A. Program Description

1. Purpose of the Program.
The program is designed to assist qualified private organizations, nonprofit organizations, and public (including tribal) intermediary organizations located in Puerto Rico, proposing to carry out financial and technical assistance programs to improve housing, community facilities, and community and economic development projects in rural areas of Puerto Rico where a Presidential declaration of a major disaster was made under the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5121 et seq.) (Stafford Act). This program requires the intermediary (Grantee) to provide a program of financial and technical assistance to recipients. The recipients will, in turn, provide programs to their communities (beneficiaries).

Awards made under this NOFA will help rural communities and nonprofits to build capacity and technical assistance for readiness for more competitive funding applications and successful project completion. The aim is to support rural communities and nonprofit organizations in Puerto Rico’s Rural Partners Community Networks to access federal funding to address community and economic challenges in areas where a Presidential declaration of a major disaster was issued.

2. Statutory and Regulatory Authority.
Congress created the RCDI program in 1999 (Pub. L. 106–78), and the Consolidated Security, Disaster Assistance, and Continuing Appropriations Act, 2009, Public Law 110–329 (7 U.S.C. 6945) (“the Act”), created the Disaster Assistance Fund (DAF). The Act authorized additional amounts for authorized activities in areas affected by a disaster declared by the President or the Secretary of Agriculture. This program is implemented under the guidelines announced in this Notice and 2 CFR part 200.

3. Definitions.
   Agency—The Rural Housing Service or its successor.
   Beneficiary—Entities or individuals that receive benefits from assistance provided by the Recipient.
   Capacity—The ability of a Recipient to implement housing, community facilities, or community and economic development projects.
   Conflict of interest—A situation in which a person or entity has competing personal, professional, or financial interests that make it difficult for the person or business to act impartially.

Regarding use of grant funds, federal procurement standards prohibit transactions that involve a real or apparent conflict of interest for owners, employees, officers, agents, or their immediate family members having a financial or other interest in the outcome of the project; or that restrict open and free competition for unrestricted trade. Specifically, project funds may not be used for services or goods going to, or coming from, a person or entity with a real or apparent conflict of interest, including, but not limited to, owner(s) and their immediate family members. An example of a conflict of interest occurs when an employee of the grantee, a member of the grantee’s board of directors, or the immediate family of either, has the appearance of a professional or personal financial interest in a recipient receiving the benefits or services of the grant.

Federally recognized Tribes (TRIB) and Tribes eligible RCDI recipients.

There are no federally recognized tribes nor TDHEs in Puerto Rico.

Financial assistance—Funds, not to exceed $10,000 per award, used by the intermediary to purchase supplies and equipment to build the recipient’s capacity.

Funds—The Puerto Rico RPN RCDI grant funds that have been provided by the Grantee.

Intermediary—A qualified private organization, nonprofit organization (including faith-based and community organizations and philanthropic organizations), or public (including tribal) organization, located in Puerto Rico, that provides financial and technical assistance to multiple recipients.

Recipient—The entity that receives the financial and technical assistance from the intermediary. The recipient must be a nonprofit community-based housing and community development organization, low-income rural community, municipality, or a federally recognized tribe, within the selected (15) communities in the geographical area of the Puerto Rico RPN (see Appendix A). There are no federally recognized tribes nor TDHEs in Puerto Rico.

Rural and rural area—All Census Designated Places (CDP) in Puerto Rico with populations of 50,000 or less. Under this new methodology, all CDPs whose populations exceed 50,000 are not rural; however, individual census tracts within those CDPs with the following characteristics are designated as rural areas:

- Population density of 2,000 or less per square kilometer that are clearly not urban in character (e.g., not an industrial/commercial area like a major airport, sportsplex, or a shopping center).
- Population density greater than 2,000 per square kilometer that are contiguous to other census tracts, the majority of whose population densities is 2,000 or less.

Rural Partners Network Community Network—pre-selected geographic boundaries at the municipal level where the RPN pilot is serving to provide place-based assistance. The three RPN Community Networks in Puerto Rico are the Southwest Community Network, the Central Mountain Community Network, and the East Community Network. The Southwest Community Network is comprised of Mayaguez, Maricao, and Guánica; the Central Mountain Community Network is comprised of Mayaguez, Maricao, and Guánica; the Central Mountain Community Network is comprised of Mayaguez, Maricao, and Guánica; the Central Mountain Community Network is comprised of Mayaguez, Maricao, and Guánica; the Central Mountain Community Network is comprised of Mayaguez, Maricao, and Guánica; the Central Mountain Community Network is comprised of Mayaguez, Maricao, and Guánica; the Central Mountain Community Network is comprised of Mayaguez, Maricao, and Guánica; the Central Mountain Community Network is comprised of Mayaguez, Maricao, and Guánica; and the East Community Network is comprised of Fajardo, Ceiba, Naguabo, and El Yunque National Rainforest.

4. Application of Awards

The Agency will review, evaluate, and score applications received in response to this Notice based on the provisions indicated in this notice. Awards under this program will be made on a competitive basis using specific selection criteria contained in this notice. The Agency advises all interested parties that the applicant bears the full burden of the costs incurred in connection with the preparation and submission of an application in response to this notice.

Awards under the Puerto Rico RPN RCDI Program are limited and are awarded through a competitive process. No reimbursement will be made for any funds expended prior to execution of the RCDI Grant Agreement and prior to the Agency’s approval of recipients not identified in the application unless the intermediary is a nonprofit educational entity and has requested and received written Agency approval of the costs prior to the actual expenditure. 6. Funding Restrictions.

The following are examples of eligible and ineligible purposes under the Puerto Rico RPN RCDI program.

Activities that meet the objectives of the Puerto Rico RPN RCDI program and meet the criteria outlined in this Notice will be considered eligible. These examples are illustrative and are not
meant to limit the activities proposed in the application:

(a) The intermediary must work directly with the recipient, not the ultimate beneficiaries. For example:

The intermediary provides training and technical assistance to the recipients on developing and updating materials related to the prevention, treatment and recovery activities for opioid use disorder and ensures that high-quality training is provided to communities affected by the opioid epidemic.

(b) The intermediary provides training to the recipient on how to conduct homeownership education classes. The recipient then provides ongoing homeownership education to the residents of the community—the ultimate beneficiaries. This “train the trainer” concept fully meets the intent of this initiative. The intermediary is providing technical assistance that will build the recipient’s capacity by enabling it to conduct homeownership education classes for the public. This is an eligible purpose. However, if the intermediary directly provides homeownership education classes to individuals in the recipient’s service area, this would not be an eligible purpose because the recipient would be bypassed.

(c) If the intermediary is working with a low-income community as the recipient, the intermediary must provide the technical assistance to the entity that represents the low-income community and is identified in the application.

If the intermediary provides technical assistance to the Board of the low-income community on how to establish a cooperative, this would be an eligible purpose. However, if the intermediary works directly with individuals from the community to establish the cooperative, this is not an eligible purpose.

The recipient’s capacity is built by learning skills that will enable it to support sustainable economic development in its community on an ongoing basis.

(d) The intermediary may provide technical assistance to the recipient on how to create and operate a revolving loan fund. The intermediary may not monitor or operate the revolving loan fund. RCDI funds cannot be used to fund revolving loan funds.

(e) The intermediary may work with recipients to build their capacity to provide planning and leadership development training. The recipients of this training would be expected to assume leadership roles in the development and execution of regional strategic plans. The intermediary would work with multiple recipients in helping communities recognize their connections to the greater regional and national economies.

(f) The intermediary could provide training and technical assistance to the recipients on developing emergency shelter and feeding, short-term housing, search and rescue, and environmental accident, prevention, and cleanup program plans. For longer term disaster and economic crisis responses, the intermediary could work with the recipients to develop job placement and training programs and develop coordinated transit systems for displaced workers.

7. Other Submission Requirements.

Fund uses must be consistent with the Puerto Rico RPN RCDI purpose. Eligible purposes of grant funds include, but are not limited to, the following:

(a) Provide technical assistance to develop recipients’ capacity and ability to undertake projects related to housing, community facilities, or community and economic development, (e.g., the intermediary hires a staff person to provide technical assistance to the recipient or the recipient hires a staff person, under the supervision of the intermediary, to carry out the technical assistance provided by the intermediary). Hiring must support the intermediary’s training purpose. Additional staff can be hired as a secondary purpose needed to carry out technical assistance/training to the recipient and must support the intermediary’s training purpose.

(b) Develop the capacity of recipients to conduct community development programs, (e.g., homeownership education or training for business entrepreneurs).

(c) Develop the capacity of recipients to conduct developmental initiatives (e.g., programs that support microenterprise and sustainable development).

(d) Develop the capacity of recipients to increase their leveraging ability and access to alternative funding sources by providing training and staffing.

(e) Develop the capacity of recipients to provide the technical assistance component for essential community facilities projects.

(f) Assist recipients in completing pre-development requirements for housing, community facilities, or community and economic development projects by providing resources for professional services, e.g., architectural, engineering, or legal. While this is an eligible purpose, applicant needs to ensure the capacity of the recipient is being expanded with appropriate training during the process.

(g) Improve recipient’s organizational capacity by providing training and resource material on developing strategic plans, board operations, management, financial systems, and information technology.

(h) Purchase of computers, software, and printers is limited to $10,000 per award at the recipient level when directly related to the technical assistance program being undertaken by the intermediary.

(i) Provide funds to recipients for training-related travel costs and training expenses related to Puerto Rico RPN RCDI.

The following is a list of ineligible uses of grant funds:

- Pass-through grants, and any funds provided to the recipient in a lump sum that are not reimbursements.
- Funding a revolving loan fund (RLF).
- Construction (in any form).
- Salaries for positions involved in construction, renovations, rehabilitation, and any oversight of these types of activities.
- Intermediary preparation of strategic plans for recipients.
- Funding prostitution, gambling, or any illegal activities.
- Grants to individuals.
- Funding a grant where there may be a conflict of interest, or an appearance of a conflict of interest, involving any action by the Agency.
- Paying obligations incurred before the beginning date without prior Agency approval or after the ending date of the grant agreement.
- Purchasing real estate.
- Improvement or renovation of the grantee or recipient’s office space or for the repair or maintenance of privately-owned vehicles.
- Any purpose prohibited in 2 CFR part 200 or 400.
- Using funds for recipient’s general operating costs.
- Using grant funds for Individual Development Accounts.
- Purchasing vehicles.
- In accordance with 31 U.S.C. 1345, “Expenses of Meetings,” appropriations may not be used for travel, transportation, and subsistence expenses for a meeting. RCDI grant funds cannot be used for these meeting-related expenses.

RCDI funds may be used to pay for a speaker as part of a program, equipment to facilitate the program, and the actual room that will house the meeting. RCDI funds cannot be used for travel; they can, however, be used for travel, transportation, or subsistence.
expenses for program-related training and technical assistance purposes. Any training not delineated in the application must be approved by the Agency to verify compliance with 31 U.S.C. 1345. Travel and per diem expenses (including meals and incidental expenses) will be allowed in accordance with 2 CFR parts 200 and 400.

E. Application Review Information

1. Criteria.

All eligible and complete applications will be evaluated and scored based on the selection criteria and weights contained in this Notice. Failure to address any of the application criteria by the application deadline will result in the application being determined ineligible, and the application will not be considered for funding.

All applications that are complete and eligible will be scored and ranked competitively. The categories for scoring criteria used are the following:

   (a) Building Capacity and Expertise—Maximum 40 Points

   The applicant must demonstrate how it will improve the recipients’ capacity, through a program of financial and technical assistance, as it relates to the Puerto Rico RPN RCID Program purposes.

   Capacity—Building financial and technical assistance should provide new functions to the recipients or expand existing functions that will enable the recipients to undertake projects in the areas of housing, community facilities, or community and economic development that will benefit the community. Capacity-building financial and technical assistance may include, but is not limited to: training to conduct community development programs (e.g., homeownership education, or the establishment of minority business entrepreneurs, cooperatives, or microenterprises); organizational development (e.g., assistance to develop or improve board operations, management, and financial systems); instruction on how to develop and implement a strategic plan; instruction on how to access alternative funding sources to increase leveraging opportunities; and, staffing (e.g., hiring a person at intermediary or recipient level to provide technical assistance to recipients).

   The program of financial and technical assistance that is to be provided, its delivery, and the measurability of the program’s effectiveness will determine the merit of the application.

   All applications will be competitively ranked and the applications providing the most improvement in capacity development and measurable activities being ranked the highest.

   The narrative response must contain the following items. This list also contains the points for each item. (1) Describe how the applicant will identify and will select the recipients in the RPN area and how the applicant will assess the recipient’s needs for technical assistance and capacity building as described in purpose of the program (pages 6 to 8) (8 Points).

   (2) The scope of the technical assistance to be provided to the recipients and the activities that will be conducted to deliver the technical assistance, particularly providing customized-individualized technical assistance and capacity building (7 Points).

   (3) Identify which RCID–RPN purpose areas will be addressed with this assistance: planning, project management, grant management and post award, development of bylaws, budgeting, financial planning, funding identification, implementation, community development and empowerment initiatives, grant eligibility and writing. (5 Points).

   (4) Describe how the results of the technical assistance will be measured and describe the benchmarks to be used to measure effectiveness. Benchmarks should be specific and quantifiable (10 Points).

   (5) Demonstrate that the applicant/intermediary has conducted programs of technical assistance and capacity building in rural communities, for municipalities, community-based organizations and nonprofits and achieved measurable results and best practices in successfully implementing and completing the community development project. (10 Points).

   (b) Soundness of Approach—Maximum 15 Points

   The application can receive up to 15 points for soundness of approach. The overall proposal will be considered under this criterion.

   The maximum of 15 points for this criterion will be based on the following:

   (2) The ability to provide the proposed technical assistance and capacity building based on prior accomplishments (6 Points).

   (3) Cost effectiveness will be evaluated based on the budget in the application. The proposed grant amount and matching funds should be utilized to maximize capacity building at the recipient level (2 Points).

(d) State Director’s Points—Maximum 30 Points

The State Director may award up to 30 discretionary points for projects to address items such as geographic distribution of funds, emergency conditions caused by economic problems, natural disasters and other initiatives identified by the Secretary. The State Director may also award points to any application that will advance the following key priorities:

1. **Addressing Climate Change and Environmental Justice:** Reducing climate pollution and increasing resilience to the impacts of climate change through economic support to rural communities. Applicants may receive priority points addressing climate change in three ways:
   - **Option 1:** Applicants will receive points if the project is located in or serves a Disadvantaged Community as defined by the Climate and Economic Justice Screening Tool (CEJST), from the White House Council on Environmental Quality (CEQ). CEJST is a tool to help Federal agencies identify disadvantaged communities that will benefit from programs included in the Justice40 initiative. Census tracts are considered disadvantaged if they meet the thresholds for at least one of the CEJST’s eight (8) categories of burden: Climate, Energy, Health, Housing, Legacy Pollution, Transportation, Water and Wastewater, or Workforce Development.
   - **Option 2:** Applicants will receive points if the project is located in or serves an Energy Community as defined by the Inflation Reduction Act (IRA). The IRA defines energy communities as:
     - A “brownfield site” (as defined in certain subparagraphs of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (CERCLA))
     - A “metropolitan statistical area” or “non-metropolitan statistical area” that has (or had at any time after 2009)
     - 0.17% or greater direct employment or 25% or greater local tax revenues related to the extraction, processing, transport, or storage of coal, oil, or natural gas; and has an unemployment rate at or above the national average unemployment rate for the previous year
     - A census tract (or directly adjoining census tract) in which a coal mine has closed after 1999; or in which a coal-fired electric generating unit has been retired after 2009
   - **Option 3:** Applicants will receive points by demonstrating through written narrative how proposed climate-impact projects improve the livelihoods of community residents and meet pollution mitigation or clean energy goals.
Information on whether your project qualifies for priority points can be found at the following website: https://www.rd.usda.gov/priority-points.

(2) Advancing Racial Justice, Place-Based Equity, and Opportunity: Ensuring all rural residents have equitable access to RD programs and benefits from RD funded projects.

This priority aligns with the Executive Order on Advancing Racial Equity and Support for Underserved Communities Through the Federal Government. The Applicant receives priority points if the project is located in or serving a community with score 0.75 or above on the CDC Social Vulnerability Index. Please use Community Look-Up Map to look up points.

US Territories are considered socially vulnerable and qualify for priority points.

Information on whether your project qualifies for priority points can be found at the following website: https://www.rd.usda.gov/priority-points.

(3) Creating More and Better Markets: Assisting rural communities to recover economically through more and better market opportunities through improved infrastructure.

Applicants receive priority points if the project is located in or serving a rural community whose economic well-being ranks in the most distressed tier of the Distressed Communities Index. The Distressed Communities Index provides a score between 1–100 for every community at the zip code level. The most distressed tier of the index are those communities with a score over 80. Please use the Distressed Communities Index Look-Up Map to determine if your project qualifies for priority points by using the following link: http://www.rd.usda.gov/priority-points/rural-development-priorities-fy-2024. For additional information on data sources used for this priority determination, please download the Data Sources for Rural Development Priorities document. US Territories are considered distressed and qualify for priority points.

Information on whether your project qualifies for priority points can be found at the following website: https://www.rd.usda.gov/priority-points.

2. Review and Selection Process.

If requests exceed funds available, the applications will be rated and ranked by a review panel based on the "Application Review Information" contained in this Notice.

(a) There is a tie score after the applications have been rated and ranked, the tie will be resolved by reviewing the scores for “Building Capacity and Expertise” and the applicant with the highest score in that category will receive a higher ranking. If the scores for “Building Capacity and Expertise” are the same, the scores will be compared for the next criterion, in sequential order, until the highest score can be determined. If all scores are equal Agency discretion applies.

(b) Initial screening: The Puerto Rico Rural Development State Office will screen each application to determine eligibility during the period immediately following the application deadline. Listed below are examples of reasons for rejection from previous funding rounds. The following reasons for rejection are not all inclusive; however, they represent the majority of the applications previously rejected.

- Recipients were not located in eligible rural areas based on the definition in this Notice.
- Applicants failed to provide evidence of recipient’s status, i.e., documentation supporting nonprofit evidence of organization.
- Application did not follow the RPN RCDI structure with an intermediary and recipients.
- Intermediary did not provide evidence it had been incorporated for at least three years as the applicant entity.
- Applicants failed to address the “Application Review Information” in this Notice.
- The purpose of the proposal did not qualify as an eligible RPN RCDI purpose.
- Inappropriate use of funds (e.g., construction or renovations).
- The applicant proposed providing financial and technical assistance directly to individuals.
- The application package was not received by closing date and time.

SUPPLEMENTARY INFORMATION:

Background

Commerce published the Preliminary Results of this administrative review in the Federal Register on December 28, 2023, and invited interested parties to comment. On February 8, 2024, we received case briefs from the following interested parties: Riverside, Jiangsu Senmao, the Government of the People’s Republic of China (GOC), and the American Manufacturers of Multilayered Wood Flooring (AMMWF). In addition, Commerce received a letter from Anhui Longhua Bamboo Product Co., Ltd.; Benxi Flooring Factory (General Partnership); Benxi Wood Company; Dalian Jiahong Wood Industry Co., Ltd.; Dalian Shengyu Science and Technology Development Co., Ltd.; Dongtai Fuan Universal Dynamics, LLC; HaiLin LinJing Wooden Products Co., Ltd.; Jiangsu MingLe Flooring Co., Ltd.; Jiangsu Simba Flooring Co., Ltd.; Jiangsu Yuhui International Trade Co., Ltd.; Jiashan On-Line Lumber Co., Ltd.; Kingman Wood Industry Co., Ltd.; Pinge Timber Manufacturing (Zhejiang) Co., Ltd.; Suzhou Dongda Wood Co., Ltd.; Tongxiang Jisheng Import and Export Co., Ltd.; Yihua Lifestyle Technology Co., Ltd.; Zhejiang Shiyou Timber Co., Ltd.; and Timber Liquidators Services, LLC (collectively, CH Respondents) supporting arguments made by the mandatory respondents and the GOC. On February 20, 2024, AMMWF, Riverside, and Jiangsu Senmao submitted timely rebuttal briefs. Also on February 20, 2024, Commerce received a letter from the CH Respondents supporting the arguments presented in the rebuttal briefs by the GOC and the mandatory respondents.

Scope of the Order

The product covered by the Order is multilayered wood flooring from China. For a complete description of the scope of the Order, see the Issues and Decision Memorandum.

Analysis of Comments Received

All issues raised in the parties’ briefs are addressed in the Issues and Decision Memorandum. A list of the issues addressed is attached to this notice at Appendix I. The Issues and Decision Memorandum is a public document and is on file electronically via Enforcement and Compliance’s Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS). ACCESS is available to registered users at https://access.trade.gov. In addition, a complete version of the Issues and Decision Memorandum can be accessed directly at https://access.trade.gov/public/FRNoticesListLayout.aspx.

Changes Since the Preliminary Results

Based on our analysis of the case and rebuttal briefs and the evidence on the record, we made certain changes from the Preliminary Results, and we revised the net countervailable subsidy rates for Riverside and Jiangsu Senmao. These changes are explained in the Issues and Decision Memorandum.

Methodology

Commerce is conducting this review in accordance with section 751(a)(1)(A) of the Tariff Act of 1930, as amended (the Act). For each of the subsidy programs found countervailable, we find that there is a subsidy, i.e., a government-provided financial contribution that gives rise to a benefit to the recipient, and that the subsidy is specific. The Issues and Decision Memorandum contains a full description of the methodology underlying Commerce’s conclusions, including any determination that relied upon the use of adverse facts available pursuant to sections 776(a) and (b) of the Act.
