Agricultural Marketing Service

[Doc. No. AMS-LP-24-0064]

Notice of Request for Extension of a Currently Approved Information Collection

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, this notice announces the Agricultural Marketing Service's (AMS) intention to request approval from the Office of Management and Budget (OMB) for an extension of the currently approved information collection "Plan for Estimating Daily Livestock Slaughter Under Federal Inspection" (OMB 0581-0050).

DATES: Comments on this notice must be received by December 24, 2024 to be assured of consideration.

ADDRESSES: Interested persons are invited to submit comments concerning this notice online using the electronic process available at <https://www.regulations.gov>. Comments may also be submitted to Russell Avalos, Livestock, Poultry, and Grain Market News Division, Livestock and Poultry Program, Agricultural Marketing Service, U.S. Department of Agriculture; STOP 0252; 1400 Independence Avenue SW; Room 2619-S; Washington, DC 20250-0252. All comments should reference docket number AMS-LP-24-0064 and note the date and page number of this issue of the **Federal Register**. All comments submitted in response to this notice will be posted without change, including any personal information provided, at <https://www.regulations.gov/>, and become a matter of public record.

FOR FURTHER INFORMATION CONTACT: Russell Avalos, Livestock, Poultry, and Grain Market News Division, AMS, USDA, by telephone at (202) 738-2112, or via email at Russell.Avalos@usda.gov.

SUPPLEMENTARY INFORMATION:

Title: Plan for Estimating Daily Livestock Slaughter Under Federal Inspection.

OMB Number: 0581-0050.

Expiration Date of Approval: December 31, 2024.

Type of Request: Extension of a currently approved information collection.

Abstract: The Agricultural Marketing Act of 1946 (7 U.S.C. 1621-1627), section 203(g), directs and authorizes the U.S. Department of Agriculture (USDA) to collect and disseminate marketing information including adequate outlook information, on a market area basis, for the purpose of anticipating and meeting consumer requirements, aiding in the maintenance of farm income, and to bring about a balance between production and utilization.

Under this Market News program, AMS issues a Market News report estimating daily livestock slaughter under Federal inspection. This report is compiled by AMS on a voluntary basis in cooperation with the livestock and meat industry. Market News reporting must be timely, accurate, and continuous if it is to be useful to producers, processors, and the trade in general. The daily livestock slaughter estimates are provided at the request of industry and are used to make production and marketing decisions.

The Daily Estimated Livestock Slaughter Under Federal Inspection Report is used by a wide range of industry contacts, including packers, processors, producers, brokers, and retailers of meat and meat products. The livestock and meat industry requested that AMS issue slaughter estimates (daily and weekly), by species, for cattle, calves, hogs, and sheep in order to assist them in making immediate production and marketing decisions and as a guide to the volume of meat in the marketing channel. The information requested from respondents includes their estimation of the current day's slaughter at their plant(s) and the actual slaughter for the previous day. Also, the Government is a large purchaser of meat and related products and this report assists other Government agencies in providing timely information on the quantity of meat entering the processing channels.

The aforementioned information must be collected, compiled, and disseminated by an impartial third-party, in a manner which protects the confidentiality of the reporting entity. USDA's Agricultural Marketing Service is in the best position to provide this service.

Estimate of Burden: Public reporting burden for this collection of information is estimated to average .0333 hours per response.

Respondents: Business or other for-profit entities, individuals or households, farms, and the Federal Government.

Estimated Number of Respondents: 69.

Estimated Number of Responses: 17,940.

Estimated Number of Responses per Respondent: 260.

Estimated Total Annual Burden on Respondents: 597 hours.

Comments: Comments are invited on: (1) whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility; (2) the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

All responses to this notice will be summarized and included in the request for OMB approval. All comments will become a matter of public record.

Melissa Bailey,

Associate Administrator, Agricultural Marketing Service.
