[Project No. 15397–000]

Central Hudson Gas & Electric Corporation; Notice of Preliminary Permit Application Accepted for Filing and Soliciting Comments, Motions To Intervene, and Competing Applications

On February 18, 2025, Central Hudson Gas & Electric Corporation filed an application for a preliminary permit, pursuant to section 4(f) of the Federal Power Act (FPA), proposing to study the existing Dashville Hydroelectric Project (Dashville Project) on the Wallkill River in Ulster County, New York. The sole purpose of a preliminary permit, if issued, is to grant the permit holder priority to file a license application during the permit term. A preliminary permit does not authorize the permit holder to perform any land-disturbing activities or otherwise enter upon lands or waters owned by others without the owners' express permission.

The Dashville Project is an existing operating project that currently is not licensed.¹ The project consists of the following facilities: (1) a 358-foot-long concrete gravity dam with a 330-foot-long spillway having a crest elevation of 169 feet mean sea level (msl); (2) a 3.5-foot-high rubber crest gate installed on top of the spillway; (3) an impoundment having a surface area of 300 acres and a storage capacity of 515 acre-feet at a water surface elevation of 172.5 feet msl; (4) a 60-foot-long and 80-foot-wide masonry and reinforced concrete powerhouse containing two turbine-generator units having a total capacity of 5,400 kilowatts; (5) a substation; and (6) appurtenant facilities. The proposed project would have an annual generation of 16,000 megawatt-hours.

Applicant Contact: Ryan Hawthorne, Central Hudson Gas & Electric Corporation, 284 South Avenue, Poughkeepsie, NY 12601; phone: (845) 486–5533.
