Abstract: The Controlled Substances Act (CSA) (21 U.S.C. 801–971) requires all persons who handle controlled substances to obtain a registration from the Attorney General. 21 U.S.C. 822, 823, 831, 957, and 958. The “Protecting Patient Access to Emergency Medications Act of 2017,” (hereafter the “Act”) which became law on November 17, 2017, amended the Controlled Substances Act to allow for a new registration category for emergency medical services agencies that handle controlled substances. It also established standards for registering emergency medical services agencies, and set forth new requirements for delivery, storage, and recordkeeping related to their handling of controlled substances.

With this proposed collection, DEA is proposing recordkeeping regulations for EMS agencies to incorporate the Act's CSA amendments regarding recordkeeping, and to ensure an accurate accounting of the controlled substances outside the two-registrant integrity system.

The Act require EMS agencies to maintain records of the EMS personnel whose State license or certification gives them the ability to administer controlled substances, in compliance with their State laws. Under 21 U.S.C 827(b), controlled substance records for all DEA registrants are required to be maintained for at least two years from the date of such inventory or records. Following the Act, 21 U.S.C. 823(k)(9)(B)(ii), DEA would require that records be maintained, whether electronically or otherwise, at each registered and

designated location of the agency where the controlled substances involved are received, administered, or otherwise disposed of.

Consistent with the Act's amendments to the CSA, 21 U.S.C. 823(k)(9), DEA would require an EMS agency to maintain records for each controlled substance administered or disposed of in the course of providing emergency medical services. In addition, any EMS personnel who disposes of or administers controlled substances to a patient in the course of providing emergency medical care would have to record the name of the controlled substance(s) and detailed information about the circumstances surrounding the administration of the controlled substance(s) (e.g., name of the substance, date dispensed, identification of the patient).

Additionally, in accordance with 21 U.S.C 821(k)(9)(b), that an EMS agency must maintain records of controlled substances delivered between registered and designated locations of the agency (except agencies restocking at the hospital under which the EMS agency is operating, because the hospital is required to keep records of such restocking). These records, for example, should include the name of the controlled substance(s), finished form, number of units in the commercial container, date delivered, and the address of the EMS agency location where the controlled substances were delivered.

5. *Obligation to Respond*: Voluntary.
6. *Total Estimated Number of Respondents*: 21,283.
7. *Estimated Time per Respondent*: 5 minutes.
8. *Frequency*: 52 per year.
9. *Total Estimated Annual Time Burden*: 92,226 hours.
10. *Total Estimated Annual Other Costs Burden*: \$0.

If additional information is required, contact: Darwin Arceo, Department Clearance Officer, Policy and Planning Staff, Justice Management Division, United States Department of Justice, Two Constitution Square, 145 N Street NE, 4W-218 Washington, DC 20530.

Dated: December 6, 2024.

Darwin Arceo,

Department Clearance Officer for PRA, U.S. Department of Justice.
