

documents. The dates and times of the scoping meetings are listed below.

Daytime Scoping Meeting

Date: Wednesday, August 27, 2025

Time: 1:00 p.m. to 3:00 p.m. Eastern

Daylight Time (EDT)

Location: Hampton Inn and Suites by

Hilton Poughkeepsie, 2361 South

Road, Poughkeepsie, New York

Evening Scoping Meeting

Date: Wednesday, August 27, 2025

Time: 6:00 p.m. to 8:00 p.m. Eastern

Daylight Time (EDT)

Location: Hampton Inn and Suites by

Hilton Poughkeepsie, 2361 South

Road, Poughkeepsie, New York

Copies of SD1, outlining the subject areas to be addressed in the environmental documents, were mailed to the individuals and entities on the Commission's mailing list and Central Hudson's PAD distribution list. Copies of SD1 may be viewed on the web at <http://www.ferc.gov>, using the "eLibrary" link. Follow the directions for accessing information in paragraph n. Based on all oral and written comments, a Scoping Document 2 (SD2) may be issued. SD2 may include a revised process plan and schedule, as well as a list of issues, identified through the scoping process.

Environmental Site Review: Central Hudson and Commission staff will hold an environmental site review of the Sturgeon Pool and Dashville Projects from 9:00 a.m. to 12:00 p.m. EDT, August 28, 2025. All interested individuals, agencies, Tribes, and NGOs are invited to attend. Please RSVP to Katie Raine at katie.raine@hdrinc.com or by phone at (207) 239-3789, no later than August 20, 2025 to register for the environmental site review. For security purposes, Central Hudson requests that interested persons provide a photocopy of a photo ID by email to facilitate production of badges to be worn on-site during the environmental site review. All persons attending the environmental site review must wear sturdy, closed-toe shoes or boots, hard hats, and safety glasses (PPE) while on-site, please bring personal PPE.

Central Hudson will provide transportation for confirmed participants to the environmental site review from the Hampton Inn and Suites by Hilton Poughkeepsie. Confirmed participants should arrive by 8:45 a.m. to board the buses as they will depart promptly at 9:00 a.m. The environmental site review will include the Sturgeon Pool Project site, Dashville Project site, and non-project public recreation facilities in the vicinity of the Dashville Project. Buses will return to the Hampton Inn and Suites at approximately 12:00 p.m.

Meeting Procedures: Agencies, Indian Tribes, NGOs, and individuals with environmental expertise and concerns are encouraged to attend the meetings and to assist the staff in defining and clarifying the issues to be addressed in the NEPA documents. At the start of each meeting, Commission staff will provide a brief overview of the meeting format and objectives. Individual oral comments will be taken on a one-on-one basis with a court reporter (with Commission staff present). This format is designed to receive the maximum number of oral comments in a convenient way during the timeframe allotted. If you wish to speak, Commission staff will hand out numbers in the order of your arrival. If all individuals who wish to provide comments have had an opportunity to do so, Commission staff may conclude the meeting a half hour earlier than the scheduled time. Please see appendix C of the SD1 for additional information on the session format and conduct.¹

Scoping comments will be recorded by the court reporter and become part of the public record for these proceedings. Transcripts will be publicly available on FERC's eLibrary system. If a significant number of people are interested in providing oral comments in the one-on-one settings, a time limit may be implemented for each commentor.

It is important to note that the Commission provides equal consideration to all comments received, whether filed in writing or provided orally at a scoping session. Although there will not be a formal presentation, Commission staff will be available throughout the scoping meeting(s) to answer your questions about the environmental review process. Representatives from Central Hudson will also be present to answer project-specific questions.

Dated: July 28, 2025.

Carlos D. Clay,

Deputy Secretary.

BILLING CODE 6717-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. CP25-522-000]

Colorado Interstate Gas Company, L.L.C.; Notice of Request Under Blanket Authorization and Establishing Intervention and Protest Deadline

Take notice that on July 16, 2025, Colorado Interstate Gas Company, L.L.C. (CIG), Post Office Box 1087, Colorado Springs, Colorado 80944, filed in the above referenced docket, a prior notice request pursuant to sections 157.205 and 157.216(b) of the Commission's regulations under the Natural Gas Act (NGA), and CIG's blanket certificate issued in Docket No. CP83-21-000, for authorization to abandon, by sale, its Table Rock Compressor Station and associated 4.3-mile, 12-inch-diameter Table Rock Loop Line (Line No. 44B) all located in Sweetwater County, Wyoming (Table Rock Abandonment Project). The project will allow CIG to avoid future operational and maintenance expenses associated with the facilities, all as more fully set forth in the request which is on file with the Commission and open to public inspection.

In addition to publishing the full text of this document in the **Federal Register**, the Commission provides all interested persons an opportunity to view and/or print the contents of this document via the internet through the Commission's Home Page (<http://www.ferc.gov>). From the Commission's Home Page on the internet, this information is available on eLibrary. The full text of this document is available on eLibrary in PDF and Microsoft Word format for viewing, printing, and/or downloading. To access this document in eLibrary, type the docket number excluding the last three digits of this document in the docket number field.

User assistance is available for eLibrary and the Commission's website during normal business hours from FERC Online Support at (202) 502-6652 (toll free at 1-866-208-3676) or email at ferconlinesupport@ferc.gov, or the Public Reference Room at (202) 502-8371, TTY (202) 502-8659. Email the Public Reference Room at public.referenceroom@ferc.gov.

Any questions concerning this request should be directed to Francisco Tarin, Director, Regulatory, Colorado Interstate Gas Company, L.L.C., Two North Nevada Avenue, Colorado Springs, Colorado 80903, by phone at (719) 667-

¹ The appendix referenced in this notice will not appear in the **Federal Register**. A copy of the appendix was sent to all those receiving this notice in the mail and is available at www.ferc.gov using the "eLibrary" link. For assistance, contact FERC at FERCOnlineSupport@ferc.gov, or (866) 208-3676 (toll free) or (202) 502-8659 (TTY).

7515, or by email at francisco_tarin@kindermorgan.com.

Public Participation

There are three ways to become involved in the Commission's review of this project: you can file a protest to the project, you can file a motion to intervene in the proceeding, and you can file comments on the project. There is no fee or cost for filing protests, motions to intervene, or comments. The deadline for filing protests, motions to intervene, and comments is 5:00 p.m. Eastern Time on September 26, 2025. How to file protests, motions to intervene, and comments is explained below.

The Commission's Office of Public Participation (OPP) supports meaningful public engagement and participation in Commission proceedings. OPP can help members of the public, including landowners, community organizations, Tribal members and others, access publicly available information and navigate Commission processes. For public inquiries and assistance with making filings such as interventions, comments, or requests for rehearing, the public is encouraged to contact OPP at (202) 502-6595 or OPP@ferc.gov.

Protests

Pursuant to section 157.205 of the Commission's regulations under the NGA,¹ any person² or the Commission's staff may file a protest to the request. If no protest is filed within the time allowed or if a protest is filed and then withdrawn within 30 days after the allowed time for filing a protest, the proposed activity shall be deemed to be authorized effective the day after the time allowed for protest. If a protest is filed and not withdrawn within 30 days after the time allowed for filing a protest, the instant request for authorization will be considered by the Commission.

Protests must comply with the requirements specified in section 157.205(e) of the Commission's regulations,³ and must be submitted by the protest deadline, which is September 26, 2025. A protest may also serve as a motion to intervene so long as the protestor states it also seeks to be an intervenor.

Interventions

Any person has the option to file a motion to intervene in this proceeding. Only intervenors have the right to

request rehearing of Commission orders issued in this proceeding and to subsequently challenge the Commission's orders in the U.S. Circuit Courts of Appeal.

To intervene, you must submit a motion to intervene to the Commission in accordance with Rule 214 of the Commission's Rules of Practice and Procedure⁴ and the regulations under the NGA⁵ by the intervention deadline for the project, which is September 26, 2025. As described further in Rule 214, your motion to intervene must state, to the extent known, your position regarding the proceeding, as well as your interest in the proceeding. For an individual, this could include your status as a landowner, ratepayer, resident of an impacted community, or recreationist. You do not need to have property directly impacted by the project in order to intervene. For more information about motions to intervene, refer to the FERC website at <https://www.ferc.gov/resources/guides/how-to-intervene.asp>.

All timely, unopposed motions to intervene are automatically granted by operation of Rule 214(c)(1). Motions to intervene that are filed after the intervention deadline are untimely and may be denied. Any late-filed motion to intervene must show good cause for being late and must explain why the time limitation should be waived and provide justification by reference to factors set forth in Rule 214(d) of the Commission's Rules and Regulations. A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies (paper or electronic) of all documents filed by the applicant and by all other parties.

Comments

Any person wishing to comment on the project may do so. The Commission considers all comments received about the project in determining the appropriate action to be taken. To ensure that your comments are timely and properly recorded, please submit your comments on or before September 26, 2025. The filing of a comment alone will not serve to make the filer a party to the proceeding. To become a party, you must intervene in the proceeding.

How To File Protests, Interventions, and Comments

There are two ways to submit protests, motions to intervene, and comments. In both instances, please

reference the Project docket number CP25-522-000 in your submission.

(1) You may file your protest, motion to intervene, and comments by using the Commission's eFiling feature, which is located on the Commission's website (www.ferc.gov) under the link to Documents and Filings. New eFiling users must first create an account by clicking on "eRegister." You will be asked to select the type of filing you are making; first select "General" and then select "Protest", "Intervention", or "Comment on a Filing"; or⁶

(2) You can file a paper copy of your submission by mailing it to the address below. Your submission must reference the Project docket number CP25-522-000.

To file via USPS: Debbie-Anne A. Reese, Secretary, Federal Energy Regulatory Commission, 888 First Street NE, Washington, DC 20426.

To file via any other method: Debbie-Anne A. Reese, Secretary, Federal Energy Regulatory Commission, 12225 Wilkins Avenue, Rockville, Maryland 20852.

The Commission encourages electronic filing of submissions (option 1 above) and has eFiling staff available to assist you at (202) 502-8258 or FercOnlineSupport@ferc.gov.

Protests and motions to intervene must be served on the applicant either by mail at: Francisco Tarin, Director, Regulatory, Colorado Interstate Gas Company, L.L.C., Two North Nevada Avenue, Colorado Springs, Colorado 80903, by phone at (719) 667-7515, or by email (with a link to the document) at francisco_tarin@kindermorgan.com. Any subsequent submissions by an intervenor must be served on the applicant and all other parties to the proceeding. Contact information for parties can be downloaded from the service list at the eService link on FERC Online.

Tracking the Proceeding

Throughout the proceeding, additional information about the project will be available from the Commission's Office of External Affairs, at (866) 208-FERC, or on the FERC website at www.ferc.gov using the "eLibrary" link as described above. The eLibrary link also provides access to the texts of all formal documents issued by the Commission, such as orders, notices, and rulemakings.

⁶ Additionally, you may file your comments electronically by using the eComment feature, which is located on the Commission's website at www.ferc.gov under the link to Documents and Filings. Using eComment is an easy method for interested persons to submit brief, text-only comments on a project.

¹ 18 CFR 157.205.

² Persons include individuals, organizations, businesses, municipalities, and other entities. 18 CFR 385.102(d).

³ 18 CFR 157.205(e).

⁴ 18 CFR 385.214.

⁵ 18 CFR 157.10.

In addition, the Commission offers a free service called eSubscription which allows you to keep track of all formal issuances and submittals in specific dockets. This can reduce the amount of time you spend researching proceedings by automatically providing you with notification of these filings, document summaries, and direct links to the documents. For more information and to register, go to www.ferc.gov/docs-filing/esubscription.asp.

Dated: July 28, 2025.

Carlos D. Clay,
Deputy Secretary.

BILLING CODE 6717-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Project No. 2740-053]

Duke Energy Carolinas, LLC; Notice of Application Tendered for Filing With the Commission and Establishing Procedural Schedule for Relicensing and Deadline for Submission of Final Amendments

Take notice that the following hydroelectric application has been filed with the Commission and is available for public inspection.

- a. *Type of Application:* New Major License.
- b. *Project No.:* 2740-053.
- c. *Date Filed:* July 14, 2025.
- d. *Applicant:* Duke Energy Carolinas, LLC (Duke Energy).
- e. *Name of Project:* Bad Creek Pumped Storage Project (Bad Creek Project).
- f. *Location:* Oconee County, South Carolina.
- g. *Filed Pursuant to:* Federal Power Act, 16 U.S.C. 791 (a)-825(r).
- h. *Applicant Contact:* Alan Stuart, Hydro Licensing Project Manager, Duke Energy Carolinas, LLC, Mail Code DEP-35B 525 South Tryon Street, Charlotte, NC 28202; (980) 373-2079; alan.stuart@duke-energy.com.
- i. *FERC Contact:* Sarah Salazar at (202) 502-6863, or sarah.salazar@ferc.gov.
- j. This application is not ready for environmental analysis at this time.
- k. *Project Description:* The existing Bad Creek Pumped Storage Project includes: (1) a 363-acre upper reservoir with a storage capacity of 35,513 acre-feet, of which 31,808 acre-feet is usable storage capacity between minimum elevation 2,150 feet mean sea level (msl) and full pond elevation of 2,310 feet

msl; (2) a rockfill dam across Bad Creek with crest elevation at 2,315 feet msl, 2,581 feet long, and 360 feet high; (3) a rockfill dam across West Bad Creek with crest elevation at 2,315 feet msl, 908 feet long and 170 feet high; (4) a saddle dike across a natural depression on the eastern rim of the reservoir with crest elevation at 2,313 feet msl, 960 feet long, and 90 feet high; (5) an ungated water intake structure in the upper reservoir; (6) a power tunnel totaling 5,026 feet long and 29.53 feet in diameter, connecting to four concrete, steel-lined penstocks about 386 feet long and varying from 13.78 to 8.43 feet in diameter; (7) an underground powerhouse containing four reversible pump-generating units, with a nameplate rating of 350,000 kilowatts each, for a total generating capacity of 1,400 megawatts (MW); (8) four concrete-lined draft tube tunnels about 316 feet long and 16.4 feet in diameter, connecting to two concrete-lined tailrace tunnels about 875 feet long and 24.61 feet in diameter; (9) an inlet/outlet structure equipped with four 20-foot by 30-foot, steel lift gates, located in the existing Lake Jocassee which serves as the lower reservoir; (10) transmission facilities consisting of (a) generator leads connecting the powerhouse to four above ground step-up transformers, (b) a 100-kV transmission line extending about 9.25 miles from the Bad Creek switchyard to the Jocassee switchyard, (c) a 525-kV transmission line extending about 9.25 miles from the Bad Creek switchyard to the Jocassee switchyard; and (11) appurtenant facilities. The project also includes an existing 4.8-mile-long road that leads from the project entrance to the powerhouse area near Lake Jocassee.

The project is an automated pumped storage plant where water is regularly moved from the upper reservoir to the lower reservoir during generation, and from the lower reservoir back to the upper reservoir during pumping. All water utilized for generation originates from the 7,980-acre lower reservoir (Lake Jocassee) which has a normal maximum elevation of 1,110 feet msl and normal minimum elevation of 1,080 feet msl. The project is licensed to operate on a weekly pump-storage cycle with the upper reservoir fluctuating between 2,310 feet msl (normal max. elevation) and 2,150 feet msl (normal min. elevation), resulting in a maximum drawdown of 160 feet and 31,808 acre-feet useable storage capacity. In practice, the project operates in a daily pump-storage cycle by maintaining the upper reservoir above 2,250 feet msl for approximately 97% of the time to

maximize head and unit efficiency. The average annual generation of the project is about 1,884,685 MWh. The average annual energy required for pumping during the same period is about 2,398,114 MWh. The net energy consumption of the project is 513,429 MWh.

Duke Energy proposes to continue to operate and maintain the project as well as to construct, operate, and maintain a second generating facility, the Bad Creek II Complex, which would consist of a new: (1) upper reservoir inlet/outlet structure, (2) water conveyance system, (3) underground powerhouse, (4) powerhouse access tunnels, (5) lower reservoir inlet/outlet structure, (6) switchyard, (7) transformer yard, and (8) transmission line. The proposed powerhouse would include four new, reversible pump-turbine units with an installed generating and pumping capacity between 106 MW and 425 MW. Average annual generation would increase by up to 25,856 MWh. No modifications would be made to the existing upper and lower reservoirs. Duke Energy proposes a new project boundary that includes all lands necessary for access, or control of, the expanded project.

I. In addition to publishing the full text of this notice in the **Federal Register**, the Commission provides all interested persons an opportunity to view and/or print the contents of this notice, as well as other documents in the proceeding (e.g., license application) via the internet through the Commission's Home Page (<http://www.ferc.gov>), using the "eLibrary" link. Enter the docket number, excluding the last three digits in the docket number field to access the document (P-14796). For assistance, please contact FERC Online Support at FERCOnlineSupport@ferc.gov, (866) 208-3676 (toll free), or (202) 502-8659 (TTY).

You may also register online at <https://ferconline.ferc.gov/ferconline.aspx> to be notified via email of new filings and issuances related to this or other pending projects. For assistance, contact FERC Online Support.

m. The Commission's Office of Public Participation (OPP) supports meaningful public engagement and participation in Commission proceedings. OPP can help members of the public, including landowners, community organizations, Tribal members and others, access publicly available information and navigate Commission processes. For public inquiries and assistance with making filings such as interventions, comments, or requests for rehearing, the
