Comments are requested concerning: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have

practical utility; (b) the accuracy of the Commission’s burden estimates; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology. Pursuant to the Small Business Paperwork Relief Act of 2002, Public Law 107-198, see 44 U.S.C. 3506(c)(4), the FCC seeks specific comment on how it might “further reduce the information collection burden for small business concerns with fewer than 25 employees.”

OMB Control Number: 3060-0719.

Title: Quarterly Report of Local Exchange Carriers Listing Payphone Automatic Number Identifications (ANIs).

Form Number: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit entities.

Number of Respondents and Responses: 400 respondents; 1,600 responses.

Estimated Time per Response: 3.5 hours (8 hours for the initial submission; 2 hours per subsequent submission, for an average of 3.5 hours per response).

Frequency of Response: Quarterly reporting requirement, recordkeeping requirement, and third party disclosure requirement.

Obligation to Respond: Required to obtain or retain benefits. Statutory authority for this information collection is contained in 47 U.S.C. 151, 154, 201-205, 215, 218, 219, 220, 226 and 276 of the Communications Act of 1934, as amended.

Total Annual Burden: 5,600 hours.

Total Annual Cost: No cost.

Needs and Uses: The Commission adopted rules and policies governing the payphone industry under section 276(b)(1)(A) of the Telecommunications Act of 1996 (the Act) and established “a per call compensation plan to ensure that all payphone service providers are fairly compensated for each and every completed intrastate and interstate call.” Pursuant to this mandate, and as required by section 64.1310(d) of the Commission’s rules, Local Exchange Carriers (LECs) must provide to carriers required to pay compensation pursuant to section 64.1300(a), a quarterly report listing payphone ANIs. Without provision of this report, resolution of disputed ANIs would be rendered very difficult. Carriers would not be able to discern which ANIs pertain to payphones and therefore would not be

able to ascertain which dial-around calls were originated by payphones for compensation purposes. There would be no way to guard against possible fraud. Without this collection, lengthy investigations would be necessary to verify claims. The report allows carriers to determine which dial-around calls are made from payphones. The information must be provided to third parties. The requirement would be used to ensure that LECs and the carriers required to pay compensation pursuant to 47 CFR 64.1300(a) of the Commission's rules comply with their obligations under the Telecommunications Act of 1996.

Federal Communications Commission.

General Description of Collection. In 2008, the Office of the Comptroller of the Currency, the Board of Governors of the Federal Reserve System, and the FDIC issued a supervisory guidance document related to the supervisory review process of capital adequacy (Pillar 2) in connection with the implementation of the Basel II Advanced Capital Framework. Sections 37, 41, 43, and 46 of the guidance include possible information collections. Section 37 provides that banks should state clearly the definition of capital used in any aspect of its internal capital adequacy assessment process (ICAAP) and document any changes in the internal definition of capital. Section 41 provides that banks

should maintain thorough documentation of its ICAAP. Section 43 specifies that the board of directors should approve the bank's ICAAP, review it on a regular basis and approve any changes. Section 46 recommends that boards of directors periodically review the assessment of overall capital adequacy and analyze how measures of internal capital adequacy compare with other capital measures such as regulatory or accounting. There has been no change in the method or substance of this information collection, and the burden is unchanged from the 2021 burden estimate.
