

regulatory relief provided, or to terminate the exemption sooner, if conditions warrant.

B. Terms and Conditions

States issuing CDLs pursuant to this exemption must abide by the following terms and conditions:

1. The State Driver Licensing Agency must submit the names and CDL numbers of drivers who are issued a CDL pursuant to the terms of this exemption, as authorized by 49 CFR 383.73(h) and 384.225(e)(2), monthly to MCPSD@dot.gov.

2. The CDL credential must conform to the requirements of 49 CFR part 383, subpart J.

3. When issuing a K-restricted CDL with the P endorsement pursuant to this exemption, States must continue to comply with the applicable provisions set forth in 49 CFR 383.73.

4. When issuing a K-restricted CDL with the P endorsement pursuant to this exemption, States must place a transit bus only restriction on the CDL in accordance with 49 CFR 383.153(a)(10)(ix).

5. States must conduct the remaining pre-trip vehicle inspection components of the skills test for drivers subject to this exemption, as set forth in 49 CFR 383.113(a)(1)(ii–ix).

6. This exemption applies only to the intrastate operation by an operator of a public transportation system of public transit buses within the State that issues the CDL. Public transit buses are defined as buses used in “public transportation,” as that term is defined in 49 U.S.C. 5302(15). An operator of a public transportation system is defined as any State, local governmental authority, and any other operator of a public transportation system, and its contractor partners, that is subject to the Federal Transit Administration’s safety oversight under 49 CFR part 673.

7. States must continue to comply with 49 CFR 383.133(c)(5), including that interpreters are prohibited and neither the applicant nor the examiner may communicate in a language other than English during the skills test.³

C. Termination

FMCSA does not believe that drivers issued CDLs under the exemption will experience any deterioration of safety below the level that would be achieved without the exemption. The exemption will be rescinded if: (1) States fail to comply with the terms and conditions

of the exemption; (2) the exemption has resulted in a lower level of safety than was maintained before it was granted; or (3) continuation of the exemption would not be consistent with the goals and objectives of 49 U.S.C. 31136(e) and 31315(b).
