

## I. Background

The BLS Quarterly Census of Employment and Wages (QCEW) Program produces a comprehensive tabulation of employment and wage information for workers covered by State unemployment insurance laws and is a virtual census of payroll employment. The BLS produces publicly available files from the QCEW data that include information on the number of establishments, monthly employment, and quarterly wages, by industry, at the 6-digit North American Industry Classification System (NAICS) level, by county by ownership sector, for the entire United States. QCEW data have broad significance in evaluating labor trends and major industry developments. They are used in time series analyses, industry comparisons, and in special studies such as analyses of wages by size of establishment. The program also produces data necessary to both the Employment and Training Administration (ETA) and various State employment security agencies in administering the employment security program.

The QCEW Program contains no individual wage records data; however, the BLS has started a program to exchange data about the employment and wages of individuals that was not previously provided from employers or State UI programs under the QCEW. The program promotes the interchange of information, from participating States who have entered into MOUs with the BLS. The additional wage records data will be compiled into a multi-state longitudinal database and the data will be used to improve existing BLS data products and to explore the creation of new ones. The longitudinal database will allow for research on outcomes of specified cohorts. This type of research answers questions of, for example outcomes for people who receive job training assistance. In addition, compiling a longitudinally linked multi-state database will also provide State partners with limited out-of-state wage records for the purpose of economic and statistical research and further State administration of Workforce Innovation and Opportunity Act (WIOA), 29 U.S.C. chapter 32, reporting requirements.

To provide wage records information to participating States, the BLS must collect certain information from the States. This information collection allows the BLS to obtain the details necessary for providing accurate data to participating States.

## II. Current Action

Office of Management and Budget clearance is being sought for a new collection that will allow States participating in the Bureau of Labor Statistics (BLS) Unemployment Insurance (UI) Wage Records Data Sharing Program to request data from other participating States for statistical research.

## III. Desired Focus of Comments

The Bureau of Labor Statistics is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility.
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used.
- Enhance the quality, utility, and clarity of the information to be collected.
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

*Title of Collection:* BLS Wage Records Data Application.

*OMB Number:* 1220-NEW.

*Type of Review:* New collection.

*Affected Public:* State governments.

*Annual Number of Respondents:* 20.

*Frequency:* Once.

*Total Annual Responses:* 20.

*Average Time per Response:* 10 minutes.

*Estimated Annual Total Burden Hours:* 3.33 hours.

Comments submitted in response to this notice will be summarized and/or included in the request for Office of Management and Budget approval of the information collection request; they also will become a matter of public record.

Signed on March 21, 2025.

## NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[NASA Document Number: 25-013; NASA Docket Number: NASA-2025-0004]

### Name of Information Collection: NASA Aviation Safety Reporting System (ASRS) and Related Voluntary Safety Reporting Systems (VSRS)

**AGENCY:** National Aeronautics and Space Administration (NASA).

**ACTION:** Renewal of information collection.

**SUMMARY:** NASA, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995 (PRA).

**DATES:** Comments are due by July 7, 2025.

**ADDRESSES:** Written comments and recommendations for this information collection should be sent within 60 days of publication of this notice at <http://www.regulations.gov> and search for NASA Docket NASA-2025-0004.

**FOR FURTHER INFORMATION CONTACT:** Requests for additional information or copies of the information collection instrument(s) and instructions should be directed to NASA PRA Clearance Officer, Stayce Hoult, NASA Headquarters, 300 E Street SW, JC0000, Washington, DC 20546, phone 256-714-8575, or email [stayce.d.hoult@nasa.gov](mailto:stayce.d.hoult@nasa.gov) or [hq-ocio-pra-program@mail.nasa.gov](mailto:hq-ocio-pra-program@mail.nasa.gov).

### SUPPLEMENTARY INFORMATION:

#### I. Abstract

The NASA Ames Research Center, Human Systems Integration Division, manages voluntary safety reporting systems to collect and share safety information including, but not limited to, the NASA Aviation Safety Reporting System (ASRS) and the Confidential Close Call Reporting System (C3RS). Both systems are voluntary reporting systems for the reporting of safety incidents, events, or situations. Respondents include, but are not limited to, any participant involved in safety-critical domains such as aviation or railway operations including commercial and general aviation pilots, drone operators, air traffic controllers, flight attendants, ground crews, maintenance technicians, dispatchers, train engineers, conductors, and other members of the public. The collected safety data are used by NASA, Federal Aviation Administration (FAA), Federal

Railroad Administration (FRA), and other organizations that are engaged in research and the promotion of safety. The data are used to (1) Identify deficiencies and discrepancies so that these can be remedied by appropriate authorities, (2) Support policy formulation and planning for improvements and, (3) Strengthen the foundation of human factors safety research. Respondents are not reimbursed for associated cost to provide the information.

NASA is committed to effectively performing the Agency's communication function in accordance with the Space Act Section 203 (a)(3) to "provide for the widest practicable and appropriate dissemination of information concerning its activities and the results thereof," and to enhance public understanding of, and participation in, the nation's aeronautical and space program in accordance with the NASA Strategic Plan.

## II. Methods of Collection

NASA collects this information electronically and that is the preferred manner, however information may also be collected via mail.

## III. Data

*Title:* NASA Aviation Safety Reporting System (ASRS) and Related Voluntary Safety Reporting Systems (VSRS).

*OMB Number:* 2700-0172.

*Type of Review:* Renewal of a previously approved collection.

*Affected Public:* Individuals.

*Estimated Annual Number of Activities:* 100,000.

*Estimated Number of Respondents per Activity:* 1.

*Annual Responses:* 100,000.

*Estimated Time per Response:* 30 minutes.

*Estimated Total Annual Burden Hours:* 50,000 hours.

## IV. Request for Comments

*Comments are invited on:* (1) Whether the proposed collection of information is necessary for the proper performance of the functions of NASA, including whether the information collected has practical utility; (2) the accuracy of NASA's estimate of the burden (including hours and cost) of the proposed collection of information; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on respondents, including automated collection techniques or the use of other forms of information technology.

Comments submitted in response to this notice will be summarized and included in the request for OMB approval of this information collection. They will also become a matter of public record.

## NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

**[NASA Document Number: 25-014; NASA Docket Number: NASA-2025-0005]**

### **Name of Information Collection: NASA Virtual Guest Watch Party Registration**

**AGENCY:** National Aeronautics and Space Administration (NASA).

**ACTION:** Renewal of information collection.

**SUMMARY:** NASA, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995 (PRA).  
**DATES:** Comments are due by July 7, 2025.

**ADDRESSES:** Written comments and recommendations for this information collection should be sent within 60 days of publication of this notice at <https://www.regulations.gov> and search for NASA Docket NASA-2025-0005.

**FOR FURTHER INFORMATION CONTACT:** Requests for additional information or copies of the information collection instrument(s) and instructions should be directed to NASA PRA Clearance Officer, Stayce Hoult, NASA Headquarters, 300 E Street SW, JC0000, Washington, DC 20546, phone 256-714-8575, or email [stayce.d.hoult@nasa.gov](mailto:stayce.d.hoult@nasa.gov) or [hq-ocio-pra-program@mail.nasa.gov](mailto:hq-ocio-pra-program@mail.nasa.gov).

### **SUPPLEMENTARY INFORMATION:**

#### **I. Abstract**

The Virtual Guest Program exists to leverage the excitement around launches and milestones to widely disseminate information about Earth and space phenomena through the sharing of information about research on launches, mission objectives, public engagement activities (coloring pages, social media filters) and the like. The program provides registration opportunities for individuals and watch

parties so that NASA may provide them specific information they are interested in receiving and to share a detailed slice of the NASA efforts in carrying out the other portions of the Space Act of 1958. By learning through information submitted of the plans of Watch Party organizers, NASA can best provide appropriate resources and share information about its activities and results.

NASA is committed to effectively performing the Agency's communication function in accordance with the Space Act section 203(a)(3) to "provide for the widest practicable and appropriate dissemination of information concerning its activities and the results thereof," and to enhance public understanding of, and participation in, the nation's aeronautical and space program in accordance with the NASA Strategic Plan.

## II. Methods of Collection

Electronic/Online Web Form.

## III. Data

*Title:* NASA Virtual Guest Watch Party Registration.

*OMB Number:* 2700-0187.

*Type of Review:* Renewal.

*Affected Public:* Individuals.

*Estimated Annual Number of Activities:* 1.

*Estimated Number of Respondents per Activity:* 100,869.

*Annual Responses:* 100,869.

*Estimated Time per Response:* 2 minutes.

*Estimated Total Annual Burden Hours:* 3,362 hours.

## IV. Request for Comments

*Comments are invited on:* (1) Whether the proposed collection of information is necessary for the proper performance of the functions of NASA, including whether the information collected has practical utility; (2) the accuracy of NASA's estimate of the burden (including hours and cost) of the proposed collection of information; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on respondents, including automated collection techniques or the use of other forms of information technology.

Comments submitted in response to this notice will be summarized and included in the request for OMB approval of this information collection.
