SUPPLEMENTARY INFORMATION: On July 31, 2024, NHTSA issued a Supplemental Initial Decision That Certain Frontal Driver and Passenger Air Bag Inflators Manufactured by ARC Automotive Inc. and Delphi Automotive Systems LLC, and Vehicles in Which Those Inflators Were Installed, Contain a Safety Defect pursuant to 49 U.S.C. 30118(a) and 49 CFR 554.10. 89 FR 63473 (Aug. 5, 2024). More specifically, NHTSA confirmed its initial decision of September 5, 2023, at 88 FR 62140, that certain air bag inflators manufactured by ARC Automotive Inc. (ARC) and Delphi

Automotive Systems LLC (Delphi) may rupture when the vehicle's air bag is commanded to deploy, causing metal debris to be forcefully ejected into the passenger compartment of the vehicle, and that these rupturing air bag inflators pose an unreasonable risk of serious injury or death to vehicle occupants. In accordance with 49 U.S.C. 30118(b)(1) and 49 CFR 554.10(c)(4), the Supplemental Initial Decision provided manufacturers and any interested person an opportunity to present information, views, and arguments in response to the Supplemental Initial Decision by submitting written information to the Agency. The original deadline for written submissions in response to the Supplemental Initial Decision was September 4, 2024. Based on a request received on August 7, 2024, NHTSA extended the original deadline to October 4, 2024.

Written Submission Deadline Extension Request

On October 2, 2024, NHTSA received a request from counsel representing certain unspecified motor vehicle and motor vehicle equipment manufacturers asking NHTSA to extend the period for written submissions by two weeks. The request claimed that, based on five documents in the agency's investigative file to which the manufacturers received access on October 1, 2024, the manufacturers needed more time to adequately review the documents and prepare their responses. A copy of the extension request and NHTSA's response will be added to the public docket.

Extension of Written Submission Deadline

After consideration of the request and the limited information contained in the five documents, NHTSA decided to extend the deadline to provide written submissions by one week. The prior deadline of October 4, 2024 has been extended, and written submissions from any interested person are now due before the close of business on October 11, 2024.

II. Legal Basis and Need for Collection

This information collection is mandatory: 12 U.S.C. 602 (Board); 12 U.S.C. 161 and 602 (OCC); and 12 U.S.C. 1828 (FDIC). This information collection is given confidential treatment under 5 U.S.C. 552(b)(4) and (8).

The FFIEC 030 collects asset and liability information for foreign branches of insured U.S. banks and insured U.S. savings associations (U.S. depository institutions) and is required for regulatory and supervisory purposes. The information is used to analyze the foreign operations of U.S. institutions. All foreign branches of U.S. institutions regardless of charter type file this report as provided in the instructions to the FFIEC 030 and FFIEC 030S. A U.S. depository institution generally must file a separate report for each foreign branch, but in some cases may consolidate filing for multiple foreign branches in the same country, as described below.

A branch with either total assets of at least \$2 billion or commitments to purchase foreign currencies and U.S. dollar exchange of at least \$5 billion as of the end of a calendar quarter is considered a "significant branch" and an FFIEC 030 report is required to be filed quarterly. A U.S. depository institution with a foreign branch having total assets in excess of \$250 million that does not meet either of the criteria to file quarterly must file the entire FFIEC 030 report for this foreign branch on an annual basis as of December 31, with respect to this foreign branch.

A U.S. depository institution with a foreign branch having total assets of \$50 million, but less than or equal to \$250 million that does not meet the criteria to file the FFIEC 030 report must file the FFIEC 030S report for this foreign branch on an annual basis as of December 31. A U.S. depository institution with a foreign branch having total assets of less than \$50 million is exempt from filing the FFIEC 030 and 030S reports.

III. Current Actions

On January 19, 2024, the agencies proposed revisions to the FFIEC 030 that would incorporate line items from the FR 2502q. The comment period for the January notice ended on March 19, 2024. The agencies received comments from two banking associations. These comments were generally supportive of the proposed new line items. After

reviewing the comments, the agencies are moving forward with the proposed revisions to the FFIEC 030, with certain modifications. The specific comments, the agencies' responses, and pertinent modifications follow.

First, one commenter urged the agencies to limit the scope of respondents subject to the proposed Schedule RAL-A to those that meet the current criteria to file the FR 2502q. The commenter stated that there are significant scoping differences between the FR 2502q and the FFIEC 030. The FR 2502q reporting is limited to branches with total assets of \$2 billion or more and that are located in the United Kingdom (U.K.) or the Caribbean. The FFIEC 030 quarterly reporting requirements, however, scope in any branch with either total assets of at least \$2 billion or commitments to purchase foreign currencies and U.S. dollar exchange (a purchase of U.S. dollar exchange is equivalent to a sale of foreign currency) of at least \$5 billion as of the end of a calendar quarter. The commenter stated that the FFIEC 030's reporting scope, without the geographic limitation to branches in the U.K. and the Caribbean, results in a much greater reporting burden on firms.

Furthermore, this commenter also stated that the proposed changes and increased granularity of the items reported would necessitate both the development of new systems, as well as modifications to existing ones. For example, the commenter noted the amount to be reported on proposed Schedule RAL-A, line item 5, "Assets that are claims on U.S. addressees other than depository institutions," includes new sub-line items that are more granular than the amount currently reported in FR 2502q item 1.c, "U.S. addressees other than depository institutions," and would increase burden to all filers of the FFIEC 030. This reporting burden would be greatest on respondents that have newly scoped-in entities that would be reporting this information for the first time. In light of this, the commenter requested that, if the scope of respondents on the proposed FFIEC 030 Schedule RAL-A is not limited to those that currently meet the criteria to file the FR 2502q, branches would need at least four quarters from publication of the final forms and instructions to implement the revisions. However, if the scope were limited to branches that meet the current criteria to file the FR 2502q, branches would only need two additional quarters to implement the proposal.

The agencies acknowledge that branches may need additional time to

develop their reporting systems to implement these changes. As such, the agencies will delay the implementation date based on the branch meeting the criteria to file the FR 2502q. Beginning as of the March 31, 2025, report date, all branches that are located in the U.K. or Caribbean (that are not located in a U.S. military facility), and with total assets of at least \$2 billion (as reported in Schedule RAL, item 11) as of the end of the calendar quarter, must complete new Schedule RAL-A. Beginning as of the December 31, 2025, report date, all branches required to report the FFIEC 030 on a quarterly basis must complete new Schedule RAL-A without any geographic limitation of being located in the U.K. or Caribbean. Branches that file the FFIEC 030 on an annual basis do not need to report the new items. The FFIEC 030 instructions will be updated to reflect these changes.

Second, the commenter requested that the agencies clarify the reporting of proposed Schedule RAL-A, line item 5, "Assets that are claims on U.S. addressees other than depository institutions," by adding a Micro Data Reference Manual (MDRM) number and to include in the instructions that this line item is not an aggregate total of its sub-items. The commenter also requested that the agencies clarify whether Schedule RAL-A, line item 6, "Liabilities to U.S. addressees other than depository institutions," is intended to extend to all liabilities or if respondents should report only deposit liabilities. In response, the agencies are revising the report form by adding a MDRM to line item 5 on Schedule RAL-A and also clarifying in the instructions that line item 5 on Schedule RAL-A is not an aggregate total of sub-items 5.a through 5.d. The agencies are also clarifying in the instructions of Scheduled RAL-A, line item 6, that it is intended to extend to all liabilities and not only to deposit liabilities.

Lastly, separate from this proposal, on June 7, 2024, the Board published in the **Federal Register** an initial notice¹ requesting public comment for 60 days on the extension with revision to the Financial Statements of Foreign Subsidiaries of U.S. Banking Organizations (FR 2314). The comment period of the June notice ended on August 6, 2024, and the Board received a comment from a banking trade organization regarding the proposed changes to the FFIEC 030. Specifically, the commenter requested clarification on the reporting of claims/liabilities with related institutions on the FFIEC 030. In the proposed instructions of

¹ See 89 FR 48639.

Schedule RAL–A line items 5 and 6, it states to “Report claims/liabilities on U.S. addressees other than parent bank and other depository institutions” and contains no specific instructions on how to treat claims/liabilities with related institutions. However, on the proposed FR 2314 Schedule BS–Q line items 3 and 4, the instructions explicitly state to “exclude balances with related institutions.”

The commenter requested that the Board work with the other agencies to clarify that balances with related institutions, as defined in FFIEC 030S and reported in FFIEC 030 proposed Schedule RAL–A items 1–4, should be excluded for the purposes of FFIEC 030 Schedule RAL–A items 5 and 6. In response to the commenter, to make the instructions more parallel between the FFIEC 030 and FR 2314, the agencies will clarify in the FFIEC 030 instructions to explicitly exclude balances with related institutions from the amounts reported in Schedule RAL–A, items 5 and 6.

IV. Timing

The proposed revisions to the FFIEC 030 would be effective as of the March 31, 2025, report date for branches that currently meet the criteria to file the FR 2502q (*i.e.*, those located in the U.K. or Caribbean). For a branch that does not meet the current criteria to file the FR 2502q, but files the FFIEC 030 on a quarterly basis, the effective date for these new items will be as of December 31, 2025.

V. Request for Comment

Public comment is requested on all aspects of this joint notice. Comment is specifically invited on:
