Consistent with the Act's amendments to the CSA, 21 U.S.C. 823(k)(9), DEA would require an EMS agency to maintain records for each controlled substance administered or disposed of in the course of providing emergency medical services. Additionally, in accordance with 21 U.S.C 821(k)(9)(b), that an EMS agency must maintain records of controlled substances delivered between registered and designated locations of the agency (except agencies restocking at the hospital under which the EMS agency is operating, because the hospital is required to keep records of such restocking). These records, for example, should include the name of the controlled substance(s), finished form, number of units in the commercial container, date delivered, and the address of the EMS agency location where the controlled substances were delivered.
