing the proposal, any comments received, and any final disposition in person in the Dockets Operations Office (see **ADDRESSES** section for address and phone number) between 9:00 a.m. and 5:00 p.m., Monday through Friday, except for Federal holidays. An informal docket may also be examined between 8:00 a.m. and 4:30 p.m., Monday through Friday, except on federal holidays at the office of the Eastern Service Center, Federal Aviation Administration, Room 350, 1701 Columbia Avenue, College Park, GA 30337.

Incorporation by Reference

Class E airspace designations are published in Paragraph 6005 of FAA Order JO 7400.11, Airspace Designations and Reporting Points, which is incorporated by reference in 14 CFR 71.1 on an annual basis. This document proposes to amend the current version of that order, FAA Order JO 7400.11H, dated August 11, 2023, and effective September 15, 2023. These updates will be published in the next update to FAA Order JO 7400.11. That order is publicly available as listed in the **ADDRESSES** section of this document.

FAA Order JO 7400.11 lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

The Proposal

The FAA proposes an amendment to 14 CFR part 71 to amend Class E airspace extending from 700 feet above the surface for Presque Isle International Airport, Presque Isle, ME, by updating Presque Isle International Airport's name (previously ''Northern Maine Regional Airport''), adding AR Gould Hospital Heliport to the description header, and updating geographic coordinates to align with FAA databases. This action would not change the airspace boundaries or operating requirements.

Controlled airspace is necessary for the safety and management of instrument flight rules (IFR) operations in the area.

Regulatory Notices and Analyses

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It therefore, (1) is not a ''significant regulatory action'' under Executive Order 12866; (2) is not a ''significant rule'' under Department of Transportation (DOT) Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this proposed rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

This proposal will be subject to an environmental analysis in accordance with FAA Order 1050.1F, ''Environmental Impacts: Policies and Procedures,'' prior to any final regulatory action by the FAA.

Lists of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

The Proposed Amendment

In consideration of the foregoing, the Federal Aviation Administration proposes to amend 14 CFR part 71 as follows:

PART 71—DESIGNATION OF CLASS A, B, C, D, AND E AIRSPACE AREAS; AIR TRAFFIC SERVICE ROUTES; AND REPORTING POINTS

■ 1. The authority citation for part 71 continues to read as follows:

Authority: 49 U.S.C. 106(f), 106(g); 40103, 40113, 40120; E.O. 10854, 24 FR 9565, 3 CFR, 1959–1963 Comp., p. 389.

§ 71.1 [Amended]

■ 2. The incorporation by reference in 14 CFR 71.1 of FAA Order JO 7400.11H, Airspace Designations and Reporting Points, dated August 11, 2023, and effective September 15, 2023, is amended as follows:

Paragraph 6005 Class E Airspace Areas Extending Upward From 700 Feet or More Above the Surface of the Earth.

* * * * *

ANE ME E5 Presque Isle, ME

Presque Isle International Airport, ME
(Lat. 46°41′20″ N, long. 68°02′41″ W)
Caribou Municipal Airport
(Lat. 46°52′18″ N, long. 68°01′06″ W)
Loring International Airport
(Lat. 46°57′02″N, long. 67°53′09″ W)
AR Gould Hospital Heliport
(Lat. 46°40′33″N, long. 67°59′56″ W)

That airspace extending upward from 700 feet above the surface within an area bounded by a line beginning at lat. 46°27′20″ N, long. 67°46′57″ W, to lat. 46°27′16″ N, long. 68°15′11″ W, to lat. 46°58′33″ N, long. 68°25′07″ W, to lat. 47°06′57″ N, long. 67°53′40″ W, to lat. 47°03′52″ N, long. 67°47′26″ W, to the point of beginning, excluding that airspace outside of the United States.

[WT Docket No. 20–133; FCC 24–16; FR ID 207951]

Modernizing and Expanding Access to the 70/80/90 GHz Bands; Further Notice of Proposed Rulemaking

AGENCY: Federal Communications Commission.

ACTION: Proposed rule; solicitation of comment.

SUMMARY: In this document, the Federal Communications Commission

(Commission) seeks comment on the potential inclusion of ship-to-aerostat transmissions as part of maritime operations otherwise authorized in a Report and Order, and of Fixed Satellite Service (FSS) earth stations in the third-party database registration system used for terrestrial links in certain bands.

DATES: Comments are due on or before May 29, 2024; reply comments are due on or before June 28, 2024. Written comments on the Initial Regulatory Flexibility Analysis (IRFA) in this document must have a separate and distinct heading designating them as responses to the IRFA and must be submitted by the public on or before May 29, 2024. Written comments on the Paperwork Reduction Act proposed information collection requirements must be submitted by the public, Office of Management and Budget (OMB), and other interested parties on or before June 28, 2024.

ADDRESSES: Pursuant to §§ 1.415 and 1.419 of the Commission's rules, 47 CFR 1.415, 1.419, interested parties may file comments and reply comments on or before the dates indicated on the first page of this document. Comments may be filed using the Commission's Electronic Comment Filing System (ECFS). *See* Electronic Filing of Documents in Rulemaking Proceedings, 63 FR 24121 (1998). You may submit comments, identified by WT Docket No. 20–133, by any of the following methods:

- *Electronic Filers:* Comments may be filed electronically using the internet by accessing ECFS: *https://www.fcc.gov/ecfs/.*
- *Paper Filers:* Parties who choose to file by paper must file an original and one copy of each filing.
- Filings can be sent by commercial overnight courier, or by first-class or overnight U.S. Postal Service mail. All filings must be addressed to the Commission's Secretary, Office of the Secretary, Federal Communications Commission.
- Commercial overnight mail (other than U.S. Postal Service Express Mail and Priority Mail) must be sent to 9050 Junction Drive, Annapolis Junction, MD 20701.
- U.S. Postal Service first-class, Express, and Priority mail must be addressed to 45 L Street NE, Washington, DC 20554.
- Effective March 19, 2020, and until further notice, the Commission no longer accepts any hand- or messenger-delivered filings. This is a temporary measure taken to help protect the health and safety of individuals, and to mitigate the transmission of COVID–19. *See FCC Announces Closure of FCC Headquarters Open Window and Change in Hand-Delivery Policy, Public Notice,* 35 FCC Rcd 2788, 2788–89 (OS 2020), *https://www.fcc.gov/document/fcc-closes-headquarters-open-window-and-changes-hand-delivery-policy.*

People with Disabilities: To request materials in accessible formats for people with disabilities (braille, large print, computer diskettes, audio recordings), send an email to *fcc504@fcc.gov* or call the Consumer & Governmental Affairs Bureau at 202–418–0530 (voice), 202–418–0432 (TTY).

FOR FURTHER INFORMATION CONTACT: Jeffrey Tignor, Wireless Telecommunications Bureau, Broadband Division, at *Jeffrey.Tignor@fcc.gov* or 202–418–0774. For Paperwork Reduction Act, contact Kathy Williams at *PRA@fcc.gov* or 202–418–2918.

SUPPLEMENTARY INFORMATION: This is a summary of the Commission's Further Notice of Proposed Rulemaking (*FNPRM*) in WT Docket No. 20–33, FCC 24–16; adopted on January 24, 2024 and released on January 26, 2024. The full text of this document is available at *https://docs.fcc.gov/public/attachments/FCC-24-16A1.pdf.*

Ex Parte Rules

The proceeding shall be treated as ''permit-but-disclose'' in accordance with the Commission's *ex parte* rules. Persons making *ex parte* presentations must file a copy of any written presentation or a memorandum summarizing any oral presentation within two business days after the presentation (unless a different deadline applicable to the Sunshine period applies). Persons making oral *ex parte* presentations are reminded that memoranda summarizing the presentation must: (1) list all persons attending or otherwise participating in the meeting at which the *ex parte* presentation was made; and (2) summarize all data presented and arguments made during the presentation. If the presentation consisted in whole or in part of the presentation of data or arguments already reflected in the presenter's written comments, memoranda, or other filings in the proceeding, the presenter may provide citations to such data or arguments in his or her prior comments, memoranda, or other filings (specifying the relevant page and/or paragraph numbers where such data or arguments can be found) in lieu of summarizing them in the memorandum. Documents shown or given to Commission staff during *ex parte* meetings are deemed to be written *ex parte* presentations and must be filed consistent with rule 1.1206(b). In proceedings governed by rule 1.49(f) or for which the Commission has made available a method of electronic filing, written *ex parte* presentations and memoranda summarizing oral *ex parte* presentations, and all attachments thereto, must be filed through the electronic comment filing system available for that proceeding, and must be filed in their native format (*e.g.,* .doc, .xml, .ppt, searchable .pdf). Participants in this proceeding should familiarize themselves with the Commission's *ex parte* rules.

Initial Regulatory Flexibility Analysis

The Commission prepared an Initial Regulatory Flexibility Analysis (IRFA) concerning the potential impact of rule and policy changes in the *FNPRM* on small entities. Written public comments are requested on the IRFA. Comments must be filed by the deadlines for comments on the *FNPRM* indicated on the first page of this document and must have a separate and distinct heading designating them as responses to the IRFA, see section II of this document for more detail.

Paperwork Reduction Act

This document contains new or modified information collection requirements subject to the Paperwork Reduction Act of 1995 (PRA), Public Law 104–13. It will be submitted to the Office of Management and Budget (OMB) for review under section 3507(d) of the PRA. OMB, the general public, and other Federal agencies will be invited to comment on the new or modified information collection requirements contained in this proceeding. In addition, the Commission notes that pursuant to the Small Business Paperwork Relief Act of 2002, Public Law 107–198, see 44 U.S.C. 3506(c)(4), the Commission previously sought specific comment on how the Commission might further reduce the information collection burden for small business concerns with fewer than 25 employees.

Providing Accountability Through Transparency Act

The Providing Accountability Through Transparency Act requires each agency, in providing notice of a rulemaking, to post online a brief plain-language summary of the proposed rule. Accordingly, the Commission will publish the required summary of this *FNPRM* on *https://www.fcc.gov/proposed-rulemakings.*

Synopsis

I. Further Notice of Proposed Rulemaking in WT Docket No. 20–133

1. In this *FNPRM,* the Commission seeks comment on two issues regarding the 71–76 GHz (70 GHz) and 81–86 GHz (80 GHz) bands for which the record in this proceeding was not sufficient for it to make a determination in the *Report and Order:* (1) whether to permit ship-to-aerostat transmissions as part of the maritime service otherwise authorized in the *Report and Order;* and (2) whether to include FSS earth stations in the existing third-party database registration regime modified in the *Report and Order.*

2. *Inclusion of Ship-to-Aerostat Transmissions in the Maritime Service.* In the *Report and Order,* the Commission declined to permit ship-to-aerostat transmissions at this time.[1] The Commission notes that Aeronet Global Communications, Inc. (Aeronet) has expressed concern that ship-to-aerostat links are critical to the operation of its proposed maritime system, and claimed that the maritime broadband services otherwise newly authorized in the *Report and Order* depend on the availability of a return link. The Commission seeks comment on whether to authorize ship-to-aerostat transmissions, including input on the potential impact on Federal and other non-Federal operations.

3. *Inclusion of Fixed Satellite Service (FSS) in Third-Party Database Registration System.* In the *Report and Order,* the Commission declined to include FSS earth stations in the third-party database registration system because of lack of notice, and a record insufficient to address this issue. Space Exploration Technology Corporation (SpaceX) has advocated for the inclusion of FSS into the existing light-licensing regime for the 70/80/90 GHz bands. To date, few parties have addressed the feasibility of these proposals, and those that have mentioned the issue have suggested that operational limitations and/or further technical study would be needed. As SpaceX contends and others support, incorporating earth station gateways in the third-party database would enable the light-licensing approach currently used for operations under subpart Q of part 101 to serve as a unified portal for operations in the 70 GHz and 80 GHz bands that are licensed under a nationwide, non-exclusive license. The Commission recognizes that a unified database may provide efficiencies for the use of these bands and may offer other benefits.

4. Accordingly, the Commission seeks comment on the potential inclusion of FSS earth stations in the third-party database registration regime in the 70 GHz and 80 GHz bands. As a general matter, would it be feasible to include FSS in the database registration process? Would doing so have any negative effects on incumbent services? What changes would be necessary to the database system to accommodate FSS registrations, and would those changes be feasible? The Commission notes that in response to the aeronautical and maritime rules the Commission adopts, at least one party has articulated how ''major modifications to the databases or most likely entirely new structures'' may be necessary, and that ''[m]aking [these] changes . . . and developing enhanced analysis methods to cover coordination zones . . . would have to be supported by the proponents'' of the newly included operations in the bands. See, *e.g.,* Comsearch Comments, WT Docket No. 20–133, at 1 (filed Nov. 8, 2023). The Commission seeks comment on whether analogous concerns exist for the changes that may be necessary to permit FSS into the regime, and on the allocation of costs for such changes.

5. If the Commission does incorporate FSS earth stations into the third-party database system under what protection criteria should they be included? SpaceX argues that the limits set forth in the Federal Agencies Letter, which the Commission adopts for aeronautical operations in these bands, are inappropriate for FSS, and urges the Commission to instead adopt the rules found in part 25 as a guide to the appropriate operational restrictions for FSS in this context. The part 25 rules, however, contemplate individual coordination of earth stations, and therefore may not be a good fit for the link registration system (LRS) administered by third-party database managers that is used to coordinate operations in these bands. The equivalent isotropically radiated power (EIRP) limit for earth stations in part 25 is much more generous than the EIRP limits for fixed and aeronautical services in these bands.[2] For earth stations that are individually coordinated, this higher-powered limit may be modified to suit the specific circumstances and satisfy all potentially affected parties. For database coordination, however, the EIRP limit must be such that coexistence with other operators and services is possible without such individual attention. The EIRP limits the Commission adopts for aeronautical service are the product of significant attention, analysis and input from a variety of parties and perspectives, including those operators and services most likely to be affected by any harmful interference. The Commission seeks similar comment on appropriate EIRP limits for potential FSS earth stations in the 70 GHz and 80 GHz bands. What limits would best enable meaningful FSS service, while adequately protecting incumbent operations? In a similar vein, the Commission seeks comment on the appropriate out-of-band emissions (OOBE) limits for FSS earth stations in these bands, given the importance of protecting adjacent band operations. The Commission also seeks comment generally on any other operational limits or restrictions that might be required to meaningfully enable database registration for FSS earth stations without risking harmful interference to incumbent and adjacent services.

6. The Commission seeks comment on the appropriate criteria for the protection of FSS from other services. The rules that the Commission adopts are designed in part to protect FSS operations, both Federal and non-Federal, from the newly established aeronautical service. However, there are currently no rules requiring fixed links to protect FSS operations. What criteria could be implemented for this purpose? Current part 101 rules include an interference protection threshold for fixed services. Is there a similar appropriate threshold for satellite earth stations? Are there any other protection criteria that might be necessary to ensure that other services in these bands do not cause harmful interference to FSS operations? Consistent with the Commission's statement when it adopted service rules for Fixed Service (FS) use of the band, the Commission proposes to require registrations for new FS links submitted on or after the release date of this *FNPRM* to demonstrate protection of FSS earth stations with a final authorization prior

[1] For purposes of both the *Report and Order* and the *Further Notice of Proposed Rulemaking,* the Commission considers the term ''aerostat'' to mean an airborne transmitter operating within a small specified area, below 1,000 feet of elevation, regardless of method of propulsion.

[2] 47 CFR 5.204(b) (+ 64 dBW in any 1 megahertz band); *id.* 101.113 (+55 dBW). Because the part 25 limit is expressed as a power density, while the part 101 limit is not, this is not a direct comparison. Converting the part 25 limit to 70/80 GHz channel sizes, which are at minimum 1.25 gigahertz, yields an equivalent EIRP of, at minimum, +94.96 dBW toward the horizon, or 39.96 dB higher than the part 101 limit, while for a 4.5 gigahertz channel the part 25 limit would allow an EIRP 45.53 dB higher than the part 101 limit.

to the submission date of the new FS registration.

7. Finally, the Commission seeks comment on any changes that would be necessary to its rules or procedures to accommodate FSS in the third-party database system as a logistical matter. Currently, terrestrial and aeronautical operators must first obtain a nationwide license from the Commission before registering individual sites with a database administrator. What would be the equivalent for a satellite operator? Should a satellite operator also be required to obtain a nationwide license from the Commission before registering individual sites with a database administrator? If so, what changes would be required to the part 25 earth station licensing rules? The Commission also seeks comment on any changes necessary for Federal to non-Federal coordination in the FSS context. For fixed services in these bands, this coordination is accomplished by the database administrators querying an automated green light/yellow light system operated by National Telecommunications and Information Administration (NTIA), with a yellow light result leading to more individual coordination. Could this system accommodate FSS operations as well? What changes would be necessary to support such inclusion? The Commission seeks comment generally on these and any other issues raised by the possibility of including FSS earth stations in the 70/80 GHz database registration system.

II. Intitial Regulatory Flexibility Analysis

8. As required by the Regulatory Flexibility Act of 1980, as amended (RFA), the Commission has prepared this IRFA of the possible significant economic impact on a substantial number of small entities by the policies proposed in the *FNPRM.* Written public comments are requested on this IRFA. Comments must be identified as responses to the IRFA and must be filed by the deadlines for comments provided on the first page of the *FNPRM.* The Commission will send a copy of the *FNPRM,* including this IRFA, to the Chief Counsel for Advocacy of the Small Business Administration (SBA). In addition, the *FNPRM* and the IRFA (or summaries thereof) will be published in the **Federal Register**.

A. Need for, and Objectives of, the Proposed Rules

9. In the *FNPRM,* the Commission considers and seeks comment on whether—and if so, how—it might include FSS earth stations in the third-party database registration regime currently used for operations in the 70 GHz and 80 GHz bands. Included in the Commission's discussion of potential rule changes and requests for comments in the *FNPRM* are repeated requests from SpaceX, which has advocated for the inclusion of FSS into the existing light-licensing regime for the 70/80/90 GHz bands. The *FNPRM* seeks comment on issues including whether it would be feasible to include FSS in the database regime process, and whether doing so would have any negative effects on incumbent services. The Commission also solicits comment on what changes to the database system might be needed, whether such changes are feasible, how costs for any changes should be allocated and if those costs would have a significant economic impact on small entities either currently operating, or seeking to operate, in those bands. Lastly, the item also asks commenters to address what protection criteria should be adopted if FSS earth stations are incorporated into the third-party database system, on the appropriate criteria for the protection of FSS from other service, and on any changes that might be necessary to the Commission's rules or procedures as a logistical matter. In addition, in the *FNPRM,* the Commission seeks comment on whether to permit ship-to-aerostat transmissions as part of the maritime service otherwise authorized in the *Report and Order.*

B. Legal Basis

10. The proposed action is authorized pursuant to sections 4, 303, and 307 of the Communications Act of 1934, as amended, 47 U.S.C. 154, 303, and 307.

C. Description and Estimate of the Number of Small Entities to Which the Rules Will Apply

11. The RFA directs agencies to provide a description of, and where feasible, an estimate of the number of small entities that may be affected by the proposed rules, if adopted. The RFA generally defines the term ''small entity'' as having the same meaning as the terms ''small business,'' ''small organization,'' and ''small governmental jurisdiction.'' In addition, the term ''small business'' has the same meaning as the term ''small business concern'' under the SBA.'' A ''small business concern'' is one which: (1) is independently owned and operated; (2) is not dominant in its field of operation; and (3) satisfies any additional criteria established by the SBA.

12. *Small Businesses, Small Organizations, Small Governmental Jurisdictions.* The Commission's actions, over time, may affect small entities that are not easily categorized at present. The Commission therefore describes, at the outset, three broad groups of small entities that could be directly affected herein. First, while there are industry specific size standards for small businesses that are used in the regulatory flexibility analysis, according to data from the SBA's Office of Advocacy, in general a small business is an independent business having fewer than 500 employees. These types of small businesses represent 99.9% of all businesses in the United States, which translates to 33.2 million businesses.

13. Next, the type of small entity described as a ''small organization'' is generally ''any not-for-profit enterprise which is independently owned and operated and is not dominant in its field.'' The Internal Revenue Service (IRS) uses a revenue benchmark of $50,000 or less to delineate its annual electronic filing requirements for small exempt organizations. Nationwide, for tax year 2020, there were approximately 447,689 small exempt organizations in the U.S. reporting revenues of $50,000 or less according to the registration and tax data for exempt organizations available from the IRS.

14. Finally, the small entity described as a ''small governmental jurisdiction'' is defined generally as governments of cities, counties, towns, townships, villages, school districts, or special districts, with a population of less than fifty thousand.'' U.S. Census Bureau data from the 2017 Census of Governments indicate there were 90,075 local governmental jurisdictions consisting of general purpose governments and special purpose governments in the United States. Of this number, there were 36,931 general purpose governments (county, municipal, and town or township) with populations of less than 50,000 and 12,040 special purpose governments—independent school districts with enrollment populations of less than 50,000. Accordingly, based on the 2017 U.S. Census of Governments data, the Commission estimates that at least 48,971 entities fall into the category of ''small governmental jurisdictions.''

15. *Wireless Telecommunications Carriers (except Satellite).* This industry comprises establishments engaged in operating and maintaining switching and transmission facilities to provide communications via the airwaves. Establishments in this industry have spectrum licenses and provide services using that spectrum, such as cellular services, paging services, wireless internet access, and wireless video services. The SBA size standard for this industry classifies a business as small if

it has 1,500 or fewer employees. U.S. Census Bureau data for 2017 show that there were 2,893 firms in this industry that operated for the entire year. Of that number, 2,837 firms employed fewer than 250 employees. Additionally, based on Commission data in the 2022 Universal Service Monitoring Report, as of December 31, 2021, there were 594 providers that reported they were engaged in the provision of wireless services. Of these providers, the Commission estimates that 511 providers have 1,500 or fewer employees. Consequently, using the SBA's small business size standard, most of these providers can be considered small entities.

16. *Fixed Microwave Services.* Fixed microwave services include common carrier, private-operational fixed, and broadcast auxiliary radio services. They also include the Upper Microwave Flexible Use Service (UMFUS), Millimeter Wave Service (70/80/90 GHz), Local Multipoint Distribution Service (LMDS), the Digital Electronic Message Service (DEMS), 24 GHz Service, Multiple Address Systems (MAS), and Multichannel Video Distribution and Data Service (MVDDS), where in some bands licensees can choose between common carrier and non-common carrier status. Wireless Telecommunications Carriers (*except* Satellite) is the closest industry with a SBA small business size standard applicable to these services. The SBA small size standard for this industry classifies a business as small if it has 1,500 or fewer employees. U.S. Census Bureau data for 2017 show that there were 2,893 firms that operated in this industry for the entire year. Of this number, 2,837 firms employed fewer than 250 employees. Thus under the SBA size standard, the Commission estimates that a majority of fixed microwave service licensees can be considered small.

17. The Commission's small business size standards with respect to fixed microwave services involve eligibility for bidding credits and installment payments in the auction of licenses for the various frequency bands included in fixed microwave services. When bidding credits are adopted for the auction of licenses in fixed microwave services frequency bands, such credits may be available to several types of small businesses based average gross revenues (small, very small and entrepreneur) pursuant to the competitive bidding rules adopted in conjunction with the requirements for the auction and/or as identified in part 101 of the Commission's rules for the specific fixed microwave services frequency bands.

18. In frequency bands where licenses were subject to auction, the Commission notes that as a general matter, the number of winning bidders that qualify as small businesses at the close of an auction does not necessarily represent the number of small businesses currently in service. Further, the Commission does not generally track subsequent business size unless, in the context of assignments or transfers, unjust enrichment issues are implicated. Additionally, since the Commission does not collect data on the number of employees for licensees providing these services, at this time the Commission is not able to estimate the number of licensees with active licenses that would qualify as small under the SBA's small business size standard.

19. *Satellite Telecommunications.* This industry comprises firms ''primarily engaged in providing telecommunications services to other establishments in the telecommunications and broadcasting industries by forwarding and receiving communications signals via a system of satellites or reselling satellite telecommunications.'' Satellite telecommunications service providers include satellite and earth station operators. The SBA small business size standard for this industry classifies a business with $38.5 million or less in annual receipts as small. U.S. Census Bureau data for 2017 show that 275 firms in this industry operated for the entire year. Of this number, 242 firms had revenue of less than $25 million. Additionally, based on Commission data in the 2022 Universal Service Monitoring Report, as of December 31, 2021, there were 65 providers that reported they were engaged in the provision of satellite telecommunications services. Of these providers, the Commission estimates that approximately 42 providers have 1,500 or fewer employees. Consequently, using the SBA's small business size standard, a little more than half of these providers can be considered small entities.

20. *All Other Telecommunications.* This industry is comprised of establishments primarily engaged in providing specialized telecommunications services, such as satellite tracking, communications telemetry, and radar station operation. This industry also includes establishments primarily engaged in providing satellite terminal stations and associated facilities connected with one or more terrestrial systems and capable of transmitting telecommunications to, and receiving telecommunications from, satellite systems. Providers of internet services (*e.g.,* dial-up ISPs) or Voice over Internet Protocol (VoIP) services, via client-supplied telecommunications connections are also included in this industry. The SBA small business size standard for this industry classifies firms with annual receipts of $35 million or less as small. U.S. Census Bureau data for 2017 show that there were 1,079 firms in this industry that operated for the entire year. Of those firms, 1,039 had revenue of less than $25 million. Based on this data, the Commission estimates that the majority of ''All Other Telecommunications'' firms can be considered small.

21. *Radio and Television Broadcasting and Wireless Communications Equipment Manufacturing.* This industry comprises establishments primarily engaged in manufacturing radio and television broadcast and wireless communications equipment. Examples of products made by these establishments are: transmitting and receiving antennas, cable television equipment, GPS equipment, pagers, cellular phones, mobile communications equipment, and radio and television studio and broadcasting equipment. The SBA small business size standard for this industry classifies businesses having 1,250 employees or less as small. U.S. Census Bureau data for 2017 show that there were 656 firms in this industry that operated for the entire ear. Of this number, 624 firms had fewer than 250 employees. Thus, under the SBA size standard, the majority of firms in this industry can be considered small.

D. Description of Projected Reporting, Recordkeeping, and Other Compliance Requirements for Small Entities

22. The proposals contemplated in the *FNPRM* may impose new or additional reporting, recordkeeping, and/or other compliance obligations on small entities, as well as on other licensees and applicants if adopted. In particular, there may be new recordkeeping or compliance obligations created if changes are made to the Commission's part 101 technical and/or operational rules in order to accommodate the potential inclusion of FSS earth stations in the third-party database registration regime in the 70 GHz and 80 GHz bands or in order to permit ship-to-aerostat transmissions as part of the maritime service otherwise authorized in the *Report and Order.*

23. At this time, Commission is not currently in a position to determine whether, if adopted, the proposed rules and associated requirements raised in

the *FNPRM* would require small entities to hire attorneys, engineers, consultants, or other professionals and cannot quantify the cost of compliance with the potential rule changes and compliance obligations raised herein. In the Commission's discussion of these proposals in the *FNPRM,* the Commission have sought comments from the parties in the proceeding, and requested costs and benefits analyses, which may help the Commission identify and evaluate relevant matters for small entities, including any compliance costs and burdens that may result from any matters discussed in the *FNPRM,* or from any proposed rules in the proceeding, should they be adopted.

E. Steps Taken To Minimize the Significant Economic Impact on Small Entities, and Significant Alternatives Considered

24. The RFA requires an agency to describe any significant, specifically small business, alternatives that it has considered in reaching its proposed approach, which may include the following four alternatives (among others): (1) the establishment of differing compliance or reporting requirements or timetables that take into account the resources available to small entities; (2) the clarification, consolidation, or simplification of compliance or reporting requirements under the rule for such small entities; (3) the use of performance, rather than design, standards; and (4) an exemption from coverage of the rule, or any part thereof, for such small entities.

25. In the *FNPRM,* the Commission has sought to minimize the economic impact on small entities, as well as considered significant alternatives and weigh their potential impact to those entities. For example, in response to Space X's advocacy for including FSS into the existing light-licensing regime for the 70/80/90 GHz bands, the Commission considered whether it was feasible to alter the third-party database registration regime to include FSS earth stations as well as what compliance obligations could be adopted to minimize the economic impact to small entities. In addition, in response to Aeronet's advocacy for permitting ship-to-aerostat transmissions in the maritime service otherwise authorized in the *Report and Order,* the Commission considered whether it was feasible to authorize such links as well as what compliance obligations could be adopted to minimize the economic impact on small entities. In order to provide proper notice for potential commenters and to allow for a technical record that will better assist the Commission in adopting rules that will minimize burdens to small and other entities as much as possible, the Commission seek comment on FSS-specific issues and issues related to ship-to-aerostat links.

26. Additionally, the Commission considered what types of changes to the database system would be needed for FSS registrations and if any changes, if adopted, would cause major modifications to the databases, or alternatively, if entirely new database structures would be required. The Commission seek comment from small entities as to what economic or compliance-related challenges they would encounter as a result of adopting such changes. The Commission also considered what protection criteria should be included as part of incorporating FSS earth stations into the third-party database system. For example, the Commission could adopt, as SpaceX prefers, the rules found in part 25 as a framework for appropriate FSS operational restrictions, as opposed to using the limits set forth in the Federal Agencies Letter, which was adopted by the Commission for aeronautical operations in these bands. The Commission seek comment on any other operational limits or restrictions that might be required to meaningfully enable database registration for FSS earth stations without risking harmful interference to incumbent and adjacent services. Lastly, the Commission also considered what types of changes to its rules or procedures intended to accommodate FSS in the third-party database system would be necessary, what licensing requirements for satellite operators would be required and what changes would be needed for Federal to non-Federal coordination in the FSS context.

27. To assist with the Commission's evaluation of the significant economic impact on small entities, and to better evaluate options and alternatives should the proposals in the *FNPRM* be adopted, the Commission has sought comment from the parties. The proposals in this proceeding to accommodate the potential inclusion of FSS earth stations in the third-party database registration regime in the 70 GHz and 80 GHz bands are predicated on requests from SpaceX for the same. The proposals in this proceeding to include ship-to-aerostat transmissions as part of the maritime service otherwise authorized in the *Report and Order* are predicated on requests from Aeronet for the same. In light of these requests, the *FNPRM* seeks comment on how to weigh the inherent public interest considerations involved. The Commission expects to more fully consider the economic impact and alternatives for small entities following the review of comments and costs and benefits analyses filed in response to the *FNPRM.* The Commission's evaluation of this information will shape the final alternatives it considers, the final conclusions in reaches, and any final actions it ultimately takes in this proceeding to minimize any significant economic impact that may occur on small entities.

F. Federal Rules That May Duplicate, Overlap, or Conflict With the Proposed Rules

28. None.

III. Ordering Clauses

29. *It is ordered* that, pursuant to sections 4, 303, and 307 of the Communications Act of 1934, as amended, 47 U.S.C 154, 303, 307, the Further Notice of Proposed Rulemaking *is adopted* as set forth above.

30. *It is further ordered* that the Commission's Office of the Secretary, *shall send* a copy of the Further Notice of Proposed Rulemaking, including the Initial Regulatory Flexibility Analysis, to the Chief Counsel for Advocacy of the Small Business Administration.

Federal Communications Commission.

Marlene Dortch,

Secretary, Office of the Secretary.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[Doc. No. AMS–NOP–23–0089]

National Organic Standards Board: Call for Nominations

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Notice; call for nominations.

SUMMARY: The National Organic Standards Board (NOSB) was established to assist in the development of standards for substances to be used in organic production and to advise the Secretary on the implementation of the Organic Foods Production Act of 1990 (OFPA). Through this Notice, the U.S. Department of Agriculture (USDA) is announcing its call for nominations to fill five vacancies on the NOSB. The positions are listed below under **SUPPLEMENTARY INFORMATION.** Appointees will serve a 5-year term likely beginning January 23, 2025, and ending January 23, 2030. Additionally, USDA seeks nominations for a pool of candidates that the Secretary of Agriculture can draw upon as replacement appointees if unexpected vacancies occur.

DATES: Application packages must be received by mail or postmarked on or before June 28, 2024.

ADDRESSES: Applications can be sent via email to Michelle Arsenault at *michelle.arsenault@usda.gov,* or mailed to: USDA–AMS–NOP, 1400 Independence Avenue SW, Room 2642–S, Ag Stop 0268, Washington, DC 20250–0268. Electronic submittals are preferred.

FOR FURTHER INFORMATION CONTACT: Michelle Arsenault; Telephone: (202) 997–0115; or Email: *Michelle.Arsenault@usda.gov.*

SUPPLEMENTARY INFORMATION: For information on how to apply, please see the nominations process page: *https://www.ams.usda.gov/rules-regulations/organic/nosb/nomination-process.*

OFPA, as amended (7 U.S.C. 6501–6524), requires the Secretary to establish the NOSB in accordance with the Federal Advisory Committee Act. The NOSB is composed of 15 members: four individuals who own or operate an organic farming operation, or employees of such individuals; two individuals who own or operate an organic handling operation, or employees of such individuals; one individual who owns or operates a retail establishment with significant trade in organic products, or employees of such individuals; three individuals with expertise in areas of environmental protection and resource conservation; three individuals who represent public interest or consumer interest groups; one individual with expertise in the fields of toxicology, ecology, or biochemistry; and one individual who is a certifying agent.

Through this notice, USDA seeks to fill the following five positions:

- one individual who owns or operates an organic farming operation or employee of such individual;
- two individuals who own or operate an organic handling operation or employees of such individuals;
- one individual who owns or operates a retail establishment with significant trade in organic products or employee of such individual; and
- one individual with expertise in areas of environmental protection and resource conservation.

Per OFPA, individuals seeking appointment to the NOSB must meet the definition of the position that they seek as identified under 7 U.S.C. 6518. For example, demonstrated experience and interest in organic production and organic certification; demonstrated experience with respect to agricultural products produced and handled on certified organic farms, or experience with consumer and public interest organizations. Applicants must also satisfy additional selection criteria the NOSB recommended on June 10, 1999. These criteria are listed below and on the following web page: *https://www.ams.usda.gov/rules-regulations/organic/nosb/nomination-process.*

Additional criteria include:

- an understanding of organic principles and practical experience in the organic community;
- a commitment to the integrity of the organic food and fiber industry;
- demonstrated experience in the development of public policy such as participation on public or private advisory boards, boards of directors, or other comparable organizations;
- participation in standards development or involvement in educational outreach activities;
- the ability to evaluate technical information and to fully participate in NOSB deliberation and recommendations;
- the willingness to commit the time and energy necessary to assume NOSB duties; and
- other such factors as may be appropriate for specific positions.

To apply, submit the following: a resume (required); Form AD–755 (required), which can be accessed at: *https://www.usda.gov/sites/default/files/documents/ad-755.pdf;* a cover letter (optional); and letters of recommendation (optional). Resumes should be no longer than five (5) pages and should include the following information: the position for which you are applying; current and past organization affiliations; areas of expertise; education; career positions held; and any other notable positions held. Previous applicants who wish to be considered must reapply.

If USDA receives a request under the Freedom of Information Act.

(5 U.S.C. 552) for records relating to NOSB nominations, application materials may be released to the requester. Prior to the release of the information, personally identifiable information protected by the Privacy Act (5 U.S.C. 552a) will be redacted.

The Agricultural Marketing Service (AMS) encourages submissions from traditionally underrepresented individuals, organizations, and businesses to reflect the diversity of this industry. AMS encourages submissions from qualified applicants, regardless of race, color, age, sex, sexual orientation, gender identity, national origin, religion, disability status, protected veteran status, or any other characteristic protected by law.

AMS policy is that diversity of the boards should reflect the diversity of its industries in terms of the experience of members, methods of production and distribution, marketing strategies, and other distinguishing factors, including but not limited to individuals from historically underserved communities,

that will bring different perspectives and ideas to the Board. AMS plans to conduct extensive outreach, paying particular attention to reaching underserved communities; diversity of the population served; and the knowledge, skills, and abilities of the members to serve a diverse population.

The information collection requirements concerning the nomination process have been previously approved by the Office of Management and Budget (OMB) under OMB Control No. 0505–0001.

Dated: April 24, 2024.

Cikena Reid,

USDA Committee Management Officer.

[FR Doc. 2024–09135 Filed 4–26–24; 8:45 am]

BILLING CODE 3410–02–P

DEPARTMENT OF AGRICULTURE

Solicitation of Nominations for Membership for the West Virginia Resource Advisory Committee

AGENCY: Department of Agriculture (USDA).

ACTION: Notice of solicitation of nominations for membership.

SUMMARY: In accordance with the Secure Rural Schools (SRS) and Community Self-Determination Act of 2000 as amended, codified in Agricultural Improvement Act of 2018, and the Federal Advisory Committee Act (FACA), as amended, the United States Department of Agriculture is seeking nominations of qualified candidates to be considered for the West Virginia Resource Advisory Committee (RAC). The West Virginia RAC will advise the Secretary of Agriculture on proposed recommendations and other such matters as the Secretary determines. The West Virginia RAC will be governed by the provisions of FACA. Duration of the West Virginia RAC is for two years unless renewed by the Secretary of Agriculture.

DATES: Nominations must be submitted via email or postmarked by June 30, 2024. The package must be sent to the address listed in **FOR FURTHER INFORMATION CONTACT**. Criteria for a completed package can be found in Nomination and Application Information Below.

ADDRESSES: Please submit nominations and resumes may be submitted to the Secretary of Agriculture through Kristopher Hennig, Monongahela National Forest, Partnership Coordinator, 200 Sycamore Street, Elkins, WV 26241 or email at *2146ristopher.hennig@usda.gov.*

FOR FURTHER INFORMATION CONTACT: Inquiries may be sent to Kristopher Hennig, Forest Supervisor's Office, 200 Sycamore Street, Elkins, WV 26241, by Phone at (304) 940–3317, or by email at *kristopher.hennig@usda.gov.*

SUPPLEMENTARY INFORMATION:

Background

Public Law of Secure Rural Schools and Community Self-Determination Act of 2000, as amended, 16 U.S.C. 7125, directs the Secretary of Agriculture to create Secure Rural Schools Resource Advisory Committees (SRS RAC) to provide advice and recommendations to the Forest Service concerning projects and funding consistent with SRS Title II of the Act. Pursuant to 16 U.S.C 7125 and the Federal Advisory Committee Act, 5 U.S.C. 10, notice is hereby given that the Secretary of Agriculture is seeking nominations of qualified candidates to be considered for the West Virginia RAC. Additional information on the West Virginia RAC can be found by visiting the following website at: *https://www.fs.usda.gov/main/mnf/workingtogether/advisorycommittees.*

The Act describes the duties of the committee as follows: to review projects proposed by counties and other interested parties; to recommend projects and funding; to provide early and continuous coordination with Forest Service officials; to provide frequent opportunities for citizens, organizations, tribes, land management agencies and other interested parties to participate openly and meaningfully, beginning in the early stages of project development; to monitor projects approved under the Act; to advise the designated federal official on the progress of monitoring; and to make recommendations for any appropriate changes or adjustments to projects being monitored.

Meetings for the SRS RAC's will be published on the **Federal Register** website at least 15 days prior to the meeting date at: *www.federalregister.gov.*

Membership Balance

The SRS RACs will be comprised of 15 members approved by the Secretary of Agriculture (or designee) where each will serve a 4-year term. SRS RACs memberships will be balanced in terms of the points of view represented and functions to be performed. The SRS RACs shall include representation from the following interest areas:

(1) Five persons who represent:

(a) Organized Labor or Non-Timber Forest Product Harvester Groups,

(b) Developed Outdoor Recreation, Off Highway Vehicle Users, or Commercial Recreation Activities,

(c) Energy and Mineral Development, or Commercial or Recreational Fishing Interests,

(d) Commercial Timber Industry, or

(e) Federal Grazing or Other Land Use Permits, or Represent Non-Industrial Private Forest Landowners, within the area for which the committee is organized.

(2) Five persons who represent:

(a) Nationally Recognized Environmental Organizations,

(b) Regionally or Locally Recognized Environmental Organizations,

(c) Dispersed Recreational Activities,

(d) Archaeological and Historical Interests, or

(e) Nationally or Regionally Recognized Wild Horse and Burro Interest Groups, Wildlife or Hunting Organizations, or Watershed Associations.

(3) Five persons who represent:

(a) State Elected Office (or a designee),

(b) County or Local Elected Office,

(c) American Indian Tribes within or adjacent to the area for which the committee is organized,

(d) Area School Officials or Teachers, or

(e) Affected Public at Large.

Of these members, one will become the Chairperson who is recognized for their ability to lead a group in a fair and focused manner and who has been briefed on the mission of the RAC. A chairperson is selected by a majority of RAC members. The Committee will meet on an annual basis or as needed and determined by the Agency. In the event that a vacancy arises, the Designated Federal Officer (DFO) may request the Secretary to fill the vacancy in the manner in which the original appointments were made. In accordance with the SRS Act, members of the SRS RAC shall serve without compensation. SRS RAC members may be allowed travel and per diem expenses for attendance at committee meetings, subject to approval of the DFO responsible for administrative support to the SRS RAC.

Nomination and Application Information

The appointment of members to the SRS RACs will be made by the Secretary of Agriculture. The public is invited to submit nominations for membership on the SRS RACs, either as a self-nomination or a nomination of any qualified and interested person. Any individual or organization may nominate one or more qualified persons to represent the interest areas listed above.

Individuals who wish to be considered for membership on the West Virginia Secure Rural Schools Advisory Committee must submit a nomination with information, including a *Form AD–755 (Advisory Committee or Research and Promotion Background Information).* Nominations should be typed and include the following:

If nominating an individual, a brief summary, no more than two pages, explaining the nominee's qualifications to serve on the Secure Rural Schools Advisory Committee and addressing the membership composition and criteria described above.

(a) A resume providing the nominee's background, experience, and educational qualifications.

(b) A completed *Form AD–755, Advisory Committee or Research and Promotion Background Information.* The form can be downloaded by visiting the following website *https://www.usda.gov/sites/default/files/documents/ad755.pdf.*

(c) Letters of endorsement are required for certain representations.

Persons with disabilities who require alternative means of communication for program information (for example., Braille, large print, audiotape, American Sign Language, etc.) should contact the responsible Agency or USDA's TARGET Center at (202) 720–2600 (voice and TTY) or contact USDA through the Federal Relay Service at (800) 877–8339. Additionally, program information may be made available in languages other than English.

Equal opportunity practices in accordance with USDA policies shall be followed in all appointments to the SRS RACs. To ensure that the recommendations of the SRS RACs have taken into account the needs of the diverse groups served by USDA, membership will, to the extent practicable, include individuals with demonstrated ability to represent all racial and ethnic groups, women and men, and persons with disabilities.

USDA programs are prohibited from discriminating based on race, color, national origin, religion, sex, gender identity (including gender expression), sexual orientation, disability, age, marital status, family/parental status, income derived from a public assistance program, political beliefs, or reprisal or retaliation for prior civil rights activity, in any program or activity conducted or funded by USDA (not all bases apply to all programs). Remedies and complaint filing deadlines vary by program or incident.

Dated: April 23, 2024.

Cikena Reid,

USDA Committee Management Officer.

[FR Doc. 2024–09085 Filed 4–26–24; 8:45 am]

BILLING CODE 3411–15–P

DEPARTMENT OF AGRICULTURE

Submission for OMB Review; Comment Request

The Department of Agriculture has submitted the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104–13. Comments are required regarding; whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; ways to enhance the quality, utility and clarity of the information to be collected; and ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Comments regarding this information collection received by May 29, 2024 will be considered. Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website *www.reginfo.gov/public/do/PRAMain.* Find this particular information collection by selecting ''Currently under 30-day Review—Open for Public Comments'' or by using the search function.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

Food Safety and Inspection Service

Title: Salmonella Control Strategies Pilot Projects.

OMB Control Number: 0583–NEW.

Summary of Collection: Food Safety and Inspection Service FSIS has been delegated the authority to exercise the functions of the Secretary (7 CFR 2.18 and 2.53), as specified in the Poultry Products Inspection Act (PPIA) (21 U.S.C. 451, *et seq.*). This statute mandates that FSIS protect the public by verifying that poultry products are safe, wholesome, and properly labeled. This ongoing, voluntary data collection will provide comprehensive information about pathogen control and the measurement strategies necessary for an effective poultry products inspection program.

Need and Use of the Information: On October 19, 2021, USDA announced that FSIS would mobilize a stronger and more comprehensive effort to reduce Salmonella illnesses associated with poultry products. A key component of this effort is identifying ways to incentivize the use of preharvest controls to reduce Salmonella contamination coming into the slaughterhouse. Under the pilot projects program, establishments will experiment with new or existing pathogen control and measurement strategies and share data with FSIS. Associations may also submit aggregate data. The data will be analyzed by FSIS to determine whether they support changes to FSIS existing Salmonella control strategies.

Description of Respondents: Business-for-not for-profit; Farms; State, Local or Tribal Government.

Number of Respondents: 40.

Frequency of Responses: Reporting; Other (one-time).

Total Burden Hours: 620.

Rachelle Ragland-Greene,

Acting Departmental Information Collection Clearance Officer.

BILLING CODE 3410–DM–P

DEPARTMENT OF COMMERCE

Census Bureau

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; 2024 American Community Survey (ACS) Sexual Orientation and Gender Identity Test

The Department of Commerce will submit the following information collection request to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995, on or after the date of publication of this notice. We invite the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us

assess the impact of our information collection requirements and minimize the public's reporting burden. Public comments were previously requested via the **Federal Register** on September 19, 2023, during a 60-day comment period. This notice allows for an additional 30 days for public comments.

Agency: U.S. Census Bureau, Department of Commerce.

Title: American Community Survey (ACS) Methods Panel: 2024 Sexual Orientation and Gender Identity (SOGI) Test.

OMB Control Number: 0607–0936.

Form Number(s): Paper questionnaires: ACS–1(X)SGO, ACS–1(X)SGA; ACS internet electronic instrument (no form number), ACS CAPI(HU) electronic instrument (no form number), ACS Content Follow-up internet and CATI electronic instruments (no form numbers).

Type of Request: Regular submission, Request for a Revision of a Currently Approved Collection.

Number of Respondents: 281,000 respondents to the initial interview; 88,000 respondents to the Content Follow-up reinterview.

Average Hours per Response: 40 minutes for the initial interview; 20 minutes for the Content Follow-up reinterview.

Burden Hours: 216,819 hours.

	Estimated number of respondents	Estimated burden (in hours)	Total estimated burden hours
Initial Interview	281,000	0.667	187,427
Content Follow-up Reinterview	88,000	0.334	29,392
Total			216,819

Needs and Uses: The information collected in the 2024 ACS SOGI test will be used to evaluate the quality of data from questions on sexual orientation and gender identity. The research will inform recommendations for potential production ACS implementation on question wording and response options, whether a confirmation question is asked of everyone or only of those people with discrepant responses for sex at birth and current gender identity, and the style of write-in boxes to use for internet respondents. The data will also be used to produce descriptive statistics on the test topics, assess the impact on other questions on the survey that have changed, and gain insight into terminology by analyzing write-in responses and responses to qualitative questions asked in the test. Data will be assessed by mode of response as well as type of respondent (proxy or self-reported data), in addition to other subgroups of interest.

Because the questions being tested under this clearance have yet to be asked in the American Community Survey, the data gathered will not be considered official statistics of the Census Bureau or other Federal agencies. Test results will be included in research reports that will be published on the Census Bureau's website. Results may also be prepared for presentations at professional meetings and conferences or for publication in professional journals. All published test results will be statistical products that contain only aggregated data that do not reveal individual responses.

Details of the questions being tested and test plans are available in Supporting Statements A and B and associated attachments. See directions below for how to find these documents online on *www.reginfo.gov.*

Affected Public: Individuals or households.

Frequency: This is a one-time test.

Respondent's Obligation: Mandatory.

Legal Authority: Title 13 U.S.C. 141, 193, and 221.

This information collection request may be viewed at *www.reginfo.gov.* Follow the instructions to view the Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website *www.reginfo.gov/public/do/PRAMain.* Find this particular information collection by selecting ''Currently under 30-day Review—Open for Public Comments'' or by using the search function and entering either the title of the collection or the OMB Control Number 0607–0936.

Sheleen Dumas,

Department PRA Clearance Officer, Office of the Under Secretary for Economic Affairs, Commerce Department.

DEPARTMENT OF COMMERCE

Bureau of Economic Analysis

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Services Surveys: BE–180, Benchmark Survey of Financial Services Transactions Between U.S. Financial Services Providers and Foreign Persons

AGENCY: Bureau of Economic Analysis, Commerce.

ACTION: Notice of information collection, request for comment.

SUMMARY: The Department of Commerce, in accordance with the Paperwork Reduction Act of 1995 (PRA), invites the general public and other Federal agencies to comment on proposed and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. The purpose of this notice is to allow for 60 days of public comment preceding submission of the collection to OMB.

DATES: To ensure consideration, comments regarding this proposed information collection must be received on or before June 28, 2024.

ADDRESSES: Interested persons are invited to submit written comments to Christopher Stein, Chief, Services Surveys Branch, Bureau of Economic Analysis, by email to *christopher.stein@bea.gov* or *PRAcomments@bea.gov.* Please reference OMB Control Number 0608–0062 in the subject line of your comments. Do not submit Confidential Business Information or otherwise sensitive or protected information.

FOR FURTHER INFORMATION CONTACT: Requests for additional information or specific questions related to collection activities should be directed to Christopher Stein, Chief, Services Surveys Branch, Bureau of Economic Analysis; 301–278–9189; or via email at *christopher.stein@bea.gov.*

SUPPLEMENTARY INFORMATION:

I. Abstract

The Benchmark Survey of Financial Services Transactions between U.S. Financial Services Providers and Foreign Persons (Form BE–180) is a periodic survey, conducted every five years for reporting years ending in ''4'' and ''9'', that collects data from U.S. persons who engage in international trade in covered financial services transactions. This mandatory benchmark survey, conducted under the authority of the International Investment and Trade in Services Survey Act, and section 5408 of the Omnibus Trade and Competitiveness Act of 1988, covers the universe of transactions in financial services with foreign persons and is BEA's most comprehensive survey of such transactions. The survey was last conducted in 2020, covering the 2019 reporting year. A response is required from U.S. persons subject to the reporting requirements of the BE–180, whether or not they are contacted by BEA, to ensure complete coverage of transactions in financial services between U.S. and foreign persons. A U.S. person means any individual, branch, partnership, associated group, association, estate, trust, corporation, or other organization (whether or not organized under the laws of any State), resident in the United States or subject to the jurisdiction of the United States. A U.S. person must report if they had transactions with foreign persons in the categories covered by the survey during the 2024 calendar year. For U.S. persons that had combined transactions that were $3 million or less in the financial services categories covered by the survey for fiscal year 2024, a completed benchmark would include totals for each type of transaction in which they engaged. A U.S. person whose combined transactions with foreign persons exceeded $3 million in the financial services categories covered by the survey for fiscal year 2024, is required to provide data on the total transactions of each of the covered types of financial services transactions and must disaggregate the totals by country and by relationship to the foreign counterparty (foreign affiliate, foreign parent group, or unaffiliated).

The data are needed to monitor U.S. trade in financial services, to analyze the impact of these cross-border services on the U.S. and foreign economies, to compile and improve the U.S. economic accounts, to support U.S. commercial policy on trade in services, to conduct trade promotion, and to improve the ability of U.S. businesses to identify and evaluate market opportunities. The data are used in estimating the trade in financial services component of the U.S. international transactions accounts (ITAs) and national income and product accounts (NIPAs).

The Bureau of Economic Analysis (BEA) is proposing to make modifications to the survey for 2024 to further align BEA's statistics with international guidelines and to collect additional information that can be used to improve the current estimation methodologies for published financial services transactions, increasing the quality and usefulness of BEA's statistics on trade in financial services. To evaluate the feasibility of these changes, BEA conducted outreach to a sample of nine respondents to the Quarterly Survey of Financial Services Transactions between U.S. Financial Services Providers and Foreign Persons (BE–185). Reporter feedback gathered substantiated the ability of the respondents to comply with the additional data requests, and that the survey changes should not impose a material increase in reporting burden.

BEA does not plan to change the exemption levels used for the previous benchmark survey for 2019.

BEA proposes to:

(1) Add a question on employment size class. This information would be required of all survey respondents to aid in identifying the number of small businesses reporting on the survey, and the volume of services trade data reported by small businesses. These questions will help BEA's broader effort to develop statistics to better track the economic health and contributions on the nation's small businesses.

(2) Add a question to collect information on the largest states, districts, or territories (up to three) for exports and imports of services. This information would be required of all survey respondents and will contribute to BEA's effort to produce estimates of the value of exports and imports of services by U.S. state for the first time.

(3) Modify the remote services schedules (C and D) to better capture trade in digitally delivered services. This will improve BEA's estimates of U.S. trade in information and communications technology (ICT) and potentially ICT-enabled services.

BEA will also align BE–180 transaction categories to incorporate two minor modifications made to the BE–185 survey beginning with 2021 reporting: collecting brokerage services in the three separate categories of (1) equity, (2) debt, and (3) other; and financial advisory and custody services in two distinct categories for (1) advisory, and (2) custody services. BEA also plans to eliminate question 15, asking if the U.S. Reporter had cryptocurrency-related transactions. This item is no longer necessary for BEA's effort to measure financial services transactions associated with crypto currency.

BEA estimates there will be no material impact on the average filing burden. Proposals one and two should not affect burden because BEA believes this data to be readily available in reporter records or can be provided by many respondents based on recall, without the need to search existing records. Additionally, proposal three is a minor modification to data previously collected on the 2019 BE–180 benchmark survey. The codes being aligned with transaction categories on the BE–185 survey will have no material impact on burden because reporters are already reporting in these categories on the BE–185 survey or have data readily available (those companies only subject to filing in a benchmark year) since the requirement was aggregate reporting on the previous BE–180 filing.

The language in the instructions and definitions will be reviewed and adjusted as necessary to clarify survey requirements.

II. Method of Collection

BEA will contact potential respondents by mail in January of 2025 to announce the upcoming benchmark survey. Respondents would then be notified in May 2025 that a completed BE–180 form is due July 31, 2025. Reports would be required from each U.S. person that had transactions in the covered financial services with foreign persons during 2024. A response is required from persons subject to the reporting requirements of the BE–180 Benchmark Survey of Financial Services Transactions between U.S. Financial Services Providers and Foreign Persons, whether or not they are contacted by BEA.

BEA offers its electronic filing option, the eFile system, for use in reporting on Form BE–180. For more information about eFile, go to *www.bea.gov/efile.* In addition, BEA posts all its survey forms and reporting instructions on its website, *www.bea.gov/ssb.* These may

be downloaded, completed, printed, and submitted via fax or mail.

III. Data

OMB Control Number: 0608–0062.
Form Number(s): BE–180.
Type of Review: Regular submission.
Affected Public: Business or other for-profit organizations.
Estimated Number of Respondents: 6,000 annually (4,500 reporting mandatory data and 1,500 that would file exemption claims or voluntary responses).
Estimated Time per Response: 11 hours is the average for the 2,000 respondents filing data by country and affiliation; 2 hours for the 2,500 respondents filing data by transaction type only, and 1 hour for those filing an exemption claim or other response. Hours may vary considerably among respondents because of differences in company size and complexity.
Estimated Total Annual Burden Hours: 28,500.
Estimated Total Annual Cost to Public: $0.
Respondent's Obligation: Mandatory.
Legal Authority: International Investment and Trade in Services Survey Act (Pub. L. 94–472, 22 U.S.C. 3101–3108, as amended) and Section 5408 of the Omnibus Trade and Competitiveness Act of 1988.

IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility; (b) the accuracy of the Agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments that you submit in response to this notice are a matter of public record. We will include or summarize each comment in our request to OMB to approve this ICR. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you may ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Sheleen Dumas,

Department PRA Clearance Officer, Office of the Under Secretary for Economic Affairs, Commerce Department.

Certain Passenger Vehicle and Light Truck Tires From the People's Republic of China: Final Results of Antidumping Duty Administrative Review and Final Determination of No Shipments; 2018–2019

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The U.S. Department of Commerce (Commerce) determines that certain passenger vehicle and light truck tires (passenger tires) were made as less than normal value during the period of review (POR) August 1, 2018, through July 31, 2019.

DATES: Applicable April 29, 2024.

FOR FURTHER INFORMATION CONTACT: Toni Page, AD/CVD Operations, Office VII, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1402 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482–1398.

SUPPLEMENTARY INFORMATION:

Background

On June 18, 2020, Commerce published the preliminary results of the 2018–2019 administrative review of the antidumping duty order on passenger tires from the People's Republic of China (China).[1] On June 3, 2021, Commerce deferred the deadline for the final results to consider whether to request a voluntary remand from the U.S. Court of International Trade of the 2017–2018 administrative review to evaluate the information provided by U.S. Customs and Border Protection (CBP) regarding Shandong New Continent Tire Co., Ltd. (Shandong New Continent) (the mandatory respondent in the 2017–2018 administrative review whose rate of zero percent was preliminarily assigned to the separate rate respondents in the instant administrative review), further examine whether Shandong New Continent accurately reported its 2017–2018 POR sales information, and potentially reopen the record to solicit additional information.[2] On February 20, 2024, Commerce notified interested parties of its intent to issue the final results of the 2018–2019 administrative review by no later than April 22, 2024.[3] For a summary of the events subsequent to the *Preliminary Results, see* the Issues and Decision Memorandum.[4]

Scope of the Order

The products covered by this order are certain passenger vehicles and light truck tires. A full description of the scope of the order is provided in the Issues and Decision Memorandum.

Analysis of Comments Received

Commerce addressed all issues raised in the case and rebuttal briefs in the Issues and Decision Memorandum. These issues are identified in the appendix to this notice. The Issues and Decision Memorandum is a public document and is on file electronically via Enforcement and Compliance's Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS). ACCESS is available to registered users at *https://access.trade.gov*. In addition, a complete version of the Issues and Decision Memorandum can be accessed directly at *https://access.trade.gov/public/FRNoticesListLayout.aspx.*

Changes Since the Preliminary Results

Based on our analysis of the comments received, we determine that Qingdao Fullrun Tyre Corp., Ltd. (Fullrun Tyre) had no shipments during the POR. For further details, *see* the Issues and Decision Memorandum.

Final Determination of No Shipments

Based on an analysis of CBP information, Commerce determines that the following companies had no shipments during the POR: (1) Shandong Duratti Rubber Corporation

[1] *See Certain Passenger Vehicle and Light Truck Tires from the People's Republic of China: Preliminary Results of Antidumping Duty Administrative Review and Rescission, in Part: 2018–2019,* 85 FR 36831 (June 18, 2020) (*Preliminary Results*), and accompanying Preliminary Decision Memorandum (PDM).

[2] *See* Memorandum, ''Deferral of the Final Results of Antidumping Duty Administrative Review; 2018–2019,'' dated June 3, 2021.

[3] *See* Memorandum, ''Notification of Resumption of the Final Results of Antidumping Duty Administrative Review; 2018–2019,'' dated February 20, 2024.

[4] *See* Memorandum, ''Issues and Decision Memorandum for the Final Results of the Administrative Review of the Antidumping Duty Order on Certain Passenger Vehicle and Light Truck Tires from the People's Republic of China; 2018–2019,'' dated concurrently with, and hereby adopted by, this notice (Issues and Decision Memorandum).

Co., Ltd.; and (2) Qingdao Fullrun Tyre Corp., Ltd.

Shandong Anchi Tyres Co., Ltd. (Anchi) filed a no-shipment certification; however, our preliminary analysis of CBP information contradicted this claim. After further review, we determine for these final results that Anchi had shipments during the POR. For additional information regarding this determination, *see* the Issues and Decision Memorandum.

Separate Rates

In the *Preliminary Results,* we found that the following companies did not establish their eligibility for a separate rate: (1) Qingdao Odyking Tyre Co., Ltd. (Qingdao Odyking); (2) Shandong Longyue Rubber Co., Ltd. DBA ZODO Tire Co., Ltd. (Shandong Longyue); (3) Anchi; and (4) Fullrun Tyre.[5] As such, we preliminarily found that these companies were part of the China-wide entity. No interested party filed comments with respect to Qingdao Odyking's and Shandong Longyue's preliminary separate rate findings; therefore, for the final results, we continue to find that these two companies are part of the China-wide entity. Interested parties did file comments with respect to Anchi and Fullrun Tyre. We have examined these comments and continue to find that Anchi is part of the China-wide entity; however, as noted above, we have found that Fullrun Tyre had no shipments during the instant POR.[6]

We also continue to find that the evidence provided by the following respondents supports finding an absence of both *de jure* and *de facto* government control, and, therefore, we continue to grant a separate rate to each of these companies: (1) Qingdao Fullrun Tyre Tech Corp., Ltd.; (2) Qingdao Powerich Tyre Co., Ltd.; (3) Qingdao Sentury Tire Co., Ltd.; (4) Shandong Linglong Tyre Co., Ltd.; (5) Shandong Province Sanli Tire Manufactured Co., Ltd.; (6) Shandong Yongsheng Rubber Group Co., Ltd.; and (7) Shouguang Firemax Tyre Co., Ltd.

Rate for Non-Selected Separate Rate Respondents

The Tariff Act of 1930, as amended (the Act), and Commerce's regulations do not address what rate to apply to respondents not selected for individual examination when Commerce limits its examination in an administrative review pursuant to section 777A(c)(2) of the Act. Generally, Commerce looks to section 735(c)(5) of the Act, which provides instructions for calculating the all-others rate in an investigation, for guidance when calculating the rate for non-selected respondents that are not examined individually in an administrative review. Section 735(c)(5)(A) of the Act states that the all-others rate should be calculated by averaging the weighted-average dumping margins for individually examined respondents, excluding rates that are zero, *de minimis,* or based entirely on facts available. When the rates for individually examined companies are all zero, *de minimis,* or based entirely on facts available, section 735(c)(5)(B) of the Act provides that Commerce may use ''any reasonable method'' to establish the all-others rate.

However, here, because both mandatory respondents were found to be part of the China-wide entity, there are no estimated weighted-average dumping margins calculated for exporters or producers individually examined in this review. Therefore, consistent with our practice,[7] we have assigned to the non-individually examined companies that demonstrated their eligibility for a separate rate the most recently assigned separate rate in this proceeding (*i.e.,* 0.00 percent).[8]

China-Wide Entity

Under Commerce's current policy regarding the conditional review of the China-wide entity, the China-wide entity will not be under review unless a party specifically requests, or Commerce self-initiates, a review of the entity.[9] Because no party requested a review of the China-wide entity in this review, the entity is not under review and the entity's rate is not subject to change (*i.e.,* 76.46 percent).[10]

Final Results of Review

Commerce determines that the following weighted-average dumping margin exists for the period of August 1, 2018, through July 31, 2019:

Exporter	Weighted-average dumping margin (percent)
Qingdao Fullrun Tyre Tech Corp., Ltd	0.00
Qingdao Powerich Tyre Co., Ltd	0.00
Qingdao Sentury Tire Co., Ltd	0.00
Shandong Linglong Tyre Co., Ltd	0.00
Shandong Province Sanli Tire Manufactured Co., Ltd	0.00
Shandong Yongsheng Rubber Group Co., Ltd	0.00
Shouguang Firemax Tyre Co., Ltd	0.00

Disclosure

Normally, Commerce will disclose the calculations used in our analysis to parties in this review within five days of the date of publication of the notice of final results in the **Federal Register**, in accordance with 19 CFR 351.224(b). However, here, Commerce is applying a separate rate [11] and the China-wide rate [12] that were established in prior segments of the proceeding. Thus, there are no calculations on this record to disclose.

Assessment Rates

Pursuant to section 751(a)(2)(C) of the Act, and 19 CFR 351.212(b), Commerce will determine, and CBP shall assess, antidumping duties on all appropriate entries of subject merchandise in accordance with the final results of this review. Commerce intends to issue assessment instructions to CBP no earlier than 35 days after the date of publication of the final results of this review in the **Federal Register**. If a timely summons is filed at the U.S. Court of International Trade, the assessment instructions will direct CBP not to liquidate relevant entries until the time for parties to file a request for a statutory injunction has expired (*i.e.,* within 90 days of publication).

For the final results, we will instruct CBP to apply an *ad valorem* assessment

[11] *See Certain Passenger Vehicle and Light Truck Tires from the People's Republic of China: Final Results of Antidumping Duty Administrative Review; 2017–2018,* 85 FR 22396 (April 22, 2020).

[12] *See Certain Passenger Vehicle and Light Truck Tires from the People's Republic of China: Amended Final Affirmative Antidumping Duty Determination and Antidumping Duty Order; and Amended Final Affirmative Countervailing Duty Determination and Countervailing Duty Order,* 80 FR 47902 (August 10, 2015).

rate of 76.46 percent to all entries of subject merchandise during the POR that were exported by Qingdao Odyking and Shandong Longyue.

For the companies receiving a separate rate, we intend to assign an assessment rate of 0.00 percent, consistent with the methodology described above. Additionally, if Commerce determines that an exporter under review had no shipments of the subject merchandise, any suspended entries that entered under that exporter's CBP case number will be liquidated at the rate for the China-wide entity.

Cash Deposit Requirements

The following cash deposit requirements will be effective upon publication of the final results of this administrative review for all shipments of the subject merchandise from China entered, or withdrawn from warehouse, for consumption on or after the publication date, as provided for by section 751(a)(2)(C) of the Act for the three separate rate respondents that do not have a superseding cash deposit rate: [13] (1) for the exporters listed above, the cash deposit rate will be equal to the weighted-average dumping margin established in the final results of this review (except that, if the rate is *de minimis* (*i.e.,* less than 0.5 percent), then the cash deposit rate will be zero for that exporter); (2) for previously investigated or reviewed Chinese and non-Chinese exporters not listed above that have separate rates, the cash deposit rate will continue to be equal to the exporter-specific weighted-average dumping margin published of the most recently-completed segment of this proceeding; (3) for all Chinese exporters of subject merchandise that have not been found to be entitled to a separate rate, the cash deposit rate will be the rate for the China-wide entity, *i.e.,* 76.46 percent; and (4) for all exporters of subject merchandise which are not located in China and which are not eligible for a separate rate, the cash deposit rate will be the rate applicable to Chinese exporter(s) that supplied that non-Chinese exporter. These cash deposit requirements shall remain in effect until further notice.

Because Qingdao Sentury Tire Co., Ltd., Shandong Linglong Tyre Co., Ltd., Shandong Province Sanli Tire Manufactured Co., Ltd., and Shouguang Firemax Tyre Co., Ltd. have a superseding cash deposit rate, *i.e.* there have been final results published in a subsequent administrative review, we will not issue revised cash deposit instructions to CBP for these companies. Thus, this notice will not affect the current cash deposit rate for these companies.

Notification to Importers

This notice serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping and/or countervailing duties prior to liquidation of the relevant entries during this POR. Failure to comply with this requirement could result in Commerce's presumption that reimbursement of antidumping and/or countervailing duties occurred and the subsequent assessment of double antidumping duties, and/or an increase in the amount of antidumping duties by the amount of countervailing duties.

Administrative Protective Order

This notice also serves as a reminder to parties subject to an administrative protective order (APO) of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3), which continues to govern business proprietary information in this segment of the proceeding. Timely written notification of the return or destruction of APO materials, or conversion to judicial protective order, is hereby requested. Failure to comply with the regulations and terms of an APO is a violation which is subject to sanction.

Notification to Interested Parties

We are issuing and publishing these final results of administrative review and notice in accordance with sections 751(a)(1) and 777(i) of the Act and 19 CFR 351.221(b)(5).

Dated: April 22, 2024.

Ryan Majerus,

Deputy Assistant Secretary for Policy and Negotiations, performing the non-exclusive functions and duties of the Assistant Secretary for Enforcement and Compliance.

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

DATES: Applicable April 23, 2024.

FOR FURTHER INFORMATION CONTACT: Nathan James (the People's Republic of China (China)), Eliza DeLong (India), Thomas Martin (the Republic of Korea (Korea)), and Whitley Herndon (Taiwan), AD/CVD Operations, Offices V, V, IV, and IX, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482–5305, (202) 482–3878, (202) 482–3936, and (202) 482–6274, respectively.

SUPPLEMENTARY INFORMATION:

The Petitions

On April 3, 2024, the U.S. Department of Commerce (Commerce) received countervailing duty (CVD) petitions concerning imports of certain epoxy resins (epoxy resins) from China, India, Korea, and Taiwan filed in proper form on behalf of U.S. Epoxy Resin Producers *Ad Hoc* Coalition (the petitioner).[1] The CVD petitions were accompanied by antidumping duty (AD) petitions concerning imports of epoxy resins from

[1] *See* Petitioner's Letter, ''Petitions for the Imposition of Antidumping and Countervailing Duties,'' dated April 3, 2024 (the Petitions). The members of the U.S. Epoxy Resin Producers *Ad Hoc* Coalition are Olin Corporation and Westlake Corporation.

China, India, Korea, Taiwan, and Thailand.[2]

Between April 8 and 16, 2024, Commerce requested supplemental information pertaining to certain aspects of the Petitions.[3] Between April 11 and 18, 2024, the petitioner filed timely responses to these requests for additional information.[4]

In accordance with section 702(b)(1) of the Tariff Act of 1930, as amended (the Act), the petitioner alleges that the Government of China (GOC), the Government of India (GOI), the Government of Korea (GOK), and the Taiwan Authorities (TA) are providing countervailable subsidies, within the meaning of sections 701 and 771(5) of the Act, to producers of epoxy resins from China, India, Korea, and Taiwan, respectively, and that such imports are materially injuring, or threatening material injury to, the domestic industry producing epoxy resins in the United States. Consistent with section 702(b)(1) of the Act and 19 CFR 351.202(b), for those alleged programs on which we are initiating CVD investigations, the Petitions were accompanied by information reasonably available to the petitioner supporting its allegations.

Commerce finds that the petitioner filed the Petitions on behalf of the domestic industry because the petitioner is an interested party as defined in section 771(9)(F) of the Act.[5] Commerce also finds that the petitioner demonstrated sufficient industry support with respect to the initiation of the requested CVD investigations.[6]

Period of Investigation

Because the Petitions were filed on April 3, 2024, the period of investigation (POI) for China, India, Korea, and Taiwan investigations is January 1, 2023, through December 31, 2023.[7]

Scope of the Investigations

The merchandise covered by these investigations are epoxy resins from China, India, Korea, and Taiwan. For a full description of the scope of these investigations, *see* the appendix to this notice.

Comments on the Scope of the Investigations

On April 8 and 16, 2024, Commerce requested information and clarification from the petitioner regarding the proposed scope to ensure that the scope language in the Petitions is an accurate reflection of the products for which the domestic industry is seeking relief.[8] On April 12 and 18, 2024, the petitioner provided clarifications and revised the scope.[9] The description of merchandise covered by these investigations, as described in the appendix to this notice, reflects these revisions.

As discussed in the *Preamble* to Commerce's regulations, we are setting aside a period for interested parties to raise issues regarding product coverage (*i.e.,* scope).[10] Commerce will consider all comments received from interested parties and, if necessary, will consult with interested parties prior to the issuance of the preliminary determinations. If scope comments include factual information, all such factual information should be limited to public information.[11] To facilitate preparation of its questionnaires, Commerce requests that scope comments be submitted by 5:00 p.m. Eastern Time (ET) on May 13, 2024, which is 20 calendar days from the signature date of this notice.[12] Any rebuttal comments, which may include factual information, must be filed by 5:00 p.m. ET on May 23, 2024, which is 10 calendar days from the initial comment deadline.

Commerce requests that any factual information that parties consider relevant to the scope of the investigations be submitted during that time period. However, if a party subsequently finds that additional factual information pertaining to the scope of the investigations may be relevant, the party must contact Commerce and request permission to submit the additional information. All scope comments must be filed simultaneously on the records of the concurrent AD and CVD investigations.

Filing Requirements

All submissions to Commerce must be filed electronically via Enforcement and Compliance's Antidumping Duty and Countervailing Duty Centralized Electronic Service System (ACCESS), unless an exception applies.[13] An electronically filed document must be received successfully in its entirety by the time and date it is due.

Consultations

Pursuant to sections 702(b)(4)(A)(i) and (ii) of the Act, Commerce notified the GOC, GOI, GOK, and TA of the receipt of the Petitions and provided an opportunity for consultations with respect to the Petitions.[14] Commerce held consultations with the GOK on April 17, 2024 [15] and the TA April 19, 2024.[16] The GOC and the GOI did not request consultations.[17]

Determination of Industry Support for the Petitions

Section 702(b)(1) of the Act requires that a petition be filed on behalf of the domestic industry. Section 702(c)(4)(A) of the Act provides that a petition meets this requirement if the domestic producers or workers who support the petition account for: (i) at least 25 percent of the total production of the domestic like product; and (ii) more than 50 percent of the production of the domestic like product produced by that portion of the industry expressing support for, or opposition to, the petition. Moreover, section 702(c)(4)(D) of the Act provides that, if the petition does not establish support of domestic producers or workers accounting for more than 50 percent of the total production of the domestic like product, Commerce shall: (i) poll the industry or rely on other information in order to determine if there is support for the petition, as required by subparagraph (A); or (ii) determine industry support using a statistically valid sampling method to poll the ''industry.''

Section 771(4)(A) of the Act defines the ''industry'' as the producers as a whole of a domestic like product. Thus, to determine whether a petition has the requisite industry support, the statute directs Commerce to look to producers and workers who produce the domestic like product. The U.S. International Trade Commission (ITC), which is responsible for determining whether ''the domestic industry'' has been injured, must also determine what constitutes a domestic like product in order to define the industry. While both Commerce and the ITC apply the same statutory definition regarding the domestic like product,[18] they do so for different purposes and pursuant to a separate and distinct authority. In addition, Commerce's determination is subject to limitations of time and information. Although this may result in different definitions of the like product, such differences do not render the decision of either agency contrary to law.[19]

Section 771(10) of the Act defines the domestic like product as ''a product which is like, or in the absence of like, most similar in characteristics and uses with, the article subject to an investigation under this title.'' Thus, the reference point from which the domestic like product analysis begins is ''the article subject to an investigation'' (*i.e.,* the class or kind of merchandise to be investigated, which normally will be the scope as defined in the petition).

With regard to the domestic like product, the petitioner does not offer a definition of the domestic like product distinct from the scope of the investigations.[20] Based on our analysis of the information submitted on the record, we have determined that epoxy resins, as described in the domestic like product definition set forth in the Petitions, constitute a single domestic like product, and we have analyzed industry support in terms of that domestic like product.[21]

In determining whether the petitioner has standing under section 702(c)(4)(A) of the Act, we considered the industry support data contained in the Petitions with reference to the domestic like product as defined in the ''Scope of the Investigations,'' in the appendix to this notice. To establish industry support, the petitioner provided its own production of the domestic like product in 2023 and compared this to total production for the domestic like product by the U.S. epoxy resins industry.[22] We relied on the data provided by the petitioner for purposes of measuring industry support.[23] Our review of the data provided in the Petitions, the First General Issues Supplement, the Second General Issues Supplement, and other information readily available to Commerce indicates that the petitioner has established industry support for the Petitions.[24] First, the Petitions established support from domestic producers (or workers) accounting for more than 50 percent of the total production of the domestic like product and, as such, Commerce is not required to take further action to evaluate industry support (*e.g.,* polling).[25] Second, the domestic producers (or workers) have met the statutory criteria for industry support under section 702(c)(4)(A)(i) of the Act because the domestic producers (or workers) who support the Petitions account for at least 25 percent of the total production of the domestic like product.[26] Finally, the domestic producers (or workers) have met the statutory criteria for industry support under section 702(c)(4)(A)(ii) of the Act because the domestic producers (or workers) who support the Petitions account for more than 50 percent of the production of the domestic like product produced by that portion of the industry expressing support for, or opposition to, the Petitions.[27] Accordingly, Commerce determines that the Petitions were filed on behalf of the domestic industry within the meaning of section 702(b)(1) of the Act.[28]

Injury Test

Because China, India, Korea, and Taiwan are ''Subsidies Agreement Countries'' within the meaning of section 701(b) of the Act, section 701(a)(2) of the Act applies to these investigations. Accordingly, the ITC must determine whether imports of the subject merchandise from China, India, Korea, and Taiwan materially injure, or threaten material injury to, a U.S. industry.

Allegations and Evidence of Material Injury and Causation

The petitioner alleges that imports of the subject merchandise are benefiting from countervailable subsidies and that such imports are causing, or threaten to cause, material injury to the U.S. industry producing the domestic like product. In addition, the petitioner alleges that subject imports from Korea and Taiwan exceed the negligibility threshold provided for under section 771(24)(A) of the Act.[29]

With regard to China, while the allegedly subsidized imports do not

exceed the statutory requirements for negligibility,[30] the petitioner alleges and provides supporting evidence that: (1) a significant portion of the imported epoxy resins entering through Canada into the U.S. market are produced in China, and once the transshipment issue is corrected, imports from China are not negligible; [31] and (2) there is the potential that imports from China will imminently exceed the negligibility threshold and, therefore, are not negligible for purposes of a threat determination.[32] With regard to India, while the allegedly subsidized imports do not exceed the statutory requirements for negligibility,[33] the petitioner alleges and provides supporting evidence that there is the potential that imports from India will imminently exceed the negligibility threshold and, therefore, are not negligible for purposes of a threat determination.[34] The petitioner's arguments regarding the potential for imports from India and China to imminently exceed the negligibility threshold are consistent with the statutory criteria for ''negligibility in threat analysis'' under section 771(24)(A)(iv) of the Act, which provides that imports shall not be treated as negligible if there is a potential that subject imports from a country will imminently exceed the statutory requirements for negligibility.

The petitioner contends that the industry's injured condition is illustrated by the significant volume of subject imports; reduced market share; underselling and price depression and/or suppression; lost sales and revenues; and adverse impact on U.S. shipments, production, capacity utilization, and financial performance.[35] We assessed the allegations and supporting evidence regarding material injury, threat of material injury, causation, cumulation, as well as negligibility, and we have determined that these allegations are properly supported by adequate evidence and meet the statutory requirements for initiation.[36]

Initiation of CVD Investigations

Based upon the examination of the Petitions and supplemental responses, we find that they meet the requirements of section 702 of the Act. Therefore, we are initiating CVD investigations to determine whether imports of epoxy resins from China, India, Korea, and Taiwan benefit from countervailable subsidies conferred by the GOC, GOI, GOK, and TA, respectively. In accordance with section 703(b)(1) of the Act and 19 CFR 351.205(b)(1), unless postponed, we will make our preliminary determinations no later than 65 days after the date of these initiations.

China

Based on our review of the Petitions, we find that there is sufficient information to initiate a CVD investigation on 16 of 18 programs alleged by the petitioner. For a full discussion of the basis for our decision to initiate on each program, *see* the China CVD Initiation Checklist.

India

Based on our review of the Petitions, we find that there is sufficient information to initiate a CVD investigation on 15 of 16 of the programs alleged by the petitioner. For a full discussion of the basis for our decision to initiate on each program, *see* the India CVD Initiation Checklist.

Korea

Based on our review of the Petitions, we find that there is sufficient information to initiate a CVD investigation on all 32 programs alleged by the petitioner. For a full discussion of the basis for our decision to initiate on each program, *see* the Korea CVD Initiation Checklist.

Taiwan

Based on our review of the Petitions, we find that there is sufficient information to initiate a CVD investigation on 22 of the 28 programs alleged by the petitioner. For a full discussion of the basis for our decision to initiate on each program, *see* the Taiwan CVD Initiation Checklist.

Respondent Selection

In the Petitions, the petitioner identified 28 companies in China, six companies in India, three companies in Korea, and four companies in Taiwan (as producers and/or exporters of epoxy resins.[37] Commerce intends to follow its standard practice in CVD investigations and calculate company-specific subsidy rates in these investigations. In the event that Commerce determines that the number of companies is large and it cannot individually examine each company based on Commerce's resources, where appropriate, Commerce intends to select respondents based on U.S. Customs and Border Protection (CBP) data for U.S. imports of epoxy resins during the POI under the appropriate Harmonized Tariff Schedule of the United States subheadings listed within the ''Scope of the Investigations'' in the appendix.

On April 18, 2024, Commerce released the CBP data for imports of epoxy resins from China, India, Korea, and Taiwan under administrative protective order (APO) to all parties with access to information protected by APO and indicated that interested parties wishing to comment regarding the CBP data and/or respondent selection must do so within three business days of the publication date of the notice of initiation of these investigations.[38] Comments must be filed electronically using ACCESS. An electronically filed document must be received successfully, in its entirety, by ACCESS no later than 5:00 p.m. ET on the date noted above. Commerce will not accept rebuttal comments regarding the CBP data or respondent selection.

Interested parties must submit applications for disclosure under APO in accordance with 19 CFR 351.305(b). Instructions for filing such applications may be found on Commerce's website at *https://www.trade.gov/administrative-protective-orders.*

Distribution of Copies of the Petitions

In accordance with section 702(b)(4)(A) of the Act and 19 CFR 351.202(f), a copy of the public version of the Petitions has been provided to the GOC, GOI, GOK, and TA via ACCESS. To the extent practicable, we will

[37] *See* Petitions at Volume I (page 17 and Exhibit I–17); *see also* First General Issues Supplement at 2–3 and Exhibits I–S1 and I–S3; and Second General Issues Supplement at 1.

[38] *See* Memoranda, ''Countervailing Duty Petition on Certain Epoxy Resins from China: Release of Data from U.S. Customs and Border Protection,'' dated April 18, 2024; ''Countervailing Duty Investigation of Certain Epoxy Resins from India: Release of U.S. Customs and Border Protection Entry Data,'' dated April 18, 2024; ''Countervailing Duty Investigation of Certain Epoxy Resins from the Republic of Korea (Korea): Release of U.S. Customs and Border Protection Entry Data,'' dated April 18, 2024; and ''Petition for the Imposition of Countervailing Duties on Imports of Certain Epoxy Resins from Taiwan: Release of U.S. Customs and Border Protection Entry Data,'' dated April 18, 2024.

attempt to provide a copy of the public version of the Petitions to each exporter named in the Petitions, as provided under 19 CFR 351.203(c)(2).

ITC Notification

Commerce will notify the ITC of its initiation, as required by section 702(d) of the Act.

Preliminary Determination by the ITC

The ITC will preliminarily determine, within 45 days after the date on which the Petitions was filed, whether there is a reasonable indication that imports of epoxy resins from China, India, Korea, and/or Taiwan are materially injuring, or threatening material injury to, a U.S. industry.[39] A negative ITC determination for any country will result in the investigation being terminated with respect to that country.[40] Otherwise, these CVD investigations will proceed according to statutory and regulatory time limits.

Submission of Factual Information

Factual information is defined in 19 CFR 351.102(b)(21) as: (i) evidence submitted in response to questionnaires; (ii) evidence submitted in support of allegations; (iii) publicly available information to value factors of production under 19 CFR 351.408(c) or to measure the adequacy of remuneration under 19 CFR 351.511(a)(2); (iv) evidence placed on the record by Commerce; and (v) evidence other than factual information described in (i)–(iv). Section 351.301(b) of Commerce's regulations requires any party, when submitting factual information, to specify under which subsection of 19 CFR 351.102(b)(21) the information is being submitted [41] and, if the information is submitted to rebut, clarify, or correct factual information already on the record, to provide an explanation identifying the information already on the record that the factual information seeks to rebut, clarify, or correct.[42] Time limits for the submission of factual information are addressed in 19 CFR 351.301, which provides specific time limits based on the type of factual information being submitted. Interested parties should review the regulations prior to submitting factual information in these investigations.

Extensions of Time Limits

Parties may request an extension of time limits before the expiration of a time limit established under 19 CFR 351.301, or as otherwise specified by Commerce. In general, an extension request will be considered untimely if it is filed after the expiration of the time limit established under 19 CFR 351.301, or as otherwise specified by Commerce.[43] For submissions that are due from multiple parties simultaneously, an extension request will be considered untimely if it is filed after 10:00 a.m. ET on the due date. Under certain circumstances, Commerce may elect to specify a different time limit by which extension requests will be considered untimely for submissions which are due from multiple parties simultaneously. In such a case, we will inform parties in a letter or memorandum of the deadline (including a specified time) by which extension requests must be filed to be considered timely. An extension request must be made in a separate, standalone submission; under limited circumstances we will grant untimely filed requests for the extension of time limits, where we determine, based on 19 CFR 351.302, that extraordinary circumstances exist. Parties should review Commerce's regulations concerning the extension of time limits and the *Time Limits Final Rule* prior to submitting factual information in these investigations.[44]

Certification Requirements

Any party submitting factual information in an AD or CVD proceeding must certify to the accuracy and completeness of that information.[45] Parties must use the certification formats provided in 19 CFR 351.303(g).[46] Commerce intends to reject factual submissions if the submitting party does not comply with the applicable certification requirements.

Notification to Interested Parties

Interested parties must submit applications for disclosure under administrative protective order in accordance with 19 CFR 351.305. Parties wishing to participate in these investigations should ensure that they meet the requirements of 19 CFR 351.103(d) (*e.g.,* by filing the required letters of appearance). Note that Commerce has amended certain of its requirements pertaining to the service of documents in 19 CFR 351.303(f).[47]

This notice is issued and published pursuant to sections 702 and 777(i) of the Act, and 19 CFR 351.203(c).

Dated: April 23, 2024.

Ryan Majerus,

Deputy Assistant Secretary for Policy and Negotiations, performing the non-exclusive functions and dutiesof the Assistant Secretary for Enforcement and Compliance.

Appendix—Scope of the Investigations

The merchandise subject to these investigations are fully or partially uncured epoxy resins, also known as epoxide resins, polyepoxides, oxirane resins, ethoxyline resins, diglycidyl ether of bisphenol, (chloromethyl)oxirane, or aromatic diglycidyl, which are polymers or prepolymers containing epoxy groups (*i.e.,* three-membered ring structures comprised of two carbon atoms and one oxygen atom). Epoxy resins range in physical form from low viscosity liquids to solids. All epoxy resins are covered by the scope of these investigations irrespective of physical form, viscosity, grade, purity, molecular weight, or molecular structure, and packaging.

Epoxy resins may contain modifiers or additives, such as hardeners, curatives, colorants, pigments, diluents, solvents, thickeners, fillers, plasticizers, softeners, flame retardants, toughening agents, catalysts, Bisphenol F, and ultraviolet light inhibitors, so long as the modifier or additive has not chemically reacted so as to cure the epoxy resin or convert it into a different product no longer containing epoxy groups. Such epoxy resins with modifiers or additives are included in the scope where the epoxy resin component comprises no less than 30 percent of the total weight of the product. The scope also includes blends of epoxy resins with different types of epoxy resins, with or without the inclusion of modifiers and additives, so long as the combined epoxy resin component comprises at least 30 percent of the total weight of the blend.

Epoxy resins that enter as part of a system or kit with separately packaged co-reactants, such as hardeners or curing agents, are within the scope. The scope does not include any separately packaged co-reactants that would not fall within the scope if entered on their own.

The scope includes merchandise matching the above description that has been processed in a third country, including by commingling, diluting, introducing, or removing modifiers or additives, or performing any other processing that would not otherwise remove the merchandise from the scope of the investigations if performed in the subject country.

[45] *See* section 782(b) of the Act.

[46] *See Certification of Factual Information to Import Administration During Antidumping and Countervailing Duty Proceedings,* 78 FR 42678 (July 17, 2013) (*Final Rule*); *see also* frequently asked questions regarding the *Final Rule,* available at *https://enforcement.trade.gov/tlei/notices/factual_info_final_rule_FAQ_07172013.pdf.*

[47] *See Administrative Protective Order, Service, and Other Procedures in Antidumping and Countervailing Duty Proceedings,* 88 FR 67069 (September 29, 2023).

The scope also includes epoxy resin that is commingled or blended with epoxy resin from sources not subject to these investigations. Only the subject component of such commingled products is covered by the scope of these investigations.

Excluded from the scope are phenoxy resins, which are polymers with a weight greater than 11,000 Daltons, a Melt Flow Index (MFI) at 200 °C (392 °F) no less than 4 grams and no greater than 70 grams per 10 min, Glass-Transition Temperatures (Tg) no less than 80°C (176 °F) and no greater than 100°C (212 °F), and which contain no epoxy groups other than at the terminal ends of the molecule.

Excluded from the scope are certain paint and coating products, which are blends, mixtures, or other formulations of epoxy resin, curing agent, and pigment, in any form, packaged in one or more containers, wherein (1) the pigment represents a minimum of 10 percent of the total weight of the product, (2) the epoxy resin represents a maximum of 80 percent of the total weight of the product, and (3) the curing agent represents 5 to 40 percent of the total weight of the product.

Excluded from the scope are preimpregnated fabrics or fibers, often referred to as ''pre-pregs,'' which are composite materials consisting of fabrics or fibers (typically carbon or glass) impregnated with epoxy resin.

This merchandise is currently classifiable under Harmonized Tariff Schedule of the United States (HTSUS) subheading 3907.30.0000. Subject merchandise may also be entered under subheadings 3907.29.0000, 3824.99.9397, 3214.10.0020, 2910.90.9100, 2910.90.9000, 2910.90.2000, and 1518.00.4000. The HTSUS subheadings are provided for convenience and customs purposes only; the written description of the scope is dispositive.

Certain Epoxy Resins From the People's Republic of China, India, the Republic of Korea, Taiwan, and Thailand: Initiation of Less-Than-Fair-Value Investigations

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

DATES: Applicable April 23, 2024.

FOR FURTHER INFORMATION CONTACT: Jacob Waddell or Mark Flessner (the People's Republic of China (China)) at (202) 482–1369 or (202) 482–6312, respectively; Amaris Wade (India) at (202) 482–6334; Laura Delgado (the Republic of Korea (Korea)) at (202) 482–1468; Benito Ballesteros (Taiwan) at (202) 482–7425; and Rachel Jennings (Thailand) at (202) 482–1110, AD/CVD Operations, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230.

SUPPLEMENTARY INFORMATION:

The Petitions

On April 3, 2024, the U.S. Department of Commerce (Commerce) received antidumping duty (AD) petitions concerning imports of certain epoxy resins (epoxy resins) from China, India, Korea, Taiwan, and Thailand filed in proper form on behalf of the U.S. Epoxy Resin Producers *Ad Hoc* Coalition (the petitioner).[1] These AD Petitions were accompanied by countervailing duty (CVD) petitions concerning imports of epoxy resins from China, India, Korea, and Taiwan.[2]

Between April 8 and 16, 2024, Commerce requested supplemental information pertaining to certain aspects of the Petitions in supplemental questionnaires.[3] The petitioner responded to Commerce's supplemental questionnaires between April 10 and 18, 2024.[4]

In accordance with section 732(b) of the Tariff Act of 1930, as amended (the Act), the petitioner alleges that imports of epoxy resins from China, India, Korea, Taiwan, and Thailand are being, or are likely to be, sold in the United States at less than fair value (LTFV) within the meaning of section 731 of the Act, and that imports of such products are materially injuring, or threatening material injury to, the epoxy resins industry in the United States. Consistent with section 732(b)(1) of the Act, the Petitions were accompanied by information reasonably available to the petitioner supporting its allegations.

Commerce finds that the petitioner filed the Petitions on behalf of the domestic industry, because the petitioner is an interested party, as defined in section 771(9)(F) of the Act.[5] Commerce also finds that the petitioner demonstrated sufficient industry support for the initiation of the requested LTFV investigations.[6]

Periods of Investigation

Because the Petitions were filed on April 3, 2024, pursuant to 19 CFR 351.204(b)(1), the period of investigation (POI) for the India, Korea, Taiwan, and Thailand LTFV investigations is April 1, 2023, through March 31, 2024. Because China is a non-market economy (NME) country, pursuant to 19 CFR 351.204(b)(1), the POI for the China LTFV investigation is October 1, 2023, through March 31, 2024.

Scope of the Investigations

The products covered by these investigations are epoxy resins from China, India, Korea, Taiwan, and Thailand. For a full description of the scope of these investigations, *see* the appendix to this notice.

Comments on the Scope of the Investigations

On April 8 and 16, 2024, Commerce requested information and clarification from the petitioner regarding the proposed scope to ensure that the scope language in the Petitions is an accurate reflection of the products for which the domestic industry is seeking relief.[7] On April 12 and 18, 2024, the petitioner provided clarifications and revised the scope.[8] The description of merchandise covered by these investigations, as described in the appendix to this notice, reflects these clarifications.

As discussed in the *Preamble* to Commerce's regulations, we are setting aside a period for interested parties to raise issues regarding product coverage

(*i.e.,* scope).[9] Commerce will consider all scope comments received from interested parties and, if necessary, will consult with interested parties prior to the issuance of the preliminary determinations. If scope comments include factual information,[10] all such factual information should be limited to public information. To facilitate preparation of its questionnaires, Commerce requests that scope comments be submitted by 5:00 p.m. Eastern Time (ET) on May 13, 2024, which is 20 calendar days from the signature date of this notice.[11] Any rebuttal comments, which may include factual information, and should also be limited to public information, must be filed by 5:00 p.m. ET on May 23, 2024, which is 10 calendar days from the initial comment deadline.

Commerce requests that any factual information that parties consider relevant to the scope of these investigations be submitted during that period. However, if a party subsequently finds that additional factual information pertaining to the scope of the investigations may be relevant, the party must contact Commerce and request permission to submit the additional information. All scope comments must be filed simultaneously on the records of the concurrent LTFV and CVD investigations.

Filing Requirements

All submissions to Commerce must be filed electronically via Enforcement and Compliance's Antidumping Duty and Countervailing Duty Centralized Electronic Service System (ACCESS), unless an exception applies.[12] An electronically filed document must be received successfully in its entirety by the time and date it is due.

Comments on Product Characteristics

Commerce is providing interested parties an opportunity to comment on the appropriate physical characteristics of epoxy resins to be reported in response to Commerce's AD questionnaires. This information will be used to identify the key physical characteristics of the subject merchandise in order to report the relevant factors of production (FOP) or cost of production (COP) accurately, as well as to develop appropriate product comparison criteria.

Interested parties may provide any information or comments that they feel are relevant to the development of an accurate list of physical characteristics. Specifically, they may provide comments as to which characteristics are appropriate to use as: (1) general product characteristics; and (2) product comparison criteria. We note that it is not always appropriate to use all product characteristics as product comparison criteria. We base product comparison criteria on meaningful commercial differences among products. In other words, although there may be some physical product characteristics utilized by manufacturers to describe epoxy resins, it may be that only a select few product characteristics take into account commercially meaningful physical characteristics. In addition, interested parties may comment on the order in which the physical characteristics should be used in matching products. Generally, Commerce attempts to list the most important physical characteristics first and the least important characteristics last.

In order to consider the suggestions of interested parties in developing and issuing the AD questionnaires, all product characteristics comments must be filed by 5:00 p.m. ET on May 13, 2024, which is 20 calendar days from the signature date of this notice.[13] Any rebuttal comments must be filed by 5:00 p.m. ET on May 23, 2024, which is 10 calendar days from the initial comment deadline. All comments and submissions to Commerce must be filed electronically using ACCESS, as explained above, on the record of each of the LTFV investigations.

Determination of Industry Support for the Petitions

Section 732(b)(1) of the Act requires that a petition be filed on behalf of the domestic industry. Section 732(c)(4)(A) of the Act provides that a petition meets this requirement if the domestic producers or workers who support the petition account for: (i) at least 25 percent of the total production of the domestic like product; and (ii) more than 50 percent of the production of the domestic like product produced by that portion of the industry expressing support for, or opposition to, the petition. Moreover, section 732(c)(4)(D) of the Act provides that, if the petition does not establish support of domestic producers or workers accounting for more than 50 percent of the total production of the domestic like product, Commerce shall: (i) poll the industry or rely on other information in order to determine if there is support for the petition, as required by subparagraph (A); or (ii) determine industry support using a statistically valid sampling method to poll the ''industry.''

Section 771(4)(A) of the Act defines the ''industry'' as the producers as a whole of a domestic like product. Thus, to determine whether a petition has the requisite industry support, the statute directs Commerce to look to producers and workers who produce the domestic like product. The U.S. International Trade Commission (ITC), which is responsible for determining whether ''the domestic industry'' has been injured, must also determine what constitutes a domestic like product in order to define the industry. While both Commerce and the ITC apply the same statutory definition regarding the domestic like product,[14] they do so for different purposes and pursuant to a separate and distinct authority. In addition, Commerce's determination is subject to limitations of time and information. Although this may result in different definitions of the like product, such differences do not render the decision of either agency contrary to law.[15]

Section 771(10) of the Act defines the domestic like product as ''a product which is like, or in the absence of like, most similar in characteristics and uses with, the article subject to an investigation under this title.'' Thus, the reference point from which the domestic like product analysis begins is ''the article subject to an investigation'' (*i.e.,* the class or kind of merchandise to be investigated, which normally will be the scope as defined in the petition).

With regard to the domestic like product, the petitioner does not offer a definition of the domestic like product distinct from the scope of the investigations.[16] Based on our analysis of the information submitted on the record, we have determined that epoxy

resins, as defined in the scope, constitute a single domestic like product, and we have analyzed industry support in terms of that domestic like product.[17]

In determining whether the petitioner has standing under section 732(c)(4)(A) of the Act, we considered the industry support data contained in the Petitions with reference to the domestic like product as defined in the ''Scope of the Investigations,'' in the appendix to this notice. To establish industry support, the petitioner provided its members' production data of the domestic like product in 2023 and compared this to total production of the domestic like product by the U.S. epoxy resins industry.[18] We have relied on the data provided by the petitioner for purposes of measuring industry support.[19]

Our review of the data provided in the Petitions, the First General Issues Supplement, the Second General Issues Supplement, and other information readily available to Commerce indicates that the petitioner has established industry support for the Petitions.[20] First, the Petitions established support from domestic producers (or workers) accounting for more than 50 percent of the total production of the domestic like product and, as such, Commerce is not required to take further action in order to evaluate industry support (*e.g.,* polling).[21] Second, the domestic producers (or workers) have met the statutory criteria for industry support under section 732(c)(4)(A)(i) of the Act because the domestic producers (or workers) who support the Petitions account for at least 25 percent of the total production of the domestic like product.[22] Finally, the domestic producers (or workers) have met the statutory criteria for industry support under section 732(c)(4)(A)(ii) of the Act because the domestic producers (or workers) who support the Petitions account for more than 50 percent of the production of the domestic like product produced by that portion of the industry expressing support for, or opposition to, the Petitions.[23] Accordingly, Commerce determines that the Petitions were filed on behalf of the domestic industry within the meaning of section 732(b)(1) of the Act.[24]

Allegations and Evidence of Material Injury and Causation

The petitioner alleges that the U.S. industry producing the domestic like product is being materially injured, or is threatened with material injury, by reason of the imports of the subject merchandise sold at LTFV. In addition, the petitioner argues that subject imports from Korea, Taiwan, and Thailand exceed the negligibility threshold provided for under section 771(24)(A) of the Act.[25]

With regard to China, while the allegedly dumped imports do not exceed the statutory requirements for negligibility,[26] the petitioner alleges and provides supporting evidence that: (1) a significant portion of the imported epoxy resins entering from Canada into the U.S. market are produced in China, and once the transshipment issue is corrected, imports from China are not negligible; [27] and (2) there is the potential that imports from China will imminently exceed the negligibility threshold and, therefore, are not negligible for purposes of a threat determination.[28] With regard to India, while the allegedly dumped imports do not exceed the statutory requirements for negligibility,[29] the petitioner alleges and provides supporting evidence that there is the potential that imports from India will imminently exceed the negligibility threshold and, therefore, are not negligible for purposes of a threat determination.[30] The petitioner's arguments regarding the potential for imports from India and China to imminently exceed the negligibility threshold are consistent with the statutory criteria for ''negligibility in threat analysis'' under section 771(24)(A)(iv) of the Act, which provides that imports shall not be treated as negligible if there is a potential that subject imports from a country will imminently exceed the statutory requirements for negligibility.

The petitioner contends that the industry's injured condition is illustrated by the significant volume of subject imports; reduced market share; underselling and price depression and/or suppression; lost sales and revenues; and adverse impact on U.S. shipments, production, capacity utilization, and financial performance.[31] We assessed the allegations and supporting evidence regarding material injury, threat of material injury, causation, as well as negligibility, and we have determined that these allegations are properly supported by adequate evidence, and meet the statutory requirements for initiation.[32]

Allegations of Sales at LTFV

The following is a description of the allegations of sales at LTFV upon which Commerce based its decision to initiate LTFV investigations of imports of epoxy resins from China, India, Korea, Taiwan, and Thailand. The sources of data for the deductions and adjustments relating to U.S. price and normal value (NV) are discussed in greater detail in the Country-Specific AD Initiation Checklists.

U.S. Price

For China, Korea, Taiwan, and Thailand, the petitioner based export price (EP) on pricing information for sales, or offers for sale, of epoxy resins produced in and exported from each country.[33] For Thailand, the petitioner also based EP on transaction-specific average unit values (AUVs) (*i.e.,* month- and port-specific AUVs) derived from official import statistics and tied to ship manifest data.[34] For India, the petitioner based EP on transaction-specific AUVs (*i.e.,* month- and port-specific AUVs)

[17] For a discussion of the domestic like product analysis as applied to these cases and information regarding industry support, *see* Checklists, ''Antidumping Duty Investigation Initiation Checklists: Certain Epoxy Resins from the People's Republic of China, India, the Republic of Korea, Taiwan, and Thailand,'' dated concurrently with, and hereby adopted by, this notice (Country-Specific AD Initiation Checklists), at Attachment II, Analysis of Industry Support for the Antidumping and Countervailing Duty Petitions Covering Certain Epoxy Resins from the People's Republic of China, India, the Republic of Korea, Taiwan, and Thailand (Attachment II). These checklists are on file electronically via ACCESS.

derived from official import statistics and tied to ship manifest data.[35] For each country, the petitioner made certain adjustments to U.S. price to calculate a net ex-factory U.S. price, where applicable.[36]

Normal Value [37]

For Thailand, the petitioner based NV on home market pricing information it obtained for epoxy resins produced in and sold, or offered for sale, in Thailand during the applicable time period.[38] The petitioner provided information indicating that the prices for epoxy resins sold or offered for sale in Thailand were below the COP. Therefore, for Thailand, the petitioner based NV on constructed value.[39] For India, Korea, and Taiwan, the petitioner stated that it was unable to obtain home market or third country pricing information for epoxy resins to use as a basis for NV.[40] Therefore, for India, Korea, and Taiwan, the petitioner calculated NV based on CV.[41] For further discussion of CV for India, Korea, Taiwan, and Thailand, *see* the section ''Normal Value Based on Constructed Value,'' below.

Commerce considers China to be an NME country.[42] In accordance with section 771(18)(C)(i) of the Act, any determination that a foreign country is an NME country shall remain in effect until revoked by Commerce. Therefore, we continue to treat China as an NME country for purposes of the initiation of the China LTFV investigation. Accordingly, we base NV on FOPs valued in a surrogate market economy country in accordance with section 773(c) of the Act.

The petitioner claims that Malaysia is an appropriate surrogate country for China because it is a market economy that is at a level of economic development comparable to that of China and is a significant producer of comparable merchandise.[43] The petitioner provided publicly available information from Malaysia to value all FOPs except labor.[44] Consistent with Commerce's recent practice in cases involving Malaysia as a surrogate country,[45] to value labor, the petitioner provided labor statistics from another surrogate country, Romania.[46] Based on the information provided by the petitioner, we believe it is appropriate to use Malaysia as a surrogate country for China to value all FOPs except labor and to value labor using labor statistics from Romania for initiation purposes.

Interested parties will have the opportunity to submit comments regarding surrogate country selection and, pursuant to 19 CFR 351.301(c)(3)(i), will be provided an opportunity to submit publicly available information to value FOPs within 30 days before the scheduled date of the preliminary determination.

Factors of Production

Because information regarding the volume of inputs consumed by Chinese producers/exporters was not reasonably available, the petitioner used product-specific consumption rates from a U.S. producer of epoxy resins as a surrogate to value Chinese manufacturers' FOPs (except labor).[47] Additionally, the petitioner calculated factory overhead, selling, general, and administrative (SG&A) expenses, and profit based on the experience of a Malaysian producer of identical merchandise.[48]

Normal Value Based on Constructed Value

As noted above for Thailand, the petitioner provided information indicating that the prices for epoxy resins sold or offered for sale in Thailand were below the COP. Also as noted above, for India, Korea, and Taiwan, the petitioner stated that it was unable to obtain home market or third-country prices for epoxy resins to use as a basis for NV. Therefore, for India, Korea, Taiwan, and Thailand, the petitioner calculated NV based on CV.[49]

Pursuant to section 773(e) of the Act, the petitioner calculated CV as the sum of the cost of manufacturing, SG&A expenses, financial expenses, and profit.[50] For India, Korea, Taiwan, and Thailand, in calculating the cost of manufacturing, the petitioner relied on the production experience and input consumption rates of a U.S. producer of epoxy resins, valued using publicly available information applicable to the respective countries, where applicable.[51] In calculating SG&A expenses, financial expenses, and profit ratios, the petitioner relied on the fiscal year 2022–2023 financial statements of producers of identical merchandise domiciled in India, Korea, Taiwan, and Thailand, respectively.[52]

Fair Value Comparisons

Based on the data provided by the petitioner, there is reason to believe that imports of epoxy resins from China, India, Korea, Taiwan, and Thailand are being, or are likely to be, sold in the United States at LTFV. Based on comparisons of EP to NV in accordance with sections 772 and 773 of the Act, the estimated dumping margins for epoxy resins for each of the countries covered by this initiation are as follows: (1) China—266.37 to 354.99 percent; (2) India—9.92 to 15.68 percent; (3) Korea—35.29 to 57.38 percent; (4) Taiwan—91.15 to 139.29 percent; and (5) Thailand—143.73 to 176.34 percent.[53]

Initiation of LTFV Investigations

Based upon the examination of the Petitions and supplemental responses, we find that they meet the requirements of section 732 of the Act. Therefore, we are initiating LTFV investigations to determine whether imports of epoxy resins from China, India, Korea, Taiwan, and Thailand are being, or are likely to be, sold in the United States at LTFV. In accordance with section 733(b)(1)(A) of the Act and 19 CFR 351.205(b)(1), unless postponed, we will make our preliminary determinations no later than 140 days after the date of these initiations.

[35] *See* India AD Initiation Checklist.

[36] *See* Country-Specific AD Initiation Checklists.

[37] In accordance with section 773(b)(2) of the Act, for the India, Korea, Taiwan, and Thailand investigations, Commerce will request information necessary to calculate the constructed value (CV) and COP to determine whether there are reasonable grounds to believe or suspect that sales of the foreign like product have been made at prices that represent less than the COP of the product.

Respondent Selection

Thailand

In the Petitions, the petitioner identified one company in Thailand (*i.e.,* Aditya Birla Chemicals) as a producer/exporter of epoxy resins and provided independent, third-party information as support.[54] We currently know of no additional producers/exporters of epoxy resins from Thailand.

Accordingly, Commerce intends to individually examine all known producers/exporters in the investigations from Thailand (*i.e.,* the companies cited above). We invite interested parties to comment on this issue. Such comments may include factual information within the meaning of 19 CFR 351.102(b)(21). Parties wishing to comment must do so within three business days of the publication of this notice in the **Federal Register**. Comments must be filed electronically using ACCESS. An electronically filed document must be received successfully in its entirety via ACCESS by 5:00 p.m. ET on the specified deadline. Because we intend to examine all known producers/exporters in Thailand, if no comments are received or if comments received further support the existence of this sole producer/exporter in Thailand, we do not intend to conduct respondent selection and will proceed to issuing the initial AD questionnaires to the companies identified. However, if comments are received which create a need for a respondent selection process, we intend to finalize our decisions regarding respondent selection within 20 days of publication of this notice.

India, Korea, and Taiwan

In the Petitions, the petitioner identified six companies in India, four companies in Korea, and four companies in Taiwan as producers/exporters of epoxy resins.[55] Following standard practice in LTFV investigations involving market economy countries, in the event Commerce determines that the number of companies is large, and it cannot individually examine each company based upon Commerce's resources, where appropriate, Commerce intends to select mandatory respondents based on U.S. Customs and Border Protection (CBP) data for imports under the appropriate Harmonized Tariff Schedule of the United States (HTSUS) subheading(s) listed in the ''Scope of the Investigations,'' in the appendix.

On April 18, 2024, Commerce released CBP data on imports of epoxy resins from India, Korea, and Taiwan under administrative protective order (APO) to all parties with access to information protected by APO and indicated that interested parties wishing to comment on CBP data and/or respondent selection must do so within three business days of the publication date of the notice of initiation of these investigations.[56] Comments must be filed electronically using ACCESS. An electronically filed document must be received successfully in its entirety via ACCESS by 5:00 p.m. ET on the specified deadline. Commerce will not accept rebuttal comments regarding the CBP data or respondent selection.

Interested parties must submit applications for disclosure under APO in accordance with 19 CFR 351.305(b). Instructions for filing such applications may be found on Commerce's website at *https://www.trade.gov/administrative-protective-orders.*

China

In the Petitions, the petitioner named 28 companies in China as producers and/or exporters of epoxy resins.[57] Our standard practice for respondent selection in AD investigations involving NME countries is to select respondents based on quantity and value (Q&V) questionnaires in cases where Commerce has determined that the number of companies is large, and it cannot individually examine each company based upon its resources. Therefore, considering the number of producers and/or exporters identified in the Petitions, Commerce will solicit Q&V information that can serve as a basis for selecting exporters for individual examination in the event that Commerce determines that the number is large and decides to limit the number of respondents individually examined pursuant to section 777A(c)(2) of the Act. Because there are 28 Chinese producers and/or exporters identified in the Petitions, Commerce has determined that it will issue Q&V questionnaires to the largest producers and/or exporters that are identified in the CBP data for which there is complete address information on the record.

Commerce will post the Q&V questionnaires along with filing instructions on Commerce's website at *https://www.trade.gov/ec-adcvd-case-announcements.* Producers/exporters of epoxy resins from China that do not receive Q&V questionnaires may still submit a response to the Q&V questionnaire and can obtain a copy of the Q&V questionnaire from Commerce's website. Responses to the Q&V questionnaire must be submitted by the relevant Chinese producers/exporters no later than 5:00 p.m. ET on May 7, 2024, which is two weeks from the signature date of this notice. All Q&V questionnaire responses must be filed electronically via ACCESS. An electronically filed document must be received successfully, in its entirety, by ACCESS no later than 5:00 p.m. ET on the deadline noted above.

Interested parties must submit applications for disclosure under APO in accordance with 19 CFR 351.305(b). As stated above, instructions for filing such applications may be found on Commerce's website at *https://www.trade.gov/administrative-protective-orders.*

Separate Rates

In order to obtain separate rate status in an NME investigation, exporters and producers must submit a separate rate application. The specific requirements for submitting a separate rate application in an NME investigation are outlined in detail in the application itself, which is available on Commerce's website at *https://access.trade.gov/Resources/nme/nme-sep-rate.html.* The separate rate application will be due 30 days after publication of this initiation notice. Exporters and producers must file a timely separate rate application if they want to be considered for individual examination. Exporters and producers who submit a separate rate application and have been selected as mandatory respondents will be eligible for consideration for separate rate status only if they respond to all parts of Commerce's AD questionnaire as mandatory respondents. Commerce requires that companies from China submit a response both to the Q&V questionnaire and to the separate rate application by the respective deadlines to receive consideration for separate rate status. Companies not filing a timely Q&V questionnaire response will not receive separate rate consideration.

Use of Combination Rates

Commerce will calculate combination rates for certain respondents that are

[54] *See* Petitions at Volume I (page 17 and Exhibit I–17); *see also* First General Issues Supplement at 2–3 and Exhibits I–S1 and I–S3.

[55] *See* Petitions at Volume I (page 17 and Exhibit I–17); *see also* First General Issues Supplement at 2–3 and Exhibits I–S1 and I–S3; and Second General Issues Supplement at 1.

[56] *See* Memoranda, ''Antidumping Duty Petition of Certain Epoxy Resins from India: U.S. Customs and Border Protection Data Release,'' dated April 19, 2024; ''Epoxy Resins from the Republic of Korea: Release of U.S. Customs and Border Protection Entry Data,'' dated April 18, 2024; and ''Certain Epoxy Resins from Taiwan: Release of U.S. Customs and Border Protection Entry Data,'' dated April 18, 2024.

[57] *See* Petitions at Volume I (page 17 and Exhibit I–17); *see also* First General Issues Supplement at 2 and Exhibit I–S1.

eligible for a separate rate in an NME investigation. The Separate Rates and Combination Rates Bulletin states:

{w}hile continuing the practice of assigning separate rates only to exporters, all separate rates that {Commerce} will now assign in its NME investigation will be specific to those producers that supplied the exporter during the period of investigation. Note, however, that one rate is calculated for the exporter and all of the producers which supplied subject merchandise to it during the period of investigation. This practice applies both to mandatory respondents receiving an individually calculated separate rate as well as the pool of non-investigated firms receiving the {weighted average} of the individually calculated rates. This practice is referred to as the application of ''combination rates'' because such rates apply to specific combinations of exporters and one or more producers. The cash-deposit rate assigned to an exporter will apply only to merchandise both exported by the firm in question *and* produced by a firm that supplied the exporter during the period of investigation.[58]

Distribution of Copies of the Petitions

In accordance with section 732(b)(3)(A) of the Act and 19 CFR 351.202(f), copies of the public version of the Petitions have been provided to the governments of China, India, Korea, Taiwan, and Thailand via ACCESS. To the extent practicable, we will attempt to provide a copy of the public version of the Petitions to each exporter named in the Petitions, as provided under 19 CFR 351.203(c)(2).

ITC Notification

Commerce will notify the ITC of our initiation, as required by section 732(d) of the Act.

Preliminary Determinations by the ITC

The ITC will preliminarily determine, within 45 days after the date on which the Petitions were filed, whether there is a reasonable indication that imports of epoxy resins from China, India, Korea, Taiwan, and/or Thailand are materially injuring, or threatening material injury to, a U.S. industry.[59] A negative ITC determination for any country will result in the investigation being terminated with respect to that country.[60] Otherwise, these LTFV investigations will proceed according to statutory and regulatory time limits.

Submission of Factual Information

Factual information is defined in 19 CFR 351.102(b)(21) as: (i) evidence submitted in response to questionnaires; (ii) evidence submitted in support of allegations; (iii) publicly available information to value factors under 19 CFR 351.408(c) or to measure the adequacy of remuneration under 19 CFR 351.511(a)(2); (iv) evidence placed on the record by Commerce; and (v) evidence other than factual information described in (i)–(iv). Section 351.301(b) of Commerce's regulations requires any party, when submitting factual information, to specify under which subsection of 19 CFR 351.102(b)(21) the information is being submitted[61] and, if the information is submitted to rebut, clarify, or correct factual information already on the record, to provide an explanation identifying the information already on the record that the factual information seeks to rebut, clarify, or correct.[62] Time limits for the submission of factual information are addressed in 19 CFR 351.301, which provides specific time limits based on the type of factual information being submitted. Interested parties should review the regulations prior to submitting factual information in these investigations.

Particular Market Situation Allegation

Section 773(e) of the Act addresses the concept of particular market situation (PMS) for purposes of CV, stating that ''if a particular market situation exists such that the cost of materials and fabrication or other processing of any kind does not accurately reflect the cost of production in the ordinary course of trade, the administering authority may use another calculation methodology under this subtitle or any other calculation methodology.'' When an interested party submits a PMS allegation pursuant to section 773(e) of the Act (*i.e.,* a cost-based PMS allegation), Commerce will respond to such a submission consistent with 19 CFR 351.301(c)(2)(v). If Commerce finds that a cost-based PMS exists under section 773(e) of the Act, then it will modify its dumping calculations appropriately.

Neither section 773(e) of the Act, nor 19 CFR 351.301(c)(2)(v), sets a deadline for the submission of cost-based PMS allegations and supporting factual information. However, in order to administer section 773(e) of the Act, Commerce must receive PMS allegations and supporting factual information with enough time to consider the submission. Thus, should an interested party wish to submit a cost-based PMS allegation and supporting new factual information pursuant to section 773(e) of the Act, it must do so no later than 20 days after submission of a respondent's initial section D questionnaire response.

We note that a PMS allegation filed pursuant to sections 773(a)(1)(B)(ii)(III) or 773(a)(1)(C)(iii) of the Act (*i.e.,* a sales-based PMS allegation) must be filed within 10 days of submission of a respondent's initial section B questionnaire response, in accordance with 19 CFR 351.301(c)(2)(i) and 19 CFR 351.404(c)(2).

Extensions of Time Limits

Parties may request an extension of time limits before the expiration of a time limit established under 19 CFR 351.301, or as otherwise specified by Commerce. In general, an extension request will be considered untimely if it is filed after the expiration of the time limit established under 19 CFR 351.301, or as otherwise specified by Commerce.[63] For submissions that are due from multiple parties simultaneously, an extension request will be considered untimely if it is filed after 10:00 a.m. ET on the due date. Under certain circumstances, Commerce may elect to specify a different time limit by which extension requests will be considered untimely for submissions which are due from multiple parties simultaneously. In such a case, we will inform parties in a letter or memorandum of the deadline (including a specified time) by which extension requests must be filed to be considered timely. An extension request must be made in a separate, standalone submission; under limited circumstances we will grant untimely filed requests for the extension of time limits, where we determine, based on 19 CFR 351.302, that extraordinary circumstances exist. Parties should review Commerce's regulations concerning the extension of time limits and the *Time Limits Final Rule* prior to submitting factual information in these investigations.[64]

Certification Requirements

Any party submitting factual information in an AD or CVD proceeding must certify to the accuracy

[58] *See* Enforcement and Compliance's Policy Bulletin No. 05.1, regarding, ''Separate-Rates Practice and Application of Combination Rates in Antidumping Investigation involving NME Countries,'' (April 5, 2005) at 6 (emphasis added), available on Commerce's website at *https://access.trade.gov/Resources/policy/bull05-1.pdf.*

[59] *See* section 733(a) of the Act.

[60] *Id.*

[61] *See* 19 CFR 351.301(b).

[62] *See* 19 CFR 351.301(b)(2).

[63] *See* 19 CFR 351.301; *see also Extension of Time Limits; Final Rule,* 78 FR 57790 (September 20, 2013) (*Time Limits Final Rule*), available at *https://www.gpo.gov/fdsys/pkg/FR-2013-09-20/html/2013-22853.htm.*

[64] *See* 19 CFR 351.302; *see also, e.g., Time Limits Final Rule.*

and completeness of that information.[65] Parties must use the certification formats provided in 19 CFR 351.303(g).[66] Commerce intends to reject factual submissions if the submitting party does not comply with the applicable certification requirements.

Notification to Interested Parties

Interested parties must submit applications for disclosure under APO in accordance with 19 CFR 351.305. Parties wishing to participate in these investigations should ensure that they meet the requirements of 19 CFR 351.103(d) (*e.g.,* by filing the required letter of appearance). Note that Commerce has amended certain of its requirements pertaining to the service of documents in 19 CFR 351.303(f).[67]

This notice is issued and published pursuant to sections 732(c)(2) and 777(i) of the Act, and 19 CFR 351.203(c).

Dated: April 23, 2024.

Ryan Majerus,

Deputy Assistant Secretary for Policy and Negotiations, performing the non-exclusive functions and duties of the Assistant Secretary for Enforcement and Compliance.

Appendix—Scope of the Investigations

The merchandise subject to these investigations are fully or partially uncured epoxy resins, also known as epoxide resins, polyepoxides, oxirane resins, ethoxyline resins, diglycidyl ether of bisphenol, (chloromethyl)oxirane, or aromatic diglycidyl, which are polymers or prepolymers containing epoxy groups (*i.e.,* three-membered ring structures comprised of two carbon atoms and one oxygen atom). Epoxy resins range in physical form from low viscosity liquids to solids. All epoxy resins are covered by the scope of these investigations irrespective of physical form, viscosity, grade, purity, molecular weight, or molecular structure, and packaging.

Epoxy resins may contain modifiers or additives, such as hardeners, curatives, colorants, pigments, diluents, solvents, thickeners, fillers, plasticizers, softeners, flame retardants, toughening agents, catalysts, Bisphenol F, and ultraviolet light inhibitors, so long as the modifier or additive has not chemically reacted so as to cure the epoxy resin or convert it into a different product no longer containing epoxy groups. Such epoxy resins with modifiers or additives are included in the scope where the epoxy resin component comprises no less than 30 percent of the total weight of the product. The scope also includes blends of epoxy resins with different types of epoxy resins, with or without the inclusion of modifiers and additives, so long as the combined epoxy resin component comprises at least 30 percent of the total weight of the blend.

Epoxy resins that enter as part of a system or kit with separately packaged co-reactants, such as hardeners or curing agents, are within the scope. The scope does not include any separately packaged co-reactants that would not fall within the scope if entered on their own.

The scope includes merchandise matching the above description that has been processed in a third country, including by commingling, diluting, introducing, or removing modifiers or additives, or performing any other processing that would not otherwise remove the merchandise from the scope of the investigations if performed in the subject country.

The scope also includes epoxy resin that is commingled or blended with epoxy resin from sources not subject to these investigations. Only the subject component of such commingled products is covered by the scope of these investigations.

Excluded from the scope are phenoxy resins, which are polymers with a weight greater than 11,000 Daltons, a Melt Flow Index (MFI) at 200 °C (392 °F) no less than 4 grams and no greater than 70 grams per 10 min, Glass-Transition Temperatures (Tg) no less than 80 °C (176 °F) and no greater than 100 °C (212 °F), and which contain no epoxy groups other than at the terminal ends of the molecule.

Excluded from the scope are certain paint and coating products, which are blends, mixtures, or other formulations of epoxy resin, curing agent, and pigment, in any form, packaged in one or more containers, wherein (1) the pigment represents a minimum of 10 percent of the total weight of the product, (2) the epoxy resin represents a maximum of 80 percent of the total weight of the product, and (3) the curing agent represents 5 to 40 percent of the total weight of the product.

Excluded from the scope are preimpregnated fabrics or fibers, often referred to as ''pre-pregs,'' which are composite materials consisting of fabrics or fibers (typically carbon or glass) impregnated with epoxy resin.

This merchandise is currently classifiable under Harmonized Tariff Schedule of the United States (HTSUS) subheading 3907.30.0000. Subject merchandise may also be entered under subheadings 3907.29.0000, 3824.99.9397, 3214.10.0020, 2910.90.9100, 2910.90.9000, 2910.90.2000, and 1518.00.4000. The HTSUS subheadings are provided for convenience and customs purposes only; the written description of the scope is dispositive.

DEPARTMENT OF COMMERCE

National Institute of Standards and Technology

Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; NIST Associates Information System

The Department of Commerce will submit the following information collection request to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995, on or after the date of publication of this notice. We invite the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. Public comments were previously requested via the **Federal Register** on January 8, 2024 during a 60-day comment period. This notice allows for an additional 30 days for public comments.

Agency: National Institute of Standards and Technology (NIST), Commerce.

Title: NIST Associates Information System.

OMB Control Number 0693–0067.

Form Number(s):

Type of Request: Revision of a current information collection.

Number of Respondents: 4,000.

Average Hours per Response: 50 minutes.

Burden Hours: 2,167.

Needs and Uses: NIST Associates (NA) will include guest researchers, research associates, contractors, and other non-NIST employees that require access to the NIST campuses or resources. The NIST Associates Information System (NAIS) information collection instruments(s) are completed by incoming NAs. They are asked to provide personal identifying data including home address, date and place of birth, employer name and address, and basic security information. The data provided by the collection instruments is input into NAIS which automatically populates the appropriate forms, and is routed through the approval process. NIST's Office of Security receives security forms through the NAIS process and is able to allow preliminary access to NIST for NAs. The data collected is the basis for further security investigations as necessary.

Affected Public: Individuals or households.

Frequency: Once.

Respondent's Obligation: Required to obtain or retain benefits.

This information collection request may be viewed at *www.reginfo.gov*. Follow the instructions to view the Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website *www.reginfo.gov/public/do/PRAMain*. Find this particular information collection by selecting ''Currently under 30-day Review—Open for Public Comments'' or by using the search function and entering either the title of the collection or the OMB Control Number 0693–0067.

Sheleen Dumas,

Department PRA Clearance Officer, Office of the Under Secretary for Economic Affairs, Commerce Department.

BILLING CODE 3510–13–P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; NOAA Fisheries Greater Atlantic Region Vessel Identification Requirements

The Department of Commerce will submit the following information collection request to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995, on or after the date of publication of this notice. We invite the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. Public comments were previously requested via the **Federal Register** on February 14, 2024, during a 60-day comment period. This notice allows for an additional 30 days for public comments.

Agency: National Oceanic and Atmospheric Administration, Commerce.

Title: NOAA Fisheries Greater Atlantic Region Vessel Identification Requirements.

OMB Control Number: 0648–0350.

Form Number(s): None.

Type of Request: Regular submission (extension of a current information collection).

Number of Respondents: 3,935.

Average Hours per Response: 45 minutes (0.75 hours) to affix vessel information to the required locations.

Total Annual Burden Hours: 2,952.

Needs and Uses: This request is for extension of a current information collection. Regulations at 50 CFR 648.8 and 697.8 require that owners of vessels over 25 ft (7.6 m) in registered length that have federal permits to fish in the Greater Atlantic Region display the vessel's name and official number. The name and number must be of a specific size at specified locations: the vessel name must be affixed to the port and starboard sides of the bow and, if possible, on its stern. The official number must be displayed on the port and starboard sides of the deckhouse or hull, and on an appropriate weather deck to be clearly visible from enforcement vessels and aircraft. The success of fisheries management programs depends upon regulatory compliance. The vessel identification requirement, which is required of all federally permitted fishing vessels in the Greater Atlantic region, is essential to facilitate enforcement. The ability to link fishing or other activities to a vessel owner or operator are crucial to the enforcement of regulations issued under the authority of the Magnuson-Stevens Fishery Conservation and Management Act. When this information is clearly displayed, it enables enforcement personnel to easily identify Federal permit holders while engaged in fishing.

Affected Public: Individuals or households and business or other for-profit organizations.

Frequency: Once per year.

Respondent's Obligation: Mandatory.

Legal Authority: 50 CFR 648.8 and 697.8.

This information collection request may be viewed at *www.reginfo.gov.* Follow the instructions to view the Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website *www.reginfo.gov/public/do/PRAMain.* Find this particular information collection by selecting ''Currently under 30-day Review—Open for Public Comments'' or by using the search function and entering either the title of the collection or the OMB Control Number 0648–0350.

Draft Supplemental Programmatic Environmental Assessment for Fisheries Research Conducted and Funded by the Alaska Fisheries Science Center; Correction

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), US Department of Commerce.

ACTION: Notice of availability of a Draft Supplemental Programmatic Environmental Assessment; correction.

SUMMARY: NMFS is correcting the link that was in the **ADDRESSES** of the Notice of Availability to the ''Draft Supplemental Programmatic Environmental Assessment (SPEA) for Fisheries Research Conducted and Funded by the Alaska Fisheries Science Center.'' This notice provides a correction to that website address; all other information is unchanged. The correct weblink is *https://www.fisheries.noaa.gov/action/draft-supplemental-programmatic-environmental-assessment-fisheries-research-conducted-and-0.*

DATES: Comments and information must be received no later than June 18, 2024.

ADDRESSES: Comments on the Draft SPEA should be addressed to Rebecca Reuter, Environmental Compliance Coordinator, NOAA/NMFS/AFSC, 7600 Sand Point Way NE, Seattle, WA 98115

The mailbox address for providing email comments is: *nmfs.afsc.spea@noaa.gov.*

NMFS is not responsible for email comments sent to addresses other than the one provided here. Comments sent via email, including all attachments, must not exceed a 10-megabyte file size.

A copy of the Draft SPEA may be obtained by writing to the address specified above, telephoning the contact listed below (see **FOR FURTHER INFORMATION CONTACT**), or visiting the internet at: *https://www.fisheries.noaa.gov/action/draft-supplemental-programmatic-environmental-assessment-fisheries-research-conducted-and-0.*

Documents cited in this notice may also be viewed, by appointment, during regular business hours at the aforementioned address.

FOR FURTHER INFORMATION CONTACT: Rebecca Reuter, email: *rebecca.reuter@noaa.gov,* phone: (206) 526–4234.

SUPPLEMENTARY INFORMATION:

Correction

In the **Federal Register** of April 19, 2024, in FR Doc. 2024–07096, on page 28749, correct the link in the **ADDRESSES** to say: *https://www.fisheries.noaa.gov/action/draft-supplemental-programmatic-environmental-assessment-fisheries-research-conducted-and-0.*

Dated: April 19, 2024.

BILLING CODE 3510–22–P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Fishermen's Contingency Fund

The Department of Commerce will submit the following information collection request to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995, on or after the date of publication of this notice. We invite the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. Public comments were previously requested via the **Federal Register** on January 19, 2024 during a 60-day comment period. This notice allows for an additional 30 days for public comments.

Agency: National Oceanic and Atmospheric Administration (NOAA), Commerce.

Title: Fishermen's Contingency Fund.

OMB Control Number: 0648–0042.

Form Number(s): NOAA Forms 88–164, 88–166.

Type of Request: Regular submission [Extension of a current information collection].

Number of Respondents: 20.

Average Hours per Response: 15 minutes for a report, 45 minutes for a claim application.

Total Annual Burden Hours: 160.

Needs and Uses: This request is for extension of a currently approved information collection. United States (U.S.) commercial fishermen may file claims for compensation for losses of, or damage to, fishing gear or vessels, plus 50 percent of resulting economic losses, attributable to oil and gas activities on the U.S. Outer Continental Shelf. To obtain compensation, applicants must comply with requirements set forth in 50 CFR part 296.

The requirements include a ''report'' within 15 days of the date the vessel first returns to port after the casualty incident to gain a presumption of eligible causation, and an ''application'' within 90 days of when the applicant first became aware of the loss and/or damage.

The report is NOAA Form 88–166 and it requests identifying information such as Respondent's name; address; social security number; and casualty location. NOAA usually completes the information in the report during a telephone call with the respondent.

The application is NOAA Form 88–164 and it requires the respondent to provide information on the property and economic losses and/or damages including type of damage; purchase date and price of lost/damaged gear; and income from recent fishing trips. It also includes an affidavit by which the applicant attests to the truthfulness of the claim.

Affected Public: Individuals or households; business or other for-profit organizations.

Frequency: On Occasion.

Respondent's Obligation: Required to Obtain or Retain Benefits.

Legal Authority: Title IV of the Outer Continental Shelf Lands Act Amendments of 1978 (43 U.S.C. 1841) authorizes the Fishermen's Contingency Fund (Fund or FCF) program to compensate U.S. commercial fishermen for losses of, or damages to, fishing gear or vessels, plus 50% of resulting gross economic loss, attributable to oil and gas activities on the OCS. Program requirements are set forth in 50 CFR part 296.

This information collection request may be viewed at *www.reginfo.gov.* Follow the instructions to view the Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website *www.reginfo.gov/public/do/PRAMain.* Find this particular information collection by selecting ''Currently under 30-day Review—Open for Public Comments'' or by using the search function and entering either the title of the collection or the OMB Control Number 0648–0082.

Sheleen Dumas,

Department PRA Clearance Officer, Office of the Under Secretary for Economic Affairs, Commerce Department.

[FR Doc. 2024–09141 Filed 4–26–24; 8:45 am]

BILLING CODE 3510–22–P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Solicitation of Membership Nominations for the Advisory Committee on Excellence in Space (ACES)

AGENCY: Office of Space Commerce, National Oceanic and Atmospheric Administration (NOAA), Department of Commerce.

ACTION: Solicitation of membership nominations.

SUMMARY: NOAA is seeking up to 25 individuals to serve on the Advisory Committee on Excellence in Space (ACES), a Federal advisory committee. Members of the committee will evaluate economic, technological, and institutional developments relating to nongovernmental space activities and submit advice and recommendations on promising new ideas and approaches for Federal policies and programs. The ACES membership should consist of a variety of space policy, engineering, technical, science, legal, and finance professionals with significant experience in the commercial space industry.

DATES: Submit nominations no later than May 29, 2024. Applications received after the deadline may be considered for future membership cycles.

ADDRESSES: Submit nominations via email to *space.commerce@noaa.gov.*

FOR FURTHER INFORMATION CONTACT: Jason Y. Kim, Chief of Staff, NOAA Office of Space Commerce, 68015 Herbert C. Hoover Bldg., 1401 Constitution Ave. NW, Washington, DC 20230; Email: *space.commerce@noaa.gov;* Telephone: 202–482–5827.

SUPPLEMENTARY INFORMATION: The Department of Commerce chartered ACES on March 4, 2024, to provide advice and recommendations to the

Under Secretary of Commerce for Oceans and Atmosphere (Under Secretary) or the Director of the Office of Space Commerce (OSC) on matters relating to OSC's statutory purview. A list of topics within that purview is provided in the ACES charter at *https://www.space.commerce.gov/aces/.* ACES will assist NOAA to obtain information and advice from a variety of knowledgeable and independent perspectives.

ACES will function solely in an advisory capacity and in accordance with the provisions of the Federal Advisory Committee Act, as amended, 5 U.S.C. 1001 *et seq.* ACES will not exercise program management or regulatory development responsibilities nor make any decisions directly affecting the programs on which it provides advice.

Committee members will generally serve for a term of two years and may serve additional terms, if reappointed. Nominees for membership must be able to attend committee meetings approximately twice per year; members may not send alternates. Members shall not be compensated for their participation.

ACES will have a fairly balanced membership consisting of no more than 25 members serving in a Representative or Special Government Employee (as defined in 18 U.S.C. 202(a)) capacity. The membership should be a mix of industry leaders at the executive level and non-industry members from academia, not-for-profit organizations (*e.g.,* foundations, think tanks), and other entities (*e.g.,* state governments, tribal nations). Some members may represent entities that are NOAA licensees. OSC seeks geographic diversity to ensure representation of space communities throughout the United States. Where possible, OSC will also consider the ethnic, racial, and gender diversity and various abilities of the United States population.

Nominations are encouraged from all interested U.S. persons and organizations representing interests affected by commercial space policies, regulations, operations, and activities. Nominations should include the individual's name and organizational affiliation, a brief description of the nominee's qualifications and interest in serving on ACES, a resume, and no more than three supporting letters describing the nominee's qualifications and interest in serving. Each submission should also provide the nominee's home address, business address, phone number(s), and email address. Self-nominations are acceptable.

Privacy Act Statement

Authority. The collection of information concerning nominations to ACES is authorized under the FACA, 5 U.S.C. 1001 *et seq.,* and its implementing regulations, 41 CFR part 102–3, and in accordance with the Privacy Act of 1974, as amended, (Privacy Act) 5 U.S.C. 552a.

Purpose. The collection of names, contact information, resumes, professional information, and qualifications is required in order for the Under Secretary or the OSC Director to appoint members to ACES.

Routine Uses. NOAA will use the nomination information for the purpose set forth above. The Privacy Act of 1974 authorizes disclosure of the information collected to NOAA staff for work-related purposes and for other purposes only as set forth in the Privacy Act and for routine uses published in the Privacy Act System of Records Notice COMMERCE/DEPT–11, Candidates for Membership, Members, and Former Members of Department of Commerce Advisory Committees, available at *https://www.commerce.gov/opog/privacy/SORN/SORN-DEPT-11,* and the System of Records Notice COMMERCE/DEPT–18, Employees Personnel Files Not Covered by Notices of Other Agencies, available at *https://www.commerce.gov/opog/privacy/SORN/SORN-DEPT-18.*

Disclosure. Furnishing the nomination information is voluntary; however, if the information is not provided, the individual would not be considered for appointment as a member of ACES.

Richard DalBello,

Director, NOAA Office of Space Commerce.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

[RTID 0648–XD916]

Schedule for Atlantic Highly Migratory Species Outreach Workshops

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of public outreach workshops.

SUMMARY: Five free Atlantic Highly Migratory Species (HMS) Outreach Workshops will be held from April 29, 2024 through May 3, 2024 in locations across Puerto Rico. These workshops are being offered to be responsive to stakeholder requests for additional outreach in Puerto Rico and U.S. Caribbean communities. The objectives of the HMS Outreach Workshops are to educate fishers, dealers, and the general public on HMS regulations, distribute outreach materials, and assist fishers in applying for HMS permits.

DATES: The HMS Outreach Workshops will be held April 29, 2024 through May 3, 2024. See the **SUPPLEMENTARY INFORMATION** section for the specific dates and times.

ADDRESSES: The HMS Outreach Workshops will be held in Aguadilla, Cabo Rojo, Ponce, Arecibo, and Dorado, Puerto Rico. See the **SUPPLEMENTARY INFORMATION** section for the specific locations.

FOR FURTHER INFORMATION CONTACT: Delisse Ortiz by email at *delisse.ortiz@noaa.gov* or by phone at 301–427–8530.

SUPPLEMENTARY INFORMATION: Atlantic HMS fisheries are managed under the 2006 Consolidated HMS Fishery Management Plan and its amendments pursuant to the Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1801 *et seq.*) and consistent with the Atlantic Tunas Convention Act (16 U.S.C. 971 *et seq.*). HMS implementing regulations are at 50 CFR part 635.

Atlantic Highly Migratory Species Outreach Workshop

In recent years, HMS fisheries stakeholders, including fishers, dealers, and the general public, have requested that NMFS prioritize HMS fisheries management education and outreach in the U.S. Caribbean, specifically in Puerto Rico. To be responsive to stakeholder needs in Puerto Rico, NMFS is carrying out free HMS Outreach Workshops across five locations in Puerto Rico. The workshops are designed to educate fishers, dealers, and the general public on HMS regulations, distribute outreach materials, and assist fishers and dealers in applying for HMS permits. The increased engagement, outreach, and education in the U.S. Caribbean as a result of the HMS Outreach Workshops will help meet NMFS's goal of promoting sustainable fisheries and address key shark management outreach requests by our stakeholders in that region. These workshops are also consistent with NMFS's effort to encourage the involvement of disadvantaged or underserved communities consistent with Executive Orders 14008, 12898, and 13895.

Workshop Dates, Times, and Locations

1. April 29, 2024, 4 p.m.–6 p.m. AST, Anfiteatro Municipio de Aguadilla, Calle Ruiz Belvis, Aguadilla, PR, 00603.

2. April 30, 2024, 4:30 p.m.–6:30 p.m. AST, Boquerón Yacht Club/Club Náutico de Boquerón, 2RGF+GQ Cabo Rojo, PR 00623.

3. May 1, 2024, 4 p.m.–6 p.m. AST, Villa Pesquera La Guancha, 80 Avenida Padre Noel, Ponce, PR 00716.

4. May 2, 2024, 4:30 p.m.–6:30 p.m. AST, Villa Pesquera Jarealito, Barrio Jarealito Carretera #681, Arecibo, PR 00612.

5. May 3, 2024, 5:30 p.m.–7:30 p.m. AST, Club Náutico y Villa Pesquera, FPGC+8WJ, Calle Madre Perla, Dorado, PR, 00646.

Additional free HMS Outreach Workshops will be conducted in 2024 and will be announced in a future notice.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: April 24, 2024.

Everett Wayne Baxter,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

BILLING CODE 3510–22–P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Cooperative Game Fish Tagging Report

The Department of Commerce will submit the following information collection request to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995, on or after the date of publication of this notice. We invite the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. Public comments were previously requested via the **Federal Register** on January 16, 2024 during a 60-day comment period. This notice allows for an additional 30 days for public comments.

Agency: National Oceanic and Atmospheric Administration, Commerce.

Title: Cooperative Game Fish Tagging Report.

OMB Control Number: 0648–0247.

Form Number(s): 88–162.

Type of Request: Regular submission, extension of a current information collection.

Number of Respondents: 500.

Average Hours per Response: Two minutes to complete the fish tag card.

Total Annual Burden Hours: 167 hours.

Needs and Uses: This request is for extension of a current information collection. The Cooperative Game Fish Tagging Program was initiated in 1971 as part of a comprehensive research program resulting from passage of Public Law 86–359, Study of Migratory Game Fish, and other legislative acts under which the National Marine Fisheries Service (NMFS) operates. The Cooperative Tagging Center attempts to determine the migration patterns of, and other biological information for, billfish, tunas, and swordfish. The Fish Tag Issue Report card is a necessary part of the tagging program. Fishermen volunteer to tag and release their catch. When requested, NMFS provides the volunteers with fish tags for their use when they release their fish. Usually a group of five tags is sent at one time, each attached to a Report card, which is pre-printed with the first and last tag numbers received, and has spaces for the respondent's name, address, date, and club affiliation (if applicable). He/she fills out the card with information when a fish is tagged and mails it to NMFS.

Information on each species is used by NMFS to determine migratory patterns, distance traveled, stock boundaries, age, and growth. These data are necessary input for developing management criteria by regional fishery management councils, states, and NMFS. The tag report cards are necessary to provide tags to the volunteer angler, record when and where the fish was tagged, the species, its estimated length and weight, tag number, and information on the tagger for follow-ups if the tagged fish is recovered. Failure to obtain these data would make management decisions very difficult and would be contrary to the NMFS Marine Recreational Fishing policy objectives. Anglers are made aware of the tagging program through several forms of media: newspaper and magazine articles, through both The Billfish Foundation and the Southeast Fisheries Science Center websites, peer review papers, and by word of mouth.

Affected Public: Individuals or households.

Frequency: Occasionally.

Respondent's Obligation: Voluntary.

Legal Authority: 16 U.S.C. 760e Name of Law: Study of Migratory Game Fish;

This information collection request may be viewed at *www.reginfo.gov.* Follow the instructions to view the Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website *www.reginfo.gov/public/do/PRAMain.* Find this particular information collection by selecting ''Currently under 30-day Review—Open for Public Comments'' or by using the search function and entering either the title of the collection or the OMB Control Number 0648–0247.

Sheleen Dumas,

Department PRA Clearance Officer, Office of the Under Secretary for Economic Affairs, Commerce Department.

National Oceanic and Atmospheric Administration

[RTID 0648–XD914]

Western Pacific Fishery Management Council; Public Meetings

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of public meetings.

SUMMARY: The Western Pacific Fishery Management Council (Council) will hold meetings of its Archipelagic Plan Team (APT) and Pelagic Plan Team (PPT) to discuss fishery management issues and develop recommendations for future management of fisheries in the Western Pacific Region.

DATES: The APT will meet on Monday and Tuesday, May 13–14, 2024, between 8:30 a.m. and 4 p.m., Hawaii Standard Time (HST). The APT will meet jointly with the PPT on Wednesday, May 15, 2024, between 8:30 a.m. and 4 p.m., HST. The PPT will meet on Thursday and Friday, May 16–17, 2024, between 8:30 a.m. and 4 p.m., HST. For specific times and agendas, see **SUPPLEMENTARY INFORMATION**.

ADDRESSES: The meeting will be held in a hybrid format with in-person and remote participation (Webex) options available for the members, and public attendance limited to web conference via Webex. In-person attendance for

members will be hosted at the Council office, 1164 Bishop Street, Suite 1400, Honolulu, HI 96813. Specific information on joining the meeting, connecting to the web conference and making oral public comments will be posted on the Council website at *www.wpcouncil.org.* For assistance with the web conference connection, contact the Council office at (808) 522–8220.

FOR FURTHER INFORMATION CONTACT: Kitty M. Simonds, Executive Director, Western Pacific Fishery Management Council; phone: (808) 522–8220 (voice) or (808) 522–8226 (fax).

SUPPLEMENTARY INFORMATION: The APT meeting will be held Monday and Tuesday, May 13–14, 2024, between 8:30 a.m. and 4 p.m., Hawaii Standard Time (HST) (7:30 a.m. to 3 p.m., Samoa Standard Time (SST); 4:30 a.m. to 12 p.m. on May 14–15, 2023, Chamorro Standard Time (ChST)). The APT will meet jointly with the PPT on Wednesday, May 15, 2024, between 8:30 a.m. and 4 p.m., HST (7:30 a.m. to 3 p.m. Samoa Standard Time (SST); 4:30 a.m. to 12 p.m. on May 16, 2024, Chamorro Standard Time (ChST)). The PPT will meet on Thursday and Friday, May 16–17, 2024, between 8:30 a.m. and 4 p.m., HST (7:30 a.m. to 3 p.m., Samoa Standard Time (SST); 4:30 a.m. to 12 p.m. on May 17–18, 2024, Chamorro Standard Time (ChST)). Opportunities to present oral public comment will be provided on the agenda. The order of the agenda may change, and will be announced in advance at the meeting. The meeting may run past the scheduled times noted above to complete scheduled business.

Agenda for the Archipelagic Plan Team Meeting

Monday, May 13, 2024, 8:30 a.m. to 4 p.m., HST (7:30 a.m. to 3 p.m., Samoa Standard Time (SST); 4:30 a.m. to 12 p.m. on May 14, 2024, Chamorro Standard Time (ChST))

1. Welcome and introductions
2. Approval of Draft APT Agenda
3. Report on Previous APT Recommendations
4. 2023 Annual Stock Assessment and Fishery Evaluation (SAFE) Reports
   - A. Fishery Performance
   - i. Archipelagic Fishery Performance Modules
   - a. American Samoa
   - b. Guam
   - c. Commonwealth of the Northern Mariana Islands (CNMI)
   - d. Hawaii
   - ii. Ecosystem Component Species Discussion
   - a. Adding/Removing ECS from the Fishery Ecosystem Plans (FEPs)
   - b. Triggers for Management Action
   - c. Points of Emphasis for Requested Office of Sustainable Fisheries Presentation
   - B. Ecosystem and Climate Considerations
   - i. Protected Species
   - ii. Life History and Length-Derived variables
   - iii. Biomass Estimates for Coral Reef Ecosystem Components
5. Discussions
6. Public Comment
7. 2023 Archipelagic Annual SAFE Reports (continued)
   - A. Administrative Reports
   - i. Federal Permit and Logbook Data
   - ii. Regulatory Actions
   - iii. Discussions
   - B. Discussion: Archipelagic SAFE Report Matters
   - i. Changing American Samoa BMUS Reporting Scheme
   - ii. Other Items

Tuesday, May 14, 2024, 8:30 a.m. to 4 p.m., HST (7:30 a.m. to 3 p.m., Samoa Standard Time (SST); 4:30 a.m. to 12 p.m. on May 15, 2024, Chamorro Standard Time (ChST))

8. APT Review: Working Group Progress
   - A. Territorial Non-Commercial Modules
   - B. Uku Annual Catch Limit (ACL) Monitoring
   - C. Oceanic Whitetip Shark Interactions in Bottomfish Fisheries
9. Council Actions
   - A. American Samoa Bottomfish Management Unit Species (BMUS) Revision
   - B. Precious Coral Essential Fish Habitat (EFH) Update
   - C. ACL Specifications
   - i. Guam BMUS
   - ii. Hawaii Deep 7 Bottomfish
10. Ongoing and Upcoming Uku Efforts
    - A. Ecosystem-Based Fishery Management (EBFM) Initiative
    - B. Data Survey Project
    - C. Research Stock Assessment
11. Public Comment
12. Discussion and Archipelagic Plan Team Recommendations

Agenda for the Joint Archipelagic and Pelagic Plan Teams Meeting

Wednesday, May 15, 2024, 8:30 a.m. to 4 p.m., HST (7:30 a.m. to 3 p.m., Samoa Standard Time (SST); 4:30 a.m. to 12 p.m. on May 16, 2024, Chamorro Standard Time (ChST))

1. PPT Welcome and introductions
2. Approval of draft PPT agenda
3. 2023 Annual SAFE Reports
   - A. Fisher Observations
   - i. American Samoa
   - ii. CNMI
   - iii. Guam
   - iv. Hawaii
   - B. Ecosystem Component Species Discussion
   - i. Oceanic and Climate Variables
   - a. Dashboard Presentation (and Relation to Council's Online Portals)
   - b. Discussion: Incorporating Fishery-Ecosystem Relationships
   - ii. Socioeconomics
   - a. Equity and Environmental Justice (EEJ) Subsection
   - b. Discussion: Overlap Between Hawaii FEP and Pelagic FEP
   - iii. Essential Fish Habitat
   - iv. Marine Planning
4. Online Portals for SAFE Reports
   - A. Review New Section—Pelagic Socioeconomics
   - B. Next Steps
5. Plan team Review: Working Group and Action Item Progress
   - A. Hawaii Non-Commercial Module
   - B. Automation
   - C. Marine Planning Module Revisions
   - D. Regulatory Timelines
   - E. Plan team Style Guide
6. Discussion: Archipelagic and Pelagic SAFE Report Matters
   - A. Uncertainty Values
   - B. Non-disclosed Data
   - C. Other Items
7. Program Planning
   - A. Council Five-Year Program Plan
   - B. Magnuson-Stevens Reauthorization Act Research Priorities 2025–2029
   - C. Climate Ecosystems and Fisheries Initiative (CEFI)
   - D. Small-Boat Fisheries
   - i. Project Update
   - ii. MUS Discussion
8. Other Issues
9. Public Comment
10. Discussion and Joint Plan Team Recommendations
11. Other Business and APT Closing

Agenda for the Pelagic Plan Team Meeting

Thursday, May 16, 2024, 8:30 a.m. to 4 p.m., HST (7:30 a.m. to 3 p.m., Samoa Standard Time (SST); 4:30 a.m. to 12 p.m. on May 17, 2024, Chamorro Standard Time (ChST))

1. Report on Previous PPT Recommendations
2. 2023 Pelagic Annual SAFE Reports
   - A. Fishery Data Modules
   - i. American Samoa
   - ii. CNMI
   - iii. Guam
   - iv. Hawaii
   - v. International
   - B. Ecosystem Considerations Modules
   - i. Protected Species
3. PPT Review: Working Group and Action Item Progress

A. Shallow-set Longline Turtle Trip Interaction Limit Evaluation Working Group Report

B. Life History Module Development

C. Discussion: Assessment of Creel Survey Design for American Samoa Trolling

D. Incorporating Additional Biological Opinion (BiOp) Monitoring Requirements

4. Public Comment

Friday, May 17, 2024, 8:30 a.m. to 4 p.m., HST (7:30 a.m. to 3 p.m., Samoa Standard Time (SST); 4:30 a.m. to 12 p.m. on May 18, 2024, Chamorro Standard Time (ChST))

5. Discussion: Pelagic SAFE Report Matters

A. Removal of Stacked Bar Charts from Report

B. Other Items

6. BiOp Reasonable and Prudent Measures (RPM) Implementation Working Group Report and Timeline for Council Action

A. Crew Training Program

B. Insular False Killer Whale Overlap Area Observer Coverage

7. Electronic Monitoring Pre-Implementation Program Update from Electronic Technologies Steering Committee

8. Characterizing Cookie Cutter Shark Interactions in the Hawaii Longline Fishery

9. Characterizing Hawaii Shortline Fisheries

10. International Fisheries Updates

11. Discussions

12. Public Comment

13. Pelagic Plan Team Recommendations

14. Other Business and PPT Closing

Special Accommodations

These meetings are accessible to people with disabilities. Please direct requests for sign language interpretation or other auxiliary aids to Kitty M. Simonds (see **FOR FURTHER INFORMATION CONTACT** section above) at least 5 days prior to the meeting date.

North Pacific Fishery Management Council; Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of a hybrid meeting.

SUMMARY: The North Pacific Fishery Management Council (Council) Fishery Monitoring Advisory Committee (FMAC) will meet May 13, 2024 through May 14, 2024.

DATES: The meetings will be held on Monday, May 13, 2024, from 9 a.m. to 4 p.m. and on Tuesday, May 14, 2024, from 8:30 a.m. to 4 p.m., Alaska time.

ADDRESSES: The meeting will be a hybrid meeting. On Monday, May 13, attend in-person at North Pacific Fishery Management Council office, 1007 W 3rd Ave., Anchorage, Suite 400. On Tuesday, May 14, attend in person at the North Pacific Research Board office, 1007 West Third Ave., Suite 100 Anchorage, AK 99501 or join online through the link *https://meetings.npfmc.org/Meeting/Details/3044.*

Council address: North Pacific Fishery Management Council, 1007 W 3rd Ave., Suite 400, Anchorage, AK 99501–2252; telephone (907) 271–2809. Instructions for attending the meeting are given under **SUPPLEMENTARY INFORMATION** below.

FOR FURTHER INFORMATION CONTACT: Sara Cleaver, Council staff; phone: (907) 271–2809; email: *sara.cleaver@noaa.gov.* For technical support, please contact Council administrative staff, email: *npfmc.admin@noaa.gov.*

SUPPLEMENTARY INFORMATION:

Agenda

Monday, May 13, 2024, Through Tuesday, May 14, 2024

The May 2024 FMAC agenda will include: (a) updates since the last FMAC meeting; (b) an abbreviated 2023 Observer Annual report; (c) NMFS updates, including budget, changes to data collections in 2024, supreme court cases, start-up with the Pacific cod trawl cooperative, (d) observer availability issues, and (e) other business.

The agenda is subject to change, and the latest version will be posted at *https://meetings.npfmc.org/Meeting/Details/3044* prior to the meeting, along with meeting materials.

Connection Information

You can attend the meeting online using a computer, tablet, or smartphone; or by phone only. Connection information will be posted online at: *https://meetings.npfmc.org/Meeting/Details/3044.* If you are attending the meeting in-person, please note that all attendees will be required to wear a mask.

Public Comment

Public comment letters will be accepted and should be submitted electronically to *https://meetings.npfmc.org/Meeting/Details/3044.*

Authority: 16 U.S.C. 1801 *et seq.*

Dated: April 24, 2024.

BILLING CODE 3510–22–P

CORPORATION FOR NATIONAL AND COMMUNITY SERVICE

Privacy Act of 1974; System of Records

AGENCY: Corporation for National and Community Service.

ACTION: Notice of modified systems of records.

SUMMARY: In accordance with the Privacy Act of 1974, as amended, the Office of Diversity, Equity, Inclusion, and Accessibility of the Corporation for National and Community Service (operating as AmeriCorps) is issuing a public notice of its intent to modify a system of records, Discrimination Complaint Files–Corporation–10, which will be renamed ''CNCS–10–CEO–CRCM–Civil Rights Case Management System of Records.'' The Office of Diversity, Equity, Inclusion, and Accessibility maintains CNCS–10–CEO–CRCM–Civil Rights Case Management System, which contains program discrimination complaints alleging unlawful discrimination under Title VI of the Civil Rights Act of 1964, as amended, arising within programs or activities conducted or assisted by AmeriCorps. The revisions update the system name, authority of the system, purpose of the system, addresses of the system location, system managers, the categories of records in the system, the categories of individuals in the system, the routine uses of the records, the safeguards, retention and disposal, notification procedures, records access procedures, notification procedures, and contesting record procedures.

DATES: Any comments must be received on or before May 29, 2024. Unless comments are received that would require a revision, this modified system of records will become effective on May 29, 2024.

ADDRESSES: You may submit comments identified by system name and number by any of the following methods:

1. Electronically through *regulations.gov.* Once you access *regulations.gov,* find the web page for this SORN by searching for CNCS–10–CEO–CRCM–Civil Rights Case Management.

2. By email at *privacy@americorps.gov.*

3. By mail: AmeriCorps, Attn: Bilal Razzaq, Chief Privacy Officer, OIT, 250 E Street SW, Washington, DC 20525.

4. By hand delivery or courier to AmeriCorps at the address for mail between 9:00 a.m. and 4:00 p.m. Eastern Standard Time, Monday through Friday, except for federal holidays.

Please note that all submissions received may be posted without change to *regulations.gov,* including any personal information. Commenters should be careful to include in their comments only information that they wish to make publicly available.

FOR FURTHER INFORMATION CONTACT: If you have general questions about the system of records, please contact ZhuoHong Liu at *zliu@americorps.gov,* by phone at 202–938–7868, or mail them to the address in the **ADDRESSES** section above. Please include the system of records' name and number.

SUPPLEMENTARY INFORMATION: AmeriCorps proposes to amend the existing system of records, Discrimination Complaint Files–Corporation–10, which was last published in the **Federal Register** in 67 FR 4404 (January 30, 2002).

The proposed amendments rename the system of records as ''CNCS–10–CEO–CRCM–Civil Rights Case Management System of Records'' (CRCM). The CRCM holds the agency's records for every part of AmeriCorps' Title VI Civil Rights discrimination complaints from intake to resolution and reporting.

The proposed amendments update the legal authorities of the system to include Executive Order 13985, Advancing Racial Equity and Support for Underserved Communities Through the Federal Government, January 20, 2021; Executive Order 14091, Further Advancing Racial Equity and Support for Underserved Communities Throughout the Federal Government, February 22, 2023; Executive Order 14096, Revitalizing Our Nation's Commitment to Environmental Justice for All, April 21, 2023. The legal authority for maintaining records covered by EEOC/GOVT–1, Equal Employment Opportunity in the Federal Government Complaint and Appeal Records system of records notice is excluded.

The proposed amendments convey that the Equal Employment Opportunity complaint records of federal employees and applicants are covered by the government-wide system of records EEOC/GOVT–1, Equal Employment Opportunity in the Federal Government Complaint and Appeal Records (last published 81 FR 81116, Nov. 17, 2016), and are no longer listed as records in CRCM.

The proposed amendments update the address of the system, purpose of the system, the system manager, the categories of records, the categories of individuals, the system location, storage, safeguards, retention and disposal, notification procedures, records access procedures, and contesting record procedures.

The proposed amendments revise former Routine Uses 6, 7, 8 and 9, and reorganize the Routine Uses. The former Routine Use 7 is replaced by Routine Use B. The former Routine Use 9 is replaced by Routine Use C. The former Routine Use 6 is replaced by Routine Use K. The former Routine Use 8 is replaced by Routine Use N. The former Routine Uses 1, 2, 3, 4, 5, 10, and 11 are reorganized into Routine Uses O, P, Q, R, S, T and U.

The proposed amendments add new Routine Uses A, D, E, F, G, H, I, J, L, and M to meet the current programmatic needs and the requirements of the Office of Management and Budget (OMB) Memorandum M–17–12, Preparing for and Responding to a Breach of Personally Identifiable Information (Jan. 3, 2017).

In accordance with 5 U.S.C. 552a(r), AmeriCorps has provided a report of this system of records to the Office of Management and Budget and to Congress.

SYSTEM NAME AND NUMBER:

CNCS–10–CEO–CRCM–Civil Rights Case Management System of Records

SECURITY CLASSIFICATION:

Unclassified.

This system of records is maintained by the Office of Diversity, Equity, Inclusion, and Accessibility, Office of the Chief Executive Officer, AmeriCorps, 250 E Street SW, Washington, DC 20525.

SYSTEM MANAGER(S):

Director, Office of Diversity, Equity, Inclusion, and Accessibility, Office of the Chief Executive Officer, 250 E Street SW, Washington, DC 20525.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title VI of the Civil Rights Act of 1964 (42 U.S.C. 2000d *et seq.*); Executive Order 13985, Advancing Racial Equity and Support for Underserved Communities Through the Federal Government, January 20, 2021; Executive Order 14091, Further Advancing Racial Equity and Support for Underserved Communities Through the Federal Government, February 22, 2023; Executive Order 14096, Revitalizing Our Nation's Commitment to Environmental Justice for All, April 21, 2023; the Rehabilitation Act of 1973, as amended; Title IX of the Education Amendments of 1972, as amended; the Age Discrimination Act of 1975, as amended; the Domestic Volunteer Service Act of 1973, as amended; and the National and Community Service Act of 1990, as amended.

PURPOSE(S) OF THE SYSTEM:

CRCM enables AmeriCorps' Office of Diversity, Equity, Inclusion, and Accessibility to modernize the Title VI Civil Rights complaint filing management and conduct streamlined complaint intake, counseling, and investigation under current legal authorities.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

The system covers individuals who have filed informal or formal complaints with, or against, AmeriCorps, including any recipient of services, programs, or benefits from AmeriCorps or one of its programs; AmeriCorps members, applicants, or trainees for volunteer or service status, or employees of a grantee or program beneficiary.

CATEGORIES OF RECORDS IN THE SYSTEM:

The identity and contact information of complainants, including first, middle, and last names, email address, phone number, address, city, state, zip code, and any accommodation needed; information of program or person involved; complaint details and complaint processing and status information; other information produced during the course of processing a complaint, such as Reports of Investigation, counseling documents, case decisions, and relevant correspondence, including settlement and mediation agreements.

RECORD SOURCE CATEGORIES:

(1) Complainants, witnesses, etc. in discrimination complaints; (2) Reports of Investigation and Counselors' Reports; (3) copies of documents relevant to investigations; (4) records of hearings on complaints; and (5) correspondence.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND PURPOSES OF SUCH USES:

In addition to those disclosures generally permitted under 5 U.S.C. 552a(b), all or a portion of the records or information contained in this system of records may be disclosed as a routine use pursuant to 5 U.S.C. 552a(b)(3) under the circumstances or for the purposes described below, to the extent such disclosures are compatible with the purposes for which the information was collected:

A. To the U.S. Department of Justice (DOJ), including the U.S. Attorney's Offices, or other federal agencies conducting litigation or proceedings before any court, adjudicative, or administrative body, when it is relevant or necessary to the litigation or proceeding and one of the following is a party to the litigation or has an interest in such litigation:

(1) AmeriCorps;

(2) Any employee or former employee of AmeriCorps in his/her official capacity;

(3) Any employee or former employee of AmeriCorps in his/her individual capacity, but only when DOJ or AmeriCorps has agreed to represent the employee; or

(4) The United States or any agency thereof.

B. To a congressional office in response to an inquiry from that congressional office which is made at the request of the individual to whom the record pertains.

C. To the National Archives and Records Administration or General Services Administration, pursuant to records management inspections conducted under the authority of 44 U.S.C. 2904 and 2906.

D. To an agency or organization for the purpose of performing audit or oversight operations as authorized by law, but only such information as is necessary and relevant to the audit or oversight function.

E. To the Executive Office of the President in response to an inquiry from that office made at the request of the subject of a record, or a third party on that person's behalf, or for a purpose compatible with the reason for which the records are collected or maintained.

F. To an official of another federal agency to provide information needed in the performance of official duties related to reconciling or reconstructing data files or to enable that agency to respond to an inquiry by the individual to whom the record pertains.

G. To state, territorial, and local governments and tribal organizations to provide information needed in response to a court order and/or for discovery purposes related to litigation, when the disclosure is compatible with the purpose for which the records were compiled.

H. To appropriate agencies, entities, and persons when:

(1) AmeriCorps suspects or has confirmed that there has been a breach of the system of records;

(2) AmeriCorps has determined that as a result of the suspected or confirmed breach there is a risk of harm to individuals, AmeriCorps (including its information systems, programs, and operations), the Federal Government, or national security; and

(3) The disclosure made to such agencies, entities, and persons is reasonably necessary to assist AmeriCorps in connection with its efforts to respond to the suspected or confirmed breach or to prevent, minimize, or remedy such harm.

I. To another federal agency or federal entity, when AmeriCorps determines that information from this system of records is reasonably necessary to assist the recipient agency or entity in:

(1) Responding to a suspected or confirmed breach; or

(2) Preventing, minimizing, or remedying the risk of harm to individuals, the recipient agency or entity (including its information systems, programs, and operations), the Federal Government, or national security, resulting from a suspected or confirmed breach.

J. To an appropriate federal, state, tribal, local, international, or foreign law enforcement agency or other appropriate authority charged with investigating or prosecuting a violation or enforcing or implementing a law, rule, regulation, or order, when a record, either on its face or in conjunction with other information, indicates a violation or potential violation of law, which includes criminal, civil, or regulatory violations and such disclosure is proper and consistent with the official duties of the person making the disclosure.

K. To a court, magistrate, or administrative tribunal in the course of presenting evidence, including disclosures to opposing counsel or witnesses in the course of civil discovery, litigation, or settlement negotiations or in connection with criminal law proceedings, when it is relevant and necessary to the litigation or proceeding.

L. To contractors and their agents, grantees, experts, consultants, and others performing or working on a contract, service, grant, cooperative agreement, or other assignment for AmeriCorps, when necessary to accomplish an agency function related to this system of records. Individuals provided information under this routine use are subject to the same requirements and limitations on disclosure as are applicable to AmeriCorps officers and employees.

M. To appropriate third parties contracted by AmeriCorps to investigate a complaint or appeal filed by an employee or applicant, or to facilitate and conduct mediation or other alternative dispute resolution (ADR) procedures or programs.

N. To any official or designee charged with the responsibility to conduct qualitative assessments at a designated statistical agency and other well established and trusted public or private research organizations, academic institutions, or agencies for an evaluation, study, research, or other analytical or statistical purpose.

O. Disclosure including referral:

(1) To a federal, state, or local agency charged with the responsibility of investigating, enforcing, or implementing the statutes, rules, regulations, or orders that authorize AmeriCorps' maintenance of this system;

(2) to an investigator, counselor, grantee or other recipient of federal financial assistance or hearing officer or arbitrator charged with the above responsibilities;

(3) any and all appropriate and necessary uses of such records in a court of law or before an administrative board or hearing; and

(4) such other referrals as may be necessary to carry out the enforcement and implementation of the statutes, rules, regulations, or orders that authorize AmeriCorps' maintenance of this system.

P. To the Congressional committees having legislative oversight over the program involved, including when actions are proposed to be undertaken by suspending or terminating or refusing to grant or to continue federal financial assistance for violation of the statutes, rules, regulations, or orders that apply to recipients of federal financial assistance from AmeriCorps.

Q. To any source, either private or governmental, to the extent necessary to secure from source information relevant to, and sought in furtherance of, a legitimate investigation or Equal

Employment Opportunity counseling matter.

R. To a contractor, grantee or other recipient of federal financial assistance, when the record to be released reflects serious inadequacies with the recipient's personnel, and disclosure of the record is for the purpose of permitting the recipient to effect corrective action in the Government's best interests.

S. To any party pursuant to the receipt of a valid subpoena.

T. To federal, state, local and professional licensing authorities when the record to be released reflects on the moral, educational, or vocational qualifications of an individual seeking to be licensed.

U. To the Office of Government Ethics (OGE) for any purpose consistent with OGE's mission, including the compilation of statistical data.

POLICIES AND PRACTICES FOR STORAGE OF RECORDS:

AmeriCorps stores records in this system electronically.

POLICIES AND PRACTICES FOR RETRIEVAL OF RECORDS:

Records may be retrieved by the complainant's name.

POLICIES AND PRACTICES FOR RETENTION AND DISPOSAL OF RECORDS:

The applicable records retention and disposition schedules are General Records Schedule (GRS) 2.3, item 110 and GRS 2.3, item 111. The disposition authority for Title VI Civil Rights discrimination informal complaint case file is DAA–GRS–2018–0002–0012. The disposition is temporary, and records will be destroyed 3 years after resolution of a case, but longer retention is authorized if required for business use. The disposition authority for Title VI Civil Rights discrimination formal complaint case files is DAA–GRS–2018–0002–0013. The disposition is temporary, and records will be destroyed 7 years after resolution of a case, but longer retention is authorized if required for business use.

ADMINISTRATIVE, TECHNICAL, AND PHYSICAL SAFEGUARDS:

AmeriCorps safeguards records in this system according to applicable laws, rules, and policies, including all applicable AmeriCorps automated systems security and access policies. AmeriCorps has strict controls in place to minimize the risk of compromising the information that is being stored. Access to the computer system containing the records in this system is limited to those individuals who have a need to know the information for the performance of their official duties and who have appropriate clearances or permissions.

RECORD ACCESS PROCEDURES:

In accordance with 45 CFR part 2508—Implementation of the Privacy Act of 1974, as amended, individuals wishing to access their own records stored within the system of records may contact the FOIA Officer/Privacy Act Officer by sending (1) an email to *FOIA@americorps.gov* or (2) a letter addressed to the System Manager, Attention Privacy Inquiry. Individuals who make a request must include enough identifying information (*i.e.,* full name, current address, date, and signature) to locate their records, indicate that they want to access their records, and be prepared to confirm their identity as required by 45 CFR part 2508.

CONTESTING RECORD PROCEDURES:

All requests to contest or amend information maintained in the system will be directed to the FOIA Officer/ Privacy Act Officer. Individuals who make a request must include enough identifying information to locate their records, in the manner described above in the Record Access Procedures section. Requests should state clearly and concisely what information is being contested, the reasons for contesting it, and the proposed amendment to the information.

NOTIFICATION PROCEDURES:

Any individual desiring to contest or amend information not subject to exemption may contact the FOIA Officer/Privacy Act Officer via the contact information in the Record Access Procedures section. Individuals who make a request must include enough identifying information to locate their records, indicate that they want to be notified whether their records are included in the system, and be prepared to confirm their identity as required by 45 CFR part 2508.

EXEMPTIONS PROMULGATED FOR THE SYSTEM:

None.

HISTORY:

Discrimination Complaint Files–Corporation–10 issued 67 FR 4395–4410 (January 30, 2002).

Prabhjot Bajwa,

Senior Agency Official for Privacy and Chief Information Officer.

BILLING CODE 6050–28–P

DEPARTMENT OF DEFENSE

Defense Acquisition Regulations System

[Docket Number DARS–2024–0003; OMB Control Number 0704–0483]

Information Collection Requirement; Defense Federal Acquisition Regulation Supplement (DFARS); Independent Research and Development Technical Descriptions

AGENCY: Defense Acquisition Regulations System, Department of Defense (DoD).

ACTION: Notice.

SUMMARY: The Defense Acquisition Regulations System has submitted to OMB for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act.

DATES: Consideration will be given to all comments received by May 29, 2024.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to *https://www.reginfo.gov/public/do/PRAMain.* Find this particular information collection by selecting ''Currently under 30-day Review—Open for Public Comments'' or by using the search function.

You may also submit comments, identified by docket number and title, by the following method: Federal eRulemaking Portal: *https://www.regulations.gov.* Follow the instructions for submitting comments.

FOR FURTHER INFORMATION CONTACT: Tucker Lucas, 571–372–7574, or *whs.mc-alex.esd.mbx.dd-dod-information-collections@mail.mil.*

SUPPLEMENTARY INFORMATION:

Title and OMB Number: Defense Federal Acquisition Regulation Supplement (DFARS), Independent Research and Development Technical Descriptions; OMB Control Number 0704–0483.

Type of Request: Extension of a currently approved collection.

Affected Public: Businesses or other for-profit and not-for-profit institutions.

Respondent's Obligation: Required to obtain or retain benefits.

Frequency: On Occasion

Number of Respondents: 79.

Responses per Respondent: Approximately 66.82.

Annual Responses: 5,279.

Average Burden per Response: 0.5 hour.

Annual Burden Hours: 2,640.

Needs and Uses: DFARS 231.205–18 requires contractors to report independent research and development (IR&D) projects to the Defense Technical Information Center (DTIC) using DTIC's online IR&D database. The inputs must be updated at least annually and when the project is completed. The data provide in-process information on IR&D projects for which DoD reimburses the contractor as an allowable indirect expense. In addition to improving DoD's ability to determine whether contractor IR&D costs are allowable, the data provide visibility into the technical content of industry IR&D activities to meet DoD needs.

DoD Clearance Officer: Mr. Tucker Lucas. Requests for copies of the information collection proposal should be sent to Mr. Lucas at *whs.mc-alex.esd.mbx.dd-dod-information-collections@mail.mil*.

Jennifer D. Johnson,

Editor/Publisher, Defense Acquisition Regulations System.

DEPARTMENT OF DEFENSE

Defense Acquisition Regulations System

[Docket Number DARS–2024–0004; OMB Control Number 0704–0214]

Information Collection Requirement; Defense Federal Acquisition Regulation Supplement Part 217, Special Contracting Methods

AGENCY: Defense Acquisition Regulations System, Department of Defense (DoD).

ACTION: Notice.

SUMMARY: The Defense Acquisition Regulations System has submitted to OMB for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act.

DATES: Consideration will be given to all comments received by May 29, 2024.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to *https://www.reginfo.gov/public/do/PRAMain.* Find this particular information collection by selecting ''Currently under 30-day Review—Open for Public Comments'' or by using the search function.

You may also submit comments, identified by docket number and title, by the following method: Federal eRulemaking Portal: *https://www.regulations.gov.* Follow the instructions for submitting comments.

FOR FURTHER INFORMATION CONTACT: Tucker Lucas, 571–372–7574, or *whs.mc-alex.esd.mbx.dd-dod-information-collections@mail.mil.*

SUPPLEMENTARY INFORMATION:

Title and OMB Number: Defense Federal Acquisition Regulation Supplement (DFARS) Part 217, Special Contracting Methods, and related clauses at 252.217; OMB Control Number 0704–0214.

Type of Request: Extension of a currently approved collection.

Affected Public: Businesses or other for-profit and not-for-profit institutions.

Respondent's Obligation: Required to obtain or retain benefits.

Frequency: On Occasion

Number of Respondents: 4,815.

Responses per Respondent: Approximately 6.4.

Annual Responses: 30,758.

Average Burden per Response: Approximately 7.5 hours.

Annual Burden Hours: 229,436.

Needs and Uses: DFARS part 217 prescribes policies and procedures for acquiring supplies and services by special contracting methods. Contracting officers use the required information as follows:

DFARS 217.7004(a): When solicitations permit the exchange (or trade-in) of personal property and application of the exchange allowance to the acquisition of similar property, offerors must provide the prices for the new items being acquired both with and without any exchange. Contracting officers use the information to make an informed decision regarding the reasonableness of the prices for both the new and trade-in items.

DFARS 217.7404–3(b): When awarded an undefinitized contract action, contractors are required to submit a qualifying proposal in accordance with the definitization schedule provided in the contract. Contracting officers use this information to complete a meaningful analysis of a contractor's proposal in a timely manner.

DFARS 217.7505(d): When responding to sole-source solicitations that include the acquisition of replenishment parts, offerors submit price and quantity data on any Government orders for the replenishment part(s) issued within the most recent 12 months. Contracting officers use this information to evaluate recent price increases for sole-source replenishment parts.

DFARS clause 252.217–7012: Included in master agreements for repair and alteration of vessels, paragraph (d) of the clause requires contractors to show evidence of insurance under the agreement. Contracting officers use this information to ensure that the contractor is adequately insured when performing work under the agreement. Paragraphs (f) and (g) of the clause require contractors to notify the contracting officer of any property loss or damage for which the Government is liable under the agreement and submit a request, with supporting documentation, for reimbursement of the cost of replacement or repair. Contracting officers use this information to stay informed of lost or damaged property for which the Government is liable, and to determine the appropriate course of action for replacement or repair of the property.

DFARS provision 252.217–7026: Included in certain solicitations for supplies that are being acquired under other than full and open competition, the provision requires the apparently successful offeror to identify their sources of supply so that competition can be enhanced in future acquisitions.

DFARS clause 252.217–7028: When performing under contracts for overhaul, maintenance, and repair, contractors must submit a work request and proposal for ''over and above'' work that is within the scope of the contract, but not covered by the line item(s) under the contract, and necessary in order to satisfactorily complete the contract. This requirement allows the Government to review the need for pending work before the contractor begins performance.

DoD Clearance Officer: Mr. Tucker Lucas. Requests for copies of the information collection proposal should be sent to Mr. Lucas at *whs.mc-alex.esd.mbx.dd-dod-information-collections@mail.mil.*

BILLING CODE 6001–FR–P

DEPARTMENT OF DEFENSE

Defense Acquisition Regulations System

[Docket Number DARS–2024–0016; OMB Control Number 0704–0255]

Information Collection Requirement; Defense Federal Acquisition Regulation Supplement (DFARS); Construction and Architect-Engineer Contracts

AGENCY: Defense Acquisition Regulations System; Department of Defense (DoD).

ACTION: Notice and request for comments regarding a proposed extension of an approved information collection requirement.

SUMMARY: In compliance with the Paperwork Reduction Act of 1995, DoD announces the proposed extension of a public information collection requirement and seeks public comment on the provisions thereof. DoD invites comments on: whether the proposed collection of information is necessary for the proper performance of the functions of DoD, including whether the information will have practical utility; the accuracy of DoD's estimate of the burden of the proposed information collection; ways to enhance the quality, utility, and clarity of the information to be collected; and ways to minimize the burden of the information collection on respondents, including through the use of automated collection techniques or other forms of information technology. The Office of Management and Budget (OMB) has approved this information collection for use under Control Number 0704–0255 through August 31, 2024. DoD proposes that OMB approve an extension of the information collection requirement, to expire three years after the approval date.

DATES: DoD will consider all comments received by June 28, 2024.

ADDRESSES: You may submit comments, identified by OMB Control Number 0704–0255, using either of the following methods:

- *Federal eRulemaking Portal: https://www.regulations.gov.* Follow the instructions for submitting comments.
- *Email: osd.dfars@mail.mil.* Include OMB Control Number 0704–0255 in the subject line of the message.

Comments received generally will be posted without change to *https://www.regulations.gov,* including any personal information provided.

FOR FURTHER INFORMATION CONTACT: Mr. Jon Snyder, at 703–945–5341.

SUPPLEMENTARY INFORMATION:

Title and OMB Number: Defense Federal Acquisition Regulation Supplement (DFARS) Part 236, Construction and Architect-Engineer Contracts, and related clauses at 252.236; OMB Control Number 0704–0255.

Affected Public: Businesses or other for-profit and not-for-profit institutions.

Respondent's Obligation: Required to obtain or retain benefits.

Frequency: On occasion.

Number of Respondents: 1,477.

Responses per Respondent: Approximately 5.53.

Annual Responses: 8,169.

Average Burden per Response: Approximately 11.157 hours.

Annual Burden Hours: 91,143.

Needs and Uses: DoD contracting officers need this information to evaluate contractor proposals for contract modifications; to determine that a contractor has removed obstructions to navigation; to review contractor requests for payment for mobilization and preparatory work; to determine reasonableness of costs allocated to mobilization and demobilization; and to determine eligibility for the 20 percent evaluation preference for United States firms in the award of some overseas construction contracts.

DFARS 236.570(a) prescribes use of the contract clause at DFARS 252.236–7000, Modification Proposals—Price Breakdown, in all fixed-price construction solicitations and contracts. The clause requires the contractor to submit a price breakdown with any proposal for a contract modification.

DFARS 236.570(b) prescribes use of the following contract clauses in fixed-price construction contracts and solicitations as applicable:

(1) The clause at DFARS 252.236–7002, Obstruction of Navigable Waterways, which requires the contractor to notify the contracting officer of obstructions in navigable waterways.

(2) The clause at DFARS 252.236–7003, Payment for Mobilization and Preparatory Work, which requires the contractor to provide supporting documentation when submitting requests for payment for mobilization and preparatory work.

(3) The clause at DFARS 252.236–7004, Payment for Mobilization and Demobilization, which permits the contracting officer to require the contractor to furnish cost data justifying the percentage of the cost split between mobilization and demobilization, if the contracting officer believes that the proposed percentages do not bear a reasonable relation to the cost of the work.

DFARS 236.570(c) prescribes use of the following solicitation provisions in solicitations for military construction contracts that are funded with military construction appropriations and are estimated to exceed $1,000,000:

(1) The provision at DFARS 252.236–7010, Overseas Military Construction—Preference for United States Firms, which requires an offeror to specify whether or not it is a United States firm when contract performance will be in a United States outlying area in the Pacific or in a country bordering the Arabian Gulf.

(2) The provision at DFARS 252.236–7012, Military Construction on Kwajalein Atoll—Evaluation Preference, requires an offeror to specify whether it is a United States firm, or on Kwajalein Atoll, status as a Marshallese firm, when contract performance is expected to exceed $1 million and will be on Kwajalein Atoll.

Jennifer D. Johnson,

Editor/Publisher, Defense Acquisition Regulations System.

BILLING CODE 6001–FR–P

DEPARTMENT OF DEFENSE

Defense Acquisition Regulations System

[Docket Number DARS–2024–0015; OMB Control Number 0704–0479]

Information Collection Requirement; Defense Federal Acquisition Regulation Supplement; Earned Value Management System

AGENCY: Defense Acquisition Regulations System, Department of Defense (DoD).

ACTION: Notice and request for comments regarding a proposed extension of an approved information collection requirement.

SUMMARY: In compliance with the Paperwork Reduction Act of 1995, DoD announces the proposed extension of a public information collection requirement and seeks public comment on the provisions thereof. DoD invites comments on: whether the proposed collection of information is necessary for the proper performance of the functions of DoD, including whether the information will have practical utility; the accuracy of DoD's estimate of the burden of the proposed information collection; ways to enhance the quality, utility, and clarity of the information to be collected; and ways to minimize the

burden of the information collection on respondents, including through the use of automated collection techniques or other forms of information technology. The Office of Management and Budget (OMB) has approved this information collection requirement for use under Control Number 0704–0479 through August 31, 2024. DoD proposes that OMB approve an extension of the information collection requirement, to expire three years after the approval date.

DATES: DoD will consider all comments received by June 28, 2024.

ADDRESSES: You may submit comments, identified by OMB Control Number 0704–0479, using either of the following methods:

- *Federal eRulemaking Portal: https://www.regulations.gov.* Follow the instructions for submitting comments.
- *Email: osd.dfars@mail.mil.* Include OMB Control Number 0704–0479 in the subject line of the message.

Comments received generally will be posted without change to *http://www.regulations.gov,* including any personal information provided.

FOR FURTHER INFORMATION CONTACT: Mr. Jon Snyder, at 703–945–5341.

SUPPLEMENTARY INFORMATION:

Title and OMB Number: Defense Federal Acquisition Regulation Supplement (DFARS) Business Systems-Definition and Administration; DFARS 234, Earned Value Management System; OMB Control Number 0704–0479.

Affected Public: Businesses and other for-profit entities.

Respondent's Obligation: Required to obtain or retain benefits.

Frequency: On occasion.

Number of Respondents: 10.

Responses per Respondent: 1.

Annual Responses: 10.

Average Burden per Response: 676 hours.

Annual Burden Hours: 6,760.

Needs and Uses: The contract clause at DFARS 252.242–7005, Contractor Business Systems, requires contractors to respond to written determinations of significant deficiencies in the contractor's business systems as defined in the clause. The information contractors are required to submit in response to findings of significant deficiencies in their accounting system, estimating system, material management and accounting system and purchasing system has previously been approved by the Office of Management and Budget under separate clearance requests. This information collection specifically addresses information required by DFARS clause 252.234–7002, Earned Value Management System, for contractors to respond to determinations of significant deficiencies in a contractor's Earned Value Management System (EVMS). The requirements apply to entities that are contractually required to maintain an EVMS. DoD needs this information to document actions to correct significant deficiencies in a contractor's EVMS. DoD contracting officers use the information to mitigate the risk of unallowable and unreasonable costs being charged on government contracts.

Jennifer D. Johnson,

Editor/Publisher, Defense Acquisition Regulations System.

BILLING CODE 6001–FR–P

DEPARTMENT OF DEFENSE

Office of the Secretary

Defense Science Board; Notice of Federal Advisory Committee Meeting

AGENCY: Under Secretary of Defense for Research and Engineering (USD(R&E)), Defense Science Board, Department of Defense (DoD).

ACTION: Notice of Federal advisory committee meeting.

SUMMARY: The DoD is publishing this notice to announce that the following Federal Advisory Committee meeting of the Defense Science Board (DSB) will take place.

DATES: Closed to the public Wednesday, May 1, 2024, from 9:00 a.m. to 4:45 p.m.; closed to the public Thursday, May 2, 2024 from 9:00 a.m. to 3:30 p.m.

ADDRESSES: The address of the closed meeting is the Pentagon, Room 3A912A, Washington, DC 20301.

FOR FURTHER INFORMATION CONTACT: Ms. Elizabeth J. Kowalski, Designated Federal Officer (DFO): (703) 571–0081 (Voice), (703) 697–1860 (Facsimile), *elizabeth.j.kowalski.civ@mail.mil* (Email). Mailing address is Defense Science Board, 3140 Defense Pentagon, Washington, DC 20301–3140. Website: *http://www.acq.osd.mil/dsb/.* The most up-to-date changes to the meeting agenda can be found on the website.

SUPPLEMENTARY INFORMATION: Due to circumstances beyond the control of the DFO, the DSB was unable to provide public notification required by 41 CFR 102–3.150(a) concerning its May 1–2, 2024 meeting. Accordingly, the Advisory Committee Management Officer for the DoD, pursuant to 41 CFR 102–3.150(b), waives the 15-calendar day notification requirement.

This meeting is being held under the provisions of chapter 10 of title 5 United States Code (U.S.C.) (commonly known as the ''Federal Advisory Committee Act'' or ''FACA''), 5 U.S.C. 552b(c) (commonly known as the ''Government in the Sunshine Act''), and sections 102–3.140 and 102–3.150 of title 41 Code of Federal Regulations (CFR).

Purpose of the Meeting: The mission of the DSB is to provide independent advice and recommendations on matters relating to the DoD's scientific and technical enterprise. The objective of the meeting is to obtain, review, and evaluate classified information related to the DSB's mission. DSB membership will meet with DoD Leadership to discuss classified current and future national security challenges and priorities within the DoD.

Agenda: The meeting will begin on Wednesday, May 1, 2024 at 9:00 a.m. Ms. Betsy Kowalski, DFO and Dr. Eric Evans, Chair of the DSB, will provide classified opening remarks regarding ongoing studies. Following break, DSB Members will read classified reports/executive summaries in preparation for deliberation and voting. The documents reviewed will include the DSB Task Force on DoD Dependencies on Critical Infrastructure report/executive summary; DSB Task Force on Commercial Space System Access and Integrity report/executive summary; the DSB Task Force on Future Cyber Warfighting Capabilities of the DoD report/executive summary; DSB Task Force to Advise Implementation and Prioritization of National Security Innovation Activities executive summary; the DSB Task Force on Digital Engineering Capability to Automate Testing and Evaluation report/executive summary; and the DSB 2024 Summer Study on Climate Change and Global Security report/executive summary. Following break, the Honorable Michael McCord, Under Secretary of Defense (Comptroller)/Chief Financial Officer, will provide a classified briefing on his views of current DoD strategy, challenges, and priorities. Next, Mr. Doug Beck, Defense Innovation Unit (DIU) Director, will provide a classified briefing on his views of DIU's strategy, challenges, and priorities. Finally, DSB Members will deliberate and vote on the DSB Task Force on DoD Dependencies on Critical Infrastructure report/executive summary; DSB Task Force on Commercial Space System Access and Integrity report/executive summary; and the DSB Task Force on Future Cyber Warfighting Capabilities of the DoD report/executive summary. The meeting will adjourn at 4:45 p.m. On Thursday, May 2, 2024, Dr. Lora Weiss, Senior

Vice President at Pennsylvania State University, will provide a classified briefing on semiconductor manufacturing. Next, DSB Members will deliberate and vote on the DSB Task Force to Advise Implementation and Prioritization of National Security Innovation Activities executive summary; the DSB Task Force on Digital Engineering Capability to Automate Testing and Evaluation report/executive summary; and the DSB 2024 Summer Study on Climate Change and Global Security report/executive summary. Following break, Dr. William LaPlante, Under Secretary for Acquisition and Sustainment (A&S), will provide a classified briefing on his views of current A&S strategy, challenges, and priorities. Finally, DSB members will have a classified plenary discussion regarding briefer remarks and ongoing studies. The meeting will adjourn at 3:30 p.m.

Meeting Accessibility: In accordance with 5 U.S.C. 1009(d) and 41 CFR 102–3.155, the DoD has determined that the DSB meeting will be closed to the public. Specifically, the USD(R&E), in consultation with the DoD Office of the General Counsel, has determined in writing that the meeting will be closed to the public because it will consider matters covered by 5 U.S.C. 552b(c)(1). The determination is based on the consideration that it is expected that discussions throughout will involve classified matters of national security concern. Such classified material is so intertwined with the unclassified material that it cannot reasonably be segregated into separate discussions without defeating the effectiveness and meaning of the overall meetings. To permit the meeting to be open to the public would preclude discussion of such matters and would greatly diminish the ultimate utility of the DSB's findings and recommendations to the Secretary of Defense and to the USD(R&E).

Written Statements: In accordance with 5 U.S.C. 1009(a)(3) and 41 CFR 102–3.105(j) and 102–3.140, interested persons may submit a written statement for consideration by the DSB at any time regarding its mission or in response to the stated agenda of a planned meeting. Individuals submitting a written statement must submit their statement to the DSB DFO at the email address provided in the **FOR FURTHER INFORMATION CONTACT** section at any point; however, if a written statement is not received at least three calendar days prior to the meeting, which is the subject of this notice, then it may not be provided to or considered by the DSB until a later date.

Dated: April 23, 2024.

Aaron T. Siegel,

Alternate OSD Federal Register Liaison Officer, Department of Defense.

BILLING CODE 6001–FR–P

DEPARTMENT OF DEFENSE

Office of the Secretary

Uniform Formulary Beneficiary Advisory Panel; Notice of Federal Advisory Committee Meeting

AGENCY: Under Secretary of Defense for Personnel and Readiness (USD(P&R)), Department of Defense (DoD).

ACTION: Notice of Federal advisory committee meeting.

SUMMARY: The DoD is publishing this notice to announce that the following Federal Advisory Committee meeting of the Uniform Formulary Beneficiary Advisory Panel (UFBAP) will take place.

DATES: Open to the public Wednesday, June 26, 2024, from 10:00 a.m. to 1:00 p.m. Eastern Standard Time.

ADDRESSES: The meeting will be held telephonically or via conference call. The phone number for the remote access on June 26, 2024, is: CONUS: 1–888–831–4306; OCONUS: 1–210–234–8694; PARTICIPANT CODE: 9136304.

These numbers and the dial-in instructions will also be posted on the UFBAP website at: *https://www.health.mil/Military-Health-Topics/Access-Cost-Quality-and-Safety/Pharmacy-Operations/BAP.*

FOR FURTHER INFORMATION CONTACT: Designated Federal Official (DFO) Captain Tiffany F. Cline, USN, 703–681–2890 (voice), *dha.ncr.j-6.mbx.baprequests@health.mil* (email). Mailing address is 7700 Arlington Boulevard, Suite 5101, Falls Church, VA 22042–5101. Website: *https://www.health.mil/Military-Health-Topics/Access-Cost-Quality-and-Safety/Pharmacy-Operations/BAP.* The most up-to-date changes to the meeting agenda can be found on the website.

SUPPLEMENTARY INFORMATION: This meeting is being held under the provisions of chapter 10 of title 5, United States Code (U.S.C.) (commonly known as ''the Federal Advisory Committee Act'' or ''FACA''), 5 U.S.C. 552b (commonly known as the ''Government in the Sunshine Act''), and 41 CFR 102–3.140 and 102–3.150.

Purpose of the Meeting: The UFBAP will review and comment on recommendations made by the Pharmacy and Therapeutics Committee to the Director, Defense Health Agency regarding the Uniform Formulary.

Agenda:

1. 10:00 a.m.–10:10 a.m. Sign in for UFBAP members
2. 10:10 a.m.–10:40 a.m. Welcome and Opening Remarks
   a. Welcome, Opening Remarks, and Introduction of UFBAP Members by CAPT Tiffany F. Cline, DFO, UFBAP
   b. Public Written Comments by CAPT Tiffany F. Cline, DFO, UFBAP
   c. Opening Remarks by Dr. Pamela Schweitzer, UFBAP Chair
   d. Introductory Remarks by Dr. Edward Vonberg, Chief, Formulary Management Branch
3. 10:40 a.m.–11:45 a.m. Scheduled Therapeutic Class Reviews
4. 11:45 a.m.–12:30 p.m. Newly Approved Drugs Review
5. 12:30 p.m.–12:45 p.m. Pertinent Utilization Management Issues
6. 12:45 p.m.–1:00 p.m. Closing remarks
   a. Closing Remarks by UFBAP Co-Chair
   b. Closing Remarks by DFO, UFBAP

Meeting Accessibility: Pursuant to 5 U.S.C. 1009(a)(1) and 41 CFR 102–3.140 through 102–3.165, and subject to the availability of phone lines, this meeting is open to the public. Telephone lines are limited and available to the first 220 people dialing in. There will be 220 lines total: 200 domestic and 20 international, including leader lines.

Written Statements: Pursuant to 41 CFR 102–3.105(j) and 102–3.140(c), and 5 U.S.C. 1009(a)(3), interested persons or organizations may submit written statements to the UFBAP about its mission and/or the agenda to be addressed in this public meeting. Written statements should be submitted to the UFBAP's DFO. The DFO's contact information can be found in the **FOR FURTHER INFORMATION CONTACT** section of this notice. Written comments or statements must be received by the UFBAP's DFO at least five (5) calendar days prior to the meeting so they may be made available to the UFBAP for its consideration prior to the meeting. Written comments received are releasable to the public. The DFO will review all submitted written statements and provide copies to UFBAP.

Dated: April 23, 2024.

Aaron T. Siegel,

Alternate OSD Federal Register Liaison Officer, Department of Defense.

BILLING CODE 6001–FR–P

DEPARTMENT OF EDUCATION

[Docket No.: ED–2024–SCC–0018]

Agency Information Collection Activities; Submission to the Office of Management and Budget for Review and Approval; Comment Request; Formula Grant EASIE Annual Performance Report

AGENCY: Office of Elementary and Secondary Education (OESE), Department of Education (ED).

ACTION: Notice.

SUMMARY: In accordance with the Paperwork Reduction Act (PRA) of 1995, the Department is proposing a revision of a currently approved information collection request (ICR).

DATES: Interested persons are invited to submit comments on or before May 29, 2024.

ADDRESSES: Written comments and recommendations for proposed information collection requests should be submitted within 30 days of publication of this notice. Click on this link *www.reginfo.gov/public/do/PRAMain* to access the site. Find this information collection request (ICR) by selecting ''Department of Education'' under ''Currently Under Review,'' then check the ''Only Show ICR for Public Comment'' checkbox. *Reginfo.gov* provides two links to view documents related to this information collection request. Information collection forms and instructions may be found by clicking on the ''View Information Collection (IC) List'' link. Supporting statements and other supporting documentation may be found by clicking on the ''View Supporting Statement and Other Documents'' link.

FOR FURTHER INFORMATION CONTACT: For specific questions related to collection activities, please contact Crystal Moore, (202) 987–0607.

SUPPLEMENTARY INFORMATION: The Department is especially interested in public comment addressing the following issues: (1) is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology. Please note that written comments received in response to this notice will be considered public records.

Title of Collection: Formula Grant EASIE Annual Performance Report.

OMB Control Number: 1810–0726.

Type of Review: Revision of a currently approved ICR.

Respondents/Affected Public: State, Local, and Tribal Governments.

Total Estimated Number of Annual Responses: 1,300.

Total Estimated Number of Annual Burden Hours: 14,300.

Abstract: The purpose of Indian Education Formula Grant to Local Agencies, as authorized under section 6116 of the Elementary and Secondary Education Act of 1965 (ESEA), as amended by the Every Student Succeeds Act (ESSA) is to assist grantees to provide Indian students with the opportunity to meet the same challenging state standards as all other students and meet the unique educational and culturally related academic needs of Indian students. The Indian Education Formula Grant (Assistance Listing Number 84.060A), is neither competitive nor discretionary and requires the annual submission of the application from either a local education agency, tribe, Indian organization, or Indian community-based organization. The amount of the award for each applicant is determined by a formula based on the reported number of Indian students identified in the application, the state per pupil expenditure, and the total appropriation available. The Office of Indian Education (OIE) of The Department of Education (ED) collects annual performance data within the same system that collects the annual application. The application and the annual performance report are both housed in the OMB *MAX/Connect.gov* Survey. Clearance was granted for the Electronic Application System for Indian Education (EASIE) Annual Performance Report (EASIE Part III) in a revised information collection by OIE. This is a request for revision of this collection. We have removed the fax number fields from this collection. In addition, we propose revisions that will clarify instructions and improve usability.

Dated: April 23, 2024.

Kun Mullan,

PRA Coordinator, Strategic Collections and Clearance, Governance and Strategy Division, Office of Chief Data Officer, Office of Planning, Evaluation and Policy Development.

BILLING CODE 4000–01–P

ENVIRONMENTAL PROTECTION AGENCY

[EPA–HQ–OPP–2024–0054; FRL–11671–01–OCSPP]

Agency Information Collection Activities; Proposed Renewal of an Existing ICR Collection and Request for Comment; Pesticide Registration Fees Program

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (PRA), this document announces the availability of and solicits public comment on the following Information Collection Request (ICR) that EPA is planning to submit to the Office of Management and Budget (OMB): ''Pesticide Registration Fees Program,'' identified by EPA ICR No. 2330.05 and OMB Control No. 2070–0179. This ICR represents a renewal of an existing ICR that is currently approved through January 31, 2025. Before submitting the ICR to OMB for review and approval under the PRA, EPA is soliciting comments on specific aspects of the information collection that is summarized in this document. The ICR and accompanying material are available in the docket for public review and comment.

DATES: Comments must be received on or before June 28, 2024.

ADDRESSES: Submit your comments, identified by docket identification (ID) number EPA–HQ–OPP–2024–0054, through *https://www.regulations.gov.* Follow the online instructions for submitting comments. Do not submit electronically any information you consider to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Additional instructions on commenting or visiting the docket, along with more information about dockets generally, is available at *https://www.epa.gov/dockets.*

FOR FURTHER INFORMATION CONTACT: Carolyn Siu, Mission Support Division (7602M), Office of Program Support, Office of Chemical Safety and Pollution Prevention, Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460–0001; telephone number: (703) 719–1649; email address: *siu.carolyn@epa.gov.*

SUPPLEMENTARY INFORMATION:

I. What information is EPA particularly interested in?

Pursuant to PRA section 3506(c)(2)(A) (44 U.S.C. 3506(c)(2)(A)), EPA

specifically solicits comments and information to enable it to:

1. Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility.

2. Evaluate the accuracy of the Agency's estimates of the burden of the proposed collection of information, including the validity of the methodology and assumptions used.

3. Enhance the quality, utility, and clarity of the information to be collected.

4. Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.,* permitting electronic submission of responses. In particular, EPA is requesting comments from very small businesses (those that employ less than 25) on examples of specific additional efforts that EPA could make to reduce the paperwork burden for very small businesses affected by this collection.

II. What information collection activity or ICR does this action apply to?

Title: Pesticide Registration Fees Program.

EPA ICR No.: 2330.05.

OMB Control No.: 2070–0179.

ICR status: This ICR is currently approved through January 31, 2025. Under the PRA, an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the Code of Federal Regulations (CFR), after appearing in the **Federal Register** when approved, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers for certain EPA regulations is consolidated in 40 CFR 9.

Abstract: This ICR covers the paperwork burden hours and costs associated with the information collection activities under the pesticide registration fee program. Pesticide registrants are required by statute to pay an annual registration maintenance fee for all products registered under sections 3 and 24(c) of the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA). In addition, the Pesticide Registration Improvement Act (PRIA) amended FIFRA in 2004 to create a registration service fee system for applications for specific pesticide registration, amended registration, and associated tolerance actions as per FIFRA section 33. This ICR specifically covers the activities related to the collection of the annual registration maintenance fees, the registration service fees, and the burden associated with the submission of requests for fees to be waived.

Burden statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 1.17 hours per response. Burden is defined in 5 CFR 1320.3(b).

The ICR, which is available in the docket along with other related materials, provides a detailed explanation of the collection activities and the burden estimate that is only briefly summarized here.

Respondents/affected entities: Entities potentially affected are those that are pesticide importers, which include the following North American Industrial Classification System (NAICS) codes ranging from Pesticide and other agricultural chemical manufacturing (NAICS 3250A1); Other Basic Inorganic Chemical Manufacturing (NAICS 32518); Other Basic Organic Chemical Manufacturing (NAICS 32519); and Regulation of Agricultural Marketing and Commodities (NAICS 9641).

Respondent's obligation to respond: Mandatory, per FIFRA sections 4(i)(5) and 33.

Forms: EPA Form 8570–30.

Frequency of response: Annually and on occasion.

Total estimated number of potential respondents: 2,252.

Total estimated average number of responses for each respondent: 1.

Total estimated annual burden hours: 8,732 hours.

Total estimated annual respondent costs: $ 821,741, which includes an estimated cost of $0 for capital investment or maintenance and operational costs.

III. Are there changes in the estimates from the last approval?

There is an increase of 511 hours in the total estimated respondent burden compared with that identified in the ICR currently approved by OMB, which is due to an increase of 369 in the estimated number of respondents. There is an increase of $134,440 in labor costs for the regulated community related to updated wage rates. These are adjustments.

In addition, OMB has asked us to replace the format EPA has historically used for ICR Supporting Statements with the 18-question format that is used by other federal agencies and departments. The 18-question format is based on the submission instructions to agencies that appear on the OMB submission form. Although this supporting statement has been modified to reflect the 18-question format, the change in format has not changed the information collection activities or related estimated burden and costs. EPA welcomes your feedback on whether this improves the presentation of the information collection activities and related burden and costs estimates.

IV. What is the next step in the process for this ICR?

EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. EPA will issue another **Federal Register** document pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB. If you have any questions about this ICR or the approval process, please contact the person listed under **FOR FURTHER INFORMATION CONTACT**.

Authority: 44 U.S.C. 3501 *et seq.*

Dated: April 23, 2024.

Michal Freedhoff,

Assistant Administrator, Office of Chemical Safety and Pollution Prevention.

[FR Doc. 2024–09095 Filed 4–26–24; 8:45 am]

BILLING CODE 6560–50–P

FARM CREDIT ADMINISTRATION

Sunshine Act Meetings

TIME AND DATE: 10 a.m., Thursday, May 9, 2024.

PLACE: You may observe this meeting in person at 1501 Farm Credit Drive, McLean, Virginia 22102–5090, or virtually. If you would like to observe, at least 24 hours in advance, visit FCA.gov, select ''Newsroom,'' then select ''Events.'' From there, access the linked ''Instructions for board meeting visitors'' and complete the described registration process.

STATUS: This meeting will be open to the public.

MATTERS TO BE CONSIDERED: The following matters will be considered:

- Approval of Minutes for April 11, 2024
- Report on 2022 Census of Agriculture

CONTACT PERSON FOR MORE INFORMATION: If you need more information or

assistance for accessibility reasons, or have questions, contact Ashley Waldron, Secretary to the Board. Telephone: 703–883–4009. TTY: 703–883–4056.

Ashley Waldron,

Secretary to the Board.

FEDERAL DEPOSIT INSURANCE CORPORATION

Sunshine Act Meetings

TIME AND DATE: 11:05 a.m. on Thursday, April 25, 2024.

PLACE: The meeting was held in the Board Room located on the sixth floor of the FDIC Building located at 550 17th Street NW, Washington, DC.

STATUS: Closed.

MATTERS TO BE CONSIDERED: The Board of Directors of the Federal Deposit Insurance Corporation met to consider matters related to the Corporation's supervision, corporate, and resolution activities. In calling the meeting, the Board determined, on motion of Director Rohit Chopra (Director, Consumer Financial Protection Bureau) seconded by Director Michael J. Hsu (Acting Comptroller of the Currency), and concurred in by Chairman Martin J. Gruenberg, Vice Chairman Travis J. Hill, and Director Jonathan P. McKernan, that Corporation business required its consideration of the matters which were to be the subject of this meeting on less than seven days' notice to the public; that no earlier notice of the meeting was practicable; that the public interest did not require consideration of the matters in a meeting open to public observation; and that the matters could be considered in a closed meeting by authority of subsections (c)(2), (c)(4), (c)(6), (c)(8), (c)(9)(A), and (c)(9)(B) of the ''Government in the Sunshine Act'' (5 U.S.C. 552b (c)(2), (c)(4), (c)(6), (c)(8), (c)(9)(A), and (c)(9)(B)).

CONTACT PERSON FOR MORE INFORMATION: Requests for further information concerning the meeting may be directed to Debra A. Decker, Executive Secretary of the Corporation, at 202–898–8748.

Dated this the 25th day of April, 2024.

Federal Deposit Insurance Corporation.

James P. Sheesley,

Assistant Executive Secretary.

FEDERAL RESERVE SYSTEM

Formations of, Acquisitions by, and Mergers of Bank Holding Companies Extension of Comment Period

The company listed in this notice has applied to the Board for approval, pursuant to the Bank Holding Company Act of 1956 (12 U.S.C. 1841 *et seq.*) (BHC Act), Regulation Y (12 CFR part 225), and all other applicable statutes and regulations to become a bank holding company and/or to acquire the assets or the ownership of, control of, or the power to vote shares of a bank or bank holding company and all of the banks and nonbanking companies owned by the bank holding company, including the companies listed below.

The public portions of the application listed below, as well as other related filings required by the Board, if any, are available for immediate inspection at the Federal Reserve Bank indicated below and at the offices of the Board of Governors. The public record of the application, including all comments received, also is available on the Board's public website at: *https://www.federalreserve.gov/foia/capital-one-discover-application-materials.htm*. Interested persons may express their views in writing on the standards enumerated in the BHC Act (12 U.S.C. 1842(c)), as well as the standards enumerated in section 4 of the BHC Act (12 U.S.C. 1843). Unless otherwise noted, nonbanking activities will be conducted throughout the United States.

Comments received are subject to public disclosure. In general, comments received will be made available without change and will not be modified to remove personal or business information including confidential, contact, or other identifying information. Comments should not include any information such as confidential information that would not be appropriate for public disclosure.

The comment period for this application has been extended for good cause in order to provide additional opportunity for interested persons to submit comments. Comments regarding each of these applications must be received at the Reserve Bank indicated or at the offices of the Board of Governors, Ann E. Misback, Secretary of the Board, 20th Street and Constitution Avenue NW, Washington DC 20551–0001, not later than May 31, 2024.

A. Federal Reserve Bank of Richmond (Brent B. Hassell, Assistant Vice President) P.O. Box 27622, Richmond, Virginia 23261 or electronically to *Comments.applications@rich.frb.org*:

1. *Capital One Financial Corporation, McLean, Virginia;* to acquire Discover Financial Services, Riverwoods, Illinois, and thereby indirectly acquire Discover Bank, Greenwood, Delaware. In connection with this application, Capital One Financial Corporation to acquire DFS Services LLC, Riverwoods, Illinois; Discover Financial Services (Canada), Inc., Vancouver, British Columbia, Canada; PULSE Network LLC, Houston, Texas; and Diners Club International Ltd., Riverwoods, Illinois, and thereby engage in activities closely related to banking including extending credit and servicing loans, activities related to extending credit, and data processing pursuant to section 225.28(b)(1), (b)(2), and (b)(14), respectively, of the Board's Regulation Y.

Board of Governors of the Federal Reserve System.

Ann Misback,

Secretary of the Board.

BILLING CODE 6210–01–P

FEDERAL RESERVE SYSTEM

Agency Information Collection Activities: Announcement of Board Approval Under Delegated Authority and Submission to OMB

AGENCY: Board of Governors of the Federal Reserve System.

SUMMARY: The Board of Governors of the Federal Reserve System (Board) is adopting a proposal to extend for three years, without revision, the Recordkeeping and Disclosure Requirements and Provisions Associated with Real Estate Appraisal Standards (FR Y–30; OMB No. 7100–0250).

FOR FURTHER INFORMATION CONTACT: Federal Reserve Board Clearance Officer—Nuha Elmaghrabi—Office of the Chief Data Officer, Board of Governors of the Federal Reserve System, *nuha.elmaghrabi@frb.gov,* (202) 452–3884.

Office of Management and Budget (OMB) Desk Officer for the Federal Reserve Board, Office of Information and Regulatory Affairs, Office of Management and Budget, New Executive Office Building, Room 10235, 725 17th Street NW, Washington, DC 20503, or by fax to (202) 395–6974.

SUPPLEMENTARY INFORMATION: On June 15, 1984, OMB delegated to the Board authority under the Paperwork Reduction Act (PRA) to approve and assign OMB control numbers to collections of information conducted or sponsored by the Board. Board-approved collections of information are incorporated into the official OMB inventory of currently approved collections of information. The OMB inventory, as well as copies of the PRA Submission, supporting statements (which contain more detailed information about the information collections and burden estimates than this notice), and approved collection of information instrument(s) are available at *https://www.reginfo.gov/public/do/PRAMain.* These documents are also available on the Federal Reserve Board's public website at *https://www.federalreserve.gov/apps/reportingforms/review* or may be requested from the agency clearance officer, whose name appears above.

Final Approval Under OMB Delegated Authority of the Extension for Three Years, Without Revision, of the Following Information Collection

Collection title: Recordkeeping and Disclosure Requirements and Provisions Associated with Real Estate Appraisal Standards.

Collection identifier: FR Y–30.

OMB control number: 7100–0250.

General description of collection: Title XI of the Financial Institutions Reform, Recovery, and Enforcement Act of 1989 (FIRREA) (12 U.S.C. 3331 *et seq.*) requires that, for federally related transactions,[1] regulated institutions obtain real estate appraisals performed by certified or licensed appraisers in conformance with uniform appraisal standards. The Board's regulations implementing title XI of FIRREA, contained in the Board's Regulation Y—Bank Holding Companies and Change in Bank Control (12 CFR part 225), include certain recordkeeping requirements that apply to respondents. The Board and other supervisory agencies also have issued Interagency Appraisal and Evaluation Guidelines (the Guidelines) that convey supervisory expectations relating to real estate appraisals and evaluations used to support real estate-related financial transactions.[2] These Guidelines recommend that institutions adopt certain policies and procedures to ensure compliance with title XI of FIRREA and Regulation Y.

Frequency: Event-generated.

Respondents: State member banks, bank holding companies, and nonbank subsidiaries of bank holding companies.

Total estimated number of respondents: 1,866.

Total estimated annual burden hours: 28,340.[3]

[1] A ''federally related transaction'' means any real estate-related financial transaction which (A) a federal financial institutions regulatory agency or the Resolution Trust Corporation engages in, contracts for, or regulates, and (B) requires the services of an appraiser. 12 U.S.C. 3350(4). The term ''real estate-related financial transaction'' means any transaction involving (A) the sale, lease, purchase, investment in or exchange of real property, including interests in property, or the financing thereof, (B) the refinancing of real property or interests in real property, and (C) the use of real property or interests in property as security for a loan or investment, including mortgage-backed securities. 12 U.S.C. 3350(5).

BILLING CODE 6210–01–P

FEDERAL RESERVE SYSTEM

Proposed Agency Information Collection Activities; Comment Request

AGENCY: Board of Governors of the Federal Reserve System.

ACTION: Notice, request for comment.

SUMMARY: The Board of Governors of the Federal Reserve System (Board) invites comment on a proposal to extend for three years, without revision, the International Applications and Prior Notifications under Subparts A and C of Regulation K (FR K–1; OMB No. 7100–0107).

DATES: Comments must be submitted on or before June 28, 2024.

ADDRESSES: You may submit comments, identified by FR K–1, by any of the following methods:

- Agency Website: *https://www.federalreserve.gov/.* Follow the instructions for submitting comments at *https://www.federalreserve.gov/apps/foia/proposedregs.aspx.*
- *Email: regs.comments@federalreserve.gov.* Include the OMB number or FR number in the subject line of the message.
- *FAX:* (202) 452–3819 or (202) 452–3102.
- *Mail:* Federal Reserve Board of Governors, Attn: Ann E. Misback, Secretary of the Board, Mailstop M–4775, 2001 C St NW, Washington, DC 20551.

All public comments are available from the Board's website at *https://www.federalreserve.gov/apps/foia/proposedregs.aspx* as submitted, unless modified for technical reasons or to remove personally identifiable information at the commenter's request. Accordingly, comments will not be edited to remove any confidential business information, identifying information, or contact information. Public comments may also be viewed electronically or in paper in Room M–4365A, 2001 C St NW, Washington, DC 20551, between 9:00 a.m. and 5:00 p.m. on weekdays, except for Federal holidays. For security reasons, the Board requires that visitors make an appointment to inspect comments. You may do so by calling (202) 452–3684. Upon arrival, visitors will be required to present valid government-issued photo identification and to submit to security screening in order to inspect and photocopy comments.

Additionally, commenters may send a copy of their comments to the Office of Management and Budget (OMB) Desk Officer for the Federal Reserve Board, Office of Information and Regulatory Affairs, Office of Management and Budget, New Executive Office Building, Room 10235, 725 17th Street, NW, Washington, DC 20503, or by fax to (202) 395–6974.

FOR FURTHER INFORMATION CONTACT: Federal Reserve Board Clearance Officer—Nuha Elmaghrabi—Office of the Chief Data Officer, Board of Governors of the Federal Reserve System, *nuha.elmaghrabi@frb.gov,* (202) 452–3884.

SUPPLEMENTARY INFORMATION: On June 15, 1984, OMB delegated to the Board authority under the Paperwork Reduction Act (PRA) to approve and assign OMB control numbers to collections of information conducted or sponsored by the Board. In exercising this delegated authority, the Board is directed to take every reasonable step to solicit comment. In determining whether to approve a collection of information, the Board will consider all comments received from the public and other agencies.

During the comment period for this proposal, a copy of the proposed PRA OMB submission, including the draft reporting form and instructions, supporting statement (which contains more detail about the information collection and burden estimates than this notice), and other documentation, will be made available on the Board's public website at *https://www.federalreserve.gov/apps/reportingforms/home/review* or may be requested from the agency clearance officer, whose name appears above. Final versions of these documents will be made available at *https://www.reginfo.gov/public/do/PRAMain,* if approved.

Request for Comment on Information Collection Proposal

The Board invites public comment on the following information collection, which is being reviewed under authority delegated by the OMB under the PRA. Comments are invited on the following:

a. Whether the proposed collection of information is necessary for the proper performance of the Board's functions, including whether the information has practical utility;

b. The accuracy of the Board's estimate of the burden of the proposed information collection, including the validity of the methodology and assumptions used;

c. Ways to enhance the quality, utility, and clarity of the information to be collected;

d. Ways to minimize the burden of information collection on respondents, including through the use of automated collection techniques or other forms of information technology; and

e. Estimates of capital or startup costs and costs of operation, maintenance, and purchase of services to provide information.

At the end of the comment period, the comments and recommendations received will be analyzed to determine the extent to which the Board should modify the proposal.

Proposal Under OMB Delegated Authority To Extend for Three Years, Without Revision, the Following Information Collection

Collection title: International Applications and Prior Notifications under Subparts A and C of Regulation K.

Collection identifier: *FR K–1.*

OMB control number: 7100–0107.

General description of collection: Subpart A of Regulation K, International Banking Operations (12 CFR part 211, subpart A), governs the foreign investments and activities of member banks, Edge and agreement corporations, bank holding companies (BHCs), and certain investments by foreign organizations. Subpart C of Regulation K, Export Trading Companies (12 CFR part 211, subpart C), governs investments in export trading companies by eligible investors.[1] The FR K–1 information collection comprises a reporting form, as well as certain reporting and recordkeeping requirements contained in these subparts of Regulation K that are not directly reflected in the FR K–1 form, and a disclosure requirement (via newspaper notice) for certain transactions. The FR K–1 form contains

Statement by referencing the collection identifier, FR Y–30.

[1] Eligible investors are BHCs, banker's banks, foreign banking organizations, and Edge and agreement corporations that are subsidiaries of BHCs but are not subsidiaries of banks. 12 CFR 211.32(d).

eleven attachments associated with the application and notification requirements in Subparts A and C of Regulation K. The Board requires the information collected by the FR K–1 for regulatory and supervisory purposes and to allow the Board to fulfill its statutory obligations under the Federal Reserve Act (FRA) and the Bank Holding Company Act of 1956 (BHC Act).

Frequency: Event-generated.

Respondents: Member banks, Edge and agreement corporations, BHCs, and with regard to certain investments, foreign organizations.

Total estimated number of respondents: 119.

Total estimated annual burden hours: 1,009.[2]

Board of Governors of the Federal Reserve System, April 23, 2024.

Michele Taylor Fennell,

Deputy Associate Secretary of the Board.

[FR Doc. 2024–09115 Filed 4–26–24; 8:45 am]

BILLING CODE 6210–01–P

GENERAL SERVICES ADMINISTRATION

[Notice–IEB–2024–03; Docket No. 2024–0002; Sequence No. 21]

Privacy Act of 1974; Rescindment of a System of Records Notice

AGENCY: General Services Administration (GSA).

ACTION: Rescindment of a System of Records Notice.

SUMMARY: Pursuant to the provisions of the Privacy Act of 1974, notice is given that the General Services Administration (GSA) proposes to rescind a System of Records Notice, GSA/GOVT–10, *Login.gov*. This system of records contains information related to the development and operation of a citizen-centric platform for delivering government services through a centralized single sign-on platform.

DATES: This system of records stopped being maintained in 2017.

ADDRESSES: Comments may be submitted to the Federal eRulemaking Portal, *http://www.regulations.gov*. Submit comments by searching for GSA/GOVT–10.

FOR FURTHER INFORMATION CONTACT: Call or email Richard Speidel, Chief Privacy Officer at (202) 969–5830 and *gsa.privacyact@gsa*.gov.

SUPPLEMENTARY INFORMATION: GSA proposes to rescind a System of Records Notification, GSA/GOVT–10, *Login.gov.* This Notice is being rescinded because no records were ever collected under the government-wide SORN GSA/GOVT–10. GSA/GOVT–10 was published in the **Federal Register** in August 2016 and is directed to a version of *Login.gov* that did not enter production. No records were ever collected or used under this proposed system of records.

Agency-specific SORN GSA/TTS–1 was published less than five months later and includes an administratively incorrect attempt to rescind GSA/GOVT–10. The following rescindment attempt appears in the Supplementary Information section of GSA/TTS–1 (January 19, 2017):

''The previously published notice, at 81 FR 57912, on August 24, 2016, is being replaced.''

GSA did not timely file a SORN rescindment notice for GSA/GOVT–10 at the time of publication of GSA/TTS–1. The present notice addresses this issue.

Moreover, this rescindment addresses an instance where the same number was inadvertently used for two separate Notices. GSA published GSA/GOVT–10 (*Login.gov*) in 2016 and inadvertently reused the same SORN number for GSA/GOVT–10 (Federal Acquisition Regulation (FAR) Data Collection System), which was published in 2017. This rescindment action resolves the discrepancy with only the 2017 GSA/GOVT–10 (Federal Acquisition Regulation (FAR) Data Collection System) remaining in effect.

SYSTEM NAME:

Login.gov.

SYSTEM NUMBER:

GSA/GOVT–10.

HISTORY:

This system was previously published in the **Federal Register** at 81 FR 57912, August 24, 2016.

Richard Speidel,

Chief Privacy Officer, Office of Enterprise Data & Privacy Management, General Services Administration.

[FR Doc. 2024–09106 Filed 4–26–24; 8:45 am]

BILLING CODE 6820–AB–P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Agency for Healthcare Research and Quality

Agency Information Collection Activities: Proposed Collection; Comment Request

AGENCY: Agency for Healthcare Research and Quality, HHS.

ACTION: Notice.

SUMMARY: This notice announces the intention of the Agency for Healthcare Research and Quality (AHRQ) to request that the Office of Management and Budget (OMB) approve a revision of the currently approved information collection project: ''The AHRQ Safety Program for Telemedicine: Improving the Diagnostic Process and Improving Antibiotic Use.'' In accordance with the Paperwork Reduction Act of 1995, AHRQ invites the public to comment on this proposed information collection.

DATES: Comments on this notice must be received by June 28, 2024.

ADDRESSES: Written comments should be submitted to: Doris Lefkowitz, Reports Clearance Officer, AHRQ, by email at *REPORTSCLEARANCE OFFICER@ahrq.hhs.gov*.

FOR FURTHER INFORMATION CONTACT: Doris Lefkowitz, AHRQ Reports Clearance Officer, (301) 427–1477, or by email at *REPORTSCLEARANCE OFFICER@ahrq.hhs.gov*.

SUPPLEMENTARY INFORMATION:

Proposed Project

AHRQ Safety Program for Telemedicine: Improving Antibiotic Use

This Information Collection Request (ICR) is for a revision to the AHRQ Safety Program for Telemedicine: Improving the Diagnostic Process and Improving Antibiotic Use. These changes include the removal of the Diagnostic Process Cohort, updates to the Improving Antibiotic Use Data Collection Tools and changing the name of the project to the ''AHRQ Safety Program for Telemedicine: Improving Antibiotic Use.'' The OMB control number for the AHRQ Safety Program for Telemedicine is 0935–0265 and will expire on April 30, 2026. Supporting documents can be downloaded from OMB's website at: *https://www.reginfo.gov/public/do/PRAViewICR?ref_nbr=202303-0935-001.* AHRQ is requesting a new expiration date, three years from approval.

Since the project received OMB approval, there have been two developments that require changes to

[2] More detailed information regarding this collection, including more detailed burden estimates, can be found in the OMB Supporting Statement posted at *https://www.federalreserve.gov/apps/reportingforms/home/review*. On the page displayed at the link, you can find the OMB Supporting Statement by referencing the collection identifier, FR K–1.

the project's goals and design. First, the Improving the Diagnostic Process Cohort was canceled because there was insufficient recruitment. Second, the materials approved by OMB for the Improving Antibiotic Use Cohort included a single version of the Structural Assessment and Participant Experience Survey, to be completed by all participants in the improving antibiotic use cohort. However, following pre-recruitment discussions with AHRQ's Technical Expert Panel (TEP) and potential participants, it was learned that the target audience for the improving antibiotic use cohort is comprised of healthcare providers from two distinctly different settings (brick-and-mortar and telemedicine-only) settings. Providers that practice in brick-and-mortar settings provide care both in-person and via telemedicine whereas providers that practice in telemedicine-only settings provide care exclusively using telemedicine. Based on this information AHRQ decided to create separate data collection tools, one for providers in a brick-and-mortar setting, and one for providers in telemedicine only. Practices and providers receive information about the program from newsletters, listservs, and direct outreach through public and private organizations. They attend an information webinar and may join the program if interested and eligible.

As in the currently approved design, the program will incorporate CUSP strategies to improve antibiotic prescribing in telemedicine. The new program goals are to:

- Identify best practices in implementing interventions to improve antibiotic use in telemedicine.
- Determine how best to adapt CUSP to enhance antibiotic use in telemedicine.
- Use a CUSP approach to design and implement the interventions for improving antibiotic use across telemedicine practices.
- Reduce inappropriate antibiotic prescribing among telemedicine practices.

To achieve these goals the following data collections will be implemented:

1. *Structural Assessment Antibiotic Use Cohort*—There will be two versions of the Structural Assessment, one for providers in a brick-and-mortar setting, and one for providers in telemedicine only. Both versions ask the same questions but vary slightly in how they refer to the practice. The assessment asks about the practice's characteristics, experience related to antibiotic stewardship activities, and any existing supports the practice may have in place that are intended to improve antibiotic prescribing. The assessment will be administered to the Safety Program leader/champion at each participating brick-and-mortar practice or telemedicine-only organization at baseline (pre-intervention) and at the end of the intervention. The results will be used to assess changes in the practice's infrastructure and capacity to implement the Safety Program over time. The data will provide information about any existing quality improvement initiatives currently in place, their existing infrastructure and capacity to carry out the program, as well as changes in the infrastructure and quality improvement activities as a result of participation in the Safety Program.

2. *Medical Office Survey on Patient Safety Culture (MOSOPS):* As currently approved, the Safety Program for Telemedicine included completion of the MOSOPS by all participating staff across all participating practices. In this revision, AHRQ will administer the MOSOPS to HCPs practicing in brick-and-mortar settings only. The MOSOPS was designed to assess key characteristics of HCPs working in-person in a single medical office and results are unlikely to be reliable or valid if administered among HCPs practicing in telemedicine-only settings. The MOSOPS will be administered to all participating staff at brick-and-mortar practices at baseline (pre-intervention) and at the end of the intervention. The survey collects information on patient safety issues, patient safety culture, medical errors, and event reporting. The data will be used to assess changes in safety culture following implementation of the Safety Program.

3. *Participant Experience Survey Antibiotic Use Cohort*—Based on feedback from the TEP and conversations with telemedicine-only organizations, this revision includes changes to the Participant Experience Survey as well as unique versions for brick-and-mortar and telemedicine-only participants. The survey will be administered to the clinical leader/champion at each practice at the end of the program (post-intervention). The survey will assess how participants approached implementation of the Safety Program.

4. *Semi-Structured Interviews Antibiotic Use Cohort*—A proportion of practices from both brick-and-mortar practices and telemedicine-only organizations will be selected to participate in telephone/virtual discussions to understand the facilitators and barriers to implementing the Safety Program. This interview guide includes four core domains that are intended to capture characteristics of health care providers (physicians, nurse practitioners, and physician assistants) and their perception of the AHRQ Safety Program for Telemedicine: Improving Antibiotic Use (''the Safety Program'') on pre- and post-implementation changes. All interviews will occur at the end of the intervention period

5. *Antibiotic Prescription Data Template Antibiotic Use Cohort*—Each month starting at baseline (pre-intervention) until the end of the intervention, each participating practice will extract antibiotic prescribing data from their electronic health record (EHR) system. The data will be submitted quarterly using a secure online data submission portal. The prescribing data will evaluate changes in antibiotic usage, clinical outcomes, and other effectiveness measures resulting from participation in the Safety Program. Based on feedback from participants in the prior AHRQ Safety Program, this updated version includes revisions to the EHR template to simplify the data requested in the template from aggregate to visit-level. Participating practices will submit two key types of data related to antibiotic prescribing: (1) Total antibiotic prescriptions per 100 respiratory tract infection telemedicine visits and (2) Antibiotic prescriptions per 100 antibiotic-inappropriate respiratory tract infection telemedicine visits. This data will be an important way for the practice to monitor its prescribing practices throughout the course of the program and will be used by the assessment team to monitor and describe prescribing trends across practices enrolled in the program.

This study is being conducted by AHRQ through its contractor, NORC at the University of Chicago and Johns Hopkins Medicine, pursuant to AHRQ's statutory authority to conduct and support research on healthcare and on systems for the delivery of such care, including activities with respect to the quality, effectiveness, efficiency, appropriateness, and value of healthcare services and with respect to quality measurement and improvement. 42 U.S.C. 299a(a)(1) and (2).

Method of Collection

To minimize respondent burden and to permit the electronic submission of survey responses and data collection forms, the structural assessment, AHRQ MOSOPS, participant experience survey, and antibiotic prescription data template will be web-based and deployed using a well-designed, low burden, and respondent-friendly survey

administration process. In addition, the EHR data extracted by practice staff that are requested for this program may already be collected by practices as part of their ongoing quality improvement initiatives. Practices will receive access to the online data collection platform and detailed instructions on completing the online forms and EHR data submissions.

Estimated Annual Respondent Burden

Exhibit 1 shows the estimated annualized burden hours for the respondents' time to participate in this project.

1. Structural Assessment Antibiotic Use Cohort—The assessment will be administered twice to the Safety Program leader/champion at each participating brick-and-mortar practice or telemedicine-only organization, once at baseline (pre-intervention) and again at the end of the intervention. AHRQ expects 188 respondents at each administration. The Assessment requires 12 minutes to complete.

2. Medical Office Survey on Patient Safety (MOSOPS)—The MOSOPS will be completed by all participating staff at brick-and-mortar practices to assess patient safety issues, medical errors, and event reporting practices. The survey will be completed twice, once at baseline (pre-intervention) and at the end of the intervention to measure the changes in patient safety culture resulting from participation in the Safety Program. The survey will be completed by 438 staff members at each administration and requires 30 minutes to complete.

3. Participant Experience Survey Antibiotic Use Cohort—The Participant Experience Survey will be administered once to the Safety Program leader/champion at the end of the intervention to assess participant engagement and progress; understand providers' experience using materials and participating in the Safety Program; and identify processes used and changes made to implement and sustain the Safety Program. The survey is estimated to require 20 minutes to complete.

4. Semi-Structured Interviews Antibiotic Use Cohort—Semi-structured interviews will be conducted at the end of the intervention among clinical and professional support staff from a sample of practices to collect qualitative information on the implementation of the program. Interviews will be conducted with 18 participating practices/organizations and requires one hour to complete.

5. Antibiotic Prescription Data Template Antibiotic Use Cohort—The Antibiotic Prescription Data Template will be completed each month and submitted quarterly starting in the baseline (pre-intervention) period until the end of the intervention to measure changes in antibiotic usage resulting from the intervention. The data will be extracted from the practice/organization's electronic health records, by a staff member, and entered into the data template. AHRQ expects 225 practices/organizations to extract data monthly for 18 months. Each monthly data extraction should require one hour of a staff members time.

The total burden for the respondents' time to participate in this research is estimated to be 4,644 hours.

EXHIBIT 1—ESTIMATED ANNUALIZED BURDEN HOURS

Form name	Number of respondents *	Number of responses per respondent	Hours per response	Total burden hours
1. Structural Assessment	188	2	12/60	75
2. MOSOPS (brick-and-mortar only)	438	2	30/60	438
3. Participant Experience Survey	188	1	20/60	63
4. Semi-structured interviews	18	1	1	18
5. Antibiotic Prescription Data Template	225	18	1	4,050
Total	1,057	na	na	4,644

* Annualized number of respondents is based on maximum practices recruited, assuming 50% of the practices are telemedicine-only and 50% are brick-and-mortar, and 75% response rate for forms 1 and 3, 50% response rate for form 2, and 90% response rate for forms 4 and 5.

Exhibit 2 shows the estimated annualized cost burden based on the respondents' time to complete the data collection forms. The total cost burden is estimated to be $348,868.

EXHIBIT 2—ESTIMATED ANNUALIZED COST BURDEN

Form name	Total burden hours	Average hourly wage rate **	Total burden cost
1. Structural Assessment	75	[a] $114.76	$8,607
2. MOSOPS (brick-and-mortar only).			
a. Physicians	219	[a] 114.76	25,132
b. Other Health Practitioners	219	[b] 32.78	7,179
3. Participant Experience Survey	63	[a] 114.76	7,115
4. Semi-structured qualitative interviews	18	[a] 114.76	2,066
5. Antibiotic Prescription Data Template	4,050	[c] 73.77	298,769
Total	4,644	.....	348,868

** Annualized number of respondents is based on maximum practices recruited, assuming 50% of the practices are telemedicine-only and 50% are brick-and-mortar, and 75% response rate for forms 1 and 3, 50% response rate for form 2, and 90% response rate for forms 4 and 5.

** National Compensation Survey: Occupational wages in the United States May 2022 "U.S. Department of Labor, Bureau of Labor Statistics:" *https://www.bls.gov/oes/current/oes_stru.htm.*

[a] Based on the mean wages for *29–1069 Physicians and Surgeons, All Other.*

[b] Based on the mean wages for *29–9099 Miscellaneous Health Practitioners and Technical Workers: Healthcare Practitioners and Technical Workers, All Other.*

Request for Comments

In accordance with the Paperwork Reduction Act, 44 U.S.C. 3501–3520, comments on AHRQ's information collection are requested with regard to any of the following: (a) whether the proposed collection of information is necessary for the proper performance of AHRQ's health care research and health care information dissemination functions, including whether the information will have practical utility; (b) the accuracy of AHRQ's estimate of burden (including hours and costs) of the proposed collection(s) of information; (c) ways to enhance the quality, utility and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information upon the respondents, including the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and included in the Agency's subsequent request for OMB approval of the proposed information collection. All comments will become a matter of public record.

Dated: April 23, 2024.

Marquita Cullom,

Associate Director.

BILLING CODE 4160–90–P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

[30Day-24–1074]

Agency Forms Undergoing Paperwork Reduction Act Review

In accordance with the Paperwork Reduction Act of 1995, the Centers for Disease Control and Prevention (CDC) has submitted the information collection request titled ''Colorectal Cancer Control Program (CRCCP) Monitoring Activities'' to the Office of Management and Budget (OMB) for review and approval. CDC previously published a ''Proposed Data Collection Submitted for Public Comment and Recommendations'' notice on December 22, 2023 to obtain comments from the public and affected agencies. CDC received one comment related to the previous notice. This notice serves to allow an additional 30 days for public and affected agency comments.

CDC will accept all comments for this proposed information collection project. The Office of Management and Budget is particularly interested in comments that:

(a) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(b) Evaluate the accuracy of the agencies estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(c) Enhance the quality, utility, and clarity of the information to be collected;

(d) Minimize the burden of the collection of information on those who are to respond, including, through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.,* permitting electronic submission of responses; and

(e) Assess information collection costs.

To request additional information on the proposed project or to obtain a copy of the information collection plan and instruments, call (404) 639–7570. Comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to *www.reginfo.gov/public/do/PRAMain.* Find this particular information collection by selecting ''Currently under 30-day Review—Open for Public Comments'' or by using the search function. Direct written comments and/or suggestions regarding the items contained in this notice to the Attention: CDC Desk Officer, Office of Management and Budget, 725 17th Street NW, Washington, DC 20503 or by fax to (202) 395–5806. Provide written comments within 30 days of notice publication.

Proposed Project

Colorectal Cancer Control Program (CRCCP) Monitoring Activities (OMB Control No. 0920–1074)—Reinstatement—National Center for Chronic Disease Prevention and Health Promotion (NCCDPHP), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

CDC is requesting a Reinstatement of OMB No. 0920–1074. Colorectal cancer (CRC) is the second leading cause of death from cancer in the United States among cancers that affect both men and women. There is substantial evidence that CRC screening reduces the incidence of and death from the disease. Screening for CRC can detect disease early when treatment is more effective, and prevent cancer by finding and removing precancerous polyps. Of individuals diagnosed with early stage CRC, more than 90% live five or more years. To reduce CRC morbidity, mortality, and associated costs, use of CRC screening tests must be increased among age-eligible adults with the lowest CRC screening rates.

The purpose of the Colorectal Cancer Control Program (CRCCP) is to partner with health systems and their individual primary care clinics to implement evidence-based interventions (EBIs) to increase CRC screening among defined populations of adults ages 50–75 that have CRC screening rates lower than the national, regional, or local rate. In 2020, CDC issued the funding opportunity, Public Health and Health System Partnerships to Increase Colorectal Cancer Screening in Clinical Settings (DP20–2002), a five-year cooperative agreement to increase CRC screening among defined populations of adults ages 50–75 that have CRC screening rates lower than the national, regional, or local rate. DP20–2002 funds recipients to partner with health systems and their primary care clinics to implement multiple EBIs, partner with organizations to support implementation of EBIs in those clinics, and collect high-quality clinic-level data to monitor EBI implementation and assess screening rate changes.

CDC proposes information collection using three data collection tools: the Annual Awardee Survey, Clinic-Level Data Collection Instrument, and Quarterly Program Update.

The Annual Awardee Survey is administered once per year and assesses: program management, clinic readiness assessment activities, data management, technical assistance (TA) needs, partnerships, and the effect of COVID–19 on CRC implementation. The Clinic-Level Information Collection Instrument is administered three months following each program year end and assesses: health system and

clinic characteristics; program reach; CRC screening practices and outcomes; clinics' quality improvement and monitoring activities; EBI implementation, and additional factors that affect EBI implementation over time. The Quarterly Program Update is administered in the month following each program quarter (*i.e.,* October, January, April, July) and collects standardized recipient-level information on aspects of program management, including: quarterly program expenditures, current staff vacancies, program successes and challenges, current TA needs, and the effect of COVID–19 on CRCCP implementation at the recipient level. These data are collected quarterly to facilitate rapid reporting of programmatic information to support CDC program consultants in providing tailored and meaningful TA.

This information collection enables CDC to gauge progress in meeting CRCCP program goals and monitor implementation activities, evaluate outcomes, and identify recipients' TA needs. In addition, data collected will inform program improvement and help identify successful activities that need to be maintained, replicated, or expanded. OMB approval is requested for three years. The total estimated annualized burden is 760 hours. There is no cost to respondents other than their time to participate.

ESTIMATED ANNUALIZED BURDEN HOURS

Type of respondent	Form name	Number of respondents	Number of responses per respondent	Average burden per response (in hr)
CRCCP Recipients	CRCCP Annual Awardee Survey	35	1	15/60
	CRCCP Clinic-level Information Collection Instrument.	35	24	50/60
	CRCCP Quarterly Program Update	35	4	22/60

AGENCY: Centers for Disease Control and Prevention (CDC), Department of Health and Human Services (HHS).

ACTION: Notice of meeting.

SUMMARY: In accordance with the Federal Advisory Committee Act, the Centers for Disease Control and Prevention announces the following meeting for the Healthcare Infection Control Practices Advisory Committee (HICPAC). This virtual meeting is open to the public, limited only by the number of audio and web conference lines (500 audio and web conference lines are available). Time will be available for public comment. Registration is required.

DATES: The meeting will be held on June 6, 2024, from 9 a.m. to 5 p.m., EDT, and June 7, 2024, 9 a.m. to 12 p.m., EDT.

ADDRESSES: To register for this web conference, please go to: *www.cdc.gov/hicpac.* All registered participants will receive the meeting link and instructions shortly before the meeting. Please click the link below to join the June 6 webinar: *https://cdc.zoomgov.com/j/1619798307?pwd=cmdUT3lFNHFCNitXZElUdkdnZDRmQT09.*

Passcode: fHTc=?7n.

Please click the link below to join the June 7 Webinar: *https://cdc.zoomgov.com/j/1615598629?pwd=Ny9pcjhROGR2dGZNeUlmaTQvQWZxZz09.*

Passcode: 8rLxq?*f.

FOR FURTHER INFORMATION CONTACT: Sydnee Byrd, M.P.A., HICPAC, Division of Healthcare Quality Promotion, NCEZID, CDC, 1600 Clifton Road NE, Mailstop H16–3, Atlanta, Georgia 30329–4027, Telephone: (404) 718–8039; Email: *hicpac@cdc.gov.*

SUPPLEMENTARY INFORMATION:

Purpose: The Committee is charged with providing advice and guidance to the Director, Division of Healthcare Quality Promotion (DHQP), the Director, National Center for Emerging and Zoonotic Infectious Diseases (NCEZID), the Director, CDC, and the Secretary, Department of Health and Human Services, regarding (1) the practice of healthcare infection prevention and control; (2) strategies for surveillance, prevention, and control of infections, antimicrobial resistance, and related events in settings where healthcare is provided; and (3) periodic updating of CDC guidelines and other policy statements regarding prevention of healthcare-associated infections and healthcare-related conditions.

Matters to be Considered: The agenda will include the following updates: The Healthcare Personnel Guideline Workgroup; Isolation Precautions Guideline Workgroup; NHSN workgroup; and Dental Unit Waterlines Guideline Update. Agenda items are subject to change.

Public Participation

Oral Public Comment: This meeting will include time for members of the public to make an oral comment. Priority will be given to individuals who submit a request to make an oral public comment before the meeting according to the procedures below: All persons interested in making an oral public comment at the June 6–7, 2024 HICPAC meeting must submit a request between May 13, 2024, and May 24, 2024, at *https://www.cdc.gov/hicpac/meeting.html* no later than 11:59 p.m., EDT, May 22, 2024, according to the instructions provided on the HICPAC website. If the number of persons requesting to speak is greater than can be reasonably accommodated during the scheduled time, CDC will conduct a lottery draw to determine the speakers for the scheduled public comment session. CDC staff will notify individuals regarding their request to speak by email on May 27, 2024.

The Director, Office of Strategic Business Initiatives, Office of the Chief Operating Officer, Centers for Disease Control and Prevention, has been delegated the authority to sign **Federal Register** notices pertaining to announcements of meetings and other committee management activities, for both the Centers for Disease Control and

Prevention and the Agency for Toxic Substances and Disease Registry.

Kalwant Smagh,

Director, Office of Strategic Business Initiatives, Office of the Chief Operating Officer, Centers for Disease Control and Prevention.

BILLING CODE 4163–18–P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

[Docket No. CDC–2024–0034]

Meeting of the Advisory Committee to the Director (ACD), Centers for Disease Control and Prevention

AGENCY: Centers for Disease Control and Prevention (CDC), Department of Health and Human Services (HHS).

ACTION: Notice of meeting and request for comment.

SUMMARY: In accordance with the Federal Advisory Committee Act, the Centers for Disease Control and Prevention (CDC) announces the following meeting for the Advisory Committee to the Director, Centers for Disease Control and Prevention (ACD, CDC). This meeting is open to the public. The meeting will be webcast live via the World Wide Web.

DATES: The meeting will be held on June 6, 2024, from 10 a.m. to 3 p.m., EDT (times subject to change).

The public may submit written comments from April 29, 2024 through May 24, 2024.

ADDRESSES: No registration is required to view the meeting via the World Wide Web. Information for accessing the webcast will be available at *https://www.cdc.gov/about/advisory-committee-director/.*

Written comments: You may submit comments identified by Docket No. CDC–2024–0034 by either of the following methods below. Do not submit comments for the docket by email. CDC does not accept comments for the docket by email.

- *Federal eRulemaking Portal: https://www.regulations.gov.* Follow the instructions for submitting comments.
- *Mail:* Tiffany Brown, JD MPH, Centers for Disease Control and Prevention, 1600 Clifton Road NE, Mailstop H21–10, Atlanta, Georgia 30329–4027. Attn: Docket number CDC–2024–0034.

Instructions: All submissions received must include the Agency name and Docket Number. All relevant comments received in conformance with the *https://www.regulations.gov,* suitability policy will be posted without change to *https://www.regulations.gov,* including any personal information provided. For access to the docket to read background documents or comments received, go to *https://www.regulations.gov.* Written public comments submitted up to 72 hours prior to the ACD meeting will be provided to ACD members before the meeting. Written comments received in advance of the meeting will be included in the official record of the meeting.

FOR FURTHER INFORMATION CONTACT: Tiffany Brown, JD MPH, Centers for Disease Control and Prevention, Office of the Chief of Staff, 1600 Clifton Road NE, Mailstop H21–10, Atlanta, Georgia 30329–4027, Telephone: (404) 498–6655; Email Address: *ACDirector@cdc.gov.*

SUPPLEMENTARY INFORMATION:

Purpose: The Advisory Committee to the Director, CDC, shall (1) make recommendations to the Director regarding ways to prioritize the activities of the agency in alignment with the CDC Strategic Plan required under section 305(c); H.R. 2617–1252; (2) advise on ways to achieve or improve performance metrics in relation to the CDC Strategic Plan, and other relevant metrics, as appropriate; (3) provide advice and recommendations on the development of the Strategic Plan, and any subsequent updates, as appropriate; (4) advise on grant, cooperative agreements, contracts, or other transactions, as applicable; (5) provide other advice to the Director, as requested, to fulfill duties under sections 301 and 311; and (6) appoint subcommittees. The committee recommends ways to prioritize CDC's activities, improve results, and address health disparities. It also provides guidance to help CDC work more effectively with its various private and public sector constituents to make health protection a practical reality.

Matters to be Considered: The agenda will include an update on CDC priorities from the CDC Director, discussions on CDC's work to address equity and social determinants of health, lab readiness and response improvement efforts, programmatic updates, and updates from the ACD Data and Surveillance Workgroup and the Communications and Public Engagement Workgroup. Agenda items are subject to change as priorities dictate.

Public Participation

Interested persons or organizations are invited to participate by submitting written views, recommendations, and data. Please note that comments received, including attachments and other supporting materials, are part of the public record and are subject to public disclosure. Comments will be posted on *https://www.regulations.gov.* Therefore, do not include any information in your comment or supporting materials that you consider confidential or inappropriate for public disclosure. If you include your name, contact information, or other information that identifies you in the body of your comments, that information will be on public display. CDC will review all submissions and may choose to redact, or withhold, submissions containing private or proprietary information such as Social Security numbers, medical information, inappropriate language, or duplicate/near duplicate examples of a mass-mail campaign. CDC will carefully consider all comments submitted into the docket.

Written Public Comment: The docket will be opened to receive written comments on April 29, 2024 through May 24, 2024.

The Director, Office of Strategic Business Initiatives, Office of the Chief Operating Officer, Centers for Disease Control and Prevention, has been delegated the authority to sign **Federal Register** notices pertaining to announcements of meetings and other committee management activities, for both the Centers for Disease Control and Prevention and the Agency for Toxic Substances and Disease Registry.

Kalwant Smagh,

Director, Office of Strategic Business Initiatives, Office of the Chief Operating Officer, Centers for Disease Control and Prevention.

BILLING CODE 4163–18–P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Medicare & Medicaid Services

[CMS–3462–PN]

Medicare Program; Application by The Compliance Team (TCT) for Continued CMS Approval of its Home Infusion Therapy (HIT) Accreditation Program

AGENCY: Centers for Medicare & Medicaid Services (CMS), HHS.

ACTION: Notice with request for comment.

SUMMARY: This notice acknowledges the receipt of an application from The Compliance Team (TCT) for continued approval by the Centers for Medicare & Medicaid Services (CMS) of TCT's national accrediting organization program for suppliers providing home infusion therapy (HIT) services and that wish to participate in the Medicare or Medicaid programs. The statute requires that within 60 days of receipt of an organization's complete application, CMS will publish a notice that identifies the national accrediting body making the request, describes the nature of the request, and provides at least a 30-day public comment period.

DATES: To be assured consideration, comments must be received at one of the addresses provided below, by May 29, 2024.

ADDRESSES: In commenting, refer to file code CMS–3462–PN.

Comments, including mass comment submissions, must be submitted in one of the following three ways (please choose only one of the ways listed):

1. *Electronically.* You may submit electronic comments on this regulation to *http://www.regulations.gov.* Follow the ''Submit a comment'' instructions.

2. *By regular mail.* You may mail written comments to the following address ONLY: Centers for Medicare & Medicaid Services, Department of Health and Human Services, Attention: CMS–3462–PN, P.O. Box 8016, Baltimore, MD 21244–8010.

Please allow sufficient time for mailed comments to be received before the close of the comment period.

3. *By express or overnight mail.* You may send written comments to the following address ONLY: Centers for Medicare & Medicaid Services, Department of Health and Human Services, Attention: CMS–3462–PN, Mail Stop C4–26–05, 7500 Security Boulevard, Baltimore, MD 21244–1850.

For information on viewing public comments, see the beginning of the **SUPPLEMENTARY INFORMATION** section.

FOR FURTHER INFORMATION CONTACT: Shannon Freeland, (410) 786–4348.

SUPPLEMENTARY INFORMATION:

Inspection of Public Comments: All comments received before the close of the comment period are available for viewing by the public, including any personally identifiable or confidential business information that is included in a comment. We post all comments received before the close of the comment period on the following website as soon as possible after they have been received: *https://www.regulations.gov.* Follow the search instructions on that website to view public comments. CMS will not post on *Regulations.gov* public comments that make threats to individuals or institutions or suggest that the commenter will take actions to harm individual. CMS continues to encourage individuals not to submit duplicative comments. We will post acceptable comments from multiple unique commenters even if the content is identical or nearly identical to other comments.

I. Background

Home infusion therapy (HIT) is a treatment option for Medicare beneficiaries with a wide range of acute and chronic conditions. Section 5012 of the 21st Century Cures Act (Pub. L. 114–255, enacted December 13, 2016) added section 1861(iii) to the Social Security Act (the Act), establishing a new Medicare benefit for HIT services. Section 1861(iii)(1) of the Act defines ''home infusion therapy'' as professional services, including nursing services; training and education not otherwise covered under the Durable Medical Equipment (DME) benefit; remote monitoring; and other monitoring services. HIT must be furnished by a qualified HIT supplier and furnished in the individual's home. The individual must:

- Be under the care of an applicable provider (that is, physician, nurse practitioner, or physician assistant); and
- Have a plan of care established and periodically reviewed by a physician in coordination with the furnishing of home infusion drugs under Part B, that prescribes the type, amount, and duration of infusion therapy services that are to be furnished.

Section 1861(iii)(3)(D)(i)(III) of the Act requires that a qualified HIT supplier be accredited by an accrediting organization (AO) designated by the Secretary in accordance with section 1834(u)(5) of the Act. Section 1834(u)(5)(A) of the Act identifies factors for designating AOs and in reviewing and modifying the list of designated AOs. These statutory factors are as follows:

- The ability of the organization to conduct timely reviews of accreditation applications.
- The ability of the organization to take into account the capacities of suppliers located in a rural area (as defined in section 1886(d)(2)(D) of the Act).
- Whether the organization has established reasonable fees to be charged to suppliers applying for accreditation.
- Such other factors as the Secretary determines appropriate.

Section 1834(u)(5)(B) of the Act requires the Secretary to designate AOs to accredit HIT suppliers furnishing HIT no later than January 1, 2021. Section 1861(iii)(3)(D)(i)(III) of the Act requires a ''qualified home infusion therapy supplier'' to be accredited by a CMS-approved AO, pursuant to section 1834(u)(5) of the Act.

On March 1, 2019, we published a solicitation notice entitled, ''Medicare Program; Solicitation of Independent Accrediting Organizations to Participate in the Home Infusion Therapy Supplier Accreditation Program'' (84 FR 7057). This notice informed national AOs that accredit HIT suppliers of an opportunity to submit applications to participate in the HIT supplier accreditation program. We stated that complete applications would be considered for the January 1, 2021 designation deadline if received by February 1, 2020. Regulations for the approval and oversight of AOs for HIT organizations are located at 42 CFR part 488, subpart L. The requirements for HIT suppliers are located at 42 CFR part 486, subpart I.

II. Approval of Deeming Organization

Section 1834(u)(5) of the Act and regulations at 42 CFR 488.1010 require that our findings concerning review and approval of a national accrediting organization's requirements consider, among other factors, the applying accrediting organization's requirements for accreditation; survey procedures; resources for conducting required surveys; capacity to furnish information for use in enforcement activities; monitoring procedures for provider entities found not in compliance with the conditions or requirements; and ability to provide CMS with the necessary data.

Our rules at 42 CFR 488.1020(a) require that we publish, after receipt of an organization's complete application, a notice that identifies the national accrediting body making the request, describes the nature of the request, and provides at least a 30-day public comment period. Pursuant to our rules at 42 CFR 488.1010(d), we have 210 days from the receipt of a complete application to publish notice of approval or denial of the application.

The purpose of this proposed notice is to inform the public of The Compliance Team's (TCT's) request for CMS' continued recognition of its HIT accreditation program. This notice also solicits public comment on whether TCT's requirements meet or exceed the Medicare requirements of participation for HIT services.

III. Evaluation of Deeming Authority Request

In the September 23, 2019 **Federal Register**, we published TCT's initial application for recognition as an accreditation organization for HIT (84 FR 49736). On September 28, 2020, we published notification of their approval as such an organization, effective October 1, 2020 through October 1, 2024 (85 FR 60799). TCT has since submitted all the necessary materials to enable us to make a determination concerning its request for continued recognition of its HIT accreditation program. This application was determined to be complete on March 2, 2024. Under section 1834(u)(5) of the Act and 42 CFR 488.1010 (Application and re-application procedures for national home infusion therapy accrediting organizations), our review and evaluation of TCT will be conducted in accordance with, but not necessarily limited to, the following factors:

- The equivalency of TCT's standards for HIT as compared with CMS' HIT requirements for participation in the Medicare program.
- TCT's survey process to determine the following:

++ The composition of the survey team, surveyor qualifications, and the ability of the organization to provide continuing surveyor training.

++ The comparability of TCT's to CMS' standards and processes, including survey frequency, and the ability to investigate and respond appropriately to complaints against accredited facilities.

++ TCT's processes and procedures for monitoring a HIT supplier found out of compliance with TCT's program requirements.

++ TCT's capacity to report deficiencies to the surveyed facilities and respond to the facility's plan of correction in a timely manner.

++ TCT's capacity to provide CMS with electronic data and reports necessary for effective assessment and interpretation of the organization's survey process.

++ The adequacy of TCT's staff and other resources, and its financial viability.

++ TCT's capacity to adequately fund required surveys.

++ TCT's policies with respect to whether surveys are announced or unannounced, to ensure that surveys are unannounced.

++ TCT's agreement to provide CMS with a copy of the most current accreditation survey together with any other information related to the survey as CMS may require (including corrective action plans).

++ TCT's policies and procedures to avoid conflicts of interest, including the appearance of conflicts of interest, involving individuals who conduct surveys, audits or participate in accreditation decisions.

++ TCT's agreement or policies for voluntary and involuntary termination of HIT suppliers.

++ TCT's agreement or policies for voluntary and involuntary termination of the HIT AO program.

IV. Collection of Information Requirements

This document does not impose information collection requirements, that is, reporting, recordkeeping, or third-party disclosure requirements. Consequently, there is no need for review by the Office of Management and Budget under the authority of the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*).

V. Response to Comments

Because of the large number of public comments, we normally receive on **Federal Register** documents, we are not able to acknowledge or respond to them individually. We will consider all comments we receive by the date and time specified in the **DATES** section of this preamble, and, when we proceed with a subsequent document, we will respond to the comments in the preamble to that document.

The Administrator of the Centers for Medicare & Medicaid Services (CMS), Chiquita Brooks-LaSure, having reviewed and approved this document, authorizes Trenesha Fultz-Mimms, who is the Federal Register Liaison, to electronically sign this document for purposes of publication in the **Federal Register**.

Trenesha Fultz-Mimms,

Federal Register Liaison, Centers for Medicare & Medicaid Services.

Medicare and Medicaid Programs; Quarterly Listing of Program Issuances—January through March 2024

AGENCY: Centers for Medicare & Medicaid Services (CMS), HHS.

ACTION: Notice.

SUMMARY: This quarterly notice lists CMS manual instructions, substantive and interpretive regulations, and other **Federal Register** notices that were published in the 3-month period, relating to the Medicare and Medicaid programs and other programs administered by CMS.

FOR FURTHER INFORMATION CONTACT: It is possible that an interested party may need specific information and not be able to determine from the listed information whether the issuance or regulation would fulfill that need. Consequently, we are providing contact persons to answer general questions concerning each of the addenda published in this notice.

Addenda	Contact	Phone No.
I CMS Manual Instructions	Ismael Torres	(410) 786–1864
II Regulation Documents Published in the **Federal Register**	Terri Plumb	(410) 786–4481
III CMS Rulings	Tiffany Lafferty	(410)786–7548
IV Medicare National Coverage Determinations	Wanda Belle, MPA	(410) 786–7491
V FDA-Approved Category B IDEs	John Manlove	(410) 786–6877
VI Collections of Information	William Parham	(410) 786–4669
VII Medicare—Approved Carotid Stent Facilities	Sarah Fulton, MHS	(410) 786–2749
VIII American College of Cardiology-National Cardiovascular Data Registry Sites	Sarah Fulton, MHS	(410) 786–2749

XV Fluorodeoxyglucose Positron Emission Tomography for Dementia Trials	David Dolan, MBA	(410) 786–3365
All Other Information	Annette Brewer	(410) 786–6580

SUPPLEMENTARY INFORMATION:

I. Background

The Centers for Medicare & Medicaid Services (CMS) is responsible for administering the Medicare and Medicaid programs and coordination and oversight of private health insurance. Administration and oversight of these programs involves the following: (1) furnishing information to Medicare and Medicaid beneficiaries, health care providers, and the public; and (2) maintaining effective communications with CMS regional offices, state governments, state Medicaid agencies, state survey agencies, various providers of health care, all Medicare contractors that process claims and pay bills, National Association of Insurance Commissioners (NAIC), health insurers, and other stakeholders. To implement the various statutes on which the programs are based, we issue regulations under the authority granted to the Secretary of the Department of Health and Human Services under sections 1102, 1871, 1902, and related provisions of the Social Security Act (the Act) and Public Health Service Act. We also issue various manuals, memoranda, and statements necessary to administer and oversee the programs efficiently.

Section 1871(c) of the Act requires that we publish a list of all Medicare manual instructions, interpretive rules, statements of policy, and guidelines of general applicability not issued as regulations at least every 3 months in the **Federal Register**.

II. Format for the Quarterly Issuance Notices

This quarterly notice provides only the specific updates that have occurred in the 3-month period along with a hyperlink to the full listing that is available on the CMS website or the appropriate data registries that are used as our resources. This is the most current up-to-date information and will be available earlier than we publish our quarterly notice. We believe the website list provides more timely access for beneficiaries, providers, and suppliers. We also believe the website offers a more convenient tool for the public to find the full list of qualified providers for these specific services and offers more flexibility and ''real time'' accessibility. In addition, many of the websites have listservs; that is, the public can subscribe and receive immediate notification of any updates to the website. These listservs avoid the need to check the website, as notification of updates is automatic and sent to the subscriber as they occur. If assessing a website proves to be difficult, the contact person listed can provide information.

III. How to Use the Notice

This notice is organized into 15 addenda so that a reader may access the subjects published during the quarter covered by the notice to determine whether any are of particular interest. We expect this notice to be used in concert with previously published notices. Those unfamiliar with a description of our Medicare manuals should view the manuals at *http://www.cms.gov/manuals.*

The Director of the Office of Strategic Operations and Regulatory Affairs of the Centers for Medicare & Medicaid Services (CMS), Kathleen Cantwell, having reviewed and approved this document, authorizes Trenesha Fultz-Mimms, who is the **Federal Register** Liaison, to electronically sign this document for purposes of publication in the **Federal Register**.

Trenesha Fultz-Mimms,

Federal Register Liaison, Department of Health and Human Services.

BILLING CODE 4120–01–P

Publication Dates for the Previous Four Quarterly Notices

We publish this notice at the end of each quarter reflecting information released by CMS during the previous quarter. The publication dates of the previous four Quarterly Listing of Program Issuances notices are: May 12, 2023 (88 FR 30752), August 4, 2023 (88 FR 51814), October 26, 2023 (88 FR 73591) and January 30, 2024 (89 FR 5897). We are providing only the specific updates that have occurred in the 3-month period along with a hyperlink to the website to access this information and a contact person for questions or additional information.

Addendum I: Medicare and Medicaid Manual Instructions (January through March 2024)

The CMS Manual System is used by CMS program components, partners, providers, contractors, Medicare Advantage organizations, and State Survey Agencies to administer CMS programs. It offers day-to-day operating instructions, policies, and procedures based on statutes and regulations, guidelines, models, and directives. In 2003, we transformed the CMS Program Manuals into a web user-friendly presentation and renamed it the CMS Online Manual System.

How to Obtain Manuals

The Internet-only Manuals (IOMs) are a replica of the Agency's official record copy. Paper-based manuals are CMS manuals that were officially released in hardcopy. The majority of these manuals were transferred into the Internet-only manual (IOM) or retired. Pub 15-1, Pub 15-2 and Pub 45 are exceptions to this rule and are still active paper-based manuals. The remaining paper-based manuals are for reference purposes only. If you notice policy contained in the paper-based manuals that was not transferred to the IOM, send a message via the CMS Feedback tool.

Those wishing to subscribe to old versions of CMS manuals should contact the National Technical Information Service, Department of Commerce, 5301 Shawnee Road, Alexandria, VA 22312 Telephone (703-605-6050). You can download copies of the listed material free of charge at: http://cms.gov/manuals.

How to Review Transmittals or Program Memoranda

Those wishing to review transmittals and program memoranda can access this information at a local Federal Depository Library (FDL). Under the FDL program, government publications are sent to approximately 1,400 designated libraries throughout the United States. Some FDLs may have arrangements to transfer material to a local library not designated as an FDL. Contact any library to locate the nearest FDL. This information is available at http://www.gpo.gov/libraries/

In addition, individuals may contact regional depository libraries that receive and retain at least one copy of most federal government publications, either in printed or microfilm form, for use by the general public. These libraries provide reference services and interlibrary loans; however, they are not sales outlets. Individuals may obtain information about the location of the nearest regional depository library from any library. CMS publication and transmittal numbers are shown in the listing entitled Medicare and Medicaid Manual Instructions. To help FDLs locate the materials, use the CMS publication and transmittal numbers. For example, to find the manual Updates to Medicare Benefit Policy Manual and Medicare Claims Processing Manual for Marriage and Family Therapists (MFTs) and Mental Health Counselors (MHCs) (CMS-Pub. 100-02) Transmittal No. 12448.

Addendum I lists a unique CMS transmittal number for each instruction in our manuals or program memoranda and its subject number. A transmittal may consist of a single or multiple instruction(s). Often, it is necessary to use information in a transmittal in conjunction with information currently in the manual.

Fee-For Service Transmittal Numbers

Please Note: Beginning Friday, March 20, 2020, there will be the following change regarding the Advance Notice of Instructions due to a CMS internal process change. Fee-For Service Transmittal Numbers will no longer be determined by Publication. The Transmittal numbers will be issued by a single numerical sequence beginning with Transmittal Number 10000.

For the purposes of this quarterly notice, we list only the specific updates to the list of manual instructions that have occurred in the 3-month period. This information is available on our website at www.cms.gov/Manuals.

Transmittal Number	Manual/Subject/Publication Number
Medicare General Information (CMS-Pub. 100-01)	
12531	Issued to a specific audience, not posted to Internet/Intranet due to a Confidentiality of Instruction
Medicare Benefit Policy (CMS-Pub. 100-02)

Addendum II: Regulation Documents Published in the Federal Register (January through March 2024)

Regulations and Notices

Regulations and notices are published in the daily **Federal Register**. To purchase individual copies or subscribe to the **Federal Register,** contact GPO at www.gpo.gov/fdsys. When ordering individual copies, it is necessary to cite either the date of publication or the volume number and page number.

The **Federal Register** is available as an online database through GPO Access. The online database is updated by 6 a.m. each day the **Federal Register** is published. The database includes both text and graphics from Volume 59, Number 1 (January 2, 1994) through the present date and can be accessed at http://www.gpoaccess.gov/fr/index.html. The following website http://www.archives.gov/federal-register/ provides information on how to access electronic editions, printed editions, and reference copies.

For questions or additional information, contact Terri Plumb (410-786-4481).

Addendum III: CMS Rulings (January through March 2024)

CMS Rulings are decisions of the Administrator that serve as precedent final opinions and orders and statements of policy and interpretation. They provide clarification and interpretation of complex or ambiguous provisions of the law or regulations relating to Medicare, Medicaid, Utilization and Quality Control Peer Review, private health insurance, and related matters.

The rulings can be accessed at http://www.cms.gov/Regulations-and-Guidance/Guidance/Rulings.

For questions or additional information, contact Tiffany Lafferty (410-786-7548).

Addendum IV: Medicare National Coverage Determinations (January through March 2024)

Addendum IV includes completed national coverage determinations (NCDs), or reconsiderations of completed NCDs, from the quarter covered by this notice. Completed decisions are identified by the section of the NCD Manual (NCDM) in which the decision appears, the title, the date the publication was issued, and the effective date of the decision. An NCD is a determination by the Secretary for whether or not a particular item or service is covered nationally under the Medicare Program (title XVIII of the Act), but does not include a determination of the code, if any, that is assigned to a particular covered item or service, or payment determination for a particular covered item or service. The entries below include information concerning completed decisions, as well as sections on

program and decision memoranda, which also announce decisions or, in some cases, explain why it was not appropriate to issue an NCD. Information on completed decisions as well as pending decisions has also been posted on the CMS website. For the purposes of this quarterly notice, there were no specific updates to national coverage determinations (NCDs), or reconsiderations of completed NCDs published in the 3-month period. This information is available at: www.cms.gov/medicare-coverage-database/.

For questions or additional information, contact Wanda Belle, MPA (410-786-7491).

Addendum V: FDA-Approved Category B Investigational Device Exemptions (IDEs) (January through March 2024)

(Inclusion of this addenda is under discussion internally.)

Addendum VI: Approval Numbers for Collections of Information (January through March 2024)

All approval numbers are available to the public at Reginfo.gov. Under the review process, approved information collection requests are assigned OMB control numbers. A single control number may apply to several related information collections. This information is available at www.reginfo.gov/public/do/PRAMain.

For questions or additional information, contact William Parham (410-786-4669).

Addendum VII: Medicare-Approved Carotid Stent Facilities (January through March 2024)

Addendum VII includes listings of Medicare-approved carotid stent facilities. All facilities listed meet CMS standards for performing carotid artery stenting for high risk patients. On March 17, 2005, we issued our decision memorandum on carotid artery stenting. We determined that carotid artery stenting with embolic protection is reasonable and necessary only if performed in facilities that have been determined to be competent in performing the evaluation, procedure, and follow-up necessary to ensure optimal patient outcomes. We have created a list of minimum standards for facilities modeled in part on professional society statements on competency. All facilities must at least meet our standards in order to receive coverage for carotid artery stenting for high risk patients. For the purposes of this quarterly notice, we are providing only the specific updates that have occurred in the 3-month period. This information is available at: http://www.cms.gov/MedicareApprovedFacilitie/CASF/list.asp#TopOfPage

For questions or additional information, contact Sarah Fulton, MHS (410-786-2749).

Facility	Provider Number	Date Approved	State
The following facility has editorial changes (in bold).			
FROM: Saint John's Hospital and Health Center **TO: Saint John's Health Center** 2121 Santa Monica Boulevard Santa Monica, CA 90404	050290	02/09/2007	Ca

Addendum VIII: American College of Cardiology's National Cardiovascular Data Registry Sites (January through March 2024)

The initial data collection requirement through the American College of Cardiology's National Cardiovascular Data Registry (ACC-NCDR) has served to develop and improve the evidence base for the use of ICDs in certain Medicare beneficiaries. The data collection requirement ended with the posting of the final decision memo for Implantable Cardioverter Defibrillators on February 15, 2018.

For questions or additional information, contact Sarah Fulton, MHS (410-786-2749).

Addendum IX: Active CMS Coverage-Related Guidance Documents (January through March 2024)

CMS issued a guidance document on November 20, 2014 titled "Guidance for the Public, Industry, and CMS Staff: Coverage with Evidence Development Document". Although CMS has several policy vehicles relating to evidence development activities including the investigational device exemption (IDE), the clinical trial policy, national coverage determinations and local coverage determinations, this guidance document is principally intended to help the public understand CMS's implementation of coverage with evidence development (CED) through the national coverage determination process. The document is available at http://www.cms.gov/medicare-coverage-database/details/medicare-coverage-document-details.aspx?MCDId=27.

CMS published three proposed guidance documents on June 22, 2023 to provide a framework for more predictable and transparent evidence development and encourage innovation and accelerate beneficiary access to new items and services. The documents are available at:

https://www.cms.gov/medicare-coverage-database/view/medicare-coverage-document.aspx?mcdid=35&docTypeId=1&sortBy=title&bc=16

https://www.cms.gov/medicare-coverage-database/view/medicare-coverage-document.aspx?mcdid=34&docTypeId=1&sortBy=title&bc=16

https://www.cms.gov/medicare-coverage-database/view/medicare-coverage-document.aspx?mcdid=33&docTypeId=1&sortBy=title&bc=16

For questions or additional information, contact Lori Ashby, MA (410 786 6322).

Addendum X: List of Special One-Time Notices Regarding National Coverage Provisions (January through March 2024)

There were no special one-time notices regarding national coverage provisions published in the 3-month period. This information is available at http://www.cms.gov .

For questions or additional information, contact JoAnna Baldwin, MS (410-786 7205).

Addendum XI: National Oncologic PET Registry (NOPR) (January through March 2024)

Addendum XI includes a listing of National Oncologic Positron Emission Tomography Registry (NOPR) sites. We cover positron emission tomography (PET) scans for particular oncologic indications when they are performed in a facility that participates in the NOPR.

In January 2005, we issued our decision memorandum on **positron emission tomography** (PET) scans, which stated that CMS would cover PET scans for particular oncologic indications, as long as they were performed in the context of a clinical study. We have since recognized the National Oncologic PET Registry as one of these clinical studies. Therefore, in order for a beneficiary to receive a Medicare-covered PET scan, the beneficiary must receive the scan in a facility that participates in the registry. There were no additions, deletions, or editorial changes to the listing of National Oncologic Positron Emission Tomography Registry (NOPR) in the 3-month period. This information is available at http://www.cms.gov/MedicareApprovedFacilitie/NOPR/list.asp#TopOfPage.

For questions or additional information, contact David Dolan, MBA (410-786-3365).

Addendum XII: Medicare-Approved Ventricular Assist Device (Destination Therapy) Facilities (January through March 2024)

Addendum XII includes a listing of Medicare-approved facilities that receive coverage for ventricular assist devices (VADs) used as destination therapy. All facilities were required to meet our standards in order to receive coverage for VADs implanted as destination therapy. On October 1, 2003, we issued our decision memorandum on VADs for the clinical indication of destination therapy. We determined that VADs used as destination therapy are reasonable and necessary only if performed in facilities that have been determined to have the experience and infrastructure to ensure optimal patient outcomes. We established facility standards and an application process. All facilities were required to meet our standards in order to receive coverage for VADs implanted as destination therapy.

For the purposes of this quarterly notice, we are providing only the specific updates to the list of Medicare-approved facilities that meet our standards that have occurred in the 3-month period. This information is available at http://www.cms.gov/MedicareApprovedFacilitie/VAD/list.asp#TopOfPage.

For questions or additional information, contact David Dolan, MBA, (410-786-3365).

Addendum XIII: Lung Volume Reduction Surgery (LVRS) (January through March 2024)

Addendum XIII includes a listing of Medicare-approved facilities that are eligible to receive coverage for lung volume reduction surgery. Until May 17, 2007, facilities that participated in the National Emphysema Treatment Trial were also eligible to receive coverage. The following three types of facilities are eligible for reimbursement for Lung Volume Reduction Surgery (LVRS):

- National Emphysema Treatment Trial (NETT) approved (Beginning 05/07/2007, these will no longer automatically qualify and can qualify only with the other programs);
- Credentialed by the Joint Commission (formerly, the Joint Commission on Accreditation of Healthcare Organizations (JCAHO)) under their Disease Specific Certification Program for LVRS; and
- Medicare approved for lung transplants.

Only the first two types are in the list. For the purposes of this quarterly notice, there are no additions and deletions to a listing of Medicare-approved facilities that are eligible to receive coverage for lung volume reduction surgery. This information is available at www.cms.gov/MedicareApprovedFacilitie/LVRS/list.asp#TopOfPage.

For questions or additional information, contact Sarah Fulton, MHS (410-786-2749).

Addendum XIV: Medicare-Approved Bariatric Surgery Facilities (January through March 2024)

Addendum XIV includes a listing of Medicare-approved facilities that meet minimum standards for facilities modeled in part on professional society statements on competency. All facilities must meet our standards in order to receive coverage for bariatric surgery procedures. On February 21, 2006, we issued our decision memorandum on bariatric surgery procedures. We determined that bariatric surgical procedures are reasonable and necessary for Medicare beneficiaries who have a body-mass index (BMI) greater than or equal to 35, have at least one co-morbidity related to obesity and have been previously unsuccessful with medical treatment for obesity. This decision also stipulated that covered bariatric surgery procedures are reasonable and necessary only when performed at facilities that are: (1) certified by the American College of Surgeons (ACS) as a Level 1 Bariatric Surgery Center (program standards and requirements in effect on February 15, 2006); or (2) certified by the American Society for Bariatric Surgery (ASBS) as a Bariatric Surgery Center of Excellence (BSCOE) (program standards and requirements in effect on February 15, 2006).

There were no additions, deletions, or editorial changes to Medicare-approved facilities that meet CMS' minimum facility standards for bariatric surgery that have been certified by ACS and/or ASMBS in the 3-month period. This information is available at www.cms.gov/MedicareApprovedFacilitie/BSF/list.asp#TopOfPage.

For questions or additional information, contact Sarah Fulton, MHS (410-786-2749).

Addendum XV: FDG-PET for Dementia and Neurodegenerative Diseases Clinical Trials (January through March 2024)

There were no FDG-PET for Dementia and Neurodegenerative Diseases Clinical Trials published in the 3-month period.

This information is available on our website at www.cms.gov/MedicareApprovedFacilitie/PETDT/list.asp#TopOfPage.

For questions or additional information, contact David Dolan, MBA (410-786-3365).

BILLING CODE 4120–01–C

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration

[Docket No. FDA–2010–N–0155]

Veterinary Feed Directive Regulation Questions and Answers; Small Entity Compliance Guide; Guidance for Industry (Revised); Availability

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice of availability.

SUMMARY: The Food and Drug Administration (FDA or Agency) is announcing the availability of a guidance for industry (GFI) #120 entitled ''Veterinary Feed Directive Regulation Questions and Answers.'' This revised guidance document will aid industry in complying with the requirements of the veterinary feed directive (VFD) regulation.

DATES: The announcement of the guidance is published in the **Federal Register** on April 29, 2024.

ADDRESSES: You may submit either electronic or written comments on Agency guidances at any time as follows:

Electronic Submissions

Submit electronic comments in the following way:

- *Federal eRulemaking Portal: https://www.regulations.gov.* Follow the instructions for submitting comments. Comments submitted electronically, including attachments, to *https://www.regulations.gov* will be posted to the docket unchanged. Because your comment will be made public, you are solely responsible for ensuring that your comment does not include any confidential information that you or a third party may not wish to be posted, such as medical information, your or anyone else's Social Security number, or confidential business information, such as a manufacturing process. Please note that if you include your name, contact information, or other information that identifies you in the body of your comments, that information will be posted on *https://www.regulations.gov.*
- If you want to submit a comment with confidential information that you do not wish to be made available to the public, submit the comment as a written/paper submission and in the manner detailed (see ''Written/Paper Submissions'' and ''Instructions'').

Written/Paper Submissions

Submit written/paper submissions as follows:

- *Mail/Hand Delivery/Courier (for written/paper submissions):* Dockets Management Staff (HFA–305), Food and Drug Administration, 5630 Fishers Lane, Rm. 1061, Rockville, MD 20852.
- For written/paper comments submitted to the Dockets Management Staff, FDA will post your comment, as well as any attachments, except for information submitted, marked and identified, as confidential, if submitted as detailed in ''Instructions.''

Instructions: All submissions received must include the Docket No. FDA–2010–N–0155 for ''Veterinary Feed Directive Regulation Questions and Answers.'' Received comments will be placed in the docket and, except for those submitted as ''Confidential Submissions,'' publicly viewable at *https://www.regulations.gov* or at the Dockets Management Staff between 9 a.m. and 4 p.m., Monday through Friday, 240–402–7500.

- Confidential Submissions—To submit a comment with confidential information that you do not wish to be made publicly available, submit your comments only as a written/paper submission. You should submit two copies total. One copy will include the information you claim to be confidential with a heading or cover note that states ''THIS DOCUMENT CONTAINS CONFIDENTIAL INFORMATION.'' The Agency will review this copy, including the claimed confidential information, in its consideration of comments. The second copy, which will have the claimed confidential information redacted/blacked out, will be available for public viewing and posted on *https://www.regulations.gov.* Submit both copies to the Dockets Management Staff. If you do not wish your name and contact information to be made publicly available, you can provide this information on the cover sheet and not in the body of your comments and you must identify this information as ''confidential.'' Any information marked as ''confidential'' will not be disclosed except in accordance with 21 CFR 10.20 and other applicable disclosure law. For more information about FDA's posting of comments to public dockets, see 80 FR 56469, September 18, 2015, or access the information at: *https://www.govinfo.gov/content/pkg/FR-2015-09-18/pdf/2015-23389.pdf.*

Docket: For access to the docket to read background documents or the electronic and written/paper comments received, go to *https://www.regulations.gov* and insert the docket number, found in brackets in the heading of this document, into the ''Search'' box and follow the prompts and/or go to the Dockets Management Staff, 5630 Fishers Lane, Rm. 1061, Rockville, MD 20852, 240–402–7500.

You may submit comments on any guidance at any time (see 21 CFR 10.115(g)(5)).

Submit written requests for single copies of the guidance to the Policy and Regulations Staff (HFV–6), Center for Veterinary Medicine, Food and Drug Administration, 7500 Standish Pl., Rockville, MD 20855. Send one self-addressed adhesive label to assist that office in processing your requests. See the **SUPPLEMENTARY INFORMATION** section for electronic access to the draft guidance document.

FOR FURTHER INFORMATION CONTACT: Dragan Momcilovic, Center for Veterinary Medicine (HFV–241), Food and Drug Administration, 7500 Standish Pl., Rockville, MD 20855, 240–402–5944, *Dragan.Momcilovic@fda.hhs.gov.*

SUPPLEMENTARY INFORMATION:

I. Background

In the **Federal Register** of September 30, 2015 (80 FR 58602), FDA announced the availability of GFI #120 entitled ''Veterinary Feed Directive Regulation Questions and Answers'' to assist industry in complying with the VFD regulation in 21 CFR part 558. This guidance also serves as a Small Entities Compliance Guide (SECG) to aid industry in complying with the requirements of the VFD final rule that published in the **Federal Register** on June 3, 2015 (80 FR 31708). FDA prepared this SECG in accordance with section 212 of the Small Business Regulatory Enforcement Fairness Act (Pub. L. 104–121). In the **Federal Register** of March 28, 2019 (84 FR 11804), FDA announced the availability of a draft revised GFI #120 to provide additional information in response to questions that have been submitted by interested parties since 2015. FDA reviewed comments submitted in response to that notice by stakeholders, including animal producer organizations, the animal feed industry, veterinarians, and producers of electronic VFD software.

The Agency is now announcing the availability of revised GFI #120 which refines and clarifies language in the draft guidance based on stakeholder feedback. Specifically, stakeholders asked FDA to clarify and change language related to the amount of VFD drug in feed, the issuance and effective dates of VFDs, definitions of and requirements for individuals who

distribute VFD feeds, and the expiration of medicated feeds. In response to stakeholder comments, FDA clarified language in the respective sections and provided examples to better distinguish roles and responsibilities of involved parties.

This level 1 guidance is being issued consistent with FDA's good guidance practices regulation (21 CFR 10.115). The guidance represents the current thinking of FDA on ''Veterinary Feed Directive Regulation Questions and Answers.'' It does not establish any rights for any person and is not binding on FDA or the public. You can use an alternative approach if it satisfies the requirements of the applicable statutes and regulations.

II. Paperwork Reduction Act of 1995

While this guidance contains no collection of information, it does refer to previously approved FDA collections of information. The previously approved collections of information are subject to review by the Office of Management and Budget (OMB) under the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3501–3521). The collections of information in 21 CFR 558.6 have been approved under OMB control number 0910–0363.

III. Electronic Access

Persons with access to the internet may obtain the draft guidance at *https://www.fda.gov/animal-veterinary/guidance-regulations/guidance-industry, https://www.fda.gov/regulatory-information/search-fda-guidance-documents,* or *https://www.regulations.gov.*

Dated: April 24, 2024.

Lauren K. Roth,

Associate Commissioner for Policy.

BILLING CODE 4164–01–P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration

[Docket No. FDA–2024–N–1718]

Endocrinologic and Metabolic Drugs Advisory Committee; Notice of Meeting; Establishment of a Public Docket; Request for Comments—Biologics License Application 761326 for NNC0148–0287 Injection (Insulin Icodec)

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice; establishment of a public docket; request for comments.

SUMMARY: The Food and Drug Administration (FDA) announces a forthcoming public advisory committee meeting of the Endocrinologic and Metabolic Drugs Advisory Committee (the Committee). The general function of the Committee is to provide advice and recommendations to FDA on regulatory issues. The meeting will be open to the public. FDA is establishing a docket for public comment on this document.

DATES: The meeting will be held on May 24, 2024, from 9 a.m. to 4 p.m. Eastern Time.

ADDRESSES: All meeting participants will be heard, viewed, captioned, and recorded for this advisory committee meeting via an online teleconferencing and/or video conferencing platform.

Answers to commonly asked questions about FDA advisory committee meetings, may be accessed at: *https://www.fda.gov/AdvisoryCommittees/AboutAdvisoryCommittees/ucm408555.htm.*

FDA is establishing a docket for public comment on this meeting. The docket number is FDA–2024–N–1718. The docket will close on May 23, 2024. Please note that late, untimely filed comments will not be considered. The *https://www.regulations.gov* electronic filing system will accept comments until 11:59 p.m. Eastern Time at the end of May 23, 2024. Comments received by mail/hand delivery/courier (for written/paper submissions) will be considered timely if they are received on or before that date.

Comments received on or before May 16, 2024, will be provided to the Committee. Comments received after that date will be taken into consideration by FDA. In the event that the meeting is cancelled, FDA will continue to evaluate any relevant applications or information, and consider any comments submitted to the docket, as appropriate.

You may submit comments as follows:

Electronic Submissions

Submit electronic comments in the following way:

- *Federal eRulemaking Portal: https://www.regulations.gov.* Follow the instructions for submitting comments. Comments submitted electronically, including attachments, to *https://www.regulations.gov* will be posted to the docket unchanged. Because your comment will be made public, you are solely responsible for ensuring that your comment does not include any confidential information that you or a third party may not wish to be posted, such as medical information, your or anyone else's Social Security number, or confidential business information, such as a manufacturing process. Please note that if you include your name, contact information, or other information that identifies you in the body of your comments, that information will be posted on *https://www.regulations.gov.*
- If you want to submit a comment with confidential information that you do not wish to be made available to the public, submit the comment as a written/paper submission and in the manner detailed (see ''Written/Paper Submissions'' and ''Instructions'').

Written/Paper Submissions

Submit written/paper submissions as follows:

- *Mail/Hand Delivery/Courier (for written/paper submissions):* Dockets Management Staff (HFA–305), Food and Drug Administration, 5630 Fishers Lane, Rm. 1061, Rockville, MD 20852.
- For written/paper comments submitted to the Dockets Management Staff, FDA will post your comment, as well as any attachments, except for information submitted, marked and identified, as confidential, if submitted as detailed in ''Instructions.''

Instructions: All submissions received must include the Docket No. FDA–2024–N–1718 for ''Endocrinologic and Metabolic Drugs Advisory Committee; Notice of Meeting; Establishment of a Public Docket; Request for Comments.'' Received comments, those filed in a timely manner (see **ADDRESSES**), will be placed in the docket and, except for those submitted as ''Confidential Submissions,'' publicly viewable at *https://www.regulations.gov* or at the Dockets Management Staff between 9 a.m. and 4 p.m., Monday through Friday, 240–402–7500.

- Confidential Submissions—To submit a comment with confidential information that you do not wish to be made publicly available, submit your comments only as a written/paper submission. You should submit two copies total. One copy will include the information you claim to be confidential with a heading or cover note that states ''THIS DOCUMENT CONTAINS CONFIDENTIAL INFORMATION.'' FDA will review this copy, including the claimed confidential information, in its consideration of comments. The second copy, which will have the claimed confidential information redacted/blacked out, will be available for public viewing and posted on *https://www.regulations.gov.* Submit both copies to the Dockets Management Staff. If you do not wish your name and contact information be made publicly available, you can provide this

information on the cover sheet and not in the body of your comments and you must identify the information as ''confidential.'' Any information marked as ''confidential'' will not be disclosed except in accordance with 21 CFR 10.20 and other applicable disclosure law. For more information about FDA's posting of comments to public dockets, see 80 FR 56469, September 18, 2015, or access the information at: *https://www.govinfo.gov/content/pkg/FR-2015-09-18/pdf/2015-23389.pdf.*

Docket: For access to the docket to read background documents or the electronic and written/paper comments received, go to *https://www.regulations.gov* and insert the docket number, found in brackets in the heading of this document, into the ''Search'' box and follow the prompts and/or go to the Dockets Management Staff, 5630 Fishers Lane, Rm. 1061, Rockville, MD 20852, 240–402–7500.

FOR FURTHER INFORMATION CONTACT: LaToya Bonner, Center for Drug Evaluation and Research, Food and Drug Administration, 10903 New Hampshire Ave., Bldg. 31, Rm. 2417, Silver Spring, MD 20993–0002, 301–796–2855, email: *EMDAC@fda.hhs.gov,* or FDA Advisory Committee Information Line, 1–800–741–8138 (301–443–0572 in the Washington, DC area). A notice in the **Federal Register** about last-minute modifications that impact a previously announced advisory committee meeting cannot always be published quickly enough to provide timely notice. Therefore, you should always check FDA's website at *https://www.fda.gov/AdvisoryCommittees/default.htm* and scroll down to the appropriate advisory committee meeting link, or call the advisory committee information line to learn about possible modifications before the meeting.

SUPPLEMENTARY INFORMATION:

Agenda: The meeting presentations will be heard, viewed, captioned, and recorded through an online teleconferencing and/or video conferencing platform. The Committee will discuss the safety and efficacy of biologics license application 761326 for NNC0148–0287 injection (insulin icodec), a long-acting insulin analog product, submitted by Novo Nordisk. The proposed indication is to improve glycemic control in adults with diabetes mellitus.

FDA intends to make background material available to the public no later than 2 business days before the meeting. If FDA is unable to post the background material on its website prior to the meeting, the background material will be made publicly available on FDA's website at the time of the advisory committee meeting. Background material and the link to the online teleconference and/or video conference meeting will be available at *https://www.fda.gov/AdvisoryCommittees/Calendar/default.htm.* Scroll down to the appropriate advisory committee meeting link.

The meeting will include slide presentations with audio and video components to allow the presentation of materials in a manner that most closely resembles an in-person advisory committee meeting.

Procedure: Interested persons may present data, information, or views, orally or in writing, on issues pending before the Committee. All electronic and written submissions to the Docket (see **ADDRESSES**) on or before May 16, 2024, will be provided to the Committee. Oral presentations from the public will be scheduled between approximately 1 p.m. and 2 p.m. Eastern Time. Those individuals interested in making formal oral presentations should notify the contact person and submit a brief statement of the general nature of the evidence or arguments they wish to present, the names and addresses of proposed participants, and an indication of the approximate time requested to make their presentation on or before May 10, 2024. Time allotted for each presentation may be limited. If the number of registrants requesting to speak is greater than can be reasonably accommodated during the scheduled open public hearing session, FDA may conduct a lottery to determine the speakers for the scheduled open public hearing session. The contact person will notify interested persons regarding their request to speak by May 13, 2024.

For press inquiries, please contact the Office of Media Affairs at *fdaoma@fda.hhs.gov* or 301–796–4540.

FDA welcomes the attendance of the public at its advisory committee meetings and will make every effort to accommodate persons with disabilities. If you require accommodations due to a disability, please contact LaToya Bonner (see **FOR FURTHER INFORMATION CONTACT**) at least 7 days in advance of the meeting.

FDA is committed to the orderly conduct of its advisory committee meetings. Please visit our website at *https://www.fda.gov/AdvisoryCommittees/AboutAdvisoryCommittees/ucm111462.htm* for procedures on public conduct during advisory committee meetings.

Notice of this meeting is given under the Federal Advisory Committee Act (5 U.S.C. 1001 *et seq.*). This meeting notice also serves as notice that, pursuant to 21 CFR 10.19, the requirements in 21 CFR 14.22(b), (f), and (g) relating to the location of advisory committee meetings are hereby waived to allow for this meeting to take place using an online meeting platform. This waiver is in the interest of allowing greater transparency and opportunities for public participation, in addition to convenience for advisory committee members, speakers, and guest speakers. The conditions for issuance of a waiver under 21 CFR 10.19 are met.

Dated: April 24, 2024.

Lauren K. Roth,

Associate Commissioner for Policy.

Food and Drug Administration

[Docket No. FDA–2024–D–1461]

Content and Format of Composition Statement and Corresponding Statement of Ingredients in Labeling in New Drug Applications and Abbreviated New Drug Applications; Draft Guidance for Industry; Availability

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice of availability.

SUMMARY: The Food and Drug Administration (FDA or Agency) is announcing the availability of a draft guidance for industry entitled ''Content and Format of Composition Statements in NDAs and ANDAs and Corresponding Statement of Ingredients in Labeling.'' This guidance is intended to assist new drug application (NDA) and abbreviated new drug application (ANDA) applicants in submitting an accurate and complete composition statement in their applications and corresponding statement of ingredients in the labeling, when applicable. This guidance describes best practices for writing the composition statement and corresponding statement of ingredients in labeling. This guidance recommends how applicants can provide complete information with the goal of minimizing the number of assessment cycles and communications that are necessary for approval, as well as ensuring product labels are written clearly.

DATES: Submit either electronic or written comments on the draft guidance by June 28, 2024 to ensure that the Agency considers your comment on this

draft guidance before it begins work on the final version of the guidance.

ADDRESSES: You may submit comments on any guidance at any time as follows:

Electronic Submissions

Submit electronic comments in the following way:

- *Federal eRulemaking Portal: https://www.regulations.gov.* Follow the instructions for submitting comments. Comments submitted electronically, including attachments, to *https://www.regulations.gov* will be posted to the docket unchanged. Because your comment will be made public, you are solely responsible for ensuring that your comment does not include any confidential information that you or a third party may not wish to be posted, such as medical information, your or anyone else's Social Security number, or confidential business information, such as a manufacturing process. Please note that if you include your name, contact information, or other information that identifies you in the body of your comments, that information will be posted on *https://www.regulations.gov.*
- If you want to submit a comment with confidential information that you do not wish to be made available to the public, submit the comment as a written/paper submission and in the manner detailed (see ''Written/Paper Submissions'' and ''Instructions'').

Written/Paper Submissions

Submit written/paper submissions as follows:

- *Mail/Hand Delivery/Courier (for written/paper submissions):* Dockets Management Staff (HFA–305), Food and Drug Administration, 5630 Fishers Lane, Rm. 1061, Rockville, MD 20852.
- For written/paper comments submitted to the Dockets Management Staff, FDA will post your comment, as well as any attachments, except for information submitted, marked and identified, as confidential, if submitted as detailed in ''Instructions.''

Instructions: All submissions received must include the Docket No. FDA–2024–D–1461 for ''Content and Format of Composition Statements in NDAs and ANDAs and Corresponding Statement of Ingredients in Labeling.'' Received comments will be placed in the docket and, except for those submitted as ''Confidential Submissions,'' publicly viewable at *https://www.regulations.gov* or at the Dockets Management Staff between 9 a.m. and 4 p.m., Monday through Friday, 240–402–7500.

- Confidential Submissions—To submit a comment with confidential information that you do not wish to be made publicly available, submit your comments only as a written/paper submission. You should submit two copies total. One copy will include the information you claim to be confidential with a heading or cover note that states ''THIS DOCUMENT CONTAINS CONFIDENTIAL INFORMATION.'' The Agency will review this copy, including the claimed confidential information, in its consideration of comments. The second copy, which will have the claimed confidential information redacted/blacked out, will be available for public viewing and posted on *https://www.regulations.gov.* Submit both copies to the Dockets Management Staff. If you do not wish your name and contact information to be made publicly available, you can provide this information on the cover sheet and not in the body of your comments and you must identify this information as ''confidential.'' Any information marked as ''confidential'' will not be disclosed except in accordance with 21 CFR 10.20 and other applicable disclosure law. For more information about FDA's posting of comments to public dockets, see 80 FR 56469, September 18, 2015, or access the information at: *https://www.govinfo.gov/content/pkg/FR-2015-09-18/pdf/2015-23389.pdf.*

Docket: For access to the docket to read background documents or the electronic and written/paper comments received, go to *https://www.regulations.gov* and insert the docket number, found in brackets in the heading of this document, into the ''Search'' box and follow the prompts and/or go to the Dockets Management Staff, 5630 Fishers Lane, Rm. 1061, Rockville, MD 20852, 240–402–7500.

You may submit comments on any guidance at any time (see 21 CFR 10.115(g)(5)).

Submit written requests for single copies of the draft guidance to the Division of Drug Information, Center for Drug Evaluation and Research, Food and Drug Administration, 10001 New Hampshire Ave., Hillandale Building, 4th Floor, Silver Spring, MD 20993–0002. Send one self-addressed adhesive label to assist that office in processing your requests. See the **SUPPLEMENTARY INFORMATION** section for electronic access to the draft guidance document.

FOR FURTHER INFORMATION CONTACT: Rachel Erdman, Center for Drug Evaluation and Research, Food and Drug Administration, 10903 New Hampshire Ave., Bldg. 75, Rm. 1715, 301–348–3984, *Rachel.Erdman@fda.hhs.gov.*

SUPPLEMENTARY INFORMATION:

I. Background

FDA is announcing the availability of a draft guidance for industry entitled ''Content and Format of Composition Statements in NDAs and ANDAs and Corresponding Statement of Ingredients in Labeling.'' Section 505(b)(1)(A) of the Federal Food, Drug, and Cosmetic Act (FD&C Act) (21 U.S.C. 355(b)(1)(A)) requires, among other things, that an NDA includes ''a full list of the articles used as components of such drug'' and ''a full statement of the composition of such drug.'' Further, the regulations at § 314.50(d)(1)(ii)(*a*) (21 CFR 314.50(d)(1)(ii)(*a*)) require NDA holders to provide a ''list of all components used in the manufacture of the drug product (regardless of whether they appear in the drug product) and a statement of the composition of the drug product . . .'' An ANDA applicant is also required to list all components used in the manufacture of the drug product and a statement of the composition of the drug product (§ 314.50(d)(1)(ii)(*a*)) and must also identify and characterize the inactive ingredients (21 CFR 314.94(a)(9)(ii)).

This guidance is intended to assist NDA and ANDA applicants in submitting an accurate and complete composition statement in their applications and corresponding statement of ingredients in labeling when applicable (21 CFR 201.100 requires labeling for certain drug products to include information on inactive ingredients). This guidance describes best practices for writing the composition statement and corresponding statement of ingredients in labeling. This guidance recommends how applicants can provide complete information with the goal of minimizing the number of assessment cycles and communications that are necessary for approval, as well as ensuring product labels are clear. This guidance includes examples of common, recurring problems identified during FDA's preliminary and substantive assessment of NDAs and ANDAs with respect to the content and format of the composition statement in NDAs and ANDAs and the corresponding statement of ingredients in labeling.

This draft guidance is being issued consistent with FDA's good guidance practices regulation (21 CFR 10.115). The draft guidance, when finalized, will represent the current thinking of FDA on ''Content and Format of Composition Statements in NDAs and ANDAs and Corresponding Statement of Ingredients in Labeling.'' It does not establish any rights for any person and is not binding on FDA or the public. You can use an

alternative approach if it satisfies the requirements of the applicable statutes and regulations.

II. Paperwork Reduction Act of 1995

While this guidance contains no collection of information, it does refer to previously approved FDA collections of information. The previously approved collections of information are subject to review by the Office of Management and Budget (OMB) under the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3501–3521). The collections of information in 21 CFR part 314 relating to the submission of NDAs and ANDAs, as well as related postapproval submissions (including annual reports) and drug master files have been approved under OMB control number 0910–0001. The collections of information in 21 CFR 201.56 and 201.57 pertaining to the content and format requirements of labeling for prescription drug products have been approved under OMB control number 0910–0572.

III. Electronic Access

Persons with access to the internet may obtain the draft guidance at *https://www.fda.gov/drugs/guidance-compliance-regulatory-information/guidances-drugs, https://www.fda.gov/regulatory-information/search-fda-guidance-documents,* or *https://www.regulations.gov.*

Dated: April 24, 2024.

Lauren K. Roth,

Associate Commissioner for Policy.

[FR Doc. 2024–09156 Filed 4–26–24; 8:45 am]

BILLING CODE 4164–01–P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration

[Docket No. FDA–2023–P–5450]

Determination That FLUDARABINE PHOSPHATE Injection, 50 Milligrams/2 Milliliter, Was Not Withdrawn From Sale for Reasons of Safety or Effectiveness

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA, Agency, or we) has determined that FLUDARABINE PHOSPHATE Injection, 50 milligrams (mg)/2 milliliter (mL), was not withdrawn from sale for reasons of safety or effectiveness. This determination means that FDA will not begin procedures to withdraw approval of abbreviated new drug applications (ANDAs) that refer to this drug product, and it will allow FDA to continue to approve ANDAs that refer to the product as long as they meet relevant legal and regulatory requirements.

FOR FURTHER INFORMATION CONTACT: Kaetochi Okemgbo, Center for Drug Evaluation and Research, Food and Drug Administration, 10903 New Hampshire Ave., Bldg. 51, Rm. 6224, Silver Spring, MD 20993–0002, 301–796–1546, *Kaetochi.Okemgbo@fda.hhs.gov.*

SUPPLEMENTARY INFORMATION: Section 505(j) of the Federal Food, Drug, and Cosmetic Act (FD&C Act) (21 U.S.C. 355(j)) allows the submission of an ANDA to market a generic version of a previously approved drug product. To obtain approval, the ANDA applicant must show, among other things, that the generic drug product: (1) has the same active ingredient(s), dosage form, route of administration, strength, conditions of use, and (with certain exceptions) labeling as the listed drug, which is a version of the drug that was previously approved, and (2) is bioequivalent to the listed drug. ANDA applicants do not have to repeat the extensive clinical testing otherwise necessary to gain approval of a new drug application (NDA).

Section 505(j)(7) of the FD&C Act requires FDA to publish a list of all approved drugs. FDA publishes this list as part of the ''Approved Drug Products With Therapeutic Equivalence Evaluations,'' which is known generally as the ''Orange Book.'' Under FDA regulations, drugs are removed from the list if the Agency withdraws or suspends approval of the drug's NDA or ANDA for reasons of safety or effectiveness or if FDA determines that the listed drug was withdrawn from sale for reasons of safety or effectiveness (21 CFR 314.162).

A person may petition the Agency to determine, or the Agency may determine on its own initiative, whether a listed drug was withdrawn from sale for reasons of safety or effectiveness. This determination may be made at any time after the drug has been withdrawn from sale, but must be made prior to approving an ANDA that refers to the listed drug (§ 314.161 (21 CFR 314.161)). FDA may not approve an ANDA that does not refer to a listed drug.

FLUDARABINE PHOSPHATE Injection, 50 mg/2 mL, is the subject of NDA 022137, held by Sandoz Inc., and initially approved on September 21, 2007. FLUDARABINE PHOSPHATE Injection is indicated for the treatment of adult patients with B-cell chronic lymphocytic leukemia who have not responded to or whose disease has progressed during treatment with at least one standard alkylating-agent containing regimen. The drug product is currently listed in the ''Discontinued Drug Product List'' section of the Orange Book.

Hisun Pharmaceutical (Hangzhou) Co., Ltd. submitted a citizen petition dated December 12, 2023 (Docket No. FDA–2023–P–5450), under 21 CFR 10.30, requesting that the Agency determine whether FLUDARABINE PHOSPHATE Injection, 50 mg/2 mL, was withdrawn from sale for reasons of safety or effectiveness.

After considering the citizen petition and reviewing Agency records and based on the information we have at this time, FDA has determined under § 314.161 that FLUDARABINE PHOSPHATE Injection, 50 mg/2 mL, was not withdrawn for reasons of safety or effectiveness. The petitioner has identified no data or other information suggesting that FLUDARABINE PHOSPHATE Injection, 50 mg/2 mL, was withdrawn for reasons of safety or effectiveness. We have carefully reviewed our files for records concerning the withdrawal of FLUDARABINE PHOSPHATE Injection, 50 mg/2 mL, from sale. We have also independently evaluated relevant literature and data for possible postmarketing adverse events. We have reviewed the available evidence and determined that this drug product was not withdrawn from sale for reasons of safety or effectiveness.

Accordingly, the Agency will continue to list FLUDARABINE PHOSPHATE Injection, 50 mg/2 mL, in the ''Discontinued Drug Product List'' section of the Orange Book. The ''Discontinued Drug Product List'' delineates, among other items, drug products that have been discontinued from marketing for reasons other than safety or effectiveness. FDA will not begin procedures to withdraw approval of approved ANDAs that refer to this drug product. Additional ANDAs for this drug product may also be approved by the Agency as long as they meet all other legal and regulatory requirements for the approval of ANDAs.

Dated: April 23, 2024.

Lauren K. Roth,

Associate Commissioner for Policy.

BILLING CODE 4164–01–P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration

[Docket No. FDA–2024–D–1613]

Raw Data for Safety and Effectiveness Studies; Draft Guidance for Industry; Availability

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice of availability.

SUMMARY: The Food and Drug Administration (FDA or Agency) is announcing the availability of a draft guidance for industry (GFI) #287 entitled ''Raw Data for Safety and Effectiveness Studies.'' This guidance provides information to animal drug sponsors (sponsors) on the use of raw data in the Center for Veterinary Medicine's (CVM's) review of safety and effectiveness studies submitted in support of new animal drug applications. This guidance also describes our recommendations for submitting raw data.

DATES: Submit either electronic or written comments on the draft guidance by June 28, 2024 to ensure that the Agency considers your comment on this draft guidance before it begins work on the final version of the guidance.

ADDRESSES: You may submit comments on any guidance at any time as follows:

Electronic Submissions

Submit electronic comments in the following way:

- *Federal eRulemaking Portal: https://www.regulations.gov.* Follow the instructions for submitting comments. Comments submitted electronically, including attachments, to *https://www.regulations.gov* will be posted to the docket unchanged. Because your comment will be made public, you are solely responsible for ensuring that your comment does not include any confidential information that you or a third party may not wish to be posted, such as medical information, your or anyone else's Social Security number, or confidential business information, such as a manufacturing process. Please note that if you include your name, contact information, or other information that identifies you in the body of your comments, that information will be posted on *https://www.regulations.gov.*
- If you want to submit a comment with confidential information that you do not wish to be made available to the public, submit the comment as a written/paper submission and in the manner detailed (see ''Written/Paper Submissions'' and ''Instructions'').

Written/Paper Submissions

Submit written/paper submissions as follows:

- *Mail/Hand Delivery/Courier (for written/paper submissions):* Dockets Management Staff (HFA–305), Food and Drug Administration, 5630 Fishers Lane, Rm. 1061, Rockville, MD 20852.
- For written/paper comments submitted to the Dockets Management Staff, FDA will post your comment, as well as any attachments, except for information submitted, marked and identified, as confidential, if submitted as detailed in ''Instructions.''

Instructions: All submissions received must include the Docket No. FDA–2024–D–1613 for ''Raw Data for Safety and Effectiveness Studies.'' Received comments will be placed in the docket and, except for those submitted as ''Confidential Submissions,'' publicly viewable at *https://www.regulations.gov* or at the Dockets Management Staff between 9 a.m. and 4 p.m., Monday through Friday, 240–402–7500.

- Confidential Submissions—To submit a comment with confidential information that you do not wish to be made publicly available, submit your comments only as a written/paper submission. You should submit two copies total. One copy will include the information you claim to be confidential with a heading or cover note that states ''THIS DOCUMENT CONTAINS CONFIDENTIAL INFORMATION.'' The Agency will review this copy, including the claimed confidential information, in its consideration of comments. The second copy, which will have the claimed confidential information redacted/blacked out, will be available for public viewing and posted on *https://www.regulations.gov.* Submit both copies to the Dockets Management Staff. If you do not wish your name and contact information to be made publicly available, you can provide this information on the cover sheet and not in the body of your comments and you must identify this information as ''confidential.'' Any information marked as ''confidential'' will not be disclosed except in accordance with 21 CFR 10.20 and other applicable disclosure law. For more information about FDA's posting of comments to public dockets, see 80 FR 56469, September 18, 2015, or access the information at: *https://www.govinfo.gov/content/pkg/FR-2015-09-18/pdf/2015-23389.pdf.*

Docket: For access to the docket to read background documents or the electronic and written/paper comments received, go to *https://www.regulations.gov* and insert the docket number, found in brackets in the heading of this document, into the ''Search'' box and follow the prompts and/or go to the Dockets Management Staff, 5630 Fishers Lane, Rm. 1061, Rockville, MD 20852, 240–402–7500.

You may submit comments on any guidance at any time (see 21 CFR 10.115(g)(5)).

Submit written requests for single copies of the guidance to the Policy and Regulations Staff (HFV–6), Center for Veterinary Medicine, Food and Drug Administration, 7500 Standish Pl., Rockville, MD 20855. Send one self-addressed adhesive label to assist that office in processing your requests. See the **SUPPLEMENTARY INFORMATION** section for electronic access to the draft guidance document.

FOR FURTHER INFORMATION CONTACT: Steven Fleischer, Center for Veterinary Medicine (HFV–110), Food and Drug Administration, 7500 Standish Pl., Rockville, MD 20850, 240–402–0809, *steven.fleischer@fda.hhs.gov.*

SUPPLEMENTARY INFORMATION:

I. Background

FDA is announcing the availability of a draft guidance for industry #287 entitled ''Raw Data for Safety and Effectiveness Studies.'' The purpose of this guidance is to provide recommendations to sponsors on submission of raw data. In addition, this guidance discusses how CVM uses the raw data during review of new animal drug applications and how the raw data allow CVM to have confidence in the information used to make regulatory decisions.

This level 1 draft guidance is being issued consistent with FDA's good guidance practices regulation (21 CFR 10.115). The draft guidance, when finalized, will represent the current thinking of FDA on ''Raw Data for Safety and Effectiveness Studies.'' It does not establish any rights for any person and is not binding on FDA or the public. You can use an alternative approach if it satisfies the requirements of the applicable statutes and regulations.

II. Paperwork Reduction Act of 1995

While this guidance contains no collection of information, it does refer to previously approved FDA collections of information. The previously approved collections of information are subject to review by the Office of Management and Budget (OMB) under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3521). The collections of information in 21 CFR part 514 have been approved under OMB control number 0910–0032.

III. Electronic Access

Persons with access to the internet may obtain the draft guidance at *https://www.fda.gov/animal-veterinary/guidance-regulations/guidance-industry, https://www.fda.gov/regulatory-information/search-fda-guidance-documents,* or *https://www.regulations.gov.*

DEPARTMENT OF HEALTH AND HUMAN SERVICES

National Institutes of Health

National Eye Institute; Notice of Partially Closed Meeting

Pursuant to section 1009 of the Federal Advisory Committee Act, as amended, notice is hereby given of a meeting of the National Advisory Eye Council.

The meeting will be open to the public as indicated below, with attendance limited to space available. Individuals who plan to attend as well as those who need special assistance, such as sign language interpretation or other reasonable accommodation, must notify the Contact Person listed below in advance of the meeting. The open session will be videocast and can be accessed from the NIH Videocasting and Podcasting website (*https://videocast.nih.gov/watch=54718*).

The meeting will be closed to the public in accordance with the provisions set forth in sections 552b(c)(4) and 552b(c)(6), title 5 U.S.C., as amended. The intramural programs and projects as well as the grant applications and/or contract proposals and the discussions could disclose confidential trade secrets or commercial property such as patentable material, and personal information concerning individuals associated with the grant applications and/or contract proposals, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

Name of Committee: National Advisory Eye Council.

Date: June 7, 2024.

Open: 8:00 a.m. to 3:00 p.m.

Agenda: Presentation of the NEI Director's report, discussion of NEI programs, and concept clearances.

Place: National Eye Institute, 1st Floor, Room A/B/C, 6700B Rockledge Drive, Bethesda, MD 20892 (In-Person Meeting).

Closed: 3:00 p.m. to 5:00 p.m.

Agenda: To review and evaluate grant applications and/or proposals

Place: National Eye Institute, 1st Floor, Room A/B/C, 6700B Rockledge Drive, Bethesda, MD 20892 (In-Person Meeting).

Contact Person: Kathleen C. Anderson, Ph.D., Director, Division of Extramural Activities, 6700B Rockledge Drive, Room 3440, Bethesda, MD 20892, (301) 451–2020, *kanders1@nei.nih.gov.*

Any interested person may file written comments with the committee by forwarding the statement to the contact person listed above before the meeting or within 15 days after the meeting. The statement should include the name, address, telephone number and when applicable, the business or professional affiliation of the interested person.

In the interest of security, NIH has procedures at *https://www.nih.gov/about-nih/visitor-information/campus-access-security* for entrance into on-campus and off-campus facilities. All visitor vehicles, including taxicabs, hotel, and airport shuttles will be inspected before being allowed on campus. Visitors attending a meeting on campus or at an off-campus federal facility will be asked to show one form of identification (for example, a government-issued photo ID, driver's license, or passport) and to state the purpose of their visit.

Information is also available on the Institute's/Center's home page: *https://www.nei.nih.gov/about/advisory-committees/national-advisory-eye-council-naec,* where an agenda and any additional information for the meeting will be posted when available.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Substance Abuse and Mental Health Services Administration

Notice of Meeting

Pursuant to Public Law 92–463, notice is hereby given that the Substance Abuse and Mental Health Services Administration's (SAMHSA) Center for Substance Abuse Prevention's (CSAP) Drug Testing Advisory Board (DTAB) will convene in open session in person and via web conference on June 4th, 2024, from 10:00 a.m. EST to 5:00 p.m. EST and in closed session on June 5th, 2024 from 9:00 a.m. EST to 12:00 p.m. EST.

The board will meet in open-session June 4, 2024, from 10:00 a.m. EST to 5:00 p.m. EST to discuss the Mandatory Guidelines for Federal Workplace Drug Testing Programs, hear updates from the Nuclear Regulatory Commission, and discuss the availability of FDA 510(k) cleared assays and urine verses oral fluid prevalence data and specimen

validity and biomarker testing. Presentations include one by Faye Caldwell on industry moving parts pertaining to Oral Fluid implementation and another by Dr. Edward Cone regarding Johns Hopkins University study updates.

The board will meet in closed session on June 5, 2024, from 9:00 a.m. EST to 12:00 p.m. EST to discuss specimen validity testing data, challenges to Oral Fluid testing and the status of the Hair Mandatory Guidelines. All of these topics require input and discussion from Board Members as to the next steps of Federal Workplace Drug Testing. The DTAB meeting on June 5, 2024, from 9:00 a.m. EST to 12:00 p.m. EST, is closed to the public, as determined by the Assistant Secretary for Mental Health and Substance Use, SAMHSA, in accordance with 5 U.S.C. 552b(c)(9)(B) and 5 U.S.C. App. 2, Section 10(d).

Meeting registration information can be completed at *https://snacregister.samhsa.gov/.* Web conference and call information will be sent after completing registration. Meeting information and a roster of DTAB members may be obtained by accessing the SAMHSA Advisory Committees website, *https://www.samhsa.gov/about-us/advisory-councils/meetings,* or by contacting the Designated Federal Officer, Lisa Davis.

Committee Name: Substance Abuse and Mental Health Services Administration Center for Substance Abuse Prevention Drug Testing Advisory Board.

Dates/Time/Type: June 4, 2024, from 10:00 a.m. EST to 5:00 p.m. EST: OPEN; June 5, 2024, from 9:00 a.m. EST to 12:00 p.m. EST: CLOSED.

Place: Substance Abuse and Mental Health Services Administration, 5600 Fishers Lane, Rockville, MD 20857.

To Submit Comments: Please send comments in writing at least 7 days prior to the meeting to the to the following email: *DFWP@samhsa.hhs.gov.*

BILLING CODE 4162–20–P

DEPARTMENT OF HOMELAND SECURITY

Federal Emergency Management Agency

[Docket ID FEMA–2024–0002; Internal Agency Docket No. FEMA–B–2430]

Proposed Flood Hazard Determinations

AGENCY: Federal Emergency Management Agency, Department of Homeland Security.

ACTION: Notice.

SUMMARY: Comments are requested on proposed flood hazard determinations, which may include additions or modifications of any Base Flood Elevation (BFE), base flood depth, Special Flood Hazard Area (SFHA) boundary or zone designation, or regulatory floodway on the Flood Insurance Rate Maps (FIRMs), and where applicable, in the supporting Flood Insurance Study (FIS) reports for the communities listed in the table below. The purpose of this notice is to seek general information and comment regarding the preliminary FIRM, and where applicable, the FIS report that the Federal Emergency Management Agency (FEMA) has provided to the affected communities. The FIRM and FIS report are the basis of the floodplain management measures that the community is required either to adopt or to show evidence of having in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

DATES: Comments are to be submitted on or before July 29, 2024.

ADDRESSES: The Preliminary FIRM, and where applicable, the FIS report for each community are available for inspection at both the online location *https://hazards.fema.gov/femaportal/prelimdownload* and the respective Community Map Repository address listed in the tables below. Additionally, the current effective FIRM and FIS report for each community are accessible online through the FEMA Map Service Center at *https://msc.fema.gov* for comparison.

You may submit comments, identified by Docket No. FEMA–B–2430, to Rick Sacbibit, Chief, Engineering Services Branch, Federal Insurance and Mitigation Administration, FEMA, 400 C Street SW, Washington, DC 20472, (202) 646–7659, or (email) *patrick.sacbibit@fema.dhs.gov.*

FOR FURTHER INFORMATION CONTACT: Rick Sacbibit, Chief, Engineering Services Branch, Federal Insurance and Mitigation Administration, FEMA, 400 C Street SW, Washington, DC 20472, (202) 646–7659, or (email) *patrick.sacbibit@fema.dhs.gov;* or visit the FEMA Mapping and Insurance eXchange (FMIX) online at *https://www.floodmaps.fema.gov/fhm/fmx_main.html.*

SUPPLEMENTARY INFORMATION: FEMA proposes to make flood hazard determinations for each community listed below, in accordance with section 110 of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4104, and 44 CFR 67.4(a).

These proposed flood hazard determinations, together with the floodplain management criteria required by 44 CFR 60.3, are the minimum that are required. They should not be construed to mean that the community must change any existing ordinances that are more stringent in their floodplain management requirements. The community may at any time enact stricter requirements of its own or pursuant to policies established by other Federal, State, or regional entities. These flood hazard determinations are used to meet the floodplain management requirements of the NFIP.

The communities affected by the flood hazard determinations are provided in the tables below. Any request for reconsideration of the revised flood hazard information shown on the Preliminary FIRM and FIS report that satisfies the data requirements outlined in 44 CFR 67.6(b) is considered an appeal. Comments unrelated to the flood hazard determinations also will be considered before the FIRM and FIS report become effective.

Use of a Scientific Resolution Panel (SRP) is available to communities in support of the appeal resolution process. SRPs are independent panels of experts in hydrology, hydraulics, and other pertinent sciences established to review conflicting scientific and technical data and provide recommendations for resolution. Use of the SRP only may be exercised after FEMA and local communities have been engaged in a collaborative consultation process for at least 60 days without a mutually acceptable resolution of an appeal. Additional information regarding the SRP process can be found online at *https://www.floodsrp.org/pdfs/srp_overview.pdf.*

The watersheds and/or communities affected are listed in the tables below. The Preliminary FIRM, and where applicable, FIS report for each community are available for inspection at both the online location *https://hazards.fema.gov/femaportal/*

prelimdownload and the respective Community Map Repository address listed in the tables. For communities with multiple ongoing Preliminary studies, the studies can be identified by the unique project number and Preliminary FIRM date listed in the tables. Additionally, the current effective FIRM and FIS report for each community are accessible online through the FEMA Map Service Center at *https://msc.fema.gov* for comparison.

DEPARTMENT OF HOMELAND SECURITY

Federal Emergency Management Agency

[Docket ID FEMA–2024–0002; Internal Agency Docket No. FEMA–B–2432]

Proposed Flood Hazard Determinations

AGENCY: Federal Emergency Management Agency, Department of Homeland Security.

ACTION: Notice.

SUMMARY: Comments are requested on proposed flood hazard determinations, which may include additions or modifications of any Base Flood Elevation (BFE), base flood depth, Special Flood Hazard Area (SFHA) boundary or zone designation, or regulatory floodway on the Flood Insurance Rate Maps (FIRMs), and where applicable, in the supporting Flood Insurance Study (FIS) reports for the communities listed in the table below. The purpose of this notice is to seek general information and comment regarding the preliminary FIRM, and where applicable, the FIS report that the Federal Emergency Management Agency (FEMA) has provided to the affected communities. The FIRM and FIS report are the basis of the floodplain management measures that the community is required either to adopt or to show evidence of having in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

DATES: Comments are to be submitted on or before July 29, 2024.

ADDRESSES: The Preliminary FIRM, and where applicable, the FIS report for each community are available for inspection at both the online location *https://hazards.fema.gov/femaportal/prelimdownload* and the respective Community Map Repository address listed in the tables below. Additionally, the current effective FIRM and FIS report for each community are accessible online through the FEMA Map Service Center at *https://msc.fema.gov* for comparison.

You may submit comments, identified by Docket No. FEMA–B–2432, to Rick Sacbibit, Chief, Engineering Services Branch, Federal Insurance and Mitigation Administration, FEMA, 400 C Street SW, Washington, DC 20472, (202) 646–7659, or (email) *patrick.sacbibit@fema.dhs.gov.*

FOR FURTHER INFORMATION CONTACT: Rick Sacbibit, Chief, Engineering Services Branch, Federal Insurance and Mitigation Administration, FEMA, 400 C Street SW, Washington, DC 20472, (202) 646–7659, or (email) *patrick.sacbibit@fema.dhs.gov;* or visit the FEMA Mapping and Insurance eXchange (FMIX) online at *https://www.floodmaps.fema.gov/fhm/fmx_main.html.*

SUPPLEMENTARY INFORMATION: FEMA proposes to make flood hazard determinations for each community listed below, in accordance with section 110 of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4104, and 44 CFR 67.4(a).

These proposed flood hazard determinations, together with the floodplain management criteria required by 44 CFR 60.3, are the minimum that are required. They should not be construed to mean that the community must change any existing ordinances that are more stringent in their floodplain management requirements. The community may at any time enact stricter requirements of its own or pursuant to policies established by other Federal, State, or regional entities. These flood hazard determinations are used to meet the floodplain management requirements of the NFIP.

The communities affected by the flood hazard determinations are provided in the tables below. Any request for reconsideration of the revised flood hazard information shown on the Preliminary FIRM and FIS report that satisfies the data requirements outlined in 44 CFR 67.6(b) is considered an appeal. Comments unrelated to the flood hazard determinations also will be considered before the FIRM and FIS report become effective.

Use of a Scientific Resolution Panel (SRP) is available to communities in

support of the appeal resolution process. SRPs are independent panels of experts in hydrology, hydraulics, and other pertinent sciences established to review conflicting scientific and technical data and provide recommendations for resolution. Use of the SRP only may be exercised after FEMA and local communities have been engaged in a collaborative consultation process for at least 60 days without a mutually acceptable resolution of an appeal. Additional information regarding the SRP process can be found online at *https://www.floodsrp.org/pdfs/srp_overview.pdf.*

The watersheds and/or communities affected are listed in the tables below. The Preliminary FIRM, and where applicable, FIS report for each community are available for inspection at both the online location *https://hazards.fema.gov/femaportal/prelimdownload* and the respective Community Map Repository address listed in the tables. For communities with multiple ongoing Preliminary studies, the studies can be identified by the unique project number and Preliminary FIRM date listed in the tables. Additionally, the current effective FIRM and FIS report for each community are accessible online through the FEMA Map Service Center at *https://msc.fema.gov* for comparison.

BILLING CODE 9110–12–P

DEPARTMENT OF HOMELAND SECURITY

Federal Emergency Management Agency

[Docket ID FEMA–2024–0002]

Changes in Flood Hazard Determinations

AGENCY: Federal Emergency Management Agency, Department of Homeland Security.

ACTION: Notice.

SUMMARY: New or modified Base (1-percent annual chance) Flood Elevations (BFEs), base flood depths, Special Flood Hazard Area (SFHA) boundaries or zone designations, and/or regulatory floodways (hereinafter referred to as flood hazard determinations) as shown on the indicated Letter of Map Revision (LOMR) for each of the communities listed in the table below are finalized. Each LOMR revises the Flood Insurance Rate Maps (FIRMs), and in some cases the Flood Insurance Study (FIS) reports, currently in effect for the listed communities.

DATES: Each LOMR was finalized as in the table below.

ADDRESSES: Each LOMR is available for inspection at both the respective Community Map Repository address listed in the table below and online through the FEMA Map Service Center at *https://msc.fema.gov.*

FOR FURTHER INFORMATION CONTACT: Rick Sacbibit, Chief, Engineering Services Branch, Federal Insurance and Mitigation Administration, FEMA, 400 C Street SW, Washington, DC 20472, (202) 646–7659, or (email) *patrick.sacbibit@fema.dhs.gov;* or visit the FEMA Mapping and Insurance eXchange (FMIX) online at *https://www.floodmaps.fema.gov/fhm/fmx_main.html.*

SUPPLEMENTARY INFORMATION: The Federal Emergency Management Agency (FEMA) makes the final flood hazard determinations as shown in the LOMRs for each community listed in the table below. Notice of these modified flood hazard determinations has been published in newspapers of local circulation and 90 days have elapsed since that publication. The Deputy Associate Administrator for Insurance and Mitigation has resolved any appeals resulting from this notification.

The modified flood hazard determinations are made pursuant to section 206 of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4105, and are in accordance with the National Flood Insurance Act of 1968, 42 U.S.C.

4001 *et seq.,* and with 44 CFR part 65. The currently effective community number is shown and must be used for all new policies and renewals.

The new or modified flood hazard information is the basis for the floodplain management measures that the community is required either to adopt or to show evidence of being already in effect in order to remain qualified for participation in the National Flood Insurance Program (NFIP).

This new or modified flood hazard information, together with the floodplain management criteria required by 44 CFR 60.3, are the minimum that are required. They should not be construed to mean that the community must change any existing ordinances that are more stringent in their floodplain management requirements. The community may at any time enact stricter requirements of its own or pursuant to policies established by other Federal, State, or regional entities.

This new or modified flood hazard determinations are used to meet the floodplain management requirements of the NFIP. The changes in flood hazard determinations are in accordance with 44 CFR 65.4.

Interested lessees and owners of real property are encouraged to review the final flood hazard information available at the address cited below for each community or online through the FEMA Map Service Center at *https://msc.fema.gov.*

BILLING CODE 9110–12–P

DEPARTMENT OF HOMELAND SECURITY

[Docket No. DHS–2023–0049]

Establishment of the Artificial Intelligence Safety and Security Board

AGENCY: Office of the Secretary, Department of Homeland Security (DHS).

ACTION: Notice of the establishment of the Artificial Intelligence Safety and Security Board.

SUMMARY: Pursuant to Executive Order (E.O.) 14110, *Safe, Secure, and Trustworthy Development and Use of Artificial Intelligence,* dated October 30, 2023, the Department of Homeland Security, through the Office of Partnership and Engagement, has established the Artificial Intelligence Safety and Security Board (the Board). The Board will provide the Secretary of Homeland Security (hereinafter referred to as ''the Secretary'') information, advice, and recommendations to advance the security and resilience of our nation's critical infrastructure in its use of artificial intelligence (AI). This Notice is not a solicitation for membership.

FOR FURTHER INFORMATION CONTACT: Matthew F. Ferraro, U.S. Department of Homeland Security at *AIBoard@hq.dhs.gov* or 202–930–0595.

SUPPLEMENTARY INFORMATION: The scope of the Board's activities can include, but need not be limited to, information about emergent risks, threat mitigation guidance, and guardrails for critical infrastructure owners' and operators' use of AI. The Secretary established the Board pursuant to subsection 4.3(a)(v) of Executive Order (E.O.) 14110, *Safe, Secure, and Trustworthy Development and Use of Artificial Intelligence,* dated October 30, 2023, and section 871(a) of the Homeland Security Act of 2002, 6 United States Code (U.S.C.) 451(a). In recognition of the sensitive nature of the subject matter involved, the Secretary exempted the Board from The Federal Advisory Committee Act (FACA), 5 U.S.C. ch. 10. This notice is being provided in accordance with 6 U.S.C. 451(a).

The primary purpose of the Board shall be to provide the Secretary information, advice, and recommendations to advance the security and resilience of our nation's critical infrastructure in its use of artificial intelligence (AI). The Board's advice and recommendations are to be specific, actionable, timely, and strategic, and targeted to mitigate emerging risks to critical infrastructure from its use.

The duties of the Board are solely advisory in nature and shall extend only to the submission of information, advice, and recommendations to the Secretary. In recognition of the sensitive nature of the subject matter involved, the Secretary exempted the Board from *The Federal Advisory Committee Act* (FACA), 5 U.S.C. ch. 10.

Membership: The Board shall consist of no more than thirty-five (35) Representative Members and the Secretary. The Secretary shall Chair the Board and shall select a Vice Chair. The Secretary shall be a non-voting member of the Board.

The Chair shall lead Board meetings and provide strategic leadership and direction for the Board discussions and activities. The term of office of the Vice Chair shall be two years. The Vice Chair may be reappointed by the Secretary, not to exceed two additional terms. If the Vice Chair is not able to serve for an entire term, the Secretary shall make a new appointment.

The Board Members shall be appointed by and serve at the pleasure of the Secretary. Members shall serve a term of two years, with opportunities to be reappointed for up to two additional terms.

In order for the Secretary to fully leverage broad-ranging experience and education, the Board shall be diverse with regard to professional and technical expertise. DHS is committed to pursuing opportunities, consistent with applicable law, to compose a Board that reflects the diversity of the AI community. In accordance with E.O. 14110, the Board shall include AI experts from the private sector, academia, and government, as appropriate.

Board Members shall be comprised of Representative Members only. Members shall not serve as Special Government Employees as defined in 18 U.S.C. 202(a). The DHS Office of Partnership and Engagement shall ensure that the Board reflects a balanced membership and includes a cross-section of Members having an interest in the duties and authorities of DHS. Appointments shall be made without regard to political affiliation. In the event the Board is terminated, all appointments to the Board shall terminate automatically.

Duration: The Secretary may extend the Board every two years as the Secretary deems appropriate, pursuant to 6 U.S.C. 451.

Michael J. Miron,

Committee Management Officer, Department of Homeland Security.

[FR Doc. 2024–09132 Filed 4–26–24; 8:45 am]

BILLING CODE 9112–FN–P

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

[FWS–R1–ES–2024–N021; FXES11130100000–245–FF01E00000]

Endangered Species; Receipt of Recovery Permit Applications

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of receipt of permit applications; request for comments.

SUMMARY: We, the U.S. Fish and Wildlife Service, have received applications for permits to conduct activities intended to enhance the propagation and survival of endangered species under the Endangered Species Act. We invite the public and local, State, Tribal, and Federal agencies to comment on these applications. Before issuing the requested permits, we will take into consideration any information that we receive during the public comment period.

DATES: We must receive your written comments on or before May 29, 2024.

ADDRESSES: *Document availability and comment submission:* Submit a request for a copy of the application and related documents and submit any comments by one of the following methods. All requests and comments should specify the applicant name and application number (*e.g.,* Dana Ross, ES001705):

- *Email: permitsR1ES@fws.gov.*
- *U.S. Mail:* Marilet Zablan, Regional Program Manager, Restoration and Endangered Species Classification, Ecological Services, U.S. Fish and Wildlife Service, Pacific Regional Office, 911 NE 11th Avenue, Portland, OR 97232–4181.

FOR FURTHER INFORMATION CONTACT: Karen Colson, Regional Recovery Permit Coordinator, Ecological Services, (503) 231–6283 (telephone); *permitsR1ES@fws.gov* (email). Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services. Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States.

SUPPLEMENTARY INFORMATION: We, the U.S. Fish and Wildlife Service, invite the public to comment on applications for permits under section 10(a)(1)(A) of the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*). The requested permits would allow the applicants to conduct activities intended to promote recovery of species that are listed as endangered under the ESA.

Background

With some exceptions, the ESA prohibits activities that constitute take of listed species unless a Federal permit is issued that allows such activity. The ESA's definition of ''take'' includes such activities as pursuing, harassing, trapping, capturing, or collecting, in addition to hunting, shooting, harming, wounding, or killing.

A recovery permit issued by us under section 10(a)(1)(A) of the ESA authorizes the permittee to conduct activities with endangered or threatened species for scientific purposes that promote recovery or for enhancement of propagation or survival of the species. These activities often include such prohibited actions as capture and collection. Our regulations implementing section 10(a)(1)(A) for these permits are found in the Code of Federal Regulations (CFR) at 50 CFR 17.22 for endangered wildlife species, 50 CFR 17.32 for threatened wildlife species, 50 CFR 17.62 for endangered plant species, and 50 CFR 17.72 for threatened plant species.

Permit Applications Available for Review and Comment

Proposed activities in the following permit requests are for the recovery and enhancement of propagation or survival of the species in the wild. The ESA requires that we invite public comment before issuing these permits. Accordingly, we invite local, State, Tribal, and Federal agencies and the public to submit written data, views, or arguments with respect to these applications. The comments and recommendations that will be most useful and likely to influence agency decisions are those supported by quantitative information or studies.

Application No.	Applicant, city, state	Species	Location	Take activity	Permit action
ES35731D–2	Lanai Resorts, LLC, HI	'Akēakē or band-rumped storm petrel (*Hydrobates castro;* formerly *Oceanodroma castro*).	Hawai'i	Harass by social attraction	Amend.
		'A'o or Newell's shearwater (*Puffinus newelli*).	Hawai'i	Harass by monitor burrows; acoustic monitoring; social attraction; and salvage.	
PER8355167	Hawaiian Islands Conservation Collective, HI.	Hawaiian common gallinule ('Alae 'ula—*Gallinula galeata sandvicensis*), Hawaiian coot ('Alae ke'o ke';o—*Fulica alai*), and Hawaiian stilt (Ae'o—*Himantopus mexicanus knudseni*).	All Hawaiian Islands.	Harass by survey; capture, handle, measure, weigh, band, attach transmitters, and biosample; monitor nests using cameras; and candling and floating of waterbird eggs.	New.
ES829250–11	Hawaii Wildlife Fund, HI	Hawksbill sea turtle (*Eretmochelys imbricata*); Olive ridley sea turtle (*Lepidochelys olivacea*).	Hawai'i	Harass by survey, monitor nests, capture, handle, tag, biosample, attach transmitters, photograph, place temperature data loggers in nests, excavate hatched nests, relocate nests (hawksbill sea turtles only), and salvage.	Renew.
PER1353215–1	Clare Aslan, Northern Arizona University, AZ.	No common name (NCN) (*Stenogyne angustifolia*), honohono (*Haplostachys haplostachya*), NCN (*Silene lanceolata*), po1e (*Portulaca sclerocarpa*), a1e (*Zanthoxylum hawaiiense*), NCN (*Festuca hawaiiensis*), heau (*Exocarpos menziesii*).	Hawai'i	Remove/reduce to possession by leaf collection.	Amend.
PER9215089	On Sacred Ground, WA	Island marble butterfly (*Euchloe ausonides insulanus*).	Washington	Harass by collection/capture, handle, captively propagate, release, salvage, and emergency relocate.	New.

Public Availability of Comments

Written comments we receive become part of the administrative record associated with this action. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can request in your comment that we withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so. All submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, will be made available for public disclosure in their entirety.

Next Steps

If we decide to issue a permit to the applicant listed in this notice, we will publish a notice in the **Federal Register**.

Authority

We publish this notice under section 10(c) of the Endangered Species Act of

1973, as amended (16 U.S.C. 1531 *et seq.*).

Marilet A. Zablan,

Regional Program Manager for Restoration and Endangered Species Classification, Pacific Region.

Endangered and Threatened Species; Receipt of Recovery Permit Applications

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of receipt of permit applications; request for comments.

SUMMARY: We, the U.S. Fish and Wildlife Service, have received applications for permits to conduct activities intended to enhance the propagation or survival of endangered or threatened species under the Endangered Species Act. We invite the public and local, State, Tribal, and Federal agencies to comment on these applications. Before issuing any of the requested permits, we will take into consideration any information that we receive during the public comment period.

DATES: We must receive your written comments on or before May 29, 2024.

ADDRESSES:

Document availability and comment submission: Submit requests for copies of the applications and related documents, as well as any comments, by one of the following methods. All requests and comments should specify the applicant name(s) and application number(s) (*e.g.,* ESXXXXXX; see table in **SUPPLEMENTARY INFORMATION**):

- *Email (preferred method): permitsR3ES@fws.gov.* Please refer to the respective application number (*e.g.,* Application No. ESXXXXXX) in the subject line of your email message.
- *U.S. Mail:* Regional Director, Attn: Nathan Rathbun, U.S. Fish and Wildlife Service, Ecological Services, 5600 American Blvd. West, Suite 990, Bloomington, MN 55437–1458.

FOR FURTHER INFORMATION CONTACT: Nathan Rathbun, 612–713–5343 (phone); *permitsR3ES@fws.gov* (email). Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services. Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States.

SUPPLEMENTARY INFORMATION: We, the U.S. Fish and Wildlife Service, invite review and comment from the public and local, State, Tribal, and Federal agencies on applications we have received for permits to conduct certain activities with endangered and threatened species under section 10(a)(1)(A) of the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*), and our regulations in the Code of Federal Regulations (CFR) at 50 CFR part 17. Documents and other information submitted with the applications are available for review, subject to the requirements of the Privacy Act and the Freedom of Information Act.

Background

The ESA prohibits certain activities with endangered and threatened species unless authorized by a Federal permit. The ESA and our implementing regulations in part 17 of title 50 of the Code of Federal Regulations (CFR) provide for the issuance of such permits and require that we invite public comment before issuing permits for activities involving endangered species.

A recovery permit issued by us under section 10(a)(1)(A) of the ESA authorizes the permittee to conduct activities with endangered species for scientific purposes that promote recovery or for enhancement of propagation or survival of the species. Our regulations implementing section 10(a)(1)(A) for these permits are found at 50 CFR 17.22 for endangered wildlife species, 50 CFR 17.32 for threatened wildlife species, 50 CFR 17.62 for endangered plant species, and 50 CFR 17.72 for threatened plant species.

Permit Applications Available for Review and Comment

The ESA requires that we invite public comment before issuing these permits. Accordingly, we invite local, State, Tribal, and Federal agencies and the public to submit written data, views, or arguments with respect to these applications. Endangered and Threatened Species; Receipt of Recovery Permit Applications

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of receipt of permit applications; request for comments.

SUMMARY: We, the U.S. Fish and Wildlife Service, have received applications for permits to conduct activities intended to enhance the propagation or survival of endangered or threatened species under the Endangered Species Act. We invite the public and local, State, Tribal, and Federal agencies to comment on these applications. Before issuing any of the requested permits, we will take into consideration any information that we receive during the public comment period.

DATES: We must receive your written comments on or before May 29, 2024.

ADDRESSES:

Document availability and comment submission: Submit requests for copies of the applications and related documents and submit any comments by one of the following methods. All requests and comments should specify the applicant name(s) and application number(s) (*e.g.,* XXXXXX or PER0001234).

- *Email: permitsR8ES@fws.gov.*
- *U.S. Mail:* Susie Tharratt, Regional Recovery Permit Coordinator, U.S. Fish and Wildlife Service, 2800 Cottage Way, Room W–2606, Sacramento, CA 95825.

FOR FURTHER INFORMATION CONTACT: Susie Tharratt, via phone at 916–414–6561, or via email at *permitsR8ES@fws.gov*. Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services. Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States.

SUPPLEMENTARY INFORMATION: We, the U.S. Fish and Wildlife Service, invite the public to comment on applications for permits under section 10(a)(1)(A) of the Endangered Species Act, as amended (ESA; 16 U.S.C. 1531 *et seq.*). The requested permits would allow the applicants to conduct activities intended to promote recovery of species that are listed as endangered or threatened under the ESA.

Background

With some exceptions, the ESA prohibits activities that constitute take of listed species unless a Federal permit is issued that allows such activity. The ESA's definition of ''take'' includes such activities as pursuing, harassing, trapping, capturing, or collecting, in addition to hunting, shooting, harming, wounding, or killing.

A recovery permit issued by us under section 10(a)(1)(A) of the ESA authorizes the permittee to conduct activities with endangered or threatened species for scientific purposes that promote recovery or for enhancement of propagation or survival of the species. These activities often include such prohibited actions as capture and collection. Our regulations implementing section 10(a)(1)(A) for these permits are found in the Code of Federal Regulations at 50 CFR 17.22 for endangered wildlife species, 50 CFR 17.32 for threatened wildlife species, 50 CFR 17.62 for endangered plant species, and 50 CFR 17.72 for threatened plant species.

Permit Applications Available for Review and Comment

Proposed activities in the following permit requests are for the recovery and enhancement of propagation or survival of species in the wild. The ESA requires that we invite public comment before issuing these permits. Accordingly, we invite local, State, Tribal, and Federal agencies and the public to submit written data, views, or arguments with respect to these applications. The comments and recommendations that will be most useful and likely to influence agency decisions are those supported by quantitative information or studies.

Public Availability of Comments

Written comments we receive become part of the administrative record associated with this action. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can request in your comment that we withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so. All submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of be made available for public disclosure in their entirety.

Next Steps

If we decide to issue permits to any of the applicants listed in this notice, we will publish a notice in the **Federal Register**.

Authority

We publish this notice under section 10(c) of the Endangered Species Act of 1973, as amended (16 U.S.C. 1531 *et seq.*).

Rachel Henry,

Acting Regional Ecological Services Program Manager, Pacific Southwest Region, Sacramento, California.

Fish and Wildlife Service

[Docket No. FWS–R3–ES–2023–0249; FXES11140300000–245–FF03E00000]

Receipt of Incidental Take Permit Application and Proposed Habitat Conservation Plan for the Prosperity Wind Project, Piatt County, IL; Categorical Exclusion

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of availability of documents; request for comment and information.

SUMMARY: We, the U.S. Fish and Wildlife Service, have received an application from Prosperity Wind LLC (applicant), for an incidental take permit (ITP) under the Endangered Species Act, for its Prosperity Wind Project (project). If approved, the ITP would be for a 6-year period and would authorize the incidental take of two endangered species, the Indiana bat and the northern long-eared bat, and one species proposed as endangered, the tricolored bat. The applicant has prepared a proposed habitat conservation plan (HCP) in support of the application. We request public comment on the application, which includes the applicant's HCP, and on the Service's preliminary determination that the proposed permitting action may be eligible for a categorical exclusion pursuant to the Council on Environmental Quality's National Environmental Policy Act (NEPA) regulations, the Department of the Interior's (DOI) NEPA regulations, and the DOI Departmental Manual. To make this preliminary determination, we prepared a draft environmental action statement and low-effect screening form, both of which are also available for public review. We invite comment from the public and local, State, Tribal, and Federal agencies.

DATES: We must receive your written comments on or before May 29, 2024.

ADDRESSES:

Obtaining Documents: The documents this notice announces, as well as any comments and other materials that we receive, will be available for public inspection online in Docket No. FWS–R3–ES–2023–0249 at *https://www.regulations.gov.*

Submitting Comments: If you wish to submit comments on any of the documents, you may do so in writing by one of the following methods:

- *Online: https://www.regulations.gov.* Follow the instructions for submitting comments on Docket No. FWS–R3–ES–2023–0249.
- *U.S. mail:* Public Comments Processing, Attn: Docket No. FWS–R3–ES–2023–0249; U.S. Fish and Wildlife Service; 5275 Leesburg Pike, MS: PRB/3W; Falls Church, VA 22041–3803.

FOR FURTHER INFORMATION CONTACT: Kraig McPeek, Field Supervisor, Illinois-Iowa Ecological Services Field Office, by email at *kraig_mcpeek@fws.gov* or by telephone at 309–757–5800, extension 202; or Andrew Horton, Regional HCP Coordinator, by email at *andrew_horton@fws.gov* or by telephone at 612–713–5337. Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services. Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States.

SUPPLEMENTARY INFORMATION: We, the U.S. Fish and Wildlife Service (Service), have received an application from Prosperity Wind LLC (applicant) for a 6-year incidental take permit (ITP) under the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*). The applicant requests the ITP to take the Indiana bat (*Myotis sodalis*) and northern long-eared bat (*Myotis septentrionalis*), both federally listed as endangered, and the tricolored bat (*Perimyotis subflavus*), which has been proposed for listing as endangered. Take would be incidental to the operation of 50 wind turbines with a total generating capacity of 300 megawatts (MW) at the Prosperity Wind Project in Piatt County, Illinois. While the ITP would be for 6 years, the operational life of most new wind energy facilities is 30 years; therefore, intensive monitoring conducted during the 6-year permit term would inform the need for future avoidance or a future new or revised long-term ITP for the remaining life of the project that would comply with a new NEPA analysis and habitat conservation plan (HCP). The applicant has prepared an HCP that describes the actions and measures that the applicant would implement to avoid, minimize, and mitigate incidental take of the covered species for the first 6 years.

We request public comment on the application, which includes the applicant's proposed HCP, and on the Service's preliminary determination that this HCP qualifies as ''low effect,'' and may qualify for a categorical exclusion pursuant to the Council on Environmental Quality's National Environmental Policy Act (NEPA) regulations (40 CFR 1501.4), the Department of the Interior's (DOI) NEPA regulations (43 CFR 46), and the DOI's Departmental Manual (516 DM 8.5(C)(2)). To make this preliminary determination, we prepared a draft environmental action statement and low-effect screening form, both of which are also available for public review.

Background

Section 9 of the ESA and its implementing regulations prohibit the ''take'' of animal species listed as endangered or threatened. Take is defined under the ESA as to ''harass, harm, pursue, hunt, shoot, wound, kill, trap, capture, or collect [listed animal species], or to attempt to engage in any such conduct'' (16 U.S.C. 1532). However, under section 10(a) of the ESA, we may issue permits to authorize incidental take of listed species. ''Incidental take'' is defined by the ESA as take that is incidental to, and not the purpose of, carrying out an otherwise lawful activity (16 U.S.C. 1539). Regulations governing incidental take permits for endangered and threatened species, respectively, are found in the Code of Federal Regulations (CFR) at 50 CFR 17.22 and 50 CFR 17.32.

Applicant's Proposed Project

The applicant requests a 6-year ITP to take the federally endangered Indiana bat (*Myotis sodalis*), federally endangered northern long-eared bat (*Myotis septentrionalis*), and the proposed endangered tricolored bat (*Perimyotis subflavus*). The applicant determined that take is reasonably certain to occur incidental to operation of 50 previously constructed wind turbines in Piatt County, Illinois, covering approximately 9,623 hectares (23,779 acres) of private land. The proposed conservation strategy in the applicant's proposed HCP is designed to avoid, minimize, and mitigate the impacts of the covered activity on the covered species. The biological goals and objectives are to minimize potential take of the three covered bat species through on-site minimization measures and to provide habitat conservation measures to offset any impacts from project operations. The HCP provides on-site avoidance and minimization measures, which include turbine operational adjustments. The authorized level of take from the project is 18 Indiana bats, 2 northern long-eared bats and 18 tricolored bats over the 6-year permit duration. To offset the impacts of the taking of the species, the applicant will implement one or more of the following mitigation options:

- Purchase credits from an approved conservation bank;
- Contribute to an in-lieu fee mitigation fund;
- Implement a permittee-responsible mitigation project; or
- Contribute to a white-nose syndrome treatment fund.

National Environmental Policy Act

The issuance of an ITP is a Federal action that triggers the need for compliance with NEPA. The Service has made a preliminary determination that the applicant's proposed project, and the proposed mitigation measures, would individually and cumulatively have a minor effect on the covered species and the human environment. Therefore, we have preliminarily determined that the proposed ESA section 10(a)(1)(B) permit would be a low-effect ITP that individually or cumulatively would have a minor effect on the species and may qualify for application of a categorical exclusion pursuant to the Council on Environmental Quality's NEPA regulations, DOI's NEPA regulations, and the DOI Departmental Manual. A low-effect ITP is one that would result in (1) minor or nonsignificant effects on species covered in the HCP; (2) nonsignificant effects on the human environment; and (3) impacts that, when added together with the impacts of other past, present, and reasonably foreseeable actions, would not result in significant cumulative effects to the human environment.

Next Steps

The Service will evaluate the application and the comments received to determine whether to issue the requested ITP. We will also conduct an intra-Service consultation pursuant to section 7 of the ESA to evaluate the effects of the proposed take. After considering the preceding and other matters, we will determine whether the permit issuance criteria of section 10(a)(1)(B) of the ESA have been met. If met, the Service will issue the requested ITP to the applicant.

Request for Public Comments

The Service invites comments and suggestions from all interested parties on the proposed HCP and screening form during a 30-day public comment period (see **DATES**). In particular, information and comments regarding the following topics are requested:

1. Whether the adaptive management, monitoring, and mitigation provisions in the proposed HCP are sufficient;
2. The requested 6-year ITP term;
3. Any threats to the Indiana bat, northern long-eared bat, and tricolored bat that may influence their populations over the life of the ITP that are not addressed in the proposed HCP or screening form;
4. Any new information on white-nose syndrome effects on the covered bat species;
5. Whether or not the significance of the impact on various aspects of the human environment has been adequately analyzed; and
6. Any other information pertinent to evaluating the effects of the proposed action on the human environment.

Availability of Public Comments

You may submit comments by one of the methods shown under **ADDRESSES**. We will post on *https://regulations.gov* all public comments and information received electronically or via hardcopy. All comments received, including names and addresses, will become part of the administrative record associated with this action. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can request in your comment that we withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so. All submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, will be made available for public disclosure in their entirety.

Authority

We provide this notice under section 10(c) of the ESA (16 U.S.C. 1539(c)) and its implementing regulations (50 CFR 17.22) and NEPA (42 U.S.C. 4321 *et seq.*) and its implementing regulations (40 CFR 1500–1508; 43 CFR part 46).

Karen Herrington,

Acting Assistant Regional Director, Ecological Services.

BILLING CODE 4333–15–P

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[BLM_AK_FRN_MO4500179332]

Filing of Plats of Survey: Alaska

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of official filing.

SUMMARY: The plats of survey of lands described in this notice are scheduled to be officially filed in the Bureau of Land Management (BLM), Alaska State Office, Anchorage, Alaska. The surveys, which were executed at the request of the Bureau of Indian Affairs and the BLM, are necessary for the management of these lands.

DATES: The BLM must receive protests by May 29, 2024.

ADDRESSES: You may buy a copy of the plats from the BLM Alaska Public Information Center, 222 W 7th Avenue, Mailstop 13, Anchorage, AK 99513. Please use this address when filing written protests. You may also view the plats at the BLM Alaska Public Information Center, Fitzgerald Federal Building, 222 W 7th Avenue, Anchorage, Alaska, at no cost.

FOR FURTHER INFORMATION CONTACT: Thomas B. O'Toole, Chief, Branch of Cadastral Survey, Alaska State Office, Bureau of Land Management, 222 W 7th Avenue, Anchorage, AK 99513; 907–271–4231; *totoole@blm.gov*. People who use a telecommunications device for the deaf may call the Federal Relay Service (FRS) at 1–800–877–8339 to contact the BLM during normal business hours. The FRS is available 24 hours a day, 7 days a week, to leave a message or question with the above individual. You will receive a reply during normal business hours.

SUPPLEMENTARY INFORMATION: The lands surveyed are:

Copper River Meridian, Alaska

T. 4 N., R. 1 W., accepted April 5, 2024.
T. 9 S., R. 1 W., accepted March 12, 2024.
T. 74 S., R. 90 E, April 15, 2024
U.S. Survey No. 14622, accepted April 16, 2024, situated in T. 9 S., R. 8 W.
U.S. Survey No. 14635, accepted April 16, 2024, situated in T. 9 S., R. 8 W.
U.S. Survey No. 14636, accepted April 16, 2024, situated in T. 9 S., R. 8 W.

Seward Meridian, Alaska

T. 24 N., R. 4 W., accepted April 22, 2024.
T. 10 S., R. 71 W., April 22, 2024.
U.S. Survey No. 9516, accepted April 19, 2024, situated in T. 21 N., R. 46 W.

A person or party who wishes to protest one or more plats of survey identified above must file a written notice of protest with the State Director for the BLM in Alaska. The protest may be filed by mailing to BLM State Director, Alaska State Office, Bureau of Land Management, 222 W. 7th Avenue, Anchorage, AK 99513 or by delivering it in person to BLM Alaska Public Information Center, Fitzgerald Federal Building, 222 W 7th Avenue, Anchorage, Alaska. The notice of protest

must identify the plat(s) of survey that the person or party wishes to protest. You must file the notice of protest before the scheduled date of official filing for the plat(s) of survey being protested. The BLM will not consider any notice of protest filed after the scheduled date of official filing. A notice of protest is considered filed on the date it is received by the State Director for the BLM in Alaska during regular business hours; if received after regular business hours, a notice of protest will be considered filed the next business day. A written statement of reasons in support of a protest, if not filed with the notice of protest, must be filed with the State Director for the BLM in Alaska within 30 calendar days after the notice of protest is filed.

If a notice of protest against a plat of survey is received prior to the scheduled date of official filing, the official filing of the plat of survey identified in the notice of protest will be stayed pending consideration of the protest. A plat of survey will not be officially filed until the dismissal or resolution of all protests of the plat.

Before including your address, phone number, email address, or other personally identifiable information in a notice of protest or statement of reasons, you should be aware that the documents you submit, including your personally identifiable information, may be made publicly available in their entirety at any time. While you can ask the BLM to withhold your personally identifiable information from public review, we cannot guarantee that we will be able to do so.

Authority: 43 U.S.C. ch. 3.

Thomas O'Toole,

Chief Cadastral Surveyor, Alaska.

BILLING CODE 4331–10–P

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[BLM_NV_FRN_MO4500177430]

Notice of Realty Action: Change of Authorized Use for Recreation and Public Purposes Lease/Conveyance in Clark County, Nevada

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of realty action.

SUMMARY: The Bureau of Land Management (BLM), Las Vegas Field Office, proposes a change of authorized use of 7.20 acres of public land in Clark County, Nevada, from use as a portion of the Hollywood Regional Park and an undeveloped Clark County Family Services building, to use for a Las Vegas Metropolitan Police substation. The land is currently classified under the Recreation and Public Purposes Act, as amended (R&PP).

DATES: Interested parties may submit written comments regarding the proposed change of authorized use until June 13, 2024.

ADDRESSES: Mail written comments to the Bureau of Land Management (BLM) Las Vegas Field Office, Assistant Field Manager, Division of Lands, 4701 North Torrey Pines Drive, Las Vegas, NV 89130, or fax to (702) 515–5010.

FOR FURTHER INFORMATION CONTACT: Joseph Varner, Supervisory Realty Specialist, Las Vegas Field Office, at the above address, by telephone at (702) 515–5488, or by email at *jvarner@blm.gov*. Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services. Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States. You will receive a reply during normal business hours.

SUPPLEMENTARY INFORMATION: The parcel is located at the northeast corner of Hollywood Boulevard and Sahara Avenue in Clark County, Nevada, and is legally described as:

Mount Diablo Meridian, Nevada

T. 21 S., R. 62 E.,
sec. 2, lots 28, 30, 33, and 41 thru 46.

The area described contains 7.20 acres, according to the official plat of the survey of said land, on file with the BLM.

In accordance with the R&PP Act (43 U.S.C. 869 *et seq.*), Clark County Real Property Management has filed an application to develop a Las Vegas Metropolitan Police substation that would directly support a proposed adjacent public park, fire station, high school, housing communities, and businesses. The new substation is needed to house police equipment and personnel necessary to perform all job duties and maintain all aspects of the substation, which will support the surrounding areas of northeast Las Vegas. Clark County has requested that the BLM change the authorized use of 7.20 acres of public land in Clark County, Nevada, from use as a portion of the Hollywood Regional Park and the undeveloped Clark County Family Services building to use for a Las Vegas Metropolitan Police substation. The above-described land was previously classified by a notice published in the **Federal Register** (62 FR 59789) on November 3, 1999, for Recreation and Public Purposes, and the current use for a fire station, regional park, and a Clark County Family Services building was established by a notice (70 FR 4144) published on January 28, 2005.

The proposed facility consists of administrative offices; cubicles; conference rooms; briefing rooms; interview rooms; locker rooms with showers and restroom stalls; janitorial closets with common household cleaning supplies; break rooms; a kitchen with refrigerator, microwave, gas stove, vending machines, water fountains, sinks, flat screen televisions, tables, and chairs; an armory room containing handguns, rifles, shotguns, tazers, body cameras, radios, and multiple types of ammunition stored in a fire proof safe; an I.D.F. room that contains communication servers/data; and an evidence room.

The exterior of the main facility would be landscaped with standard desert landscaping materials. Plans include an unsecured paved parking lot, a secured employee parking lot, a storage shed, and a backup diesel fuel generator. The generator would be maintained regularly and checked for any leaks or spills. If there is such a leak or spill, it will be contained within a concrete secondary containment enclosure and cleaned per appropriate standards.

There will be an additional 360 square foot locked storage shed in the secured employee parking lot housing handheld fuel tanks, damaged vehicle parts, air compressor, road flares, car jacks, traffic cones, battery jumper, hand tools, water jugs, additional location lighting, and power cords. There will be trash enclosures picked up by Republic Services on a schedule, 24-hour video monitoring, lighting, and typical local utilities for direct support of the proposed substation.

Additional detailed information pertaining to the BLM's proposed change of authorized use or the county's plan of development and site plan is available in case file N–97410, which will be available for review at the BLM Las Vegas Field Office at the above address. Clark County Real Property Management is a political subdivision of the State of Nevada and is, therefore, a qualified applicant under the R&PP Act.

Subject to limitations prescribed by law and regulation, prior to patent issuance, the holder of any right-of-way grant from the BLM within the lease area would be given the opportunity to amend the right-of-way grant for

conversion to a new term, including perpetuity, if applicable.

The land identified is not needed for any Federal purpose. The proposed change of authorized use for lease and/or conveyance is consistent with the BLM Las Vegas Resource Management Plan dated October 5, 1998, and would be in the public interest. Clark County Real Property Management has not applied for more than the 640-acre annual limitation for public purpose uses and has submitted a statement that their application is for a definite project as required by regulations at 43 CFR 2741.4(b).

The change of authorized use for lease and/or conveyance, when issued, will be subject to the provisions of the R&PP Act and applicable regulations of the Secretary of the Interior, and any patent issued will contain the following reservations to the United States:

1. A right-of-way thereon for ditches or canals constructed by the authority of the United States, Act of August 30, 1890 (43 U.S.C. 945); and

2. All minerals shall be reserved to the United States, together with the right to prospect for, mine, and remove such deposits for the same under applicable law and such regulations as the Secretary of the Interior may prescribe; and

3. Any lease and conveyance will also be subject to valid existing rights, will contain any terms or conditions required by law (including, but not limited to, any terms or conditions required by 43 CFR 2741.4), and will contain an appropriate indemnification clause protecting the United States from claims arising out of the lessee's/patentee's use, occupancy, or operations on the leased/patented lands. It will also contain any other terms and conditions deemed necessary and appropriate by the Authorized Officer; and

4. Any other reservations that the authorized officer determines appropriate to ensure public access and proper management of Federal lands and interests therein.

The subject public lands described above were previously withdrawn from location and entry under the U.S. mining laws and from operation of the mineral and geothermal leasing laws by the Southern Nevada Public Land Management Act of 1998 (Pub. L. 105–263), as amended. Upon publication of this notice in the **Federal Register**, the land described above will be further segregated from all other forms of appropriation under the public land laws, except for lease and conveyance under the R&PP Act.

Interested parties may also submit written comments regarding the specific use proposed in the application and plan of development, and whether the BLM followed proper administrative procedures in reaching the decision to lease and convey under the R&PP Act. Comments on the change of authorized use are restricted to whether the land is physically suited for the proposal, whether the use will maximize the future use or uses of the land, whether the use is consistent with local planning and zoning, or if the use is consistent with state and Federal programs.

Before including your address, phone number, email, address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so. Only written comments submitted to the Assistant Field Manager, BLM Las Vegas Field Office, will be considered properly filed. Any adverse comments on the change of authorized use will be reviewed as protests by the BLM Nevada State Director, who may sustain, vacate, or modify this realty action. In the absence of any adverse comments, the decision will become effective on June 28, 2024.

Authority: 43 CFR 2741.5.

Bruce Sillitoe,

Field Manager, Las Vegas Field Office.

INTERNATIONAL TRADE COMMISSION

[Investigation No. 731–TA–1607 (Final)]

Boltless Steel Shelving Units Prepackaged for Sale From India; Termination of Investigation

AGENCY: United States International Trade Commission.

ACTION: Notice.

SUMMARY: On April 19, 2024, the Department of Commerce published notice in the **Federal Register** of a negative final determination of sales at less than fair value (LTFV) in connection with the subject investigation concerning India. Accordingly, the antidumping duty investigation concerning boltless steel shelving units prepackaged for sale from India (Investigation No. 731–TA–1607 (Final)) is terminated.

DATES: April 19, 2024.

FOR FURTHER INFORMATION CONTACT: Jordan Harriman (202–205–2610), Office of Investigations, U.S. International Trade Commission, 500 E Street SW, Washington, DC 20436. Hearing-impaired individuals are advised that information on this matter can be obtained by contacting the Commission's TDD terminal on 202–205–1810. Persons with mobility impairments who will need special assistance in gaining access to the Commission should contact the Office of the Secretary at 202–205–2000. General information concerning the Commission may also be obtained by accessing its internet server (*https://www.usitc.gov*). The public record for this investigation may be viewed on the Commission's electronic docket (EDIS) at *https://edis.usitc.gov.*

Authority: This investigation is being terminated under authority of title VII of the Tariff Act of 1930 and pursuant to section 207.40(a) of the Commission's Rules of Practice and Procedure (19 CFR 207.40(a)). This notice is published pursuant to section 201.10 of the Commission's rules (19 CFR 201.10).

By order of the Commission.

Issued: April 24, 2024.

Lisa Barton,

Secretary to the Commission.

BILLING CODE 7020–02–P

INTERNATIONAL TRADE COMMISSION

Notice of Receipt of Complaint; Solicitation of Comments Relating to the Public Interest

AGENCY: International Trade Commission.

ACTION: Notice.

SUMMARY: Notice is hereby given that the U.S. International Trade Commission has received a complaint *Certain Surface Cleaning Devices and Components Thereof,* DN 3741; the Commission is soliciting comments on any public interest issues raised by the complaint or complainant's filing pursuant to the Commission's Rules of Practice and Procedure.

FOR FURTHER INFORMATION CONTACT: Lisa R. Barton, Secretary to the Commission, U.S. International Trade Commission, 500 E Street SW, Washington, DC 20436, telephone (202) 205–2000. The public version of the complaint can be accessed on the Commission's Electronic Document Information System (EDIS) at *https://edis.usitc.gov.* For help accessing EDIS, please email *EDIS3Help@usitc.gov.*

General information concerning the Commission may also be obtained by accessing its internet server at United States International Trade Commission (USITC) at *https://www.usitc.gov*. The public record for this investigation may be viewed on the Commission's Electronic Document Information System (EDIS) at *https://edis.usitc.gov.* Hearing-impaired persons are advised that information on this matter can be obtained by contacting the Commission's TDD terminal on (202) 205–1810.

SUPPLEMENTARY INFORMATION: The Commission has received a complaint and a submission pursuant to § 210.8(b) of the Commission's Rules of Practice and Procedure filed on behalf of SharkNinja Operating LLC, Omachron Alpha Inc., and Omachron Intellectual Property Inc. on April 23, 2024. The complaint alleges violations of section 337 of the Tariff Act of 1930 (19 U.S.C. 1337) in the importation into the United States, the sale for importation, and the sale within the United States after importation of certain surface cleaning devices and components thereof. The complaint names as respondents: Dyson, Inc. of Chicago, IL; Dyson Technology Limited of United Kingdom; and Dyson Canada Limited of Canada. The complainant requests that the Commission issue a limited exclusion order, cease and desist orders, and impose a bond upon respondent alleged infringing articles during the 60-day Presidential review period pursuant to 19 U.S.C. 1337(j).

Proposed respondents, other interested parties, and members of the public are invited to file comments on any public interest issues raised by the complaint or § 210.8(b) filing. Comments should address whether issuance of the relief specifically requested by the complainant in this investigation would affect the public health and welfare in the United States, competitive conditions in the United States economy, the production of like or directly competitive articles in the United States, or United States consumers.

In particular, the Commission is interested in comments that:

(i) explain how the articles potentially subject to the requested remedial orders are used in the United States;

(ii) identify any public health, safety, or welfare concerns in the United States relating to the requested remedial orders;

(iii) identify like or directly competitive articles that complainant, its licensees, or third parties make in the United States which could replace the subject articles if they were to be excluded;

(iv) indicate whether complainant, complainant's licensees, and/or third party suppliers have the capacity to replace the volume of articles potentially subject to the requested exclusion order and/or a cease and desist order within a commercially reasonable time; and

(v) explain how the requested remedial orders would impact United States consumers.

Written submissions on the public interest must be filed no later than by close of business, eight calendar days after the date of publication of this notice in the **Federal Register**. There will be further opportunities for comment on the public interest after the issuance of any final initial determination in this investigation. Any written submissions on other issues must also be filed by no later than the close of business, eight calendar days after publication of this notice in the **Federal Register**. Complainant may file replies to any written submissions no later than three calendar days after the date on which any initial submissions were due, notwithstanding § 201.14(a) of the Commission's Rules of Practice and Procedure. No other submissions will be accepted, unless requested by the Commission. Any submissions and replies filed in response to this Notice are limited to five (5) pages in length, inclusive of attachments.

Persons filing written submissions must file the original document electronically on or before the deadlines stated above. Submissions should refer to the docket number (''Docket No. 3741'') in a prominent place on the cover page and/or the first page. (*See* Handbook for Electronic Filing Procedures, Electronic Filing Procedures [1]).

Please note the Secretary's Office will accept only electronic filings during this time. Filings must be made through the Commission's Electronic Document Information System (EDIS, *https://edis.usitc.gov.*) No in-person paper-based filings or paper copies of any electronic filings will be accepted until further notice. Persons with questions regarding filing should contact the Secretary at *EDIS3Help@usitc.gov.*

Any person desiring to submit a document to the Commission in confidence must request confidential treatment. All such requests should be directed to the Secretary to the Commission and must include a full statement of the reasons why the Commission should grant such treatment. *See* 19 CFR 201.6. Documents for which confidential treatment by the Commission is properly sought will be treated accordingly. All information, including confidential business information and documents for which confidential treatment is properly sought, submitted to the Commission for purposes of this Investigation may be disclosed to and used: (i) by the Commission, its employees and Offices, and contract personnel (a) for developing or maintaining the records of this or a related proceeding, or (b) in internal investigations, audits, reviews, and evaluations relating to the programs, personnel, and operations of the Commission including under 5 U.S.C. Appendix 3; or (ii) by U.S. government employees and contract personnel,[2] solely for cybersecurity purposes. All nonconfidential written submissions will be available for public inspection at the Office of the Secretary and on EDIS.[3]

This action is taken under the authority of section 337 of the Tariff Act of 1930, as amended (19 U.S.C. 1337), and of §§ 201.10 and 210.8(c) of the Commission's Rules of Practice and Procedure (19 CFR 201.10, 210.8(c)).

By order of the Commission.

[1] Handbook for Electronic Filing Procedures: *https://www.usitc.gov/documents/handbook_on_filing_procedures.pdf.*

[2] All contract personnel will sign appropriate nondisclosure agreements.

[3] Electronic Document Information System (EDIS): *https://edis.usitc.gov.*

Issued: April 23, 2024.

Lisa Barton,

Secretary to the Commission.

BILLING CODE 7020–02–P

DEPARTMENT OF JUSTICE

[OMB Number 1125–0018]

Agency Information Collection Activities; Proposed eCollection eComments Requested; FOIAXpress/FOIA Public Access Link

AGENCY: Executive Office for Immigration Review, Department of Justice.

ACTION: 30-day notice.

SUMMARY: The Executive Office for Immigration Review (EOIR), Department of Justice (DOJ), will be submitting the following information collection request to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act of 1995. The proposed information collection was previously published in the **Federal Register** on February 9, 2024, allowing a 60-day comment period.

DATES: Comments are encouraged and will be accepted for 30 days until May 29, 2024.

FOR FURTHER INFORMATION CONTACT: If you have comments especially on the estimated public burden or associated response time, suggestions, or need a copy of the proposed information collection instrument with instructions or additional information, please contact: Raechel Horowitz, Chief, Immigration Law Division, Office of Policy, Executive Office for Immigration Review, 5107 Leesburg Pike, Suite 2500, Falls Church, VA 22041, telephone: (703) 305–0473, *Raechel.Horowitz@usdoj.gov.*

SUPPLEMENTARY INFORMATION: Written comments and suggestions from the public and affected agencies concerning the proposed collection of information are encouraged. Your comments should address one or more of the following four points:

—Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

—Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

—Enhance the quality, utility, and clarity of the information to be collected; and/or

—Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.,* permitting electronic submission of responses.

Written comments and recommendations for this information collection should be submitted within 30 days of the publication of this notice on the following website *www.reginfo.gov/public/do/*PRAMain. Find this particular information collection by selecting ''Currently under 30-day Review—Open for Public Comments'' or by using the search function and entering either the title of the information collection or the OMB Control Number 1125–0018. This information collection request may be viewed at *www.reginfo.gov.* Follow the instructions to view Department of Justice, information collections currently under review by OMB.

DOJ seeks PRA authorization for this information collection for three (3) years. OMB authorization for an ICR cannot be for more than three (3) years without renewal. The DOJ notes that information collection requirements submitted to the OMB for existing ICRs receive a month-to-month extension while they undergo review.

Overview of This Information Collection

1. Type of Information Collection: Revision and Extension of a previously approved collection.

2. Title of the Form/Collection: FOIAXpress/FOIA Public Access Link.

3. Agency form number, if any, and the applicable component of the Department of Justice sponsoring the collection: EOIR does not maintain an agency-specific form number for this collection.

4. Affected public who will be asked or required to respond, as well as a brief abstract: Affected Public: Individuals and households.

Abstract: This information collection is optional and voluntary. FOIAXpress is a software program that provides the EOIR Freedom of Information Act (FOIA) Program with a single, unified application for managing the entire lifecycle of FOIA requests and appeals. The Public Access Link (PAL) is a secure web-based application that provides an online platform for the public to file a FOIA request with EOIR. The PAL is integrated directly with FOIAXpress and offers a centralized location for EOIR to receive online FOIA requests, deliver responsive records, communicate with requesters, collect fees, if applicable, and provide access to released documents in a public reading room in accordance with agency proactive disclosure guidelines.

EOIR has developed several changes to the PAL platform to improve the Agency's FOIA request and response process and to reduce the burden on members of the public that submit FOIA requests to EOIR. These developments include the following substantive changes: modifying the request form to display only those data fields relevant to the type of FOIA request selected by the requestor; changing the date range field from voluntary to mandatory; prompting an individual that requests a Record of Proceeding (ROP) to provide on a voluntary basis the charging document date and a record subject's alias, parents' names, port and date of entry, and place and date of proceeding; and removing data fields that EOIR determined were no longer necessary for the Agency to fulfill a FOIA request. In addition, EOIR has identified the following non-substantive changes: modifying the appearance and formatting of the PAL request form; updating links to web pages and resources embedded throughout the form; revising existing form instructions for clarity; and reorganizing some data fields under different sections of the PAL form. EOIR intends these developments to reduce the public's burden in completing the PAL form and to improve the Agency's FOIA request and response process, and the public's experience with that process. These enhancements include: assisting requestors in making the most appropriate selection for the type of FOIA request; enhancing the logical direction with which a requestor completes the form; and tailoring the information solicited from the requestor to generate more precise requests, thereby reducing processing time.

5. Obligation to Respond: Voluntary.

6. Total Estimated Number of Respondents: 24,804.

7. Estimated Time per Respondent: 3 minutes.

8. Frequency: Once annually.

9. Total Estimated Annual Time Burden: 1,240 hours.

10. Total Estimated Annual Other Costs Burden: $0.

If additional information is required, contact: Darwin Arceo, Department Clearance Officer, Policy and Planning Staff, Justice Management Division, United States Department of Justice,

Two Constitution Square, 145 N Street NE, 4W–218 Washington, DC 20530.

Dated: April 24, 2024.

Darwin Arceo,

Department Clearance Officer for PRA, U.S. Department of Justice.

[FR Doc. 2024–09127 Filed 4–26–24; 8:45 am]

BILLING CODE 4410–30–P

DEPARTMENT OF JUSTICE

[OMB Number 1110–0074]

Agency Information Collection Activities; Proposed eCollection eComments Requested; [Extension of a Previously Approved Collection]; FBI Hazardous Devices School Course Application

AGENCY: Federal Bureau of Investigation, Department of Justice.

ACTION: 60-Day notice.

SUMMARY: The Federal Bureau of Investigation (FBI), Department of Justice (DOJ), will be submitting the following information collection request to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act of 1995.

DATES: Comments are encouraged and will be accepted for 60 days until June 28, 2024.

FOR FURTHER INFORMATION CONTACT: If you have additional comments especially on the estimated public burden or associated response time, suggestions, or need a copy of the proposed information collection instrument with instructions or additional information, please contact Mark Wall, *mhwall@fbi.gov,* 703–906–2317.

SUPPLEMENTARY INFORMATION: Written comments and suggestions from the public and affected agencies concerning the proposed collection of information are encouraged. Your comments should address one or more of the following four points:

—Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Bureau of Justice Statistics, including whether the information will have practical utility;

—Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

—Evaluate whether and if so how the quality, utility, and clarity of the information to be collected can be enhanced; and

—Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.,* permitting electronic submission of responses.

Abstract: Collect participant information to be entered in the CIRG CIMS database for course enrollment and tracking of individual training and certification expiration dates.

Overview of This Information Collection

1. Type of Information Collection: Extension of a previously approved collection.

2. The Title of the Form/Collection: FBI Hazardous Devices School (HDS) Course Application.

3. The agency form number, if any, and the applicable component of the Department sponsoring the collection: FD–731, FD–731a; FBI Hazardous Devices School.

4. Affected public who will be asked or required to respond, as well as the obligation to respond: Affected Public State: state, local and tribal governments. The obligation to respond is voluntary.

5. An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond: The estimated number of respondents is 1,000.

The time per response is 45 minutes.

6. An estimate of the total annual burden (in hours) associated with the collection: Ex: The total annual burden hours for this collection 750 hours ($1{,}000 \times 45$ min/60 = 750).

7. An estimate of the total annual cost burden associated with the collection, if applicable: $0.

TOTAL BURDEN HOURS

Activity	Number of respondents	Frequency	Total annual responses	Time per response (min)	Total annual burden (hours)
FD–731	1,000	1/annually	1,000	45	750
Unduplicated Totals	*1,000*		*1,000*		*750*

If additional information is required contact: Darwin Arceo, Department Clearance Officer, United States Department of Justice, Justice Management Division, Policy and Planning Staff, Two Constitution Square, 145 N Street NE, 4W–218, Washington, DC.

Dated: April 24, 2024.

Darwin Arceo,

DEPARTMENT OF LABOR

Occupational Safety and Health Administration

[Docket No. OSHA–2022–0011]

Maritime Advisory Committee on Occupational Safety and Health (MACOSH): Notice of Meeting

AGENCY: Occupational Safety and Health Administration (OSHA), Labor.

ACTION: Notice of MACOSH meeting.

SUMMARY: The Maritime Advisory Committee on Occupational Safety and Health (MACOSH) will meet June 4, 2024. Committee members and the public will meet virtually via WebEx.

DATES: *MACOSH full Committee meeting:* MACOSH will meet from 10:00 a.m. to 12:00 p.m., ET, June 4, 2024.

MACOSH Workgroup meetings: The MACOSH Shipyard and Longshoring Workgroups will meet from 1:00 p.m. to 3:00 p.m., ET, June 4, 2024.

ADDRESSES:

Submission of comments and requests to speak: Comments and requests to speak at the MACOSH meeting, including attachments, must be submitted electronically at *www.regulations.gov,* the eRulemaking Portal by May 21, 2024. Comments must be identified by the docket number for this **Federal Register** notice (Docket No. OSHA–2022–0011). Follow the online instructions for submitting comments.

Registration: All persons wishing to attend this virtual meeting must register via the registration link on the MACOSH web page at *https://www.osha.gov/advisorycommittee/macosh.* Upon registration, virtual attendees will receive a WebEx link for remote access to the meeting.

Requests for special accommodations: Submit requests for special accommodations, including translation services, for this MACOSH meeting by May 21, 2024, to Ms. Carla Marcellus, Directorate of Standards and Guidance, OSHA, U.S. Department of Labor; telephone: (202) 693–1865; email: *marcellus.carla@dol.gov.*

Instructions: All submissions must include the agency name and the OSHA docket number for this **Federal Register** notice (Docket No. OSHA–2022–0011). OSHA will place comments, including personal information, in the public docket, which may be made available online. Therefore, OSHA cautions interested parties about submitting personal information such as Social Security numbers and birthdates.

Docket: To read or download documents in the public docket for this MACOSH meeting, go to *www.regulations.gov.* All documents in the public docket are listed in the index; however, some documents (*e.g.,* copyrighted material) are not publicly available to read or download through *www.regulations.gov.* All submissions, including copyrighted material, are available for inspection through the OSHA Docket Office. Contact the OSHA Docket Office at (202) 693–2350 (TTY (877) 889–5627) for assistance in locating docket submissions.

FOR FURTHER INFORMATION CONTACT:

For press inquiries: Mr. Frank Meilinger, Director, OSHA Office of Communications, U.S. Department of Labor; telephone: (202) 693–1999; email: *meilinger.francis2@dol.gov.*

For general information about MACOSH: Ms. Amy Wangdahl, Director, Office of Maritime and Agriculture, Directorate of Standards and Guidance, OSHA, U.S. Department of Labor; telephone: (202) 693–2066; email: *wangdahl.amy@dol.gov.*

Telecommunication requirements: For additional information about the telecommunication requirements for the meeting, please contact Ms. Carla Marcellus, Directorate of Standards and Guidance, OSHA, U.S. Department of Labor; telephone: (202) 693–1865; email: *marcellus.carla@dol.gov.*

For copies of this **Federal Register** *Notice:* Electronic copies of this **Federal Register** notice are available at *www.regulations.gov.* This notice, as well as news releases and other relevant information, are also available at OSHA's web page at *www.osha.gov.*

SUPPLEMENTARY INFORMATION:

I. Meeting Information

MACOSH Meeting

MACOSH will meet from 10:00 a.m. to 12:00 p.m., ET, Tuesday, June 4, 2024. Public attendance will be virtual via WebEx. Meeting information will be posted in the docket (Docket No. OSHA–2022–0011) and on the MACOSH web page, *https://www.osha.gov/advisorycommittee/macosh,* prior to the meeting.

The tentative agenda for the full Committee meeting will include reports from the Shipyard and Longshoring workgroups, presentations from the Office of Communications and the Directorate of Whistleblower Protection Programs, and a discussion on wind turbine safety.

MACOSH Workgroup Meetings

The MACOSH Shipyard and Longshoring Workgroups will meet from 1:00 p.m. to 3:00 p.m., ET, Tuesday, June 4, 2024.

Authority and Signature

James S. Frederick, Deputy Assistant Secretary of Labor for Occupational Safety and Health, authorized the preparation of this notice under the authority granted by 29 U.S.C. 655(b)(1) and 656(d), 5 U.S.C. 10, Secretary of Labor's Order No. 8–2020 (85 FR 58393), and 29 CFR part 1912.

Signed at Washington, DC, on April 22, 2024.

James S. Frederick,

Deputy Assistant Secretary for Occupational Safety and Health.

[Docket No. OSHA–2017–0013]

Safe and Sound Campaign; Revision of the Office of Management and Budget's (OMB) Approval of Information Collection (Paperwork) Requirements

AGENCY: Occupational Safety and Health Administration (OSHA), Labor.

ACTION: Request for public comments.

SUMMARY: OSHA solicits public comments concerning the proposal to revise the Office of Management and Budget's (OMB) approval of the information collection requirements specified in the Safe and Sound Campaign.

DATES: Comments must be submitted (postmarked, sent, or received) by June 28, 2024.

ADDRESSES:

Electronically: You may submit comments and attachments electronically at *https://www.regulations.gov,* which is the Federal eRulemaking Portal. Follow the instructions online for submitting comments.

Docket: To read or download comments or other material in the docket, go to *https://www.regulations.gov.* Documents in the docket are listed in the *https://www.regulations.gov* index; however, some information (*e.g.,* copyrighted material) is not publicly available to read or download through the websites. All submissions, including copyrighted material, are available for inspection through the OSHA Docket Office. Contact the OSHA Docket Office at (202) 693–2350 (TTY (877) 889–5627) for assistance in locating docket submissions.

Instructions: All submissions must include the agency name and OSHA docket number (OSHA–2017–0013) for the Information Collection Request (ICR). OSHA will place all comments, including any personal information, in the public docket, which may be made available online. Therefore, OSHA cautions interested parties about

submitting personal information such as social security numbers and birthdates.

For further information on submitting comments, see the ''Public Participation'' heading in the section of this notice titled **SUPPLEMENTARY INFORMATION**.

FOR FURTHER INFORMATION CONTACT: Seleda Perryman, Directorate of Standards and Guidance, OSHA, U.S. Department of Labor; telephone (202) 693–2222.

SUPPLEMENTARY INFORMATION:

I. Background

The Department of Labor, as part of the continuing effort to reduce paperwork and respondent (*i.e.,* employer) burden, conducts a preclearance consultation program to provide the public with an opportunity to comment on proposed and continuing information collection requirements in accordance with the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3506(c)(2)(A)). This program ensures that information is in the desired format, reporting burden (time and costs) is minimal, the collection instruments are clearly understood, and OSHA's estimate of the information collection burden is accurate. The Occupational Safety and Health Act of 1970 (OSH Act) (29 U.S.C. 651 *et seq.*) authorizes information collection by employers as necessary or appropriate for enforcement of the OSH Act or for developing information regarding the causes and prevention of occupational injuries, illnesses, and accidents (29 U.S.C. 657). The OSH Act also requires that OSHA obtain such information with minimum burden upon employers, especially those operating small businesses, and to reduce to the maximum extent feasible unnecessary duplication of effort in obtaining information (29 U.S.C. 657).

The following sections describe who uses the information collected under each requirement, as well as how they use it. In 2016, OSHA established the Safe and Sound Campaign, a voluntary effort to support the implementation of safety and health programs in businesses throughout the Unites States. Outside stakeholders, including safety health professional organizations, trade and industry associations, academic institutions, and state and federal government agencies, collaborate with the agency on the Campaign. The Campaign includes periodic activities and events, ranging from regular email updates to quarterly national webinars to local meetings to an annual national stand down (*i.e.,* Safe and Sound Week), designed to increase overall employer and employee awareness and understanding of safety and health programs and promote employer adoption of these programs. OSHA believes widespread implementation of such programs will substantially improve overall workplace safety and health conditions.

II. Special Issues for Comment

OSHA has a particular interest in comments on the following issues:

- Whether the proposed information collection requirements are necessary for the proper performance of the agency's functions to protect workers, including whether the information is useful;
- The accuracy of OSHA's estimate of the burden (time and costs) of the information collection requirements, including the validity of the methodology and assumptions used;
- The quality, utility, and clarity of the information collected; and
- Ways to minimize the burden on employers who must comply; for example, by using automated or other technological information, and transmission techniques.

III. Proposed Actions

OSHA is requesting that OMB approve the information collection requirements contained in the Safe and Sound Campaign. The agency is requesting a revision increase of total burden hours from 2,535 to 20,088 hours, a difference of 17,553 hours. This increase is due to the anticipated increase in the number of respondents registering by 22,000.

OSHA will summarize the comments submitted in response to this notice and will include this summary in the request to OMB to extend the approval of the information collection requirements.

Type of Review: Revision of a currently approved collection.

Title: Safe and Sound Campaign.

OMB Control Number: 1218–0269.

Affected Public: Business or other for-profits.

Number of Respondents: 190,155.

Number of Responses: 190,155.

Frequency of Responses: Once.

Average Time per Response: Varies.

Estimated Total Burden Hours: 20,088.

Estimated Cost (Operation and Maintenance): $0.

IV. Public Participation—Submission of Comments on This Notice and Internet Access to Comments and Submissions

You may submit comments in response to this document as follows: (1) electronically at *https://www.regulations.gov,* which is the Federal eRulemaking Portal; or (2) by facsimile (fax), if your comments, including attachments, are not longer than 10 pages you may fax them to the OSHA Docket Office at 202–693–1648. All comments, attachments, and other material must identify the agency name and the OSHA docket number for the ICR (OSHA–2017–0013). You may supplement electronic submission by uploading document files electronically.

Comments and submissions are posted without change at *https://www.regulations.gov.* Therefore, OSHA cautions commenters about submitting personal information such as social security numbers and dates of birth. Although all submissions are listed in the *https://www.regulations.gov* index, some information (*e.g.,* copyrighted material) is not publicly available to read or download from this website. All submission, including copyrighted material, are available for inspection and copying at the OSHA Docket Office. Information on using the *https://www.regulations.gov* website to submit comments and access the docket is available at the website's ''User Tips'' link. Contact the OSHA Docket Office at (202) 693–2350, (TTY (877) 889–5627) for information about materials not available from the website, and for assistance in using the internet to locate docket submissions.

V. Authority and Signature

James S. Frederick, Deputy Assistant Secretary of Labor for Occupational Safety and Health, directed the preparation of this notice. The authority for this notice is the Paperwork Reduction Act of 1995 (44 U.S.C. 3506 *et seq.*) and Secretary of Labor's Order No. 8–2020 (85 FR 58393).

Signed at Washington, DC, on April 22, 2024.

James S. Frederick,

Deputy Assistant Secretary of Labor for Occupational Safety and Health.

[FR Doc. 2024–09070 Filed 4–26–24; 8:45 am]

BILLING CODE 4510–26–P

NUCLEAR REGULATORY COMMISSION

[Docket No. 50–461; NRC–2024–0046]

Notice of Intent To Conduct Scoping Process and Prepare Environmental Impact Statement; Constellation Energy Generation, LLC; Clinton Power Station, Unit 1

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice; public scoping meeting and request for comment.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) will conduct a scoping process to gather information necessary to prepare an environmental impact statement (EIS) to evaluate the environmental impacts for the license renewal of the Facility Operating License No. NPF–62 for Clinton Power Station, Unit 1 (CPS). The NRC is seeking public comment on this action and has scheduled two public scoping meetings that will take place as online webinars.

DATES: The NRC will hold two public scoping meetings as online webinars on May 7, 2024, at 6 p.m. eastern time (ET) and May 9, 2024, at 1 p.m. (ET). Details on both meetings can be found on the NRC's Public Meeting Schedule at *https://www.nrc.gov/pmns/mtg.* Submit comments on the scope of the EIS by May 29, 2024. Comments received after this date will be considered if it is practical to do so, but the NRC is able to ensure consideration only for comments received on or before this date.

ADDRESSES: You may submit comments by any of the following methods; however, the NRC encourages electronic comment submission through the Federal rulemaking website.

- *Federal rulemaking website:* Go to *https://www.regulations.gov* and search for Docket ID NRC–2024–0046. Address questions about Docket IDs in *Regulations.gov* to Stacy Schumann; telephone: 301–415–0624; email: *Stacy.Schumann@nrc.gov.* For technical questions, contact the individual listed in the ''For Further Information Contact'' section of this document.
- *Email comments to: ClintonEnvironmental@nrc.gov.*
- *Mail comments to:* Office of Administration, Mail Stop: TWFN–7–A60M, U.S. Nuclear Regulatory Commission, Washington, DC 20555–0001, ATTN: Program Management, Announcements and Editing Staff.

For additional direction on obtaining information and submitting comments, see ''Obtaining Information and Submitting Comments'' in the **SUPPLEMENTARY INFORMATION** section of this document.

FOR FURTHER INFORMATION CONTACT: Ashley Waldron, Office of Nuclear Material Safety and Safeguards, U.S. Nuclear Regulatory Commission, Washington, DC 20555–0001, telephone: 301–415–7317; email: *Ashley.Waldron@nrc.gov.*

SUPPLEMENTARY INFORMATION:

I. Obtaining Information and Submitting Comments

A. Obtaining Information

Please refer to Docket ID NRC–2024–0046 when contacting the NRC about the availability of information for this action. You may obtain publicly available information related to this action by any of the following methods:

- *Federal Rulemaking Website:* Go to *https://www.regulations.gov* and search for Docket ID NRC–2024–0046.
- *NRC's Agencywide Documents Access and Management System (ADAMS):* You may obtain publicly available documents online in the ADAMS Public Documents collection at *https://www.nrc.gov/reading-rm/adams.html.* To begin the search, select ''Begin Web-based ADAMS Search.'' For problems with ADAMS, please contact the NRC's Public Document Room (PDR) reference staff at 1–800–397–4209, at 301–415–4737, or by email to *PDR.Resource@nrc.gov.* The ADAMS accession number for each document referenced in this document (if it is available in ADAMS) is provided the first time that it is referenced.
- *NRC's PDR:* The PDR, where you may examine and order copies of publicly available documents, is open by appointment. To make an appointment to visit the PDR, please send an email to *PDR.Resource@nrc.gov* or call 1–800–397–4209 or 301–415–4737, between 8 a.m. and 4 p.m. ET, Monday through Friday, except Federal holidays.
- *Public Library:* A copy of the license renewal application for CPS, including the environmental report, is available for public review at the following public library location: Vespasian Warner Public Library, 310 N Quincy St., Clinton, IL 61727.

B. Submitting Comments

The NRC encourages electronic comment submission through the Federal rulemaking website (*https://www.regulations.gov*). Please include Docket ID NRC–2024–0046 in your comment submission.

The NRC cautions you not to include identifying or contact information that you do not want to be publicly disclosed in your comment submission. The NRC will post all comment submissions at *https://www.regulations.gov* as well as enter the comment submissions into ADAMS. The NRC does not routinely edit comment submissions to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for submission to the NRC, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that the NRC does not routinely edit comment submissions to remove such information before making the comment submissions available to the public or entering the comment into ADAMS.

II. Discussion

By letter dated February 14, 2024 (ADAMS Package Accession No. ML24045A023), Constellation Energy Generation, LLC (CEG) submitted to the NRC an application for license renewal of Facility Operating License No. NPF–62 for Clinton Power Station, Unit 1 (CPS), for an additional 20 years of operation. This submission initiated the NRC's proposed action of determining whether to grant the license renewal application. CPS is located in DeWitt County, approximately 7 miles east of the city of Clinton in east-central Illinois. The current facility operating license for Unit 1 will expire at midnight on April 17, 2027. The license renewal application was submitted pursuant to part 54 of title 10 of the *Code of Federal Regulations* (10 CFR), ''Requirements for Renewal of Operating Licenses for Nuclear Power Plants,'' and seeks to extend the facility operating license for Unit 1 to midnight on April 17, 2047. A notice of receipt and availability of the application was published in the **Federal Register** on March 7, 2024 (89 FR 16591). A notice of acceptance for docketing of the application and of opportunity to request a hearing was published in the **Federal Register** on April 18, 2024 (89 FR 27805) and is available on the Federal rulemaking website (*https://www.regulations.gov*) by searching for Docket ID NRC–2024–0046

III. Request for Comment

This notice informs the public of the NRC's intention to conduct environmental scoping and prepare an EIS related to the license renewal application for CPS, and to provide the public an opportunity to participate in the environmental scoping process, as defined in 10 CFR 51.29 ''Scoping-environmental impact statement and supplement to environmental impact statement,'' and 10 CFR 51.116, ''Notice of intent.''

The regulations in 36 CFR 800.8, ''Coordination with the National Environmental Policy Act,'' allow agencies to use their National Environmental Policy Act of 1969, as amended (42 U.S.C. 4321, *et seq.*) (NEPA), process to fulfill the

requirements of Section 106 of the National Historic Preservation Act of 1966 (54 U.S.C. 300101, *et seq.*) (NHPA). Therefore, pursuant to 36 CFR 800.8(c), the NRC intends to use its process and documentation required for the preparation of the EIS on the proposed action to comply with Section 106 of the NHPA in lieu of the procedures set forth at 36 CFR 800.3 through 800.6.

In accordance with 10 CFR 51.53(c) and 10 CFR 54.23, CEG submitted an environmental report (ER) as part of the license renewal application. The ER was prepared pursuant to 10 CFR part 51 and is publicly available at ADAMS Accession No. ML24045A279. The ER will also be available for viewing at *https://www.nrc.gov/reactors/operating/licensing/renewal/applications/clinton.html.*

The NRC intends to gather the information necessary to prepare a plant-specific supplement to NUREG–1437, ''Generic Environmental Impact Statement for License Renewal of Nuclear Plants'' (GEIS) (ADAMS Package Accession No. ML13107A023), related to the license renewal application for CPS. The NRC is required by 10 CFR 51.95 to prepare a plant-specific supplement to the GEIS in connection with the renewal of an operating license. This notice is being published in accordance with NEPA and the NRC's regulations at 10 CFR part 51.

The supplemental to the GEIS will evaluate the environmental impacts of the license renewal for CPS, and reasonable alternatives thereto. Possible alternatives to the proposed action include the no action alternative and reasonable alternative energy sources.

As part of its environmental review, the NRC will first conduct a scoping process for the EIS and, as soon as practicable thereafter, will prepare a draft EIS for public comment. Participation in this scoping process by members of the public and local, State, Tribal, and Federal government agencies is encouraged. The scoping process for the EIS will be used to accomplish the following:

a. Define the proposed action that is to be the subject of the EIS;

b. Determine the scope of the EIS and identify the significant issues to be analyzed in depth;

c. Identify and eliminate from detailed study those issues that are peripheral or are not significant or that have been covered by prior environmental review;

d. Identify any environmental assessments and other ElSs that are being or will be prepared that are related to, but are not part of, the scope of the EIS under consideration;

e. Identify other environmental review and consultation requirements related to the proposed action;

f. Indicate the relationship between the timing of the preparation of the environmental analyses and the NRC's tentative planning and decision-making schedule;

g. Identify any cooperating agencies and, as appropriate, allocate assignments for preparation and schedules for completing the EIS to the NRC and any cooperating agencies; and

h. Describe how the EIS will be prepared, including any contractor assistance to be used.

The NRC invites the following entities to participate in scoping:

a. The applicant, Constellation Energy Generation, LLC;

b. Any Federal agency that has jurisdiction by law or special expertise with respect to any environmental impact involved or that is authorized to develop and enforce relevant environmental standards;

c. Affected State and local government agencies, including those authorized to develop and enforce relevant environmental standards;

d. Any affected Indian Tribe;

e. Any person who requests or has requested an opportunity to participate in the scoping process; and

f. Any person who has petitioned or intends to petition for leave to intervene under 10 CFR 2.309.

IV. Public Scoping Meeting

In accordance with 10 CFR 51.26(b), the scoping process for an EIS may include a public scoping meeting to help identify significant issues related to the proposed action and to determine the scope of issues to be addressed in the EIS.

The NRC is announcing that it will hold two public scoping meetings as online webinars for the CPS license renewal application. The webinar will include a telephone line for members of the public to provide comments. A court reporter will transcribe all comments received during the webinars. To be considered, comments must be provided either at the transcribed public meeting or in writing, as discussed in the **ADDRESSES** section of this document. The public scoping webinars will be held on May 7, 2024, at 6 p.m. ET and May 9, 2024, at 1 p.m. ET. Persons interested in attending this online webinar should monitor the NRC's Public Meeting Schedule website at *https://www.nrc.gov/pmns/mtg* for additional information, agendas for the meeting, and access information for the webinar. Please contact Ashley Waldron no later than May 2, 2024, if accommodations or special equipment is needed to attend or to provide comments, so that the NRC staff can determine whether the request can be accommodated.

The public scoping meeting will include: (1) an overview by the NRC staff of the environmental and safety review processes, the proposed scope of the EIS, and the proposed review schedule; and (2) the opportunity for interested government agencies, organizations, and individuals to submit comments or suggestions on environmental issues or the proposed scope of the CPS license renewal EIS.

Participation in the scoping process for the CPS license renewal EIS does not entitle participants to become parties to the proceeding to which the EIS relates. Matters related to participation in any hearing are outside the scope of matters to be discussed at this public meeting.

Dated: April 23, 2024.

For the Nuclear Regulatory Commission.

Stephen S. Koenick,

Chief, Environmental Project Management Branch 1, Division of Rulemaking, Environment, and Financial Support, Office of Nuclear Material Safety, and Safeguards.

BILLING CODE 7590–01–P

NUCLEAR REGULATORY COMMISSION

[NRC–2024–0026]

Information Collection: Planned Power Uprate-Related Licensing Submittals for All Power Reactor Licensees

AGENCY: Nuclear Regulatory Commission.

ACTION: Proposed information collection; request for comment.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) invites public comment on this proposed information collection. The information collection is entitled, ''Planned Power Uprate-Related Licensing Submittals for All Power Reactor Licensees.''

DATES: Submit comments by June 28, 2024. Comments received after this date will be considered if it is practical to do so, but the Commission is able to ensure consideration only for comments received on or before this date.

ADDRESSES: You may submit comments by any of the following methods; however, the NRC encourages electronic comment submission through the Federal rulemaking website:

• *Federal rulemaking website:* Go to *https://www.regulations.gov* and search for Docket ID NRC–2024–0026. Address questions about Docket IDs in *Regulations.gov* to Stacy Schumann; telephone: 301–415–0624; email: *Stacy.Schumann@nrc.gov.* For technical questions, contact the individual listed in the **FOR FURTHER INFORMATION CONTACT** section of this document.

• *Mail comments to:* David Cullison, Office of the Chief Information Officer, Mail Stop: T–6 A10M, U.S. Nuclear Regulatory Commission, Washington, DC 20555–0001.

For additional direction on obtaining information and submitting comments, see ''Obtaining Information and Submitting Comments'' in the **SUPPLEMENTARY INFORMATION** section of this document.

FOR FURTHER INFORMATION CONTACT: David Cullison, Office of the Chief Information Officer, U.S. Nuclear Regulatory Commission, Washington, DC 20555–0001; telephone: 301–415–2084; email: *Infocollects.Resource@nrc.gov.*

SUPPLEMENTARY INFORMATION:

I. Obtaining Information and Submitting Comments

A. Obtaining Information

Please refer to Docket ID NRC–2024–0026 when contacting the NRC about the availability of information for this action. You may obtain publicly available information related to this action by any of the following methods:

• *Federal Rulemaking Website:* Go to *https://www.regulations.gov* and search for Docket ID NRC–2024–0026. A copy of the collection of information and related instructions may be obtained without charge by accessing Docket ID NRC–2024–0026 on this website.

• *NRC's Agencywide Documents Access and Management System (ADAMS):* You may obtain publicly available documents online in the ADAMS Public Documents collection at *https://www.nrc.gov/reading-rm/adams.html.* To begin the search, select ''Begin Web-based ADAMS Search.'' For problems with ADAMS, please contact the NRC's Public Document Room (PDR) reference staff at 1–800–397–4209, at 301–415–4737, or by email to *PDR.Resource@nrc.gov.* The supporting statement, Regulatory Issue Summary, and burden table are available in ADAMS under Accession Nos. ML24009A269, ML23353A201, and ML24018A171.

• *NRC's PDR:* The PDR, where you may examine and order copies of publicly available documents, is open by appointment. To make an appointment to visit the PDR, please send an email to *PDR.Resource@nrc.gov* or call 1–800–397–4209 or 301–415–4737, between 8 a.m. and 4 p.m. eastern time (ET), Monday through Friday, except Federal holidays.

• *NRC's Clearance Officer:* A copy of the collection of information and related instructions may be obtained without charge by contacting the NRC's Clearance Officer, David Cullison, Office of the Chief Information Officer, U.S. Nuclear Regulatory Commission, Washington, DC 20555–0001; telephone: 301–415–2084; email: *Infocollects.Resource@nrc.gov.*

B. Submitting Comments

The NRC encourages electronic comment submission through the Federal rulemaking website (*https://www.regulations.gov*). Please include Docket ID NRC–2024–0026, in your comment submission.

The NRC cautions you not to include identifying or contact information in comment submissions that you do not want to be publicly disclosed in your comment submission. All comment submissions are posted at *https://www.regulations.gov* and entered into ADAMS. Comment submissions are not routinely edited to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for submission to the NRC, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that comment submissions are not routinely edited to remove such information before making the comment submissions available to the public or entering the comment into ADAMS.

II. Background

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the NRC is requesting public comment on its intention to request the OMB's approval for the information collection summarized below.

1. *The title of the information collection:* Planned Power Uprate-Related Licensing Submittals for All Power Reactor Licensees.

2. *OMB approval number:* An OMB control number has not yet been assigned to this proposed information collection.

3. *Type of submission:* New.

4. *The form number, if applicable:* Not applicable.

5. *How often the collection is required or requested:* Annually, with the addition of voluntary updates as available.

6. *Who will be required or asked to respond:* All holders of operating licenses or combined licenses for nuclear power reactors, except those that have permanently ceased operations and have certified that fuel has been permanently removed from the reactor vessel or combined license holders that have not received authorization to load nuclear fuel and begin operation.

7. *The estimated number of annual responses:* 5.33.

8. *The estimated number of annual respondents:* 5.33.

9. *The estimated number of hours needed annually to comply with the information collection requirement or request:* 107.

10. *Abstract:* This voluntary information collection assists the NRC in determining resource and budget needs as well as aligning the proper allocation and utilization of resources to support power uprate related licensing activities. In addition, information provided to the NRC staff is intended to promote early communications between the NRC and the respective addressees about potential power uprate licensing actions and related activities, submission dates, and plans for alternate source term amendments or accident tolerant fuels amendments activities. The overarching goal of this information collection is to assist the NRC staff more effectively and efficiently plan, schedule, and implement activities and reviews in a timely manner.

III. Specific Requests for Comments

The NRC is seeking comments that address the following questions:

1. Is the proposed collection of information necessary for the NRC to properly perform its functions? Does the information have practical utility? Please explain your answer.

2. Is the estimate of the burden of the information collection accurate? Please explain your answer.

3. Is there a way to enhance the quality, utility, and clarity of the information to be collected?

4. How can the burden of the information collection on respondents be minimized, including the use of automated collection techniques or other forms of information technology?

Dated: April 24, 2024.

For the Nuclear Regulatory Commission.

David Cullison,

NRC Clearance Officer, Office of the Chief Information Officer.

BILLING CODE 7590–01–P

NUCLEAR REGULATORY COMMISSION

[Docket No. 70–7033; NRC–2024–0062]

Global Laser Enrichment, LLC; New Headquarters; Environmental Assessment and Finding of No Significant Impact

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice; issuance.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) staff is considering approval of a Standard Practice Procedures Plan (SPPP) and Transportation Security Plan (TSP) for the protection of classified matter at the new Global Laser Enrichment, LLC (GLE) headquarters facility. The NRC staff is issuing an environmental assessment (EA) and finding of no significant impact (FONSI) associated with the proposed plans.

DATES: The EA and FONSI referenced in this document are available on April 29, 2024.

ADDRESSES: Please refer to Docket ID NRC–2024–0062 when contacting the NRC about the availability of information regarding this document. You may obtain publicly available information related to this document using any of the following methods:

- *Federal Rulemaking Website:* Go to *https://www.regulations.gov* and search for Docket ID NRC–2024–0062. Address questions about Docket IDs in *Regulations.gov* to Stacy Schumann; telephone: 301–415–0624; email: *Stacy.Schumann@nrc.gov.* For technical questions, contact the individual listed in the **FOR FURTHER INFORMATION CONTACT** section of this document.
- *NRC's Agencywide Documents Access and Management System (ADAMS):* You may obtain publicly available documents online in the ADAMS Public Documents collection at *https://www.nrc.gov/reading-rm/adams.html.* To begin the search, select ''Begin Web-based ADAMS Search.'' For problems with ADAMS, please contact the NRC's Public Document Room (PDR) reference staff at 1–800–397–4209, at 301–415–4737, or by email to *PDR.Resource@nrc.gov.* For the convenience of the reader, instructions about obtaining materials referenced in this document are provided in the ''Availability of Documents'' section. Individuals seeking access to Official Use Only information should contact Matthew Bartlett, using the contact information listed in the **FOR FURTHER INFORMATION CONTACT** section.
- *NRC's PDR:* The PDR, where you may examine and order copies of publicly available documents, is open by appointment. To make an appointment to visit the PDR, please send an email to *PDR.Resource@nrc.gov* or call 1–800–397–4209 or 301–415–4737, between 8 a.m. and 4 p.m. eastern time (ET), Monday through Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT: Matthew Bartlett, Office of Nuclear Material Safety and Safeguards, U.S. Nuclear Regulatory Commission, Washington, DC 20555–0001, telephone: 301–415–7154; email: *Matthew.Bartlett@nrc.gov.*

SUPPLEMENTARY INFORMATION:

I. Introduction

The NRC staff is considering issuance of approval of GLE's SPPP and TSP for GLE's new headquarters, located in Wilmington, NC, approximately 6.2 miles from GLE's existing test loop facility. Approval of the SPPP and TSP fulfill the appropriate requirements for the NRC to issue a facility clearance to allow for the use, processing, storage, reproduction, transmittal, transportation, or handling of NRC classified matter at GLE's new headquarters building. Therefore, as required by section 51.21 of title 10 of the Code of Federal Regulations (10 CFR), ''Criteria for and identification of licensing and regulatory actions requiring environmental assessments,'' the NRC staff has prepared an EA that analyzes the environmental effects of the proposed action. Based on the results of the EA and in accordance with 10 CFR 51.31(a), the NRC staff has prepared a FONSI for the proposed action.

The NRC staff received a request from GLE for approval of the SPPP dated August 25, 2023, supplemented by letter dated March 12, 2024, and for approval of the TSP dated August 25, 2023, supplemented by later dated October 2, 2023. The NRC staff is also considering the approval of a separate but related request for a revised Program Cyber Security Plan to extend GLE's classified network to the new headquarters building. That **Federal Register** notice is anticipated to be published in the near future and will be available on the Federal rulemaking website (*https://www.regulations.gov*) by searching for Docket ID NRC–2024–0061.

II. Environmental Assessment

Description of the Proposed Action

The proposed action would allow GLE to expand use of classified matter to a new headquarters location approximately 6.2 miles from the test loop facility. As proposed, GLE would continue to possess, use, and store classified matter at its test loop facility. GLE would also possess, use, and store classified matter at the new headquarters location and would be authorized to transport classified matter between the two sites. Global Laser Enrichment, LLC operates a test loop for industrialization of the uranium enrichment process that uses separation of isotopes by laser excitation. Although GLE has an NRC-issued facility security clearance for the test loop facility under 10 CFR part 95 for protection of classified information, the facility's operations, safety, and safeguards programs are authorized under the Global Nuclear Fuel—America license SNM–1097.

Need for the Proposed Action

The proposed action would allow GLE to expand use of classified matter to a new headquarters building to facilitate further research and development potentially leading to the industrialization of the laser enrichment process. The proposed NRC staff approval of the SPPP and TSP will support the possession, use, and storage of classified matter at the new headquarters as well as transportation of classified matter between the GLE test loop facility and the GLE headquarters facility.

Environmental Impacts of the Proposed Action

The NRC staff has assessed the potential environmental impacts from approval of GLE's SPPP and TSP.

The TSP provides the security procedures for the transportation of classified matter from the test loop facility to the headquarters facility. The new GLE headquarters facility is located in Wilmington, NC. The facility is approximately 0.5 km (0.3 mi) from Interstate 140 via Castle Hayne Road and approximately 1.9 km (1.2 mi) from Interstate 140 via U.S. Highway 421. The NRC staff evaluated the potential for impacts from the proposed action and concluded that there would be no effluent releases and that the proposed action would have no significant radiological or non-radiological impacts to environmental resources. The NRC staff determined that there would be no significant impacts from the proposed action associated with the transportation of classified matter. There would be no construction of new roads or other improvements to facilitate the transportation of the classified matter. With fewer than ten trips, of three or fewer vehicles per trip, between the facilities per week, the proposed action is not expected to

significantly increase traffic levels. Therefore, activities associated with transportation of classified material would not result in significant environmental impacts. The NRC staff evaluated the potential for environmental impacts at the GLE headquarters facility from the proposed approval of the SPPP, which involves modifications to systems used for security, and concluded that the proposed action would not involve any significant construction impacts.

The NRC staff assessed the impacts of the proposed action on land use; historical and cultural resources; visual and scenic resources; climatology, meteorology and air quality; geology, minerals, and soils; water resources; ecological resources; socioeconomics; noise; traffic and transportation; public and occupational health and safety; and waste management and concluded that the proposed action would have no significant environmental impacts on these resource areas. The NRC staff determined that there are no cumulative impacts associated with the proposed action.

Environmental Impacts of the Alternatives to the Proposed Action

As an alternative to the proposed action, the staff considered denial of the proposed action (*i.e.,* the ''no-action'' alternative). Under this alternative, GLE would not be granted approval of the SPPP and TSP for the new location. Denial of the proposed action would result in GLE being unable to conduct operations related to classified matter at its headquarters location. The NRC staff concluded that environmental impacts from the no-action alternative would not be significant.

Agencies and Persons Consulted

The Endangered Species Act (ESA) was enacted to prevent further decline of endangered and threatened species and restore those species and their critical habitat. Section 7 of the ESA requires Federal agencies to consult with the U.S. Fish and Wildlife Service or the National Marine Fisheries Service, as appropriate, regarding actions that may affect listed species or designated critical habitats. The NRC staff has determined that the proposed action would have no effect on threatened or endangered species or critical habitat. Therefore, consultation under section 7 of the ESA is not required.

Section 106 of the National Historic Preservation Act (NHPA) requires Federal agencies to consider the effects of their undertakings on historic properties. As stated in the NHPA, historic properties are any prehistoric or historic district, site, building, structure, or object included in or eligible for inclusion in the National Register of Historic Places. The NRC staff has determined that the undertaking is a type of activity that does not have the potential to cause effects on any historic properties that may be present. Therefore, in accordance with 36 CFR 800.3(a)(1), the NRC has no further obligations under section 106 of the NHPA.

III. Finding of No Significant Impact

GLE has requested approval of its SPPP and TSP for the new headquarters facility. The NRC staff has prepared an EA as part of its review of the proposed action. The proposed action would have no significant radiological or non-radiological impacts to environmental resources. This FONSI incorporates by reference the EA in Section II of this notice. On the basis of this EA, the NRC staff concludes that the proposed action will not have a significant effect on the quality of the human environment. Accordingly, the NRC has determined not to prepare an environmental impact statement.

IV. Availability of Documents

The documents identified in the following table are available to interested persons through one or more of the following methods, as indicated.

Document description	ADAMS accession No.
Submission for Approval of the Standard Practice and Procedures Plan (SPPP) and Transportation Plan for Global Laser Enrichment Headquarters, dated August 25, 2023.	ML23243A847
RE-Submission of the GLE Standard Practice and Procedures Plan (SPPP) for Headquarters Facility (HQ), dated March 12, 2024.	ML24081A017
RE-Submission for Approval of the Transportation Plan for Global Laser Enrichment Headquarters, dated October 2, 2023.	ML23284A062

NUCLEAR REGULATORY COMMISSION

[NRC–2024–0001]

Sunshine Act Meetings

TIME AND DATE: Weeks of April 29, May 6, 13, 20, 27, and June 3, 2024. The schedule for Commission meetings is subject to change on short notice. The NRC Commission Meeting Schedule can be found on the internet at: *https://www.nrc.gov/public-involve/public-meetings/schedule.html.*

PLACE: The NRC provides reasonable accommodation to individuals with disabilities where appropriate. If you need a reasonable accommodation to participate in these public meetings or need this meeting notice or the transcript or other information from the public meetings in another format (*e.g.,* braille, large print), please notify Anne Silk, NRC Disability Program Specialist, at 301–287–0745, by videophone at 240–428–3217, or by email at *Anne.Silk@nrc.gov.* Determinations on requests for reasonable accommodation will be made on a case-by-case basis.

STATUS: Public.

Members of the public may request to receive the information in these notices electronically. If you would like to be added to the distribution, please contact the Nuclear Regulatory Commission, Office of the Secretary, Washington, DC 20555, at 301–415–1969, or by email at *Betty.Thweatt@nrc.gov* or *Samantha.Miklaszewski@nrc.gov.*

MATTERS TO BE CONSIDERED:

Week of April 29, 2024

There are no meetings scheduled for the week of April 29, 2024.

Week of May 6, 2024—Tentative

There are no meetings scheduled for the week of May 6, 2024.

Week of May 13, 2024—Tentative

There are no meetings scheduled for the week of May 13, 2024.

Week of May 20, 2024—Tentative

There are no meetings scheduled for the week of May 20, 2024.

Week of May 27, 2024—Tentative

There are no meetings scheduled for the week of May 27, 2024.

Week of June 3, 2024—Tentative

Tuesday, June 4, 2024

10:00 a.m. Briefing on Human Capital and Equal Employment Opportunity (Public Meeting) (Contact: Angie Randall: 301–415–6806)

Additional Information: The meeting will be held in the Commissioners' Hearing Room, 11555 Rockville Pike, Rockville, Maryland. The public is invited to attend the Commission's meeting in person or watch live via webcast at the Web address—*https://video.nrc.gov/.*

Friday, June 7, 2024

10:00 a.m. Meeting with Advisory Committee on Reactor Safeguards (Public Meeting) (Contact: Robert Krsek: 301–415–1766)

Additional Information: The meeting will be held in the Commissioners' Hearing Room, 11555 Rockville Pike, Rockville, Maryland. The public is invited to attend the Commission's meeting in person or watch live via webcast at the Web address—*https://video.nrc.gov/.*

CONTACT PERSON FOR MORE INFORMATION: For more information or to verify the status of meetings, contact Wesley Held at 301–287–3591 or via email at *Wesley.Held@nrc.gov.*

The NRC is holding the meetings under the authority of the Government in the Sunshine Act, 5 U.S.C. 552b.

Dated: April 24, 2024.

OFFICE OF PERSONNEL MANAGEMENT

Federal Prevailing Rate Advisory Committee Virtual Public Meeting

AGENCY: Office of Personnel Management.

ACTION: Notice.

SUMMARY: According to the provisions of section 10 of the Federal Advisory Committee Act, notice is hereby given that a virtual meeting of the Federal Prevailing Rate Advisory Committee will be held on Thursday, May 16, 2024. There will be no in-person gathering for this meeting.

DATES: The virtual meeting will be held on May 16, 2024, beginning at 10:00 a.m. (ET).

ADDRESSES: The meeting will convene virtually.

FOR FURTHER INFORMATION CONTACT: Ana Paunoiu, 202–606–2858, or email *paypolicy@opm.gov*.

SUPPLEMENTARY INFORMATION: The Federal Prevailing Rate Advisory Committee is composed of a Chair, five representatives from labor unions holding exclusive bargaining rights for Federal prevailing rate employees, and five representatives from Federal agencies. Entitlement to membership on the Committee is provided for in 5 U.S.C. 5347.

The Committee's primary responsibility is to review the Prevailing Rate System and other matters pertinent to establishing prevailing rates under subchapter IV, chapter 53, 5 U.S.C., as amended, and from time to time advise the Office of Personnel Management.

Annually, the Chair compiles a report of pay issues discussed and concluded recommendations. These reports are available to the public. Reports for calendar years 2008 to 2023 are posted at *http://www.opm.gov/fprac.* Previous reports are also available, upon written request to the Committee.

The public is invited to submit material in writing to the Chair on Federal Wage System pay matters felt to be deserving of the Committee's attention. Additional information on these meetings may be obtained by contacting the Committee at Office of Personnel Management, Federal Prevailing Rate Advisory Committee, Room 7H31, 1900 E Street NW, Washington, DC 20415, (202) 606–2858.

This meeting is open to the public, with an audio option for listening. This notice sets forth the participation guidelines for the meeting.

Meeting Agenda. The committee meets to discuss various agenda items related to the determination of prevailing wage rates for the Federal Wage System. The committee's agenda is approved one week prior to the public meeting and will be available upon request at that time.

Public Participation: The May 16, 2024, meeting of the Federal Prevailing Rate Advisory Committee is open to the public through advance registration. Public participation is available for the meeting. All individuals who plan to attend the virtual public meeting to listen must register by sending an email to *paypolicy@opm.gov* with the subject line ''May 16, 2024'' no later than Tuesday, May 14, 2024.

The following information must be provided when registering:

- Name.
- Agency and duty station.
- Email address.
- Your topic of interest.

Members of the press, in addition to registering for this event, must also RSVP to *media@opm.gov* by May 14, 2024.

A confirmation email will be sent upon receipt of the registration. Audio teleconference information for participation will be sent to registrants the morning of the virtual meeting.

Office of Personnel Management.

Kayyonne Marston,

Federal Register Liaison.

New Postal Products

AGENCY: Postal Regulatory Commission.

ACTION: Notice.

SUMMARY: The Commission is noticing a recent Postal Service filing for the Commission's consideration concerning a negotiated service agreement. This notice informs the public of the filing, invites public comment, and takes other administrative steps.

DATES: *Comments are due:* April 30, 2024.

ADDRESSES: Submit comments electronically via the Commission's Filing Online system at *http://www.prc.gov.* Those who cannot submit comments electronically should contact the person identified in the **FOR FURTHER INFORMATION CONTACT** section by telephone for advice on filing alternatives.

FOR FURTHER INFORMATION CONTACT: David A. Trissell, General Counsel, at 202–789–6820.

SUPPLEMENTARY INFORMATION:

Table of Contents

I. Introduction

The Commission gives notice that the Postal Service filed request(s) for the Commission to consider matters related to negotiated service agreement(s). The request(s) may propose the addition or removal of a negotiated service

agreement from the Market Dominant or the Competitive product list, or the modification of an existing product currently appearing on the Market Dominant or the Competitive product list.

Section II identifies the docket number(s) associated with each Postal Service request, the title of each Postal Service request, the request's acceptance date, and the authority cited by the Postal Service for each request. For each request, the Commission appoints an officer of the Commission to represent the interests of the general public in the proceeding, pursuant to 39 U.S.C. 505 (Public Representative). Section II also establishes comment deadline(s) pertaining to each request.

The public portions of the Postal Service's request(s) can be accessed via the Commission's website (*http://www.prc.gov*). Non-public portions of the Postal Service's request(s), if any, can be accessed through compliance with the requirements of 39 CFR 3011.301.[1]

The Commission invites comments on whether the Postal Service's request(s) in the captioned docket(s) are consistent with the policies of title 39. For request(s) that the Postal Service states concern Market Dominant product(s), applicable statutory and regulatory requirements include 39 U.S.C. 3622, 39 U.S.C. 3642, 39 CFR part 3030, and 39 CFR part 3040, subpart B. For request(s) that the Postal Service states concern Competitive product(s), applicable statutory and regulatory requirements include 39 U.S.C. 3632, 39 U.S.C. 3633, 39 U.S.C. 3642, 39 CFR part 3035, and 39 CFR part 3040, subpart B. Comment deadline(s) for each request appear in section II.

II. Docketed Proceeding(s)

1. *Docket No(s).:* CP2022–110; *Filing Title:* USPS Notice of Amendment to Priority Mail Express, Priority Mail, First-Class Package Service & Parcel Select Contract 20, Filed Under Seal; *Filing Acceptance Date:* April 22, 2024; *Filing Authority:* 39 CFR 3035.105; *Public Representative:* Christopher C. Mohr; *Comments Due:* April 30, 2024.

2. *Docket No(s).:* MC2024–244 and CP2024–250; *Filing Title:* USPS Request to Add Priority Mail Express, Priority Mail & USPS Ground Advantage Contract 55 to Competitive Product List and Notice of Filing Materials Under Seal; *Filing Acceptance Date:* April 22, 2024; *Filing Authority:* 39 U.S.C. 3642, 39 CFR 3040.130 through 3040.135, and 39 CFR 3035.105; *Public Representative:* Alain Brou; *Comments Due:* April 30, 2024.

3. *Docket No(s).:* MC2024–245 and CP2024–251; *Filing Title:* USPS Request to Add Priority Mail & USPS Ground Advantage Contract 225 to Competitive Product List and Notice of Filing Materials Under Seal; *Filing Acceptance Date:* April 22, 2024; *Filing Authority:* 39 U.S.C. 3642, 39 CFR 3040.130 through 3040.135, and 39 CFR 3035.105; *Public Representative:* Alain Brou; *Comments Due:* April 30, 2024.

4. *Docket No(s).:* MC2024–246 and CP2024–252; *Filing Title:* USPS Request to Add Priority Mail Express, Priority Mail & USPS Ground Advantage Contract 60 to Competitive Product List and Notice of Filing Materials Under Seal; *Filing Acceptance Date:* April 22, 2024; *Filing Authority:* 39 U.S.C. 3642, 39 CFR 3040.130 through 3040.135, and 39 CFR 3035.105; *Public Representative:* Arif Hafiz; *Comments Due:* April 30, 2024.

5. *Docket No(s).:* MC2024–247 and CP2024–253; *Filing Title:* USPS Request to Add Priority Mail & USPS Ground Advantage Contract 226 to Competitive Product List and Notice of Filing Materials Under Seal; *Filing Acceptance Date:* April 22, 2024; *Filing Authority:* 39 U.S.C. 3642, 39 CFR 3040.130 through 3040.135, and 39 CFR 3035.105; *Public Representative:* Arif Hafiz; *Comments Due:* April 30, 2024

This Notice will be published in the **Federal Register**.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–100012; File No. SR–C2–2024–005]

Self-Regulatory Organizations; Cboe C2 Exchange, Inc.; Notice of Filing and Immediate Effectiveness of a Proposed Rule Change To Amend Its Fees Schedule Related to Physical Port Fees

April 23, 2024.

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934 (''Act''),[1] and Rule 19b–4 thereunder,[2] notice is hereby given that on April 9, 2024, Cboe C2 Exchange, Inc. (the ''Exchange'' or ''C2'') filed with the Securities and Exchange Commission (''Commission'') the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

Cboe C2 Exchange, Inc. (the ''Exchange'' or ''C2 Options'') proposes to amend its Fees Schedule. The text of the proposed rule change is provided in Exhibit 5.

The text of the proposed rule change is also available on the Exchange's

[1] 15 U.S.C. 78s(b)(1).

[2] 17 CFR 240.19b–4.

website (*http://markets.cboe.com/us/options/regulation/rule_filings/ctwo/*), at the Exchange's Office of the Secretary, and at the Commission's Public Reference Room.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to amend its fee schedule relating to physical connectivity fees.[3]

By way of background, a physical port is utilized by a Member or non-Member to connect to the Exchange at the data centers where the Exchange's servers are located. The Exchange currently assesses the following physical connectivity fees for Trading Permit Holders (''TPHs'') and non-TPHs on a monthly basis: $2,500 per physical port for a 1 gigabit (''Gbps'') circuit and $7,500 per physical port for a 10 Gbps circuit. The Exchange proposes to increase the monthly fee for 10 Gbps physical ports from $7,500 to $8,500 per port. The Exchange notes the proposed fee change better enables it to continue to maintain and improve its market technology and services and also notes that the proposed fee amount, even as amended, continues to be in line with, or even lower than, amounts assessed by other exchanges for similar connections.[4] The physical ports may also be used to access the Systems for the following affiliate exchanges and only one monthly fee currently (and will continue) to apply per port: Cboe BZX Exchange, Inc. (options and equities platforms), Cboe EDGX Exchange, Inc. (options and equities platforms), Cboe BYX Exchange, Inc., and Cboe EDGA Exchange, Inc., (''Affiliate Exchanges'').[5]

2. Statutory Basis

The Exchange believes the proposed rule change is consistent with the Securities Exchange Act of 1934 (the ''Act'') and the rules and regulations thereunder applicable to the Exchange and, in particular, the requirements of section 6(b) of the Act.[6] Specifically, the Exchange believes the proposed rule change is consistent with the section 6(b)(5)[7] requirements that the rules of an exchange be designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in regulating, clearing, settling, processing information with respect to, and facilitating transactions in securities, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general, to protect investors and the public interest. Additionally, the Exchange believes the proposed rule change is consistent with the section 6(b)(5)[8] requirement that the rules of an exchange not be designed to permit unfair discrimination between customers, issuers, brokers, or dealers. The Exchange also believes the proposed rule change is consistent with section 6(b)(4)[9] of the Act, which requires that Exchange rules provide for the equitable allocation of reasonable dues, fees, and other charges among its TPHs and other persons using its facilities.

The Exchange believes the proposed fee change is reasonable as it reflects a moderate increase in physical connectivity fees for 10 Gbps physical ports. Further, the current 10 Gbps physical port fee has remained unchanged since June 2018.[10] Since its last increase over 5 years ago however, there has been notable inflation. Particularly, the dollar has had an average inflation rate of 3.9% per year between 2018 and today, producing a cumulative price increase of approximately 21.1% inflation since the fee for the 10 Gbps physical port was last modified.[11] Moreover, the Exchange historically does not increase fees every year, notwithstanding inflation. Accordingly, the Exchange believes the proposed fee is reasonable as it represents only an approximate 13% increase from the rates adopted five years ago, notwithstanding the cumulative rate of 21.1%. The Exchange is also unaware of any standard that suggests any fee proposal that exceeds a certain yearly or cumulative inflation rate is unreasonable, and in any event, in this instance the increase is well below the cumulative rate.

Additionally, the Exchange believes the proposed fee increase is reasonable in light of recent and anticipated connectivity-related upgrades and changes. The Exchange and its affiliated exchanges recently launched a multi-year initiative to improve Cboe Exchange Platform performance and capacity requirements to increase competitiveness, support growth and advance a consistent world class platform. The goal of the project, among other things, is to provide faster and more consistent order handling and matching performance for options, while ensuring quicker processing time and supporting increasing volumes and capacity needs. For example, the Exchange recently performed switch hardware upgrades. Particularly, the Exchange replaced existing customer access switches with newer models, which the Exchange believes resulted in increased determinism. The recent switch upgrades also increased the Exchange's capacity to accommodate more physical ports by nearly 50%. Network bandwidth was also increased nearly two-fold as a result of the upgrades, which among other things, can lead to reduce message queuing. The Exchange also believes these newer models result in less natural variance in

[3] The Exchange initially filed the proposed fee changes on July 3, 2023 (SR–C2–2023–014). On September 1, 2023, the Exchange withdrew that filing and submitted SR–C2–2023–020. On September 29, 2023, the Securities and Exchange Commission issued a Suspension of and Order Instituting Proceedings to Determine whether to Approve or Disapprove a Proposed Rule Change to Amend its Fees Schedule Related to Physical Port Fees (the ''OIP''). On September 29, 2023, the Exchange filed the proposed fee change (SR–C2–2023–021). On October 13, 2023, the Exchange withdrew that filing and submitted SR–C2–2023–022. On December 12, 2023, the Exchange withdrew that filing and submitted SR–C2–2023–025. On February 9, 2024, the Exchange withdrew that filing and submitted SR–C2–2024–004. On April 9, 2024, the Exchange withdrew that filing and submitted this filing.

the processing of messages. The Exchange notes that it incurred costs associated with purchasing and upgrading to these newer models, of which the Exchange has not otherwise passed through or offset.

As of April 1, 2024, market participants also having the option of connecting to a new data center (*i.e.,* Secaucus NY6 Data Center (''NY6'')), in addition to the current data centers at NY4 and NY5. The Exchange made NY6 available in response to customer requests in connection with their need for additional space and capacity. In order to make this space available, the Exchange expended significant resources to prepare this space, and will also incur ongoing costs with respect to maintaining this offering, including costs related to power, space, fiber, cabinets, panels, labor and maintenance of racks. The Exchange also incurred a large cost with respect to ensuring NY6 would be latency equalized, as it is for NY4 and NY5.

The Exchange also has made various other improvements since the current physical port rates were adopted in 2018. For example, the Exchange has updated its customer portal to provide more transparency with respect to firms' respective connectivity subscriptions, enabling them to better monitor, evaluate and adjust their connections based on their evolving business needs. The Exchange also performs proactive audits on a weekly basis to ensure that all customer cross connects continue to fall within allowable tolerances for Latency Equalized connections. Accordingly, the Exchange expended, and will continue to expend, resources to innovate and modernize technology so that it may benefit its Members and continue to compete among other options markets. The ability to continue to innovate with technology and offer new products to market participants allows the Exchange to remain competitive in the options space which currently has 17 options markets and potential new entrants.

The Exchange also believes the proposed fee is reasonable as it is still in line with, or even lower than, amounts assessed by other exchanges for similar connections.[12] Indeed, the Exchange believes assessing fees that are a lower rate than fees assessed by other exchanges for analogous connectivity (which were similarly adopted via the rule filing process and filed with the Commission) is reasonable. As noted above, the proposed fee is also the same as is concurrently being proposed for its Affiliate Exchanges. Further, TPHs are able to utilize a single port to connect to any of the Affiliate Exchanges with no additional fee assessed for that same physical port. Particularly, the Exchange believes the proposed monthly per port fee is reasonable, equitable and not unfairly discriminatory as it is assessed only once, even if it connects with another affiliate exchange since only one port is being used and the Exchange does not wish to charge multiple fees for the same port. Indeed, the Exchange notes that several ports are in fact purchased and utilized across one or more of the Exchange's affiliated Exchanges (and charged only once).

The Exchange also believes that the proposed fee change is not unfairly discriminatory because it would be assessed uniformly across all market participants that purchase the physical ports. The Exchange believes increasing the fee for 10 Gbps physical ports and charging a higher fee as compared to the 1 Gbps physical port is equitable as the 1 Gbps physical port is 1/10th the size of the 10 Gbps physical port and therefore does not offer access to many of the products and services offered by the Exchange (*e.g.,* ability to receive certain market data products). Thus, the value of the 1 Gbps alternative is lower than the value of the 10 Gbps alternative, when measured based on the type of Exchange access it offers. Moreover, market participants that purchase 10 Gbps physical ports utilize the most bandwidth and therefore consume the most resources from the network. The Exchange also anticipates that firms that utilize 10 Gb ports will benefit the most from the Exchange's investment in offering NY6 as the Exchange anticipates there will be much higher quantities of 10 Gb physical ports connecting from NY6 as compared to 1 Gb ports. Indeed, the Exchange notes that 10 Gb physical ports account for approximately 90% of physical ports across the NY4, NY5, and NY6 data centers, and to date, 80% of new port connections in NY6 are 10 Gb ports. As such, the Exchange believes the proposed fee change for 10 Gbps physical ports is reasonably and appropriately allocated.

The Exchange also notes TPHs and non-TPHs will continue to choose the method of connectivity based on their specific needs and no broker-dealer is required to become a TPH of, let alone connect directly to, the Exchange. There is also no regulatory requirement that any market participant connect to any one particular exchange. Market participants may voluntarily choose to become a member of one or more of a number of different exchanges, of which, the Exchange is but one choice. Additionally, any Exchange member that is dissatisfied with the proposal is free to choose not to be a member of the Exchange and send order flow to another exchange. Moreover, direct connectivity is not a requirement to participate on the Exchange. The Exchange also believes substitutable products and services are available to market participants, including, among other things, other options exchanges that a market participant may connect to in lieu of the Exchange and/or trading of any options product, such as within the Over-the-Counter (OTC) markets which do not require connectivity to the Exchange. Indeed, there are currently 17 registered options exchanges that trade options (13 of which are not affiliated with Cboe), some of which have similar or lower connectivity fees.[13] Based on publicly available information, no single options exchange has more than approximately 19% of the market share.[14] Further, low barriers to entry mean that new exchanges may rapidly enter the market and offer additional substitute platforms to further compete with the Exchange and the products it offers. For example, there are 4 exchanges that have been added in the U.S. options markets in the last 5 years (*i.e.,* Nasdaq MRX, LLC, MIAX Pearl, LLC, MIAX Emerald LLC, and most recently, MEMX LLC).

As noted above, there is no regulatory requirement that any market participant connect to any one options exchange, nor that any market participant connect at a particular connection speed or act in a particular capacity on the Exchange, or trade any particular product offered on an exchange. Moreover, membership is not a requirement to participate on the Exchange. Indeed, the Exchange is unaware of any one options exchange whose membership includes every registered broker-dealer. By way of example, while the Exchange has 52

[13] *Id.*

[14] *See* Cboe Global Markets U.S. Options Market Volume Summary (April 8, 2024), available at *https://markets.cboe.com/us/options/market_statistics/.*

TPHs, Cboe BZX has 61 members that trade options, and Cboe EDGX has 51 members that trade options. There is also no firm that is a Member of C2 Options only. Further, based on publicly available information regarding a sample of the Exchange's competitors, NYSE American Options has 71 members, [15] and NYSE Arca Options has 69 members,[16] MIAX Options has 46 members [17] and MIAX Pearl Options has 40 members.[18]

Vigorous competition among national securities exchanges provides many alternatives for firms to voluntarily decide whether direct connectivity to the Exchange is appropriate and worthwhile, and as noted above, no broker-dealer is required to become a Member of the Exchange, let alone connect directly to it. In the event that a market participant views the Exchange's proposed fee change as more or less attractive than the competition, that market participant can choose to connect to the Exchange indirectly or may choose not to connect to that exchange and connect instead to one or more of the other 13 non-Cboe affiliated options markets. Indeed, market participants are free to choose which exchange to use to satisfy their business needs. Moreover, if the Exchange charges excessive fees, it may stand to lose not only connectivity revenues but also revenues associated with the execution of orders routed to it, and, to the extent applicable, market data revenues. The Exchange believes that this competitive dynamic imposes powerful restraints on the ability of any exchange to charge unreasonable fees for connectivity. Notwithstanding the foregoing, the Exchange still believes that the proposed fee increase is reasonable, equitably allocated and not unfairly discriminatory, even for market participants that determine to connect directly to the Exchange for business purposes, as those business reasons should presumably result in revenue capable of covering the proposed fee.

The Exchange lastly notes that it is not required by the Exchange Act, nor any other rule or regulation, to undertake a cost-of-service or rate-making approach with respect to fee proposals. Moreover, Congress's intent in enacting the 1975 Amendments to the Act was to enable competition—rather than government order—to determine prices. The principal purpose of the amendments was to facilitate the creation of a national market system for the trading of securities. Congress intended that this ''national market system evolve through the interplay of *competitive forces* as unnecessary regulatory restrictions are removed.'' [19] Other provisions of the Act confirm that intent. For example, the Act provides that an exchange must design its rules ''to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general, to protect investors and the public interest.'' [20] Likewise, the Act grants the Commission authority to amend or repeal ''[t]he rules of [an] exchange [that] impose any burden on competition not necessary or appropriate in furtherance of the purposes of this chapter.'' [21] In short, the promotion of free and open competition was a core congressional objective in creating the national market system.[22] Indeed, the Commission has historically interpreted that mandate to promote competitive forces to determine prices whenever compatible with a national market system. Accordingly, the Exchange believes it has met its burden to demonstrate that its proposed fee change is reasonable and consistent with the immediate filing process chosen by Congress, which created a system whereby market forces determine access fees in the vast majority of cases, subject to oversight only in particular cases of abuse or market failure. Lastly, and importantly, the Exchange believes that, even if it were possible as a matter of economic theory, cost-based pricing for the proposed fee would be so complicated that it could not be done practically.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. The proposed fee change will not impact intramarket competition because it will apply to all similarly situated TPHs equally (i.e., all market participants that choose to purchase the 10 Gbps physical port). Additionally, the Exchange does not believe its proposed pricing will impose a barrier to entry to smaller participants and notes that its proposed connectivity pricing is associated with relative usage of the various market participants. For example, market participants with modest capacity needs can continue to buy the less expensive 1 Gbps physical port (which cost is not changing). While pricing may be increased for the larger capacity physical porfts, such options provide far more capacity and are purchased by those that consume more resources from the network. Accordingly, the proposed connectivity fees do not favor certain categories of market participants in a manner that would impose a burden on competition; rather, the allocation reflects the network resources consumed by the various size of market participants—lowest bandwidth consuming members pay the least, and highest bandwidth consuming members pays the most.

The Exchange's proposed fee is also still lower than some fees for similar connectivity on other exchanges and therefore may stimulate intermarket competition by attracting additional firms to connect to the Exchange or at least should not deter interested participants from connecting directly to the Exchange. Further, if the changes proposed herein are unattractive to market participants, the Exchange can, and likely will, see a decline in connectivity via 10 Gbps physical ports as a result. The Exchange operates in a highly competitive market in which market participants can determine whether or not to connect directly to the Exchange based on the value received compared to the cost of doing so. Indeed, market participants have numerous alternative venues that they may participate on and direct their order flow, including 13 non-Cboe affiliated options markets, as well as off-exchange venues, where competitive products are available for trading. Moreover, the Commission has repeatedly expressed its preference for competition over regulatory intervention in determining prices, products, and services in the securities markets. Specifically, in Regulation NMS, the Commission highlighted the importance of market forces in determining prices and SRO revenues and, also, recognized that current regulation of the market system ''has

[22] *See* also 15 U.S.C. 78k–l(a)(1)(C)(ii) (purposes of Exchange Act include to promote ''fair competition among brokers and dealers, among exchange markets, and between exchange markets and markets other than exchange markets''); Order, 73 FR at 74781 (''The Exchange Act and its legislative history strongly support the Commission's reliance on competition, whenever possible, in meeting its regulatory responsibilities for overseeing the SROs and the national market system.'').

been remarkably successful in promoting market competition in its broader forms that are most important to investors and listed companies.'' [23] The fact that this market is competitive has also long been recognized by the courts. In NetCoalition v. Securities and Exchange Commission, the D.C. Circuit stated as follows: ''[n]o one disputes that competition for order flow is 'fierce.' . . . As the SEC explained, '[i]n the U.S. national market system, buyers and sellers of securities, and the broker-dealers that act as their order-routing agents, have a wide range of choices of where to route orders for execution'; [and] 'no exchange can afford to take its market share percentages for granted' because 'no exchange possesses a monopoly, regulatory or otherwise, in the execution of order flow from broker dealers'. . . .''.[24] Accordingly, the Exchange does not believe its proposed change imposes any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

The Exchange neither solicited nor received comments on the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to section 19(b)(3)(A) of the Act [25] and paragraph (f) of Rule 19b–4 [26] thereunder. At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission will institute proceedings to determine whether the proposed rule change should be approved or disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic Comments

- Use the Commission's internet comment form (*https://www.sec.gov/rules/sro.shtml*); or
- Send an email to *rule-comments@sec.gov.* Please include file number SR–C2–2024–005 on the subject line.

Paper Comments

- Send paper comments in triplicate to Secretary, Securities and Exchange Commission, 100 F Street NE, Washington, DC 20549–1090.

All submissions should refer to file number SR–C2–2024–005. This file number should be included on the subject line if email is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's internet website (*https://www.sec.gov/rules/sro.shtml*). Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for website viewing and printing in the Commission's Public Reference Room, 100 F Street NE, Washington, DC 20549, on official business days between the hours of 10 a.m. and 3 p.m. Copies of the filing also will be available for inspection and copying at the principal office of the Exchange. Do not include personal identifiable information in submissions; you should submit only information that you wish to make available publicly. We may redact in part or withhold entirely from publication submitted material that is obscene or subject to copyright protection. All submissions should refer to file number SR–C2–2024–005 and should be submitted on or before May 20, 2024.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.[27]

Sherry R. Haywood,

Assistant Secretary.

SECURITIES AND EXCHANGE COMMISSION

Sunshine Act Meetings

TIME AND DATE: 1:30 p.m. on Thursday, May 2, 2024.

PLACE: The meeting will be held via remote means and/or at the Commission's headquarters, 100 F Street, NE, Washington, DC 20549.

STATUS: This meeting will be closed to the public.

MATTERS TO BE CONSIDERED: Commissioners, Counsel to the Commissioners, the Secretary to the Commission, and recording secretaries will attend the closed meeting. Certain staff members who have an interest in the matters also may be present.

In the event that the time, date, or location of this meeting changes, an announcement of the change, along with the new time, date, and/or place of the meeting will be posted on the Commission's website at *https://www.sec.gov.*

The General Counsel of the Commission, or her designee, has certified that, in her opinion, one or more of the exemptions set forth in 5 U.S.C. 552b(c)(3), (5), (6), (7), (8), 9(B) and (10) and 17 CFR 200.402(a)(3), (a)(5), (a)(6), (a)(7), (a)(8), (a)(9)(ii) and (a)(10), permit consideration of the scheduled matters at the closed meeting.

The subject matter of the closed meeting will consist of the following topics:

Institution and settlement of injunctive actions;

Institution and settlement of administrative proceedings;

Resolution of litigation claims; and

Other matters relating to examinations and enforcement proceedings.

At times, changes in Commission priorities require alterations in the scheduling of meeting agenda items that may consist of adjudicatory, examination, litigation, or regulatory matters.

CONTACT PERSON FOR MORE INFORMATION: For further information; please contact Vanessa A. Countryman from the Office of the Secretary at (202) 551–5400.

Authority: 5 U.S.C. 552b.

Dated: April 25, 2024.

Vanessa A. Countryman,

Secretary.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–100017; File No. 4–757]

Joint Industry Plan; Order Instituting Proceedings To Determine Whether To Approve or Disapprove a National Market System Plan Regarding Consolidated Equity Market Data

April 23, 2024.

I. Introduction

On October 23, 2023, Cboe BYX Exchange, Inc., Cboe BZX Exchange, Inc., Cboe EDGA Exchange, Inc., Cboe EDGX Exchange, Inc., Cboe Exchange, Inc., Investors Exchange LLC, Long Term Stock Exchange, Inc., MEMX LLC, MIAX PEARL, LLC, Nasdaq BX, Inc., Nasdaq ISE, LLC, Nasdaq PHLX LLC, Nasdaq Stock Market LLC, New York Stock Exchange LLC, NYSE American LLC, NYSE Arca, Inc., NYSE Chicago, Inc., NYSE National, Inc., and Financial Industry Regulatory Authority, Inc. (collectively, the ''SROs'' or ''Participants'') filed with the Securities and Exchange Commission (''Commission'') a proposed new single national market system plan governing the public dissemination of real-time consolidated equity market data for national market system (''NMS'') stocks (the ''CT Plan''). The proposed CT Plan was published for comment in the **Federal Register** on January 25, 2024.[1]

This order institutes proceedings, under Rule 608(b)(2)(i) of Regulation NMS,[2] to determine whether to approve or disapprove the proposed CT Plan or to approve it with any changes or subject to any conditions the Commission deems necessary or appropriate after considering public comment.[3]

II. Background

On September 1, 2023, the Commission issued an amended order directing the SROs to submit a new national market system plan (''NMS plan'') regarding consolidated equity market data to replace the three NMS plans (''Equity Data Plans'')[4] that govern the public dissemination of real-time consolidated market data for NMS stocks,[5] and to include specified provisions in the proposed NMS plan.[6] The SROs filed the proposed CT Plan pursuant to the Amended Governance Order.[7]

III. Proceedings To Determine Whether To Approve or Disapprove the Proposed CT Plan

The Commission is instituting proceedings pursuant to Rule 608(b)(2)(i) of Regulation NMS,[8] and Rules 700 and 701 of the Commission's Rules of Practice,[9] to determine whether to approve or disapprove the proposed CT Plan or to approve it with any changes or subject to any conditions the Commission deems necessary or appropriate after considering public comment. The Commission is instituting proceedings to have sufficient time to consider the issues raised by the proposed CT Plan, including comments received. Institution of proceedings does not indicate that the Commission has reached any conclusions with respect to any of the issues involved. Rather, the Commission seeks and encourages interested persons to provide additional comment on the proposed CT Plan to inform the Commission's analysis.

Rule 608(b)(2) of Regulation NMS provides that the Commission ''shall approve a national market system plan . . ., with such changes or subject to such conditions as the Commission may deem necessary or appropriate, if it finds that such plan . . . is necessary or appropriate in the public interest, for the protection of investors and the maintenance of fair and orderly markets, to remove impediments to, and perfect the mechanisms of, a national market system, or otherwise in furtherance of the purposes of'' the Securities Exchange Act of 1934 (''Exchange Act'').[10] Rule 608(b)(2) of Regulation NMS further provides that the Commission shall disapprove a national market system plan or proposed amendment if it does not make such a finding.[11] In this order, pursuant to Rule 608(b)(2)(i) of Regulation NMS,[12] the Commission is providing notice of the grounds for disapproval under consideration:

1. Whether the proposed CT Plan is consistent with the Amended Governance Order;

2. Whether, consistent with Rule 608(b)(2) of Regulation NMS,[13] the terms of the proposed CT Plan are necessary or appropriate in the public interest, for the protection of investors and the maintenance of fair and orderly markets, to remove impediments to, and perfect the mechanisms of, a national market system, or otherwise in furtherance of the purposes of the Exchange Act;

3. Whether modifications to the proposed CT Plan, or conditions to its approval, would be necessary to make the proposed plan necessary or appropriate in the public interest, for the protection of investors and the maintenance of fair and orderly markets, to remove impediments to, and perfect the mechanisms of, a national market system, or otherwise in furtherance of the purposes of the Exchange Act;

4. Whether the proposed CT Plan is consistent with Congress's finding, in section 11A(a)(1)(C)(iii) of the Exchange Act, that it is in the public interest and appropriate for the protection of investors and the maintenance of fair and orderly markets to ensure ''the availability to brokers, dealers, and investors of information with respect to quotations for and transactions in securities'';[14]

5. Whether, consistent with the purposes of section 11A(c)(1)(B) of the Exchange Act, the proposed CT Plan is appropriately structured, and whether its provisions are appropriately drafted, to support the prompt, accurate, reliable, and fair collection, processing, distribution, and publication of information with respect to quotations for and transactions in NMS stocks, and the fairness and usefulness of the form and content of such information;[15] and

6. Whether, consistent with Rule 608(b)(2) of Regulation NMS,[16] the proposed timeline for implementation in Exhibit F[17] of the proposed CT Plan is necessary or appropriate in the public interest, for the protection of investors

[17] *See* Notice, *supra* note 1, 89 FR at 5027–29.

and the maintenance of fair and orderly markets, to remove impediments to, and perfect the mechanisms of, a national market system, or otherwise in furtherance of the purposes of the Exchange Act.

Under the Commission's Rules of Practice, the ''burden to demonstrate that a NMS plan filing is consistent with the Exchange Act and the rules and regulations issued thereunder . . . is on the plan participants that filed the NMS plan filing.'' [18] The description of the NMS plan filing, its purpose and operation, its effect, and a legal analysis of its consistency with applicable requirements must all be sufficiently detailed and specific to support an affirmative Commission finding.[19] Any failure by the Participants to provide such detail and specificity may result in the Commission not having a sufficient basis to make an affirmative finding that the NMS plan filing is consistent with the Exchange Act and the applicable rules and regulations thereunder.[20]

IV. Commission's Solicitation of Comments

The Commission requests that interested persons provide written submissions of their views, data, and arguments with respect to the issues identified above, as well as any other concerns they may have with the proposed CT Plan. The Commission asks that commenters address the sufficiency and merit of the Participants' statements in support of the proposed CT Plan, in addition to any other comments they may wish to submit about the proposed CT Plan. In particular, the Commission seeks comment on the following:

1. What are commenters' views on whether the proposed CT Plan is consistent with Section 11A or any other provisions of the Exchange Act, or the rules and regulations thereunder?

2. Should any elements of the proposed timeline in Exhibit F [21] of the proposed CT Plan be shortened to ensure that implementation of the proposed CT Plan can be achieved within a reasonable time? If so, which ones and why? Should any elements of the proposed timeline be extended? If so, which ones and why? If the Commission should modify any elements of the proposed timeline, how specifically should it change them? Should the Commission modify the proposed CT Plan to include a specific required end date for implementation? Why or why not? And if so, what should that date be and why?

3. Should the Commission modify the sequence of implementation steps identified in Exhibit F of the proposed CT Plan [22] to provide for greater efficiencies, such as through increased parallel performance of workstream tasks? [23] If so, what changes should be made? Do commenters believe that the proposed implementation schedule's dependencies—the steps that need to be completed before other steps can begin—are justified or otherwise reasonable? Are there dependencies that could be removed or modified to accelerate implementation of the proposed CT Plan? If so, which ones and why? What advantages or disadvantages, including risks or complications, would be associated with such modifications to the implementation timeline?

4. What are commenters' views of Section 14.1 of the proposed CT Plan,[24] which would allow the Operating Committee to lengthen the implementation timelines in Exhibit F by an affirmative vote of the Operating Committee? [25] Should the proposed CT Plan include specific standards to be met before the implementation timelines are lengthened? Should any such changes be subject to Commission approval? Why or why not?

5. Should the Commission modify the proposed CT Plan to allow the Operating Committee to appoint one or more of the current Equity Data Plan administrators to serve as interim Administrator(s) for the proposed CT Plan pending the selection and onboarding of a permanent independent Administrator that meets the Amended Governance Order's requirement that the independent plan Administrator shall not ''be owned or controlled by a corporate entity that, either directly or via another subsidiary, offers for sale its own proprietary market data product for NMS stocks''? [26] How might an interim Administrator affect the implementation schedule for the proposed CT Plan? If the Commission modified the proposed CT Plan to permit interim Administrator(s), should it modify the implementation schedule accordingly? If so, how? What would be the advantages and disadvantages associated with the appointment of such an interim Administrator(s)?

6. Are there additional actions of the proposed CT Plan Operating Committee that should not be subject to the two-thirds-vote requirement in Section 4.3(b) of the proposed CT Plan? [27] If so, which actions and why?

Although there do not appear to be any issues relevant to approval or disapproval that would be facilitated by an oral presentation of views, data, and arguments, the Commission will consider, pursuant to Rule 608(b)(2)(i) of Regulation NMS,[28] any request for an opportunity to make an oral presentation.[29]

Comments may be submitted by any of the following methods:

Electronic Comments

- Use the Commission's internet comment form (*http://www.sec.gov/rules/sro.shtml*); or
- Send an email to *rule-comments@sec.gov.* Please include File Number 4–757 on the subject line.

Paper Comments

- Send paper comments in triplicate to: Secretary, Securities and Exchange Commission, 100 F Street NE, Washington, DC 20549–1090.

All submissions should refer to File Number 4–757. This file number should be included on the subject line if email is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's internet website (*http://www.sec.gov/rules/sro.shtml*). Copies of the submission, all subsequent amendments, all written statements with respect to the proposed CT Plan that are filed with the Commission, and all written communications relating to the proposed CT Plan between the Commission and any person, other than those that may be withheld from the public in accordance with the

BILLING CODE 8011–01–P

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–100014; File No. SR–NYSEArca–2023–70]

Self-Regulatory Organizations; NYSE Arca, Inc.; Notice of Designation of a Longer Period for Commission Action on Proceedings To Determine Whether To Approve or Disapprove a Proposed Rule Change, as Modified by Amendment No. 1, To List and Trade Shares of the Grayscale Ethereum Trust Under NYSE Arca Rule 8.201–E (Commodity-Based Trust Shares)

April 23, 2024.

On October 10, 2023, NYSE Arca, Inc. (''NYSE Arca'' or ''Exchange'') filed with the Securities and Exchange Commission (''Commission''), pursuant to section 19(b)(1) of the Securities Exchange Act of 1934 (''Act'')[1] and Rule 19b–4 thereunder,[2] a proposed rule change to list and trade shares (''Shares'') of the Grayscale Ethereum Trust (''Trust'') under NYSE Arca Rule 8.201–E (Commodity-Based Trust Shares). The proposed rule change was published for comment in the **Federal Register** on October 27, 2023.[3]

On December 5, 2023, pursuant to section 19(b)(2) of the Act,[4] the Commission designated a longer period within which to approve the proposed rule change, disapprove the proposed rule change, or institute proceedings to determine whether to disapprove the proposed rule change.[5] On January 25, 2024, the Commission instituted proceedings under section 19(b)(2)(B) of the Act[6] to determine whether to approve or disapprove the proposed rule change.[7] On March 15, 2024, the Exchange filed Amendment No. 1, which replaced and superseded the proposed rule change in its entirety. On April 2, 2024, the Commission published notice of Amendment No. 1 to the proposed rule change.[8]

Section 19(b)(2) of the Act[9] provides that, after initiating proceedings, the Commission shall issue an order approving or disapproving the proposed rule change not later than 180 days after the date of publication of notice of filing of the proposed rule change. The Commission may extend the period for issuing an order approving or disapproving the proposed rule change, however, by not more than 60 days if the Commission determines that a longer period is appropriate and publishes the reasons for such determination. The proposed rule change was published for comment in the **Federal Register** on October 27, 2023.[10] The 180th day after publication of the proposed rule change is April 24, 2024. The Commission is extending the time period for approving or disapproving the proposed rule change for an additional 60 days.

The Commission finds that it is appropriate to designate a longer period within which to issue an order approving or disapproving the proposed rule change so that it has sufficient time to consider the proposed rule change, as modified by Amendment No. 1, and the issues raised therein. Accordingly, the Commission, pursuant to section 19(b)(2) of the Act,[11] designates June 23, 2024, as the date by which the Commission shall either approve or disapprove the proposed rule change, as modified by Amendment No. 1 (File No. SR–NYSEArca–2023–70).

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.[12]

Sherry R. Haywood,

Assistant Secretary.

and superseded the proposed rule change in its entirety. Amendment No. 1 is described in Items I and II below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change, as modified by Amendment No. 1, from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to a proposed rule change to list and trade shares of the iShares Ethereum Trust (the ''Trust'') under Nasdaq Rule 5711(d) (''Commodity-Based Trust Shares''). The shares of the Trust are referred to herein as the ''Shares.'' This Amendment No. 1 supersedes the original filing in its entirety.

The text of the proposed rule change is available on the Exchange's website at *https://listingcenter.nasdaq.com/rulebook/nasdaq/rules,* at the principal office of the Exchange, and at the Commission's Public Reference Room.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to list and trade the Shares under Nasdaq Rule 5711(d),[8] which governs the listing and trading of Commodity-Based Trust Shares on the Exchange. iShares Delaware Trust Sponsor LLC, a Delaware limited liability company and an indirect subsidiary of BlackRock, Inc. (''BlackRock''), is the sponsor of the Trust (the ''Sponsor''). The Shares will be registered with the SEC by means of the Trust's registration statement on Form S–1 (the ''Registration Statement'').[9]

Description of the Trust

The Shares will be issued by the Trust, a Delaware statutory trust. The Trust will operate pursuant to a trust agreement (the ''Trust Agreement'') between the Sponsor, BlackRock Fund Advisors (the ''Trustee'') as the trustee of the Trust and will appoint a Delaware Trustee of the Trust (the ''Delaware Trustee'') by such time that the Registration Statement is effective. The Trust issues Shares representing fractional undivided beneficial interests in its net assets. The assets of the Trust will consist only of ether held by a custodian on behalf of the Trust, except under limited circumstances when transferred through the Trust's prime broker temporarily (described below), and cash. Coinbase Custody Trust Company, LLC (the ''Ether Custodian''), is the custodian for the Trust's ether holdings, and maintains a custody account for the Trust (''Custody Account''); Coinbase, Inc. (the ''Prime Execution Agent''), an affiliate of the Ether Custodian, is the prime broker for the Trust and maintains a trading account for the Trust (''Trading Account''); and another entity will be the custodian for the Trust's cash holdings (the ''Cash Custodian'' and together with the Ether Custodian, the ''Custodians'') and the administrator of the Trust (the ''Trust Administrator''). Under the Trust Agreement, the Trustee may delegate all or a portion of its duties to any agent, and has delegated the bulk of the day-to-day responsibilities to the Trust Administrator and certain other administrative and record-keeping functions to its affiliates and other agents. The Trust is not an investment company registered under the Investment Company Act of 1940, as amended (the ''1940 Act'').

The investment objective of the Trust is to reflect generally the performance of the price of ether. The Trust seeks to reflect such performance before payment of the Trust's expenses and liabilities. The Shares are intended to constitute a simple means of making an investment similar to an investment in ether through the public securities market rather than by acquiring, holding and trading ether directly on a peer-to-peer or other basis or via a digital asset platforms. The Shares have been designed to remove the obstacles represented by the complexities and operational burdens involved in a direct investment in ether, while at the same time having an intrinsic value that reflects, at any given time, the investment exposure to the ether owned by the Trust at such time, less the Trust's expenses and liabilities. Although the Shares are not the exact equivalent of a direct investment in ether, they provide investors with an alternative method of achieving investment exposure to ether through the public securities market, which may be more familiar to them.

Custody of the Trust's Ether and Creation and Redemption

An investment in the Shares is backed by ether held by the Ether Custodian on behalf of the Trust. All of the Trust's ether will be held in the Custody Account, other than the Trust's ether which is temporarily maintained in the Trading Account under limited circumstances, *i.e.,* in connection with creation and redemption Basket[10] activity or sales of ether deducted from the Trust's holdings in payment of Trust expenses or the Sponsor's fee (or, in extraordinary circumstances, upon liquidation of the Trust). The Custody Account includes all of the Trust's ether held at the Ether Custodian, but does not include the Trust's ether temporarily maintained at the Prime Execution Agent in the Trading Account from time to time. The Ether Custodian will keep all of the private keys associated with the Trust's ether held in the Custody Account in ''cold storage''.[11] The hardware, software, systems, and procedures of the Ether Custodian may not be available or cost-effective for many investors to access directly.

The Trust's ether holdings and cash holdings from time to time may temporarily be maintained in the Trading Account held with the Prime Execution Agent, an affiliate of the Ether Custodian. Coinbase Inc. serves as the Trust's Prime Execution Agent pursuant to the Trust's agreement with the Prime Execution Agent (''Prime Execution Agent Agreement''). In this capacity, the Prime Execution Agent facilitates the

[8] The Commission approved Nasdaq Rule 5711 in Securities Exchange Act Release No. 66648 (March 23, 2012), 77 FR 19428 (March 30, 2012) (SR–NASDAQ–2012–013).

[9] The descriptions of the Trust contained herein are based, in part, on information in the Registration Statement. The Registration Statement in not yet effective and the Shares will not trade on the Exchange until such time that the Registration Statement is effective.

[10] The Trust issues and redeems Shares only in blocks of 40,000 or integral multiples thereof. A block of 40,000 Shares is called a ''Basket.'' These transactions take place in exchange for ether.

[11] The term ''cold storage'' refers to a safeguarding method by which the private keys corresponding to the Trust's ether are generated and stored in an offline manner, subject to layers of procedures designed to enhance security. Private keys are generated by the Ether Custodian in offline computers that are not connected to the internet so that they are more resistant to being hacked.

buying and selling of ether by the Trust in response to cash creations and redemptions between the Trust and registered broker-dealers that are Depositary Trust Company (''DTC'') participants that enter into an authorized participant agreement with the Sponsor and the Trustee (''Authorized Participants''), and the sale of ether to pay the Sponsor's fee, any other Trust expenses not assumed by the Sponsor, to the extent applicable, and in extraordinary circumstances, in connection with the liquidation of the Trust's ether.

The Authorized Participants will deliver only cash to create shares and will receive only cash when redeeming shares. Further, Authorized Participants will not directly or indirectly purchase, hold, deliver, or receive ether as part of the creation or redemption process or otherwise direct the Trust or a third party with respect to purchasing, holding, delivering, or receiving ether as part of the creation or redemption process.

The Trust will create shares by receiving ether from a third party that is not the Authorized Participant and the Trust—not the Authorized Participant—is responsible for selecting the third party to deliver the ether. Further, the third party will not be acting as an agent of the Authorized Participant with respect to the delivery of the ether to the Trust or acting at the direction of the Authorized Participant with respect to the delivery of the ether to the Trust. The Trust will redeem shares by delivering ether to a third party that is not the Authorized Participant and the Trust—not the Authorized Participant—is responsible for selecting the third party to receive the ether. Further, the third party will not be acting as an agent of the Authorized Participant with respect to the receipt of the ether from the Trust or acting at the direction of the Authorized Participant with respect to the receipt of the ether from the Trust. The third party will be unaffiliated with the Trust and the Sponsor.

In connection with cash creations and cash redemptions, the Authorized Participants will submit orders to create or redeem Baskets of Shares exclusively in exchange for cash. The Trust will engage in ether transactions to convert cash into ether (in association with creation orders) and ether into cash (in association with redemption orders). The Trust will conduct its ether purchase and sale transactions by, in its sole discretion, choosing to trade directly with designated third parties (each, an ''Ether Trading Counterparty''), who are not registered broker-dealers pursuant to written agreements between each such Ether Trading Counterparty and the Trust, or choosing to trade through the Prime Execution Agent acting in an agency capacity with third parties through its Coinbase Prime service [12] pursuant to the Prime Execution Agent Agreement. Ether Trading Counterparties settle trades with the Trust using their own accounts at the Prime Execution Agent when trading with the Trust.

For a creation of a Basket of Shares, the Authorized Participant will be required to submit the creation order by an early order cutoff (''Creation Early Cutoff Time''). The Creation Early Cutoff Time will initially be 6:00 p.m. ET on the business day prior to trade date.

On the date of the Creation Early Cutoff Time for a creation order, the Trust will choose, in its sole discretion, to enter into a transaction with an Ether Trading Counterparty or the Prime Execution Agent to buy ether in exchange for the cash proceeds from such creation order. On settlement date for a creation, the Trust delivers Shares to the Authorized Participant in exchange for cash received from the Authorized Participant. Also, on or around the settlement date, the Ether Trading Counterparty or Prime Execution Agent, as applicable, deposits the required ether pursuant to its trade with the Trust into the Trust's Trading Account in exchange for cash. In the event the Trust has not been able to successfully execute and complete settlement of an ether transaction by the settlement date of the creation order, the Authorized Participant will be given the option to (1) cancel the creation order, or (2) accept that the Trust will continue to attempt to complete the execution, which will delay the settlement date of the creation order. With respect to a creation order, as between the Trust and the Authorized Participant, the Authorized Participant is responsible for the dollar cost of the difference between the ether price utilized in calculating NAV per Share on trade date and the price at which the Trust acquires the ether to the extent the price realized in buying the ether is higher than the ether price utilized in the NAV. To the extent the price realized in buying the ether is lower than the price utilized in the NAV, the Authorized Participant shall get to keep the dollar impact of any such difference.

Because the Trust's Trading Account may not be funded with cash on trade date for the purchase of ether associated with a cash creation order, the Trust may borrow trade credits (''Trade Credits'') in the form of cash from Coinbase Credit, Inc. (the ''Trade Credit Lender''), an affiliate of the Prime Execution Agent, under the trade financing agreement (''Trade Financing Agreement'') or may require the Authorized Participant to deliver the required cash for the creation order on trade date. The extension of Trade Credits on trade date allows the Trust to purchase ether through the Prime Execution Agent on trade date, with such ether being deposited in the Trust's Trading Account. On settlement date for a creation order, the Trust delivers Shares to the Authorized Participant in exchange for cash received from the Authorized Participant. To the extent Trade Credits were utilized, the Trust uses the cash to repay the Trade Credits borrowed from the Trade Credit Lender. On settlement date for a creation order, the ether purchased is swept from the Trust's Trading Account to the Trust's Custody Account pursuant to a regular end-of-day sweep process.

For a redemption of a Basket of Shares, the Authorized Participant will be required to submit a redemption order by an early order cutoff (the ''Redemption Early Cutoff Time''). The Redemption Early Cutoff Time will initially be 6:00 p.m. ET on the business day prior to trade date. On the date of the Redemption Early Cutoff Time for a redemption order, the Trust may choose, in its sole discretion, to enter into a transaction with an Ether Trading Counterparty or the Prime Execution Agent, to sell ether in exchange for cash. After the Redemption Early Cutoff Time, the Trust instructs the Ether Custodian to prepare to move the associated ether from the Trust's Custody Account to the Trust's Trading Account. On settlement date for a redemption order, the Authorized Participant delivers the necessary Shares to the Trust, and on or around settlement date, an Ether Trading Counterparty or Prime Execution Agent, as applicable, delivers the cash associated with the Trust's sale of ether to the Trust in exchange for the Trust's ether, and the Trust delivers cash to the Authorized Participant. In the event the Trust has not been able to successfully execute and complete settlement of an ether transaction by the settlement date, the Authorized Participant will be given the option to

[12] The Coinbase Prime service is an execution service pursuant to which Coinbase will execute ether orders for the Trust by accessing liquidity from sources such as ether trading platforms, which can include Coinbase's own platform, and other liquidity providers. Trades can be executed according to an algorithm or on the basis of firm quotes sought by requests-for-quote (''RFQ'') for a two-way price sent to liquidity providers. Algorithmic trades can be self-directed or executed by Coinbase's high touch execution desk, Coinbase Execution Services.

(1) cancel the redemption order, or (2) accept that the Trust will continue to attempt to complete the execution, which will delay the settlement date. With respect to a redemption order, between the Trust and the Authorized Participant, the Authorized Participant will be responsible for the dollar cost of the difference between the ether price utilized in calculating the NAV per Share on trade date and the price realized in selling the ether to raise the cash needed for the cash redemption order to the extent the price realized in selling the ether is lower than the ether price utilized in the NAV. To the extent the price realized in selling the bitcoin is higher than the price utilized in the NAV, the Authorized Participant will get to keep the dollar impact of any such difference.

The Trust may use financing in connection with a redemption order when ether remains in the Trust's Custody Account at the point of intended execution of a sale of ether. In those circumstances, the Trust may borrow Trade Credits in the form of ether from the Trade Credit Lender, which allows the Trust to sell ether through the Prime Execution Agent on trade date, and the cash proceeds are deposited in the Trust's Trading Account. On settlement date for a redemption order, the Trust delivers cash to the Authorized Participant in exchange for Shares received from the Authorized Participant. In the event financing was used, the Trust will use the ether moved from the Trust's Custody Account to the Trading Account to repay the Trade Credits borrowed from the Trade Credit Lender.

Net Asset Value

The net asset value (''NAV'') of the Trust is used by the Trust in its day-to-day operations to measure the net value of the Trust's assets. The NAV of the Trust will be equal to the total assets of the Trust, which will consist of ether and cash, less total liabilities of the Trust, each determined by the Trustee pursuant to policies established from time to time by the Trustee or its affiliates as described herein.

The Sponsor has the exclusive authority to determine the Trust's NAV, which it has delegated to the Trustee under the Trust Agreement. The Trustee has delegated to the Trust Administrator the responsibility to calculate the NAV and the NAV per Share for the Trust, based on a pricing source selected by the Trustee. In determining the Trust's NAV per Share, the Trust Administrator will value the ether held by the Trust based on the index price, unless the Sponsor in its sole discretion determines that the index is unreliable. The CME CF Ether-Dollar Reference Rate—New York Variant for the Ether-U.S. Dollar trading pair (the ''CF Benchmarks Index'') shall constitute the index (''the ''Index''), unless the CF Benchmarks Index is not available or the Sponsor in its sole discretion determines that the CF Benchmarks Index is unreliable and therefore determines not to use the CF Benchmarks Index as the Index. If the CF Benchmarks Index is not available or the Sponsor determines, in its sole discretion, that the CF Benchmarks Index is unreliable, (together a ''Fair Value Event''), the Trust's holdings may be fair valued on a temporary basis in accordance with the fair value policies approved by the Trustee. If the CF Benchmarks Index is not used as the Index price, owners of the beneficial interests of Shares (the ''Shareholders'') will be notified in a prospectus supplement or on the Trust's website and, if this index change is on a permanent basis, a filing with the SEC under Rule 19b–4 of the Act will be required.

A Fair Value Event value determination will be based upon all available factors that the Sponsor or Trustee deems relevant at the time of the determination, and may be based on analytical values determined by the Sponsor or Trustee using third-party valuation models.

Fair value policies approved by the Trustee will seek to determine the fair value price that the Trust might reasonably expect to receive from the current sale of that asset or liability in an arm's-length transaction on the date on which the asset or liability is being valued consistent with ''Relevant Transactions''.[13] In the instance of a Fair Value Event and pursuant the Sponsor's fair valuation policies and procedures Volume Weighted Average Prices (''VWAP'') or Volume Weighted Median Prices (''VWMP'') from another index administrator (''Secondary Index'') would be utilized. If a Secondary Index is not available or the Sponsor in its sole discretion determines the Secondary Index is unreliable the price set by the Trust's principal market as of 4:00 p.m. ET, on the valuation date would be utilized.

In the event the principal market price is not available or the Sponsor in its sole discretion determines the principal market valuation is unreliable the Sponsor will use its best judgment to determine a good faith estimate of fair value. The Trustee identifies and determines the Trust's principal market (or in the absence of a principal market, the most advantageous market) for ether consistent with the application of fair value measurement framework in FASB ASC 820–10.[14] The principal market is the market where the reporting entity would normally enter into a transaction to sell the asset or transfer the liability. The principal market must be available to and be accessible by the reporting entity. The reporting entity is the Trust.

Net Asset Value Calculation and Index

On each Business Day (as defined below), as soon as practicable after 4:00 p.m. ET, the Trust Administrator evaluates the ether held by the Trust as reflected by the CF Benchmarks Index and determines the NAV per Share. For purposes of making these calculations, a Business Day means any day other than a day when Nasdaq is closed for regular trading (''Business Day'').

The CF Benchmarks Index employed by the Trust is calculated on each Business Day by aggregating the notional value of ether trading activity across major ether spot platforms. The CF Benchmarks Index is designed based on the IOSCO Principles for Financial Benchmarks. The administrator of the CF Benchmarks Index is CF Benchmarks Ltd. (the ''Index Administrator''). The CF Benchmarks Index serves as a once-a-day benchmark rate of the U.S. dollar price of ether (USD/ETH), calculated as of 4:00 p.m. ET. The CF Benchmarks Index aggregates the trade flow of several ether platforms, during an observation window between 3:00 p.m. and 4:00 p.m. ET into the U.S. dollar price of one ether at 4:00 p.m. ET. Specifically, the CF Benchmarks Index is calculated based on the ''Relevant Transactions'' of all of its constituent ether platforms, which are currently: Bitstamp, Coinbase, Gemini, itBit, Kraken, and LMAX Digital (the ''Constituent Platforms''), and which may change from time to time.

If the CF Benchmarks Index is not available or the Sponsor determines, in

[13] A ''Relevant Transaction'' is any cryptocurrency versus U.S. dollar spot trade that occurs during the observation window between 3:00 p.m. and 4:00 p.m. ET on a ''Constituent Platform'' in the ETH/USD pair that is reported and disseminated by a Constituent Platform through its publicly available application programming interface and observed by the ''Index Administrator'', as such terms are defined below.

[14] *See* FASB (Financial Accounting Standards Board) Accounting standards codification (ASC) 820–10. For financial reporting purposes only, the Trustee has adopted a valuation policy that outlines the methodology for valuing the Trust's assets. The policy also outlines the methodology for determining the principal market (or in the absence of a principal market, the most advantageous market) in accordance with FASB ASC 820–10.

its sole discretion, that the CF Benchmarks Index is unreliable and so should not be used, the Trust's holdings may be fair valued in accordance with the policy approved by the Trustee.

The Trust is intended to provide a way for Shareholders to obtain exposure to ether by investing in the Shares rather than by acquiring, holding and trading ether directly on a peer-to-peer or other basis or via a digital asset platform. An investment in Shares of the Trust is not the same as an investment directly in ether on a peer-to-peer or other basis or via a digital asset platform.

Intraday Indicative Value

In order to provide updated information relating to the Trust for use by Shareholders, the Trust intends to publish an intraday indicative value per Share (''IIV'') using the CME CF Ether-Dollar Real Time Index. One or more major market data vendors will provide an IIV updated every 15 seconds, as calculated by the Exchange or a third-party financial data provider during the Exchange's regular market session of 9:30 a.m. to 4:00 p.m. ET (the ''Regular Market Session''). The IIV will be calculated by using the prior day's closing NAV per Share as a base and updating that value during the Exchange's Regular Market Session to reflect changes in the value of the Trust's NAV per Share during the trading day.

The IIV is disseminated during the Exchange's Regular Market Session should not be viewed as an actual real time update of the NAV per Share, which will be calculated only once at the end of each trading day.

The IIV will be widely disseminated on a per Share basis every 15 seconds during the Exchange's Regular Market Session by one or more major market data vendors. In addition, the IIV will be available through online information services. All aspects of the Index Methodology are publicly available at the website of Index Provider, CF Benchmarks (*https://www.cfbenchmarks.com*).

Creation and Redemption of Shares

The Trust issues and redeems Baskets [15] on a continuous basis. Baskets are only issued or redeemed in exchange for an amount of cash determined by the Trustee on each day that Nasdaq is open for regular trading. No Shares are issued unless the Cash Custodian has allocated to the Trust's account the corresponding amount of cash. The amount of cash necessary for the creation of a Basket, or to be received upon redemption of a Basket, will decrease over the life of the Trust, due to the payment or accrual of fees and other expenses or liabilities payable by the Trust. Baskets may be created or redeemed only by Authorized Participants, who pay BlackRock Investments, LLC (''BRIL''), an affiliate of the Trustee and a wholly owned subsidiary of BlackRock, Inc., that has been retained by the Trust to perform certain order processing, Authorized Participant communications, and related services in connection with the issuance and redemption of Baskets, a transaction fee for each order to create or redeem Baskets.

The Sponsor will maintain ownership and control of the ether in a manner consistent with good delivery requirements for spot commodity transactions.

Overview of the Ethereum Industry

Ethereum is free software that is hosted on computers distributed throughout the globe. It employs an array of computer code-based logic, called a protocol, to create a unified understanding of ownership, commercial activity, and economic logic. This allows users to engage in commerce without the need to trust any of its participants or counterparties. Ethereum code creates verifiable and unambiguous rules that assign clear, strong property rights to create a platform for unrestrained business formation and free exchange. No single intermediary or entity operates or controls the Ethereum network (referred to as ''decentralization''), the transaction validation and recordkeeping infrastructure of which is collectively maintained by a disparate user base. The Ethereum network allows people to exchange tokens of value, or ether (''ETH''), which are recorded on a distributed public recordkeeping system or ledger known as a blockchain (the ''Ethereum Blockchain''), and which can be used to pay for goods and services, including computational power on the Ethereum network, or converted to fiat currencies, such as the U.S. dollar, at rates determined on digital asset platforms or in individual peer-to-peer transactions. Furthermore, by combining the recordkeeping system of the Ethereum Blockchain with a flexible scripting language that is programmable and can be used to implement sophisticated logic and execute a wide variety of instructions, the Ethereum network is intended to act as a foundational infrastructure layer on top of which users can build their own custom software programs, as an alternative to centralized web servers. In theory, anyone can build their own custom software programs on the Ethereum network. In this way, the Ethereum network represents a project to expand blockchain deployment beyond a peer-to-peer private money system into a flexible, distributed alternative computing infrastructure that is available to all. On the Ethereum network, ETH is the unit of account that users pay for the computational resources consumed by running their programs.

Up to now, U.S. retail investors have lacked a U.S. regulated, U.S. exchange-traded vehicle to gain exposure to ETH. Instead, current options include: (i) facing the counter-party risk, legal uncertainty, technical risk, and complexity associated with accessing spot ether or (ii) over-the-counter ether funds (''OTC ETH Funds'') with high management fees and potentially volatile premiums and discounts. Meanwhile, investors in other countries, including Germany, Switzerland and France, are able to use more traditional exchange listed and traded products (including exchange-traded funds holding physical ETH) to gain exposure to ETH. Investors across Europe have access to products which trade on regulated exchanges and provide exposure to a broad array of spot crypto assets. U.S. investors, by contrast, are left with fewer and more risky means of getting ether exposure.[16]

To this point, the lack of an ETP that holds spot ETH (a ''Spot ETH ETP'') exposes U.S. investor assets to significant risk because investors that would otherwise seek cryptoasset exposure through a Spot ETH ETP are forced to find alternative exposure through generally riskier means. For example, investors in OTC ETH Funds are not afforded the benefits and protections of regulated Spot ETH ETPs, resulting in retail investors suffering losses due to drastic movements in the premium/discount of OTC ETH Funds. An investor who purchased the largest

[15] Baskets will be offered continuously at the NAV per Share for 40,000 Shares. Therefore, a Basket of Shares would be valued at NAV per Share multiplied by the Basket size and the ether required to be delivered in exchange for a creation of a Basket would equal the dollar value of the NAV per Share multiplied by the Basket size for such creations. The Trust may change the number of Shares in a Basket. Only Authorized Participants may purchase or redeem Baskets. Shares will be offered to the public from time to time at varying prices that will reflect the price of ether and the trading price of the Shares on Nasdaq at the time of the offer.

[16] The Exchange notes that the list of countries above is not exhaustive and that securities regulators in a number of additional countries have either approved or otherwise allowed the listing and trading of Spot ETH ETPs.

OTC ETH Fund in January 2021 and held the position at the end of 2022 would have suffered a 30% loss due to the change in the premium/discount, even if the price of ETH did not change. Many retail investors likely suffered losses due to this premium/discount in OTC ETH Fund trading; all such losses could have been avoided if a Spot ETH ETP had been available. Additionally, many U.S. investors that held their digital assets in accounts at FTX,[17] Celsius Network LLC,[18] BlockFi Inc.[19] and Voyager Digital Holdings, Inc.[20] have become unsecured creditors in the insolvencies of those entities. If a Spot ETH ETP was available, it is likely that at least a portion of the billions of dollars tied up in those proceedings would still reside in the brokerage accounts of U.S. investors, having instead been invested in a transparent, regulated, and well-understood structure—a Spot ETH ETP. To this point, approval of a Spot ETH ETP would represent a major win for the protection of U.S. investors in the cryptoasset space. The Trust, like all other series of Commodity-Based Trust Shares, is designed to protect investors against the risk of losses through fraud and insolvency that arise by holding digital assets, including ETH, on centralized platforms.

Applicable Standard

The Commission has historically approved or disapproved exchange filings to list and trade series of Trust Issued Receipts, including spot based Commodity-Based Trust Shares, on the basis of whether the listing exchange has in place a comprehensive surveillance sharing agreement with a regulated market of significant size related to the underlying commodity to be held.[21] Prior orders from the Commission have pointed out that in every prior approval order for Commodity-Based Trust Shares, there has been a derivatives market that represents the regulated market of significant size, generally a Commodity Futures Trading Commission (''CFTC'') regulated futures market.[22] Further to

[17] *See* FTX Trading Ltd., et al., Case No. 22–11068.

[18] *See* Celsius Network LLC, et al., Case No. 22–10964.

[19] *See* BlockFi Inc., Case No. 22–19361.

[20] *See* Voyager Digital Holdings, Inc., et al., Case No. 22–10943.

[21] *See* Securities Exchange Act Release No. 83723 (July 26, 2018), 83 FR 37579 (August 1, 2018). This proposal was subsequently disapproved by the Commission. *See* Securities Exchange Act Release No. 83723 (July 26, 2018), 83 FR 37579 (August 1, 2018) (the ''Winklevoss Order''). Prior orders from the Commission have pointed out that in every prior approval order for Commodity-Based Trust Shares, there has been a derivatives market that represents the regulated market of significant size, generally a Commodity Futures Trading Commission (the ''CFTC'') regulated futures market. Further to this point, the Commission's prior orders have noted that the spot commodities and currency markets for which it has previously approved spot ETPs are generally unregulated and that the Commission relied on the underlying futures market as the regulated market of significant size that formed the basis for approving the series of Currency and Commodity-Based Trust Shares, including gold, silver, platinum, palladium, copper, and other commodities and currencies. The Commission specifically noted in the Winklevoss Order that the approval order issued related to the first spot gold ETP ''was based on an assumption that the currency market and the spot gold market were largely unregulated.'' *See* Winklevoss Order at 37592. As such, the regulated market of significant size test does not require that the spot ether market be regulated in order for the Commission to approve this proposal, and precedent makes clear that an underlying market for a spot commodity or currency being a regulated market would actually be an exception to the norm. These largely unregulated currency and commodity markets do not provide the same protections as the markets that are subject to the Commission's oversight, but the Commission has consistently looked to surveillance sharing agreements with the underlying futures market in order to determine whether such products were consistent with the Act.

Continued

this point, the Commission's prior orders have noted that the spot commodities and currency markets for which it has previously approved spot exchange traded products (''ETPs'') are generally unregulated and that the Commission relied on the underlying futures market as the regulated market of significant size that formed the basis for approving the series of currency and Commodity-Based Trust Shares, including gold, silver, platinum, palladium, copper, and other commodities and currencies. The Commission specifically noted in the Winklevoss Order that the First Gold Approval Order ''was based on an assumption that the currency market and the spot gold market were largely unregulated.'' [23]

As such, the regulated market of significant size test does not require that the spot ether market be regulated in order for the Commission to approve this proposal, and precedent makes clear that an underlying market for a spot commodity or currency being a regulated market would actually be an exception to the norm. These largely unregulated currency and commodity markets do not provide the same protections as the markets that are subject to the Commission's oversight, but the Commission has consistently looked to surveillance sharing agreements with the underlying futures market in order to determine whether such products were consistent with the Act. With this in mind, the CME ether futures (''Ether Futures'') market, as described below, is the proper market to consider in determining whether there is a related regulated market of significant size.

Recently, the Commission issued an order granting approval for proposals to list bitcoin-based commodity trust and bitcoin-based trust issued receipts (these proposed funds are nearly identical to the Trust, but proposed to hold bitcoin instead of ether) (''Spot Bitcoin ETPs''). [24] In considering the Spot Bitcoin ETPs, the Commission determined in the Spot Bitcoin ETP Approval Order that the CME Bitcoin Futures market is a regulated market of significant size.

Specifically, the Commission stated:

> [B]ased on the record before the Commission and the improved quality of the correlation analysis in the record . . . the Commission is able to conclude that fraud or manipulation that impacts prices in spot bitcoin markets would likely similarly impact CME bitcoin futures prices. And because the CME's surveillance can assist in detecting those impacts on CME bitcoin futures prices, the Exchanges' comprehensive surveillance-sharing agreement with the CME–a U.S. regulated market whose bitcoin futures market is consistently highly correlated to spot bitcoin, albeit not of ''significant size'' related to spot bitcoin–can be reasonably expected to assist in surveilling for fraudulent and manipulative acts and practices in the specific context of the [p]roposals. [25]

The Exchange and Sponsor applaud the Commission for allowing the launch of ETFs registered under the Investment Company Act of 1940, as amended (the ''1940 Act'') that provide exposure to ether primarily through CME Ether Futures. Allowing such products to list and trade is a productive first step in providing U.S. investors and traders with transparent, exchange-listed tools for expressing a view on ether.

On October 2, 2023 the SEC approved nine ETH-based ETFs for trading. [26] The ETFs hold ETH futures contracts that trade on the CME and settle using the CME CF Ethereum Reference Rate (''ERR''), which is priced based on the spot ETH markets Coinbase, Kraken, LMAX, Bitstamp, Gemini, and itBit, essentially the same spot markets that are included in the Index that the Trust uses to value its ETH holdings. Given that the Commission has approved ETFs that offer exposure to ETH futures, which themselves are priced based on the underlying spot ETH market, the Sponsor believes that the Commission must also approve ETPs that offer exposure to spot ETH, like the Trust.

Based on the foregoing, the Exchange and Sponsor believe that any objective review of the proposals to list spot ether ETPs, like the Trust, compared to the Ether Futures ETFs would lead to the conclusion that any concerns related to preventing fraudulent and manipulative acts and practices related to spot ether ETPs would apply equally to the spot markets underlying the futures contracts held by an Ether Futures ETF. Both the Exchange and Sponsor believe that the CME Ether Futures market is a regulated market of significant size and that such manipulation concerns are mitigated, as described extensively below. After allowing the listing and trading of Ether Futures ETFs that hold primarily CME Ether Futures, however, the only consistent outcome would be approving spot ether ETPs on the basis that the CME Ether Futures market is a regulated market of significant size.

The Sponsor believes that because the CME ETH futures market is priced based on the underlying spot ETH market, any fraud or manipulation in the spot market would necessarily affect the price of ETH futures, thereby affecting the net asset value of an ETP holding spot ETH or an ETF holding ETH futures, as well as the price investors pay for such product's shares. Accordingly, either CME surveillance can detect spot-market fraud that affects both futures ETFs and spot ETPs, or that surveillance cannot do so for either type of product. Having approved ETH futures ETFs in part on the basis of such surveillance, the Commission has clearly determined that CME surveillance can detect spot-market fraud that would affect spot ETPs, and the Sponsor thus believes that it must also approve spot ETH ETPs on that basis.

In summary, both the Exchange and the Sponsor believe that this proposal and the included analysis are sufficient to establish that the CME ETH Futures market represents a regulated market of significant size as it relates both to the CME ETH Futures market and to the spot ETH market and that this proposal should be approved.

CME ETH Futures

CME began offering trading in Ether Futures in February 2021. Each contract represents 50 ETH and is based on the

---

place a comprehensive surveillance sharing agreement,'' and that gold futures are traded on COMEX and the Tokyo Commodity Exchange, with a cross-reference to the proposed rule change to list and trade shares of the ETFS Gold Trust, in which NYSE Arca represented that COMEX is one of the ''major world gold markets,'' Exchange Act Release No. 69847 (June 25, 2013), 78 FR 39399, 39400, 39405 (July 1, 2013)); Merk Gold Trust, Exchange Act Release No. 71378 (Jan. 23, 2014), 79 FR 4786, 4786–87 (Jan. 29, 2014) (SR–NYSEArca–2013–137) (notice of proposed rule change included NYSE Arca's representation that ''COMEX is the largest gold futures and options exchange'' and that NYSE Arca ''may obtain trading information via the Intermarket Surveillance Group,'' including with respect to transactions occurring on COMEX pursuant to CME and NYMEX's membership, or from exchanges ''with which [NYSE Arca] has in place a comprehensive surveillance sharing agreement,'' Exchange Act Release No. 71038 (Dec. 11, 2013), 78 FR 76367, 76369, 76374 (Dec. 17, 2013)); Long Dollar Gold Trust, Exchange Act Release No. 79518 (Dec. 9, 2016), 81 FR 90876, 90881, 90886, 90888 (Dec. 15, 2016) (SR–NYSEArca–2016–84).

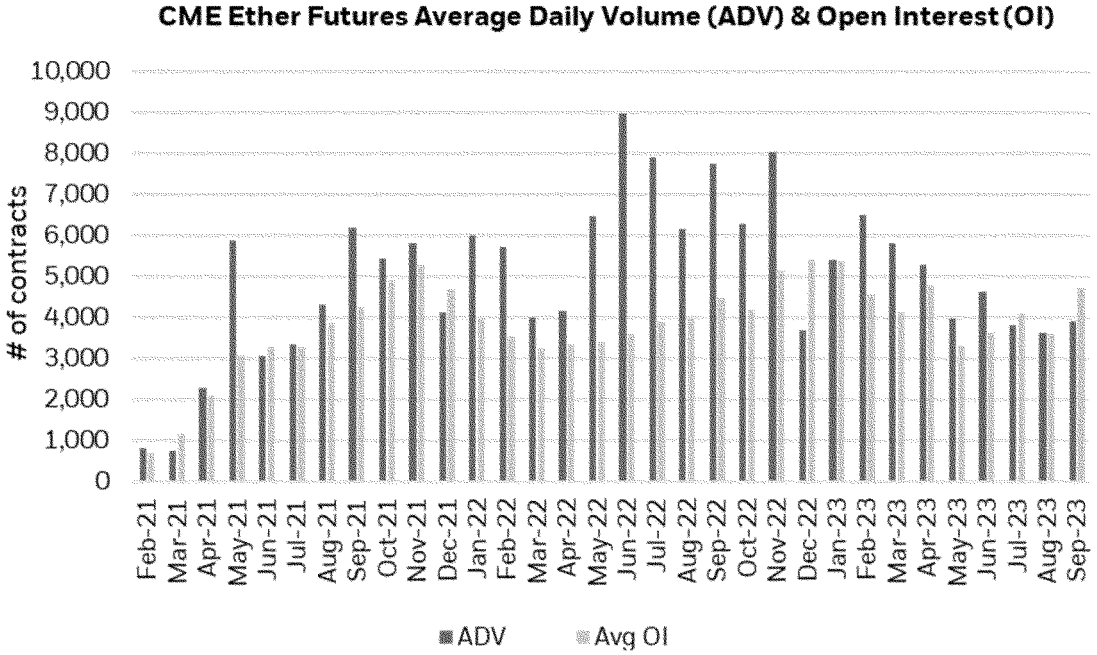
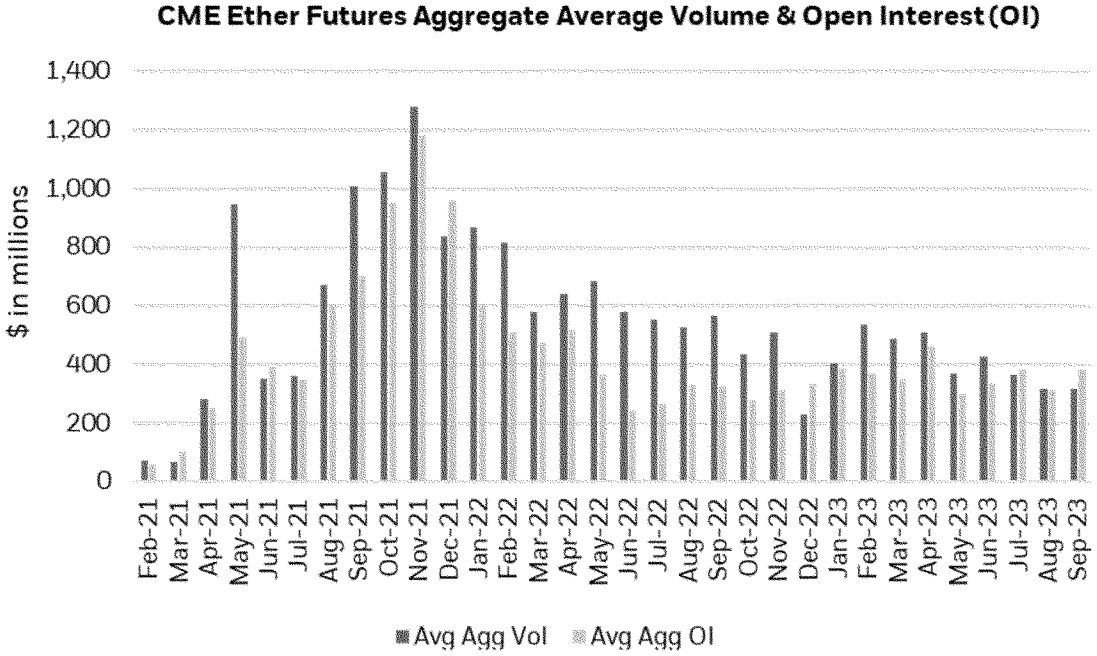
[26] These ETFs included the Bitwise Ethereum Strategy ETF, Bitwise Bitcoin & Ether Equal Weight Strategy ETF, Hashdex Ether Strategy ETF, ProShares Ether Strategy ETF, ProShares Bitcoin & Ether Strategy ETF, ProShares Bitcoin & Ether Equal Weight Strategy ETF, Valkyrie Bitcoin & Ethereum Strategy ETF, VanEck Ethereum Strategy ETF, and Volatility Shares Ethereum Strategy ETF (collectively, the ''ETH Futures ETFs'').

CME CF Ether-Dollar Reference Rate.[27] The contracts trade and settle like other cash-settled commodity futures contracts. Most measurable metrics related to CME ETH Futures have generally trended up since launch, although some metrics have slowed recently. For example, there were 78,571 CME ETH Futures contracts traded in September 2023 (approximately $6.3 billion) compared to 163,114 ($11.9 billion) and 130,546 ($21.2 billion) contracts traded in September 2022, and September 2022 respectively.[28] The daily correlation between the spot ETH and the CME ETH Futures is 0.9993 from the period of 10/13/22 through 10/13/23.[29] The number of large open interest holders [30] and unique accounts trading CME ETH Futures have both increased, even in the face of heightened Ether price volatility.

BILLING CODE 8011–01–P





[27] The CME CF Ether-Dollar Reference Rate is based on a publicly available calculation methodology based on pricing sourced from several crypto exchanges and trading platforms, including Bitstamp, Coinbase, Gemini, itBit, Kraken, and LMAX Digital.

[29] Source: S&P Ethereum Index, S&P CME Ether Futures Index (Spot).

[30] A large open interest holder in CME ETH Futures is an entity that holds at least 25 contracts, which is the equivalent of 1250 ether. At a price of approximately $1,867 per ether on 7/31/2023, more than 59 firms had outstanding positions of greater than $2.3 million in CME ETH Futures.

BILLING CODE 8011–01–C

Preventing Fraudulent and Manipulative Practices

In order for any proposed rule change from an exchange to be approved, the Commission must determine that, among other things, the proposal is consistent with the requirements of section 6(b)(5) of the Act, specifically including: (i) the requirement that a national securities exchange's rules are designed to prevent fraudulent and manipulative acts and practices; [31] and (ii) the requirement that an exchange proposal be designed, in general, to protect investors and the public interest. The Exchange believes that this proposal is consistent with the requirements of section 6(b)(5) of the Act and that this filing sufficiently demonstrates that the CME ETH Futures market represents a regulated market of significant size and that, on the whole, the manipulation concerns previously articulated by the Commission are sufficiently mitigated to the point that they are outweighed by quantifiable investor protection issues that would be resolved by approving this proposal.

(i) Designed To Prevent Fraudulent and Manipulative Acts and Practices

In order to meet this standard in a proposal to list and trade a series of Commodity-Based Trust Shares, the Commission requires that an exchange demonstrate that there is a comprehensive surveillance sharing agreement in place [32] with a regulated market of significant size. Both the Exchange and CME are members of ISG.[33] The only remaining issue to be addressed is whether the ETH Futures market constitutes a market of significant size, which both the Exchange and the Sponsor believe that it does. The terms ''significant market'' and ''market of significant size'' include a market (or group of markets) as to which: (a) there is a reasonable likelihood that a person attempting to manipulate the ETP would also have to trade on that market to manipulate the ETP, so that a surveillance sharing agreement would assist the listing exchange in detecting and deterring misconduct; and (b) it is unlikely that trading in the ETP would be the predominant influence on prices in that market.[34]

The Commission has also recognized that the ''regulated market of significant size'' standard is not the only means for satisfying section 6(b)(5) of the act, specifically providing that a listing exchange could demonstrate that ''other means to prevent fraudulent and manipulative acts and practices'' are sufficient to justify dispensing with the requisite surveillance sharing agreement.[35]

The significant market test requires that there is a reasonable likelihood that a person attempting to manipulate the ETP would also have to trade on that market to manipulate the ETP, so that a surveillance-sharing agreement would assist the listing exchange in detecting and deterring misconduct. In light of the similarly high correlation between spot ETH/CME Ether Futures and spot bitcoin/CME Bitcoin Futures, applying the same rationale that the Commission applied to a Spot Bitcoin ETP in the Spot Bitcoin ETP Approval Order [36] also indicates that this test is satisfied for this proposal. As noted above, in the Spot Bitcoin ETP Approval Order, the SEC concluded that: . . . fraud or manipulation that impacts prices in spot bitcoin markets would likely similarly impact CME bitcoin futures prices. And because the CME's surveillance can assist in detecting those impacts on CME bitcoin futures prices, the Exchanges' comprehensive surveillance-sharing agreement with the CME . . . can be reasonably expected to assist in surveilling for fraudulent and manipulative acts and practices in the specific context of the [p]roposals.[37] The assumptions from this statement are also true for CME Ether Futures. CME Ether Futures pricing is based on pricing from spot ether markets. The statement from the Spot Bitcoin ETP Approval Order that the surveillance-sharing agreement with the CME ''can be reasonably expected to assist in surveilling for fraudulent and manipulative acts and practices in the specific context of the [p]roposals'' makes clear that the Commission believes that CME's surveillance can capture the effects of trading on the relevant spot markets on the pricing of CME Bitcoin Futures. This same logic would extend to CME Ether Futures markets where CME's surveillance would be able to capture the effects of trading on the relevant spot markets on the pricing of CME Ether Futures.

(A) Predominant Influence on Prices in Spot and ETH Futures

The Exchange and Sponsor also believe that trading in the Shares would not be the predominant force on prices in the CME ETH Futures market or spot market for a number of reasons. First,

[31] The Exchange believes that ETH is resistant to price manipulation and that ''other means to prevent fraudulent and manipulative acts and practices'' exist to justify dispensing with the requisite surveillance sharing agreement. The geographically diverse and continuous nature of ETH trading render it difficult and prohibitively costly to manipulate the price of ETH. The fragmentation across ETH platforms, the relatively slow speed of transactions, and the capital necessary to maintain a significant presence on each trading platform make manipulation of ETH prices through continuous trading activity challenging. To the extent that there are ETH platforms engaged in or allowing wash trading or other activity intended to manipulate the price of ETH on other markets, such pricing does not normally impact prices on other exchange because participants will generally ignore markets with quotes that they deem non-executable. Moreover, the linkage between the ETH markets and the presence of arbitrageurs in those markets means that the manipulation of the price of ETH price on any single venue would require manipulation of the global ETH price in order to be effective. Arbitrageurs must have funds distributed across multiple trading platforms in order to take advantage of temporary price dislocations, thereby making it unlikely that there will be strong concentration of funds on any particular ETH platform or Over-the Counter platform (''OTC platform''). As a result, the potential for manipulation on a trading platform would require overcoming the liquidity supply of such arbitrageurs who are effectively eliminating any cross-market pricing differences.

[32] As previously articulated by the Commission, ''The standard requires such surveillance-sharing agreements since ''they provide a necessary deterrent to manipulation because they facilitate the availability of information needed to fully investigate a manipulation if it were to occur.'' The Commission has emphasized that it is essential for an exchange listing a derivative securities product to enter into a surveillance- sharing agreement with markets trading underlying securities for the listing exchange to have the ability to obtain information necessary to detect, investigate, and deter fraud and market manipulation, as well as violations of exchange rules and applicable federal securities laws and rules. The hallmarks of a surveillance-sharing agreement are that the agreement provides for the sharing of information about market trading activity, clearing activity, and customer identity; that the parties to the agreement have reasonable ability to obtain access to and produce requested information; and that no existing rules, laws, or practices would impede one party to the agreement from obtaining this information from, or producing it to, the other party.'' The Commission has historically held that joint membership in the ISG constitutes such a surveillance sharing agreement. *See* Securities Exchange Act Release No. 88284 (February 26, 2020), 85 FR 12595 (March 3, 2020) (SR–NYSEArca–2019–39) (the ''Wilshire Phoenix Disapproval'').

[33] For a list of the current members and affiliate members of ISG, *see https://www.isgportal.com/.*

[34] *See* Wilshire Phoenix Disapproval.

[35] *See* Winklevoss Order at 37580. The Commission has also specifically noted that it ''is not applying a 'cannot be manipulated' standard; instead, the Commission is examining whether the proposal meets the requirements of the Exchange Act and, pursuant to its Rules of Practice, places the burden on the listing exchange to demonstrate the validity of its contentions and to establish that the requirements of the Exchange Act have been met.'' *Id.* at 37582.

[36] *See* Exchange Act Release No. 99306 (January 10, 2024), 89 FR 3008 (January 17, 2024) (Self-Regulatory Organizations; NYSE Arca, Inc.; The Nasdaq Stock Market LLC; Cboe BZX Exchange, Inc.; Order Granting Accelerated Approval of Proposed Rule Changes, as Modified by Amendments Thereto, To List and Trade Bitcoin-Based Commodity-Based Trust Shares and Trust Units) (the ''Spot Bitcoin ETP Approval Order'').

[37] *See* the Spot Bitcoin ETP Approval Order at 3011–3012.

because the Trust would not hold CME ETH Futures contracts, the only way that it could be the predominant force on prices in that market is through the spot markets that CME ETH Futures contracts use for pricing.[38] The Sponsor notes that ETH total 24-hour spot trading volume has averaged $9.1B over the year ending October 16, 2023,[39] with approximately $1.7B occurring on venues whose trades are included in the sponsor's benchmark.[40] The Sponsor expects that the Trust would represent a very small percentage of this daily trading volume in the spot ETH market even in its most aggressive projections for the Trust's assets and, thus, the Trust would not have an impact on the spot market and therefore could not be the predominant force on prices in the CME ETH Futures market. Second, much like the CME Bitcoin Futures market, the CME ETH Futures market has progressed and matured significantly. As the court found in the Grayscale Order ''Because the spot market is deeper and more liquid than the futures market, manipulation should be more difficult, not less.'' The Exchange and sponsor agree with this sentiment and believe it applies equally to the spot ETH and CME ETH Futures markets.

(B) Other Means To Prevent Fraudulent and Manipulative Acts and Practices

As noted above, the Commission also permits a listing exchange to demonstrate that ''other means to prevent fraudulent and manipulative acts and practices'' are sufficient to justify dispensing with the requisite surveillance-sharing agreement. The Exchange and Sponsor believe that such conditions are present.

As noted in the Surveillance section, the surveillance program includes real-time patterns for price and volume movements and post-trade surveillance patterns (*e.g.,* spoofing, marking the close, pinging, phishing). In addition to the Exchange's existing surveillance, a new pattern will be added to surveil for significant deviation in the Commodity-Based Trust Shares' price from the underlying asset's price. The Exchange will use the trade data from an external vendor that consolidates the real-time data from multiple ether platforms.

Trading of Shares on the Exchange will be subject to the Exchange's surveillance program for derivative products, as well as cross-market surveillances administered by Financial Industry Regulatory Authority (''FINRA''), on behalf of the Exchange pursuant to a regulatory services agreement, which are also designed to detect violations of Exchange rules and applicable federal securities laws. The Exchange is responsible for FINRA's performance under this regulatory services agreement.

The Exchange will require the Trust to represent to the Exchange that it will advise the Exchange of any failure by the Trust to comply with the continued listing requirements, and, pursuant to its obligations under section 19(g)(1) of the Exchange Act, the Exchange will surveil for compliance with the continued listing requirements. If the Trust is not in compliance with the applicable listing requirements, the Exchange will commence delisting procedures under the Nasdaq 5800 Series. In addition, the Exchange also has a general policy prohibiting the distribution of material, non-public information by its employees.

The Exchange will communicate as needed regarding trading in the Shares with other markets and other entities that are members of the ISG, and the Exchange may obtain trading information regarding trading in the Shares from such markets and other entities.

Spot and Proxy Exposure to Ether

Exposure to ether through an ETP also presents certain advantages for retail investors compared to buying spot ether directly. The most notable advantage from the Sponsor's perspective is the elimination of the need for an individual retail investor to either manage their own private keys or to hold ether through a cryptocurrency exchange that lacks sufficient protections. Typically, retail exchanges hold most, if not all, retail investors' ether in ''hot'' (internet connected) storage and do not make any commitments to indemnify retail investors or to observe any particular cybersecurity standard. Meanwhile, a retail investor holding spot ether directly in a self-hosted wallet may suffer from inexperience in private key management (*e.g.,* insufficient password protection, lost key, etc.), which point of failure could cause them to lose some or all of their ether holdings. Thus, with respect to custody of the Trust's ether assets, the Trust presents advantages from an investment protection standpoint for retail investors compared to owning spot ether directly or via a digital asset exchange.

Availability of Information

The website for the Trust, which will be publicly accessible at no charge, will contain the following information: (a) the prior Business Day's NAV per Share; (b) the prior Business Day's Nasdaq official closing price; (c) calculation of the premium or discount of such Nasdaq official closing price against such NAV per Share; (d) data in chart form displaying the frequency distribution of discounts and premiums of the Official Closing Price against the NAV, within appropriate ranges for each of the four previous calendar quarters (or for the life of the Trust, if shorter); (e) the prospectus; and (f) other applicable quantitative information. The NAV per Share for the Trust will be calculated by the Trust Administrator once a day and will be disseminated daily to all market participants at the same time. Quotation and last sale information regarding the Shares will be disseminated through the facilities of the relevant securities information processor. Also, an estimated value that reflects an estimated IIV will be disseminated. For more information on the IIV, including the calculation methodology, see ''Intraday Indicative Value'' above.

The IIV disseminated during the Exchange's Regular Market Session should not be viewed as an actual real time update of the NAV per Share, which will be calculated only once at the end of each trading day. The IIV will be widely disseminated on a per Share basis every 15 seconds during the Exchange's Regular Market Session by one or more major market data vendors. In addition, the IIV will be available through online information services.

Quotation and last sale information for ether is widely disseminated through a variety of major market data vendors, including Bloomberg and Reuters, as well as CF Benchmarks. Information relating to trading, including price and volume information, in ether is available from major market data vendors and from the platforms on which ether are traded. Depth of book information is also available from ether platforms. The normal trading hours for ether platforms are 24 hours per day, 365 days per year.

Information regarding market price and trading volume of the Shares will be continually available on a real-time basis throughout the day on brokers' computer screens and other electronic services. Information regarding the previous day's closing price and trading volume information for the Shares will

[38] This logic is reflected by the court in the Grayscale Order at 17–18. Specifically, the court found that ''Because Grayscale owns no futures contracts, trading in Grayscale can affect the futures market only through the spot market . . . But Grayscale holds just 3.4 percent of outstanding bitcoin, and the Commission did not suggest Grayscale can dominate the price of bitcoin.''

be published daily in the financial section of newspapers.

Initial and Continued Listing

The Shares will be subject to Nasdaq Rule 5711(d)(vi), which sets forth the initial and continued listing criteria applicable to Commodity-Based Trust Shares. The Exchange will obtain a representation that the Trust's NAV per Share will be calculated daily and will be made available to all market participants at the same time. A minimum of 80,000 Commodity-Based Trust Shares, or the equivalent of 2 Baskets, will be required to be outstanding at the time of commencement of trading on the Exchange. Upon termination of the Trust, the Shares will be removed from listing. The Delaware Trustee, will be a trust company having substantial capital and surplus and the experience and facilities for handling corporate trust business, as required under Nasdaq Rule 5711(d)(vi)(D) and no change will be made to the Delaware Trustee without prior notice to and approval of the Exchange.

As required in Nasdaq Rule 5711(d)(viii), the Exchange notes that any registered market maker (''Market Maker'') in the Shares must file with the Exchange, in a manner prescribed by the Exchange, and keep current a list identifying all accounts for trading the underlying commodity, related futures or options on futures, or any other related derivatives, which the registered Market Maker may have or over which it may exercise investment discretion. No registered Market Maker in the Shares shall trade in the underlying commodity, related futures or options on futures, or any other related derivatives, in an account in which a registered Market Maker, directly or indirectly, controls trading activities, or has a direct interest in the profits or losses thereof, which has not been reported to the Exchange as required by Nasdaq Rule 5711(d). In addition to the existing obligations under Exchange rules regarding the production of books and records, the registered Market Maker in the Shares shall make available to the Exchange such books, records or other information pertaining to transactions by such entity or any limited partner, officer or approved person thereof, registered or non-registered employee affiliated with such entity for its or their own accounts in the underlying commodity, related futures or options on futures, or any other related derivatives, as may be requested by the Exchange.

The Exchange is able to obtain information regarding trading in the Shares and the underlying ether, Ether Futures contracts, options on Ether Futures, or any other ether derivative through members acting as registered Market Makers, in connection with their proprietary or customer trades.

As a general matter, the Exchange has regulatory jurisdiction over its members, and their associated persons. The Exchange also has regulatory jurisdiction over any person or entity controlling a member, as well as a subsidiary or affiliate of a member that is in the securities business. A subsidiary or affiliate of a member organization that does business only in commodities would not be subject to Exchange jurisdiction, but the Exchange could obtain information regarding the activities of such subsidiary or affiliate through surveillance sharing agreements with regulatory organizations of which such subsidiary or affiliate is a member.

Trading Rules

The Exchange deems the Shares to be equity securities, thus rendering trading in the Shares subject to the Exchange's existing rules governing the trading of equity securities. The Exchange will allow trading in the Shares from 4:00 a.m. to 8:00 p.m. (ET). The Exchange has appropriate rules to facilitate transactions in the Shares during all trading sessions. The Shares of the Trust will conform to the initial and continued listing criteria set forth in Nasdaq Rule 5711(d).

Trading Halts

With respect to trading halts, the Exchange may consider all relevant factors in exercising its discretion to halt or suspend trading in the Shares. The Exchange will halt trading in the Shares under the conditions specified in Nasdaq Rules 4120 and 4121, including without limitation the conditions specified in Nasdaq Rule 4120(a)(9) and (10) and the trading pauses under Nasdaq Rules 4120(a)(11) and (12).

Trading may be halted because of market conditions or for reasons that, in the view of the Exchange, make trading in the Shares inadvisable. These may include: (1) the extent to which trading is not occurring in the ether underlying the Shares; or (2) whether other unusual conditions or circumstances detrimental to the maintenance of a fair and orderly market are present.

If the IIV or the value of the Index is not being disseminated as required, the Exchange may halt trading during the day in which the interruption to the dissemination of the IIV or the value of the Index occurs. If the interruption to the dissemination of the IIV or the value of the Index persists past the trading day in which it occurred, the Exchange will halt trading no later than the beginning of the trading day following the interruption.

In addition, if the Exchange becomes aware that the NAV per Share with respect to the Shares is not disseminated to all market participants at the same time, it will halt trading in the Shares until such time as the NAV per Share is available to all market participants.

Surveillance

The Exchange believes that its surveillance procedures are adequate to properly monitor the trading of the Shares on the Exchange during all trading sessions and to deter and detect violations of Exchange rules and the applicable federal securities laws. The surveillance program includes real-time patterns for price and volume movements and post-trade surveillance patterns (*e.g.,* spoofing, marking the close, pinging, phishing). In addition to the Exchange's existing surveillance, a new pattern will be added to surveil for significant deviation in the Commodity-Based Trust Shares' price from the underlying asset's price. The Exchange will use the trade data from an external vendor that consolidates the real-time data from multiple ether platforms. Trading of Shares on the Exchange will be subject to the Exchange's surveillance program for derivative products, as well as cross-market surveillance administered by FINRA, on behalf of the Exchange pursuant to a regulatory services agreement, which are also designed to detect violations of Exchange rules and applicable federal securities laws. The Exchange is responsible for FINRA's performance under this regulatory services agreement. The Exchange will require the Trust to represent to the Exchange that it will advise the Exchange of any failure by the Trust to comply with the continued listing requirements, and, pursuant to its obligations under section 19(g)(1) of the Exchange Act, the Exchange will surveil for compliance with the continued listing requirements. If the Trust is not in compliance with the applicable listing requirements, the Exchange will commence delisting procedures under the Nasdaq 5800 Series. In addition, the Exchange also has a general policy prohibiting the distribution of material, non-public information by its employees.

The Exchange or FINRA, on behalf of the Exchange, or both, will communicate as needed regarding trading in the Shares with other markets and other entities that are members of the ISG, and the Exchange or FINRA, on

behalf of the Exchange, or both, may obtain trading information regarding trading in the Shares from such markets and other entities. The Exchange also may obtain information regarding trading in the Shares and listed bitcoin derivatives via the ISG, from other exchanges who are members or affiliates of the ISG, or with which the Exchange has entered into a comprehensive surveillance sharing agreement.

Information Circular

Prior to the commencement of trading, the Exchange will inform its members in an information circular (''Information Circular'') of the special characteristics and risks associated with trading the Shares. Specifically, the Information Circular will discuss the following: (1) the procedures for creations and redemptions of Shares in Baskets (and that Shares are not individually redeemable); (2) Section 10 of Nasdaq General Rule 9, which imposes suitability obligations on Nasdaq members with respect to recommending transactions in the Shares to customers; (3) how information regarding the IIV is disseminated; (4) the risks involved in trading the Shares during the pre-market and post-market sessions when an updated IIV will not be calculated or publicly disseminated; (5) the requirement that members deliver a prospectus to investors purchasing newly issued Shares prior to or concurrently with the confirmation of a transaction; and (6) trading information. The Information Circular will also discuss any exemptive, no action and interpretive relief granted by the Commission from any rules under the Act.

The Information Circular will also reference the fact that there is no regulated source of last sale information regarding ether, that the Commission has no jurisdiction over the trading of ether as a commodity, and that the CFTC has regulatory jurisdiction over the trading of ETH Futures contracts and options on ETH Futures contracts.

Additionally, the Information Circular will reference that the Trust is subject to various fees and expenses described in the Registration Statement. The Information Circular will also disclose the trading hours of the Shares. The Information Circular will disclose that information about the Shares will be publicly available on the Trust's website.

2. Statutory Basis

The Exchange believes that the proposal is consistent with section 6(b) of the Act [41] in general and section 6(b)(5) of the Act [42] in particular in that it is designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in facilitating transactions in securities, to remove impediments to and perfect the mechanism of a free and open market and a national market system and, in general, to protect investors and the public interest.

The Commission has approved numerous series of Trust Issued Receipts,[43] including Commodity-Based Trust Shares,[44] to be listed on U.S. national securities exchanges. In order for any proposed rule change from an exchange to be approved, the Commission must determine that, among other things, the proposal is consistent with the requirements of section 6(b)(5) of the Act, specifically including: (i) the requirement that a national securities exchange's rules are designed to prevent fraudulent and manipulative acts and practices; and (ii) the requirement that an exchange proposal be designed, in general, to protect investors and the public interest. The Exchange believes that this proposal is consistent with the requirements of section 6(b)(5) of the Act because this filing sufficiently demonstrates that the CME ETH Futures market represents a regulated market of significant size and that, on the whole, the manipulation concerns previously articulated by the Commission are sufficiently mitigated to the point that they are outweighed by quantifiable investor protection issues that would be resolved by approving this proposal.

Designed To Prevent Fraudulent and Manipulative Acts and Practices

In order for a proposal to list and trade a series of Commodity-Based Trust Shares to be deemed consistent with the Act, the Commission requires that an exchange demonstrate that there is a comprehensive surveillance-sharing agreement in place with a regulated market of significant size. Both the Exchange and CME are members of ISG.[45] As such, the only remaining issue to be addressed is whether the ETH Futures market constitutes a market of significant size, which the Exchange believes that it does. The terms ''significant market'' and ''market of significant size'' include a market (or group of markets) as to which: (a) there is a reasonable likelihood that a person attempting to manipulate the ETP would also have to trade on that market to manipulate the ETP, so that a surveillance-sharing agreement would assist the listing exchange in detecting and deterring misconduct; and (b) it is unlikely that trading in the ETP would be the predominant influence on prices in that market.[46]

The Commission has also recognized that the ''regulated market of significant size'' standard is not the only means for satisfying section 6(b)(5) of the act, specifically providing that a listing exchange could demonstrate that ''other means to prevent fraudulent and manipulative acts and practices'' are sufficient to justify dispensing with the requisite surveillance-sharing agreement.[47]

The significant market test requires that there is a reasonable likelihood that a person attempting to manipulate the ETP would also have to trade on that market to manipulate the ETP, so that a surveillance-sharing agreement would assist the listing exchange in detecting and deterring misconduct. In light of the similarly high correlation between spot ETH/CME Ether Futures and spot bitcoin/CME Bitcoin Futures, applying the same rationale that the Commission applied to a Spot Bitcoin ETP in the Spot Bitcoin ETP Approval Order [48] also indicates that this test is satisfied for this proposal. As noted above, in the Spot Bitcoin ETP Approval Order, the SEC concluded that: . . . fraud or manipulation that impacts prices in spot bitcoin markets would likely similarly impact CME bitcoin futures prices. And because the CME's surveillance can assist in detecting those impacts on CME bitcoin futures prices, the Exchanges' comprehensive surveillance-sharing agreement with the CME . . . can be reasonably expected to assist in

surveilling for fraudulent and manipulative acts and practices in the specific context of the [p]roposals.[49] The assumptions from this statement are also true for CME Ether Futures. CME Ether Futures pricing is based on pricing from spot ether markets. The statement from the Spot Bitcoin ETP Approval Order that the surveillance-sharing agreement with the CME ''can be reasonably expected to assist in surveilling for fraudulent and manipulative acts and practices in the specific context of the [p]roposals'' makes clear that the Commission believes that CME's surveillance can capture the effects of trading on the relevant spot markets on the pricing of CME Bitcoin Futures. This same logic would extend to CME Ether Futures markets where CME's surveillance would be able to capture the effects of trading on the relevant spot markets on the pricing of CME Ether Futures.

(a) Predominant Influence on Prices in Spot and ETH Futures

The Exchange and Sponsor also believe that trading in the Shares would not be the predominant force on prices in CME ETH Futures market or spot market for a number of reasons. First, because the Trust would not hold CME ETH Futures contracts, the only way that it could be the predominant force on prices in that market is through the spot markets that CME ETH Futures contracts use for pricing.[50] The Sponsor notes that ETH total 24-hour spot trading volume has averaged $9.1B over the year ending October 16, 2023,[51] with approximately $1.7B occurring on venues whose trades are included in the sponsor's benchmark.[52] The Sponsor expects that the Trust would represent a very small percentage of this daily trading volume in the spot ETH market even in its most aggressive projections for the Trust's assets and, thus, the Trust would not have an impact on the spot market and therefore could not be the predominant force on prices in the CME ETH Futures market. Second, much like the CME Bitcoin Futures market, the CME ETH Futures market has progressed and matured significantly. As the court found in the Grayscale Order ''Because the spot market is deeper and more liquid than the futures market, manipulation should be more difficult, not less.'' The Exchange and sponsor agree with this sentiment and believe it applies equally to the spot ETH and CME ETH Futures markets.

(b) Other Means To Prevent Fraudulent and Manipulative Acts and Practices

As noted above, the Commission also permits a listing exchange to demonstrate that ''other means to prevent fraudulent and manipulative acts and practices'' are sufficient to justify dispensing with the requisite surveillance-sharing agreement. The Exchange and Sponsor believe that such conditions are present.

As noted in the Surveillance section, the surveillance program includes real-time patterns for price and volume movements and post-trade surveillance patterns (*e.g.,* spoofing, marking the close, pinging, phishing). In addition to the Exchange's existing surveillance, a new pattern will be added to surveil for significant deviation in the Commodity-Based Trust Shares' price from the underlying asset's price. The Exchange will use the trade data from an external vendor that consolidates the real-time data from multiple ether platforms.

Trading of Shares on the Exchange will be subject to the Exchange's surveillance program for derivative products, as well as cross-market surveillances administered by Financial Industry Regulatory Authority (''FINRA''), on behalf of the Exchange pursuant to a regulatory services agreement, which are also designed to detect violations of Exchange rules and applicable federal securities laws. The Exchange is responsible for FINRA's performance under this regulatory services agreement.

The Exchange will require the Trust to represent to the Exchange that it will advise the Exchange of any failure by the Trust to comply with the continued listing requirements, and, pursuant to its obligations under section 19(g)(1) of the Exchange Act, the Exchange will surveil for compliance with the continued listing requirements. If the Trust is not in compliance with the applicable listing requirements, the Exchange will commence delisting procedures under the Nasdaq 5800 Series. In addition, the Exchange also has a general policy prohibiting the distribution of material, non-public information by its employees.

The Exchange will communicate as needed regarding trading in the Shares with other markets and other entities that are members of the ISG, and the Exchange may obtain trading information regarding trading in the Shares from such markets and other entities.

Designed To Protect Investors and the Public Interest

The Exchange believes that the proposal is designed to protect investors and the public interest. Over the past several years, U.S. investor exposure to ETH through OTC ETH Funds is greater than $5 billion. With that growth, so too has grown the quantifiable investor protection issues to U.S. investors through premium/discount volatility and management fees for OTC ETH Funds. The Exchange believes that, as described above, the concerns related to the prevention of fraudulent and manipulative acts and practices have been sufficiently addressed to be consistent with the Act and, to the extent that the Commission disagrees with that assertion, such concerns are now at the very least outweighed by investor protection concerns. As such, the Exchange believes that approving this proposal (and comparable proposals) provides the Commission with the opportunity to allow U.S. investors with access to ETH in a regulated and transparent exchange-traded vehicle that would act to limit risk to U.S. investors by: (i) reducing premium and discount volatility; (ii) reducing management fees through meaningful competition; (iii) reducing risks and costs associated with investing in ETH Futures ETFs and operating companies that are imperfect proxies for ETH exposure; and (iv) providing an alternative to custodying spot ETH.

Commodity-Based Trust Shares—Nasdaq Rule 5711(d)

The Exchange believes that the proposed rule change is designed to prevent fraudulent and manipulative acts and practices in that the Shares will be listed on the Exchange pursuant to the initial and continued listing criteria in Nasdaq Rule 5711(d). The Exchange believes that its surveillance procedures are adequate to properly monitor the trading of the Shares on the Exchange during all trading sessions and to deter and detect violations of Exchange rules and the applicable federal securities laws. Trading of the Shares through the Exchange will be subject to the Exchange's surveillance procedures for derivative products, including Commodity-Based Trust Shares. The issuer has represented to the Exchange that it will advise the Exchange of any failure by the Trust or the Shares to comply with the continued listing requirements, and, pursuant to its obligations under section 19(g)(1) of the

[49] *See* the Spot Bitcoin ETP Approval Order at 3011–3012.

[50] This logic is reflected by the court in the Grayscale Order at 17–18. Specifically, the court found that ''Because Grayscale owns no futures contracts, trading in Grayscale can affect the futures market only through the spot market . . . But Grayscale holds just 3.4 percent of outstanding bitcoin, and the Commission did not suggest Grayscale can dominate the price of bitcoin.''

Exchange Act, the Exchange will surveil for compliance with the continued listing requirements. If the Trust or the Shares are not in compliance with the applicable listing requirements, the Exchange will commence delisting procedures under the Nasdaq 5800 Series. The Exchange may obtain information regarding trading in the Shares and listed ETH derivatives via the ISG, from other exchanges who are members or affiliates of the ISG, or with which the Exchange has entered into a comprehensive surveillance sharing agreement.

Availability of Information

The Exchange also believes that the proposal promotes market transparency in that a large amount of information is currently available about ETH and will be available regarding the Trust and the Shares. In addition to the price transparency of the CF Benchmarks Index, the Trust will provide information regarding the Trust's ETH holdings as well as additional data regarding the Trust.

The website for the Trust, which will be publicly accessible at no charge, will contain the following information: (a) the prior Business Day's NAV per Share; (b) the prior Business Day's Nasdaq official closing price; (c) calculation of the premium or discount of such Nasdaq official closing Price against such NAV per Share; (d) data in chart form displaying the frequency distribution of discounts and premiums of the Nasdaq official closing price against the NAV per Share, within appropriate ranges for each of the four previous calendar quarters (or for the life of the Trust, if shorter); (e) the prospectus; and (f) other applicable quantitative information. The NAV per Share for the Trust will be calculated by the Trust Administrator once a day and will be disseminated daily to all market participants at the same time. Quotation and last sale information regarding the Shares will be disseminated through the facilities of the relevant securities information processor. Also, an estimated value that reflects an estimated IIV will be disseminated. For more information on the IIV, including the calculation methodology, see ''Intraday Indicative Value'' above.

The IIV disseminated during the Exchange's Regular Market Session should not be viewed as an actual real time update of the NAV per Share, which will be calculated only once at the end of each trading day. The IIV will be widely disseminated on a per Share basis every 15 seconds during the Exchange's Regular Market Session by one or more major market data vendors. In addition, the IIV will be available through online information services.

Quotation and last sale information for ether is widely disseminated through a variety of major market data vendors, including Bloomberg and Reuters, as well as CF Benchmarks. Information relating to trading, including price and volume information, in ETH is available from major market data vendors and from the exchanges on which ETH is traded. Depth of book information is also available from ETH exchanges. The normal trading hours for ETH exchanges are 24 hours per day, 365 days per year.

Information regarding market price and trading volume of the Shares will be continually available on a real-time basis throughout the day on brokers' computer screens and other electronic services. Information regarding the previous day's closing price and trading volume information for the Shares will be published daily in the financial section of newspapers.

In sum, the Exchange believes that this proposal is consistent with the requirements of section 6(b)(5) of the Act, that this filing sufficiently demonstrates that the e CME ETH Futures market represents a regulated market of significant size, and that on the whole the manipulation concerns previously articulated by the Commission are sufficiently mitigated to the point that they are outweighed by investor protection issues that would be resolved by approving this proposal.

For the above reasons, the Exchange believes that the proposed rule change is consistent with the requirements of section 6(b)(5) of the Act.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purpose of the Act. The Exchange notes that the proposed rule change rather will facilitate the listing and trading of additional exchange-traded product that will enhance competition among both market participants and listing venues, to the benefit of investors and the marketplace.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments were either solicited or received.

III. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic Comments

- Use the Commission's internet comment form (*https://www.sec.gov/rules/sro.shtml*); or
- Send an email to *rule-comments@sec.gov*. Please include file number SR–NASDAQ–2023–045 on the subject line.

Paper Comments

- Send paper comments in triplicate to Secretary, Securities and Exchange Commission, 100 F Street NE, Washington, DC 20549–1090.

All submissions should refer to file number SR–NASDAQ–2023–045. This file number should be included on the subject line if email is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's internet website (*https://www.sec.gov/rules/sro.shtml*). Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for website viewing and printing in the Commission's Public Reference Room, 100 F Street NE, Washington, DC 20549, on official business days between the hours of 10 a.m. and 3 p.m. Copies of the filing also will be available for inspection and copying at the principal office of the Exchange. Do not include personal identifiable information in submissions; you should submit only information that you wish to make available publicly. We may redact in part or withhold entirely from publication submitted material that is obscene or subject to copyright protection. All submissions should refer to file number SR–NASDAQ–2023–045 and should be submitted on or before May 20, 2024.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.[53]

Sherry R. Haywood,

Assistant Secretary.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–100011; File No. SR–CboeEDGX–2024–021]

Self-Regulatory Organizations; Cboe EDGX Exchange, Inc.; Notice of Filing and Immediate Effectiveness of a Proposed Rule Change To Amend Its Fees Schedule Related to Physical Port Fees

April 23, 2024.

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934 (''Act''),[1] and Rule 19b–4 thereunder,[2] notice is hereby given that on April 9, 2024, Cboe EDGX Exchange, Inc. (the ''Exchange'' or ''EDGX'') filed with the Securities and Exchange Commission (''Commission'') the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

Cboe EDGX Exchange, Inc. (the ''Exchange'' or ''EDGX Options'') proposes to amend its Fees Schedule. The text of the proposed rule change is provided in Exhibit 5.

The text of the proposed rule change is also available on the Exchange's website (*http://markets.cboe.com/us/options/regulation/rule_filings/edgx/*), at the Exchange's Office of the Secretary, and at the Commission's Public Reference Room.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

[1] 15 U.S.C. 78s(b)(1).

[2] 17 CFR 240.19b–4.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to amend its fee schedule for its equity options platform (''EDGX Options'') relating to physical connectivity fees.[3]

By way of background, a physical port is utilized by a Member or non-Member to connect to the Exchange at the data centers where the Exchange's servers are located. The Exchange currently assesses the following physical connectivity fees for Members and non-Members on a monthly basis: $2,500 per physical port for a 1 gigabit (''Gb'') circuit and $7,500 per physical port for a 10 Gb circuit. The Exchange proposes to increase the monthly fee for 10 Gb physical ports from $7,500 to $8,500 per port. The Exchange notes the proposed fee change better enables it to continue to maintain and improve its market technology and services and also notes that the proposed fee amount, even as amended, continues to be in line with, or even lower than, amounts assessed by other exchanges for similar connections.[4] The physical ports may also be used to access the Systems for the following affiliate exchanges and only one monthly fee currently (and will continue) to apply per port: the Exchange's equities platform (EDGX Equities), Cboe BZX Exchange, Inc. (options and equities platforms), Cboe BYX Exchange, Inc., Cboe EDGA Exchange, Inc., and Cboe C2 Exchange, Inc., (''Affiliate Exchanges'').[5]

2. Statutory Basis

The Exchange believes the proposed rule change is consistent with the Securities Exchange Act of 1934 (the ''Act'') and the rules and regulations thereunder applicable to the Exchange and, in particular, the requirements of section 6(b) of the Act.[6] Specifically, the Exchange believes the proposed rule change is consistent with the section 6(b)(5)[7] requirements that the rules of an exchange be designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in regulating, clearing, settling, processing information with respect to, and facilitating transactions in securities, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general, to protect investors and the public interest. Additionally, the Exchange believes the proposed rule change is consistent with the section 6(b)(5)[8] requirement that the rules of an exchange not be designed to permit unfair discrimination between customers, issuers, brokers, or dealers. The Exchange also believes the proposed rule change is consistent with section 6(b)(4)[9] of the Act, which requires that Exchange rules provide for the equitable allocation of reasonable dues, fees, and other charges among its Members and other persons using its facilities.

The Exchange believes the proposed fee change is reasonable as it reflects a moderate increase in physical connectivity fees for 10 Gb physical ports. Further, the current 10 Gb physical port fee has remained unchanged since June 2018.[10] Since its last increase over 5 years ago however, there has been notable inflation. Particularly, the dollar has had an average inflation rate of 3.9% per year between 2018 and today, producing a cumulative price increase of approximately 21.1% inflation since the fee for the 10 Gb physical port was last modified.[11] Moreover, the Exchange historically does not increase fees every

[3] The Exchange initially filed the proposed fee changes on July 3, 2023 (SR–CboeEDGX–2023–045). On September 1, 2023, the Exchange withdrew that filing and submitted SR–CboeEDGX–2023–058. On September 29, 2023, the Securities and Exchange Commission issued a Suspension of and Order Instituting Proceedings to Determine whether to Approve or Disapprove a Proposed Rule Change to Amend its Fees Schedule Related to Physical Port Fees (the ''OIP''). On September 29, 2023, the Exchange filed the proposed fee change (SR–CboeEDGX–2023–063). On October 13, 2023, the Exchange withdrew that filing and submitted SR–CboeEDGX–2023–064. On December 12, 2023, the Exchange withdrew that filing and submitted SR–CboeEDGX–2023–080. On February 12, 2024, the Exchange withdrew that filing and submitted SR–CboeEDGX–2024–014. On April 9, 2024, the Exchange withdrew that filing and submitted this filing.

[4] *See e.g.,* The Nasdaq Stock Market LLC (''Nasdaq''), General 8, Connectivity to the Exchange. Nasdaq and its affiliated exchanges charge a monthly fee of $15,000 for each 10Gb Ultra fiber connection to the respective exchange, which is analogous to the Exchange's 10Gb physical port. *See also* New York Stock Exchange LLC, NYSE American LLC, NYSE Arca, Inc., NYSE Chicago Inc., NYSE National, Inc. Connectivity Fee Schedule, which provides that 10 Gb LX LCN Circuits (which are analogous to the Exchange's 10 Gb physical port) are assessed $22,000 per month, per port.

[5] The Affiliate Exchanges are also submitting contemporaneous identical rule filings.

[6] 15 U.S.C. 78f(b).

[10] *See* Securities and Exchange Release No. 83430 (June 14, 2018), 83 FR 28697 (June 20, 2018) (SR–CboeEDGX–2018–017).

[11] *See https://www.officialdata.org/us/inflation/2010?amount=1.*

year, notwithstanding inflation. Accordingly, the Exchange believes the proposed fee is reasonable as it represents only an approximate 13% increase from the rates adopted five years ago, notwithstanding the cumulative rate of 21.1%. The Exchange is also unaware of any standard that suggests any fee proposal that exceeds a certain yearly or cumulative inflation rate is unreasonable, and in any event, in this instance the increase is well below the cumulative rate.

Additionally, the Exchange believes the proposed fee increase is [sic] The Exchange and its affiliated exchanges recently launched a multi-year initiative to improve Cboe Exchange Platform performance and capacity requirements to increase competitiveness, support growth and advance a consistent world class platform. The goal of the project, among other things, is to provide faster and more consistent order handling and matching performance for options, while ensuring quicker processing time and supporting increasing volumes and capacity needs. For example, the Exchange recently performed switch hardware upgrades. Particularly, the Exchange replaced existing customer access switches with newer models, which the Exchange believes resulted in increased determinism. The recent switch upgrades also increased the Exchange's capacity to accommodate more physical ports by nearly 50%. Network bandwidth was also increased nearly two-fold as a result of the upgrades, which among other things, can lead to reduce message queuing. The Exchange also believes these newer models result in less natural variance in the processing of messages. The Exchange notes that it incurred costs associated with purchasing and upgrading to these newer models, of which the Exchange has not otherwise passed through or offset.

As of April 1, 2024, market participants also having the option of connecting to a new data center (*i.e.,* Secaucus NY6 Data Center (''NY6'')), in addition to the current data centers at NY4 and NY5. The Exchange made NY6 available in response to customer requests in connection with their need for additional space and capacity. In order to make this space available, the Exchange expended significant resources to prepare this space, and will also incur ongoing costs with respect to maintaining this offering, including costs related to power, space, fiber, cabinets, panels, labor and maintenance of racks. The Exchange also incurred a large cost with respect to ensuring NY6 would be latency equalized, as it is for NY4 and NY5.

The Exchange also has made various other improvements since the current physical port rates were adopted in 2018. For example, the Exchange has updated its customer portal to provide more transparency with respect to firms' respective connectivity subscriptions, enabling them to better monitor, evaluate and adjust their connections based on their evolving business needs. The Exchange also performs proactive audits on a weekly basis to ensure that all customer cross connects continue to fall within allowable tolerances for Latency Equalized connections. Accordingly, the Exchange expended, and will continue to expend, resources to innovate and modernize technology so that it may benefit its Members and continue to compete among other options markets. The ability to continue to innovate with technology and offer new products to market participants allows the Exchange to remain competitive in the options space which currently has 17 options markets and potential new entrants.

The Exchange also believes the proposed fee is reasonable as it is still in line with, or even lower than, amounts assessed by other exchanges for similar connections.[12] Indeed, the Exchange believes assessing fees that are a lower rate than fees assessed by other exchanges for analogous connectivity (which were similarly adopted via the rule filing process and filed with the Commission) is reasonable. As noted above, the proposed fee is also the same as is concurrently being proposed for its Affiliate Exchanges. Further, Members are able to utilize a single port to connect to any of the Affiliate Exchanges with no additional fee assessed for that same physical port. Particularly, the Exchange believes the proposed monthly per port fee is reasonable, equitable and not unfairly discriminatory as it is assessed only once, even if it connects with another affiliate exchange since only one port is being used and the Exchange does not wish to charge multiple fees for the same port. Indeed, the Exchange notes that several ports are in fact purchased and utilized across one or more of the Exchange's affiliated Exchanges (and charged only once).

The Exchange also believes that the proposed fee change is not unfairly discriminatory because it would be assessed uniformly across all market participants that purchase the physical ports. The Exchange believes increasing the fee for 10 Gb physical ports and charging a higher fee as compared to the 1 Gb physical port is equitable as the 1 Gb physical port is 1/10th the size of the 10 Gb physical port and therefore does not offer access to many of the products and services offered by the Exchange (*e.g.,* ability to receive certain market data products). Thus, the value of the 1 Gb alternative is lower than the value of the 10 Gb alternative, when measured based on the type of Exchange access it offers. Moreover, market participants that purchase 10 Gb physical ports utilize the most bandwidth and therefore consume the most resources from the network The Exchange also anticipates that firms that utilize 10 Gb ports will benefit the most from the Exchange's investment in offering NY6 as the Exchange anticipates there will be much higher quantities of 10 Gb physical ports connecting from NY6 as compared to 1 Gb ports. Indeed, the Exchange notes that 10 Gb physical ports account for approximately 90% of physical ports across the NY4, NY5, and NY6 data centers, and to date, 80% of new port connections in NY6 are 10 Gb ports. As such, the Exchange believes the proposed fee change for 10 Gb physical ports is reasonably and appropriately allocated.

The Exchange also notes Members and non-Members will continue to choose the method of connectivity based on their specific needs and no broker-dealer is required to become a Member of, let alone connect directly to, the Exchange. There is also no regulatory requirement that any market participant connect to any one particular exchange. Market participants may voluntarily choose to become a member of one or more of a number of different exchanges, of which, the Exchange is but one choice. Additionally, any Exchange member that is dissatisfied with the proposal is free to choose not to be a member of the Exchange and send order flow to another exchange. Moreover, direct connectivity is not a requirement to participate on the Exchange. The Exchange also believes substitutable products and services are available to market participants, including, among other things, other options exchanges that a market participant may connect to in lieu of the Exchange and/or trading of any options product, such as within

[12] *See e.g.,* The Nasdaq Stock Market LLC (''Nasdaq''), General 8, Connectivity to the Exchange. Nasdaq and its affiliated exchanges charge a monthly fee of $15,000 for each 10Gb Ultra fiber connection to the respective exchange, which is analogous to the Exchange's 10Gb physical port. *See also* New York Stock Exchange LLC, NYSE American LLC, NYSE Arca, Inc., NYSE Chicago Inc., NYSE National, Inc. Connectivity Fee Schedule, which provides that 10 Gb LX LCN Circuits (which are analogous to the Exchange's 10 Gb physical port) are assessed $22,000 per month, per port.

the Over-the-Counter (OTC) markets which do not require connectivity to the Exchange. Indeed, there are currently 17 registered options exchanges that trade options (13 of which are not affiliated with Cboe), some of which have similar or lower connectivity fees.[13] Based on publicly available information, no single options exchange has more than approximately 19% of the market share.[14] Further, low barriers to entry mean that new exchanges may rapidly enter the market and offer additional substitute platforms to further compete with the Exchange and the products it offers. For example, there are 3 exchanges that have been added in the U.S. options markets in the last 5 years (*i.e.,* Nasdaq MRX, LLC, MIAX Pearl, LLC, MIAX Emerald LLC, and most recently MEMX LLC).

As noted above, there is no regulatory requirement that any market participant connect to any one options exchange, nor that any market participant connect at a particular connection speed or act in a particular capacity on the Exchange, or trade any particular product offered on an exchange. Moreover, membership is not a requirement to participate on the Exchange. Indeed, the Exchange is unaware of any one options exchange whose membership includes every registered broker-dealer. By way of example, while the Exchange has 51 members that trade options, Cboe BZX has 61 members that trade options, and Cboe C2 has 52 Trading Permit Holders (''TPHs'') (*i.e.,* members). There is also no firm that is a Member of EDGX Options only. Further, based on publicly available information regarding a sample of the Exchange's competitors, NYSE American Options has 71 members,[15] and NYSE Arca Options has 69 members,[16] MIAX Options has 46 members [17] and MIAX Pearl Options has 40 members.[18]

Vigorous competition among national securities exchanges provides many alternatives for firms to voluntarily decide whether direct connectivity to the Exchange is appropriate and worthwhile, and as noted above, no broker-dealer is required to become a Member of the Exchange, let alone connect directly to it. In the event that a market participant views the Exchange's proposed fee change as more or less attractive than the competition, that market participant can choose to connect to the Exchange indirectly or may choose not to connect to that exchange and connect instead to one or more of the other 13 non-Cboe affiliated options markets. Moreover, if the Exchange charges excessive fees, it may stand to lose not only connectivity revenues but also revenues associated with the execution of orders routed to it, and, to the extent applicable, market data revenues. The Exchange believes that this competitive dynamic imposes powerful restraints on the ability of any exchange to charge unreasonable fees for connectivity. Notwithstanding the foregoing, the Exchange still believes that the proposed fee increase is reasonable, equitably allocated and not unfairly discriminatory, even for market participants that determine to connect directly to the Exchange for business purposes, as those business reasons should presumably result in revenue capable of covering the proposed fee.

The Exchange lastly notes that it is not required by the Exchange Act, nor any other rule or regulation, to undertake a cost-of-service or rate-making approach with respect to fee proposals. Moreover, Congress's intent in enacting the 1975 Amendments to the Act was to enable competition—rather than government order—to determine prices. The principal purpose of the amendments was to facilitate the creation of a national market system for the trading of securities. Congress intended that this ''national market system evolve through the interplay of *competitive forces* as unnecessary regulatory restrictions are removed.'' [19] Other provisions of the Act confirm that intent. For example, the Act provides that an exchange must design its rules ''to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general, to protect investors and the public interest.'' [20] Likewise, the Act grants the Commission authority to amend or repeal ''[t]he rules of [an] exchange [that] impose any burden on competition not necessary or appropriate in furtherance of the purposes of this chapter.'' [21] In short, the promotion of free and open competition was a core congressional objective in creating the national market system.[22] Indeed, the Commission has historically interpreted that mandate to promote competitive forces to determine prices whenever compatible with a national market system. Accordingly, the Exchange believes it has met its burden to demonstrate that its proposed fee change is reasonable and consistent with the immediate filing process chosen by Congress, which created a system whereby market forces determine access fees in the vast majority of cases, subject to oversight only in particular cases of abuse or market failure. Lastly, and importantly, the Exchange believes that, even if it were possible as a matter of economic theory, cost-based pricing for the proposed fee would be so complicated that it could not be done practically.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. The proposed fee change will not impact intramarket competition because it will apply to all similarly situated Members equally (i.e., all market participants that choose to purchase the 10 Gb physical port). Additionally, the Exchange does not believe its proposed pricing will impose a barrier to entry to smaller participants and notes that its proposed connectivity pricing is associated with relative usage of the various market participants. For example, market participants with modest capacity needs can continue to buy the less expensive 1 Gb physical port (which cost is not changing). While pricing may be increased for the larger capacity physical ports, such options provide far more capacity and are purchased by those that consume more resources from the network. Accordingly, the proposed connectivity fees do not favor certain categories of market participants in a manner that would impose a burden on competition; rather, the allocation reflects the network resources consumed by the various size of market participants—lowest bandwidth consuming members pay the least, and

[19] *See* H.R. Rep. No. 94–229, at 92 (1975) (Conf. Rep.) (emphasis added).

[20] 15 U.S.C. 78f(b)(5).

[21] 15 U.S.C. 78f(8).

[22] *See* also 15 U.S.C. 78k–l(a)(1)(C)(ii) (purposes of Exchange Act include to promote ''fair competition among brokers and dealers, among exchange markets, and between exchange markets and markets other than exchange markets''); Order, 73 FR at 74781 (''The Exchange Act and its legislative history strongly support the Commission's reliance on competition, whenever possible, in meeting its regulatory responsibilities for overseeing the SROs and the national market system.'').

highest bandwidth consuming members pays the most.

The Exchange's proposed fee is also still lower than some fees for similar connectivity on other exchanges and therefore may stimulate intermarket competition by attracting additional firms to connect to the Exchange or at least should not deter interested participants from connecting directly to the Exchange. Further, if the changes proposed herein are unattractive to market participants, the Exchange can, and likely will, see a decline in connectivity via 10 Gb physical ports as a result. The Exchange operates in a highly competitive market in which market participants can determine whether or not to connect directly to the Exchange based on the value received compared to the cost of doing so. Indeed, market participants have numerous alternative venues that they may participate on and direct their order flow, including 13 non-Cboe affiliated options markets, as well as off-exchange venues, where competitive products are available for trading. Moreover, the Commission has repeatedly expressed its preference for competition over regulatory intervention in determining prices, products, and services in the securities markets. Specifically, in Regulation NMS, the Commission highlighted the importance of market forces in determining prices and SRO revenues and, also, recognized that current regulation of the market system ''has been remarkably successful in promoting market competition in its broader forms that are most important to investors and listed companies.'' [23] The fact that this market is competitive has also long been recognized by the courts. In NetCoalition v. Securities and Exchange Commission, the D.C. Circuit stated as follows: ''[n]o one disputes that competition for order flow is 'fierce.' . . . As the SEC explained, '[i]n the U.S. national market system, buyers and sellers of securities, and the broker-dealers that act as their order-routing agents, have a wide range of choices of where to route orders for execution'; [and] 'no exchange can afford to take its market share percentages for granted' because 'no exchange possesses a monopoly, regulatory or otherwise, in the execution of order flow from broker dealers'. . . .''.[24] Accordingly, the Exchange does not believe its proposed change imposes any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

The Exchange neither solicited nor received comments on the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A) of the Act [25] and paragraph (f) of Rule 19b–4 [26] thereunder. At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission will institute proceedings to determine whether the proposed rule change should be approved or disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic Comments

- Use the Commission's internet comment form (*https://www.sec.gov/rules/sro.shtml*); or
- Send an email to *rule-comments@sec.gov.* Please include file number SR–CboeEDGX–2024–021 on the subject line.

Paper Comments

- Send paper comments in triplicate to Secretary, Securities and Exchange Commission, 100 F Street NE, Washington, DC 20549–1090.

All submissions should refer to file number SR–CboeEDGX–2024–021. This file number should be included on the subject line if email is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's internet website (*https://www.sec.gov/rules/sro.shtml*). Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for website viewing and printing in the Commission's Public Reference Room, 100 F Street NE, Washington, DC 20549, on official business days between the hours of 10 a.m. and 3 p.m. Copies of the filing also will be available for inspection and copying at the principal office of the Exchange. Do not include personal identifiable information in submissions; you should submit only information that you wish to make available publicly. We may redact in part or withhold entirely from publication submitted material that is obscene or subject to copyright protection. All submissions should refer to file number SR–CboeEDGX–2024–021 and should be submitted on or before May 20, 2024.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.[27]

Sherry R. Haywood,

Assistant Secretary.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–100015; File No. SR–CboeBZX–2024–018]

Self-Regulatory Organizations; Cboe BZX Exchange, Inc.; Notice of Designation of a Longer Period for Commission Action on a Proposed Rule Change To List and Trade Shares of the Franklin Ethereum ETF, a Series of the Franklin Ethereum Trust, Under BZX Rule 14.11(e)(4), Commodity-Based Trust Shares

April 23, 2024.

On February 22, 2024, Cboe BZX Exchange, Inc. (''BZX'' or ''Exchange'') filed with the Securities and Exchange Commission (''Commission''), pursuant to section 19(b)(1) of the Securities Exchange Act of 1934 (''Act'') [1] and Rule 19b–4 thereunder,[2] a proposed rule change to list and trade shares of the Franklin Ethereum ETF, a series of the Franklin Ethereum Trust, under BZX

[1] 15 U.S.C. 78s(b)(1).

[2] 17 CFR 240.19b–4.

Rule 14.11(e)(4), Commodity-Based Trust Shares. The proposed rule change was published for comment in the **Federal Register** on March 13, 2024.[3]

Section 19(b)(2) of the Act[4] provides that within 45 days of the publication of notice of the filing of a proposed rule change, or within such longer period up to 90 days as the Commission may designate if it finds such longer period to be appropriate and publishes its reasons for so finding or as to which the self-regulatory organization consents, the Commission shall either approve the proposed rule change, disapprove the proposed rule change, or institute proceedings to determine whether the proposed rule change should be disapproved. The 45th day after publication of the notice for this proposed rule change is April 27, 2024. The Commission is extending this 45-day time period.

The Commission finds it appropriate to designate a longer period within which to take action on the proposed rule change so that it has sufficient time to consider the proposed rule change and the issues raised therein. Accordingly, the Commission, pursuant to section 19(b)(2) of the Act,[5] designates June 11, 2024, as the date by which the Commission shall either approve or disapprove, or institute proceedings to determine whether to disapprove, the proposed rule change (File No. SR–CboeBZX–2024–018).

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.[6]

Sherry R. Haywood,

Assistant Secretary.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–100013; File No. SR–CboeBZX–2024–030]

Self-Regulatory Organizations; Cboe BZX Exchange, Inc.; Notice of Filing and Immediate Effectiveness of a Proposed Rule Change To Amend Its Fees Schedule Related to Physical Port Fees

April 23, 2024.

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934 (''Act''),[1] and Rule 19b–4 thereunder,[2] notice is hereby given that on April 18, 2024, Cboe BZX Exchange, Inc. (the ''Exchange'' or ''BZX'') filed with the Securities and Exchange Commission (''Commission'') the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

Cboe BZX Exchange, Inc. (the ''Exchange'' or ''BZX Options'') proposes to amend its Fees Schedule. The text of the proposed rule change is provided in Exhibit 5.

The text of the proposed rule change is also available on the Exchange's website (*http://markets.cboe.com/us/equities/regulation/rule_filings/BZX/*), at the Exchange's Office of the Secretary, and at the Commission's Public Reference Room.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to amend its fee schedule for its equity options platform (''BZX Options'') relating to physical connectivity fees.[3]

By way of background, a physical port is utilized by a Member or non-Member to connect to the Exchange at the data centers where the Exchange's servers are located. The Exchange currently assesses the following physical connectivity fees for Members and non-Members on a monthly basis: $2,500 per physical port for a 1 gigabit (''Gb'') circuit and $7,500 per physical port for a 10 Gb circuit. The Exchange proposes to increase the monthly fee for 10 Gb physical ports from $7,500 to $8,500 per port. The Exchange notes the proposed fee change better enables it to continue to maintain and improve its market technology and services and also notes that the proposed fee amount, even as amended, continues to be in line with, or even lower than, amounts assessed by other exchanges for similar connections.[4] The physical ports may also be used to access the Systems for the following affiliate exchanges and only one monthly fee currently (and will continue) to apply per port: the Exchange's equities platform (BZX Equities), Cboe EDGX Exchange, Inc. (options and equities platforms), Cboe BYX Exchange, Inc., Cboe EDGA Exchange, Inc., and Cboe C2 Exchange, Inc., (''Affiliate Exchanges'').[5]

2. Statutory Basis

The Exchange believes the proposed rule change is consistent with the Securities Exchange Act of 1934 (the ''Act'') and the rules and regulations thereunder applicable to the Exchange and, in particular, the requirements of section 6(b) of the Act.[6] Specifically, the Exchange believes the proposed rule change is consistent with the section 6(b)(5)[7] requirements that the rules of an exchange be designed to prevent fraudulent and manipulative acts and

[3] *See* Securities Exchange Act Release No. 99686 (Mar. 7, 2024), 89 FR 18447. Comments on the proposed rule change are available at: *https://www.sec.gov/comments/sr-cboebzx-2024-018/srcboebzx2024018.htm*.

[3] The Exchange initially filed the proposed fee changes on July 3, 2023 (SR–CboeBZX–2023–047). On September 1, 2023, the Exchange withdrew that filing and submitted SR–CboeBZX–2023–068. On September 29, 2023, the Securities and Exchange Commission issued a Suspension of and Order Instituting Proceedings to Determine whether to Approve or Disapprove a Proposed Rule Change to Amend its Fees Schedule Related to Physical Port Fees (the ''OIP''). On September 29, 2023, the Exchange filed the proposed fee change (SR–CboeBZX–2023–79). On October 13, 2023, the Exchange withdrew that filing and submitted SR–CboeBZX–2023–083. On December 12, 2023 the Exchange withdrew that filing and submitted SR–CboeBZX–2023–104. On February 9, 2024, the Exchange withdrew that filing and submitted SR–CboeBZX–2024–017. On April 9, 2024, the Exchange withdrew that filing and submitted this SR–CboeBZX–2024–028. On April 18, 2024, the Exchange withdrew that filing and submitted this filing.

[4] *See e.g.,* The Nasdaq Stock Market LLC (''Nasdaq''), General 8, Connectivity to the Exchange. Nasdaq and its affiliated exchanges charge a monthly fee of $15,000 for each 10Gb Ultra fiber connection to the respective exchange, which is analogous to the Exchange's 10Gb physical port. *See also* New York Stock Exchange LLC, NYSE American LLC, NYSE Arca, Inc., NYSE Chicago Inc., NYSE National, Inc. Connectivity Fee Schedule, which provides that 10 Gb LX LCN Circuits (which are analogous to the Exchange's 10 Gb physical port) are assessed $22,000 per month, per port.

[5] The Affiliate Exchanges are also submitting contemporaneous identical rule filings.

[6] 15 U.S.C. 78f(b).

[7] 15 U.S.C. 78f(b)(5).

practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in regulating, clearing, settling, processing information with respect to, and facilitating transactions in securities, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general, to protect investors and the public interest. Additionally, the Exchange believes the proposed rule change is consistent with the section 6(b)(5)[8] requirement that the rules of an exchange not be designed to permit unfair discrimination between customers, issuers, brokers, or dealers. The Exchange also believes the proposed rule change is consistent with section 6(b)(4)[9] of the Act, which requires that Exchange rules provide for the equitable allocation of reasonable dues, fees, and other charges among its Members and other persons using its facilities.

The Exchange believes the proposed fee change is reasonable as it reflects a moderate increase in physical connectivity fees for 10 Gb physical ports. Further, the current 10 Gb physical port fee has remained unchanged since June 2018.[10] Since its last increase over 5 years ago however, there has been notable inflation. Particularly, the dollar has had an average inflation rate of 3.9% per year between 2018 and today, producing a cumulative price increase of approximately 21.1% inflation since the fee for the 10 Gb physical port was last modified.[11] Moreover, the Exchange historically does not increase fees every year, notwithstanding inflation. Accordingly, the Exchange believes the proposed fee is reasonable as it represents only an approximate 13% increase from the rates adopted five years ago, notwithstanding the cumulative rate of 21.1%. The Exchange is also unaware of any standard that suggests any fee proposal that exceeds a certain yearly or cumulative inflation rate is unreasonable, and in any event, in this instance the increase is well below the cumulative rate.

Additionally, the Exchange believes the proposed fee increase is reasonable in light of recent and anticipated connectivity-related upgrades and changes. The Exchange and its affiliated exchanges recently launched a multi-year initiative to improve Cboe Exchange Platform performance and capacity requirements to increase competitiveness, support growth and advance a consistent world class platform. The goal of the project, among other things, is to provide faster and more consistent order handling and matching performance for options, while ensuring quicker processing time and supporting increasing volumes and capacity needs. For example, the Exchange recently performed switch hardware upgrades. Particularly, the Exchange replaced existing customer access switches with newer models, which the Exchange believes resulted in increased determinism. The recent switch upgrades also increased the Exchange's capacity to accommodate more physical ports by nearly 50%. Network bandwidth was also increased nearly two-fold as a result of the upgrades, which among other things, can lead to reduce message queuing. The Exchange also believes these newer models result in less natural variance in the processing of messages. The Exchange notes that it incurred costs associated with purchasing and upgrading to these newer models, of which the Exchange has not otherwise passed through or offset.

As of April 1, 2024, market participants also having the option of connecting to a new data center (*i.e.,* Secaucus NY6 Data Center (''NY6'')), in addition to the current data centers at NY4 and NY5. The Exchange made NY6 available in response to customer requests in connection with their need for additional space and capacity. In order to make this space available, the Exchange expended significant resources to prepare this space, and will also incur ongoing costs with respect to maintaining this offering, including costs related to power, space, fiber, cabinets, panels, labor and maintenance of racks. The Exchange also incurred a large cost with respect to ensuring NY6 would be latency equalized, as it is for NY4 and NY5.

The Exchange also has made various other improvements since the current physical port rates were adopted in 2018. For example, the Exchange has updated its customer portal to provide more transparency with respect to firms' respective connectivity subscriptions, enabling them to better monitor, evaluate and adjust their connections based on their evolving business needs. The Exchange also performs proactive audits on a weekly basis to ensure that all customer cross connects continue to fall within allowable tolerances for Latency Equalized connections. Accordingly, the Exchange expended, and will continue to expend, resources to innovate and modernize technology so that it may benefit its Members and continue to compete among other options markets. The ability to continue to innovate with technology and offer new products to market participants allows the Exchange to remain competitive in the options space which currently has 17 options markets and potential new entrants.

The Exchange also believes the proposed fee is reasonable as it is still in line with, or even lower than, amounts assessed by other exchanges for similar connections.[12] Indeed, the Exchange believes assessing fees that are a lower rate than fees assessed by other exchanges for analogous connectivity (which were similarly adopted via the rule filing process and filed with the Commission) is reasonable. As noted above, the proposed fee is also the same as is concurrently being proposed for its Affiliate Exchanges. Further, Members are able to utilize a single port to connect to any of the Affiliate Exchanges with no additional fee assessed for that same physical port. Particularly, the Exchange believes the proposed monthly per port fee is reasonable, equitable and not unfairly discriminatory as it is assessed only once, even if it connects with another affiliate exchange since only one port is being used and the Exchange does not wish to charge multiple fees for the same port. Indeed, the Exchange notes that several ports are in fact purchased and utilized across one or more of the Exchange's affiliated Exchanges (and charged only once).

The Exchange also believes that the proposed fee change is not unfairly discriminatory because it would be assessed uniformly across all market participants that purchase the physical ports. The Exchange believes increasing the fee for 10 Gb physical ports and charging a higher fee as compared to the 1 Gb physical port is equitable as the 1 Gb physical port is 1/10th the size of the 10 Gb physical port and therefore does not offer access to many of the products and services offered by the Exchange (*e.g.,* ability to receive certain market data products). Thus, the value of the 1 Gb alternative is lower than the value of

[11] *See https://www.officialdata.org/us/inflation/2010?amount=1.*

[12] *See e.g.,* The Nasdaq Stock Market LLC (''Nasdaq''), General 8, Connectivity to the Exchange. Nasdaq and its affiliated exchanges charge a monthly fee of $15,000 for each 10Gb Ultra fiber connection to the respective exchange, which is analogous to the Exchange's 10Gb physical port. *See also* New York Stock Exchange LLC, NYSE American LLC, NYSE Arca, Inc., NYSE Chicago Inc., NYSE National, Inc. Connectivity Fee Schedule, which provides that 10 Gb LX LCN Circuits (which are analogous to the Exchange's 10 Gb physical port) are assessed $22,000 per month, per port.

the 10 Gb alternative, when measured based on the type of Exchange access it offers. Moreover, market participants that purchase 10 Gb physical ports utilize the most bandwidth and therefore consume the most resources from the network. The Exchange also anticipates that firms that utilize 10 Gb ports will benefit the most from the Exchange's investment in offering NY6 as the Exchange anticipates there will be much higher quantities of 10 Gb physical ports connecting from NY6 as compared to 1 Gb ports. Indeed, the Exchange notes that 10 Gb physical ports account for approximately 90% of physical ports across the NY4, NY5, and NY6 data centers, and to date, 80% of new port connections in NY6 are 10 Gb ports. As such, the Exchange believes the proposed fee change for 10 Gb physical ports is reasonably and appropriately allocated.

The Exchange also notes Members and non-Members will continue to choose the method of connectivity based on their specific needs and no broker-dealer is required to become a Member of, let alone connect directly to, the Exchange. There is also no regulatory requirement that any market participant connect to any one particular exchange. Market participants may voluntarily choose to become a member of one or more of a number of different exchanges, of which, the Exchange is but one choice. Additionally, any Exchange member that is dissatisfied with the proposal is free to choose not to be a member of the Exchange and send order flow to another exchange. Moreover, direct connectivity is not a requirement to participate on the Exchange. The Exchange also believes substitutable products and services are available to market participants, including, among other things, other options exchanges that a market participant may connect to in lieu of the Exchange and/or trading of any options product, such as within the Over-the-Counter (OTC) markets which do not require connectivity to the Exchange. Indeed, there are currently 17 registered options exchanges that trade options (13 of which are not affiliated with Cboe), some of which have similar or lower connectivity fees.[13] Based on publicly available information, no single options exchange has more than approximately 19% of the market share.[14] Further, low barriers to entry mean that new exchanges may rapidly enter the market and offer additional substitute platforms to further compete with the Exchange and the products it offers. For example, there are 3 exchanges that have been added in the U.S. options markets in the last 5 years (*i.e.,* Nasdaq MRX, LLC, MIAX Pearl, LLC, MIAX Emerald LLC, and most recently, MEMX LLC).

As noted above, there is no regulatory requirement that any market participant connect to any one options exchange, nor that any market participant connect at a particular connection speed or act in a particular capacity on the Exchange, or trade any particular product offered on an exchange. Moreover, membership is not a requirement to participate on the Exchange. Indeed, the Exchange is unaware of any one options exchange whose membership includes every registered broker-dealer. By way of example, while the Exchange has 61 members that trade options, Cboe EDGX has 51 members that trade options, and Cboe C2 has 52 Trading Permit Holders (''TPHs'') (*i.e.,* members). There is also no firm that is a Member of BZX Options only. Further, based on publicly available information regarding a sample of the Exchange's competitors, NYSE American Options has 71 members [15], and NYSE Arca Options has 69 members [16], MIAX Options has 46 members [17] and MIAX Pearl Options has 40 members.[18]

Vigorous competition among national securities exchanges provides many alternatives for firms to voluntarily decide whether direct connectivity to the Exchange is appropriate and worthwhile, and as noted above, no broker-dealer is required to become a Member of the Exchange, let alone connect directly to it. In the event that a market participant views the Exchange's proposed fee change as more or less attractive than the competition, that market participant can choose to connect to the Exchange indirectly or may choose not to connect to that exchange and connect instead to one or more of the other 13 non-Cboe affiliated options markets. Indeed, market participants are free to choose which exchange to use to satisfy their business needs. Moreover, if the Exchange charges excessive fees, it may stand to lose not only connectivity revenues but also revenues associated with the execution of orders routed to it, and, to the extent applicable, market data revenues. The Exchange believes that this competitive dynamic imposes powerful restraints on the ability of any exchange to charge unreasonable fees for connectivity. Notwithstanding the foregoing, the Exchange still believes that the proposed fee increase is reasonable, equitably allocated and not unfairly discriminatory, even for market participants that determine to connect directly to the Exchange for business purposes, as those business reasons should presumably result in revenue capable of covering the proposed fee. The Exchange lastly notes that it is not required by the Exchange Act, nor any other rule or regulation, to undertake a cost-of-service or rate-making approach with respect to fee proposals. Moreover, Congress's intent in enacting the 1975 Amendments to the Act was to enable competition—rather than government order—to determine prices. The principal purpose of the amendments was to facilitate the creation of a national market system for the trading of securities. Congress intended that this ''national market system evolve through the interplay of *competitive forces* as unnecessary regulatory restrictions are removed.'' [19] Other provisions of the Act confirm that intent. For example, the Act provides that an exchange must design its rules ''to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general, to protect investors and the public interest.'' [20] Likewise, the Act grants the Commission authority to amend or repeal ''[t]he rules of [an] exchange [that] impose any burden on competition not necessary or appropriate in furtherance of the purposes of this chapter.'' [21] In short, the promotion of free and open competition was a core congressional objective in creating the national market system.[22] Indeed, the Commission has historically interpreted that mandate to promote competitive forces to determine

[22] *See* also 15 U.S.C. 78k–l(a)(1)(C)(ii) (purposes of Exchange Act include to promote ''fair competition among brokers and dealers, among exchange markets, and between exchange markets and markets other than exchange markets''); Order, 73 FR at 74781 (''The Exchange Act and its legislative history strongly support the Commission's reliance on competition, whenever possible, in meeting its regulatory responsibilities for overseeing the SROs and the national market system.'').

prices whenever compatible with a national market system. Accordingly, the Exchange believes it has met its burden to demonstrate that its proposed fee change is reasonable and consistent with the immediate filing process chosen by Congress, which created a system whereby market forces determine access fees in the vast majority of cases, subject to oversight only in particular cases of abuse or market failure. Lastly, and importantly, the Exchange believes that, even if it were possible as a matter of economic theory, cost-based pricing for the proposed fee would be so complicated that it could not be done practically.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. The proposed fee change will not impact intramarket competition because it will apply to all similarly situated Members equally (*i.e.,* all market participants that choose to purchase the 10 Gb physical port). Additionally, the Exchange does not believe its proposed pricing will impose a barrier to entry to smaller participants and notes that its proposed connectivity pricing is associated with relative usage of the various market participants. For example, market participants with modest capacity needs can continue to buy the less expensive 1 Gb physical port (which cost is not changing). While pricing may be increased for the larger capacity physical ports, such options provide far more capacity and are purchased by those that consume more resources from the network. Accordingly, the proposed connectivity fees do not favor certain categories of market participants in a manner that would impose a burden on competition; rather, the allocation reflects the network resources consumed by the various size of market participants—lowest bandwidth consuming members pay the least, and highest bandwidth consuming members pays the most.

The Exchange's proposed fee is also still lower than some fees for similar connectivity on other exchanges and therefore may stimulate intermarket competition by attracting additional firms to connect to the Exchange or at least should not deter interested participants from connecting directly to the Exchange. Further, if the changes proposed herein are unattractive to market participants, the Exchange can, and likely will, see a decline in connectivity via 10 Gb physical ports as a result. The Exchange operates in a highly competitive market in which market participants can determine whether or not to connect directly to the Exchange based on the value received compared to the cost of doing so. Indeed, market participants have numerous alternative venues that they may participate on and direct their order flow, including 13 non-Cboe affiliated options markets, as well as off-exchange venues, where competitive products are available for trading. Moreover, the Commission has repeatedly expressed its preference for competition over regulatory intervention in determining prices, products, and services in the securities markets. Specifically, in Regulation NMS, the Commission highlighted the importance of market forces in determining prices and SRO revenues and, also, recognized that current regulation of the market system ''has been remarkably successful in promoting market competition in its broader forms that are most important to investors and listed companies.'' [23] The fact that this market is competitive has also long been recognized by the courts. In NetCoalition v. Securities and Exchange Commission, the D.C. Circuit stated as follows: ''[n]o one disputes that competition for order flow is 'fierce.' . . . As the SEC explained, '[i]n the U.S. national market system, buyers and sellers of securities, and the broker-dealers that act as their order-routing agents, have a wide range of choices of where to route orders for execution'; [and] 'no exchange can afford to take its market share percentages for granted' because 'no exchange possesses a monopoly, regulatory or otherwise, in the execution of order flow from broker dealers'. . . .''.[24] Accordingly, the Exchange does not believe its proposed change imposes any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

The Exchange neither solicited nor received comments on the proposed rule change.

[23] See Securities Exchange Act Release No. 51808 (June 9, 2005), 70 FR 37496, 37499 (June 29, 2005).

[24] NetCoalition v. SEC, 615 F.3d 525, 539 (D.C. Cir. 2010) (quoting Securities Exchange Act Release No. 59039 (December 2, 2008), 73 FR 74770, 74782–83 (December 9, 2008) (SR–NYSEArca–2006–21)).

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to section 19(b)(3)(A) of the Act [25] and paragraph (f) of Rule 19b–4 [26] thereunder. At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission will institute proceedings to determine whether the proposed rule change should be approved or disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic Comments

- Use the Commission's internet comment form (*https://www.sec.gov/rules/sro.shtml*); or
- Send an email to *rule-comments@sec.gov.* Please include file number SR–CboeBZX–2024–030 on the subject line.

Paper Comments

- Send paper comments in triplicate to Secretary, Securities and Exchange Commission, 100 F Street NE, Washington, DC 20549–1090.

All submissions should refer to file number SR–CboeBZX–2024–030. This file number should be included on the subject line if email is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's internet website (*https://www.sec.gov/rules/sro.shtml*). Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for website viewing and printing in the Commission's Public

DEPARTMENT OF STATE

[Public Notice 12368]

30-Day Notice of Proposed Information Collection: Supplemental Questions for Visa Applicants

ACTION: Notice of request for public comment and submission to OMB of proposed collection of information.

SUMMARY: The Department of State has submitted the information collection described below to the Office of Management and Budget (OMB) for approval. In accordance with the Paperwork Reduction Act of 1995, the Department is requesting comments on this collection from all interested individuals and organizations. The purpose of this Notice is to allow 30 days for public comment preceding submission of the collection to OMB.

DATES: The Department will accept comments from the public up to May 29, 2024.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to *www.reginfo.gov/public/do/PRAMain.* Find this information collection by selecting ''Currently under 30-day Review—Open for Public Comments'' or by using the search function.

FOR FURTHER INFORMATION CONTACT: Direct requests for additional information regarding the collection listed in this notice, including requests for copies of the proposed collection instrument and supporting documents, to Anabel Moreno-Mendez, who may be reached at 202–485–7611 or *PRA_BurdenComments@state.gov.*

SUPPLEMENTARY INFORMATION:

- *Title of Information Collection:* Supplemental Questions for Visa Applicants.
- *OMB Control Number:* 1405–0226.
- *Type of Request:* Extension of a Currently Approved Collection.
- *Originating Office:* CA/VO.
- *Form Number:* DS–5535.

• *Respondents:* Immigrant Visa Applicants, Nonimmigrant Visa Applicants.
• *Estimated Number of Respondents:* 50,000.
• *Estimated Number of Responses:* 50,000.
• *Average Time per Response:* 55 minutes.
• *Total Estimated Burden Time:* 45,833 hours.
• *Frequency:* Once per respondent's application.
• *Obligation to Respond:* Required to obtain or retain a benefit.

We are soliciting public comments to permit the Department to:

• Evaluate whether the proposed information collection is necessary for the proper functions of the Department.
• Evaluate the accuracy of our estimate of the time and cost burden for this proposed collection, including the validity of the methodology and assumptions used.
• Enhance the quality, utility, and clarity of the information to be collected.
• Minimize the reporting burden on those who are to respond, including the use of automated collection techniques or other forms of information technology.

Please note that comments submitted in response to this Notice are public record. Before including any detailed personal information, you should be aware that your comments as submitted, including your personal information, will be available for public review.

Abstract of Proposed Collection

The Immigration and Nationality Act (''INA''), 8 U.S.C. 1101 *et seq.,* sets out application and eligibility requirements for an applicant seeking to obtain nonimmigrant or immigrant visa. Most of the standards for determining visa ineligibility are detailed in INA 212(a), 8 U.S.C. 1182(a), which includes terrorist activities and other security and related grounds at INA 212(a)(3), 8 U.S.C. 1182(a)(3).

INA 221(a), 8 U.S.C. 1201(a) provides that a consular officer may issue an immigrant or nonimmigrant visa to an individual who has made a proper application, subject to applicable conditions and limitations in the INA and related regulations. Under INA 222(c), 8 U.S.C. 1202(c), every applicant for a nonimmigrant visa must provide certain identifying particulars—name, date of birth and birthplace, nationality, purpose and length of intended stay in the United States, marital status—and ''such additional information necessary to the identification of the applicant, the determination of his eligibility for a nonimmigrant visa, and the enforcement of the immigration and nationality laws as may be by regulations prescribed.'' Similar requirements apply to applicants for immigrant visas, pursuant to INA 222(a), 8 U.S.C. 1201(a). Under regulations set out in Title 22 of the Code of Federal Regulations, visa applications must be made on a standard form and a consular officer ''may require the submission of additional necessary information or question an applicant on any relevant matter whenever the consular officer believes that the information provided in the application is inadequate to permit a determination of the applicant's eligibility to receive a nonimmigrant visa.'' 22 CFR 41.103; see also 22 CFR 42.63 (immigrant visas).

Consular officers may require submission of a completed DS–5535 to supplement the immigrant and nonimmigrant visa applications. The DS–5535 solicits additional biographic information that is necessary to determine the applicant's eligibility for a visa.

Methodology

Consular officers ask these questions of a subset of nonimmigrant and immigrant visa applicants worldwide either orally or by providing a copy of the questions electronically or on paper. The applicant can respond orally, via email, via written response or via Microsoft e-version. The e-version of the information collection asks identical questions to the paper version. There are slight differences in formatting due to the different platforms. In some instances, when a paper copy is provided, the applicant may still be permitted to return the form electronically.

Julie M. Stufft,

Acting Deputy Assistant Secretary, Bureau of Consular Affairs, Department of State.

DEPARTMENT OF STATE

[Public Notice 12369]

60-Day Notice of Proposed Information Collection: DS–156E, Nonimmigrant Treaty Trader/Investor Application

ACTION: Notice of request for public comment.

SUMMARY: The Department of State is seeking Office of Management and Budget (OMB) approval for the information collection described below. In accordance with the Paperwork Reduction Act of 1995, we are requesting comments on this collection from all interested individuals and organizations. The purpose of this notice is to allow 60 days for public comment preceding submission of the collection to OMB.

DATES: The Department will accept comments from the public up to June 28, 2024.

ADDRESSES: You may submit comments by any of the following methods:

• *Web:* Persons with access to the internet may comment on this notice by going to *www.Regulations.gov.* You can search for the document by entering ''Docket Number: DOS–2024–0012'' in the Search field. Then click the ''Comment Now'' button and complete the comment form.
• *Email: PRA_BurdenComments@state.gov.*
• *Regular Mail:* Send written comments to: Jami Thompson, Senior Regulatory Coordinator, Visa Services, Department of State, 600 19th St. NW, Washington, DC 20006.

You must include the DS form number (if applicable), information collection title, and the OMB control number in any correspondence.

FOR FURTHER INFORMATION CONTACT: Direct requests for additional information regarding the collection listed in this notice, including requests for copies of the proposed collection instrument and supporting documents, to Anabel Moreno-Mendez, Visa Services, Department of State, 600 19th St. NW, Washington, DC 20006, who may be reached at 202–485–7611 or *PRA_BurdenComments@state.gov.*

SUPPLEMENTARY INFORMATION:

• *Title of Information Collection:* DS–156E, Nonimmigrant Treaty Trader/Investor Application.
• *OMB Control Number:* 1405–0101.
• *Type of Request:* Extension of a Currently Approved Collection.
• *Originating Office:* CA/VO.
• *Form Number:* DS–156E.
• *Respondents:* Nonimmigrant Treaty Traders/Investors applying for E-visas.
• *Estimated Number of Respondents:* 43,000.
• *Estimated Number of Responses:* 43,000.
• *Average Time per Response:* 4 hours.
• *Total Estimated Burden Time:* 172,000 hours.
• *Frequency:* Once Per Application.
• *Obligation to Respond:* Required to Obtain or Retain a Benefit.

We are soliciting public comments to permit the Department to:

• Evaluate whether the proposed information collection is necessary for the proper functions of the Department.

• Evaluate the accuracy of our estimate of the time and cost burden for this proposed collection, including the validity of the methodology and assumptions used.

• Enhance the quality, utility, and clarity of the information to be collected.

• Minimize the reporting burden on those who are to respond, including the use of automated collection techniques or other forms of information technology.

Please note that comments submitted in response to this Notice are public record. Before including any detailed personal information, you should be aware that your comments as submitted, including your personal information, will be available for public review.

Abstract of Proposed Collection

Under section 101(a)(15)(E) of the Immigration and Nationality Act (INA) (8 U.S.C. 1101(a)(15)(E)), noncitizens of certain countries may qualify for a nonimmigrant visa to carry out activities as a treaty traders, treaty investors, or other treaty workers in specialty occupation. Such individuals must be nationals of countries with a qualifying Treaty of Friendship, Commerce, and Navigation or its equivalent with the United States, or that is accorded such privileges by specific legislation. The Department uses the DS–156E to elicit information necessary to determine a foreign national's qualification for a nonimmigrant visa under these provisions. Only certain applicants seeking E nonimmigrant treaty trader/investor visas to the United States will complete Form DS–156E.

Methodology

After completing Form DS–160, Online Nonimmigrant Visa Application, applicants can access the DS- 156E online, print a copy of the form, and then submit it in person, via email, or via mail, depending on the procedures at the relevant consulate or embassy.

Federal Aviation Administration

[Docket No. FAA–2024–1345]

Agency Information Collection Activities: Requests for Comments; Clearance of a New Approval of Information Collection: Adopt-a-School Feedback Form

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, FAA invites public comments about our intention to request the Office of Management and Budget (OMB) approval for a new information collection. The collection involves collecting feedback from participating school representatives to continuously improve the Adopt-a-School program. The information to be collected will be used to and/or is necessary because satisfaction rating is a metric measured by the Adopt-a-School program for success.

DATES: Written comments should be submitted by June 28, 2024.

ADDRESSES: Please send written comments:

By Electronic Docket: www.regulations.gov (Enter docket number into search field).

By mail: Christine Sharp, 800 Independence Ave., SW Washington DC 20591, Room 932.

FOR FURTHER INFORMATION CONTACT: Shannon Stearman by email at: *sstearman@faa.gov;* phone: 202–267–0236.

SUPPLEMENTARY INFORMATION:

Public Comments Invited: You are asked to comment on any aspect of this information collection, including (a) Whether the proposed collection of information is necessary for FAA's performance; (b) the accuracy of the estimated burden; (c) ways for FAA to enhance the quality, utility and clarity of the information collection; and (d) ways that the burden could be minimized without reducing the quality of the collected information. The agency will summarize and/or include your comments in the request for OMB's clearance of this information collection.

OMB Control Number: 2120–XXXX.

Title: Adopt-a-School Feedback Form.

Form Numbers: N/A.

Type of Review: New Information Collection.

Background: The Adopt-a-School Program is a Signature Program of the FAA's Science Technology Engineering and Math (STEM) Aviation and Space Education (AVSED) Program. The program provides 6 aerospace STEM-based lessons to participating schools in the nine FAA regions across the country each year in alignment with the strategic goals of the program. This form allows participating schools to provide feedback to the FAA regarding their experience in the program including feedback regarding scheduling, lesson efficacy, and presentation success. This information will then be used to review the program, initiate continuous improvement discussions, and determine necessary changes and/or improvements for following iterations of the program.

Respondents: 500 Educators, Principals or Administrative Staff at interested schools across the country.

Frequency: Annually.

Estimated Average Burden per Response: 5 Minutes.

Estimated Total Annual Burden: Per respondent: $2.46 Total: $1,228.75.

Issued in Washington, DC, on April 23, 2024.

Christine Sharp,

Manager, Aviation Workforce and Education Division.

Title: Adopt-a-School Application Form.

Form Numbers: N/A.

Type of Review: New Information Collection.

Background: The Adopt-a-School Program is a Signature Program of the FAA's Science Technology Engineering and Math (STEM) Aviation and Space Education (AVSED) Program. The program provides 6 aerospace STEM-based lessons to participating schools in the nine FAA regions across the country each year. This form allows schools to contact the FAA and express interest in the Adopt-a-School Program. The program has specific criteria, and collecting this information from interested schools allows the FAA to determine if a school qualifies and take next steps in the school selection process. Information collected will include the name of the school, point of contact information, basic school characteristics, and confirmation of the level of interest and familiarity of the school with the Adopt-a-School Program. This information will then be used to review and qualify schools, initiate ongoing discussions, and determine the selected schools for the following year.

Respondents: 1,000 Educators, Principals or Administrative Staff at interested schools across the country.

Frequency: Annually.

Estimated Average Burden per Response: 15 Minutes.

Estimated Total Annual Burden: Per respondent: $7.37 Total: $7,372.50.

Issued in Washington, DC, on April 23, 2024.

DEPARTMENT OF TRANSPORTATION

Federal Highway Administration

Notice To Rescind Notice of Intent (NOI) To Prepare an Environmental Impact Statement: Dane County, Wisconsin

AGENCY: Federal Highway Administration (FHWA), Department of Transportation (DOT).

ACTION: Notice to rescind Notice of Intent for an Environmental Impact Statement.

SUMMARY: FHWA, in cooperation with the Wisconsin Department of Transportation (WisDOT), is issuing this notice to advise the public that FHWA will not be preparing an Environmental Impact Statement (EIS) for the United States Highway (US) 51 corridor located in Dane County, Wisconsin, between US 12/18 and Wisconsin State Highway (WIS) 19. FHWA is rescinding the NOI because the project has been downscoped.

FOR FURTHER INFORMATION CONTACT: Lisa Hemesath, Environmental Protection Specialist, Federal Highway Administration, 525 Junction Road, Suite 8000, Madison, Wisconsin, 53717–2157, Telephone: (608) 829–7503. You may also contact Jeff Berens, Project Manager, Wisconsin Department of Transportation, Southwest Region, 2101 Wright Street, Madison, WI 53704 Telephone: (608) 245–2656.

SUPPLEMENTARY INFORMATION: FHWA, in cooperation with the Wisconsin Department of Transportation (WisDOT), is issuing this notice to advise the public that FHWA will not be preparing an Environmental Impact Statement (EIS) for the United States Highway (US) 51 corridor located in Dane County, Wisconsin, between US 12/18 and Wisconsin State Highway (WIS) 19. FHWA issued the NOI to prepare an EIS in the **Federal Register** on August 6, 2012, at 77 FR 46790, for an approximate 11-mile corridor improvement project on US 51. The improvements were being considered to address existing and future transportation demand on US 51, safety concerns and operational concerns and to identify land which may need to be preserved for future transportation improvements. Based on further review of the project, it was determined appropriate for the project scope to be reduced due to changes in project needs and the local environment.

New Federal-aid studies are proposed for this corridor which will comply with the environmental requirements of the National Environmental Policy Act (NEPA) (42 U.S.C. 4321), FHWA environmental regulations (23 CFR part 771) and related authorities, as appropriate. Comments or questions concerning this notice of rescission or the future studies should be directed to FHWA or WisDOT at the addresses provided above.

Glenn Fulkerson,

Division Administrator, FHWA Wisconsin Division, Madison, Wisconsin.

DEPARTMENT OF TRANSPORTATION

Office of the Secretary

[Docket No.: OST–2023–0111]

Waiver of Buy America Requirements for the Pacific Island Territories and the Freely Associated States

ACTION: Notice.

SUMMARY: The Department of Transportation (DOT) seeks to maximize the use of American-made products and materials in all federally funded projects as part of the Biden-Harris Administration's implementation of the historic Bipartisan Infrastructure Law (BIL). In this notice, DOT is taking action to finalize a temporary general applicability waiver of the requirements of section 70914(a) of the Build America, Buy America Act (BABA), included in BIL, and related domestic preference statutes administered by DOT and its Operating Administrations (OAs) for federal financial assistance awarded by DOT and its OAs for infrastructure projects located in the Commonwealth of Northern Mariana Islands (CNMI), Guam, and American Samoa, collectively referred to as the ''Pacific Island territories.'' The waiver also applies to discretionary grant assistance provided by DOT and its OAs to the Freely Associated States (the Republic of Palau, Republic of the Marshall Islands, and Federated States of Micronesia) in the Pacific that are subject to a domestic preference statute. As it applies to the Freely Associated States, the waiver does not include BABA, which only applies to infrastructure projects in the United

States and its territories. The waiver will provide time for DOT to collect and analyze evidence to determine if a more targeted waiver of these requirements is in the public interest. The waiver allows time for DOT and its OAs to offer technical assistance to potential assistance recipients in the remote communities in the Pacific Island territories and Freely Associated States. The waiver will be reviewed prior to its expiration.

DATES: The waiver is applicable to awards that are obligated on or after April 29, 2024 until March 1, 2025.

FOR FURTHER INFORMATION CONTACT: For questions about this notice, please contact Elizabeth Fox, DOT Office of the Assistant Secretary for Transportation Policy, at *elizabeth.fox@dot.gov* or at 202–981–2838. For legal questions, please contact Jennifer Kirby-McLemore, DOT Office of the General Counsel, 405–446–6883, or via email at *jennifer.mclemore@dot.gov.*

SUPPLEMENTARY INFORMATION:

Background

The Buy America preferences set forth in section 70914(a) of BABA included in BIL require that all iron, steel, manufactured products, and construction materials used for infrastructure projects in the United States under federal financial assistance awards be produced in the United States.

Under section 70914(b) and in accordance with the Office of Management and Budget (OMB)'s Memorandum M–24–02, Implementation Guidance on Application of Buy America Preference in Federal Financial Assistance Programs for Infrastructure, DOT may waive the BABA application in any case in which it finds that: (i) applying the domestic content procurement preference would be inconsistent with the public interest; (ii) types of iron, steel, manufactured products, or construction materials are not produced in the U.S. in sufficient and reasonably available quantities or of a satisfactory quality; or (iii) the inclusion of iron, steel, manufactured products, or construction materials produced in the U.S. will increase the cost of the overall project by more than 25 percent. All waivers must have a written explanation for the proposed determination; provide a period of not less than fifteen (15) calendar days for public comment on the proposed waiver; and submit the proposed waiver to the OMB Made in America Office (MIAO) for review to determine if the waiver is consistent with policy.

BABA also provides that the preferences under section 70914 apply only to the extent that a domestic content procurement preference as described in section 70914 does not already apply to iron, steel, manufactured products, and construction materials. BIL § 70917(a)–(b). Federal financial assistance programs administered by DOT's Operating Administrations (OAs) [1] are subject to a variety of mode-specific statutes that apply specific Buy America [2] requirements to iron, steel, and manufactured products, including 49 U.S.C. 50101 (FAA); 23 U.S.C. 313 (FHWA); 49 U.S.C. 5323(j) (FTA); and 46 U.S.C. 54101(d)(2) (MARAD). Recent annual appropriations acts have also required DOT to apply the Buy American Act (41 U.S.C. chapter 83) to funds appropriated under those acts,[3] where a mode-specific statute is not in place. These statutes also allow for waivers of the Buy America requirements to be issued when the DOT determines that doing so is in the public interest.

DOT and its OAs provide financial assistance to the three Pacific Island territories of Guam, American Samoa, and CNMI through both discretionary grants and allocated programs, including assistance programs for highways and bridges, public transportation, airports, and port facilities. The Freely Associated States (the Republic of Palau, Republic of the Marshall Islands, and Federated States of Micronesia) in the Pacific region are also eligible recipients of discretionary grants under FAA's Airport Improvement Program (AIP).

Over five years from FY 2018 to FY 2022, DOT OAs provided over $340 million in financial assistance for 160 capital projects in the Pacific Island territories under various programs where infrastructure is an eligible activity and may be subject to BABA or other DOT existing Buy America requirements. FAA also provided $88 million in AIP discretionary grants to the Freely Associated States in the Pacific region for 20 projects over that same time period.

Economies in the Pacific Islands are over 5,000 miles from the mainland United States and must import products via air or sea. These economies have few local heavy manufacturers and rely largely on established regional supply chains from east Asia, Australia, and New Zealand. Most goods, equipment, materials, and supplies are imported and rely on shipping with associated timelines and unpredictable shipping fuel costs fluctuations. Moreover, materials sourced from the United States lead to additional shipping fees and longer lead times, thus significantly extending construction activity schedules. Lastly, ongoing gaps in supply chain availability impact lead times for materials, increasing project timelines. For these reasons, DOT is concerned that complying with Buy America requirements may increase already elevated project time and costs—particularly in the short run—and seeks time to better understand the local manufacturing footprint and the balance of equities for residents of the Pacific Island territories. DOT is aware that substantial changes to shipping and supply chains to incorporate domestic sourcing requirements in the Pacific Island territories could take multiple years to establish.

In considering this waiver, DOT consulted with the relevant Federal assistance programs in the respective OAs, including the regional offices in those agencies that directly administer DOT funding programs in the Pacific Island territories and Freely Associated States. DOT also relied on other communications that it has received from stakeholders in those territories. For example, CNMI and Guam have cited their isolated location in the Western Pacific and reliance on ocean freight as the only mode of transporting commodities to the island as creating significant challenges in obtaining materials from domestic sources, with impacts on both project costs and delivery schedules. The two territories have also indicated that shipping construction materials from the continental United States raises shipping costs by approximately 30 percent above the cost to ship directly to the islands from Asia.

Other Federal agencies have also conducted outreach efforts to the Pacific Island territories and received similar feedback. For example, representatives from American Samoa have indicated to the Federal Emergency Management Agency that ''As a containerized

[1] DOT OAs that provide or administer financial assistance covered under this proposed waiver include the Federal Aviation Administration (FAA); Federal Highway Administration (FHWA); Federal Transit Administration (FTA); and the Maritime Administration (MARAD).

[2] In this notice, references to ''Buy America'' include domestic preference laws called ''Buy American'' that apply to DOT financial assistance programs.

[3] For example, section 409 of the Transportation, Housing and Urban Development, and Related Agencies Appropriations Act, 2022 states that ''no funds appropriated pursuant to this Act may be expended by an entity unless the entity agrees that in expending the assistance the entity will comply with sections 2 through 4 of the Act of March 3, 1933 (41 U.S.C. 8301–8305, popularly known as the ''Buy American Act'').''

community, our territories depend on goods, equipment, materials, and supplies to be imported.'' They further stated that ''we can purchase equipment from foreign countries closer to American Samoa and with reasonable prices and shorter shipping time.'' American Samoa representatives also noted that availability of materials from nearby foreign countries such as New Zealand and Australia would result in a significant cost savings to the grantors.

Issuance of the Proposed Waiver and Discussion of Comments Received

On August 9, 2023, DOT published a proposed Buy America waiver for projects located within the Pacific Island territories of CNMI, Guam, or American Samoa and funded under DOT-administered financial assistance programs in the **Federal Register** 88 FR 53949. DOT received five comments on the proposed waiver. Three of the comments were supportive of the waiver, while two opposed the waiver.

The opposing commenters noted that there are existing opportunities to purchase both US made equipment and steel in the Pacific Island territories. One commenter noted they have supplied BABA compliant equipment to Guam in the recent past. The other commenter noted that the domestic steel industry has capacity to support infrastructure in the Pacific Island territories.

The supportive commenters noted that higher costs and longer lead times are barriers to Buy America compliance in the Pacific Island territories. Additionally, higher cost estimates were cited as a reason for grant applications being less competitive with other states. Similarly, one commenter noted they have experienced considerable risk and uncertainty when bidding due to the limited time manufacturers and suppliers can hold steel pricing quotes and noted that in the recent past several projects have gone through the Invitation for Bid procurement process and received proposals that greatly exceed the grant funding allocation. The commenters also noted the impacts of fluctuating shipping costs add to the overall cost and uncertainty around procurement.

DOT acknowledges that there are current opportunities for purchase of Buy America compliant products in the territories; however, DOT also recognizes that the purchase of those compliant products may result in substantially higher costs and require longer lead times to procure, leading to impacts on both project competitiveness and project delivery. Moreover, the stated intent of the waiver is to provide time for DOT to collect and analyze evidence to determine if a more targeted waiver of these requirements is in the public interest and allow time for DOT and its OAs to offer technical assistance to potential assistance recipients in the remote communities in the Pacific Island territories and Freely Associated States. Thus, during this temporary general applicability waiver period, DOT will come to better understand the local manufacturing footprint, consider how to best balance the equities for residents of the Pacific Island territories, and work with other federal agencies on ways to help ease supply chain challenges for domestic sources in those territories.

One commenter also noted that the region's strategic locations should be guarded against technology that could be detrimental to their security. Another commenter also recognized the strategic importance of their location, but noted that a waiver is necessary to allow purchases even from countries who are in strategic defense alliances with the United States. DOT recognizes the importance of security considerations for port equipment purchases, particularly for ship to shore cranes, and the recently announced Biden-Harris Administration effort to bolster port security.[4] The Department also recognizes that the issues extend to U.S. ports more broadly, beyond those in the Pacific Island territories. As a result, DOT has chosen to exempt ship to shore cranes from the waiver and will address domestic supply issues for these critical assets through separate actions. DOT will exercise additional oversight for assistance agreements involving ports during the period the waiver is active.

One opposing commenter noted that the waiver would be inconsistent with Congressional intent and Administration policy because it would not be maintaining and strengthening the existing DOT Buy America requirements. DOT believes that this waiver will help ensure that all Americans, including those in the Pacific Island Territories, are able to access the benefits provided by the once in a generation investment in infrastructure provided by BIL. Providing these short-term flexibilities to projects in that region will help alleviate systemic barriers to opportunities that have limited DOT's ability to deliver resources and benefits equitably to all in these territories. The waiver will allow DOT to work with other infrastructure agencies to ensure that the shipping and supply chains to the Pacific Island territories integrate domestic sourcing requirements in a feasible and equitable way over the longer term.

One supporting commenter noted that they believe that the challenges they outlined in complying with Buy America requirements fully support a waiver for at least 18 months, potentially permanently. DOT believes that the time frame is appropriate and will reevaluate if a more targeted waiver is in the public interest as it gathers additional information.

DOT-assisted infrastructure projects located within the Pacific Island territories and Freely Associated States are expected continue to experience challenges with product delivery, availability, reliability, and project scheduling without the waiver. Infrastructure project schedules rely on readily available products delivered within reasonable timeframes. Due to the extreme shipping distances required for products produced in mainland United States and due to the lack of existing local product supply networks for these products, manufacturers may not be able to assure on-time delivery of compliant products. As a consequence, associated projects in the Pacific Island territories and Freely Associated States may face unreasonable scheduling uncertainty. The waiver will help grant recipients establish rules and procedures to manage Buy America requirements. Furthermore, the waiver will provide recipients more options to efficiently complete projects.

Uncertainties regarding capacity, shipping, and supply networks make domestic sourcing in the Pacific Island territories and Freely Associated States challenging for assistance recipients, shippers, and DOT staff in the short run. DOT is taking steps to understand opportunities to leverage existing shipping and transportation processes to make domestic sourcing more feasible over the longer term.

Finding on the Waiver

Based on all the information available to the Agency, DOT finds that it is in the public interest to issue a temporary general applicability public interest waiver of the requirements of 70914(a) of the Build America, Buy America preferences for iron, steel, manufactured products, and construction materials used in infrastructure projects located within the Pacific Island territories of CNMI, Guam, or American Samoa and funded under DOT-administered financial assistance programs. The waiver applies to recipients located in

[4] *https://www.whitehouse.gov/briefing-room/statements-releases/2024/02/21/fact-sheet-biden-harris-administration-announces-initiative-to-bolster-cybersecurity-of-u-s-ports/.*

CNMI, Guam or America Samoa of all DOT-administered financial assistance programs, including those subject to program-specific domestic preference requirements. The waiver applies to all awards obligated after the effective date and, in the case of awards obligated prior to the effective date, all expenditures for non-domestic iron, steel, manufactured products, and construction materials incurred after the effective date. However, this waiver does not apply to purchases of ship to shore cranes.

DOT is issuing this temporary general applicability public interest waiver under the following authorities; 70914(b) of BIL, 23 U.S.C. 313(b)(1), 49 U.S.C. 5323(j); 46 U.S.C. 54101(d)(2)(B)(i)(I), 49 U.S.C. 50101(b)(1), and 41 U.S.C. chapter 83. Under those DOT authorities, the proposed waiver would also apply to projects in the Freely Associated States (the Republic of Palau, Republic of the Marshall Islands, and Federated States of Micronesia). As it applies to the Freely Associated States, the waiver does not include BABA, which only applies to infrastructure projects in the United States and its territories.

The duration of the waiver is from the effective date April 29, 2024 until March 1, 2025. The proposed waiver had a duration of 18 months from the effective date of the final waiver. DOT is issuing the final waiver with a sunset date of March 1, 2025 to better align with the coordinated strategy for the issuance of this waiver type across the Federal government. DOT will review this waiver prior to its expiration to assess whether it remains necessary to the fulfillment of DOT's missions and goals and consistent with applicable legal authorities, such as BABA, Executive Order 14005, 2 CFR part 184, and OMB Memorandum M–24–02. DOT may, based on the results of that review, terminate the waiver, or take action to develop a new waiver in consultation with the MIAO.

Section 117 of the SAFETEA–LU Technical Corrections Act of 2008 (Pub. L. 110–244, 122 Stat. 1572) also requires an additional five-day comment period after FHWA publishes a waiver finding notice. Comments received during that period will be reviewed, but the finding will continue to remain valid. Those comments may influence DOT/FHWA's decision to terminate or modify a finding.

Issued in Washington, DC.

Christopher Coes,

Acting Under Secretary for Policy.

[FR Doc. 2024–09052 Filed 4–26–24; 8:45 am]

BILLING CODE 4910–9X–P

DEPARTMENT OF TRANSPORTATION

Office of the Secretary

[Docket ID Number: DOT–OST–2018–0068]

Notice of Submission of Proposed Information Collection to OMB; Agency Request for Reinstatement of Previously Approved Collections: Traveling by Air With Service Animals—U.S. Department of Transportation Service Animal Air Transportation Form and U.S. Department of Transportation Service Animal Relief Attestation Form

AGENCY: Office of the Secretary (OST), Department of Transportation (Department or DOT).

ACTION: Notice of submission to the Office of Management and Budget (OMB) and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995 and DOT Order 1351.29A, this notice confirms the Department's intention to renew Office of Management and Budget (OMB) Control Number 2105–0576, concerning Traveling by Air with Service Animals—U.S. Department of Transportation Service Animal Air Transportation Form, and U.S. Department of Transportation Service Animal Relief Attestation Form.

DATES: Written comments on this notice must be received by May 29, 2024.

ADDRESSES: You may file comments regarding the burden estimate, including suggestions for reducing the burden, in docket number DOT–OST–2018–0068 by any of the following methods:

- *Federal eRulemaking Portal:* Go to *https://www.regulations.gov* and follow the online instructions for submitting comments. (You may access comments received for this notice at *https://www.regulations.gov* by searching docket DOT–OST–2018–0068.)
- *Mail:* Docket Management Facility, U.S. Department of Transportation, 1200 New Jersey Ave. SE, West Building, Ground Floor, Room W12–140, Washington, DC 20590;
- *Hand Delivery:* West Building Ground Floor, Room W12–140, 1200 New Jersey Ave. SE, Washington, DC 20590 between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays. The telephone number is 202–366–9329.

Instructions: You must include the agency name and docket number DOT–OST–2010–0054 at the beginning of your comment. All comments received will be posted without change to *https://www.regulations.gov,* including any personal information provided.

Privacy Act: Anyone is able to search the electronic form of all comments received in any of DOT's dockets by the name of the individual submitting the comment (or signing the comment, if submitted on behalf of an association, business, labor union, etc.). You may review DOT's complete Privacy Act Statement in the **Federal Register** published on April 11, 2000 (65 FR 19477–78).

FOR FURTHER INFORMATION CONTACT: Maegan Johnson or Livaughn Chapman, Jr., Office of Aviation Consumer Protection, U.S. Department of Transportation, 1200 New Jersey Avenue SE, Washington, DC 20590, telephone number (202) 366–9342 (voice), (202) 366–7152 (fax); *maegan.johnson@dot.gov* or *livaughn.chapman@dot.gov* (email). Arrangements to receive this document in an alternative format may be made by contacting the above-named individuals.

SUPPLEMENTARY INFORMATION: DOT published a **Federal Register** notice with a 60-day comment period soliciting comments on the information collections on November 13, 2023 (88 FR 77667). DOT received 149 comments on the 60-day notice, which are addressed below. The Department proposed to amend the U.S. Department of Transportation Service Animal Air Transportation Form by decreasing the number of questions on the form to reduce burdens on individuals with disabilities, including instructions to clarify how to complete the form, and making other clarifying and formatting changes to the form that will allow individuals to better navigate the form.

OMB Control Number: 2105–0576.

Title: Traveling by Air with Service Animals.

Type of Request: Reinstatement of information collections.

Background: The U.S. Department of Transportation (Department or DOT) published a final rule to amend the Department's Air Carrier Access Act (ACAA) regulation on the transport of service animals by air in the **Federal Register** on December 10, 2020 (85 FR 79742). Under 14 CFR 382.75, airlines are permitted to require passengers traveling with service animals to submit and provide to airlines, as a condition of travel, a U.S. Department of Transportation Service Animal Air Transportation Form (''Behavior and Health Attestation Form''), and, if applicable, a U.S. Department of Transportation Service Animal Relief Attestation Form (''Relief Attestation Form''). The Behavior and Health Attestation Form is designed to provide

assurances to airlines that a service animal does not pose a direct threat to the health and safety of passengers, crew, and others during air transportation by requiring passengers to attest that their service animal is currently vaccinated against rabies, has been trained to behave in a public setting, and that the animal has not behaved aggressively or caused serious injury to another person or animal. The form is also designed to educate passengers traveling with service animals on how service animals in air transportation are expected to behave and to inform passengers traveling with service animals of the consequences of service animal misbehavior. The Relief Attestation Form may only be required by the airlines when a passenger is traveling with a service animal on a flight segment scheduled to take 8 hours or more. The purpose of this form is to provide assurances to the airlines that the service animal will not need to relieve itself on the flight or that the animal can relieve itself in a way that does not create a health or sanitation issue. The form is also designed to educate passengers of the consequences should a service animal relieve itself on the aircraft in an unsanitary way.

The Behavior and Health Attestation Form and the Relief Attestation Form are the only forms that airlines are permitted to require from passengers traveling with service animals as a condition of transport, except in rare circumstances when additional documentation may be necessary to comply with animal transport requirements issued by a Federal agency, a U.S. territory, or a foreign jurisdiction.

The Paperwork Reduction Act of 1995 and its implementing regulations, 5 Code of Federal Regulations CFR) part 1320, require Federal agencies to issue two notices seeking public comment on information collection activities before OMB may approve paperwork packages. On November 13, 2023, DOT published a 60-day notice in the **Federal Register** soliciting comment on the information collections, the Behavior and Health Attestation Form and Relief Attestation form, for which the agency seeks approval. See 85 FR 79742.

In its 60-day notice, the Department sought comment on an amended version of its original Behavior and Health Attestation Form that was published in DOT's final service animal rule in December of 2020. The amended form included formatting and clarifying amendments to the form that were intended to make the form easier for individuals with disabilities to navigate and complete. In addition to seeking comment on amendments to the form, the Department also sought comment on whether the information collections were necessary for the proper performance of the functions of the Department; the accuracy of the Department's estimated burden hours; ways to enhance the quality, utility and clarity of the information collected; and ways to minimize the burden of the collections on respondents. DOT received 149 comments in response to its 60-day notice; most of the comments received, approximately 120, were from individual commenters, while the remaining comments were received from disability advocacy organizations, two airlines trade organizations, and an airline contractor.

The majority of individual commenters stated that the DOT service animal forms were burdensome for passengers with disabilities to complete because there were too many questions on the form. Individual commenters also noted that each airline has a different method of collecting the forms, which makes it difficult for individuals with disabilities to both complete the forms and submit the forms to airlines. Individual commenters also stated that some airlines post the forms on their websites in formats that are not accessible for individuals with disabilities, especially individuals who are blind. Many individual commenters requested that the Department disallow airlines from collecting the forms altogether, or, alternatively, substantially decrease the number or questions on the form.

Commenters representing disability advocacy organizations shared many of the same concerns about the burdensome nature of the form expressed by individual commenters. Disability advocates representing individuals who are blind commented that airlines are not required to assist blind passengers with completing the form and that many blind passengers cannot complete the form independently and must seek the assistance of a sighted person to both complete and submit the form to airlines. Disability advocates also commented that it takes longer than the 15 minutes time period estimated by DOT for individuals with disabilities to complete the form because of the inaccessibility of the form on airline websites and the number of questions on the form. These commenters did not provide a suggested estimate for the amount of time it takes individuals with disabilities to complete the form.

Some of the disability advocacy organizations commented that they oppose airlines using third-party contractors to process the service animal forms and noted that airline staff should be trained on DOT's rules for processing the forms. Several advocacy organizations also encouraged DOT to state on the form that airlines must assist individuals with disabilities with completing the form, that the form should only require passengers to affirm that a service animal has been vaccinated instead of requiring the passengers to indicate the animal's vaccination dates, and that airlines should not be permitted to contact service animal trainers to verify that the animal has been trained. One advocacy organization also urged DOT to replace the term ''service animal user'' with ''service animal handler'' since ''service animal handler'' is a defined term in DOT's ACAA regulations that refers to either an individual with a disability traveling with the service animal, or a third party responsible for controlling the animal who is traveling with the passenger with a disability and service animal.

Some disability advocates were pleased with the some of the formatting and clarifying changes made by DOT to the amended form published in DOT's 60-day notice. Specifically, some commenters stated that they were glad to see that DOT clarified on the form that a service animal user may insert his or her own name and contact information if they train their own service animal. They were also glad to see that DOT eliminated some of the fields on the form, and that DOT added and amended section titles on the form.

Airline trade organizations and an airline contractor submitted comments recommending that DOT make additional clarifying changes to the form that exceed the amendments in DOT's 60-day notice. For instance, these commenters suggested that DOT include a uniform date format on the form, define some of the terms used in the form, attach form instructions, remove the field that requires the passenger to provide the date of the service animal's last vaccination, and clarify that an animal may be refused transport if it shows that it has not been trained to behave in public. These organizations also urged DOT to reinstate the ''service animal handler'' field on the form and commented that the form should require passengers to provide the service animal's weight, color, and species (or breed), require passengers to list the animal's work or task, and that DOT should strengthen the Federal crime warning for making fraudulent statements on the top of the form by including language clarifying that providing false, fictitious or fraudulent

statements on the form is a felony that is subject to a maximum civil penalty of $250,000.

Airline trade organizations provided data from five airlines on the number of service animal forms that were collected from these airlines from July 2022 to June 2023, and urged the Department to use those data to update its calculation on the estimated total annual burden of the information collection.

To address these comments, DOT refined the section titles on its U.S. Department of Transportation Service Animal Air Transportation Form to more accurately reflect the content of each section of the form and removed and combined certain questions on the form to reduce the number of check boxes, from ten check boxes to seven, and the number of fields that passengers are required to complete on the form. Specifically, in the first section of the form that requires the service animal handler to provide his or her contact information, DOT decreased the number of fields in this section, but added a check box that requires the handler to attest that the animal is required to assist with a disability. In the second section of the form, the Service Animal Identification and Health Information section, the handler is required to make a single attestation that the animal does not have fleas or a disease, and that the animal has been vaccinated for rabies. In the third and fourth sections of the form, the handler is required to make four individual attestations concerning the animal's task and behavior training and complete information on the animal's trainer. Finally, the last section requires the handler to check a single box to attest to three additional assurances in order to transport the service animal.

DOT also reinstated the ''service animal handler's'' field since the term ''service animal handler'' is defined in the Department's rules, and eliminated the service animal user's name field, since ''service animal user'' is not a term that is defined in the Department's rules. DOT also clarified on the form that the animal's description must include the animal's color, and that an airline may deny transportation to an animal if the animal shows that it has not been trained to behave in public. Finally, in response to comments received from both airline trade organizations and disability advocates, DOT also developed and included in the form specific instructions for completing the Behavior and Health Attestation Form. In these instructions, DOT defines certain terms used within the form (*i.e.,* service animal and service animal handler), makes clear that the form should be submitted to the airline and not to DOT, describes how passengers can obtain assistance with completing the form, and provides other instructions for completing the form. Additionally, DOT has used data from both airline trade organizations and disability advocates to update its annual burden calculation for the form.

DOT is aware that some of the recommendations from the commenters have not been implemented in the amended Behavior and Health Attestation Form published in this notice. However, as stated in the 60-day notice, the Department's next Air Carrier Access Act Advisory Committee will consider whether substantive changes to the Behavior and Health attestation form are necessary, such as whether to include a question asking passengers to state the task or work their service animal performs, whether to further reduce the number of attestation check-boxes on the form, and whether to amend the warning language at the top of the form.

Copies of the revised form and accompanying instructions reflecting the changes are included in this notice.

Accordingly, the Department announces that these information collection activities have been re-evaluated and certified under 5 CFR. 1320.5(a) and forwarded to OMB for review and approval pursuant to 5 CFR 1320.12(c). Before OMB decides whether to approve these proposed collections of information, it must provide 30 days for public comment. 44 U.S.C. 3507(b); 5 CFR 1320.12(d). Federal law requires OMB to approve or disapprove paperwork packages between 30 and 60 days after the 30-day notice is published. 44 U.S.C. 3507(b)–(c); 5 CFR 1320.12(d); *see also* 60 FR 44978, 44983 (Aug. 29, 1995). The 30-day notice informs the regulated community to file relevant comments to OMB and affords the Agency adequate time to review and respond to public comments before rendering a decision. See 60 FR 44983 (Aug. 29, 1995). Therefore, respondents should submit any comments to OMB within 30 days of publication to best ensure their full consideration. 5 CFR 1320.12(c); see also 60 FR 44983 (Aug. 29, 1995).

This notice addresses the information collection requirements set forth in the Department's regulation 14 CFR 382.75, which allows airlines to require passengers traveling with service animals to provide the airline with the two forms of documentation developed by the Department as a condition of travel. The renewed OMB control number will be applicable to all the provisions set forth in this notice.

As noted above, the Paperwork Reduction Act of 1995 (PRA) and its implementing regulations, 5 CFR part 1320, require Federal agencies to issue two notices seeking public comment on information collection activities before OMB may approve paperwork packages. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to monetary penalty for failing to comply with a collection of information if the collection of information does not display a valid OMB Control Number. See 5 CFR 1320.5(a) and 1320.6.

For each of these information collections, the title, a description of the respondents, and an estimate of the annual recordkeeping and periodic reporting burden are set forth below.

1. Requirement to prepare and submit to airlines the DOT Air Transportation Service Animal Behavior and Health Attestation Form (Behavior and Health Attestation Form).

Respondents: Passengers with disabilities traveling on aircraft with service animals.

Number of Respondents: The Department estimates that 639,709 respondents will complete the Service Animal Health and Attestation form. This estimate was calculated by using data provided from Airlines for America (A4A) on the number of Behavior and Health Attestation Forms collected by five of its member airlines between July 1, 2022, through June 30, 2023, and passenger trip data as represented in the origination and destination (O&D) data,[1] collected by DOT from airlines during this same time period.

According to A4A, five of its member airlines received 319,057 Behavior and Health Attestation Forms between July 1, 2022, through June 30, 2023.[2] The number of trips reported for these five airlines for this same time period was 352,265,055. DOT only permits airlines to collect its Behavior and Health

[1] According to DOT's Bureau of Transportation Statistics (BTS), the Airline Origin and Destination Survey is a 10% sample of airline tickets from reporting carriers collected by the Office of Airline Information of the BTS. Data include origin, destination and other itinerary details of passengers transported. This database is used to determine air traffic patterns, air carrier market shares and passenger flows. *https://www.transtats.bts.gov/DatabaseInfo.asp?QO_VQ=EFI&Yv0x=D.*

[2] Comment from Airlines for America, *https://www.regulations.gov/comment/DOT-OST-2018-0068-32515.*

Attestation Form from passengers no more than once per trip, or once for every one-way flight or once per round-trip flight, although some airlines that receive permission to store a passenger's Form may collect the form less than once per trip. As such, the estimated number of trips for the purposes of estimating the number of forms collected is 176,132,528 (352,265,055 trips divided by 2). Based on these figures, the rate of Behavior and Health Attestation Forms received by airlines is .00181 (319,057 forms divided by 176,132,528 trips), or 1.81 forms received by airlines per 1,000 for each trip.

According to BTS data, U.S. and foreign airlines reported a total of 706,861,040 O&D trips between July 1, 2022, through June 30, 2023. Using the rate of .00181 or 1.81 forms received by airlines per 1,000 for each trip, we estimate that 639,709 forms (706,861,040 total trips, divided by 2, and multiplied by .00181 rate of forms received by airlines) were submitted to airlines between July 1, 2022, through June 30, 2023. Assuming that one passenger traveling with a service animal represents each form, DOT estimates that 639,709 passengers will have submitted service animal forms between July 1, 2022, through June 30, 2023.

Estimated Total Annual Burden on Respondents: We estimate that completing the Behavior and Health Attestation Form would require 20 minutes (.333 hours) per response, including the time it takes to retrieve an electronic or paper version of the form from the airline's website, reviewing the instructions, and completing the questions. The Department previously estimated that it took passengers 15 minutes to complete its Behavior and Health Attestation Form, but a number of individuals commented that it took more than 15 minutes to complete the form, although none of the commenters stated the amount of time it takes to complete the form.

Based on this estimate, passengers would spend a total of 213,023 hours annually (0.333 hours × 639,709 forms) to retrieve and complete an accessible version of the form. Passengers would fill out the forms on their own time without pay. To estimate the value of this uncompensated activity, we use median wage data from the Bureau of Labor Statistics.[3] We use a post-tax wage estimate of $18.48 ($22.26 median for all occupations minus a 17% percent estimated tax rate). The estimated annual value of this time is $3,936,668 ($18.48 × 213,023 hours).[4]

2. Requirement to prepare and submit to airlines the DOT Service Animal Relief Attestation Form.

Respondents: Passengers with disabilities traveling on aircraft with service animals on flight segments scheduled to take 8 hours or more.

Number of Respondents: The Department estimates that 5 percent of the Behavior and Health Attestation Form would be collected for round trip flights scheduled to take 8 hours or more and would also have to complete the Relief Attestation Form, for a total of 31,985 forms (639,709 forms × 0.05).

Estimated Total Annual Burden on Respondents: We estimate that completing the form would require 15 minutes (.25 hours) per response, including the time it takes to retrieve an electronic or paper version of the form from the airline's website, reviewing the instructions, and completing the questions. Passengers would spend a total of 7,996 hours annually (0.25 hours × 31,985 forms) to retrieve an accessible version of the form and complete the form. Passengers would fill out the forms on their own time without pay, as they would with the Animal Behavior and Health Attestation Form. The estimated annual value of this time is $147,770 ($18.48 × 7,996 hours).

Comments Invited

We invite comments on the Relief Attestation Form renewal and on the formatting and clarity amendments made to the Behavior and Health Attestation Form. We also invite comments on: (a) whether the collection of information is necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; (b) the accuracy of the Department's estimate of the burden of the proposed information collection; (c) ways to enhance the quality, utility and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents.

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record on the docket.

Authority: The Paperwork Reduction Act of 1995; 44 U.S.C. chapter 35, as amended; and 59 CFR 1.48.

U.S. Department of Transportation Service Animal Air Transportation Form

Warning: It is a Federal crime to make materially false, fictitious, or fraudulent statements, entries, or representations knowingly and willfully on this form to secure disability accommodations provided under regulations of the United States Department of Transportation (18 U.S.C. § 1001).

PLEASE REFER TO THE U.S. DEPARTMENT OF TRANSPORTATION SERVICE ANIMAL AIR TRANSPORTATION FORM INSTRUCTIONS WHEN COMPLETING THIS FORM

A. Service Animal Handler Information

Service Animal Handler's full Name: _____

Phone: _____ Email: _____

☐ I attest that a service animal is required to accompany me, or the passenger with a disability traveling with me, in air transportation.

B. Service Animal Identification and Health Information

Animal's Name: _____ Animal's Description (including weight and color): _____

_____

☐ I attest that the animal:

- Does not have fleas or ticks or a disease that would endanger people or other animals.
- Is vaccinated for rabies.

Date vaccination expires in the animal _____ (mm/dd/yyyy)

Veterinarian's Name (signature **not** required): _____ Phone: _____

C. Service Animal Task Training

☐ I attest that the animal has been individually trained to perform a task to assist with a disability.

Name of Task Trainer or Training Organization: _____ Phone: _____

D. Service Animal Behavior Training

☐ I attest that the animal has been trained to behave in a public setting.

Name of Behavior Trainer or Training Organization: _____ Phone: _____

☐ I understand that:

- The animal must be under the control of the Handler at all times.
- A properly trained service animal does not act aggressively by biting, barking, jumping, lunging, or injuring people or animals, and does not urinate or defecate on the aircraft or in the gate area.
- If the animal shows that it has not been properly trained to behave in public, then the airline may treat the animal as a pet by charging a pet fee and requiring that the animal be transported in a pet carrier, or denying transport.

☐ I attest that, to the best of my knowledge, the animal has not behaved aggressively or caused serious injury to another person or animal. If you are unable to make this attestation, please explain why: _____

_____

E. Other Assurances

☐ I understand that:

- The animal must be harnessed, leashed, or tethered at all times in the airport and on the aircraft.
- If the animal causes damage, then the airline may charge the Handler for the cost to repair it, as long as the airline would also charge passengers without disabilities to repair similar kinds of damage.
- I am signing an official document of the U.S. Department of Transportation, and if I knowingly make false statements on this document, I can be subject to fines and other penalties.

Handler's Signature: _____ Date: _____ (mm/dd/yyyy)

INSTRUCTIONS FOR COMPLETING THE U.S. DEPARTMENT OF TRANSPORTATION SERVICE ANIMAL AIR TRANSPORTATION FORM

General instructions:

1. **What is a Service Animal for the purpose of this form?** A service animal means a dog, regardless of breed or type, that is individually trained to do work or perform tasks for the benefit of a qualified individual with a disability, including a physical, sensory, psychiatric, intellectual, or other mental disability. Animal species other than dogs, emotional support animals, comfort animals, companionship animals, and service animals in training are not service animals for purpose of this form. 14 CFR 382.3.

2. **What is a Service Animal Handler for the purpose of this form?** A Service Animal Handler is a passenger in air transportation who is a qualified individual with a disability who receives assistance from a service animal(s) that does work or performs tasks that are directly related to the individual's disability, or a third party who accompanies the individual with a disability traveling with a service animal such as a parent of a minor child or a caretaker. The service animal Handler is responsible for keeping the animal under control at all times, and caring for and supervising the service animal, which includes toileting and feeding. 14 CFR 382.3.

3. **What if I need assistance completing the form**? An airline must provide assistance in completing the form to individuals with a disability who state to the airline that they are unable to complete the form due to a disability. This assistance must be provided as part of the airline's general obligation to modify its policies, practices, and facilities when needed to provide nondiscriminatory service to individuals with a disability under 14 CFR 382.13.

4. **Do I submit the form to the airline or DOT?** Do not submit the form to DOT. If an airline requires a passenger traveling with a service animal to submit the form, the completed form must be submitted **directly to the airline**. 14 CFR 382.75(f).

5. **How often can an airline require me to submit the form?** Airlines can require passengers with a disability who are traveling with a service animal to submit the form once each trip, but not each time the passenger travels. This means that an airline can only require the form be submitted once if the passenger with a disability purchased a roundtrip ticket as that would be considered one trip. 85 FR 79742, 79764 (December 10, 2020).

6. **Must I submit the form to the airline in advance?** An airline can require a passenger with a disability who is traveling with a service animal to submit the form up to 48 hours in advance of the passenger's flight if the passenger's reservation was booked more than 48 hours before the passenger's departure. However, if the passenger fails to submit the form in advance, the airline cannot refuse to transport the service animal without trying to make reasonable efforts to accommodate the passenger. 14 CFR 382.75(g)(1) and 14 CFR 382.75(h).

7. **Can an airline require me to submit the form in advance if I purchase last minute travel?** An airline is **not** permitted to require a passenger with a disability who is traveling with a service animal and purchased a ticket within 48 hours of the flight to provide the form in advance. If the ticket is purchased within 48 hours of the flight, the airline must allow the passenger to submit the completed form at the gate on the date of travel. 14 CFR 382.75(g)(3).

8. **Must airlines accept either a hard copy or electronic version of the form?** An airline must provide passengers with a disability the option of submitting an electronic or hard copy version of the form if the person is required to submit the form ***in advance*** of the passenger's travel date. If a passenger is not required to submit the form in advance of the date of travel, the passenger may submit a hard copy of the form to the airline at the passenger's departure gate on the date of travel. 14 CFR 382.75 (f) and (g). Passengers are encouraged to contact the airline to familiarize themselves with the airline's process for receiving the form.

Section A Instructions:

Section A, titled Service Animal Handler Information, requires the Service Animal Handler completing the form to provide their full first and last name, phone number, and email address so that the airline or its contractor may contact the Handler about the information provided on the form if needed.

The Handler completing this form must be the passenger with a disability receiving assistance from the service animal, or a third party accompanying the passenger with a disability traveling with the service animal such as a parent of a minor child or a caretaker. 14 CFR 382.3. This section requires the Handler to check a box attesting that a service animal is

required to accompany the Handler, or the passenger with a disability traveling with the Handler.

Section B Instructions:

Section B, titled Service Animal Identification and Health Information, requires the Handler to provide the name of the service animal accompanying the Handler in air transportation and a description of the animal (including the animal's weight and color). The airline or its contractor may use the description of the animal provided by the Handler on the form to verify the identity of the service animal at the airport on the day of travel.

In this section, the Handler must provide the airline assurances that it is safe to transport the animal on an aircraft by checking a box to attest that the animal is free of fleas, ticks, or disease, and that the animal has been vaccinated for rabies. The Handler must also provide the month, day, and year that the animal's rabies vaccination expires. The Handler must provide the name of the animal's veterinarian, and the veterinarian's phone number, but the animal's veterinarian is not required to sign the form.

The airline or its contractor may contact the animal's veterinarian to verify the vaccination information provided on the form. The Handler should verify that the contact information on the form is current and correct to ensure that there are no delays when the airline or its contractor attempts to process the form.

Section C Instructions:

In Section C, titled Service Animal Task Training, the Handler must check a box attesting that the animal is a service animal because it has been trained to perform a task to assist the passenger with a disability.

Task training means that the dog is trained to take a specific action when needed to assist the person with a disability. Dogs can be trained to perform many important tasks to assist people with disabilities, such as providing stability for a person who has difficulty walking, picking up items for a person who uses a wheelchair, helping a person who has epilepsy detect the onset of a seizure and stay safe during the seizure, or alerting a person who has hearing loss when someone is approaching from behind. Task training is different from behavior training because task training is focused on mitigating the effects of a person's disability.

The Handler is not required to provide a training certificate or other evidence that the animal has been trained to perform a task, but the Handler must provide the name and phone number of the person or organization that trained the service animal to perform the disability-mitigating task. If the Handler trained the animal, the Handler may provide their name and contact information. The airline or its contractor may contact the task trainer to verify that the animal has been trained to perform a task to assist with a disability. The Handler should verify that the contact information on the form is current and correct to ensure that there are no delays when the airline attempts to process the form.

Section D Instructions:

In Section D, titled Service Animal Behavior Training, the Handler must provide the airline assurances that the service animal traveling in air transportation will not harm other people or animals on the aircraft by checking a box to attest that the animal has been trained to behave in public. The behavior training attestation in this section is different from the task training attestation required in Section C on this form. A service animal that has been trained to behave in public does not act aggressively by biting, barking, jumping, lunging, or injuring people or animals. Further, a service animal that has been trained to behave in public does not urinate or defecate on the aircraft or in the gate area of the airport.

This form does not require the Handler to provide the airline with a training certificate or other evidence that the animal has been trained to behave in a public setting. However, the airline may observe the animal on the day of travel, and if it is evident that the animal has not been trained, the animal may be treated like a pet and/or the animal may be denied transportation on the aircraft.

In this section, the Handler must provide the name and phone number of the person or organization that trained the service animal to behave in public. If the Handler trained the animal, the Handler may provide their name and contact information. The airline or its contractor may contact the behavior trainer to verify that the animal has been trained to behave in public. The Handler should verify that the contact information on the form is current and correct to ensure that there are no delays when the airline attempts to process the form.

Section D also requires the Handler to check a box attesting that the Handler understands that the service animal must be under the Handler's control at all times, that properly trained service animals must act appropriately, and that if it shows

that it has not been properly trained to behave in public, the animal may be treated like a pet, which includes being charged a pet fee to transport the animal, requiring the animal to be transported in a carrier, or denying the animal transport.

The Handler must also check a box attesting that the animal has not behaved aggressively or caused serious injury to another person or animal. If the Handler is unable to make this attestation, the Handler must describe, in the space provided on the form, the reasons why it cannot attest that the animal has not behaved aggressively or caused serious injury to another person or animal. Animals that have a history of aggressive behavior may be denied transport on the aircraft and the airline may contact the animal's trainer or veterinarian to verify the animal's behavioral history.

Section E Instructions:

Section E, titled Other Assurances, requires the Handler to check a box to confirm that the Handler understands that the service animal traveling must be harnessed, leashed, or tethered at all times in the airport and on the aircraft; that the airline may charge the Handler a fee if the animal causes damage; that the Handler is signing an official document of the U.S. Department of Transportation; and that the Handler may be subject to Federal fines and other penalties for knowingly making false statements on the form. Handlers must also sign and date the form before submitting the form to the airline.

Paperwork Reduction Act Burden Statement

A federal agency may not conduct or sponsor, and a person is not required to respond to, nor shall a person be subject to a penalty for failure to comply with a collection of information subject to the requirements of the Paperwork Reduction Act unless that collection of information displays a currently valid OMB Control Number. The OMB Control Number for this information collection is 2105-0576. Public reporting for this collection of information is estimated to be approximately 20 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, completing and reviewing the collection of information.

All responses to this collection of information are mandatory if an airline requires the submission of the forms (14 CFR 382.75(a) and (b)). Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to: Information Collection Clearance Officer, U.S. Department of Transportation, 1200 New Jersey Ave., S.E., West Building Ground Floor Room W12-140, Washington, D.C. 20590.

Issued in Washington, DC.

Livaughn Chapman Jr.,

Deputy Assistant General Counsel, Office of Aviation Consumer Protection.

Last day to submit Title VI Compliance Worksheet (all Applicants).	June 25, 2024	11:59 pm ET	Electronically via AMIS.
FY 2024 BEA Program Application and Required Attachments.	June 25, 2024	11:59 pm ET	Electronically via AMIS.

Executive Summary: This NOFA is issued in connection with the fiscal year (FY) 2024 funding round of the Bank Enterprise Award Program (BEA Program). The BEA Program is administered by the U.S. Department of the Treasury's Community Development Financial Institutions Fund (CDFI Fund). Through the BEA Program, the CDFI Fund awards formula-based grants to depository institutions that are insured by the Federal Deposit Insurance Corporation (FDIC) for increasing their levels of loans, investments, Service Activities, and Technical Assistance to residents and businesses in the most economically Distressed Communities, and financial assistance and Technical Assistance to Certified Community Development Financial Institutions (CDFIs) through equity investments, equity-like loans, grants, stock purchases, loans, deposits, and other forms of assistance, during a specified period.

I. Program Description

A. History: The CDFI Fund was established by the Riegle Community Development and Regulatory Improvement Act of 1994 to promote economic revitalization and community development through investment in and assistance to CDFIs.

The BEA Program encourages the community development activities of banks and thrifts (collectively referred to as banks for purposes of this NOFA) by providing financial incentives to expand investments in CDFIs and to increase lending, investments, and Service Activities within Distressed Communities. Providing monetary awards to banks for increasing their community development activities leverages the CDFI Fund's dollars and puts more capital to work in Distressed Communities throughout the nation.

B. Authorizing Statutes and Regulations: The BEA Program was authorized by the Bank Enterprise Award Act of 1991, as amended. The regulations governing the BEA Program can be found at 12 CFR part 1806 (the Interim Rule). The Interim Rule provides the evaluation criteria and other requirements of the BEA Program. Detailed BEA Program requirements are also found in the application materials associated with this NOFA (the Application). The CDFI Fund encourages interested parties and Applicants to review the authorizing statute, Interim Rule, this NOFA, the Application, and the Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Administrative Requirements) for a complete understanding of the BEA Program. Capitalized terms in this NOFA are defined in the authorizing statute, the Interim Rule, this NOFA, the Application, or the Uniform Administrative Requirements. Details regarding Application content requirements are found in the Application and related materials. Application materials can be found on *Grants.gov* and the CDFI Fund's website at *www.cdfifund.gov/bea.*

C. Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (2 CFR part 200): The Uniform Administrative Requirements codify financial, administrative, procurement, and program management standards that Federal award-making agencies and Award Recipients must follow. When evaluating award applications, awarding agencies must evaluate the risks to the program posed by each Applicant, and each Applicant's merits and eligibility. These requirements are designed to ensure that Applicants for Federal

assistance receive a fair and consistent review prior to an award decision. This review will assess items such as the Applicant's financial stability, quality of management systems, history of performance, and audit findings. In addition, the Uniform Requirements include guidance on audit requirements and other award requirements with which Award Recipients must comply.

D. Priorities: Through the BEA Program, the CDFI Fund specifies the following priorities:

1. Estimated Award Amounts: The award percentage used to derive the estimated award amount for Applicants that are CDFIs is three times greater than the award percentage used to derive the estimated award amount for Applicants that are not CDFIs;

2. Priority Factors: Priority Factors will be assigned based on an Applicant's asset size, as described in Section V.A.14 of this NOFA (Application Review Information: Priority Factors); and

3. Priority of Awards: The CDFI Fund will rank Applicants in each category of Qualified Activity according to the priorities described in Section V of this NOFA .

E. Baseline Period and Assessment Period Dates: A BEA Program Award is based on an Applicant's increase in Qualified Activities from the Baseline Period to the Assessment Period, as reported on an individual transaction basis in the Application. For the FY 2024 funding round, the Baseline Period is January 1, 2022 through December 31, 2022, and the Assessment Period is January 1, 2023 through December 31, 2023.

F. Funding Limitations: The CDFI Fund reserves the right to fund, in whole or in part, any, all, or none of the Applications submitted in response to this NOFA. The CDFI Fund also reserves the right to reallocate funds from the amount that is available through this NOFA to other CDFI Fund programs, or to reallocate remaining funds to a future BEA Program funding round, particularly if the CDFI Fund determines that the number of awards made through this NOFA is fewer than projected.

G. Persistent Poverty Counties: Pursuant to the Consolidated Appropriations Act, 2024 (Pub. L. 118–42), Congress mandated that at least ten percent of the CDFI Fund's appropriations be directed to counties that meet the criteria for ''Persistent Poverty'' designation. Persistent Poverty Counties (PPCs) are defined as any county, including county equivalent areas in Puerto Rico, that has had 20 percent or more of its population living in poverty over the past 30 years, as measured by the 1990, 2000, and 2010 decennial censuses, and the 2016–2020 5-year data series available from the American Community Survey of the Census Bureau or any other territory or possession of the United States that has had 20 percent or more of its population living in poverty over the past 30 years, as measured by the 1990, 2000 and 2010 Island Areas Decennial Censuses, or equivalent data, of the Bureau of the Census and published by the CDFI Fund at: *https://www.cdfifund.gov/sites/cdfi/files/2023-03/PPC_2020_ACS_Jan20_2023.xlsx.* Applicants that apply under this NOFA will be required to indicate the percentage of the BEA Program Award that the Applicant will commit to investing in PPCs.

II. Federal Award Information

A. Funding Availability: The CDFI Fund expects to award up to $40 million for the FY 2024 BEA Program Award round under this NOFA. The CDFI Fund reserves the right to award in excess of said funds under this NOFA, provided that the appropriated funds are available. The minimum award size will be $10,000. The maximum award size is $1 million; however, the CDFI Fund reserves the right to impose a lower maximum award amount based on Application demand and availability of funds.

B. Types of Awards: BEA Program Awards are made in the form of grants.

C. Anticipated Start Date and Period of Performance: The CDFI Fund anticipates the period of performance for the FY 2024 funding round will begin in the fall of calendar year 2024. Specifically, the Period of Performance begins on the Federal Award Date and will conclude at least one (1) full year after the Federal Award Date as further specified in the BEA Program Award Agreement (Award Agreement), during which the Award Recipient must meet the performance goals set forth in the Award Agreement.

D. Eligible Activities: Eligible activities for BEA Program Applicants are referred to as Qualified Activities and are defined in the Interim Rule to include CDFI Related Activities, Distressed Community Financing Activities, and Service Activities (12 CFR 1806.103).

CDFI Related Activities (12 CFR 1806.103) means CDFI Equity and CDFI Support Activities. CDFI Equity consists of Equity Investments, Equity-Like Loans, and Grants. CDFI Support Activities includes Certificates of Deposits, Loans, and Technical Assistance.

Distressed Community Financing Activities (12 CFR 1806.103) means Consumer Loans and Commercial Loans and Investments. Consumer Loans include Affordable Housing Loans; Education Loans; Home Improvement Loans; and Small Dollar Consumer Loans. Commercial Loans and Investments includes Affordable Housing Development Loans and related Project Investments; Commercial Real Estate Loans and related Project Investments; and Small Business Loans and related Project Investments. Service Activities (12 CFR 1806.103) include Deposit Liabilities, Financial Services, Community Services, Targeted Financial Services, and Targeted Retail Savings/Investment Products.

When calculating BEA Program Award amounts, the CDFI Fund will only consider the amount of a Qualified Activity that has been fully disbursed, subject to the requirements outlined in Section VI of this NOFA. In the case of Commercial Real Estate Loans and related Project Investments, the total principal amount of the transaction must be $10 million or less to be considered a Qualified Activity. Notwithstanding the foregoing, the CDFI Fund, in its sole discretion, may consider transactions with a total principal value of over $10 million, subject to review.

An activity funded with prior BEA Program Award dollars or funded to satisfy requirements of an Award Agreement from a prior BEA Program award or an agreement under any CDFI Fund program, shall not constitute a Qualified Activity for the purposes of calculating or receiving an award under this NOFA.

E. Distressed Community: A Distressed Community must meet certain minimum geographic area and eligibility requirements, which are defined in the Interim Rule in 12 CFR 1806.103 and more fully described in 12 CFR 1806.401. Applicants should use the CDFI Information Mapping System (CIMS) mapping tool to determine whether a Baseline Period activity or Assessment Period activity is located in a qualified Distressed Community. The CIMS mapping tool can be accessed through AMIS or the CDFI Fund's website at *https://www.cdfifund.gov/Pages/mapping-system.aspx.* The CIMS mapping tool contains a step-by-step training manual on how to use the tool. In addition, further instructions to determine whether an activity is located in a qualified BEA Distressed Community can be located in the BEA Program Application CIMS3 Instructions document in the ''Application Materials'' section of the

BEA web page on the CDFI Fund's website located here: *https://www.cdfifund.gov/programs-training/programs/bank-enterprise-award/apply-step.* If you have any questions or issues accessing the CIMS mapping tool, please contact the CDFI Fund IT Help Desk via an AMIS Service Request (select IT) or telephone at (202) 653–0300.

Please note that a Distressed Community as defined by the BEA Program is not the same as an Investment Area as defined by the CDFI Program, a Low-Income Community as defined by the NMTC Program, or an Area of Economic Distress as defined by the Capital Magnet Fund Program.

1. Designation of Distressed Community by a CDFI Partner: CDFI Partners that receive CDFI Support Activities in the form of loans, Technical Assistance or deposits from an Applicant must be integrally involved in a Distressed Community. Applicants must provide evidence that each CDFI Partner that is the recipient of CDFI Support Activities is integrally involved in a Distressed Community, as noted in the Application. CDFI Partners that receive Equity Investments, Equity-Like Loans or Grants are not required to demonstrate Integral Involvement. Additional information on Integral Involvement can be found in Section V of this NOFA.

2. Distressed Community Determination by a BEA Applicant: Applicants applying for a BEA Program Award for performing Distressed Community Financing Activities or Service Activities must verify that addresses of both Baseline Period and Assessment Period activities are in Distressed Communities when completing their Application.

A BEA Applicant shall determine an area is a Distressed Community by:

a. selecting a census tract where the Qualified Activity occurred that meets the minimum area and eligibility requirements; or

b. selecting the census tract where the Qualified Activity occurred, plus one or more census tracts directly contiguous to where the Qualified Activity occurred, that when considered in the aggregate, meet the minimum area and eligibility requirements set forth in this section.

F. Award Agreement: Each Award Recipient under this NOFA must electronically sign an Award Agreement via AMIS prior to payment of the award proceeds by the CDFI Fund. The Award Agreement contains the terms and conditions of the award. For further information, see Section VI. of this NOFA.

G. Use of Award: It is the policy of the CDFI Fund that BEA Program Awards may not be used by Award Recipients to recover overhead or Indirect Costs. The Award Recipient may use up to 15 percent of the total BEA Program Award amount on Qualified Activities as Direct Administrative Expenses. ''Direct Administrative Expenses'' shall mean Direct Costs, as described in section 2 CFR 200.413 of the Uniform Requirements, which are incurred by the Award Recipient to carry out the Qualified Activities. Such costs must be able to be specifically identified with the Qualified Activities and not also recovered as Indirect Costs. ''Indirect Costs'' means costs or expenses defined in accordance with section 2 CFR 200.1 of the Uniform Requirements. In addition, the Award Recipient must comply, as applicable, with the Buy American Act of 1933, 41 U.S.C. 8301–8303 and section 2 CFR 200.216 of the Uniform Requirements,[1] with respect to any Direct Costs.

III. Eligibility Information

A. Eligible Applicants: For the purposes of this NOFA, the following table sets forth the eligibility criteria to receive a BEA Program award from the CDFI Fund.

TABLE 2—ELIGIBILITY REQUIREMENTS FOR BEA APPLICANTS

Criteria	Description
Eligible Applicants	• Eligible Applicants for the BEA Program must be Insured Depository Institutions, as defined in the Interim Rule. • For the FY 2024 funding round, an Applicant must have been FDIC-insured as of the first day of the Baseline Period, January 1, 2022, and maintain its FDIC-insured status at the time of Application submission. • The depository institution holding company of an Insured Depository Institution may not apply on behalf of an Insured Depository Institution. Applications received from depository institution holding companies will be disqualified.
CDFI Applicant	• For the FY 2024 funding round, an eligible Certified-CDFI Applicant is an Insured Depository Institution that is one of the following: (1) is certified as a CDFI as of December 31, 2023 (end of the Assessment Period) and remains certified at the time BEA Program Awards are announced; OR (2) has submitted a CDFI Certification Application by May 28, 2024 and receives its status as a Certified CDFI by the time BEA Program Awards are announced. • No Applicant may receive a FY 2024 BEA Program Award, either directly or through a community partnership, if it has: (1) an application pending for assistance under the CDFI Program; (2) been awarded assistance from the CDFI Fund under the CDFI Program within the 12-month period prior to the Federal Award Date of the FY 2024 BEA Program Award Agreement; (3) ever received assistance under the CDFI Program based on the same activities during the same period for which it is seeking a FY 2024 BEA Program Award; or (4) ever received assistance from another CDFI Fund program or federal program based on the same activities during the same period for which it is seeking a FY 2024 BEA Program Award.

[1] § 200.216 Prohibition on certain telecommunications and video surveillance services or equipment.

(a) Recipients and subrecipients are prohibited from obligating or expending loan or grant funds to:

(1) Procure or obtain; (2) Extend or renew a contract to procure or obtain; or

(3) Enter into a contract (or extend or renew a contract) to procure or obtain, equipment, services, or systems that uses covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system. As described in Public Law 115–232, section 889, covered telecommunications equipment is telecommunications equipment produced by Huawei Technologies Company or ZTE Corporation (or any subsidiary or affiliated of such entities).

TABLE 2—ELIGIBILITY REQUIREMENTS FOR BEA APPLICANTS—Continued

Criteria	Description
Application and submission in *Grants.gov* and Awards Management Information System (AMIS).	• The CDFI Fund will only accept Applications that use the official Application templates provided on *Grants.gov* and AMIS. Applications submitted with alternative or altered templates will not be considered. • Applicants undergo a two-step process that requires the submission of Application documents by two separate deadlines in two different locations: (1) the SF–424 in *Grants.gov* and (2) all other Required Application Documents in AMIS. • *Grants.gov* and the Standard Form 424 (SF–424): ○ Applicants must submit the SF–424, Application for Federal Assistance, through *Grants.gov.* ○ All Applicants must register in the *Grants.gov* system to successfully submit an Application. The CDFI Fund strongly encourages Applicants to register as soon as possible. ○ The CDFI Fund will not extend the SF–424 application deadline for any Applicant that started the *Grants.gov* registration process on, before, or after the date of the publication of this NOFA, but did not complete it by the deadline, except in the case of a federal government administrative or federal technological error that directly resulted in a late submission of the SF–424. ○ The SF–424 must be submitted in *Grants.gov* on or before the deadline listed in Table 1. Applicants are strongly encouraged to submit their SF–424 as early as possible in the *Grants.gov* portal. The deadline for the *Grants.gov* submission is before the AMIS submission deadline. ○ The SF–424 must be submitted under the BEA Program Funding Opportunity Number. ○ If the SF–424 is not accepted by *Grants.gov* by the deadline, the CDFI Fund will not review any material submitted in AMIS and the Application will be deemed ineligible. • AMIS and all other Required Application Documents: ○ The CDFI Fund's Award Management Information System (AMIS) is an enterprise-wide information technology system (*amis.cdfifund.gov*). Applicants will use AMIS to submit and store organization and Application information with the CDFI Fund. ○ Applicants are only allowed one BEA Program Application submission in AMIS. ○ Each Application in AMIS must be signed by an Authorized Representative. ○ Applicants must ensure that the Authorized Representative is an employee or officer of the Applicant, authorized to sign legal documents on behalf of the organization. *Consultants working on behalf of the organization may not be designated as Authorized Representatives.* ○ Only the Authorized Representative or Application Point of Contact listed as an Organization Contact may submit the Application in AMIS. ○ All Required Application Documents must be submitted in AMIS on or before the deadline specified in Tables 1. • The CDFI Fund will not extend the deadline for any Applicant except in the case of a federal government administrative or federal technological error that directly resulted in the late submission of the Application in AMIS.
Employer Identification Number (EIN)	• Applicants must have a unique EIN assigned by the Internal Revenue Service (IRS). • The CDFI Fund will reject an Application submitted with the EIN of a parent or Affiliate organization. • The EIN in the Applicant's AMIS account must match the EIN in the Applicant's System for Award Management (SAM) account. The CDFI Fund reserves the right to reject an Application if the EIN in the Applicant's AMIS account does not match the EIN in its SAM account. • Applicants must enter their EIN into their AMIS profile by the deadline specified in Table 1.
Unique Entity Identifier (UEI)	• The transition from the Dun and Bradstreet Universal Numbering System (DUNS) to UEI is a federal, government-wide initiative. • The CDFI Fund will reject an Application submitted with the UEI number of a parent or Affiliate organization. • The UEI number in the Applicant's AMIS account must match the UEI number in the Applicant's *Grants.gov* and SAM accounts. The CDFI Fund will reject an Application if the UEI number in the Applicant's AMIS account does not match the UEI number in its *Grants.gov* and SAM accounts. • Applicants must enter their UEI number into their AMIS profile on or before the deadline specified in Table 1.
System for Award Management (SAM)	• SAM is a web-based, government-wide application that collects, validates, stores, and disseminates business information about the federal government's trading partners in support of the contract awards, grants, and electronic payment processes (*SAM.gov*). • Applicants must register in SAM as part of the *Grants.gov* registration process. • Applicants that have an active SAM registration are already assigned a UEI. Applicants must also have an EIN number in order to register in SAM. • Applicants must be registered in SAM in order to submit an SF–424 in *Grants.gov.* • The CDFI Fund reserves the right to deem an Application ineligible if the Applicant's SAM account expires during the time period between the submission of the Applicant's SF–424 and the Award announcement, or is set to expire before September 30, 2024 and the Applicant does not re-activate, or renew, as applicable, the account within the deadlines that the CDFI Fund communicates to affected Applicants during the Application evaluation period.
AMIS Account	• Each Applicant must register as an organization in AMIS and submit its Application and all required documents through the AMIS portal (*amis.cdfifund.gov*).

TABLE 2—ELIGIBILITY REQUIREMENTS FOR BEA APPLICANTS—Continued

Criteria	Description
	• The Application of any organization that does not properly register in AMIS by the deadline set forth in Table 1 will be rejected without further consideration. • The Authorized Representative and/or Application Point of Contact must be included as ''users'' in the Applicant's AMIS account. • An Applicant that fails to properly register and update its AMIS account may miss important communication from the CDFI Fund and/or may not be able to successfully submit an Application.
501(c)(4) status	• Pursuant to 2 U.S.C. 1611, any 501(c)(4) organization that engages in lobbying activities is not eligible to receive a BEA Program Award.
Compliance with Nondiscrimination and Equal Opportunity Statutes, Regulations, and Executive Orders.	• An Applicant may not be eligible to receive a BEA Award if proceedings have been instituted against it in, by, or before any court, governmental agency, or administrative body, and a final determination within the time period beginning three years prior to the publication of this NOFA until the execution of the Award Agreement that indicates the Applicant has violated any federal civil rights laws or regulations, including but not limited to: Title VI of the Civil Rights Act of 1964, as amended (42 U.S.C.2000d *et seq.*); the Fair Housing Act (42 U.S.C. 3601 *et seq.*); the Equal Credit Opportunity Act (15 U.S.C. 1691 *et seq.*); Section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794); the Age Discrimination Act of 1975, (42 U.S.C. 6101–6107); and Title IX of the Education Amendments of 1972 (20 U.S.C. 1681 *et seq.*). • Applicants will be required to submit the Title VI Compliance Worksheet (Worksheet) once annually to assist the CDFI Fund in determining whether Applicants are compliant with the Treasury regulations implementing Title VI of the Civil Rights Act of 1964 (Title VI), set forth in 31 CFR part 22, Nondiscrimination on the Basis of Race, Color, or National Origin in Programs or Activities Receiving Federal Financial Assistance from the Department of the Treasury. • In addition, an Applicant must be compliant with federal civil rights requirements in order to be deemed eligible to receive an Award from the CDFI Fund. The CDFI Fund will consider an Application submitted by an Applicant that may have pending Title VI noncompliance issues; however, until the CDFI Fund makes a final determination that the Applicant is Title VI compliant, it will not enter into an Award Agreement. • The Title VI Compliance Worksheet and program award terms and conditions do not impose antidiscrimination requirements on Tribal governments beyond what would otherwise apply under federal law.
Depository Institution Holding Company	• The depository institution holding company of an Insured Depository Institution may not apply on behalf of an Insured Depository Institution. Applications received from depository institution holding companies will be disqualified.
Regulated Institutions	• Eligible Applicants for the BEA Program must be Insured Depository Institutions, as defined in the Interim Rule.
Use of Award	• All awards made through this NOFA must be used to support the Applicant's Eligibility Activities per Section II (D). • Awards may not be used to support the activities of, or otherwise be passed through, transferred, or co-awarded to, third-party entities, whether Affiliates, Subsidiaries, or others, unless done pursuant to a merger or acquisition or similar transaction, and with the CDFI Fund's prior written consent. The Recipient of any award made through this NOFA must comply, as applicable, with the Buy American Act of 1933, 41 U.S.C. 8301–8303 and section 2 CFR 200.216 of the Uniform Requirements, with respect to any Direct Costs.
Pending resolution of noncompliance or default	• If an Applicant (or Affiliate of an Applicant) that is a prior Recipient or Allocatee under any CDFI Fund program: (i) Has demonstrated it has been in noncompliance or default with a previous assistance agreement, award agreement, allocation agreement, bond loan agreement, or agreement to guarantee and (ii) the CDFI Fund has yet to make a final determination as to whether the entity is in noncompliance with or default of its previous agreement, the CDFI Fund will consider the Applicant's Application under this NOFA pending full resolution, in the sole determination of the CDFI Fund, of the noncompliance or default.
Noncompliance or default status	• The CDFI Fund will not consider an Application submitted by an Applicant that is a prior CDFI Fund award Recipient or Allocatee under any CDFI Fund program if, as of the AMIS Application deadline in this NOFA, (i) the CDFI Fund has made a final determination in writing that such Applicant (or Affiliate of such Applicant) is in noncompliance with or default of a previously executed assistance agreement, award agreement, allocation agreement, bond loan agreement, or agreement to guarantee, and (ii) the CDFI Fund has provided written notification that such entity is ineligible to apply for or receive any future CDFI Fund awards or allocations. Such entities will be ineligible to submit an Application for such time period as specified by the CDFI Fund in writing. • The CDFI Fund will not consider any Applicant that has defaulted on a loan from the CDFI Fund within five years of the Application deadline.
Debarment/Do Not Pay Verification	• The CDFI Fund will conduct a debarment check and will not consider an Application submitted by an Applicant (or Affiliate of an Applicant) if the Applicant is delinquent on any Federal debt. • The Do Not Pay Business Center was developed to support Federal agencies in their efforts to reduce the number of improper payments made through programs funded by the Federal government. The Do Not Pay Business Center provides delinquency information to the CDFI Fund to assist with the debarment check.

B. Prior Award Recipients: Prior BEA Program Award Recipients and prior Award Recipients of other CDFI Fund programs are eligible to apply under this NOFA, except as noted in the following table:

TABLE 3—ELIGIBILITY REQUIREMENTS FOR APPLICANTS WITH PRIOR CDFI FUND AWARDS

Criteria	Description
Pending resolution of Default or Noncompliance	• If an Applicant (or Affiliate of an Applicant) that is a prior Award Recipient or Allocatee under any CDFI Fund program: (i) has demonstrated it is in noncompliance with or default of a previous assistance agreement, award agreement, allocation agreement, bond loan agreement, or agreement to guarantee and (ii) the CDFI Fund has yet to make a final determination as to whether the entity is in noncompliance with or default of its previous agreement, the CDFI Fund will consider the Applicant's Application under this NOFA pending full resolution, in the sole determination of the CDFI Fund, of the noncompliance or default.
Default or Noncompliance status	• The CDFI Fund will not consider an Application submitted by an Applicant (or Affiliate of such Applicant) that has a previously executed assistance agreement, award agreement, bond loan agreement, or agreement to guarantee or allocation agreement if, as of the date of the Application, (i) the CDFI Fund has made a determination that such entity is noncompliant with and or in default of such previously executed agreement, and (ii) the CDFI Fund has provided written notification that such entity is ineligible to apply for or receive any future CDFI Fund awards or allocations. Such entities will be ineligible to submit an Application for such time period as specified by the CDFI Fund in writing.

C. Contact the CDFI Fund: Accordingly, Applicants that are prior Award Recipients and/or Allocatees under any CDFI Fund program are advised to comply with requirements specified in an assistance agreement, award agreement, allocation agreement, bond loan agreement, or agreement to guarantee. All outstanding reports and compliance questions should be directed to the Certification, Compliance Monitoring and Evaluation helpdesk by submitting a BEA Compliance and Reporting AMIS Service Request or by telephone at (202) 653–0423. The CDFI Fund will respond to Applicants' reporting, compliance, or disbursement questions between the hours of 9:00 a.m. and 5:00 p.m. ET, starting on the date of the publication of this NOFA. The CDFI Fund will not respond to Applicants' reporting, compliance, or disbursement telephone calls or electronic inquiries received after 5:00 p.m. ET on June 21, 2024, until after the Application deadline. The CDFI Fund will respond to technical issues related to AMIS Accounts through 5:00 p.m. ET on June 25, 2024, via an IT AMIS Service Request, email at *AMIS@cdfi.treas.gov,* or by telephone at (202) 653–0422.

D. Cost sharing or matching fund requirements: Not applicable.

IV. Application and Submission Information

A. Address to Request an Application Package: Application materials can be found on *Grants.gov* and the CDFI Fund's website at *www.cdfifund.gov/bea.* If an Applicant is unable to access *Grants.gov* or the CDFI Fund's website, an Applicant may request a paper version of any Application material by contacting the CDFI Fund Help Desk at *bea@cdfi.treas.gov* or (202) 653–0421.

B. Content and Form of Application Submission: The CDFI Fund will post to its website, at *www.cdfifund.gov/bea,* instructions for accessing and submitting an Application. Detailed Application content requirements are found in the Application and related guidance documents. All Application materials must be prepared using the English language and calculations must be made in U.S. dollars. Applicants must submit all required documents identified in the FY 2024 BEA Program Application Instructions for the Application to be deemed complete. The CDFI Fund reserves the right to request and review other pertinent or public information that has not been specifically requested in this NOFA or the Application. Information submitted by the Applicant that the CDFI Fund has not specifically requested will not be reviewed or considered as part of the Application.

C. Application Submission: The CDFI Fund has a two-step submission process for BEA Applications that requires the submission of required application information on two separate deadlines and in two separate systems. The SF–424 form must be submitted through *Grants.gov*, and all other Application documents through the AMIS portal. The CDFI Fund will not accept Applications via email, mail, facsimile, or other forms of communication, except in extremely rare circumstances that have been pre-approved by the CDFI Fund. The separate Application deadlines for the SF–424 and all other Application materials are listed in Table 1 and Table 4. Only the Authorized Representative for the Organization or Application Point of Contact designated in AMIS may submit the Application through AMIS.

Applicants are strongly encouraged to submit the SF–424 as early as possible through *Grants.gov* in order to provide sufficient time to resolve any potential submission issues. Applicants should contact *Grants.gov* directly with questions related to the registration or submission process, as the CDFI Fund does not administer the *Grants.gov* system. The CDFI Fund strongly encourages Applicants to start the *Grants.gov* registration process as soon as possible, as it may take several weeks to complete (refer to the following link: *http://www.grants.gov/web/grants/register.html*). An Applicant that has previously registered with *Grants.gov* must verify that its registration is current and active. If an Applicant has not previously registered with *Grants.gov*, it must first successfully register in *SAM.gov*, as described in Section IV.D below.

D. System for Award Management: Any entity applying for federal grants or other forms of federal financial assistance through *Grants.gov* must be registered in SAM before submitting its Application materials through that platform. When accessing *SAM.gov*, users will be asked to create a login.gov user account (if they do not already have one). Registration in SAM is required as part of the *Grants.gov* registration process. Going forward, users will use their login.gov username and password every time when logging into *SAM.gov*. The SAM registration process can take four weeks or longer to complete, so Applicants are strongly encouraged to begin the registration process upon publication of this NOFA in order to avoid potential Application submission issues. An original, signed

notarized letter identifying the authorized entity administrator for the entity associated with the UEI number is required by SAM and must be mailed to the Federal Service Desk. This requirement is applicable to new entities registering in SAM or on existing registrations where there is no existing entity administrator. Existing entities with registered entity administrators do not need to submit an annual notarized letter. Applicants that have previously completed the SAM registration process must verify that their SAM accounts are current and active. Applicants are required to maintain a current and active SAM account at all times during which it has an active federal award or an Application under consideration for an award by a federal awarding agency.

The CDFI Fund will not consider any Applicant that fails to properly register or activate its SAM account and, as a result, is unable to submit its Application by the Application deadline. Applicants must contact SAM directly with questions related to registration or SAM account changes, as the CDFI Fund does not maintain this system. For more information about SAM, please visit *https://www.sam.gov* or call 866–606–8220.

E. Unique Entity Identifier: The Unique Entity Identifier (UEI), generated in the System for Award Management (*SAM.gov*), has become the official identifier for doing business with the federal government. This allows the federal government to streamline the entity identification and validation process, making it easier and less burdensome for entities to do business with the federal government. If an entity is registered in *SAM.gov*, its UEI has already been assigned and is viewable in *SAM.gov*, including inactive registrations. New registrants will be assigned a UEI as part of their SAM registration.

F. Submission Dates and Times: Table 4 lists the deadlines for submission of the documents related to the FY 2024 BEA Program Funding Round.

TABLE 4—SUBMISSION DEADLINES FOR THE FY 2024 BEA FUNDING ROUND

Description	Deadline	Time (Eastern Time)
OMB Standard Form (SF)–424 Mandatory Form	May 28, 2024	11:59 p.m. ET.
Submission Method: Electronically via Grants.gov..		
Title VI Compliance Worksheet (all Applicants)	June 25, 2024	11:59 pm ET.
FY 2024 BEA Program AMIS Application and Required Attachments	June 25, 2024	11:59 pm ET.
Submission Method: Electronically via AMIS..		

G. Confirmation of Application Submission in Grants.gov and AMIS: Applicants are required to submit the SF–424 Mandatory Form through the *Grants.gov* system under the FY 2024 BEA Program Funding Opportunity Number (listed at the beginning of this NOFA). All other required Application materials must be submitted through AMIS. Application materials submitted through each system are due by the applicable deadline listed in Table 1 and Table 4. Applicants must submit the SF–424 by an earlier deadline than that of the other required Application materials in AMIS. If a valid SF–424 is not submitted through *Grants.gov* by the corresponding deadline, the Applicant will not be able to submit the additional Application materials in AMIS, and the Application will be deemed ineligible. Thus, Applicants are strongly encouraged to submit the SF–424 as early as possible in the *Grants.gov* portal, given that potential submission issues may impact the ability to submit a complete Application.

(a) Grants.gov Submission Information: Each Applicant will receive an initial email from *Grants.gov* immediately after submitting the SF–424, confirming that the submission has entered the *Grants.gov* system. This email will contain a tracking number for the submitted SF–424. Within forty-eight (48) hours, the Applicant will receive a second email which will indicate if the submitted SF–424 was either successfully validated or rejected with errors. However, Applicants should not rely on the email notification from *Grants.gov* to confirm that their SF–424 was validated. Applicants are strongly encouraged to use the tracking number provided in the first email to closely monitor the status of their SF–424 by checking *Grants.gov* directly. The Application materials submitted in AMIS are not accepted by the CDFI Fund until *Grants.gov* has validated the SF–424. In the *Grants.gov* Workspace function, please note that the Application package has not been submitted if you have not received a tracking number.

(b) AMIS Submission Information: AMIS is a web-based portal where Applicants will directly enter their Application information and upload required documents identified in the FY 2024 BEA Program Application Instructions. Each Applicant must register as an organization in AMIS in order to submit the required Application materials through this portal. AMIS will verify that the Applicant provided the minimum information required to submit an Application. Applicants are responsible for the quality and accuracy of the information and attachments included in the Application submitted in AMIS. The CDFI Fund strongly encourages the Applicant to allow sufficient time to confirm the Application content, review the material submitted, and remedy any issues prior to the Application deadline. Applicants can only submit one Application in AMIS. Upon submission, the Application will be locked and cannot be resubmitted, edited, or modified in any way. The CDFI Fund will not unlock or allow multiple AMIS Application submissions.

Prior to submission, each Application in AMIS must be signed by an Authorized Representative. An Authorized Representative is an employee or officer and has the authority to legally bind and make representations on behalf of the Applicant; consultants working on behalf of the Applicant cannot be designated as Authorized Representatives. The Applicant may include consultants as Application point(s) of contact, who will be included on any communication regarding the Application and will be able to submit the Application but cannot sign the Application. The Authorized Representative and/or Application point(s) of contact must be included as ''Contacts'' in the Applicant's AMIS account. The Authorized Representative must also be a ''user'' in AMIS. An Applicant that fails to properly register and update its AMIS account may miss important communications from the CDFI Fund or fail to submit an Application successfully. Only an Authorized Representative for the organization or an Application point of contact can submit

the Application in AMIS. After submitting its Application, the Applicant will not be permitted to revise or modify its Application in any way or attempt to negotiate the terms of an Award.

(c)Multiple Application Submissions: Applicants are only permitted to submit one complete Application. However, the CDFI Fund does not administer *Grants.gov*, which does allow for multiple submissions of the SF–424. If an Applicant submits multiple SF–424 Applications in *Grants.gov*, the CDFI Fund will only review the SF–424 Application submitted in *Grants.gov* that is attached to the AMIS Application. Applicants can only submit one Application through AMIS.

(d) Late Submission or AMIS Account Creation: The CDFI Fund will not accept an SF–424 submitted after the applicable *Grants.gov,* an AMIS Application submitted after the AMIS Application deadline, or an Application from an Applicant that failed to create an AMIS account by the deadlines specified in Table 1 and Table 4, or if an Applicant did not submit the required Title VI Compliance Worksheet by the Application deadline listed in Table 1 and Table 4, except where the submission delay was a direct result of a federal government administrative or federal government technological error. This exception includes any errors associated with *Grants.gov, SAM.gov,* AMIS, or any other applicable government system. In cases that are not the direct result of a federal government administrative or federal government technological error, the CDFI Fund will not review any material submitted, and the Application will be deemed ineligible. However, in cases where a federal government administrative or technological error directly resulted in precluding an Applicant from submitting the SF–424, the Application, or creating an AMIS account, or precluding an Applicant from submitting the Title VI Compliance Worksheet by the deadlines stated in this NOFA, Applicants are provided the opportunity to submit a written request for acceptance of late submissions. The CDFI Fund will not consider the late submission of the SF–424, the Application, the Title VI Compliance worksheet, or the late creation of an AMIS account that was a direct result of a delay in a federal government process, unless such delay was the result of a federal government administrative or technological error.

(1) Creation of AMIS Account: In cases where a federal government administrative or technological error directly precluded an Applicant from creating an AMIS account by the required deadline, the Applicant must submit a written request for approval to create its AMIS account after the deadline, and include documentation of the error, no later than two business days after the AMIS account creation deadline. The CDFI Fund will not respond to requests for creating an AMIS account after that time. Applicants must submit such request via an AMIS Service Request with a subject line of ''BEA Program—AMIS Account Creation Deadline Extension Request.''

(2) SF–424 Late Submission: In cases where a federal government administrative or federal government technological error directly resulted in the late submission of the SF–424, the Applicant must submit a written request for acceptance of the late SF–424 submission and include documentation of the error no later than two business days after the SF–424 deadline. The CDFI Fund will not respond to requests for acceptance of late SF–424 submissions after that period. Applicants must submit late SF–424 submission requests to the CDFI Fund via an AMIS service request to the BEA Program with a subject line of ''BEA Program—Late SF–424 Submission Request.''

(3) Title VI Compliance Worksheet Late Submission: In cases where a federal government administrative or technological error directly precluded an Applicant from submitting the Title VI Compliance Worksheet by the required deadline, the Applicant must submit a written request for approval to submit the Worksheet after the deadline, and include documentation of the error, no later than two business days after the Title VI Compliance Worksheet submission deadline. The CDFI Fund will not respond to requests for submitting a Title VI Compliance Worksheet after that time. Applicants must submit such request via an AMIS Service Request to the BEA Program with a subject line of ''BEA Program—Title VI Compliance Worksheet Deadline Extension Request.''

(4) AMIS Application Late Submission: In cases where a federal government administrative or federal government technological error directly resulted in a late submission of the Application in AMIS, the Applicant must submit a written request for acceptance of the late Application submission and include documentation of the error no later than two business days after the Application deadline. The CDFI Fund will not respond to requests for acceptance of late AMIS Application submissions after that time period. Applicants must submit late Application submission requests to the CDFI Fund via an AMIS service request to the BEA Program with a subject line of ''BEA Program—Late Application Submission Request.''

H. Funding Restrictions: BEA Program Awards are limited by the following:

1. The Award Recipient shall use BEA Program Award funds only for the eligible activities described in Section II. D. of this NOFA and the Authorized BEA Program Activities described in its Award Agreement.

2. The Award Recipient may not distribute BEA Program Award funds to an Affiliate, Subsidiary, or any other entity, without the CDFI Fund's prior written approval.

3. BEA Program Award funds shall only be disbursed to the Award Recipient.

4. The CDFI Fund, in its sole discretion, may disburse BEA Program Award funds in amounts, or under terms and conditions, which are different from those requested by an Applicant.

I. Other Submission Requirements: None.

V. Application Review Information

A. Contacting Applicant for Clarification: If the Applicant submitted a complete and eligible Application, the CDFI Fund will conduct a substantive review in accordance with the criteria and procedures described in the Regulations, this NOFA, the Application guidance, and the Uniform Requirements. The CDFI Fund reserves the right to contact the Applicant by telephone, email, or mail for the sole purpose of clarifying or confirming Application information. If contacted, the Applicant must respond within the time period communicated by the CDFI Fund or run the risk that the Applicant's Application will be rejected.

B. Personally Identifiable Information (PII): The CDFI Fund will not collect or accept any Personally Identifiable Information (PII) in AMIS or in any of the Application submission materials. PII is information, which if lost, compromised, or disclosed without authorization, could result in substantial harm, embarrassment, inconvenience, or unfairness to an individual. Although Applicants are required to enter addresses of individual borrowers or residents of Distressed Communities in AMIS, Applicants must not include the following PII for the individuals who received the financial products or services in AMIS or in the supporting documentation: name of the individual, Social Security Number, driver's license or state identification

number, passport number, and Alien Registration Number. This information should be redacted from all supporting documentation. If the CDFI Fund discovers PII during the review of an Application, the transaction will be deleted from the application record and deemed ineligible.

C. Qualified Activities Criteria and Requirements: Applicants may submit transactions for Qualified Activities for the categories outlined below. Applicants must provide all required transaction information in the AMIS Application as required in this NOFA and the FY 2024 BEA Program Application Instructions. If an Applicant fails to provide the mandatory information on a transaction, it will be deemed ineligible for the purposes of calculating the BEA Award amount.

1. CDFI Related Activities: For CDFI Related Activities, Applicants may select transactions in the following two sub-categories: (1) CDFI Equity; and (2) CDFI Support Activities.

(1) CDFI Equity: This sub-category includes the following three components: a. Equity Investments; and b. Equity-Like Loans. Additional requirements and limitations for this sub-category are described in Parts c. through e.

a. Equity Investment: An Equity Investment means financial assistance provided by an Applicant or its Subsidiary to a CDFI, which CDFI meets such criteria as set forth in this NOFA, in the form of a grant, a stock purchase, a purchase of a partnership interest, a purchase of a limited liability company membership interest, or any other investment deemed to be an Equity Investment by the CDFI Fund.

b. Equity-Like Loan: An Equity-Like Loan is a loan provided by an Applicant or its Subsidiary to a CDFI and made on such terms that it has characteristics of an Equity Investment, as such characteristics may be specified by the CDFI Fund (12 CFR 1806.103). For purposes of this NOFA, an Equity-Like Loan must meet the following characteristics:

(i) At the end of the initial term, the loan must have a definite rolling maturity date that is automatically extended on an annual basis if the CDFI borrower continues to be financially sound and carry out a community development mission;

(ii) Periodic payments of interest and/or principal may only be made out of the CDFI borrower's available cash flow after satisfying all other obligations;

(iii) Failure to pay principal or interest (except at maturity) will not automatically result in a default of the loan agreement; and

(iv) The loan must be subordinated to all other debt except for other Equity-Like Loans. Notwithstanding the foregoing, the CDFI Fund reserves the right to determine, in its sole discretion and on a case-by-case basis, whether an instrument meets the above-stated characteristics of an Equity-Like Loan.

c. CDFI Partner: CDFI Partner is defined as a Certified CDFI that has been provided assistance in the form of CDFI Related Activities by an unaffiliated Applicant (12 CFR 1806.103). For the purposes of this NOFA, an eligible CDFI Partner that receives CDFI Support Activities from an Applicant must be Integrally Involved in a Distressed Community and have been certified as a CDFI as of the date that the BEA Applicant made its investment or provided support.

d. Limitations on eligible Qualified Activities provided to certain CDFI Partners: A CDFI Applicant cannot receive credit for any financial assistance or Qualified Activities provided to a CDFI Partner that is also an FDIC-insured depository institution or a depository institution holding company.

e. CDFI Program Matching Funds: Equity Investments, Equity-Like Loans, and CDFI Support Activities (except Technical Assistance) provided by a BEA Applicant to a CDFI and used by the CDFI for matching funds under the CDFI Program are eligible as a Qualified Activity under the CDFI Related Activity category.

(2) CDFI Support Activity: A CDFI Support Activity is defined as assistance provided by an Applicant or its Subsidiary to a CDFI that is Integrally Involved in a Distressed Community, in the form of certificates of deposits, loans, or Technical Assistance. This sub-category consists of three components: (a) Certificates of Deposits; (b) Loans; and (c) Technical Assistance. Additional requirements and limitations for this sub-category are described in Part (d).

(a) Certificates of Deposit: A Certificate of Deposit (CD), a CDFI Support Activity, placed by an Applicant or its Subsidiary in a CDFI Partner that is a bank, thrift, or credit union must be: (i) uninsured and committed for at least three years; or (ii) insured, committed for a term of at least three years, and provided at an interest rate that is materially below market rates, in the determination of the CDFI Fund.

i. For purposes of this NOFA, ''materially below market interest rate'' is defined as an annual percentage rate that does not exceed the yields on Treasury securities at constant maturity as interpolated by Treasury from the daily yield curve and available on the Treasury website at *www.treas.gov/offices/domestic-finance/debt-management/interest-rate/yield.shtml.* For example, for a three-year CD, Applicants should use the three-year rate U.S. Government securities, Treasury Yield Curve Rate posted for that business day. The Treasury updates the website daily at approximately 5:30 p.m. ET. CDs placed prior to that time may use the rate posted for the previous business day. The annual percentage rate on a CD should be compounded daily, quarterly, semi-annually, or annually. If a variable interest rate is used, the CD must also have an interest rate that is materially below the market interest rate over the life of the CD, in the determination of the CDFI Fund. If a variable rate is used, the Applicant must describe its methodology for determining that the interest rate over the life of the CD is a materially below market interest rate. The CDFI Fund reserves the right to follow up with an Applicant regarding variable interest rate CD transactions.

ii. For purposes of this NOFA, a deposit placed by an Applicant directly with a CDFI Partner that participates in a deposit network or service may be treated as eligible under this NOFA if it otherwise meets the criteria for deposits specified in this NOFA and the CDFI Partner retains the full amount of the initial deposit or an amount equivalent to the full amount of the initial deposit through a deposit network exchange transaction.

(b) Loans: Loans, a CDFI Support Activity, refers to an Applicant providing loans to an Eligible CDFI Partner.

(c) Technical Assistance: Technical Assistance, a CDFI Support Activity, refers to the provision of consulting services, resources, training, and other nonmonetary support to an Eligible CDFI Partner relating to an organization, individual, or operation of a trade or business.

(d) Integrally Involved: Integrally Involved is defined at 12 CFR 1806.103. For purposes of this NOFA, in order for an Applicant to report CDFI Support Activities in its Application, the CDFI Partner which received the support must be deemed to be Integrally Involved by demonstrating it has: (i) provided at least 10 percent of the number of its financial transactions or dollars transacted (*e.g.,* loans or Equity Investments), or 10 percent of the number of its Development Service Activities (as defined in 12 CFR

1805.104) or value of the administrative cost of providing such services, in one or more Distressed Communities identified by the CDFI Partner, in each of the three calendar years preceding the date of this NOFA; or (ii) transacted at least 25 percent of the number of its financial transactions or dollars transacted (*e.g.,* loans or equity investments) in one or more Distressed Communities in at least one of the three calendar years preceding the date of this NOFA, or 25 percent of the number of its Development Service Activities (as defined in 12 CFR 1805.104) or value of the administrative cost of providing such services, in one or more Distressed Communities identified by the CDFI Partner, in at least one of the three calendar years preceding the date of this NOFA; or (iii) demonstrated that it has attained at least 10 percent of market share for a particular financial product in one or more Distressed Communities (such as home mortgages originated in one or more Distressed Communities) in at least one of the three calendar years preceding the date of this NOFA; or (iv) at least 25 percent of the CDFI Partner's physical locations (*e.g.,* offices or branches) are located in one or more Distressed Communities where it provided financial transactions or Development Service Activities during the one calendar year preceding the date of the NOFA.

2. Distressed Community Financing Activities and Service Activities: Distressed Community Financing Activities comply with consumer protection laws and are defined as the following: (1) Consumer Loans; or (2) Commercial Loans and Investments. In addition to the requirements set forth in the Interim Rule, this NOFA provides the following additional requirements:

(1) Consumer Loans: Consumer Loans is a sub-category of Distressed Community Financing Activities and is defined as the following lending activity types: a. Affordable Housing Loans; b. Education Loans; c. Home Improvement Loans; and d. Small Dollar Consumer Loans.

a. Affordable Housing Loans: Affordable Housing Loans are Consumer Loans that refer to the origination of a loan to finance the purchase or improvement of the borrower's primary residence, and that is secured by such property, where such borrower is an Eligible Resident who meets Low- and Moderate-Income requirements.

b. Education Loans: Education Loans are Consumer Loans that refer to an advance of funds to a student who is an Eligible Resident who meets Low- and Moderate-Income requirements for the purpose of financing a college or vocational education.

c. Home Improvement Loans: Home Improvement Loans are Consumer Loans that refer to an advance of funds, either unsecured or secured by a one-to-four family residential property, the proceeds of which are used to improve the borrower's primary residence, where such borrower is an Eligible Resident who meets Low- and Moderate-Income requirements.

d. Small Dollar Consumer Loans: For purposes of this NOFA, eligible Small Dollar Consumer Loans are responsible and affordable loans that serve as available alternatives to the marketplace for individuals who are Eligible Residents who meet Low- and Moderate-Income requirements with a total principal value of no less than $500 and no greater than $5,000 and have a term of ninety (90) days or more. A responsible Small Dollar Loan generally considers the borrower's ability to repay and may also reflect repayment terms, pricing, and safeguards that minimize adverse customer outcomes, including cycles of debt due to rollovers or reborrowing.

(2) Commercial Loans and Investments: Commercial Loans and Investments is a sub-category of Distressed Community Financing Activities and is defined as the following lending activity types: a. Affordable Housing Development Loans and related Project Investments; b. Commercial Real Estate Loans and related Project Investments; and c. Small Business Loans and related Project Investments.

a. Affordable Housing Development Loans and Project Investments: Affordable Housing Development Loans are Commercial Loans that refer to the origination of a loan to finance the acquisition, construction, and/or development of single- or multifamily residential real property, where at least 60 percent of the units in such property are affordable, to Eligible Residents who meet Low- and Moderate-Income requirements. For the purposes of this NOFA, eligible Affordable Housing Development Loans and related Project Investments do not include housing for students, or school dormitories. In addition, for such transactions, Applicants will be required to provide supporting documentation that demonstrates that at least 60 percent of the units in the property financed are or will be sold or rented to Eligible Residents who meet Low-and-Moderate-Income requirements, as noted in the Application instructions.

b. Commercial Real Estate Loans and related Project Investments: For purposes of this NOFA, eligible Commercial Real Estate Loans (12 CFR 1806.103) and related Project Investments are generally limited to transactions with a total principal value of $10 million or less. Notwithstanding the foregoing, the CDFI Fund, in its sole discretion, may consider transactions with a total principal value of over $10 million, subject to review. For such transactions, Applicants must provide a separate narrative, or other information, to demonstrate that the proposed project offers, or significantly enhances the quality of, a facility or service not currently provided to the Distressed Community.

c. Small Business Loans and Project Investments: Small Business Loans are Commercial Loans that refer to the origination of a loan used for commercial or industrial activities (other than an Affordable Housing Loan, Affordable Housing Development Loan, Commercial Real Estate Loan, or Home Improvement Loan) to a business or farm that meets the size eligibility standards of the Small Business Administration's Development Company or Small Business Investment Company programs (13 CFR 121.301) and is located in a Distressed Community.

d. Distressed Community Financing Activities for Transactions Less Than $250,000: For purposes of this NOFA, Applicants are expected to maintain records for any transaction submitted as part of the FY 2024 BEA Program Application, including supporting documentation for transactions in the Distressed Community Financing Activity category of less than $250,000. The CDFI Fund reserves the right to request supporting documentation from an Applicant during its Application Review process for a Distressed Community Financing Activities transaction less than $250,000.

3. Service Activities: Service Activities consist of the following five types: a: Deposit Liabilities; b. Community Services; c. Financial Services; d. Targeted Financial Services; and e. Targeted Retail Savings/ Investment Products.

a. Deposit Liabilities: Deposit Liabilities are considered Service Activities and refer to time or savings deposits or demand deposits. Any such deposit must be accepted from Eligible Residents at the offices of the Applicant or of the Subsidiary of the Applicant and located in the Distressed Community. Deposit Liabilities may only include deposits held by individuals in transaction accounts (*e.g.,* demand deposits, negotiable order of withdrawal accounts, automated

transfer service accounts, and telephone or preauthorized transfer accounts) or non-transaction accounts (*e.g.,* money market deposit accounts, other savings deposits, and all time deposits), as defined by the Appropriate Federal Banking Agency.

b. Community Services: Community Services are considered Service Activities and refer to the following forms of assistance provided by officers, employees or agents (contractual or otherwise) of the Applicant: (1) Provision of Technical Assistance and financial education to Eligible Residents regarding managing their personal finances; (2) Provision of Technical Assistance and consulting services to newly formed small businesses and nonprofit organizations located in the Distressed Community; (3) Provision of Technical Assistance and financial education to, or servicing the loans of, homeowners who are Eligible Residents and meet Low- and Moderate-Income requirements; and (4) Other services provided to Eligible Residents who meet Low- and Moderate-Income requirements or enterprises that are Integrally Involved in a Distressed Community, as deemed appropriate by the CDFI Fund.

c. Financial Services: Financial Services are Service Activities that refer to check cashing, providing money orders and certified checks, automated teller machines, safe deposit boxes, new branches, and other comparable services, that are provided by the Applicant to Eligible Residents or enterprises that are Integrally Involved in the Distressed Community.

The CDFI Fund will value the administrative cost of providing certain Financial Services using the following per unit values:

(1) $100.00 per account for Targeted Financial Services including safe transaction accounts, youth transaction accounts, Electronic Transfer Accounts (ETA) and Individual Development Accounts (IDA);

(2) $50.00 per account for checking and savings accounts that do not meet the definition of Targeted Financial Services;

(3) $5.00 per check cashing transaction;

(4) $50,000 per new ATM installed at a location in a Distressed Community;

(5) $500,000 per new retail bank branch office opened in a Distressed Community, including school-based bank branches approved by the Applicant's Federal bank regulator;

(6) In the case of Applicants engaging in Financial Services activities not described above, the CDFI Fund will determine the unit value of such services;

(7) When reporting the opening of a new retail bank branch office, the Applicant must certify that such new branch is intended to remain in operation for at least the next five years;

(8) Financial Service Activities must be provided by the Applicant to Eligible Residents or enterprises that are located in a Distressed Community. An Applicant may determine the number of Eligible Residents who are Award Recipients of Financial Services by either: (i) collecting the addresses of its Financial Services customers, or (ii) certifying that the Applicant reasonably believes that such customers are Eligible Residents or enterprises located in a Distressed Community and providing a brief analytical narrative with information describing how the Applicant made this determination. Citations must be provided for external sources. In addition, if external sources are referenced in the narrative, the Applicant must explain how it reached the conclusion that the cited references are directly related to the Eligible Residents or enterprises to whom it is claiming to have provided the Financial Services.

(9) When reporting changes in the dollar amount of deposit accounts, only calculate the net change in the total dollar amount of eligible Deposit Liabilities between the Baseline Period and the Assessment Period. Do not report each individual deposit. Instructions for determining the net change is available in the FY 2024 BEA Program Application Instructions in AMIS.

d. Targeted Financial Services: Targeted Financial Services are Service Activities that are targeted to Eligible Residents, including Electronic Transfer Accounts (ETAs), Individual Development Accounts (IDAs), and similar banking products.

e. Targeted Retail Savings/Investment Products: Targeted Financial Services are Service Activities targeted to Eligible Residents that include certificates of deposit, mutual funds, and life insurance.

C. Priority Factors: Priority Factors are the numeric values assigned to individual types of activity within: (i) the Distressed Community Financing Activities, and (ii) Services Activities categories of Qualified Activities. For the purposes of this NOFA, Priority Factors will be based on the Applicant's asset size as of the end of the Assessment Period (December 31, 2023) as reported by the Applicant in the Application. Asset size classes (*i.e.,* small institutions, intermediate-small institutions, and large institutions) will correspond to the Community Reinvestment Act (CRA) asset size classes set by the three Federal bank regulatory agencies and that were effective as of the end of the Assessment Period. The Priority Factor works by multiplying the change in a Qualified Activity by the assigned Priority Factor to achieve a ''weighted value.'' This weighted value of the change would be multiplied by the applicable Award percentage to yield the Award amount for that particular activity. For purposes of this NOFA, the CDFI Fund is establishing Priority Factors based on Applicant asset size to be applied to all activity types within the Distressed Community Financing Activities and Service Activities categories only, as follows:

TABLE 5—CRA ASSET SIZE CLASSIFICATION

	Priority factor
Small institutions (assets of less than $391 million as of 12/31/2023)	5.0
Intermediate—small institutions (assets of at least $391 million but less than $1.564 billion as of 12/31/2023)	3.0
Large institutions (assets of $1.564 billion or greater as of 12/31/2023)	1.0

D. Certain Limitations on Qualified Activities:

1. Low-Income Housing Tax Credits: Financial assistance provided by an Applicant for which the Applicant receives benefits through Low-Income Housing Tax Credits, authorized pursuant to Section 42 of the Internal Revenue Code, as amended (26 U.S.C. 42), shall not constitute an Equity Investment, Project Investment, or other Qualified Activity, for the purposes of calculating or receiving a BEA Program Award.

2. New Markets Tax Credits: Financial assistance provided by an Applicant for which the Applicant receives benefits as an investor in a Community Development Entity that has received an allocation of New Markets Tax Credits, authorized pursuant to Section 45D of the Internal Revenue Code, as amended (26 U.S.C. 45D), shall not constitute an Equity Investment, Project Investment, or other Qualified Activity, for the purposes of calculating or receiving a BEA Program Award. Leverage loans used in New Markets Tax Credit structured transactions that meet the requirements outlined in this NOFA are considered Distressed Community Financing Activities. The Application materials will provide further guidance on requirements for BEA transactions which were leverage loans used in a New Markets Tax Credit structured transaction.

3. Loan Renewals and Refinances: Financial assistance provided by an Applicant shall not constitute a Qualified Activity, as defined in this part, for the purposes of calculating or receiving a BEA Program Award if such financial assistance consists of a loan to a borrower that has matured and is then renewed by the Applicant, or consists of a loan to a borrower that is retired or restructured using the proceeds of a new commitment by the Applicant.

4. Certain Business Types: Financial assistance provided by an Applicant shall not constitute a Qualified Activity for the purposes of financing the following business types: adult entertainment providers, golf courses, race tracks, gambling facilities, country clubs, facilities offering massage services, hot tub facilities, suntan facilities, or stores where the principal business is the sale of alcoholic beverages for consumption off premises.

5. Prior BEA Program Awards: Qualified Activities funded with prior funding round BEA Program Award dollars or funded to satisfy requirements of the BEA Program Award Agreement shall not constitute a Qualified Activity for the purposes of calculating or receiving a BEA Program Award.

6. Prior CDFI Fund Awards: No Applicant may receive a BEA Program Award for the same activities funded by another CDFI Fund program or federal program.

B. Review and Selection Process:

1. Application Review Process: All Applications will be initially evaluated by external non-federal reviewers. Reviewers are selected based on their experience in understanding various financial transactions, analyzing and interpreting financial documentation, strong written communication skills, and strong mathematical skills. Reviewers must complete the CDFI Fund's conflict of interest process and be approved by the CDFI Fund.

2. Selection Process: The Interim Rule and this NOFA describe the process for selecting Applicants to receive a BEA Program Award and determining Award amounts. If the amount of funds available during the funding round is insufficient for all estimated Award amounts, Award Recipients will be selected based on the process described in the Interim Rule at 12 CFR 1806.404. This process gives funding priority to Applicants that undertake activities in the following order: (i) CDFI Related Activities, (ii) Distressed Community Financing Activities, and (iii) Service Activities.

a. Award percentages: In the CDFI Related Activities subcategory of CDFI Equity, for all Applicants, the estimated award amount will be equal to 18 percent of the increase in Qualified Activities reported in this subcategory.

In the CDFI Related Activities subcategory of CDFI Support Activities, for a Certified CDFI Applicant, the estimated award amount will be equal to 18 percent of the increase in Qualified Activities in this subcategory. If an Applicant is not a Certified CDFI, the estimated award amount will be equal to 6 percent of the increase in Qualified Activities in this subcategory.

In the Distressed Community Financing Activities subcategory of Consumer Lending, the estimated award amount for Certified CDFI Applicants will be 18 percent of the weighted value of the increase in Qualified Activities in this subcategory. If an Applicant is not a Certified CDFI Applicant, the estimated award amount will be equal to 6 percent of the weighted value of the increase in Qualified Activities in this subcategory.

In the Distressed Community Financing Activities subcategory of Commercial Lending and Investments, for a Certified CDFI Applicant, the estimated award amount will be equal to 9 percent of the weighted value of the increase in Qualified Activities in this subcategory. If an Applicant is not a Certified CDFI, the estimated award amount will be equal to 3 percent of the weighted value of the increase in Qualified Activity in this subcategory.

In the Service Activities category, for a Certified CDFI Applicant, the estimated award amount will be equal to 9 percent of the weighted value of the increase in Qualified Activity for the category. If an Applicant is not a Certified CDFI, the estimated award amount will be equal to 3 percent of the weighted value of the increase in Qualified Activity for the category.

Within each category, CDFI Applicants will be ranked first based on the ratio of the award amount calculated by the CDFI Fund for the category relative to the Applicant's total assets, followed by Applicants that are not CDFIs based on the ratio of the award amount calculated by the CDFI Fund for the category relative to the Applicant's total assets.

Selections within each priority category will be based on the Applicants' relative rankings within each such category, subject to the availability of funds and any established maximum dollar amount of total awards that may be awarded for the Distressed Community Financing Activities category of Qualified Activities, as determined by the CDFI Fund.

b. Award Amounts: An Applicant's estimated award amount will be calculated according to the procedure outlined in the Interim Rule (at 12 CFR 1806.403 and 1806.404). As outlined in the Interim Rule, the CDFI Fund will determine actual award amounts based on the availability of funds, increases in Qualified Activities from the Baseline Period to the Assessment Period, and the priority ranking of each Applicant.

In calculating the increase in Qualified Activities, the CDFI Fund will determine the eligibility of each transaction for which an Applicant has applied for a BEA Program Award.

The CDFI Fund, in its sole discretion: (i) may adjust the estimated award amount that an Applicant may receive; (ii) may establish a maximum amount that may be awarded to an Applicant; and (iii) reserves the right to limit the amount of an award to any Applicant if the CDFI Fund deems it appropriate.

The CDFI Fund reserves the right to change its eligibility and evaluation criteria and procedures. If those changes materially affect the CDFI Fund's award decisions, the CDFI Fund will provide information regarding the changes through the CDFI Fund's website.

3. Programmatic and Financial Risk: The CDFI Fund will consider safety and soundness information from the appropriate Federal bank regulatory agency as defined in Section 3 of the Federal Deposit Insurance Act (12 U.S.C. 1813(q)). If the appropriate Federal bank regulatory agency identifies safety and soundness concerns, the CDFI Fund will assess whether the concerns cause or will cause the Applicant to be incapable of completing the activities for which funding has been requested. The CDFI Fund will not approve a BEA Program Award under any circumstances for an

Applicant if the appropriate Federal bank regulatory agency indicates that the Applicant received a composite rating of ''5'' on its most recent examination, performed in accordance with the Uniform Financial Institutions Rating System.

Furthermore, the CDFI Fund will not approve a BEA Program Award for an Applicant if the CDFI Fund determines that the Applicant has:

(i) a CRA assessment rating of below ''Satisfactory'' on its most recent examination; (ii) a financial audit with: a going concern paragraph, an adverse opinion, a disclaimer of opinion, or a withdrawal of an opinion on its most recent audit; or (iii) a Prompt Corrective Action directive from its regulator imposing restrictions on its level of lending activities, that was active at the time the Applicant submitted its Application to the CDFI Fund or becomes active during the CDFI Fund's evaluation of the Application for: activities for which funding has been requested, activities which meet the BEA Program criteria of Qualified Activities, or other circumstances which may impact an Applicant's ability to successfully manage, re-invest, and/or report on a FY 2024 BEA Program Award.

Applicants and/or their appropriate Federal bank regulator agency may be contacted by the CDFI Fund to provide additional information related to Federal bank regulatory or CRA information. The CDFI Fund will consider this information and may choose to not approve a FY 2024 BEA Program Award for an Applicant if the information indicates that the Applicant may be unable to responsibly manage, re-invest, and/or report on a FY 2024 BEA Program Award during the period of performance.

4. Persistent Poverty Counties: Should the CDFI Fund determine, upon analysis of the initial pool of BEA Program Award Recipients, that it has not achieved the 10 percent PPC requirement mandated by Congress, Award preference will be given to Applicants that committed to deploying at least 10 percent of their FY 2024 BEA Program Award in PPCs. Applicants that committed to serving PPCs and are selected to receive a FY 2024 BEA Program award, will have their PPC commitment incorporated into their Award Agreement as a Performance Goal which will be subject to compliance and reporting requirements. No Applicant, however, will be disqualified from consideration for not making a PPC commitment in its BEA Program Application.

5. Application Rejection: The CDFI Fund reserves the right to reject an Application if information (including administrative error) comes to the CDFI Fund's attention that either: adversely affects an Applicant's eligibility for an award; adversely affects the CDFI Fund's evaluation or scoring of an Application; or indicates fraud or mismanagement on the Applicant's part. If the CDFI Fund determines any portion of the Application is incorrect in a material respect, the CDFI Fund reserves the right, in its sole discretion, to reject the Application.

There is no right to appeal the CDFI Fund's award decisions. The CDFI Fund's award decisions are final. The CDFI Fund will not discuss the specifics of an Applicant's FY 2024 BEA Program Application or provide reasons why an Applicant was not selected to receive a FY 2024 BEA Program Award. The CDFI Fund will only respond to general questions regarding the FY 2024 BEA Program Application and award decision process until 30 days after the award announcement date.

C. Anticipated Announcement: The CDFI Fund anticipates making its FY 2024 BEA Program award announcement in the fall of 2024.

VI. Federal Award Administration Information

A. Federal Award Notices: Each successful Applicant will receive notification from the CDFI Fund stating that its Application has been approved for an Award. Each Applicant not selected for an Award will receive notification and provided a debriefing document in its AMIS account.

B. Administrative and Policy Requirements Prior to Entering into an Award Agreement: If, prior to entering into an Award Agreement, information (including an administrative error) comes to the CDFI Fund's attention that: adversely affects the CDFI Fund's evaluation of the Application; indicates that the Recipient is not in compliance with any requirement listed in the Uniform Requirements; indicates that the Recipient is not in compliance with a term or condition of any prior Award Agreement, Assistance Agreement, and/or Allocation Agreement from the CDFI Fund; indicates the Recipient has failed to execute and return a prior round Award Agreement Assistance Agreement, and/or Allocation Agreement to the CDFI Fund within the CDFI Fund's deadlines; or indicates fraud or mismanagement on the Recipient's part, the CDFI Fund may, in its discretion and without advance notice to the Recipient, terminate the award or take such other actions as it deems appropriate. If a Certified CDFI Award Recipient's certification status ceases, the CDFI Fund reserves the right, in its sole discretion, to re-calculate the award, and modify the Award Agreement based on the Award Recipient's non-CDFI status.

By executing an Award Agreement, the Award Recipient agrees that, if the CDFI Fund becomes aware of any information (including an administrative error) prior to the effective date of the Award Agreement that either adversely affects the Award Recipient's eligibility for an award, or adversely affects the CDFI Fund's evaluation of the Award Recipient's Application, or indicates fraud or mismanagement on the part of the Award Recipient, the CDFI Fund may, in its discretion and without advance notice to the Award Recipient, terminate the Award Agreement or take other actions as it deems appropriate.

The CDFI Fund reserves the right, in its sole discretion, to rescind an award if the Award Recipient fails to return the Award Agreement, signed by the authorized representative of the Award Recipient, and/or provide the CDFI Fund with any other requested documentation, within the CDFI Fund's deadlines.

In addition, the CDFI Fund reserves the right, in its sole discretion, to terminate and rescind the Award Agreement and the award made under this NOFA for any criteria described in the following table:

TABLE 6—CRITERIA THAT MAY RESULT IN AWARD TERMINATION PRIOR TO THE EXECUTION OF AN AWARD AGREEMENT

Criteria	Description
Failure to maintain FDIC-insured status	• If prior to entering into an Award Agreement under this NOFA, the Award Recipient does not maintain its FDIC-insured status, the CDFI Fund will terminate and/or rescind the Award Agreement and the award made under this NOFA.

TABLE 6—CRITERIA THAT MAY RESULT IN AWARD TERMINATION PRIOR TO THE EXECUTION OF AN AWARD AGREEMENT—Continued

Criteria	Description
Failure to meet reporting requirements	• If a Recipient received a prior award or allocation under any CDFI Fund program and is not current on the reporting requirements set forth in the previously executed assistance, award, allocation, bond loan agreement(s), or agreement to guarantee, as of the date of the notice of award, the CDFI Fund reserves the right, in its sole discretion, to delay entering into an Assistance Agreement and/or to delay making a payment of BEA Program Award, until said prior Recipient or Allocatee is current on the reporting requirements in the previously executed assistance, award, allocation, bond loan agreement(s), or agreement to guarantee. • If such a prior Recipient or Allocatee is unable to meet this requirement within the timeframe set by the CDFI Fund, the CDFI Fund reserves the right, in its sole discretion, to terminate and rescind the notice of award and the BEA Program Award made under this NOFA. • Please note that automated systems employed by the CDFI Fund for receipt of reports submitted electronically typically acknowledge only a report's receipt; such acknowledgment does not warrant that the report received was complete, nor that it met reporting requirements.
Pending resolution of Default or Noncompliance	• The CDFI Fund will delay entering into an Award Agreement with a Recipient that has pending noncompliance or default issue with any of its previously executed CDFI Award Agreement(s), Allocation Agreement(s), and/or Assistance Agreement(s), if the CDFI Fund has not yet made a final compliance determination. • If the Recipient is unable to satisfactorily resolve the compliance issues, the CDFI Fund may terminate and rescind the Assistance Agreement and the award made under this NOFA.
Default or Noncompliance status	• If, at any time prior to entering into an Award Agreement, the CDFI Fund determines that a Recipient is noncompliant or found in default with any previously executed Award Agreement(s), Allocation Agreement(s), and/or Assistance Agreement(s), and the CDFI Fund has provided written notification that the Recipient is ineligible to apply for or receive any future awards or allocations for a time period specified by the CDFI Fund in writing, the CDFI Fund may delay entering into an Award Agreement until the Recipient has cured the noncompliance or default by taking actions the CDFI Fund has specified within such specified timeframe. If the Recipient is unable to cure the noncompliance or default within the specified timeframe, the CDFI Fund may terminate and rescind the Award Agreement and the award made under this NOFA.
Compliance with Federal civil rights requirements.	• If, within the period starting three years prior to this NOFA and through the date of the Award Agreement, the Recipient received a final determination, in any proceeding instituted against the Recipient in, by, or before any court, governmental, or administrative body or agency, declaring that the Recipient violated any federal civil rights laws or regulations, including, but not limited to: Title VI of the Civil Rights Act of 1964, as amended (42 U.S.C. 2000d et seq.); Fair Housing Act (42 U.S.C. 3601 et seq.); Equal Credit Opportunity Act (15 U.S.C. 1691 et seq.); Section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794); the Age Discrimination Act of 1975 (42 U.S.C. 6101–6107); and Title IX of the Education Amendments of 1972 (20 U.S.C. 1681 et seq.), the CDFI Fund may terminate and rescind the Award Agreement and the Award made under this NOFA. The CDFI Fund will delay entering into an Award Agreement with a Recipient that has pending Title VI noncompliance issues, if the CDFI Fund has not yet made a final compliance determination. • If the Recipient is unable to satisfactorily resolve the Title VI noncompliance issues, the CDFI Fund may terminate and rescind the Award Agreement and the award made under this NOFA. • The Title VI Compliance Worksheet and program award terms and conditions do not impose antidiscrimination requirements on Tribal governments beyond what would otherwise apply under federal law.
Do Not Pay	• The CDFI Fund reserves the right, in its sole discretion, to rescind an award if the Recipient (or Affiliate of a Recipient) is determined to be ineligible based on data in the Do Not Pay database. • The Do Not Pay Business Center was developed to support federal agencies in their efforts to reduce the number of improper payments made through programs funded by the federal government.
Safety and Soundness	• If it is determined the Recipient is or will be incapable of meeting its award obligations, the CDFI Fund will deem the Recipient to be ineligible or require it to improve safety and soundness conditions prior to entering into an Award Agreement.

C. Award Agreement: After the CDFI Fund selects an Award Recipient, except as otherwise specified in this NOFA, the CDFI Fund and the Award Recipient will enter into an Award Agreement. The Award Agreement will set forth certain required terms and conditions of the award, which will include, but not be limited to: (i) the amount of the award; (ii) the approved uses of the award; (iii) the Performance Goals and measures; (iv) the period of performance; and (v) the reporting requirements. The Award Agreement shall provide that an Award Recipient shall: (i) carry out its Qualified Activities in accordance with applicable law, the approved Application, and all other applicable requirements; (ii) not receive any disbursement of award dollars until the CDFI Fund has

determined that the Award Recipient has fulfilled all applicable requirements; and (iii) use the BEA Program Award amount for Qualified Activities. Award Recipients which committed to serving PPCs will have their PPC commitment incorporated into their Award Agreement as a Performance Goal, which will be subject to compliance and reporting requirements.

D. Reporting: Through this NOFA, the CDFI Fund will require each Award Recipient to account for and report to the CDFI Fund on the use of the award. This will require Award Recipients to establish administrative controls, subject to applicable OMB Circulars. The CDFI Fund will collect information from each such Award Recipient on its use of the award at least once following the award and more often if deemed appropriate by the CDFI Fund in its sole discretion. The CDFI Fund will provide guidance to Award Recipients outlining the format and content of the information required to be provided to describe how the funds were used.

The CDFI Fund may collect information from each Award Recipient including, but not limited to, an Annual Report with the following components:

TABLE 7—REPORTING REQUIREMENTS

Criteria	Description
Use of BEA Program Award Report—for all Award Recipients.	Award Recipients must submit the Use of Award Report to the CDFI Fund via AMIS.
Use of BEA Program Award Report—Funds Deployed in Persistent Poverty Counties—as applicable.	The CDFI Fund will require each Award Recipient with Persistent Poverty County commitments to report data for Award funds deployed in persistent poverty counties and maintain proper supporting documentation and records which are subject to review by the CDFI Fund.
Explanation of Noncompliance or successor report—as applicable.	If the Award Recipient fails to meet a Performance Goal or reporting requirement, it must submit the Explanation of Noncompliance via AMIS.

Each Award Recipient is responsible for the timely and complete submission of the reporting requirements. The CDFI Fund reserves the right to contact the Award Recipient to request additional information and documentation. The CDFI Fund may consider financial information filed with Federal regulators during its compliance review. The CDFI Fund will use such information to monitor each Award Recipient's compliance with the requirements in the Award Agreement and to assess the impact of the BEA Program. The CDFI Fund reserves the right, in its sole discretion, to modify these reporting requirements if it determines it to be appropriate and necessary; however, such reporting requirements will be modified only after notice has been provided to Award Recipients.

E. Financial Management and Accounting: The CDFI Fund will require Award Recipients to maintain financial management and accounting systems that comply with federal statutes, regulations, and the terms and conditions of the award. These systems must be sufficient to permit the preparation of reports required by general and program specific terms and conditions, including the tracing of funds to a level of expenditures adequate to establish that such funds have been used according to the federal statutes, regulations, and the terms and conditions of the award.

Each of the Qualified Activities categories will be ineligible for indirect costs and an associated indirect cost rate. The cost principles used by Award Recipients must be consistent with Federal cost principles and support the accumulation of costs as required by the principles and must provide for adequate documentation to support costs charged to the BEA Program Award. In addition, the CDFI Fund will require Award Recipients to: maintain effective internal controls; comply with applicable statutes, regulations, and the Award Agreement; evaluate and monitor compliance; take action when not in compliance; and safeguard personally identifiable information, as described in Section V.A. of this NOFA.

VII. Federal Awarding Agency Contacts

A. Questions Related to Application and Prior Award Recipient Reporting, Compliance and Disbursements: The CDFI Fund will respond to questions concerning this NOFA, the Application and reporting, compliance, or disbursements between the hours of 9:00 a.m. and 5:00 p.m. Eastern Time, starting on the date that this NOFA is published through the date listed in Table 1 and Table 4. The CDFI Fund will post responses to frequently asked questions in a separate document on its website. Other information regarding the CDFI Fund and its programs may be obtained from the CDFI Fund's website at *https://www.cdfifund.gov.*

The following table lists contact information for the CDFI Fund, *Grants.gov* and SAM:

TABLE 8—CONTACT INFORMATION

Type of question	Telephone number (not toll free)	Electronic contact method
BEA Program	(202) 653–0421	BEA AMIS Service Request; or *BEA@cdfi.treas.gov.*
Certification, Compliance Monitoring, and Evaluation	(202) 653–0423	BEA Compliance and Reporting AMIS Service Request.
AMIS—IT Help Desk	(202) 653–0422	IT AMIS Service Request.
Grants.gov Help Desk	(800) 518–4726	*support@grants.gov.*
SAM.gov (Federal Service Desk)	(866) 606–8220	*https://www.sam.gov.*

B. Information Technology Support: People who have visual or mobility impairments that prevent them from using the CDFI Fund's website should call (202) 653–0422 for assistance (this is not a toll-free number).

C. Communication with the CDFI Fund: The CDFI Fund will use AMIS to communicate with Applicants and Award Recipients under this NOFA. Award Recipients must use AMIS to submit required reports. The CDFI Fund

will notify Award Recipients by email using the addresses maintained in each Award Recipient's AMIS account. Therefore, an Award Recipient and any Subsidiaries, signatories, and Affiliates must maintain accurate contact information (including contact person and authorized representative, email addresses, fax numbers, phone numbers, and office addresses) in their AMIS account(s).

D. Civil Rights and Equal Opportunity: Any person who is eligible to receive benefits or services from the CDFI Fund or its Recipients under any of its programs or activities is entitled to those benefits or services without being subjected to prohibited discrimination. The Department of the Treasury's Office of Civil Rights and Equal Employment Opportunity enforces various federal statutes and regulations that prohibit discrimination in financially assisted and conducted programs and activities of the CDFI Fund. If a person believes that they have been subjected to discrimination and/or reprisal because of race, color, religion, national origin, age, sex, marital status, familial status, disability and/or reprisal, they may file a complaint with: Director, Office of Civil Rights and Equal Employment Opportunity, 1500 Pennsylvania Ave. NW, Washington, DC 20220 or by email at *crcomplaints@treasury.gov.*

E. Statutory and National Policy Requirements: The CDFI Fund will manage and administer the Federal award in a manner to ensure that Federal funding is expended and associated programs are implemented in full accordance with the U.S. Constitution, federal law, and public policy requirements: including but not limited to, those protecting free speech, religious liberty, public welfare, the environment, and prohibiting discrimination.

VIII. Other Information

A. Reasonable Accommodations: Requests for reasonable accommodations under section 504 of the Rehabilitation Act should be directed to Mr. Jay Santiago, Community Development Financial Institutions Fund, U.S. Department of the Treasury, at *SantiagoJ@cdfi.treas.gov* no later than 72 hours in advance of the application deadline.

B. Paperwork Reduction Act: Under the Paperwork Reduction Act (44 U.S.C. chapter 35), an agency may not conduct or sponsor a collection of information, and an individual is not required to respond to a collection of information, unless it displays a valid OMB control number. Pursuant to the Paperwork Reduction Act, the BEA Program funding Application has been assigned the following control number: 1559–0005.

C. Application Information Sessions: The CDFI Fund may conduct webinars or host information sessions for organizations that are considering applying to, or are interested in learning about, the CDFI Fund's programs. For further information, please visit the CDFI Fund's website at *https://www.cdfifund.gov.*

Authority: 12 U.S.C. 1834a, 4703, 4703 note, 4713; 12 CFR part 1806.

Pravina Raghavan,

Director, Community Development Financial Institutions Fund.

[FR Doc. 2024–09124 Filed 4–26–24; 8:45 am]

BILLING CODE 4810–05–P

DEPARTMENT OF THE TREASURY

Office of the Comptroller of the Currency

Agency Information Collection Activities: Revision of an Approved Information Collection; Submission for OMB Review; Record and Disclosure Requirements—Consumer Financial Protection Bureau Regulations B, E, M, Z, and DD and Board of Governors of the Federal Reserve System Regulation CC

AGENCY: Office of the Comptroller of the Currency (OCC), Treasury.

ACTION: Notice and request for comment.

SUMMARY: The OCC, as part of its continuing effort to reduce paperwork and respondent burden, invites comment on a continuing information collection, as required by the Paperwork Reduction Act of 1995 (PRA). In accordance with the requirements of the PRA, the OCC may not conduct or sponsor, and the respondent is not required to respond to, an information collection unless it displays a currently valid Office of Management and Budget (OMB) control number. The OCC is soliciting comment concerning a revision to its information collection titled, ''Record and Disclosure Requirements—Consumer Financial Protection Bureau Regulations B, E, M, Z, and DD and Board of Governors of the Federal Reserve System Regulation CC.'' The OCC also is giving notice that it has sent the collection to OMB for review.

DATES: Comments must be received by May 29, 2024.

ADDRESSES: Commenters are encouraged to submit comments by email, if possible. You may submit comments by any of the following methods:

- *Email: prainfo@occ.treas.gov.*
- *Mail:* Chief Counsel's Office, Attention: Comment Processing, Office of the Comptroller of the Currency, Attention: 1557–0176, 400 7th Street SW, Suite 3E–218, Washington, DC 20219.
- *Hand Delivery/Courier:* 400 7th Street SW, Suite 3E–218, Washington, DC 20219.
- *Fax:* (571) 293–4835.

Instructions: You must include ''OCC'' as the agency name and ''1557–0176'' in your comment. In general, the OCC will publish comments on *www.reginfo.gov* without change, including any business or personal information provided, such as name and address information, email addresses, or phone numbers. Comments received, including attachments and other supporting materials, are part of the public record and subject to public disclosure. Do not include any information in your comment or supporting materials that you consider confidential or inappropriate for public disclosure.

Written comments and recommendations for the proposed information collection should also be sent within 30 days of publication of this notice to *www.reginfo.gov/public/do/PRAMain.* You can find this information collection by selecting ''Currently under 30-day Review—Open for Public Comments'' or by using the search function.

You may review comments and other related materials that pertain to this information collection following the close of the 30-day comment period for this notice by the method set forth in the next bullet.

- *Viewing Comments Electronically:* Go to *www.reginfo.gov.* Hover over the ''Information Collection Review'' tab and click on ''Information Collection Review'' from the drop-down menu. From the ''Currently under Review'' drop-down menu, select ''Department of Treasury'' and then click ''submit.'' This information collection can be located by searching OMB control number ''1557–0176'' or ''Record and Disclosure Requirements—Consumer Financial Protection Bureau Regulations B, E, M, Z, and DD and Board of Governors of the Federal Reserve System Regulation CC.'' Upon finding the appropriate information collection, click on the related ''ICR Reference Number.'' On the next screen, select ''View Supporting Statement and Other Documents'' and then click on the link to any comment listed at the bottom of the screen.

• For assistance in navigating *www.reginfo.gov,* please contact the Regulatory Information Service Center at (202) 482–7340.

FOR FURTHER INFORMATION CONTACT: Shaquita Merritt, Clearance Officer, (202) 649–5490, Chief Counsel's Office, Office of the Comptroller of the Currency, 400 7th Street SW, Washington, DC 20219. If you are deaf, hard of hearing, or have a speech disability, please dial 7–1–1 to access telecommunications relay services.

SUPPLEMENTARY INFORMATION: Under the PRA (44 U.S.C. 3501 *et seq.*), Federal agencies must obtain approval from the OMB for each collection of information that they conduct or sponsor. ''Collection of information'' is defined in 44 U.S.C. 3502(3) and 5 CFR 1320.3(c) to include agency requests or requirements that members of the public submit reports, keep records, or provide information to a third party. The OCC asks the OMB to approve this revised collection.

Title: Record and Disclosure Requirements—Consumer Financial Protection Bureau Regulations B, E, M, Z, and DD and Board of Governors of the Federal Reserve System Regulation CC.

OMB Control No.: 1557–0176.

Type of Review: Regular.

Affected Public: Businesses or other for-profit.

Frequency of Response: On occasion.

Description: This information collection covers Consumer Financial Protection Bureau (CFPB) Regulations B, E, M, Z, and DD and Board of Governors of the Federal Reserve System (FRB) Regulation CC. The CFPB and FRB regulations include the following provisions:

Regulation B—12 CFR 1002—Equal Credit Opportunity Act

This regulation prohibits lenders from discriminating against credit applicants on certain prohibited bases. The regulation also requires creditors to: (i) notify applicants of action taken on their credit application; (ii) report credit history in the names of both spouses on an account; (iii) retain records of credit applications; (iv) collect information about the applicant's race and other personal characteristics in applications for certain dwelling-related loans; and (v) provide applicants with copies of appraisal reports used in connection with credit transactions. The regulation was amended to implement changes to the Equal Credit Opportunity Act (ECOA) made by section 1071 of the Dodd-Frank Wall Street Reform and Consumer Protection Act (88 FR 35150). Section 1071 requires covered financial institutions to collect and report data on applications for credit for small businesses. The regulation's revision includes additional information collection requirements that require the compilation and maintenance of reportable data, including notice requirements and reporting and recordkeeping requirements for small business lending data.[1]

Regulation E—12 CFR 1005—Electronic Fund Transfers (Except Prepaid Card Provisions 1557–0346)

This regulation carries out the purposes of the Electronic Fund Transfer Act (15 U.S.C. 1693 *et seq.*), which establishes the basic rights, liabilities, and responsibilities of consumers who use electronic fund transfers and remittance transfer services and of financial institutions or other persons that offer these services.

Regulation M—12 CFR 1013—Consumer Leasing

This regulation implements the consumer leasing provisions of the Truth in Lending Act, including by, among other actions, requiring meaningful disclosure of leasing terms.

Regulation Z—12 CFR 1026—Truth in Lending

This regulation is intended to promote the informed use of consumer credit by requiring disclosures about its terms and cost, to ensure that consumers are provided with greater and more timely information on the nature and costs of the residential real estate settlement process and to effect certain changes in the settlement process for residential real estate that will result in more effective advance disclosure to home buyers and sellers of settlement costs. The regulation gives consumers the right to cancel certain credit transactions that involve a lien on a consumer's principal dwelling, regulates certain credit card practices, and provides a means for fair and timely resolution of credit billing disputes. Other provisions of the regulation include rules specific to credit card accounts, certain dwelling-secured transactions, home-equity plans, and private education loans.

Regulation DD—12 CFR 1030—Truth in Savings

This regulation requires depository institutions to provide disclosures to enable consumers to make meaningful comparisons among accounts at depository institutions.

Regulation CC—12 CFR 229—Availability of Funds and Collection of Checks

This regulation includes timeframes to govern the availability of funds deposited into certain transaction accounts, rules to govern the collection and return of checks and electronic checks, and general provisions to govern the use of substitute checks.

Estimated Burden:

Estimated Number of Respondents: 1,005.

Estimated Total Annual Burden: 2,661,240 hours.

Comments: On February 01, 2024, the OCC published a 60-day notice for this information collection, 89 FR 6566. No comments were received.

Comments continue to be invited on:

(a) Whether the collection of information is necessary for the proper performance of the functions of the OCC, including whether the information has practical utility;

(b) The accuracy of the OCC's estimate of the burden of the collection of information;

(c) Ways to enhance the quality, utility, and clarity of the information to be collected;

(d) Ways to minimize the burden of the collection on respondents, including through the use of automated collection techniques or other forms of information technology; and

(e) Estimates of capital or start-up costs and costs of operation, maintenance, and purchase of services to provide information.

Patrick T. Tierney,

Assistant Director, Office of the Comptroller of the Currency.

[FR Doc. 2024–09099 Filed 4–26–24; 8:45 am]

BILLING CODE 4810–33–P

[1] However, the OCC is not reporting an estimate for burden associated with the small business lending rule, given that, as the CFPB has noted, the rule is stayed: ''As a result of ongoing litigation, all deadlines for compliance with the small business lending rule currently are stayed for all covered financial institutions.'' CFPB, Small Business Lending under the Equal Credit Opportunity Act (Regulation B), available at *https://www.consumerfinance.gov/rules-policy/final-rules/small-business-lending-under-the-equal-credit-opportunity-act-regulation-b/.*

DEPARTMENT OF THE TREASURY

Agency Information Collection Activities; Submission for OMB Review; Comment Request; Multiple Financial Crimes Enforcement Network (FinCEN) Information Collection Requests

AGENCY: Financial Crimes Enforcement Network, Department of the Treasury.

ACTION: Notice.

SUMMARY: The Department of the Treasury, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other federal agencies to comment on proposed or continuing information collections, as required by the Paperwork Reduction Act of 1995.

DATES: Comments should be received on or before May 29, 2024 to be assured of consideration.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to *www.reginfo.gov/public/do/PRAMain.* Find this particular information collection by selecting ''Currently under 30-day Review—Open for Public Comments'' or by using the search function.

Copies of the submissions may be obtained from Melody Braswell by emailing *PRA@treasury.gov,* calling (202) 622–1035, or viewing the entire information collection request at *www.reginfo.gov.*

SUPPLEMENTARY INFORMATION:

Financial Crimes Enforcement Network (FinCEN)

1. Title: Reports Relating to Currency in Excess of $10,000 Received in a Trade or Business or Received as Bail by Court Clerks; Form 8300 (31 CFR 1010.330 and 31 CFR 1010.331).

OMB Control Number: 1506–0018.

Form Number: Form 8300.

Abstract: FinCEN is issuing this notice to renew the OMB control number for the Form 8300 and the regulations at 31 CFR 1010.330 and 31 CFR 1010.331.

Affected Public: Businesses or other for-profit institutions, and non-profit institutions.

Type of Review: Extension without change of a currently approved information collection.

Frequency: As required.

Estimated Number of Respondents: 35,000.

Estimated Total Annual Responses: 400,112.

Estimated Reporting and Recordkeeping Burden: 30 minutes.

Estimated Total Annual Reporting and Recordkeeping Burden: 200,056 hours.

2. Title: Administrative Rulings Regulations.

OMB Control Number: 1506–0050.

Abstract: FinCEN is issuing this notice to renew the OMB control number for the administrative ruling regulations.

Affected Public: Businesses or other for-profit institutions, non-profit institutions, and individuals.

Type of Review: Extension without change of a currently approved information collection.

Frequency: As required.

Estimated Number of Requests Annually: 44 requests.

Estimated Burden per Respondent/Request: 2 hours.

Estimated Recordkeeping Burden: 88 hours.

3. Title: Reports and Records of Certain Domestic Transactions.

OMB Control Number: 1506–0056.

Form Number: FinCEN will specify the form and method for reporting in the GTO.

Abstract: FinCEN is issuing this notice to renew the OMB control number for regulations permitting the issuance of orders, commonly referred to as GTOs, requiring reports and records of certain domestic transactions.

Affected Public: Businesses or other for-profit institutions, and non-profit institutions.

Type of Review: Renewal without change of a currently approved information collection.

Frequency: As required.

Estimated Number of Respondents: 709.

Estimated Total Annual Responses: 21,513.

Estimated Reporting and Recordkeeping Burden per Response: 45 minutes for reporting and 5 minutes for recordkeeping.

Estimated Total Annual Reporting and Recordkeeping Burden: 17,928 hours.

4. Title: Beneficial Ownership Requirements for Legal Entity Customers (31 CFR 1010.230).

OMB Control Number: 1506–0070.

Form Number: Appendix A to § 1010.230—Certification Regarding Beneficial Owners of Legal Entity Customers.

Abstract: FinCEN is issuing this notice to renew the OMB control number for the beneficial ownership requirements for legal entity customers regulations contained in 31 CFR 1010.230.

Affected Public: Business and other for-profit institutions and non-profit institutions.

Type of Review: Renewal without change of a currently approved information collection.

Frequency: As required.

Estimated Number of Respondents: 15,221.

Estimated Total Annual Responses: 5,723,096.

Estimated Recordkeeping Burden per Response: 80-minute average.

Estimated Total Annual Recordkeeping Burden: 7,615,574 hours.

Authority: 44 U.S.C. 3501 *et seq.*

Melody Braswell,

Treasury PRA Clearance Officer.

[FR Doc. 2024–09056 Filed 4–26–24; 8:45 am]

BILLING CODE 4810–02–P

DEPARTMENT OF THE TREASURY

Agency Information Collection Activities; Submission for OMB Review; Comment Request; Multiple Alcohol and Tobacco Tax and Trade Bureau Information Collection Requests

AGENCY: Departmental Offices, U.S. Department of the Treasury.

ACTION: Notice.

SUMMARY: The Department of the Treasury will submit the following information collection requests to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995, on or after the date of publication of this notice. The public is invited to submit comments on these requests.

DATES: Comments should be received on or before May 29, 2024 to be assured of consideration.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to *www.reginfo.gov/public/do/PRAMain.* Find this particular information collection by selecting ''Currently under 30-day Review—Open for Public Comments'' or by using the search function.

FOR FURTHER INFORMATION CONTACT: Copies of the submissions may be obtained from Melody Braswell by emailing *PRA@treasury.gov,* calling (202)-622–1035, or viewing the entire information collection request at *www.reginfo.gov.*

SUPPLEMENTARY INFORMATION:

Alcohol and Tobacco Tax and Trade Bureau (TTB)

1. OMB Control No. 1513–0019

Title: Application for Amended Permit under the Federal Alcohol Administration Act.

TTB Form Number: TTB F 5100.18.

Abstract: The Federal Alcohol Administration Act (FAA Act), at 27 U.S.C. 203, requires that persons apply for and receive a permit to: (1) Import distilled spirits, wine, or malt beverages into the United States; (2) distill spirits

or produce wine, rectify or blend distilled spirits or wine, or bottle and/or warehouse distilled spirits; or (3) purchase distilled spirits, wine, or malt beverages for resale at wholesale. The FAA Act, at 27 U.S.C. 204, also imposes certain requirements for such permits and authorizes the Secretary of the Treasury (the Secretary) to prescribe regulations for all permit applications. The TTB regulations in 27 CFR part 1 provide for the amendment of an existing permit using form TTB F 5100.18 when changes occur to the name, trade name, address, ownership, or control of the permitted business. The collected information allows TTB to determine if amended permit applicants meet the FAA Act's statutory eligibility criteria for a permit.

Current Actions: There are no program changes associated with this information collection, and TTB is submitting it for extension purposes only. As for adjustments, due to changes in agency estimates, TTB is increasing the estimated number of annual respondents, responses, and burden hours associated with this information collection.

Type of Review: Extension of a currently approved collection.

Affected Public: Businesses and other for-profits.

Number of Respondents: 14,000.

Average Responses per Respondent: 1 per year.

Number of Responses: 14,000.

Average per-Response Burden: 20.6 minutes.

Total Burden: 5,250 hours.

2. OMB Control No. 1513–0028

Title: Application for an Industrial Alcohol Under Permit.

TTB Form Number: TTB F 5150.22.

Abstract: The Internal Revenue Code (IRC) at 26 U.S.C. 5271 requires persons to obtain a permit before they: (1) Procure or use tax-free distilled spirits; (2) procure, deal in, or use specially denatured distilled spirits; or (3) recover specially denatured or completely denatured distilled spirits. That section also prescribes the reasons a permit may be denied or suspended. It also authorizes the Secretary to issue regulations regarding new and amended permit applications. Under that IRC authority, TTB has issued regulations regarding industrial alcohol user permits, which are contained in 27 CFR part 20, Distribution and Use of Denatured Alcohol and Rum, and 27 CFR part 22, Distribution and Use of Tax-Free Alcohol. Specifically, the TTB regulations require persons who desire to use tax-free alcohol withdraw or to deal in, use, or recover specially denatured alcohol (alcohol or rum) to apply for and receive an industrial alcohol user permit using TTB F 5150.22 before beginning such activities or when amending an existing permit. TTB uses the collected information to protect the revenue by determining the eligibility of the applicant to engage in operations involving industrial alcohol, the location of the proposed operations, and whether those operations will be conducted in compliance with Federal laws and regulations.

Current Actions: There are no program changes or adjustments associated with this information collection, and TTB is submitting it for extension purposes only.

Type of Review: Extension of a currently approved collection.

Affected Public: Businesses or other for-profits; State, local, and Tribal governments.

Number of Respondents: 4,000.

Average Responses per Respondent: 1 per year.

Number of Responses: 4,000.

Average per-Response Burden: 0.8 hours.

Total Burden: 3,040 hours.

3. OMB Control No. 1513–0033

Title: Report—Manufacturer of Tobacco Products or Cigarette Papers and Tubes; Report—Manufacturer of Processed Tobacco.

TTB Form Numbers: TTB F 5210.5; TTB F 5250.1.

Abstract: The IRC at 26 U.S.C. 5722 requires manufacturers of tobacco products, cigarette papers and tubes, and processed tobacco to make reports containing such information, in such form, at such times, and for such periods as the Secretary prescribes by regulation. The TTB regulations prescribe the use of TTB F 5210.5 to report information about tobacco products and cigarette papers and tubes manufactured, received, and removed each month, and the use of TTB F 5250.1 to report information about processed tobacco manufactured, received, and removed each month. TTB uses the collected information to determine whether the manufacturers of such articles are properly paying Federal excise taxes due and are in compliance with the applicable Federal law and regulations.

Current Actions: There are no program changes or adjustments associated with this information collection, and TTB is submitting it for extension purposes only.

Type of Review: Extension of a currently approved collection.

Affected Public: Businesses and other for-profits.

Number of Respondents: 235.

Average Responses per Respondent: 12 per year.

Number of Responses: 2,820.

Average per-Response Burden: 1 hour.

Total Burden: 2,820 hours.

4. OMB Control No. 1513–0034

Title: Schedule of Tobacco Products, Cigarette Papers, or Tubes Withdrawn from the Market.

TTB Form Number: TTB F 5200.7.

Abstract: The IRC at 26 U.S.C. 5705 provides that a manufacturer, importer, or export warehouse proprietor may receive credit for, or refund of, the Federal excise taxes paid on tobacco products, cigarette papers, or cigarette tubes withdrawn from the market upon providing satisfactory proof of the withdrawal. Under that IRC authority, the TTB regulations provide for the use of TTB F 5200.7 to identify tobacco products, cigarette papers, or cigarette tubes to be withdrawn from the market and the location of those articles. The form also documents the taxpayer's planned disposition of the articles (destroyed, reduced to materials, or returned to bond), and TTB's decision to witness or not witness that disposition. Taxpayers then file the completed form to support their subsequent claim for credit or refund of the excise taxes paid on the withdrawn articles. The collected information is necessary to protect the revenue as it allows TTB to determine if such claims are valid.

Current Actions: There are no program changes or adjustments associated with this information collection, and TTB is submitting it for extension purposes only.

Type of Review: Extension of a currently approved collection.

Affected Public: Businesses or other for-profits.

Number of Respondents: 50.

Average Responses per Respondent: 5 per year.

Number of Responses: 250.

Average per-Response Burden: 45 minutes.

Total Burden: 188 hours.

5. OMB Control No. 1513–0069

Title: Tobacco Products Manufacturers—Supporting Records for Removals for the Use of the United States.

Abstract: While tobacco products and cigarette papers and tubes made in the United States are generally subject to Federal excise under the IRC at 26 U.S.C. 5701, the IRC also provides at 26 U.S.C. 5704(b) that manufacturers may remove tobacco products and cigarette papers and tubes without payment of that tax ''for use of the United States''

under regulations issued by the Secretary. As such, the TTB regulations at 27 CFR 45.51 require manufacturers removing such articles for use of the United States to keep records documenting certain information, including the kind and quantity of articles removed or returned and the name and address of the receiving or returning Federal agency. The required records, which may consist of usual and customary commercial records such as invoices, are necessary to ensure that tobacco products and cigarette papers and tubes removed without payment of tax are delivered to a Federal agency for an authorized tax-exempt use.

Current Actions: There are no program changes or adjustments associated with this information collection, and TTB is submitting it for extension purposes only.

Type of Review: Extension of a currently approved collection.

Affected Public: Businesses and other for-profits.

Number of Respondents: 205.

Average Responses per Respondent: 1 per year.

Number of Responses: 205.

Average per-Response Burden: 1 hour.

Total Burden: 205 hours.

6. OMB Control No. 1513–0073

Title: Manufacturers of Nonbeverage Products—Records to Support Claims for Drawback.

TTB Recordkeeping Number: TTB REC 5530/2.

Abstract: While the IRC at 26 U.S.C. 5001 imposes Federal excise tax on distilled spirits produced or imported into the United States, sections 5111–5114 allow manufacturers of certain ''nonbeverage'' products—medicines, medicinal preparations, food products, flavors, flavoring extracts, or perfume—to claim drawback (refund) of all but $1.00 per proof gallon of the excise tax paid on the distilled spirits contained in or used in the production of such products. Under those IRC authorities, TTB has issued regulations in 27 CFR part 17 governing nonbeverage product drawback claims, which includes requirements to keep source records supporting such claims. The required records, which may consist of usual and customary business records, document the distilled spirits received, taxes paid, date and quantity used, amount of alcohol recovered, other ingredients received and used (to validate formula compliance), quantity of intermediate products transferred to other plants, and the disposition or purchaser of the products. The collected information is necessary to protect the revenue as it helps prevent payment of incorrect or fraudulent claims and the diversion to beverage use of distilled spirits subject to nonbeverage drawback.

Current Actions: There are no program changes associated with this information collection, and TTB is submitting it for extension purposes only. As for adjustments, due to changes in agency estimates, TTB is increasing the estimated number of annual respondents, responses, and burden hours associated with this information collection.

Type of Review: Extension of a currently approved collection.

Affected Public: Businesses or other for-profits.

Number of Respondents: 670.

Average Responses per Respondent: 1.

Number of Responses: 670.

Average per-Response Burden: 1 hour.

Total Burden: 670 hours.

7. OMB Control No. 1513–0075

Title: Proprietors or Claimants Exporting Liquors.

TTB Recordkeeping Number: TTB REC 5900/1.

Abstract: Under the IRC at 26 U.S.C. 5053, 5214, and 5362, distilled spirits, wine, and beer may be exported without payment of Federal excise tax. In addition, under the IRC at 26 U.S.C. 5055 and 5062, taxpaid distilled spirits, wine, and beer may be exported and the exporter may claim drawback (refund) on the excise taxes paid. Exporters must complete various TTB and Customs information collections to show that the products were in fact exported. Specific to this information collection, the TTB alcohol export regulations in 27 CFR part 28 require proprietors and drawback claimants to maintain for 3 years record copies of all pertinent forms and commercial records that document the exportation of non-taxpaid alcohol beverages and taxpaid alcohol beverages for which drawback will be claimed. The collected information is necessary to protect the revenue as it allows TTB to verify the exportation of untaxpaid alcohol beverages and taxpaid alcohol beverages on which drawback will be claimed.

Current Actions: There are no program changes or adjustments associated with this information collection, and TTB is submitting it for extension purposes only.

Type of Review: Extension of a currently approved collection.

Affected Public: Businesses or other for-profits.

Number of Respondents: 750.

Average Responses per Respondent: 1 per year.

Number of Responses: 750.

Average per-Response Burden: 1 hour.

Total Burden: 750 hours.

8. OMB Control No. 1513–0099

Title: Administrative Remedies—Requests for Closing Agreements.

Abstract: The IRC at 26 U.S.C. 7121 authorizes the Secretary to enter into a written agreement with any person, or their agent, relating to the liability of that person for any internal revenue tax for any taxable period. Under that authority, TTB has issued regulations pertaining to such ''closing agreements,'' which require a taxpayer or their agent to submit a written request to TTB to enter into such an agreement to resolve excise tax matters. TTB uses the information collected in the request and any attached supporting documentation to determine whether the Bureau should pursue a closing agreement with the taxpayer. Closing agreements allow TTB and a taxpayer to resolve tax liability matters prior to any adversarial legal or administrative proceedings.

Current Actions: There are no program changes or adjustments associated with this information collection, and TTB is submitting it for extension purposes only.

Type of Review: Extension of a currently approved collection.

Affected Public: Businesses and other for-profits.

Number of Respondents: 10.

Average Responses per Respondent: 1 (one).

Number of Responses: 10.

Average per-Response Burden: 1 hour.

Total Burden: 10 hours.

9. OMB Control No. 1513–0101

Title: Marks and Notices on Packages of Tobacco Products.

TTB Recordkeeping Number: TTB REC 5210/13.

Abstract: The IRC at 26 U.S.C. 5723(b) requires packages of tobacco products (cigars, cigarettes, smokeless tobacco (snuff and chewing tobacco), pipe tobacco, and roll-your-own tobacco) and cigarette paper or tubes to bear the marks and notices required by regulation. Under that authority, the TTB regulations in 27 CFR parts 40, 41, 44, and 45 require packages or, in certain cases, containers, of domestic and imported tobacco products and cigarette papers and tubes to bear certain marks identifying the product, its producer, place of production, excise tax class, and its quantity or weight, depending on the basis of the tax. The TTB regulations also require certain tax-exemption notices to appear on packages or shipping containers of tobacco products and cigarette papers or tubes intended for export or for use of

the United States as such articles may be removed without tax payment or with benefit of tax drawback. The required marks and notices are necessary to protect the revenue as they identify tobacco-related articles, the applicable Federal excise tax classification, and the responsible taxpayers, and help prevent the diversion of untaxed articles into the domestic market.

Current Actions: There are no program changes associated with this information collection, and TTB is submitting it for extension purposes only. As for adjustments, due to changes in agency estimates, TTB is decreasing the estimated number of annual respondents, responses, and burden hours associated with this information collection.

Type of Review: Extension of a currently approved collection.

Affected Public: Businesses and other for-profits.

Number of Respondents: 680.

Average Responses per Respondent: 1 per year.

Number of Responses: 680.

Average per-Response Burden: 1 hour.

Total Burden: 680 hours.

10. OMB Control No. 1513–0121

Title: Labeling of Major Food Allergens and Petitions for Exemption.

Abstract: The FAA Act at 27 U.S.C. 205(e) authorizes the Secretary to issue regulations regarding the labeling of distilled spirits, certain wines, and certain beers in order to, among other things, prohibit consumer deception and ensure that labels provide consumers with adequate information as to the identity and quality of such products. Under that authority, the TTB regulations provide for the voluntary labeling of major food allergens used in the production of alcohol beverages.[1] Under the TTB regulations, if an alcohol beverage bottler declares on the label that any one of these allergens are contained in a product or used in its production, the bottler must declare all such allergens, including those used as fining or processing agents. However, the regulations allow a bottler to petition TTB for a labeling exemption for an allergen if evidence shows that, while used in the product's production, it is not present in the finished product at levels that would pose a risk to human health. This information collection provides a consistent means through which bottlers can alert consumers sensitive to these major food allergens to their presence in finished alcohol beverages.

Current Actions: There are no program changes associated with this information collection, and TTB is submitting it for extension purposes only. As for adjustments, due to changes in agency estimates, TTB is increasing the estimated number of annual respondents, responses, and burden hours associated with this information collection.

Type of Review: Extension of a currently approved collection.

Affected Public: Businesses and other for-profits.

Number of Respondents: 40.

Average Responses per Respondent: 5 per year.

Number of Responses: 215.

Average per-Response Burden: 1 hour.

Total Burden: 240 hours.

Authority: 44 U.S.C. 3501 *et seq.*

Melody Braswell,

Treasury PRA Clearance Officer.

BILLING CODE 4810–31–P

DEPARTMENT OF VETERANS AFFAIRS

Response To Comments for The Department of Veterans Affairs To Assess the Scientific Literature and Claims Data Regarding Certain Medical Conditions Associated With Military Environmental Exposures

AGENCY: Department of Veterans Affairs.

ACTION: Response to comments.

SUMMARY: On July 26, 2023, the Department of Veterans Affairs (VA) published a notice soliciting public comment on its plan to assess the scientific literature and historical claims data regarding certain medical conditions (multiple myeloma, acute leukemias, and chronic leukemias) associated with military environmental exposures. On October 24, 2023, VA published a second notice announcing its intent to host a virtual public listening session on this topic on November 7, 2023. This third notice provides responses to the public comments received during the open comment period and public listening session.

FOR FURTHER INFORMATION CONTACT: Peter Rumm, MD, Director of Policy, Health Outcomes Military Exposures, Veterans Health Administration, Department of Veterans Affairs, 810 Vermont Avenue NW, Washington, DC 20420, 202–461–7297. (This is not a toll-free number.)

SUPPLEMENTARY INFORMATION: VA provided a 30-day comment period, which ended on August 25, 2023. Individuals or organizations submitted 26 comments to this first **Federal Register** Notice (FRN). Participation in the public listening session included 12 comments presented by speakers and 13 comments submitted using the chat feature during the meeting. The Veterans Health Administration's (VHA's) HOME Program Office received and responded to 357 emails from Veterans and made 8 telephone calls to address individual Veterans' potential military environmental exposure concerns for those who were unable to speak during the listening session due to time constraints.

Overall, comments supported VA's plan to assess the scientific literature and historical claims data regarding multiple myeloma, acute leukemias, and chronic leukemia associated with military environmental exposures although some discussed additional concerns. The 26 formal comments received during the 30-day comment period on the first FRN were grouped into 3 main categories, with some comments falling into more than one category:

- *Category 1*—Comments directly related to multiple myeloma, acute leukemias, and chronic leukemia: 18 out of 26 (69%). Notably, of the 18, 17 out of 18 (94%) of these comments expressed support for VA's plan to assess the scientific literature and historical claims data regarding certain medical conditions (multiple myeloma, acute leukemias, and chronic leukemias) associated with military environmental exposures.
  - More comments were received specifically supportive of multiple myeloma versus the leukemias.
  - There was only 1 non-supportive comment out of 18 (under 6%).
- *Category 2*—Comments pertaining to additional locations: 8 out of 26 (31%) comments suggested VA consider presumptions for locations outside Gulf War and southwest Asia locations that are covered by the Sergeant First Class Heath Robinson Honoring our Promise to Address Comprehensive Toxics (PACT) Act.
- *Category 3*—Comments pertaining to additional conditions: 7 out of 26 (27%) comments suggested various conditions for future review.

VA thanks the commenters and attendees for their support and comments. To expand upon the comments in more detail, participants suggested that VA include additional conditions (*e.g.,* neurologic conditions, sleep apnea, hypertension, chronic multi-symptom illness, and immune disorders) to be considered for association with exposure from burn pits and other toxic substances (*e.g.,*

benzene, formaldehyde, dioxin, and heavy metals) present on post-9/11 deployments in addition to the PACT Act established categories of presumptive conditions. Other deployments, including burn pits or other toxins in Vietnam (see also below) were mentioned. Commenters also noted a preference for additional locations (*e.g.,* Naval Air Facility Atsugi, Japan, Vietnam, Haiti, Honduras, Panama, and Bosnia) to be considered for toxic exposure, as well as various military bases or garrisons. Finally, some participants expressed a desire for more public input into the VA decision-making process.

Senior VA leadership attended the November 7, 2023, WEBEX virtual public listening session. After Mr. Josh Jacobs, Under Secretary for Benefits (USB), provided opening remarks, Dr. Patricia Hastings, Chief Consultant HOME, delivered a presentation on the revised presumptive decision process. Twelve representatives from Veterans Service Organizations, academia, and the Veteran community expressed their views and comments during the session. In addition to the 12 speakers, the chat feature within WEBEX recorded an additional 13 comments. Dr. Shereef Elnahal, Under Secretary for Health (USH), provided closing remarks and emphasized VA and Congress' interest in responding to the public's instructive and important comments. USB Jacobs and USH Elnahal expressed appreciation for the public's participation in this process.

The listening session allowed VA to be proactive in its approach to improve care, treatment, and benefits for toxic-exposed Veterans, and consider areas of public interest regarding current or planned research of potential presumptive conditions. During the listening session, most comments fell into the additional location and conditions categories. Several comments supported future study and potential recognition of sleep apnea as a presumptive condition. Listeners were assured that additional locations and conditions are continuously monitored and may be presented for a formal review in the future. HOME and Veterans Benefits Administration (VBA) Military Exposures Team staff members communicated with participants who raised specific questions during the session.

VBA's compensation disability evaluation and rating system is complex, as is the arena of military environmental exposures. Some comments indicated misunderstandings of the VA's benefits system and decision-making process. Additional evidence of misunderstandings regarding VHA in areas such as the impact of vaccines and chemical exposures were also expressed. To limit misunderstanding, VBA and VHA are expanding outreach efforts each year to enhance understanding of Veteran health and benefits systems.

Moving Forward

VA continues to review and assess information about military environmental exposure incidents, emerging scientific evidence regarding toxic substances, and health outcomes in deployed and non-deployed cohorts. Additionally, active epidemiological surveillance and ongoing monitoring of military exposures in collaboration with the Department of Defense is ongoing. VA's involvement in surveillance, monitoring, and research covers a wide variety of areas. When a scientific review concludes that there is a statistically significant signal or possible association between military environment exposure and health outcomes, this may trigger an investigation that may lead to additional research or may be subject to an FRN and comment process required under section 202 of the PACT Act. Additional notices of this type will be published as VA reviews conditions and their possible association with military environmental exposures to provide health care, services, and benefits to Veterans entitled to them. VA has considered the issues presented by commenters and decided to conduct a scientific review of multiple myeloma and chronic and acute leukemias, taking into account the latest scientific classification schemes for blood cancers and scientific evidence regarding shared etiologies. VA will follow the procedures in 38 U.S.C. 1172–1174 for initiating and conducting assessments and formal evaluations. VA has designated a Technical Working Group (TWG) to assess cases of the toxic exposure of Veterans and their dependents pursuant to 38 U.S.C. 1172(c). The TWG may develop a recommendation for formal evaluation under 38 U.S.C. 1173, pursuant to 38 U.S.C. 1172(d). Once a formal evaluation begins, a recommendation to establish or modify a presumption of service connection must be submitted to the Secretary within 120 days per 38 U.S.C. 1173(d). Within 160 days of receiving the recommendation to establish or modify a presumption of service connection, the Secretary must determine whether a presumption is warranted per 38 U.S.C. 1174(a). This may include commencing rulemaking to establish or modify presumptions for some or all of the conditions formally evaluated and/or publishing notice in the FRN of any determination that establishment or modification of a presumption or presumptions are unwarranted for some or all of the conditions that were subject to the formal evaluation.

Signing Authority

Denis McDonough, Secretary of Veterans Affairs, approved and signed this document on April 17, 2024, and authorized the undersigned to sign and submit the document to the Office of the Federal Register for publication electronically as an official document of the Department of Veterans Affairs.

Jeffrey M. Martin,

Assistant Director, Office of Regulation Policy & Management, Office of General Counsel, Department of Veterans Affairs.

BILLING CODE 8320–01–P

FEDERAL REGISTER

Vol. 89 Monday,
No. 83 April 29, 2024

Part II

Department of Education

34 CFR Part 106
Nondiscrimination on the Basis of Sex in Education Programs or Activities Receiving Federal Financial Assistance; Final Rule

DEPARTMENT OF EDUCATION

34 CFR Part 106

[Docket ID ED–2021–OCR–0166]

RIN 1870–AA16

Nondiscrimination on the Basis of Sex in Education Programs or Activities Receiving Federal Financial Assistance

AGENCY: Office for Civil Rights, Department of Education.

ACTION: Final rule.

SUMMARY: The U.S. Department of Education (Department) amends the regulations implementing Title IX of the Education Amendments of 1972 (Title IX). The purpose of these amendments is to better align the Title IX regulatory requirements with Title IX's nondiscrimination mandate. These amendments clarify the scope and application of Title IX and the obligations of recipients of Federal financial assistance from the Department, including elementary schools, secondary schools, postsecondary institutions, and other recipients (referred to below as ''recipients'' or ''schools'') to provide an educational environment free from discrimination on the basis of sex, including through responding to incidents of sex discrimination. These final regulations will enable all recipients to meet their obligations to comply with Title IX while providing them with appropriate discretion and flexibility to account for variations in school size, student populations, and administrative structures.

DATES: These final regulations are effective August 1, 2024.

FOR FURTHER INFORMATION CONTACT: Randolph Wills, U.S. Department of Education, 400 Maryland Avenue SW, Fifth Floor, Washington, DC 20202. Telephone: (917) 284–1982. Email: *randolph.wills@ed.gov.* If you are deaf, hard of hearing, or have a speech disability and wish to access telecommunications relay services, please dial 7–1–1.

SUPPLEMENTARY INFORMATION:

Table of Contents

Table of Contents

Effective Date

As detailed more extensively below, the Department recognizes the practical necessity of allowing recipients of Federal financial assistance time to plan for implementing these final regulations. Taking into account the need for the time to plan, as well as consideration of public comments about an effective date as explained in the discussion of Effective Date and Retroactivity (Section VII.F), the Department has determined that these final regulations are effective August 1, 2024.

Executive Summary

1. Purpose of This Regulatory Action

Enacted in 1972, Title IX states that ''No person in the United States shall, on the basis of sex, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any education program or activity receiving Federal financial assistance,'' absent certain exceptions. 20 U.S.C. 1681.[1] The U.S. Department of Education (the ''Department'' or ''we'') has authority to issue rules effectuating this prohibition on sex discrimination consistent with the objectives of the statute. 20 U.S.C. 1682. The history of the Title IX regulations is described in the preamble to the 2020 amendments to the Title IX regulations. 85 FR 30026, 30028 (May 19, 2020) (hereinafter ''the 2020 amendments''); *see also* 87 FR 41390, 41393–95 (July 12, 2022). The 2020 amendments specify how a recipient[2] must respond to sexual harassment, and the preamble to the 2020 amendments acknowledged that the regulations issued under the 2020 amendments represented a partial change from the way the Department had enforced Title IX with respect to recipients' duties to respond to sexual harassment prior to the 2020 amendments. 85 FR 30068.

Based on an extensive review of the 2020 amendments, information including stakeholder feedback received prior to the issuance of the notice of proposed rulemaking (the ''July 2022 NPRM,'' 87 FR 41390 (July 12, 2022)), and consideration of public comments on the July 2022 NPRM, the Department has determined that amendments are required to fully effectuate Title IX's sex discrimination prohibition. Even if these amendments are not strictly required to effectuate the prohibition, the Department has, in the exercise of its discretion, determined that they further Title IX's prohibition on sex discrimination. The Department therefore issues these final regulations to provide greater clarity regarding: the definition of ''sex-based harassment''; the scope of sex discrimination, including recipients' obligations not to discriminate based on sex stereotypes, sex characteristics, pregnancy or related conditions, sexual orientation, and gender identity; and recipients' obligations to provide an educational environment free from discrimination on the basis of sex. Additionally, these regulations aim to fulfill Title IX's protection for students, teachers, and other employees in federally funded elementary schools and secondary schools and postsecondary institutions against all forms of sex discrimination, including sex-based harassment and sexual violence. The final regulations will help to ensure that all students receive appropriate support when they experience sex discrimination and that recipients' procedures for investigating and resolving complaints of sex discrimination are fair to all involved. These final regulations also better account for the variety of recipients and education programs or activities covered by Title IX and provide discretion and flexibility for recipients to account for variations in school size, student populations, and administrative structures.

These regulations:

- Require recipients to adopt grievance procedures that provide for fair, prompt, and equitable resolution of complaints of sex discrimination and to take other necessary steps to provide an educational environment free from sex discrimination;
- Clarify that Title IX's prohibition on sex discrimination includes sex-based harassment in the form of quid pro quo harassment, hostile environment harassment, and four specific offenses (sexual assault, dating violence, domestic violence, and stalking); and
- Clarify that sex discrimination includes discrimination on the basis of sex stereotypes, sex characteristics, pregnancy or related conditions, sexual orientation, and gender identity.

2. Summary of the Major Provisions of This Regulatory Action

With regard to sex-based harassment, the final regulations:

- Define ''sex-based harassment'' as a form of sex discrimination that includes sexual harassment and harassment based on sex stereotypes, sex characteristics, pregnancy or related conditions, sexual orientation, or gender identity, that is quid pro quo harassment, hostile environment harassment, or one of four specific offenses referenced in the Jeanne Clery Disclosure of Campus Security Policy and Campus Crimes Statistics Act (''Clery Act'') as amended by the Violence Against Women Reauthorization Act of 2013;
- Provide and clarify definitions of various terms related to a recipient's obligations to address sex discrimination, including sex-based harassment;
- Clarify a recipient's required response to sex discrimination, including sex-based harassment, in its education program or activity;

[1] The definition of the term ''Federal financial assistance'' under the Department's Title IX regulations is not limited to monetary assistance, but encompasses various types of in-kind assistance, such as a grant or loan of real or personal property, or provision of the services of Federal personnel. *See* 34 CFR 106.2(g). Throughout this preamble, terms such as ''Federal funding,'' ''Federal funds,'' and ''federally funded'' are used to refer to ''Federal financial assistance,'' and are not meant to limit application of the statute or its implementing regulations to recipients of certain types of Federal financial assistance.

[2] Throughout this preamble, ''recipient'' is used to refer to a recipient of Federal financial assistance from the Department.

• Strengthen a recipient's obligations to provide prompt and equitable grievance procedures and to take other necessary steps when it receives a complaint of sex discrimination, including sex-based harassment; and

• Provide for additional requirements in grievance procedures at postsecondary institutions for complaints of sex-based harassment involving a student complainant (a student who is alleged to have been subjected to conduct that could constitute sex discrimination) or student respondent (a student who is alleged to have violated the recipient's prohibition on sex discrimination).

With regard to discrimination against individuals who are pregnant or parenting, the final regulations:

• Define the terms ''pregnancy or related conditions'' and ''parental status'';

• Clarify the prohibition on discrimination against students and applicants for admission and employees or applicants for employment on the basis of current, potential, or past pregnancy or related conditions; and

• Clarify a recipient's obligations to students and employees who are pregnant or experiencing pregnancy-related conditions.

In addition, the final regulations:

• Clarify and streamline administrative requirements with respect to designating a Title IX Coordinator, disseminating a nondiscrimination notice, adopting grievance procedures, and maintaining records;

• Specify that a recipient must train a range of relevant persons on the recipient's obligations under Title IX;

• Clarify that, except as permitted by certain provisions of Title IX or the regulations, a recipient must not carry out any otherwise permissible different treatment or separation on the basis of sex in a way that would cause more than de minimis harm, including by adopting a policy or engaging in a practice that prevents a person from participating in an education program or activity consistent with their gender identity; and

• Clarify a recipient's obligation to address retaliation.

Timing, Comments, and Changes

On July 12, 2022, the Department published the July 2022 NPRM in the **Federal Register** to amend regulations implementing Title IX. 87 FR 41390.

The Department invited the public to comment on all aspects of the proposed regulations, as well as the *Regulatory Impact Analysis.* The July 2022 NPRM also included several directed questions. 87 FR 41544. Comments in response to directed questions are addressed in this preamble in connection with the relevant regulatory section.

In response to our invitation in the July 2022 NPRM, we received more than 240,000 comments on the proposed regulations. The final regulations contain changes from the July 2022 NPRM, and these changes are fully explained throughout the discussion in this preamble. We discuss substantive issues raised in the comments under topical headings, and by the sections of the final regulations to which they pertain, including an analysis of the public comments and changes in the final regulations since the publication of the July 2022 NPRM. Generally, we do not address technical and other minor changes (such as renumbering paragraphs, adding a word, or typographical errors).

Throughout this preamble, the Department refers to Title IX of the Education Amendments of 1972, 20 U.S.C. 1681, 1682, 1683, 1685, 1686, 1687, 1688, 1689, as amended, as ''Title IX,'' to the Individuals with Disabilities Education Act, 20 U.S.C. 1400 *et seq.,* as the ''IDEA,'' to Section 504 of the Rehabilitation Act of 1973, 29 U.S.C. 701 *et seq.,* as ''Section 504,'' to the Americans with Disabilities Act, 42 U.S.C. 12101 *et seq.,* as the ''ADA,'' to Title VI of the Civil Rights Act of 1964, 42 U.S.C. 2000d *et seq.,* as ''Title VI,'' to Title VII of the Civil Rights Act of 1964, 42 U.S.C. 2000e *et seq.,* as ''Title VII,'' to section 444 of the General Education Provisions Act (GEPA), 20 U.S.C. 1232g, which is commonly referred to as the Family Educational Rights and Privacy Act of 1974, as ''FERPA,'' to the Health Insurance Portability and Accountability Act of 1996, 42 U.S.C. 1320d *et seq.,* as ''HIPAA,'' to the Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act, 20 U.S.C. 1092(f), as the ''Clery Act,'' to the Violence Against Women Reauthorization Act of 2013, Public Law 113–4 (codified as amended throughout the U.S. code), as ''VAWA 2013,'' and to the Violence Against Women Act Reauthorization Act of 2022, Public Law 117–103 (codified as amended throughout the U.S. Code), as ''VAWA 2022.'' In 2013, the Clery Act was amended by VAWA 2013. *See* Public Law 113–4. In 2014, the Department amended the Clery Act regulations at 34 CFR 668.46 to implement the statutory changes to the Clery Act made by VAWA 2013. *See* 79 FR 62752 (Oct. 20, 2014). The regulations took effect on July 1, 2015. Throughout this preamble, references to the Clery Act mean the Clery Act as amended by VAWA 2013.

These final regulations interpret the Title IX statute consistent with the Department's authority under 20 U.S.C. 1682. Throughout the preamble, we refer to ''this part,'' meaning 34 CFR part 106. These regulations' prohibitions on sex discrimination are coextensive with the statute, and any use of ''and this part'' or ''or this part'' should be construed consistent with the fact that the final regulations interpret the statute. The Department has revised the regulatory text to clarify, as appropriate.

Throughout the preamble, the Department references statistics, data, research, and studies that commenters provided in response to the July 2022 NPRM. The Department's reference to these items, however, does not necessarily speak to their accuracy. The preamble also breaks up its discussion in several places as ''Comments,'' ''Discussion,'' and ''Changes.'' This structure is for readability, and the omission of a reference to a comment in the ''Comments'' section does not mean that a significant, relevant comment is not addressed in the ''Discussion'' section.

The final regulations define and apply the terms ''party,'' ''complainant,'' and ''respondent.'' In this preamble, ''complainant'' generally means a person who is alleged to have been subjected to conduct that could constitute sex discrimination, ''respondent'' means a person who is alleged to have violated the recipient's prohibition on sex discrimination, and ''party'' means a complainant or a respondent. *See* § 106.2. References in this preamble to a party, complainant, respondent, or other individual with respect to exercise of rights under Title IX should be understood to include situations in which a parent, guardian, or other authorized legal representative exercises a legal right to act on behalf of the individual. *See* § 106.6(g).

Many commenters referenced the impact of sex discrimination or the proposed regulations on individuals who belong to, or identify with, certain demographic groups, and used a variety of acronyms and phrases to describe such individuals. For consistency, throughout this preamble we generally use the term ''LGBTQI+'' to refer to people who are lesbian, gay, bisexual, transgender, queer, questioning, asexual, intersex, nonbinary, or describe their sex characteristics, sexual orientation, or gender identity in another similar way. When referring to some outside resources or past Department of Education, Office for Civil Rights (OCR) guidance documents,

this preamble also uses variations of the LGBTQI+ acronym to track the content of those documents, as appropriate.

In response to commenters who asked for clarification as to whether the definitions in § 106.2 apply to a term in a specific regulatory provision, some of the regulatory provisions specifically refer to a term ''as defined in § 106.2'' to provide additional clarity. Notwithstanding these points of additional clarification in certain regulatory provisions, the definitions in § 106.2 apply to the entirety of 34 CFR part 106. For consistency, references in this preamble are to the provisions as numbered in the final, and not the proposed, regulations. Citations to ''34 CFR 106.'' are citations to the Department's preexisting regulations and not these final regulations.

Analysis of Comments and Changes

An analysis of the public comments and changes in the final regulations since the publication of the July 2022 NPRM follows.

I. Provisions of General Applicability

A. Personal Stories

Numerous commenters shared personal stories with the Department. These comments have been organized into three categories, and the discussion of all of these comments follows.

1. Experiences Relating to Title IX Grievance Procedures

Comments: Numerous commenters shared with the Department experiences they have had as complainants or respondents, people supporting complainants or respondents, or persons or institutions involved in Title IX grievance procedures.

Relating to complainants, such personal experiences included the following:

- A wide variety of people from many backgrounds and identities shared their stories as individuals who experienced sexual harassment and assault, whether or not the incident became the subject of a Title IX complaint. A number of personal stories generally recounted sexual harassment and assault incidents impacting undergraduate and graduate students and university faculty at public and private postsecondary institutions.
- Other commenters shared stories as individuals who knew complainants and witnessed the sexual harassment and assault, its aftermath, and the Title IX grievance procedures. These commenters included family members, friends and peers of the complainants, student advocates, faculty and administrators, and individuals participating in the Title IX grievance procedures.
- Commenters described sexual harassment and assault by a wide variety of individuals. These included classmates, professors and faculty, student athletes, intimate partners and ex-partners, friends, and stalkers.
- Commenters described sexual harassment and assault, their decision to engage with the Title IX grievance procedures, and their experience with sexual harassment and assault from prior to and after Title IX was enacted, prior to and after the U.S. Dep't of Educ., Office for Civil Rights, Dear Colleague Letter: Sexual Violence (Apr. 4, 2011) (rescinded in 2017) (2011 Dear Colleague Letter on Sexual Violence); U.S. Dep't of Educ., Office for Civil Rights, Questions and Answers on Title IX and Sexual Violence (Apr. 29, 2014) (rescinded in 2017) (2014 Q&A on Sexual Violence), *https://www2.ed.gov/about/offices/list/ocr/letters/colleague-201104.pdf;* and U.S. Dep't of Educ., Office for Civil Rights, Questions and Answers on Campus Sexual Misconduct (Sept. 2017) (rescinded in 2020) (2017 Q&A on Campus Sexual Misconduct), and prior to and after the 2020 amendments, *https://www2.ed.gov/about/offices/list/ocr/docs/qa-title-ix-201709.pdf.*
- The Department received comments from individuals who described a range of traumatic incidents, including inappropriate and harassing behaviors, unwanted touching, stalking, incidents of rape or attempted rape, and longer-term emotionally and sexually coercive or intimidating interactions.
- The Department received comments from individuals who did not report their experiences for various reasons, including because they feared that no one would believe them, did not know whom to report to or the process for reporting, felt frustrated by a lack of response, or did not want to relive the experience.
- The Department received comments from individuals about the many detrimental effects that sexual harassment and assault can have on complainants. Individuals described the physical, emotional, and mental impacts of sexual harassment and assault, including feeling afraid to attend their postsecondary institution and suffering mental health symptoms such as post-traumatic stress disorder (PTSD) and suicidality. Individuals also described the educational impacts of sexual harassment and assault, including the inability to complete class assignments, dropping classes, changing majors or leaving areas of study, transferring schools, or leaving school altogether.
- The Department received comments from complainants who, following the Title IX grievance procedures, felt that recipients did not hold respondents accountable, or who were reprimanded or faced repercussions for openly discussing their experiences and naming the respondents.
- The Department also received stories from individuals about the dynamics of sexual assault and harassment in which individuals in positions of authority, including professors, faculty, or staff, repeatedly harassed or assaulted individuals, sometimes with the recipient's knowledge, and without meaningful action by the recipient to prevent continued abuse or conduct investigations into wrongdoing.
- The Department received numerous comments from complainants who shared their views that the current Title IX system and its implementation by recipients is not protecting individuals from sexual harassment and assault or delivering justice for complainants and is instead perpetuating the harm. Commenters shared that they: had been failed by the system by being forced to relive their trauma through the Title IX grievance procedures, while being offered few protections; had faced a lack of resources for student complainants; and had encountered widespread systemic shortcomings and institutional negligence. Commenters stated that, in their experience, the Title IX grievance procedures put complainants in danger, disrupted their education, and allowed recipients to ignore their concerns, rather than work with complainants to address campus safety issues.
- The Department received comments from complainants about the importance of Title IX in investigating complaints of sexual assault and providing relief that may not be available in the criminal justice system, but who said the 2020 amendments failed them. Some commenters shared that the 2020 amendments fail to protect complainants because they require cross-examination for postsecondary institutions, the process can be very lengthy, and other factors, such as the definition of sexual harassment, make it harder for complainants to come forward. Other commenters shared that the Title IX grievance procedures allow for separately tracked investigations into the same individual, without complainants' knowledge, making it more difficult to show an individual's pattern of misconduct.
- The Department also received comments from complainants specific to how their schools handled the Title IX grievance procedures. Complainants

shared their experiences on interactions with Title IX offices that, they felt, were mismanaged, left them feeling alienated and silenced, and further harmed their ability to access their educational opportunities. The Department received comments about Title IX offices that did not inform complainants about available resources, interviewed complainants in an inappropriate manner, and pushed complainants toward informal resolutions, despite their stated wish to pursue a formal hearing. Some commenters shared that student and staff efforts to improve the Title IX grievance procedures on campus and enhance complainant resources were rebuffed by administrators. Some commenters shared that because of their school's handling of their Title IX investigation, they no longer felt safe or welcome in higher education and had either dropped out of college or changed their plans for graduate education or careers in academia.

- The Department received comments from complainants from student populations who already face challenges to their education, or face discrimination on campus, and about the specific burdens faced by those populations. Commenters who experience certain mental illnesses shared their particular susceptibility to coercive behaviors by their assailants, both during and after their assaults, and how their existing medical conditions made it harder both to be taken seriously by investigators and to recover enough to successfully engage in their educational experience. Other commenters, complainants who identify as LGBTQI+, shared that their Title IX investigators and school administrators did not take their complaints seriously and that the entire experience made them want to leave school.

Relating to respondents, commenters reported personal experiences that included the following:

- A variety of people shared their stories as respondents. Commenters included respondents who were postsecondary institution faculty and students, as well as friends, acquaintances, and family of respondents. The personal stories recounted the impact of Title IX investigations on the respondents when they were undergraduate and graduate students and university faculty at public and private postsecondary institutions.
- Other commenters shared the negative consequences that an allegation of sexual harassment and assault can have on respondents, whether or not they are formally disciplined or found responsible at the conclusion of the grievance procedures. Commenters shared how such allegations can negatively impact someone's life, leave them with mental anguish and a tarnished record, and negatively impact their educational future and career opportunities.
- The Department received some comments from individuals who expressed concern that the Title IX grievance procedures were generally unfair to respondents. Some commenters were concerned that investigators in certain Title IX investigations presume that the respondent was guilty, no matter the evidence.
- The Department also received comments from individuals who expressed concern that the Title IX grievance procedures allow for false accusations. Some commenters shared that they knew multiple respondents who were involved in situations in which the complainants had originally initiated physical intimacy to start a relationship and only brought complaints when that did not materialize. Others expressed their views that complainants sometimes do not tell the truth and make up accusations to resolve personal disputes. Others expressed frustration that what they viewed as normal sexual exploration was being misconstrued as sexual assault.
- The Department received comments from respondents who were forced to leave postsecondary institution faculty positions as part of settlements for investigations that they felt were unfair and based on misconstrued or fabricated facts. Commenters who were respondents said they felt coerced into signing settlement agreements because they did not have the emotional or financial capability to continue to defend themselves.

2. Experiences Relating to Pregnancy

Comments: Several commenters shared with the Department experiences they have had with respect to pregnancy.

Some commenters shared stories of students who experienced discrimination based on pregnancy or related conditions and lactation. One commenter shared the experience of someone who was excluded from school activities due to pregnancy and was required to attend a different school farther away, without transportation. The commenter noted that if the proposed regulations had been in place, the student would have understood her rights and more could have been done to protect her right to continue her education at the original school. One commenter mentioned a student who considered quitting school due to lack of an appropriate lactation space. The commenter referred to another student whose school denied lactation breaks entirely, causing the student to lose her milk supply. Another commenter shared a personal experience supporting a high school student whose academic honors designation was revoked because of rumors that she terminated a pregnancy. Some commenters stated that they were never informed of their rights as pregnant and parenting students under Title IX, including available supports for the healthcare needs of pregnant women. Some commenters described experiences of pregnancy-based harassment, noting that students who become pregnant are often subjected to unwanted sexual attention, shame, and even punishment. Other commenters supported strengthened protection for pregnant employees, sharing experiences of their own, or of friends or co-workers who experienced employment problems, such as a termination of employment due to difficulties related to pregnancy.

3. Experiences Relating to Sexual Orientation and Gender Identity

Comments: The Department received numerous comments in support of and in opposition to the July 2022 NPRM's clarification of the application of Title IX's prohibition on sex discrimination to discrimination based on sexual orientation and gender identity.

In support of the clarification that Title IX prohibits discrimination based on sexual orientation and gender identity, commenters shared personal experiences including the following:

- Commenters from more than 40 States in all regions of the United States and in communities across the political spectrum shared their experiences as members of the LGBTQI+ community, or as parents, teachers, and friends of LGBTQI+ individuals. They described bullying and harassment of students based on sexual orientation and gender identity that ranged from single interactions with peers to systemic concerns such as constant verbal harassment, bullying, and threats of physical violence that are often ignored or excused by recipients from early elementary school through graduate school.
  - Some parents expressed concern that recipients do not understand the importance of a safe educational environment. Other parents expressed gratitude for the life-changing impact schools that prevent and meaningfully address incidents of harassment and bullying have on LGBTQI+ students.

○ Teachers shared their experiences supporting LGBTQI+ students in educational environments that do not support or encourage all students, which they stated impacts the ability of LGBTQI+ students to thrive and academically succeed.

○ School counselors shared their experiences providing academic and mental health supports to LGBTQI+ students being bullied or experiencing harassment and discrimination. Counselors stressed that supportive adults and educational environments can save LGBTQI+ students' lives.

• LGBTQI+ students and their parents and teachers shared that harassment, bullying, and threats of physical violence leave students in constant fear, cause social anxiety and stress disorders, and too frequently result in suicidality. Some students who identify as LGBTQI+ and as part of a racial or ethnic minority group or as a student with a disability discussed feeling pressure to hide their identity, which led them to avoid reporting harassment or discrimination that occurs at school.

• A number of commenters living in districts or States where local government has discussed or enacted bills that limit the rights of LGBTQI+ people, shared how these actions negatively impact the mental well-being and academic experience of LGBTQI+ students.

• Many commenters shared experiences unique to nonbinary and transgender students.

○ Commenters who identified as nonbinary or transgender shared their experiences being threatened and physically attacked and explained the lasting anxiety and fear that those experiences cause in addition to the significant impact such experiences have on their ability to engage academically.

○ Transgender students shared being forced to use school facilities that do not align with their gender identity, feeling unsafe using the facilities, or not having access to gender neutral facilities.

○ Commenters asserted that a safe educational environment for nonbinary and transgender students is a matter of life or death. Many transgender students shared that they or their friends had attempted suicide because of the discrimination and harassment they had experienced.

○ Transgender students in school districts that they viewed as supportive shared the positive impact such schools have on their social, emotional, and academic well-being.

In opposition to clarification that Title IX prohibits discrimination based on sexual orientation and gender identity, commenters described personal experiences including the following:

• Many commenters asked that Title IX focus only on ensuring cisgender girls and women have equal access to education.

○ Two grandmothers shared their memories of being forced to fundraise for basic sports equipment and being told not to pursue certain careers because they were girls.

○ Another grandmother who worked with pregnant and parenting teens shared her experience witnessing these students face significant obstacles and prejudices. Both she and a minister who has worked with women who have experienced sex discrimination, including sexual assault, expressed concern that the proposed regulations would, in their view, harm many cisgender women and their futures.

○ Some commenters worried that the proposed regulations would negatively impact the developmental progress of their children.

• Some commenters expressed concern that the proposed regulations would negatively impact parents and families.

○ Commenters, including grandparents and parents, shared their families' experiences with different educational environments, and expressed general concern that the proposed regulations would, in their view, interfere in the personal lives of families.

○ Other commenters expressed concern that the proposed regulations would diminish the role of parents in helping children make decisions.

• Some commenters expressed concern that cisgender students experience discomfort at school when they are required to participate in activities and share facilities with transgender students.

Discussion: The Department appreciates the time and effort spent by commenters who shared their personal experiences. The Department thoughtfully and respectfully considered all of the personal experiences, including of the many individuals who: have experienced sex-based harassment and been complainants in Title IX grievance procedures; have been respondents in Title IX grievance procedures; have looked to their elementary schools, secondary schools, and postsecondary institutions for support following sex-based harassment and for prompt and equitable grievance procedures that are fair to all involved; have experienced pregnancy or related conditions; have worked with a parenting student; have experienced discrimination based on sexual orientation and gender identity; have a variety of viewpoints regarding sexual orientation and gender identity; and have supported or witnessed other individuals having such personal experiences.

Many of the stories shared in the comments echo and expand upon themes that the Department heard through the June 2021 nationwide virtual public hearing on Title IX (June 2021 Title IX Public Hearing) and in listening sessions and stakeholder meetings held in 2021 and 2022. As the Department explained in the July 2022 NPRM, the overarching goal of the proposed regulations was to ensure that no person experiences sex discrimination in education programs or activities that receive Federal financial assistance. *See* 87 FR 41396. The Department prepared the July 2022 NPRM with that goal in mind to assist recipients in implementing Title IX's nondiscrimination mandate fully and fairly in their educational environments, including with procedures for responding to complaints of sex discrimination that are prompt and equitable for all participants. *See id.* As a result of the robust public comment process, including from individuals personally affected by these issues, these final regulations even better reflect this goal.

Changes: Specific changes made to the proposed regulations are described in the applicable sections of this preamble.

B. Purpose

1. Section 106.1 Purpose

Comments: One commenter expressed general support for proposed § 106.1. Another commenter asked the Department to consider removing ''(with certain exceptions)'' from proposed § 106.1 to more forcefully state the purpose of Title IX. Another commenter urged the Department not to remove ''of the Education Amendments of 1972'' from current § 106.1 because there are other Federal laws named ''Title IX.''

Another commenter objected to the language in proposed § 106.1 that states ''whether or not such program or activity is offered or sponsored by an educational institution as defined in this part,'' arguing that this would cover conduct outside of the educational context and exceed the scope of Title IX.

Discussion: The Department declines the commenter's suggestion to remove the reference to Title IX's exceptions from § 106.1 because those exceptions are an important component of the statute. *See* 20 U.S.C. 1681(a)(1)–(9). The Department also declines the

commenter's suggestion to use Title IX's full name in this section. The term ''Title IX'' is defined in § 106.2 to include the original statute and subsequent amendments, which are also relevant to Title IX's purpose. Further, the risk is low that the public will confuse a reference to ''Title IX'' in the Department's Title IX regulations with another Federal law.

The Department disagrees with the commenter who objected to language in § 106.1 recognizing that Title IX applies to recipients other than educational institutions. This language has been in the purpose section of the regulations since the regulations were first issued in 1975 and reflects the fact that recipients that are not educational institutions (*e.g.,* libraries, hospitals) also offer education programs and activities, and those education programs and activities are covered by Title IX. *See* 20 U.S.C. 1681(a) (providing that Title IX's prohibition on sex discrimination applies to ''any education program or activity receiving Federal financial assistance''); 20 U.S.C. 1687 (defining ''program or activity'' to include ''a department, agency, special purpose district, or other instrumentality of a State or a local government''); *see also* U.S. Dep't of Health, Educ., & Welfare, Final Rule: Nondiscrimination on the Basis of Sex In Education Programs and Activities Receiving or Benefiting from Federal Financial Assistance, 40 FR 24128, 24137 (June 4, 1975).

Changes: None.

C. Definitions [3]

1. Section 106.2 Definition of ''Administrative Law Judge''

Comments: Commenters generally supported the proposed definition of ''administrative law judge'' and said it would aid in consistent and effective enforcement of Title IX. One commenter interpreted the proposed definition of ''administrative law judge'' to mean that a hearing is required as part of a recipient's grievance procedures under the proposed regulations.

Discussion: The Department acknowledges commenters' support for the Department's proposed definition of ''administrative law judge.'' The Department believes one commenter may have misunderstood the definition as requiring a hearing for all Title IX grievance procedures. As explained in the July 2022 NPRM, this revised definition of ''administrative law judge'' specifically refers and applies to a hearing held under § 106.81, which pertains to the Department's efforts to secure a recipient's compliance with Title IX. *See* 87 FR 41399. A hearing under § 106.81 is distinct from a hearing that may be conducted as part of a recipient's Title IX grievance procedures under §§ 106.45 or 106.46, neither of which requires a live hearing or participation of an administrative law judge.

Changes: None.

2. Section 106.2 Definition of ''Complainant''

General Support

Comments: Commenters expressed a range of perspectives and varied reasons for supporting the proposed regulations' broadened definition of ''complainant,'' which would permit a complaint by someone who is not currently a student or employee as long as that person was participating or attempting to participate in a recipient's education program or activity at the time of the alleged discrimination. Some commenters said that the restrictions of the 2020 amendments, requiring a complainant to be participating or attempting to participate in the recipient's education program or activity at the time of filing a complaint rather than at the time of the alleged discrimination, made it more difficult for recipients to investigate, address, and stop sexual harassment, and forced recipients to dismiss Title IX complaints brought by prospective students, former students, and former employees who experienced sexual harassment under the recipient's education program or activity.

Commenters said there is no reason to exclude people from the protection of Title IX just because they left the school where the discrimination allegedly occurred. Commenters noted a variety of reasons that cause students to leave a school before filing a complaint, including to get mental or emotional support, to regain a sense of control, for fear of potential retaliation, for fear of losing support or recommendations from academic advisors, or simply because outside circumstances lead students to move in and out of educational programs over time. Commenters stated that allowing former students to make a complaint will encourage more reporting, prevent or deter future misconduct, and allow students to obtain closure and resolution and even return to school if the complaint is resolved. Commenters also asserted that the proposed definition would fill gaps left by the 2020 amendments and ensure schools are held accountable for their responses to sexual harassment. Some commenters appreciated that the proposed definition of ''complainant'' did not include the term ''victim,'' noting that omitting stigmatizing and harmful words from the regulations will promote reporting.

One commenter said that delayed reporting is so common in sexual assault and other gender-based violence cases that the requirement to dismiss complaints from former students has prevented recipients from addressing conduct that could affect the campus environment. One commenter said that survivors need to feel validated and cited research finding that 59 percent of survivors wait to disclose, and usually disclose after first talking with family or friends. Commenters relied on multiple news stories, studies, and court decisions to illustrate that sexual harassment can cause individuals to drop out of school or transfer, and that the ability to address alleged harassment is important, both for the individuals who experience harassment and to prevent broader harm.

Several commenters generally supported the proposed definition of ''complainant,'' but suggested additional clarification or modification. One group of commenters supported the right of persons to make a complaint as long as they were participating or attempting to participate in the recipient's education program or activity at the time of the alleged sex discrimination, but requested that the Department provide guidance and clarification regarding how a recipient should proceed in such cases, particularly because the Department proposed eliminating § 106.45(b)(3)(ii) of the 2020 amendments, which allows for the dismissal of a complaint when ''specific circumstances'' prevent the recipient from gathering evidence sufficient to reach a determination as to the formal complaint or allegations therein. Another commenter recommended that the Department add language making it clear that postdoctoral trainees, fellows, and all other individuals training under recipient institutions can be complainants, whether as a student or an employee.

One commenter suggested that the Department make this provision retroactive to the extent possible because students who leave their schools prior to the effective date of these revised regulations should have a grace period to make a Title IX complaint under the new regulations.

[3] Section I.C, ''Definitions,'' and Section I.D, ''Other Definitions,'' do not address all the definitions in the final regulations because certain definitions are discussed in other sections. For example, the definition of ''confidential employee'' is discussed in Section II.B as part of a broader discussion of confidential employee requirements that includes discussion of § 106.44(d).

Discussion: With respect to a complaint brought by a former student or employee who was participating or attempting to participate in the recipient's education program or activity at the time of the alleged sex discrimination, the recipient should proceed just as it would with all other complaints under the recipient's grievance procedures in accordance with § 106.45, and if applicable § 106.46. If, at the time the complaint is filed, however, the respondent is no longer participating in the recipient's education program or activity or is no longer employed by the recipient, the complaint may be dismissed under § 106.45(d)(1)(ii). As explained in the July 2022 NPRM, the Department proposed to remove § 106.45(b)(3)(ii) because the term ''specific circumstances'' under which complaints could be dismissed was vague and undefined, and the Department determined that it would be preferable to revise the dismissal standard to instead include several defined bases for discretionary dismissal. 87 FR 41478.

The Department declines to specify in the final regulations that a postdoctoral trainee or fellow may be a complainant. We note, however, that such an individual could fall into the definition of complainant as a student, employee, or other individual participating or attempting to participate in the recipient's education program or activity, particularly if—as the commenter suggests—they are training under a recipient postsecondary institution at the time of the alleged sex discrimination.

While the Department understands commenters' desire to ensure that former students who were subjected to sex discrimination prior to the effective date of these regulations can still pursue a complaint, the Department does not intend the final regulations to be enforced retroactively, as stated in the July 2022 NPRM. 87 FR 41398. Under Federal law, agencies may only issue regulations with retroactive effect if the authorizing statute expressly grants such authority. *See* 5 U.S.C. 551(4) (Administrative Procedure Act provision defining a ''rule'' as an agency action with ''future effect''); *see also Bowen* v. *Georgetown Univ. Hosp.,* 488 U.S. 204, 208 (1988) (''[A] statutory grant of legislative rulemaking authority will not, as a general matter, be understood to encompass the power to promulgate retroactive rules unless that power is conveyed by Congress in express terms.''). Title IX contains no such express grant of authority. For more information about retroactivity, see the discussion of Effective Date and Retroactivity (Section VII.F).

Changes: At the end of paragraph (1) of the definition of ''complainant,'' after ''Title IX,'' the Department added the words ''or this part'' for the reasons discussed in the Background/Introduction, Executive Summary section of this preamble. For the same reasons, the Department also added ''or this part'' after the reference to Title IX in paragraph (2). The Department also has made a minor technical edit by replacing ''when the alleged sex discrimination occurred'' with ''at the time of the alleged sex discrimination'' in final § 106.45 (a)(2)(iv)(B).

General Opposition

Comments: Some commenters expressed general opposition to the definition of ''complainant'' in § 106.2, including on the grounds that it exceeds the Department's authority or does not align with Title IX and case law.

Some commenters asserted that the proposed definition of ''complainant'' was too broad, including because it applies to all sex discrimination and not just sexual harassment; because former students and employees allegedly do not face barriers to education and thus fall outside the scope of Title IX; and because including such individuals allegedly would allow them to make a complaint decades after leaving the institution, including opportunistic complaints about conduct that was not prohibited at the time it occurred. Commenters asserted that a lack of time limits for complainants would be burdensome for recipients, parties, and witnesses, result in complaints that are difficult to investigate, and likely lead to a waste of resources, abusive practices, and unfair or unsatisfactory outcomes that do not further Title IX's goal of addressing sexual harassment in education programs and activities, due in part to limitations on remedies a university can impose after a student is no longer enrolled. Some commenters questioned whether volunteers who experience sex discrimination would be able to bring a complaint subject to the grievance procedures and suggested that may inhibit the ability to recruit volunteers.

Some commenters anticipated that the volume of Title IX complaints would increase because of the proposed definition of ''complainant'' together with other proposed changes, such as the inclusion of discrimination based on gender identity as a form of sex discrimination, the allowance of allegations that involve off-campus conduct, the removal of the actual knowledge standard, and the requirement that a recipient's employees report allegations to the Title IX Coordinator even when there is no complainant or the individual who experiences sex discrimination does not wish to report it. One commenter suggested that if the Department is no longer going to require a complainant to be engaged in the education program or activity at the time the complaint is filed, it should make that requirement apply only prospectively.

Discussion: As the Supreme Court has recognized, the Department has regulatory authority under Title IX to issue regulations that the Department determines will best effectuate the purpose of Title IX, and to require recipients to take administrative action to effectuate the nondiscrimination mandate of Title IX. *Gebser* v. *Lago Vista Indep. Sch. Dist.,* 524 U.S. 274, 292 (1998). The Department disagrees that the definition of ''complainant'' is too broad. As the Department explained in the July 2022 NPRM, it is appropriate to apply the same definition of ''complainant'' to all forms of sex discrimination, not just sex-based harassment. 87 FR 41407–08. These final regulations are intended to effectuate the purpose of Title IX, which is to eliminate any ''discrimination on the basis of sex in any education program or activity receiving Federal financial assistance''—not just sex-based harassment. 34 CFR 106.1; 20 U.S.C. 1681(a); *see also* 87 FR 41393. Accordingly, consistent with the longstanding requirement that a recipient must have grievance procedures that provide for the ''prompt and equitable resolution of student and employee complaints alleging any action that would be prohibited by'' the Title IX regulations, 40 FR 24128, the final regulations also require a recipient to adopt grievance procedures that provide for the prompt and equitable resolution of all complaints of sex discrimination, not just sexual harassment, and to take other necessary steps to provide an educational environment free from sex discrimination, *see* 87 FR 41390. This requirement will help recipients fully and fairly implement Title IX's nondiscrimination mandate in their education programs or activities and is within the Department's authority to ensure compliance with the law.

The Department does not agree with commenters' contention that former students or employees fall outside the scope of Title IX because they no longer face barriers to participation in the recipient's education program or activity. Title IX protects all ''person[s]'' from sex discrimination, 20 U.S.C.

1681(a)(1), and the relief it affords is not limited to persons who are presently experiencing sex discrimination as long as the discrimination they allegedly experienced was within the scope of the statute's protections at the time it occurred. This means that former students and employees may seek relief under Title IX if they were previously ''excluded from participation in,'' ''denied the benefits of,'' or ''subjected to discrimination under any education program or activity receiving Federal financial assistance.''

Title IX also protects students, employees, and others who continue participating in the education program or activity from sex discrimination that may persist or may be remedied after the specific complainant no longer participates. Limiting a recipient's responsibility to address sex discrimination to those circumstances in which a complainant continues participating in the program or activity fails to ensure that others who continue to participate benefit from the nondiscrimination guarantee in Title IX. As other commenters noted, the revised definition of ''complainant'' could increase the reporting of sex discrimination because individuals struggle with the decision whether to report an incident at the time it happens or while they are still a student or employee, and the Department maintains that encouraging reporting is an important factor in ensuring that recipients can meet their Title IX nondiscrimination obligations. This definition of ''complainant'' is well within the scope of Title IX because it will help to ensure that a recipient operates its education program or activity free from sex discrimination.

The Department recognizes commenters' concerns that the definition of complainant together with other aspects of the final regulations, including new § 106.10 and changes to §§ 106.11 and 106.44, will likely result in an increase in Title IX complaints for some recipients and possible additional administrative costs for some recipients. However, it is the Department's position that ensuring a recipient fully addresses all sex discrimination occurring under its education program or activity, consistent with Title IX, is not optional, is of paramount importance, and properly accounts for financial costs to a recipient and for pecuniary and non-pecuniary costs to students who experience sex discrimination in a recipient's education program or activity. For more discussion of the Department's evaluation of the costs and burdens of the final regulations, see the *Regulatory Impact Analysis.*

The Department has carefully considered the commenters' concerns and disagrees that the change in the definition of ''complainant'' will invite new complaints decades after a student or employee has left a recipient institution alleging conduct that was not prohibited at the time it occurred. As stated in the July 2022 NPRM and in the discussion of Effective Date and Retroactivity (Section VII.F), the Department intends the final regulations to be enforced prospectively and not retroactively. 87 FR 41398. Therefore, if an individual who left a recipient institution makes a complaint requesting compliance solely with regulatory requirements that were not in effect at the time of the alleged conduct, the recipient would dismiss the complaint. Independently, a recipient may dismiss a complaint under § 106.45(d)(1)(ii) if the respondent is not participating in the education program or activity and is not employed by the recipient, or under § 106.45(d)(iv) if the allegations, even if proven, would not constitute sex discrimination under Title IX or this part.

For the reasons discussed here and above in the section on the Definition of Complainant: General Support, the Department also has determined that the benefits of allowing complaints by former students and employees who were subjected to sex discrimination while participating or attempting to participate in a recipient's education program or activity justifies the potential risk and investigative challenges of a complaint filed after someone leaves a recipient institution. As noted above, commenters reported that sex-based harassment can cause targeted students to drop out of school or transfer schools to get away from the discriminatory environment or remove themselves from a harmful or threatening situation; others may fear retaliation and thus not feel comfortable making a complaint until after they leave the institution. Commenters also noted that an employee who experiences harassment may leave their job or fear retaliation and refrain from reporting the harassment until they have taken a new job. Under such circumstances, it is important for the recipient to fulfill its Title IX obligations: to ensure that students and employees who want to return can do so free from sex discrimination; to prevent further harm and to ensure that a hostile environment does not persist for the remaining members of the school's community; and to investigate and properly address allegations of sex discrimination in its education program or activity.

Finally, the Department disagrees with commenters who suggested that covering volunteers in the definition of ''complainant'' will make it more difficult for recipients to recruit and retain volunteers. Title IX protects all ''person[s]'' from sex discrimination under a recipient's education program or activity, 20 U.S.C. 1681(a), and ensuring that volunteers can participate free from sex discrimination should aid in recruitment and retention of such resources, not hinder it.

Changes: None.

Participating or Attempting To Participate

Comments: Some commenters expressed support for the proposed definition of ''complainant,'' but asked the Department to define and provide examples of certain terms within the definition, including ''attempting to participate'' and ''participating or attempting to participate in the recipient's education program or activity.'' One commenter suggested that ''applying'' would be a clearer term.

Discussion: Whether someone is participating or attempting to participate in a recipient's education program or activity requires a fact-specific analysis to be made on a case-by-case basis. The Department explained in the July 2022 NPRM that under the proposed definition of ''complainant,'' someone who is not a student (or person authorized to act on behalf of a student) or an employee could still be a complainant if they were participating or attempting to participate in the recipient's education program or activity as, for example, a prospective student, or a guest speaker. 87 FR 41408. The participation requirement was added in the 2020 amendments. It is not meant to limit who can report sex discrimination or a recipient's obligation to respond promptly—such as by offering supportive measures and explaining the process for filing a complaint—but rather to prevent a recipient from being legally obligated to initiate its grievance procedures based on a complaint from a person having no relationship to the recipient. 87 FR 41409 (citing preamble to the 2020 amendments, 85 FR 30138, 30198). The definition of ''complainant'' in these final regulations shifts the focus of the analysis, however, from whether the participation or attempted participation occurred at the time the complaint was filed—as the 2020 amendments require—to the time of the alleged sex discrimination. *See* 87 FR 41410. The Department has concluded

that requiring participation or attempted participation at the time of the alleged discrimination is better aligned with Title IX's text and its goal of ensuring that a recipient operates its education program or activity free from sex discrimination because it addresses conduct that would have interfered with the complainant's ability to participate in the recipient's education program or activity. As the First Circuit explained in *Doe* v. *Brown University,* 896 F.3d 127, 132 & n.6, 133 (1st Cir. 2018), complainants are not limited to a university's enrolled students; they can include members of the public who ''are either taking part or trying to take part of a funding recipient institution's educational program or activity'' when they attend events such as campus tours, sporting events, and lectures, as long as the alleged discrimination relates to the individual's participation or attempted participation in such program or activity. The participation requirement is thus consistent with Federal appellate decisions, including one handed down since the issuance of the July 2022 NPRM, holding that the scope of Title IX's ''no person'' and ''subject to discrimination under'' language extends to persons who are not students or employees but who experience discriminatory treatment while participating, or at least attempting to participate, in a recipient's education program or activity. *See Snyder-Hill* v. *Ohio State Univ.,* 48 F.4th 686, 707–09 (6th Cir. 2022) (reversing district court's dismissal of Title IX claims by non-student plaintiffs who were allegedly subject to sexual abuse while attending or participating in sporting events, summer camp, or a tour of the school's athletics facilities), *reh'g denied,* 54 F.4th 963 (6th Cir. 2022), *cert. denied,* 143 S. Ct. 2659 (2023).

The Department does not agree that ''applying'' is a better way to describe ''attempting to participate'' because ''applying'' is too narrow in scope. Even someone who is not applying for admission to a recipient might be participating or attempting to participate in its education program or activity, such as a prospective student visiting a campus, a visiting student-athlete, or a guest speaker. *See* 87 FR 41408.

Changes: None.

Requests To Broaden Definition

Comments: Several commenters suggested broadening the definition of ''complainant,'' including by removing the distinction between students, employees, and other persons and by including all campus visitors whether or not they are participating or attempting to participate in a recipient's education program or activity at the time of the alleged sex discrimination. With respect to removing the participation requirement for visitors, commenters said that if the goal is to prevent recurrence of discrimination, a recipient still has the responsibility to address misconduct when a visitor to a recipient's campus is sexually assaulted by a student, even if the visitor may not be participating or attempting to participate in the recipient's education program or activity at the time of the alleged sex discrimination. Commenters also proposed eliminating the participation or attempted participation requirement altogether. One commenter suggested simply covering ''a student, employee, or other person alleged to have been subjected to unlawful sex discrimination under Title IX,'' and noted that ''conduct'' may not be the correct term to use because Title IX can be violated by commission of an act but also by omission, or a failure to act.

Discussion: The Department declines to further broaden the definition of ''complainant'' beyond changing the frame of reference from participation at the time of the complaint to the time of the alleged discrimination. Consistent with case law on this issue, it is appropriate to distinguish between individuals who have a clear connection to the recipient (students and employees), and other individuals. The Department purposefully limited the individuals who can be complainants to those who are participating or attempting to participate in the recipient's education program or activity at the time of the alleged discrimination because the Department does not understand Title IX as imposing a duty on a recipient to address conduct that could constitute sex discrimination when that conduct could not have ''excluded'' the individual from ''participating in'' or denied them the benefits of a recipient's education program or activity. 20 U.S.C. 1681(a). As the First Circuit has explained, this language means that a ''person must suffer unjust or prejudicial treatment on the basis of sex while participating, or at least attempting to participate, in the funding recipient's education program or activity.'' *Brown Univ.,* 896 F.3d at 131. As discussed above, a visitor could be a complainant, but that will be a fact-based determination that will depend, for example, on the reason for the visit and what the individual was doing at the time of the alleged discrimination.

Finally, the Department agrees that Title IX can be violated not only by commission of an act but also by a failure to act. No change is needed, though, because the phrase ''conduct that could constitute sex discrimination'' includes both a recipient's actions and its inaction in derogation of its Title IX obligations. *See, e.g.,* 87 FR 41423 (stating that ''[t]he proposed regulations also recognize that remedies may be appropriate when the recipient's own action or inaction in response to an allegation of sex discrimination resulted in a distinct Title IX violation'').

Changes: None.

3. Section 106.2 Definition of ''Complaint''

General Support

Comments: Some commenters supported the proposed expansion of ''complaint'' to include complaints made orally or in writing and with or without a signature, and further supported removing the requirement from the 2020 amendments that a formal complaint be submitted before a recipient can investigate or offer informal resolution options. In support of removing the formal complaint requirement, some commenters pointed out the challenges it posed for certain students and their families because of age, disability, or ability to write or communicate. Some commenters asserted that the formal complaint requirement is arbitrary and overly prescriptive and allows a recipient to disregard valid complaints that do not conform exactly to the specific complaint requirements. Other commenters shared that even postsecondary students are hesitant to submit formal complaints, in part out of fear of retaliation due to the level of detail required, and stated that deterring complaints of sex-based harassment contravenes the purpose of Title IX.

Some commenters appreciated that the proposed definition of ''complaint'' would offer more flexibility that will streamline the complaint process, empower students, and better serve the purpose and intent of Title IX. Some commenters pointed out that the proposed definition of ''complaint'' will provide more opportunities for students with disabilities or who need alternative forms of communication to make complaints.

Some commenters asked for clarification on what constitutes a ''request to the recipient'' to initiate grievance procedures, citing the risk of confusion and liability to recipients without further clarification, and a need for more information in order to train staff and ensure that employees

understand their responsibilities. Some commenters expressed concern that a complainant may not realize they have to ask the recipient to initiate the grievance procedures, and requested clarification on whether a complainant must specifically use the phrase ''initiate the recipient's grievance procedures'' or whether a complainant can use alternative language to prompt the recipient to initiate the grievance procedures, such as ''start an investigation'' or ''look into this matter of sex discrimination.'' One commenter asked whether only asking questions about the grievance procedures would trigger an investigation.

One commenter who commended the proposed removal of the formal complaint requirement suggested that the Department require some form of written documentation of the complaint, short of the formal complaint requirement, to commence an investigation and provide clarity for both students and recipients.

One commenter who supported the proposed definition of ''complaint'' requested that the regulations explicitly state that oral or written complaints from students with disabilities may be made through adaptive communication formats such as sign language, physical gestures, drawings, or communicating through an aide or caregiver, citing these formats as critical for non-verbal students or students with other communication challenges.

One commenter suggested that the proposed definition of complaint use the term ''verbal'' instead of ''oral,'' noting that ''verbal'' is more precise.

Discussion: The Department acknowledges commenters' support for the proposed revision of the definition of ''complaint.'' The Department shares commenters' concerns that the proposed definition might be confusing to recipients or complainants because a recipient might interpret the proposed definition to mean that, to make a complaint, the complainant must specifically ask the recipient to ''initiate'' its ''grievance procedures'' and might think the complainant needs to reference § 106.45. The Department recognizes that a complainant may not be familiar with those terms or know what they mean, even though the complainant may want the recipient to investigate and determine whether sex discrimination occurred. The Department therefore has modified the proposed definition of a Title IX ''complaint'' to be an oral or written communication to the recipient that objectively can be understood as a request for the recipient to investigate and make a determination about alleged sex discrimination under Title IX and the relevant implementing regulations. Accordingly, a complainant need not use any particular ''magic words''—such as the phrase ''initiate the recipient's grievance procedures''—in order to trigger a recipient's obligation to investigate the matter. To be clear, by saying that a communication constitutes a complaint when it ''objectively'' can be understood as a request to investigate and make a determination, the Department means it can be understood as such by a reasonable person. This is a fact-specific determination, but in general amounts to more than a student's general questions about grievance procedures.

The Department also declines to require some form of written documentation of the complaint, short of the formal complaint requirement, to commence an investigation. The Department notes that § 106.8(f) of these final regulations includes recordkeeping obligations such that the recipient will have to maintain (1) for each complaint of sex discrimination, records documenting the informal resolution process or the grievance procedures and the resulting outcome, and (2) for each notification that the Title IX Coordinator receives of information about conduct that reasonably may constitute sex discrimination under Title IX or the implementing regulations, records documenting the actions the recipient took to meet its obligations under § 106.44. Exactly how to document the information the recipient receives and the steps the recipient takes in response is appropriately left up to each recipient.

The Department appreciates the suggestion to specify in the regulatory text that a recipient is required to facilitate communication with a complainant using adaptive formats as required to accommodate their needs, but the Department does not think that such a change is necessary. The phrase ''oral or written'' is broad enough to include complaints made using most adaptive communication formats, and it would be unreasonable for a recipient to refuse to consider a complaint made, for example, using sign language. Further, if a complainant has a disability, that individual retains full rights under Section 504 and the ADA, as applicable.

In addition, the Department declines to change the word ''oral'' to ''verbal.'' The primary definition of ''verbal'' is relating to or consisting of words, which sometimes is understood as spoken and other times as written. In contrast, the primary definition of ''oral'' is uttered by the mouth or in words and is understood to be spoken. *See Verbal,* Merriam-Webster Dictionary, *https://www.merriam-webster.com/dictionary/verbal* (last visited Mar. 12, 2024); *Oral,* Merriam-Webster Dictionary, *https://www.merriam-webster.com/dictionary/oral* (last visited Mar. 12, 2024). Therefore, the Department believes the term ''oral'' is more consistent with the intended meaning.

Changes: The Department has revised the definition of ''complaint'' in § 106.2 to be an oral or written request to the recipient that objectively can be understood as a request for the recipient to investigate and make a determination about alleged discrimination under Title IX and this part.

General Opposition

Comments: Some commenters opposed allowing oral complaints, asserting that the proposed definition of ''complaint'' exceeds the Department's statutory authority and is inconsistent with Title IX and case law.

Some commenters questioned the integrity of oral complaints, equated them with hearsay, and asserted that they could lead to incomplete or incorrect complaints and mishandled investigations. Some commenters argued that a written accounting of allegations requires a level of certainty regarding the nature and scope of the allegations, allows a recipient to make informed preliminary assessments on whether and how to proceed, and enables a recipient to assess the complainant's credibility and consistency over time. Some commenters asserted that the writing and signature requirements under the 2020 amendments should be retained because they require deliberation and informed action, including considering the consequences of filing a complaint.

Some commenters asserted that the proposed definition of ''complaint'' would contradict the definition that OCR uses for enforcement purposes, noting that OCR requires individuals submitting complaints to OCR to submit a written statement and does not consider oral allegations that are not reduced to writing to be a complaint.

Discussion: Contrary to commenters' assertions, the definition of ''complaint'' in § 106.2 does not exceed the scope of the Department's congressionally delegated authority under Title IX. Title IX states that ''[n]o person in the United States shall, on the basis of sex, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any education program or activity receiving Federal financial assistance.'' 28 U.S.C. 1681(a). The Supreme Court has recognized that the Department has authority under

Title IX to issue regulations that the Department determines will best effectuate the purpose of Title IX, and to require a recipient to take administrative action to effectuate the nondiscrimination mandate of Title IX. *See, e.g., Gebser,* 524 U.S. at 292. The final regulations, including the definition of ''complaint'' in § 106.2, govern how a recipient responds to allegations of sex discrimination in its education program or activity and were promulgated to effectuate the purposes of Title IX. They will help recipients fully and fairly implement Title IX's nondiscrimination mandate in their education programs or activities.

The Department disagrees with the assertion that the integrity of a Title IX investigation or complaint depends on whether a recipient requires the complaint to be in writing. There are a number of procedural protections built into the grievance procedure requirements in § 106.45, and if applicable § 106.46, which are designed to protect the integrity of a recipient's investigation and determination and to ensure a fair process for all parties, such as the requirements that a recipient provide the parties with an equal opportunity to access the evidence or an accurate description of the evidence (and if the recipient provides a description, the parties may request and then must receive access to the underlying evidence) and have an impartial decisionmaker resolve complaints. *See* 87 FR 41485; § 106.45(f)(4)(i), (b)(2). While a written complaint may help establish the boundaries of an investigation, it is neither necessary nor sufficient for doing so, and each recipient is responsible for following its grievance procedures and taking any additional steps it deems necessary to ensure its investigation and determination are sound. In addition, allowing complaints to be made orally is necessary for a recipient to ensure it is learning of and addressing all sex discrimination in its education program or activity, so any potentially increased burden on recipients is justified by the benefits of fulfilling Title IX's nondiscrimination mandate.

The Department also disagrees with the suggestion that a complainant will only carefully consider the consequences of making a complaint if the complaint is written. Some commenters appeared to assume that if complaints are easier to make, some would be made hastily, allegedly increasing the risk they are without merit and therefore unreasonably burdening respondents even if ultimately they are found to be baseless. But the effectiveness of Title IX is better advanced if the requirements for making a complaint are not overly technical or difficult, and if before any disciplinary action is taken, a recipient has the obligation to investigate the conduct alleged. The Department has learned from decades of enforcing Title IX that persons who experience sex discrimination often do not bring complaints for many reasons, including the difficulty of making a complaint. These final regulations help reduce this barrier for complainants, and the Department has no reason to believe that people who make complaints—orally or in writing—will do so hastily. Therefore, the Department declines to require that all complaints of sex discrimination be made in writing.

In addition, the Department acknowledges that Section 101 of OCR's Case Processing Manual (July 18, 2022) (Case Processing Manual), *https://www2.ed.gov/about/offices/list/ocr/docs/ocrcpm.pdf,* specifies that complaints filed with OCR must be in writing. However, there is a distinction between an administrative complaint asking a Federal regulatory agency to investigate allegations that a recipient failed to comply with its obligations and a complaint made to a recipient to fulfill its obligation in the first instance. A complaint to OCR starts the administrative process of a Federal agency, with potentially recipient-wide financial and operational consequences, as compared to the process of addressing complaints involving individual students or employees, which may require time-sensitive responses and which recipients handle every day in a broad range of contexts, including but not limited to Title IX. In addition, students and employees have an ongoing institutional relationship with the recipient that they do not have with OCR.

Changes: None.

Rights of Respondents

Comments: Some commenters opposed allowing oral complaints, asserting that a written complaint is vital to ensuring a respondent's rights and should be required to initiate the recipient's grievance procedures and impose discipline that could take away a respondent's right to pursue their education.

Other commenters similarly argued that a formal complaint is essential to upholding respondents' due process rights. They asserted that only written complaints provide the respondent with notice of the particulars of the allegations against them as required under proposed § 106.45(c)(1), and they asserted that oral complaints are often hard to decipher and leave a recipient unable to provide the respondent with notice sufficient to respond to the allegations against them.

Discussion: The Department agrees that to ensure a fair resolution of complaints, a recipient must provide a respondent with notice of the allegations against them sufficient for them to respond, which is required under these final regulations. However, the Department maintains that requiring a formal, written complaint is not essential to ensuring a respondent receives sufficient notice of the allegations. Under final § 106.45(c), whether a complaint is made orally or in writing, the recipient is responsible upon initiation of its grievance procedures for providing sufficient notice of the allegations to the parties to allow them to respond to the allegations. And for complaints of sex-based harassment involving student complainants or student respondents at postsecondary institutions, written notice is required by § 106.46(c). As discussed throughout this preamble and in the July 2022 NPRM, the requirements for grievance procedures under § 106.45 establish the basic elements of a fair process. *See, e.g.,* 87 FR 41461. They also comport with the requirements set out in *Goss* v. *Lopez,* 419 U.S. 565, 579, 581 (1975). *See* 87 FR 41473 (explaining that at a minimum, *Goss* requires a recipient to provide a student facing up to a 10-day suspension with notice of the allegations against them and an opportunity to present their account of what happened). For further explanation of how the final regulations comply with due process and fundamental fairness requirements, see the discussion of Due Process Generally (Section II.C).

Changes: None.

Rights of Complainants

Comments: Some commenters opposed removal of a written complaint requirement because they felt it could create confusion and ambiguity about when to initiate grievance procedures, leading recipients to act either prematurely or not promptly enough. Those concerned about premature action asserted that requiring written complaints supports complainant autonomy because it gives the complainant the power to decide whether to proceed, and asserted that by contrast, under the 2020 amendments, there was little chance that an overzealous Title IX Coordinator would mischaracterize a complainant's intent and respond prematurely.

Commenters concerned about a recipient's delayed response said that the proposed definition of complaint was overbroad and vague, and that allowing oral complaints might create confusion for students, families, Title IX Coordinators, and other staff about when to initiate the grievance procedures. These commenters said that a written complaint eliminates this confusion by creating a bright-line rule for initiating an investigation.

Other commenters stated that a written complaint benefits the complainant because it serves as direct evidence that a complaint was made and helps the complainant hold a recipient accountable for properly investigating and resolving allegations of sex discrimination. Some commenters similarly pointed out that a recipient could choose not to investigate an oral complaint or could deny that an oral complaint was ever made, and the complainant would be unable to prove that a complaint was made due to the lack of a written record. Some commenters requested that the Department require all recipient employees to be trained on how to document an oral report, to avoid disputes that may arise as to whether the complainant really intended to initiate the grievance procedures. Commenters indicated that a misunderstanding might harm a complainant when a recipient notifies a respondent of a complaint that the complainant never intended.

One commenter predicted that the proposed definition of ''complaint'' would require a complainant to watch what they say to the Title IX Coordinator or any other recipient employee to ensure that their request for advice or information is not perceived as a complaint, which would compromise the Title IX Coordinator's intended role as a trusted source to discuss allegations and supportive measures before deciding to proceed under the grievance procedures.

Discussion: With respect to complainant autonomy, the Department agrees with commenters that it is important for a recipient to initiate the grievance procedures when requested by a complainant, and for a recipient not to initiate the grievance procedures if a complainant is not ready or does not want to initiate them, except in the limited circumstances in which the Title IX Coordinator determines that the conduct as alleged presents an imminent and serious threat to the health or safety of a complainant or other person or prevents the recipient from ensuring equal access based on sex to its education program or activity under § 106.44(f)(1)(v). However, the Department does not think that the answer is to require complaints to be made in writing, particularly given the benefits of the added flexibility, which many commenters acknowledged will help streamline the complaint process and better effectuate Title IX by facilitating a recipient's awareness of, and appropriate response to, sex discrimination in its education program or activity. In addition, as the Department noted in the July 2022 NPRM, during the June 2021 Title IX Public Hearing, as well as in meetings and listening sessions, several stakeholders stated that the onerous signature and writing requirements of the 2020 amendments discouraged individuals from making complaints. 87 FR 41409. Even if the writing and signature requirements of the 2020 amendments may have reduced the risk of premature or delayed action on the part of a recipient, the cost was a cumbersome process that created a barrier for potential complainants to effectively assert their rights under Title IX. The Department's view, informed by stakeholder input before the July 2022 NPRM and feedback from commenters in response, is that additional flexibility is needed for all complaints of sex discrimination to ensure that a recipient is aware of, and can respond appropriately to, sex discrimination in its education program or activity. The Department has carefully weighed the costs and benefits of including both oral and written requests in the definition of ''complaint,'' and has determined that the benefits of including both options justify the costs.

The Department also maintains that the revised definition of ''complaint,'' which incorporates a ''reasonable person'' standard, will help to mitigate commenters' concerns about the risk of misunderstanding. As explained earlier, the Department has revised the definition in the final regulations in response to commenter input and to ensure clarity. Under the revised definition of ''complaint,'' whether oral or written, if the request can be objectively understood as a request for the recipient to investigate and make a determination about alleged sex discrimination under Title IX, then the recipient must interpret it as a request to initiate the grievance procedures. In addition, the Department notes that under § 106.44(f)(1)(iii), upon being notified of conduct that reasonably may constitute sex discrimination under Title IX, the Title IX Coordinator must notify a complainant, or the individual who reported the conduct if the complainant is unknown, of the grievance procedures under § 106.45, and if applicable § 106.46, and the informal resolution process under § 106.44(k) if available and appropriate. The Department anticipates that during such conversations, once the Title IX Coordinator has explained the grievance procedures, they will confirm whether the individual reporting the alleged discrimination does in fact want the recipient to conduct an investigation to make a determination regarding their allegations. Whether the answer is in the affirmative or the negative, nothing in the final regulations would preclude the Title IX Coordinator from memorializing in writing the outcome of that conversation to help avoid any possible confusion about agreed upon next steps. And although these regulations do not require a complaint to be in writing, nothing in these regulations prevents a complainant from memorializing their oral complaint in writing or confirming in writing that the recipient received their complaint. Moreover, as described above, these final regulations at § 106.8(f) contain specific recordkeeping requirements for each complaint of sex discrimination and each notification the Title IX Coordinator receives regarding conduct that reasonably may constitute sex discrimination. In addition, the required procedural protections of the grievance procedures and the recordkeeping obligations in § 106.8(f) will help to ensure that a recipient has sufficient information to initiate the grievance procedures.

Regarding training for recipient employees on keeping track of oral allegations, the Department declines to specify any more than what is required by the final regulations at § 106.8(d). Section 106.8(d)(4) requires that the Title IX Coordinator and any designees be trained on a number of specific topics and receive any other training necessary to coordinate the recipient's compliance with Title IX. The latter is a matter for each recipient's discretion. Section 106.8(d) strikes the appropriate balance between requiring training on topics the Department considers necessary to promote a recipient's compliance with these final regulations, while leaving flexibility for a recipient to choose the content and substance of any additional training its employees may need.

The Department does not share the commenter's concern that allowing oral complaints will compromise a Title IX Coordinator's ability to discuss allegations and supportive measures. The Title IX Coordinator is responsible for coordinating the recipient's

compliance with its Title IX obligations, including by providing information to a complainant about the grievance procedures, and offering and coordinating supportive measures. The Title IX Coordinator's role is not to serve as a confidential advisor to the complainant or any other party. It is appropriate for a potential complainant to carefully explain to a Title IX Coordinator what they are alleging, and for the Title IX Coordinator to carefully confirm both what is being alleged and whether the complainant intends to initiate the grievance procedures.

With respect to other recipient employees, the Department notes that the final regulations require employees who are not confidential employees to notify the Title IX Coordinator of any information they have about conduct that reasonably may constitute sex discrimination under Title IX, or, as applicable, to provide a potential complainant with contact information for the Title IX Coordinator and information about how to report sex discrimination under Title IX. *See* § 106.44(c). Therefore, a potential complainant who wants confidential support has the discretion to seek out a confidential employee, if provided by the recipient. Even if the information a potential complainant provides to a non-confidential employee is reported to the Title IX Coordinator, it will only prompt a complaint without the complainant's permission if the Title IX Coordinator determines, after considering at a minimum the factors in § 106.44(f)(1)(v), that the conduct as alleged presents an imminent and serious threat to the health or safety of the potential complainant or other person or prevents the recipient from ensuring equal access based on sex to its education program or activity. The question of whether a conversation with a recipient employee who is not the Title IX Coordinator will constitute a ''request to the recipient'' is addressed in the discussions of § 106.44(a) and (c).

Changes: As noted earlier in this section, the final regulations at § 106.2 define ''complaint'' as an oral or written request to the recipient that objectively can be understood as a request to investigate and make a determination about alleged discrimination under Title IX and this part.

Effect on Recipients

Comments: Some commenters suggested that the proposed regulations should require neither ''oral'' nor ''written'' complaints and instead should give a recipient discretion as to the format of complaints it will accept under its own policies, which may include written confirmation from the complainant that they intend to proceed with grievance procedures. One commenter said that it was unclear whether the proposed regulations would require a recipient to accept an oral complaint or whether a recipient can require a written complaint.

Some commenters asserted that the investigation of ''informal'' complaints is expensive and takes time away from classroom instruction, and that, for example, these costs outweigh the value of giving women equal education opportunity. One commenter asserted that the proposed definition would unreasonably increase the number of complaints and impede the ability of a recipient to address allegations expeditiously.

A group of commenters posited that the proposed definition of ''complaint'' could increase litigation risks for recipients. For example, they said if a complainant talks to a professor about misconduct they experienced and the professor fails to notify the Title IX Coordinator or document that the conversation occurred, and the complainant says they made a complaint but the respondent says there is no evidence of a complaint, the recipient could face legal challenges from both parties. Some commenters explained that complaints should have to be written and signed as protection for the recipient, saying, for example, that a formal signed complaint requirement can provide cover to a recipient when a complainant did not clearly request initiation of the grievance procedures and later alleged that their oral report should have been treated as a complaint.

One commenter asked the Department to confirm that under § 106.47, OCR will not deem a recipient to have violated Title IX solely because it would have reached a different determination under § 106.45, including the recipient's determination whether allegations constitute a ''complaint'' under § 106.2.

One commenter asserted that it is unclear what would trigger the initiation of the grievance procedures and that a recipient may have thousands of employees and a decentralized organizational structure, such that they encourage or authorize employees to respond partially or fully to perceived sex discrimination in the moment. The commenter recommended that the Department take a practical approach regarding what constitutes a complaint to preserve flexibility and allow significant discretion.

Discussion: The Department appreciates the variety of perspectives shared by commenters and has carefully considered the possible effects on recipients of allowing complaints to be made orally or in writing. The Department does not think it is appropriate to grant recipients the discretion to deny a complaint because it was not submitted in writing. The goal of the revised definition of ''complaint'' is to provide added flexibility to the complaint process for complainants, a revision the Department adopted in response to concerns from stakeholders and commenters that the formal complaint requirements of the 2020 amendments were overly prescriptive, including the requirement that a complaint be in the form of a signed document, allowed recipients to disregard complaints based on technicalities, and discouraged complaints, contrary to the purpose and intent of Title IX.

In addition, the Department does not agree with the contention that the costs of investigating ''informal'' complaints outweigh the benefits of the final regulations, including the value of providing equal educational opportunities for all individuals based on sex, or with the assertion that removing the formal complaint requirement will lead to an unreasonable increase in the number of complaints and a delay in addressing the allegations expeditiously. Under Title IX, a recipient is obligated to evaluate conduct that reasonably may constitute discrimination on the basis of sex and ensure redress if it occurs because Congress required the provision of equal opportunity to anyone who wants to participate in a federally funded education program or activity. While it is likely that the overall number of sex discrimination complaints will increase somewhat once complaints no longer have to be in writing and signed, any increased burden will not be unreasonable for a number of reasons.

First, encouraging reporting and facilitating complaints of sex discrimination is a critical part of a recipient's duty to effectuate Title IX's nondiscrimination mandate. As a condition of receiving Federal funds, a recipient agrees to operate its education program or activity free from sex discrimination; doing so requires knowing about possible discrimination and investigating it to determine the need for remedy, if any. Second, a recipient already has an obligation to address sex discrimination in its education program or activity, even without a formal complaint, *see* § 106.31, and under the 2020 amendments a recipient with actual knowledge of possible sexual

harassment (which can come from oral reports) is required to offer supportive measures to a complainant, with or without a formal complaint, *see* 34 CFR 106.44(a). Third, even if there are more complaints overall, increased flexibility in the grievance procedures provided by § 106.45, and if applicable § 106.46, will help ensure that burdens on recipients are not unreasonable. For more information regarding the changes to the grievance procedures requirements, see the discussion of Framework for Grievance Procedures for Complaints of Sex Discrimination (Section II.C) and discussion of the Grievance Procedures for the Prompt and Equitable Resolution of Complaints of Sex Discrimination (Section II.D). Fourth, allowing some flexibility regarding how to make a complaint does not mean that people who have not experienced sex-based harassment or other sex discrimination will make complaints; rather, it means that those who believe they have experienced sex-based discrimination have an additional option to report it. The Department is not aware of evidence to suggest that oral complaints are more likely to be unmeritorious or even frivolous. If everyone who experienced sex discrimination did make a complaint, that would likely make it easier for recipients to redress that discrimination and prevent its recurrence. After careful consideration, the Department has decided that the benefit of improving flexibility regarding how individuals may make a complaint justifies the possibility that the number of complaints may increase. A more detailed discussion and analysis of the costs and benefits of these final regulations is included in the *Regulatory Impact Analysis.*

The Department acknowledges recipients' concerns that oral complaints will lead to increased litigation, but these concerns are speculative and the risk of increased litigation, if any, is justified because, as explained in greater detail above, mandating that complaints be made in writing discourages individuals from making complaints, in contravention of the purpose of Title IX to eliminate all discrimination on the basis of sex in any education program or activity receiving Federal financial assistance. 20 U.S.C. 1681(a); 34 CFR 106.1. While it might be helpful for employees other than the Title IX Coordinator, such as professors, to keep careful notes or commit oral allegations to writing, the Department declines to require that they do so or to mandate that all employees receive specific training on recordkeeping as explained more fully in the discussion of § 106.8(d). These final regulations at § 106.8(f) already contain specific recordkeeping requirements for each complaint of sex discrimination and each notification the Title IX Coordinator receives of information about conduct that reasonably may constitute sex discrimination.

The Department wishes to clarify that § 106.47 applies only to determinations regarding whether sex-based harassment occurred under § 106.45, and if applicable § 106.46. It provides that the Assistant Secretary will not deem a recipient to have violated the regulations solely because the Assistant Secretary would have made a different determination than the recipient did under § 106.45, and if applicable § 106.46, based on an independent weighing of the evidence in a particular complaint alleging sex-based harassment. The Department maintains the position taken in the 2020 amendments that the intent of § 106.47 (then numbered § 106.44(b)(2)) is to convey that OCR will not substitute its judgment for the judgment of the recipient's decisionmaker regarding the weighing of relevant and not otherwise impermissible evidence in a particular case. *See* 85 FR 30221. However, nothing in § 106.47 prevents OCR from holding a recipient accountable for noncompliance with any provision of the final regulations, including its determination whether a complainant's communication with the recipient constitutes a complaint under the definition in § 106.2.

Finally, a recipient would only be required to initiate grievance procedures consistent with § 106.45 when a written or oral report meets the standards for a ''complaint'' in § 106.2. Thus, while the Department understands commenters' concern that § 106.45 might impede the ability of employees to address conduct in a timely manner or exercise judgment, the Department has determined that the structure of the grievance procedures under the final regulations provides a workable framework that addresses those concerns and allows a recipient to develop and implement a process for prompt and equitable response.

Changes: None.

4. Section 106.2 Definition of ''Disciplinary Sanctions''

Comments: Several commenters suggested modifications to the definition of ''disciplinary sanctions.'' One commenter asked the Department to modify the definition to clarify that it is not intended to prevent a recipient from considering a respondent's cumulative conduct history when imposing sanctions. Another commenter requested that the Department remove the term ''disciplinary'' and use only ''sanctions'' because ''disciplinary sanctions'' suggests sanctions are limited to students and employees and may be misunderstood to exclude third parties. One commenter requested that the Department clarify whether there are specific requirements for disciplinary sanctions that apply to elementary schools and secondary schools.

Discussion: The Department appreciates commenters' suggestions regarding modifications to the definition of ''disciplinary sanctions.'' The definition of ''disciplinary sanctions'' clarifies that a disciplinary sanction is a consequence imposed on a respondent only after a determination that the respondent has violated the recipient's prohibition on sex discrimination. It does not specify what consequences a recipient can or must impose on a respondent or what factors to consider when determining what disciplinary sanction to impose. As the Department explained in the 2020 amendments, the Department has determined that administrative enforcement of Title IX does not require overriding a recipient's discretion to make decisions regarding disciplinary sanctions or prescribing how a recipient should determine a disciplinary sanction. *See* 85 FR 30274. The definition of ''disciplinary sanctions'' focuses on ensuring that respondents are not disciplined for engaging in sex discrimination unless a fair process has determined responsibility, while respecting a recipient's discretion to make disciplinary decisions under their own policies and codes of conduct. For these reasons, the Department declines to modify the definition of ''disciplinary sanctions'' to state that it is not intended to prevent a recipient from considering a respondent's cumulative conduct history when imposing sanctions.

The Department also declines to remove the term ''disciplinary'' from ''disciplinary sanctions.'' The regulations use ''disciplinary sanctions'' because of the disciplinary nature of the action taken by the recipient, and the Department has determined that this phrase is more specific and accurate than the word ''sanctions.'' The definition of ''respondent'' in these final regulations, and the related discussion of the definition of ''respondent'' in the July 2022 NPRM, make clear that any person, including third parties, may be considered a respondent subject to disciplinary sanctions. 87 FR 41420. For more information, see the discussion in the preamble to the 2020 amendments, 85 FR 30488. A recent Federal appellate

decision in *Hall* v. *Millersville University* supports the Department's position that a ''respondent'' may include a third party. 22 F.4th 397, 405–06 (3d Cir. 2022) (finding that the university could be liable under Title IX for its deliberate indifference to a non-student's conduct).

Finally, the Department's definition of ''disciplinary sanctions'' applies to all recipients, including elementary schools and secondary schools, and does not set forth specific requirements for disciplinary sanctions at any level. The process for imposing disciplinary sanctions—for all recipients—is set forth in more detail in § 106.45(h). The Department appreciates the opportunity to clarify that ''disciplinary sanctions'' refers to consequences imposed on a respondent following a determination under Title IX that the respondent violated the recipient's prohibition on sex discrimination. Nothing in these regulations addresses conduct that does not reasonably constitute sex discrimination. For this reason, the Department has added ''under Title IX'' to the definition of ''disciplinary sanctions'' in the final regulations. These regulations also do not preclude routine classroom management or the application of separate codes of conduct, including to conduct that has been determined through grievance procedures not to be sex discrimination or to conduct that would be prohibited regardless of whether sex discrimination occurred. *See, e.g.,* 85 FR 30182.

Changes: The Department has added ''under Title IX'' to the definition of ''disciplinary sanctions.''

5. Section 106.2 Definitions of ''Elementary School'' and ''Secondary School''

Comments: Commenters generally supported the proposed definitions of ''elementary school'' and ''secondary school'' and said the definitions would clarify Title IX's coverage and aid in consistent and effective enforcement of Title IX.

Discussion: The Department acknowledges commenters' support for the proposed definitions of ''elementary school'' and ''secondary school.''

Changes: None.

6. Section 106.2 Definition of ''Postsecondary Institution''

Comments: Some commenters generally supported the proposed definition of ''postsecondary institution'' and said it would aid in consistent and effective enforcement of Title IX.

Other commenters, without specifying how or providing additional details, stated that they believed the proposed definition contained unnecessary details and was an attempt to micromanage and create an extrajudicial system.

One commenter asked the Department to clarify whether the term ''postsecondary institution'' means that the proposed regulations do not apply to elementary schools and secondary schools.

Discussion: The Department acknowledges commenters' support for the definition of ''postsecondary institution.''

The Department disagrees with the commenters' view that the definition is too detailed. The Department's revisions help streamline and simplify the definition. As explained in the July 2022 NPRM, the Department proposed to remove the specific references to §§ 106.44 and 106.45 from the definition of ''postsecondary institution'' because the definition applies to all of part 106. *See* 87 FR 41400. As explained, the Department also made necessary revisions to clarify that the definition includes an institution of vocational education that serves postsecondary students because an institution of vocational education could serve either secondary school students or postsecondary students. *See id.*

The commenters did not specify how the definition of ''postsecondary institution'' would micromanage or create an extrajudicial system, but in any event, the definition is limited to explaining what constitutes a postsecondary institution and is intended to provide clarity for recipients. The Department also cannot conceive how these definitions would micromanage or create an extrajudicial system.

Finally, the Department clarifies that the final regulations apply to all recipients of Federal financial assistance, including elementary schools and secondary schools. Because there are certain provisions of the final regulations that explicitly only apply to postsecondary institutions (*e.g.,* § 106.46), however, the Department maintains the definition of ''postsecondary institution'' provides necessary clarification for recipients.

Changes: None.

7. Section 106.2 Definition of Prohibited ''Sex-Based Harassment''

General Support and Opposition

Comments: Commenters provided a variety of reasons for supporting the proposed definition of ''sex-based harassment,'' including that it aligns with congressional intent and ensures that Federal funds are not used to support discrimination; it encourages students to report sex-based harassment; and it is consistent with the Department's longstanding enforcement practice. These commenters also stated that the 2020 amendments narrowed the definition of ''sexual harassment,'' making it more difficult for potential complainants to assert their rights.

One commenter asserted that the Department's rulemaking authority does not extend to the proposed definition of ''sex-based harassment,'' claiming that *Gebser* grants the Department the authority to issue only ''prophylactic rules,'' not to define discrimination.

Some commenters asserted the Department failed to justify the need to revise the definition, having previously stated that it wanted to provide recipients with consistency and simplicity in the definition of ''sexual harassment'' under Title IX.

Another commenter asked the Department to clarify that sex discrimination refers to any discrimination based on sex, whereas sex-based harassment is a subset of sex discrimination. Some commenters asked how the definition of ''sex-based harassment'' would apply in specific situations, such as to elementary school students, who often do not have the maturity or comprehension to understand what the term means, and to postsecondary institution employers in a State where there are specific requirements for workplace harassment.

Discussion: As explained further below, the Department is adopting a final definition that modifies the proposed definition in certain respects but retains the core elements of the proposed definition. The Department maintains that the final definition of ''sex-based harassment'' better fulfills Title IX's prohibition on sex discrimination in education programs or activities that receive Federal financial assistance, is consistent with relevant judicial precedent, accounts for the legitimate interests of recipients and parties, and aligns with congressional intent and the Department's longstanding interpretation of Title IX and resulting enforcement practice prior to the 2020 amendments.

The Department agrees with the commenter that *Gebser* is relevant for considering the distinctions between administrative enforcement and civil damages actions, but disagrees with the commenter's characterization of *Gebser* as precluding the Department from including a definition of ''sex-based harassment'' in regulations implementing Title IX. The definition of ''sex-based harassment'' establishes standards the Department and recipients

use to implement and enforce Title IX effectively, which, as explained in the discussions of §§ 106.44 and 106.45(a)(1), the Department is statutorily authorized and directed to accomplish.

Contrary to the commenter's characterization, the *Gebser* Court wrote: ''Agencies generally have authority to promulgate and enforce requirements that effectuate the statute's nondiscrimination mandate, 20 U.S.C. 1682, even if those requirements do not purport to represent a definition of discrimination under the statute.'' 524 U.S. at 292. Nothing in this statement precludes the Department from setting out a definition of ''sex-based harassment'' in the exercise of this statutory authority. We observe, moreover, that a definition of ''sexual harassment'' has been part of the Title IX regulations since 2020. The Department did not propose in the July 2022 NPRM, nor does the Department undertake now, to regulate conduct that does not constitute sex discrimination. The final regulations simply define ''sex-based harassment,'' which is a form of sex discrimination. The commenter's view would appear to disallow the definition of ''sex-based harassment'' in the final regulations or any other definition.

Consistent with Title IX's text and the Department's authority to implement the statute, as well as OCR's enforcement experience and case law interpreting the statute, the Department is providing greater clarity for recipients about steps they must take to ensure that no person is subjected to sex discrimination in their education programs and activities. Providing a clear definition of ''sex-based harassment'' in the final regulations will help recipients better identify discriminatory conduct when it occurs, and will help them better understand their obligations to address sex discrimination under the statute.

The Department has adequately justified the need for a revised definition. As explained in the July 2022 NPRM, the Department identified the need for a new definition of ''sex-based harassment'' based on an extensive review of the 2020 amendments, in addition to live and written comments received during the June 2021 Title IX Public Hearing, numerous listening sessions and meetings with stakeholders conducted by the Office for Civil Rights in 2021 and 2022, and the 2022 meetings held under Executive Order 12866. *See* 87 FR 41390, 41392. The Department heard significant feedback from students, parents, recipients, advocates, and other concerned stakeholders that the 2020 amendments do not adequately clarify or specify the scope of sex discrimination prohibited by Title IX, and that the current definition of ''sexual harassment'' does not fully implement Title IX's mandate. *See* 87 FR 41392, 41396. The updated definition in the final regulations is intended to address those identified and well-documented gaps.

The Department clarifies that sex discrimination refers to any discrimination based on sex, including, but not limited to, sex-based harassment, and has modified the proposed definition of ''sex-based harassment'' to clearly state that sex-based harassment is a form of sex discrimination.

With respect to the comments regarding specific applications of the definition of ''sex-based harassment'' in elementary school settings or in specific States, the Department notes that the definition of ''sex-based harassment'' in the final regulations applies to all recipients and that, as stated in § 106.6(b), the obligation to comply with Title IX is not obviated or alleviated by any State or local law or other requirement that conflicts with Title IX or this part. That said, the Department maintains that State workplace harassment laws can generally be applied in ways that do not create conflicts. The Department also notes that Title IX's prohibition on sex discrimination applies to all recipients and in all States. The final regulations take into account differences in the age and maturity of students in various educational settings, allowing recipients to adapt the regulations as appropriate to fulfill their Title IX obligations. The Department will take into account these types of differences and recipient flexibility on a case-by-case basis when addressing any complaints and applying the definition of ''sex-based harassment.''

Changes: The Department has revised the definition of ''sex-based harassment'' to state explicitly that sex-based harassment is a form of sex discrimination.

Data Related to Sex-Based Harassment

Comments: Some commenters referred the Department to data and other information showing the prevalence of sex-based harassment in postsecondary institutions and elementary schools and secondary schools. For example, some commenters referenced data that they said showed the prevalence of sex-based harassment among specific populations, including Asian American and Native Hawaiian/Pacific Islander women; LGBTQI+ students; Black women and girls; and students with disabilities. One commenter noted that individuals may experience multiple overlapping forms of discrimination, including sex-based harassment. Some commenters referred the Department to data and other information that they said showed sex-based harassment is underreported and why. Some commenters referred the Department to data and other information that they said showed the negative impact that sex-based harassment has on education, including causing survivors to drop out of school, miss class and extracurricular activities, suffer increased absences, experience decreases in GPA, lose scholarships or financial aid, have lower self-esteem, and suffer higher levels of depression and suicidality.

Discussion: The Department acknowledges the data and information referred to by commenters with regard to the prevalence of sex-based harassment of students and employees in postsecondary institutions and in elementary schools and secondary schools. The final regulations hold a recipient accountable for responding to sex-based harassment, including quid pro quo harassment, hostile environment harassment, sexual assault, dating violence, domestic violence, and stalking, consistent with Title IX's broad prohibition on sex discrimination.

Further, the Department acknowledges the data and information referred to by commenters regarding the impact of sex-based harassment on specific populations in significant numbers. The final regulations hold recipients accountable for responding to sex-based harassment for all populations consistent with Title IX's broad prohibition on sex discrimination. The Department agrees with commenters' observation that individuals may experience multiple and overlapping forms of discrimination. Congress has chosen to address different forms of discrimination through different statutes, and these final regulations implement only Title IX's prohibition on discrimination on the basis of sex. In addition to their obligations under Title IX, recipients have an obligation not to discriminate on numerous other grounds under the civil rights laws enforced by OCR,[4] as well as under Federal civil rights laws enforced by the U.S. Department of Justice and other

[4] For example, in addition to Title IX, OCR also enforces Title VI, Section 504, Title II of the ADA, the Age Discrimination Act of 1975, and the Boy Scouts of America Equal Access Act.

Federal agencies. The Department believes that an improved response to incidents of sex-based harassment benefits individuals whose experience of sex-based harassment overlaps with other forms of discrimination.

The Department shares the commenters' concerns that sex-based harassment is underreported. Title IX requires a recipient to operate its education program or activity in a manner that is free from sex discrimination, and, for the reasons described elsewhere in this preamble, the definition of ''sex-based harassment'' in the final regulations, among other changes, will remove certain barriers to reporting. Because sex-based harassment causes serious harm to those impacted, as several commenters discussed, the final regulations clarify that a recipient must respond to all forms of harassment on the basis of sex in a manner consistent with Title IX's broad prohibition on sex discrimination in education programs or activities that receive Federal financial assistance. *See, e.g.,* §§ 106.2 (definition of ''sex-based harassment''), 106.44 (required response to sex discrimination), 106.45 (grievance procedures for the prompt and equitable resolution of sex discrimination).

Changes: None.

Sex-Based Harassment—Burden and Cost (§ 106.2)

Comments: Some commenters were concerned that the proposed definition of hostile environment sex-based harassment, as compared to the 2020 amendments, would require a recipient to address more complaints through its Title IX grievance procedures and lead to more lawsuits, which would impose a greater burden and more expenses on a recipient and take time and resources away from more serious claims. One of these commenters also noted that, especially at smaller postsecondary institutions, this would detract from efforts to address sexual assault and quid pro quo harassment, which the commenter felt should be the priority under Title IX. One commenter expressed concern about the impact the definition of ''sex-based harassment'' would have on Title IX Coordinators, which together with other provisions in the proposed regulations, the commenter asserted, would require Title IX Coordinators to monitor and police potentially offensive conduct, including speech.

Discussion: In the July 2022 NPRM, the Department acknowledged that recipients would be required to address more complaints under these final regulations and projected a 10 percent increase in complaint investigations compared to the number conducted under the 2020 amendments. 87 FR 41550. As explained in the *Regulatory Impact Analysis,* commenters did not provide data necessitating a change to the Department's 10 percent estimate. The Department maintains that the definition of ''sex-based harassment'' will more fully implement Congress's nondiscrimination requirement in Title IX. The Department considered several alternatives to the final definition of ''sex-based harassment,'' including maintaining the definition of ''sexual harassment'' from the 2020 amendments and different wording options for the definition of hostile environment sex-based harassment, but concluded that none captured the benefits of this final definition and state of the law. The Department also considers and explains the impact of the final regulations on small entities, including small recipients, in the discussion of the *Regulatory Flexibility Act.* There the Department acknowledges commenters' concerns that the final regulations, including the definition of ''sex-based harassment,'' likely will increase the number of Title IX cases and investigations that small entities will be required to address. Similar to the projection in the *Regulatory Impact Analysis,* the Department projects a 10 percent increase in complaints for small entities. The Department disagrees with commenters who forecast a significantly greater increase and the commenters provided no data in support of their assertion.

The Department also disagrees with the commenters' assertion that several provisions in the final regulations, including the definition of ''sex-based harassment,'' would mean that Title IX Coordinators must monitor and limit any conduct in the form of speech that could be considered potentially offensive—even if that speech is constitutionally protected. The Title IX Coordinator requirements in § 106.44(f) do not impose an obligation on a recipient's Title IX Coordinator to respond to any conduct or speech other than that which reasonably may constitute sex discrimination. Further, as discussed elsewhere in this preamble, the final regulations do not alter § 106.6(d), which states that nothing in the Title IX regulations requires a recipient to restrict any rights that would otherwise be protected from government action by the U.S. Constitution, including the First Amendment. We also underscore that none of the amendments to the regulations changes or is intended to change the commitment of the Department, through these regulations and OCR's administrative enforcement, to fulfill the Department's obligations in a manner that is fully consistent with the First Amendment and other guarantees of the U.S. Constitution. For additional discussion of the First Amendment, see the Hostile Environment Sex-Based Harassment—First Amendment Considerations section below.

For all recipients, to the extent the Department's projected 10 percent increase in complaints and related increase in use of a recipient's grievance procedures results from the change in the definition of ''sex-based harassment,'' the Department determined that the related costs from such an increase are justified by the benefits of ensuring effective implementation of a recipient's statutory obligation that its education program or activity be free from sex discrimination. The Department also notes that other changes in the regulations, such as affording recipients the discretion to use a single-investigator model and removing the requirement to hold a live hearing in all cases, *see, e.g.,* §§ 106.45(b)(2) and 106.46(f)(1), provide recipients, including small entities, with greater flexibility in conducting their grievance procedures, as some commenters have also recognized. The Department's view, therefore, is that evaluating the final regulations' changes as a whole is important for accurately assessing the extent to which, if at all, the final regulations will increase costs or burdens for recipients.

Finally, the Department disagrees with commenters' assertions that the increase in complaints of sex-based harassment will detract from recipients' efforts to address sexual assault and quid pro quo harassment, which some commenters stated should be prioritized under Title IX. The Department believes that the additional flexibility for recipients provided in the final regulations, including with respect to the grievance procedure requirements, will allow recipients to address all types of conduct covered under the definition of ''sex-based harassment.''

Changes: None.

Sex-Based Harassment—Introductory Text and Scope (§ 106.2)

Comments: Some commenters supported the proposed definition of ''sex-based harassment'' because its coverage of harassment based on sex stereotypes, sex characteristics, pregnancy or related conditions, sexual orientation, and gender identity would

better align with State laws and recipient codes of conduct and eliminate confusion. Commenters stated that such harassment is no less harmful than other forms of sex-based harassment.

Some commenters suggested the Department remove the reference to § 106.10 in the introductory text to the definition of ''sex-based harassment'' and instead specify all of the bases identified in § 106.10 to avoid confusion. One commenter asked the Department to clarify whether the three categories of harassment (*i.e.,* quid pro quo, hostile environment, and specific offenses) were intended to modify only ''other conduct on the basis of sex'' or instead to modify ''sexual harassment, harassment on the bases described in § 106.10, and other conduct on the basis of sex.'' One commenter suggested that the Department remove the reference to ''sexual harassment'' in the introductory sentence of the proposed definition of ''sex-based harassment'' or clarify what additional forms of sexual harassment would not be covered by the three categories in the proposed definition. Another commenter asked what the term ''harassment'' means and whether it includes nonverbal, verbal, or written actions.

One commenter expressed concern that the proposed definition of ''sex-based harassment'' would cover speech or conduct that was not based on sex and asserted that if harassment does not occur because of a person's sex, it is not sex-based harassment under Title IX, regardless of how offensive it is.

Several commenters posed specific examples of conduct and asked whether they would constitute sex-based harassment under the proposed definition.

Discussion: The Department appreciates the range of opinions expressed regarding the introductory text and scope of sex-based harassment. The Department believes that these final regulations best comport with the text of Title IX, the case law interpreting Title IX, and Title IX's nondiscrimination mandate.

The Department agrees with the commenter who asserted that conduct that falls within the definition of ''sex-based harassment'' must be based on sex. Adhering to the statutory language, the definition clearly states that the conduct prohibited must be ''on the basis of sex,'' and includes sexual harassment and harassment on the bases described in § 106.10. As recognized in the preamble to the 2020 amendments, ''on the basis of sex'' does not require that the conduct be sexual in nature. *See* 85 FR 30146. The Department appreciates commenters' suggestions but declines to remove the reference to § 106.10 in the definition of ''sex-based harassment,'' as the reference refers clearly to the scope of discrimination on the basis of sex and thus is not likely to cause confusion.

As discussed in the July 2022 NPRM, Title IX's broad prohibition on sex discrimination encompasses, at a minimum, discrimination against an individual based on sex stereotypes, sex characteristics, pregnancy or related conditions, sexual orientation, and gender identity. *See* 87 FR 41531–32. All of these classifications depend, at least in part, on consideration of a person's sex. *See id.* The final regulations clarify the scope of harassment covered and add language to the regulatory text that was in the preamble to the 2020 amendments.

In response to comments about ''other conduct on the basis of sex,'' some language regarding other harassment is necessary to maintain consistency with § 106.10, which—by using the word ''includes''—indicates that there could be other kinds of sex discrimination besides the specific bases listed. To alleviate confusion, the Department has changed ''other conduct on the basis of sex'' to ''other harassment on the basis of sex'' and moved the language earlier in the introductory sentence to tie it more directly to § 106.10. The Department clarifies that the three categories of harassment in § 106.2 of the final regulations modify ''sexual harassment and other harassment on the basis of sex, including on the bases described in § 106.10,'' such that to constitute prohibited sex-based harassment, the sexual harassment or harassment on the bases described in § 106.10 must satisfy one or more of the three categories (*i.e.,* quid pro quo, hostile environment, or specific offenses). The Department's position is that it is not necessary to further define the term harassment because the definition of ''sex-based harassment,'' including the three categories of harassment, is sufficiently clear. The Department confirms that, as discussed in the July 2022 NPRM, acts of verbal, nonverbal, or physical aggression, intimidation, or hostility based on sex are within the purview of Title IX and may constitute sex-based harassment provided they meet the requirements of the definition. *See* 87 FR 41411, 41533. The Department has held this view for more than two decades. *See* 85 FR 30034–36, 30179; U.S. Dep't of Educ., Office for Civil Rights, Sexual Harassment Guidance: Harassment of Students by School Employees, Other Students, or Third Parties, 62 FR 12034, 12038–39 (Mar. 13, 1997) (revised in 2001) (1997 Sexual Harassment Guidance), *https://www2.ed.gov/about/offices/list/ocr/docs/shguide.pdf.* The Department also notes that as discussed in the section below on Hostile Environment Sex-Based Harassment—Online Harassment (§ 106.2), this covered conduct could occur online, in addition to in person.

The Department declines to remove the reference to ''sexual harassment'' in the introductory sentence because it is useful to explicitly state in the definition of ''sex-based harassment'' that it includes not only (1) sexual harassment, which is conduct of a sexual nature, but also (2) other forms of harassment that are not or may not be ''sexual'' but that are nonetheless based on sex, such as harassment based on pregnancy, gender identity, or sex stereotypes. The term ''sexual harassment'' as used in the definition refers to conduct that constitutes quid pro quo harassment, hostile environment harassment, or a specific offense listed in the definition of ''sex-based harassment.'' As explained in prior OCR guidance, sexual harassment can include unwelcome sexual advances, requests for sexual favors, and other verbal, nonverbal, or physical conduct of a sexual nature. *See, e.g.,* U.S. Dep't of Educ., Office for Civil Rights, Revised Sexual Harassment Guidance: Harassment of Students by School Employees, Other Students, or Third Parties, noticed at 66 FR 5512 (Jan. 19, 2001) (rescinded upon effective date of 2020 amendments, Aug. 14, 2020) (2001 Revised Sexual Harassment Guidance), *https://www2.ed.gov/about/offices/list/ocr/docs/shguide.pdf.* Other forms of harassment that are not or may not be ''sexual'' can also constitute hostile environment harassment. With respect to the hypothetical sex-based harassment scenarios presented by commenters, the Department declines to make definitive statements about examples, due to the necessarily fact-specific nature of the analysis. At the same time, we note that further explanation of the content of the final regulations is provided in the discussions below.

The Department disagrees that the definition of ''sex-based harassment'' in the final regulations covers speech or conduct that is not based on sex. To the extent the comments raise concerns under the First Amendment, those comments are addressed in the section below dedicated to Hostile Environment Sex-Based Harassment—First Amendment Considerations (§ 106.2).

Changes: The Department has revised the definition of ''sex-based

harassment'' to state that sex-based harassment is a form of sex discrimination. The Department has also changed ''other conduct on the basis of sex'' to ''other harassment on the basis of sex'' and moved the language to earlier in the introductory sentence. The introductory language in the definition now states that sex-based harassment prohibited by this part ''means sexual harassment and other harassment on the basis of sex, including on the bases described in § 106.10.''

Sex-Based Harassment—Vagueness and Overbreadth (§ 106.2)

Comments: Some commenters opposed the proposed definition of ''sex-based harassment'' because they felt it would be too expansive and overbroad or too vague, which they believed could lead to false allegations. These commenters noted that the definition must clearly define the scope of prohibited conduct.

Other commenters specifically expressed vagueness and overbreadth concerns in the context of hostile environment sex-based harassment. For example, some commenters were concerned that key terms were undefined, which the commenters said would cause postsecondary institutions to restrict protected speech. The commenters did not state what key terms should be defined. Other commenters were concerned that the totality of the circumstances analysis in hostile environment sex-based harassment would make it difficult for students and employees to know what conduct was covered and could lead to overly broad policies.

One commenter asserted that precise definitions are required in the postsecondary education setting, even if they would not be required in a workplace setting, because of academic freedom. Another commenter argued that, although the July 2022 NPRM stated that the ''offensiveness of a particular expression as perceived by some persons, standing alone, would not be a legally sufficient basis to establish a hostile environment'' under Title IX, the preamble is vague about where the Department would draw the line between speech protected under the First Amendment and hostile environment sex-based harassment under Title IX, and thus a recipient would be incentivized to treat speech that is close to the line as a Title IX violation.

One commenter suggested that OCR's previously issued guidance on Title IX and sexual harassment was too broad.[5] Another commenter asserted that some individuals may not know what conduct is prohibited if they are only told that objectively and subjectively offensive conduct is prohibited. Some commenters said the subjective standard's vagueness would deny respondents due process and lead to meritless investigations and inconsistent enforcement across recipients. Some commenters said that the term ''limits'' is vague and overly broad.
