For practitioners currently working at or affiliated with a registered hospital or clinic, the hospital/clinic have to check a government-issued photographic identification. This may be done when the hospital/clinic issues credentials to new hires or newly affiliated physicians. For individual practitioners, two people need to enter logical access control data to grant permissions for practitioners authorized to approve and sign controlled substance prescriptions using the electronic prescription application. For institutional practitioners, logical access control data is entered by two people from an entity within the hospital/clinic that is separate from the entity that conduct identity proofing in-house. Similarly, pharmacies have to set logical access controls in the pharmacy application so that only authorized employees have permission to annotate or alter prescription records. Finally, if the electronic prescription or pharmacy application generates an incident report, practitioners, hospitals/clinics, and pharmacies have to review the incident report to determine if the event identified by the application represents a security incident.

### Notice of Lodging of Proposed Partial Consent Decree Under the Comprehensive Environmental Response, Compensation, and Liability Act

On January 17, 2025, the Department of Justice lodged a proposed Partial Consent Decree with the United States District Court for the District of Columbia in the lawsuit entitled *Government of Guam v. United States*, Civil Action No. 1:17-cv-2487.

The Government of Guam ("Guam") filed a lawsuit under Section 107 of the Comprehensive Environmental Response, Compensation, and Liability Act ("CERCLA"), 42 U.S.C. 9607, against the United States for recovery of past and future costs that Guam has incurred or will incur for response actions taken at or in connection with the Ordot Dump Superfund Site ("Site"), which was the only civilian municipal waste disposal area for the island of Guam from the early 1950s until September 2011. The United States filed a counterclaim under CERCLA Section 107 seeking to recover past costs incurred by the United States in responding to the release of hazardous substances at the Site and a declaratory judgment for entitlement to future costs. The proposed Partial Consent Decree requires Guam to pay \$3.9 million plus \$17,745.53 of accrued interest to resolve the United States' claims for response costs incurred on or before August 10, 2022. The United States' claims for response costs incurred or to be incurred after August 10, 2022 remain to be resolved in the lawsuit. Guam's CERCLA claims against the United States were previously resolved in Consent Decrees entered by the Court on September 25, 2023, and October 2, 2024.

The publication of this notice opens a period for public comment on the proposed Partial Consent Decree. Comments should be addressed to the Assistant Attorney General,
