Abstract: This form was first approved for the Children and Youth Exposed to Violence (CEV) Program; a federal grant program previously authorized under the Violence Against Women Act. Currently, OVW administers the Children and Youth & Engaging Men (CYEM) Program which supports comprehensive, community-based efforts that develop and expand prevention, intervention, treatment, and response strategies to address the needs of children and youth impacted by domestic violence, dating violence, sexual assault, and stalking. In addition, the CYEM Program focuses on boys' and men's roles in ending violence against women by supporting projects that create educational programming and community organizing to encourage men and boys to work as allies with women and girls to prevent domestic violence, dating violence, sexual assault, and stalking. Through its grant awards, the CYEM Program aims to build safe, supportive, and accountable communities by preventing physical and sexual violence. Since FY 2012, the CYEM Program has been authorized by

federal appropriations acts. The CYEM program releases two separate funding opportunities under one program: (1) Children and Youth (CY) and (2) Engaging Men (EM). The CY Program focuses on services and training to address children exposed to domestic violence, dating violence, sexual assault, and stalking (ages 0–10); creating safer communities for youth: prevention, intervention, treatment, and response services for youth impacted by domestic violence, dating violence, sexual assault, and stalking (ages 11–24); or providing school-based services: prevention, intervention, and response to dating violence, sexual assault, and stalking (ages 5–19). Grantees receiving funds under the CY Program utilize the progress reporting form previously approved for the previously authorized CEV Program grantees.
