

(PRA). Public comments on the ICR are invited.

DATES: The OMB will consider all written comments that the agency receives on or before January 16, 2025.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.

FOR FURTHER INFORMATION CONTACT: Michael Howell by telephone at 202–693–6782, or by email at DOL_PRA_PUBLIC@dol.gov.

SUPPLEMENTARY INFORMATION: Using the Resource Justification Model (RJM), state agencies electronically submit detailed cost data in a structured format (spreadsheet file). The information specifies salary and benefit rates, workloads, processing times, and non-personal services dollars, which are used to inform ETA’s administrative funding allocation process. Review and validation of the data by ETA Regional Offices is also an important part of the RJM. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on May 3, 2024 (89 FR 36833).

Comments are invited on: (1) whether the collection of information is necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; (2) the accuracy of the agency’s estimates of the burden and cost of the collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information collection; and (4) ways to minimize the burden of the collection of information on those who are to respond, including the use of automated collection techniques or other forms of information technology.

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless the OMB approves it and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid OMB Control Number. See 5 CFR 1320.5(a) and 1320.6.

DOL seeks PRA authorization for this information collection for three (3)

years. OMB authorization for an ICR cannot be for more than three (3) years without renewal. The DOL notes that information collection requirements submitted to the OMB for existing ICRs receive a month-to-month extension while they undergo review.

NATIONAL SCIENCE FOUNDATION

Notice of Permit Modification Received Under the Antarctic Conservation Act of 1978

AGENCY: National Science Foundation.

ACTION: Notice of Permit Modification Request.

SUMMARY: The National Science Foundation (NSF) is required to publish a notice of requests to modify permits issued to conduct activities regulated under the Antarctic Conservation Act of 1978. This is the required notice of a requested permit modification.

DATES: Interested parties are invited to submit written data, comments, or views with respect to this permit application by January 16, 2025. Permit applications may be inspected by interested parties at the Permit Office, address below.

ADDRESSES: Comments should be addressed to Permit Office, Office of Polar Programs, National Science Foundation, 2415 Eisenhower Avenue, Alexandria, Virginia 22314.

FOR FURTHER INFORMATION CONTACT: Andrew Titmus, ACA Permit Officer, Office of Polar Programs, National Science Foundation, 2415 Eisenhower Avenue, Alexandria, VA 22314; 703–292–4479; or ACApermits@nsf.gov.

SUPPLEMENTARY INFORMATION: The National Science Foundation, as directed by the Antarctic Conservation Act of 1978 (Pub. L. 95–541), as amended by the Antarctic Science, Tourism and Conservation Act of 1996, has developed regulations for the establishment of a permit system for various activities in Antarctica and designation of certain animals and certain geographic areas as requiring special protection. The regulations establish such a permit system to designate Antarctic Specially Protected Areas.

Description of Permit Modification Requested: The Foundation issued a permit (ACA 2025–019) to Ari Friedlaender on December 1, 2024. The issued permit allows for Take, Harmful interference, and Import into USA associated with research activities on the ecology of cetaceans in the Antarctic Peninsula. The permitted activities include the use of Remotely Piloted Aircraft Systems (RPAS), deployment of tags to collect spatial and behavioral information, collection of biopsies, and conducting behavioral observations.

Now the holder proposes a modification to the permit to access Antarctic Specially Protected Area 113, Litchfield Island in order to collect aerial footage using RPAS as part of a collaborate effort with activities by Natasja van Gestel conducted under permit ACA 2023–007. Footage would be used for outreach purposes to highlight the importance of plant covered land in Antarctica. The collaboration proposes to allow RPAS filming under this permit (2025–019) as the holder is experienced in operating

RPAS at this location without disturbance to wildlife. A total of three flights would be conducted over a three day period with flights above 40 meters AGL.

Location: ASPA 113, LITCHFIELD ISLAND.

Dates: January 12, 2024 to January 31, 2024.

Alina Pavao,

Administrative Assistant, Office of Polar Programs.
