

*OMB Number:* 3133–0209.

*Title:* NCUA Template—Large Credit Union Data Collection.

*Type of Review:* Extension of a previously approved collection.

*Abstract:* The NCUA issued regulation under 12 CFR part 702, subpart C, “Capital Planning and Stress Testing” regarding capital planning and stress testing for federally insured credit unions with \$10 billion or more in assets and supervised by Office of National Examinations and Supervision (covered credit unions). The rule authorizes covered credit unions to conduct stress tests in accordance with the NCUA’s requirements. Section § 702.306 provides for the necessary requirements for those credit unions to conduct supervisory stress tests. The “NCUA Template—Large Credit Union Data Collection” was developed for the credit unions to provide NCUA with the specific data needed to evaluate their internal assessments of capital adequacy and to ensure their capital resources are sufficient.

*Affected Public:* Private Sector: Not-for-profit institutions.

*Estimated Number of Respondents:* 37.

*Estimated Number of Responses per Respondent:* 4.405405405.

*Estimated Total Annual Responses:* 163.

*Estimated Hours per Response:* 22.94479.

*Estimated Total Annual Burden Hours:* 3,740.

*Reason for Change:* Increase in the number of new credit unions expected to exceed the asset threshold over the next three years.

*OMB Number:* 3133–0207.

*Title:* Subordinated Debt, 12 CFR part 702, subpart D.

*Type of Review:* Extension of a previously approved collection.

*Abstract:* Subpart D of Part 702 addresses limits on loans to other credit unions; an expansion of the borrowing rule to clarify that federal credit unions (FCUs) can borrow from any source; revisions to the risk-based capital (RBC) rule, and the payout priorities in an involuntary liquidation rule to account for Subordinated Debt and Grandfathered Secondary Capital; and cohering changes to part 741 to account for the other changes proposed in this rule that apply to federally insured, state-chartered credit unions (FISCU). The borrowing authority granted to FCUs by the FCU Act, along with FCUs’ statutory authority to enter into contracts and exercise incidental powers necessary or required to enable the FCUs to effectively carry on their business, supports the legal analysis

that FCUs are authorized to incur indebtedness through the issuance of debt securities of the type contemplated by this proposed rule. This rule permits LICUs, Complex Credit Unions, and New Credit Unions to issue Subordinated Debt Notes for purposes of regulatory capital treatment. It contains a series of requirements in respect of the Subordinated Debt and Subordinated Debt Note, disclosures and offering materials, repayment (including prepayment), and regulatory capital treatment.

*Affected Public:* Private Sector: Not-for-profit institutions.

*Estimated Number of Respondents:* 2,500.

*Estimated Number of Responses per Respondent:* 1.1564.

*Estimated Total Annual Responses:* 2,891.

*Estimated Hours per Response:* 1.817018.

*Estimated Total Annual Burden Hours:* 5,253.

*Reason for Change:* Estimated number of respondents decreased due to the number of credit unions with outstanding borrowing.

*Request for Comments:* Comments submitted in response to this notice will be summarized and included in the request for Office of Management and Budget approval. All comments will become a matter of public record. The public is invited to submit comments concerning: (a) whether the collection of information is necessary for the proper performance of the function of the agency, including whether the information will have practical utility; (b) the accuracy of the agency’s estimate of the burden of the collection of information, including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of the information on the respondents, including the use of automated collection techniques or other forms of information technology.

## NATIONAL SCIENCE FOUNDATION

### Request for Public Comment: National Plan for Arctic Research

**AGENCY:** National Science Foundation (NSF).

**ACTION:** Request for information.

**SUMMARY:** The Interagency Arctic Research Policy Committee (IARPC), chaired by the National Science Foundation, seeks public input from all interested parties on national needs regarding the Arctic and the research necessary to address those needs. The public input provided in response to this RFI will inform the update of the five-year National Arctic Research Plan for 2027–2031.

**DATES:** Written responses are due by October 15, 2025.

**ADDRESSES:** Interested individuals and organizations should submit comments electronically via email to [IARPCPlan@nsf.gov](mailto:IARPCPlan@nsf.gov). Send written submissions to Roberto Delgado, Office of Polar Programs, National Science Foundation, 2415 Eisenhower Avenue, Alexandria, VA 22314.

#### Instructions:

Response to this RFI is voluntary. Please note that all submissions received in response to this notice may be publicly posted or otherwise released in their entirety. Do not include in your submissions any copyrighted material; information of a confidential nature, such as personal or proprietary

information; or any information you would not like to be made publicly available. NSF will not respond to individual submissions. A response to this RFI will not be viewed as a binding commitment to develop or pursue the project or ideas discussed. This RFI is not accepting applications for financial assistance or financial incentives. Responses containing references, studies, research, and other empirical data that are not widely published should include copies of or electronic links to the referenced materials. Responses from minors, or responses containing profanity, vulgarity, threats, or other inappropriate language or content will not be considered. Comments submitted in response to this notice are subject to the Freedom of Information Act (FOIA). Please note that the United States Government will not pay for response preparation, or for the use of any information contained in a response.

#### FOR FURTHER INFORMATION CONTACT:

Please contact the IARPC Executive Secretary, Dr. Lesley Anderson, at 571–565–6963, or by email at [leanders@associates.nsf.gov](mailto:leanders@associates.nsf.gov).

**SUPPLEMENTARY INFORMATION:** The Arctic Research and Policy Act of 1984 (ARPA), 15 U.S.C. Chapter 67, provides for a comprehensive national policy to identify and address national research needs and objectives in the Arctic. The ARPA established an Arctic Research Commission (USARC), designated the National Science Foundation as the lead agency responsible for implementing Arctic research policy, and established an Interagency Arctic Research Policy Committee (IARPC). The ARPA legislation charges the IARPC, in cooperation with the USARC, to develop and establish an integrated national Arctic research policy that will guide Federal agencies in implementing their research programs in the Arctic.

#### About the Arctic Research Plan

IARPC is required by law to prepare and execute a 5-year Arctic Research Plan, which helps to coordinate the overall Federal effort in Arctic research. To date, three five-year Arctic Research Plans have been released and implemented, the most recent covering 2022–2026, and the current Implementation Plan for 2025–2026 is available here. As required by the ARPA legislation, IARPC works in partnership with USARC, as well as with representatives from Arctic communities, federally recognized Tribal groups, the State of Alaska, the private sector, non-governmental organizations, research institutions, and
