#### Notice of Final Federal Agency Actions on Transportation Project in Washington State

**AGENCY:** Federal Highway Administration (FHWA), Department of Transportation (DOT).

**ACTION:** Notice of limitation on claims for Judicial Review of actions by FHWA.

**SUMMARY:** This notice announces actions taken by FHWA that are final. The action relates to the approval of the categorical exclusion for the SR 509/Clear Creek Restoration Project in Pierce County, State of Washington. Those actions grant licenses, permits, and approvals for the project.

**DATES:** By this notice, FHWA is advising the public of final Agency actions subject to 23 U.S.C. 139(l)(1). A claim seeking judicial review of the Federal agency actions on the listed highway project will be barred unless the claim is filed on or before August 18, 2025. If the Federal law that authorizes judicial

review of a claim provides a time period of less than 150 days for filing such claim, then that shorter time period still applies.

**FOR FURTHER INFORMATION CONTACT:** For FHWA, contact William Witucki, Senior Urban Area Engineer, Washington Division, Federal Highway Administration, 711 Capitol Way S, Suite 501, Olympia, WA 98501–1284, 360–753–9411, or [william.witucki@dot.gov](mailto:william.witucki@dot.gov). Regular office hours are from 8 a.m. to 4:30 p.m., Monday through Friday, except Federal holidays, or Margaret Kucharski, Megaprograms Environmental Manager, Environmental Services Office, Washington State Department of Transportation, 999 3rd Ave., Suite 2300, Seattle, WA 98104, 206–498–0508, or [Margaret.Kucharski@wsdot.wa.gov](mailto:Margaret.Kucharski@wsdot.wa.gov).

**SUPPLEMENTARY INFORMATION:** Notice is hereby given that the FHWA has taken final agency actions within the meaning of 23 U.S.C. 139(l)(1) by issuing licenses, permits, and approvals for the following project in the State of Washington: The SR 509/Clear Creek Restoration Project (Project) will remove two fish passage barriers (WDFW IDs 600317 and 600318) and other infrastructure related to an existing commercial fish hatchery and restore natural stream processes at the Project site. The two existing fish passage barriers (dams) prevent anadromous fish from migrating upstream and divert stream flow, preventing sediment transport downstream.

Restoring Clear Creek to natural stream processes will provide immediate benefits to fish and aquatic wildlife by: removing two fish passage barriers (WDFW IDs 600317 and 600318); opening over 2 miles of spawning habitat that is currently inaccessible to anadromous fish including Federally protected Puget Sound Chinook Salmon; restoring stream processes including floodplain connectivity, sediment continuity, and flood conveyance; eliminating surface water withdrawals and improving water quality and quantity; improving spawning and rearing habitat and habitat complexity.

The actions by the agencies, and the laws under which such actions were taken, are described in the project's FHWA Categorical Exclusion issued on June 21, 2024, and in other documents in the project records. This Statute of Limitations notice applies only to decisions within the Categorical Exclusion dated June 21, 2024.

The Categorical Exclusion and other project records are available by contacting FHWA and WSDOT at the
