In accordance with the National Environmental Policy Act of 1969¹ and the Federal Energy Regulatory Commission's (Commission) regulations, 18 CFR part 380, the Office of Energy Projects has reviewed the applications for relicensing for the Turners Falls Hydroelectric Project (Turners Falls Project) (FERC No. 1889) and Northfield Mountain Pumped Storage Project (Northfield Mountain Project) (FERC No. 2485) and has prepared a draft environmental impact statement (EIS) for the projects. Commission staff will hold two sessions for the purpose of receiving comments on the draft EIS. All interested individuals and entities will be invited to attend one or both of the sessions. The dates and times of the sessions are listed below.

Evening Comment Session

Date: Wednesday, July 16, 2025.

Time: 6:00 p.m. to 8:00 p.m.

Location: Greenfield Community College, One College Drive, Greenfield, Massachusetts 01301.

Daytime Comment Session

Date: Wednesday, July 16, 2025.

Time: 9:00 a.m. to 11:00 a.m.

Location: Greenfield Community College, One College Drive, Greenfield, Massachusetts 01301.

The sessions will begin promptly at their respective start times listed above. There will not be a formal presentation by Commission staff when the session opens, and you may arrive any time after the scheduled start time. This format is designed to receive the maximum number of oral comments in a convenient way during the timeframe allotted. If you wish to speak, Commission staff will hand out numbers in the order of your arrival. If a significant number of people are interested in providing oral comments with the court reporter, a time limit may be implemented for each commentor. Although there will not be a formal presentation, Commission staff will be available throughout the comment session to answer your questions about the environmental review process. Please see the attachment to this notice for additional information on the session format and conduct.

The primary goal of these comment sessions is to have you identify the specific environmental issues and concerns with the draft EIS. Comments will be recorded by the court reporter and become part of the public record for this proceeding. Transcripts will be publicly available on FERC's eLibrary system.

² Interventions may also be filed electronically via the internet in lieu of paper. See the previous discussion on filing comments electronically.

It is important to note that the Commission provides equal consideration to all comments received, whether filed in writing or provided orally at a public comment session.
