(iv) A statement that the complaining station licensee has used commercially reasonable efforts to inform the relevant translator or booster licensee of the claimed interference and attempted private resolution.

Respondents: Business or other for-profit entities.

Number of Respondents and Responses: 2,989 respondents; 665,248 responses.

Estimated Time per Response: 1 minute (.017 hours) to 20 minutes (.33 hours).

Needs and Uses: In the 2005 Report and Order and Further Notice of Proposed Rulemaking, In the Matter of Rules and Regulations Implementing Minimum Customer Account Record Exchange Obligations on All Local and Interexchange Carriers (2005 Report and Order), CG Docket No. 02–386, FCC 05–29, which was released on February 25, 2005, the Commission adopted rules governing the exchange of customer account information between local exchange carriers (LECs) and interexchange carriers (IXCs). The Commission concluded that mandatory, minimum standards are needed in light of record evidence demonstrating that information needed by carriers to execute customer requests and properly bill customers is not being consistently

provided by all LECs and IXCs. Specifically, the 2005 Report and Order requires LECs to supply customer account information to IXCs when: (1) the LEC places an end user on, or removes an end user from, an IXC's network; (2) an end user presubscribed to an IXC makes certain changes to her account information via her LEC; (3) an IXC requests billing name and address information for an end user who has usage on an IXC's network but for whom the IXC does not have an existing account; and (4) a LEC rejects an IXC-initiated PIC order. The 2005 Report and Order required IXCs to notify LECs when an IXC customer informs an IXC directly of the customer's desire to change IXCs. In the accompanying Further Notice of Proposed Rulemaking, the Commission sought comment on whether to require the exchange of customer account information between LECs. In December 2007, the Commission declined to adopt mandatory LEC-to-LEC data exchange requirements.
