[Project No. 1494–473]

Grand River Dam Authority; Notice Dismissing Request for Clarification

On July 2, 2024, the City of Miami, Oklahoma (City), filed a request for clarification of Commission staff's June 3, 2024 order¹ granting Grand River Dam Authority (GRDA), licensee of the Pensacola Project No. 1494, an extension of time to complete its flooding and property rights report required by the Commission's January 18, 2024 Order on Remand (Order on Remand).² The City requests that the Commission clarify the intended scope

of analysis of the flooding and property rights report required by the Order on Remand.³

On July 17, 2024, GRDA filed an answer to the City's request for clarification asserting that the Commission should reject the City's request because no clarification is needed, it is time barred under section 313(a) of the FPA, and it is relitigating issues that the Commission has previously rejected.⁴

The City's request for clarification concerns the scope of the flooding and property rights report required by the Commission's Order on Remand and discussed in GRDA's request for an extension of time to file its report. Rule 213 of the Commission's regulations allows for an answer to a motion for an extension of time within five days after the motion is filed.⁵ Here, the deadline to file an answer to GRDA's extension of time request was May 21, 2024. The City filed its request for clarification on July 2, 2024, well beyond the date allowed under the Commission's regulations. Therefore, the City's request for clarification is dismissed.

Dated: August 1, 2024.

Public Participation

There are three ways to become involved in the Commission's review of this project: you can file a protest to the project, you can file a motion to intervene in the proceeding, and you can file comments on the project. There is no fee or cost for filing protests, motions to intervene, or comments. The deadline for filing protests, motions to intervene, and comments is 5:00 p.m. Eastern Time on September 30, 2024. How to file protests, motions to intervene, and comments is explained below.

The Commission's Office of Public Participation (OPP) supports meaningful public engagement and participation in Commission proceedings. OPP can help members of the public, including landowners, environmental justice communities, Tribal members and others, access publicly available information and navigate Commission processes. For public inquiries and assistance with making filings such as interventions, comments, or requests for

rehearing, the public is encouraged to contact OPP at (202) 502-6595 or OPP@ferc.gov.

Protests

Pursuant to section 157.205 of the Commission's regulations under the NGA,¹ any person² or the Commission's staff may file a protest to the request. If no protest is filed within the time allowed or if a protest is filed and then withdrawn within 30 days after the allowed time for filing a protest, the proposed activity shall be deemed to be authorized effective the day after the time allowed for protest. If a protest is filed and not withdrawn within 30 days after the time allowed for filing a protest, the instant request for authorization will be considered by the Commission.

Protests must comply with the requirements specified in section 157.205(e) of the Commission's regulations,³ and must be submitted by the protest deadline, which is September 30, 2024. A protest may also serve as a motion to intervene so long as the protestor states it also seeks to be an intervenor.

Interventions

Any person has the option to file a motion to intervene in this proceeding. Only intervenors have the right to request rehearing of Commission orders issued in this proceeding and to subsequently challenge the Commission's orders in the U.S. Circuit Courts of Appeal.

To intervene, you must submit a motion to intervene to the Commission in accordance with Rule 214 of the Commission's Rules of Practice and Procedure⁴ and the regulations under the NGA⁵ by the intervention deadline for the project, which is September 30, 2024. As described further in Rule 214, your motion to intervene must state, to the extent known, your position regarding the proceeding, as well as your interest in the proceeding. For an individual, this could include your status as a landowner, ratepayer, resident of an impacted community, or recreationist. You do not need to have property directly impacted by the project in order to intervene. For more information about motions to intervene, refer to the FERC website at [https://](https://www.ferc.gov/resources/guides/how-to-intervene.asp)

www.ferc.gov/resources/guides/how-to-intervene.asp.

All timely, unopposed motions to intervene are automatically granted by operation of Rule 214(c)(1). Motions to intervene that are filed after the intervention deadline are untimely and may be denied. Any late-filed motion to intervene must show good cause for being late and must explain why the time limitation should be waived and provide justification by reference to factors set forth in Rule 214(d) of the Commission's Rules and Regulations. A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies (paper or electronic) of all documents filed by the applicant and by all other parties.

Comments

Any person wishing to comment on the project may do so. The Commission considers all comments received about the project in determining the appropriate action to be taken. To ensure that your comments are timely and properly recorded, please submit your comments on or before September 30, 2024. The filing of a comment alone will not serve to make the filer a party to the proceeding. To become a party, you must intervene in the proceeding.
