

MARAD prior to DWPA License issuance),” the amendment Delfin seeks would “reflect that the Project now includes three [FLNG vessels], with no change in the currently authorized export volumes.”¹⁰ (Emphasis in original).

In support of its Request, Delfin states that it obtained its DWPA license from MARAD in March 2025, with a five-year construction commencement deadline but no operation commencement deadline. Delfin requests that DOE amend Order No. 4028–D to require the commencement of exports using the planned facilities no later than June 1, 2031, with a configuration of three FLNG vessels. Delfin further identifies the actions it has taken to date to proceed with the construction and operation of its Project.

Additional details can be found in the Request, posted on the DOE website at <https://www.energy.gov/sites/default/files/2025-05/Delfin%20LNG%20DOE%20Extension%20request%20%28050225%29.pdf>.

DOE Evaluation

In reviewing Delfin’s Request, DOE will consider any issues required by law or policy under NGA section 3(a), DOE’s regulations, and any other documents deemed appropriate.

Parties that may oppose the Request should address these issues and documents in their comments and/or protests, as well as other issues deemed relevant to the Request.

The National Environmental Policy Act (NEPA), 42 U.S.C. 4321 *et seq.*, requires DOE to give appropriate consideration to the environmental effects of its proposed decisions. No final decision will be issued in this proceeding until DOE has met its environmental responsibilities.

Public Comment Procedures

In response to this Notice, any person may file a protest, comments, or a motion to intervene or notice of intervention, as applicable, addressing the Request. Interested parties will be provided 30 days from the date of publication of this Notice in the **Federal Register** in which to submit comments, protests, motions to intervene, or notices of intervention. The public previously was given an opportunity to intervene in, protest, and comment on Delfin’s non-FTA application in Docket No. 13–147–LNG.¹¹ Therefore, DOE will not consider comments or protests that do not bear directly on this Request.

Any person wishing to become a party to this proceeding evaluating Delfin’s Request must file a motion to intervene or notice of intervention.¹² The filing of comments or a protest with respect to the Request will not serve to make the commenter or protestant a party to this proceeding, although protests and comments received from persons who are not parties will be considered in determining the appropriate action to be taken on the Request. All protests, comments, motions to intervene, or notices of intervention must meet the requirements specified by DOE’s regulations in 10 CFR part 590, including the service requirements.

Filings may be submitted using one of the following methods:

(1) Submitting the filing electronically at fergas@hq.doe.gov;

(2) Mailing the filing to the Office of Regulation, Analysis, and Engagement at the address listed in the **ADDRESSES** section; or

(3) Hand delivering the filing to the Office of Regulation, Analysis, and Engagement at the address listed in the **ADDRESSES** section.

For administrative efficiency, DOE prefers filings to be filed electronically. All filings must include a reference to “Docket No. 13–147–LNG” or “Delfin LNG LLC Request” in the title line.

For electronic submissions: Please include all related documents and attachments (e.g., exhibits) in the original email correspondence. Please do not include any active hyperlinks or password protection in any of the documents or attachments related to the filing. All electronic filings submitted to DOE must follow these guidelines to ensure that all documents are filed in a timely manner.

The Request, and any filed protests, motions to intervene, notices of intervention, and comments will be available electronically on the DOE website at www.energy.gov/fecm/regulation.

A decisional record on the Request will be developed through responses to this Notice by parties, including the parties’ written comments and replies thereto. Additional procedures will be used as necessary to achieve a complete understanding of the facts and issues. If an additional procedure is scheduled, notice will be provided to all parties. If no party requests additional procedures, a final Order may be issued based on the

official record, including the Request and responses filed by parties pursuant to this Notice, in accordance with 10 CFR 590.316.
